CHINA NATURAL RESOURCES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Amounts in thousands, except share and per share data)

1.

**BASIS OF PRESENTATION, RECENT ACCOUNTING PRONOUNCEMENTS AND APPROPRIATED
RETAINED EARNINGS**

Basis of presentation

Management has elected to prepare the accompanying unaudited condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States of America for second quarter interim financial information. Accordingly, they do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month and six-month periods ended June 30, 2007, are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

The balance sheet at December 31, 2006 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 20-F for the year ended December 31, 2006.

For the convenience of the reader, amounts in Renminbi (RMB) have been translated into United States dollars (US\$) at the rate of US\$1.00 = RMB7.61 quoted by the People's Bank of China as at June 30, 2007. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate, or that the translation into US\$ is in accordance with US generally accepted accounting principles.

Recent accounting pronouncements

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes and Interpretation of FASB Statement No. 109, or FIN 48, on January 1, 2007, and did not have any unrecognized tax benefits. There was no effect on the Company's financial condition or results of operations as a result of implementing FIN 48.

The Company files income tax returns in various foreign jurisdictions. Prior to the Redomicile Merger, the Company filed US federal tax returns through 2004. The Company is no longer subject to U.S. federal tax examinations for these returns. Various state and foreign jurisdiction tax years remain open to examination as well, though the Company believes any additional assessment will be immaterial to its consolidated financial statements.

On March 16, 2007, the 10th People's Congress of China passed the China Unified Corporate Income Tax Law (the Unified Tax Law), effective on January 1, 2008, which establishes a single unified 25% income tax rate for most companies, with a preferential income tax rate of 15% to be applicable to sino-foreign joint ventures for three years commencing from its third profitable year (2005 for Wuhu) through fifth profitable year (2007 for Wuhu). The Company believes that the Unified Tax Law does not impact its qualification to enjoy a tax exemption in fiscal year 2007.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of the date of adoption of FIN 48, the Company did not have any accrued interest or penalties associated with any unrecognized tax benefits, nor was any interest expense recognized during the quarter.

1.

BASIS OF PRESENTATION, RECENT ACCOUNTING PRONOUNCEMENTS AND APPROPRIATED RETAINED EARNINGS (Continued)

Appropriated retained earnings

In accordance with the relevant PRC regulations and the Articles of Association of Wuhu (the "Articles of Association"), appropriations of net income as reflected in its PRC statutory financial statements are to be allocated to each of the general reserve and enterprise expansion reserve, respectively, as determined by the resolution of the Board of Directors annually. Through June 30, 2007, appropriations of RMB 7,331 (US\$963) have been made.

2.

ACQUISITION

On February 3, 2006 (the Acquisition Date), the Company acquired all of the issued and outstanding capital stock of Feishang Mining Holdings Limited (FMH). The Acquisition of FMH by the Company was accounted for using the purchase method of accounting and is treated as a reverse acquisition because on a post-merger basis, the former FMH shareholder holds 86.4% of the outstanding common shares of the Company. As a result, FMH is deemed to be the acquirer for accounting purposes. Accordingly, the consolidated financial statements included herein present the financial information of FMH for all periods prior to the Acquisition Date and the financial information of the consolidated companies from the Acquisition Date forward. Historical share and per share amounts for the periods prior to the Acquisition have been retroactively restated to reflect the exchange ratio established in the transaction, in a manner similar to a reverse stock split. The consolidated retained earnings of FMH have been carried forward after the Acquisition.

As consideration for the Acquisition, the Company issued to the former FMH shareholder 9,980,593 of the Company's common shares, as well as warrants (the Warrants) to purchase an additional 4,500,000 of the Company's common shares. In connection with the Acquisition, 320,000 series B preferred shares owned by a former officer and director were converted into 320,000 common shares. The Warrants entitle the holder to purchase: 2,000,000 common shares of the Company at an exercise price of US\$4.00 per share for a period of two years from the Acquisition Date; 1,500,000 common shares at an exercise price of US\$4.50 per share for a period of three years from the Acquisition Date; and 1,000,000 common shares at an exercise price of US\$5.00 per share for a period of four years from the Acquisition Date. Other than the exercise price and exercise period, all other terms and conditions of the Warrants are identical.

The following table summarizes the fair values of the Company's assets and liabilities acquired by FMH at the Acquisition Date. The purchase price was determined by multiplying the number of outstanding shares immediately prior to consummating the acquisition (1,567,823) by the closing price of the Company's common shares the day prior to the public announcement of the Acquisition Agreement between the Company and FMH.

During the year ended December 31, 2006, the goodwill of RMB21,915 (US\$2,880) was eliminated upon the disposal of the reporting units to which the goodwill had been assigned (Note 3).

2.

ACQUISITION (Continued)

The following unaudited proforma financial information presents results of operations as if the above acquisitions had occurred at the beginning of the three and six-month periods ended June 30, 2006:

	Three months ended June 30, 2006	Six months ended June 30, 2006

3.

DISPOSITION OF ASSETS

On July 31, 2006, the Company disposed of its 100% equity interest in iSense to the director and former shareholder of iSense for consideration of RMB2,060 (US\$271). On October 3, 2006, the Company disposed of its 100% equity interest in Hainan Cihui Industrial Co. Ltd. (HARC) to an unaffiliated third party for total consideration of RMB30,900 (US\$4,060). The Company recognized a loss of approximately RMB11,901 (US\$1,564) from the dispositions including goodwill written off of RMB21,915 (US\$2,880) which was recorded in 2006. As a result of the dispositions, the Company ceased its advertising operation effective July 31, 2006 and its commodity trading operation effective October 3, 2006, and their results have been retroactively restated as discontinued operations. Revenues from discontinued operations were RMB212 (US\$28) and RMB306 (US\$40) for the three months and six months ended June 30, 2006. Loss before income taxes from discontinued operations were RMB212 (US\$28) and RMB486 (US\$64) for the three and six months ended June 30, 2006, respectively.

During the period ended June 30, 2007, the amount due to a director, Mr. Li Feilie, of RMB8,594 was fully repaid.

7.

INVESTMENT IN SUBSIDIARY

In June 2007, the Company, through Wuhu, established a new subsidiary, Yunnan Feishang Mining Development C. Ltd. (Yunnan), a company organized in the PRC with a registered capital of RMB10,000 (US\$1,314). Yunnan was established to engage in the mining and processing of nonferrous metal in the PRC. Yunnan has not yet commenced operations.

8.

SUBSEQUENT EVENTS

On August 1, 2007, 2,300,000 stock options were granted to officers, directors and key employees of the Company at an exercise price of US\$8.51 per share (the fair market value of the Company's common stock as of July 31, 2007). The options are exercisable commencing on the day following the grant date and terminating three years following the grant date. The estimated fair value of these options at the date of grant using the Black Scholes option pricing model was RMB67,131 (US\$8,821)

On August 24, 2007, the Company completed the sale, to six non-U.S. residents, of an aggregate of 2,187,500 units, each unit consisting of two common shares and one warrant to purchase one common share, for a sales price of US\$16.00 per unit, or an aggregate of US\$35,000. Each warrant entitles the holder to purchase one common share at an exercise price of US\$10.00 per share for a three-year period commencing August 24, 2008. The investors were granted certain demand and piggyback registration rights for the common shares included in the units.

On September 10, 2007, the Company, through Yunnan, entered into an agreement with several unrelated parties, to establish Hainan Nonferrous Metal Mining Co. Ltd. (Hainan Nonferrous Metal), a PRC joint stock limited liability company. The registered capital of Hainan Nonferrous Metal is RMB68,000 (US\$8,936), of which Yunnan is obligated to contribute RMB32,640 (US\$4,289), representing 48% of the registered capital. According to the agreement, the shareholders shall pay their respective capital contributions within 30 days after entering into the agreement. Hainan Nonferrous Metal is established to engage in the exploration, mining and processing of nonferrous metal, and trading of mineral products in Hainan and other provinces in the PRC.

9.

CONCENTRATION OF RISK

Concentration of credit risk:

Financial instruments that potentially subject the Company to significant concentration of credit risk consist principally of cash deposits and trade receivables.

(i)

Cash and cash deposits

The Company maintains its cash and cash deposits primarily with various PRC State-owned banks and Hong Kong based financial institutions. The Company performs periodic evaluations of the relative credit standing of those financial institutions.

(ii)

Trade receivables

The Company sells zinc and iron products to companies in the PRC. Management considers that the Company's current customers are generally creditworthy and credit is extended based on an evaluation of the customers' financial conditions and, therefore, generally collateral is not required. The Company maintains reserves for potential credit losses based on its loss history and aging analysis. Such losses have been within management's expectations. At December 31, 2006 and June 30, 2007, the largest five customers accounted for 100% of trade receivables. During the six months ended June 30, 2006, three customers accounted 71%, 9% and 6%, respectively, of the Company's sales. During the six months ended June 30, 2007, three customers accounted 68%, 10% and 5%, respectively, of the Company's sales.

The Company's entire production of zinc for the six months ended June 30, 2006 and 2007 was sold to a single customer, Huludao Zinc Industry Co. Ltd. (葫芦岛). Wuhu is a party to a one-year non-binding sales contract with Huludao, subject to renewal every year. While the sales contract has been renewed on an annual basis in the past, in the event Wuhu and Huludao are unable to agree upon renewal terms or if Wuhu's sales contract with Huludao is not renewed for any other reason, Wuhu will have to identify one or more alternative outlets for its mineral production.

9.

CONCENTRATION OF RISK (Continued)

The Company sub-contracts its ore extraction work to a third party. To some extent, the Company's operations are affected by the performance of the contractor, whose activities are not within the Company's control. If the contractor fails to achieve the guaranteed monthly extraction volume, or the contractor otherwise fails to perform its obligations under its agreement with the Company, the agreement may be terminated by the Company; however, termination of the relationship could adversely affect the Company's operating results.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NET SALES AND GROSS PROFIT

Sales for the six months ended June 30, 2007 increased by 14% compared to June 30, 2006. The increase was mainly due to the 41% increase in the average selling price of zinc, partly offset by the decrease in the sales volume of zinc as actual zinc mined was 23% lower during the current period. During the six months ended June 30, 2007, revenue of RMB1,073,000 (US\$141,000) was recorded from the sale of copper which was found in the mines in late 2006.

Sales for the second quarter of 2007 increased by 2% compared to the corresponding period in 2006. The increase was mainly due to the increase in the average selling price of zinc of 16% and revenue from the sale of copper, partly offset by the decrease in the sales volume of zinc of 26% as the actual zinc mined was lower during the second quarter.

The gross profit margin for the three months and six months ended June 30, 2007 was 69% each period, compared to 72% and 67% for the corresponding periods in 2006. The decrease of gross profit margin for the second quarter of 2007 was due to the decline of zinc purity. The increase of gross profit margin for the first half of 2007 was primarily due to the increase in selling price of zinc as a result of increased demand.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses decreased by RMB1,368,000 (US\$180,000) or 19% to RMB5,738,000 (US\$754,000) for the six months ended June 30, 2007 from RMB7,106,000 (US\$934,000) for the six months ended June 30, 2006. The decrease was primarily attributable to the decrease in legal and professional expenses of approximately RMB670,000 (US\$88,000) as there were more expenses incurred in 2006 in connection with the reverse acquisition. The decrease was also due to the reduction in the provision for our employee welfare fund which depends on business performance.

Selling, general and administrative expenses decreased by RMB1,042,000 (US\$137,000) or 28% to RMB2,673,000 (US\$351,000) for the second quarter of 2007 from RMB3,715,000 (US\$488,000) for the second quarter of 2006. The decrease was primarily attributable to the decrease in legal and professional expenses of approximately RMB360,000 (US\$47,000) as there were more expenses incurred in 2006 in connection with the reverse acquisition and disposal of businesses. The decrease was also due to the reduction in the provision for our employee welfare fund which depends on business performance.
