PART I

Item 1. Description of Business.

Our Background. We were incorporated in Nevada on October 8, 2001 in order to serve as a holding company for Salty's Warehouse, Inc. As of December 31, 2003, we owned 80% of Salty's Warehouse. Other than our ownership of Salty's Warehouse, we have no other business operations.

Our Business. Subsequent to the period covered by this report, our new management has undertaken to change our business focus. Prior to March 2004, we operated through our subsidiary, Salty's Warehouse, as described below.

Under our new management, we hope to begin acquiring low-risk, high-grade properties for gold exploration in Nevada. Using the evaluation technique described herein, we hope to acquire properties that will offer new economically viable gold mining properties for resale to entities who will undertake to begin mining operations on those properties. We believe that our technical team, consisting of our new management will help us operate successfully: Earl Abbot, our new officer and director, has extensive data and program management experience; Stan Keith, one of our new directors, has data and technical advisory experience; and Carl Pescio, also one of our new directors, has 'on-the-ground' prospecting and property knowledge.

In particular, Stan Keith has developed what we believe to be a new and unique technological approach for exploration of certain types of gold deposits; we hope to use this approach to identify suitable properties. Mr. Keith's approach has been developed over a twenty year period and has been applied to a large, world-wide database that links specific geochemical signatures of these types of gold deposits.

We will seek to acquire only properties that exhibit these characteristics. We believe that using this methodology can enable us to eliminate properties that would turn out to contain lower quality gold deposits. Utilizing this geochemical screening methodology, we will seek to operate a successful property acquisition program that eliminates higher risk properties.

We are currently arranging to acquire four properties in Nevada that meet our preliminary screening criteria and undertake our more detailed evaluation process. In addition, we are actively seeking additional properties; our

Edgar Filing: NUCOTEC INC - Form 10KSB

technical team currently has about 30 such properties on a 'watch list' for acquisition.

Salty's Warehouse. Salty's Warehouse, Inc. was incorporated in Florida on July 16, 1998 and is engaged in selling name brand consumer products over the Internet. Salty's Warehouse focuses on selling consumer electronics and audio-video equipment such as speakers, amplifiers, and tuners, although Salty's Warehouse also sells assorted other goods such as watches, sunglasses and sports games. Some of the brand names currently offered by Salty's Warehouse include: Compaq(R), Revo(R), MB Quart(R), Kicker(R), Poly Planar(R), Sony(R), Panasonic(R), Harman Kardon(R), Panamax(R), Seiko(R) and Movado(R).

On May 10, 2002, two of the Salty's Warehouse founders, Steve Hudson and Earl Shannon owned 100% of the outstanding stock of Salty's Warehouse and sold 80% of this outstanding stock to Nucotec, through a Plan of Reorganization and Acquisition. As consideration for their shares, Steve Hudson and Earl Shannon each received 456,000 Nucotec shares, representing 15% of the outstanding shares of the company on a fully diluted basis. The agreement also provided for Steve Hudson and Earl Shannon to each retain 10% of Salty's outstanding shares.

In addition to serving as our President and as one of our directors, Earl Shannon is the President, Secretary, Treasurer and sole director of Salty's. Steve Hudson is our Secretary and one of our directors.

Marketing and Distribution. Salty's Warehouse sells its products over the Internet. Salty's Warehouse is hosted by Yahoo!(R) Store. With the exception of its inclusion on the Yahoo Shopping directory, Salty's does not spend money on advertising, but instead relies on customer referrals and Internet search engine search results. Our management believes that satisfied customers may refer new customers to Salty's through direct referral or by posting on message boards. Additionally, our management believes that Salty's five star rating with Yahoo Stores may be attractive to new customers.

At no cost to Salty's Warehouse, the Salty's Warehouse web site is listed by a number of the Internet search engines and directories, including Yahoo, Yahoo Store, Yahoo Shopping, Google, Hotbot, Altavista, Dogpile, Overture, and Fastsearch.

Salty's Warehouse does not own or store the items listed for sale on its web site in inventory. Rather, all items are held in stock from the suppliers we purchase them from. When we receive an order for a product, we fax it to the supplier that is providing this product on our behalf. This supplier ships the product directly to the ordering customer and invoices us at the time of shipment with 30 day terms. We obtain products through relationships with suppliers or we seek suppliers based on customer inquiries regarding specific products.

The hosting of our website by Yahoo!(R) Store is subject to an ongoing month-to-month merchant service agreement between Salty's Warehouse and Yahoo! Store. This agreement requires Salty's Warehouse to pay Yahoo!(R) Store a hosting fee in the amount of \$49.95 per month, a monthly insertion fee in the amount of \$0.10 for every product we make available for sale, a monthly transaction fee equal to 0.5% of total revenue generated and a monthly revenue share fee equal to 3.5% of revenue generated from any transactions stemming from traffic coming from the Yahoo!(R) Shopping directory on the www.yahoo.com web site.

In addition to the consumer goods, Salty's Warehouse, in cooperation with

Edgar Filing: NUCOTEC INC - Form 10KSB

International Yacht Collection, may offer yachts for sale on its web site. International Yacht Collection is the selling broker of these yachts and in the event that it sells through Salty's Warehouse, Salty's Warehouse will receive 1.25% of the selling price. In the future, Salty's may offer for sale on its web site other yachts and products of International Yacht Collection on a similar basis through a written agreement which is terminable upon 30 days' prior notice by either party. International Yacht Collection is a yacht brokerage company owned by Harris W. Hudson, who is one of our stockholders and the father of our Secretary and director, Steven W. Hudson. Also, Steven W. Hudson's parents are the owners of the yacht currently listed for sale on the Salty's website. See "Certain Relationships and Related Transactions."

Security Measures. Salty's Warehouse has not implemented any technical measures on its web site to safeguard the data of its customers other than those provided by Yahoo Stores as part of its hosting service for the Salty's Warehouse website.

Privacy Policy. Salty's Warehouse has adopted a privacy policy, posted on its web site, that it will not share personal information collected from its customers with outside parties except to the extent necessary to complete an order.

Principal Suppliers. Our principal suppliers are Sawgrass Distributors, Inc., Esha, Inc., and U.S. Imaging Solutions. We do not have any written agreements with them. These suppliers ship products purchased on our web site directly to our purchasers.

Intellectual Property. On April 2, 2002, Salty's Warehouse filed a trademark application for "Salty's Warehouse," Serial Number 76234037, with the U.S. Patent and Trademark Office but there is no guarantee that this trademark will be registered with the U.S. Patent and Trademark Office. At this time, neither Nucotec nor Salty's Warehouse has any other trademark, copyright or patent protection. In the event Salty's Warehouse is unable to acquire the trademark, "Salty's Warehouse," Salty's Warehouse will find it difficult to enforce any claim to exclusive use of this term and making it possible for competitors to use it.

Competition. Although Salty's Warehouse faces intense competition from numerous other Internet retailers, we believe that Salty's Warehouse can compete on the basis of quality of service and providing products at low prices.

We believe that Salty's Warehouse can compete on the basis of quality service by having its suppliers timely ship ordered products, by quickly and courteously responding to any customer inquiries or complaints, and by selling products with which customers will be satisfied. Salty's Warehouse enjoys a five star customer service rating with Yahoo!(R). This means that Salty's Warehouse participates in the Yahoo!(R) Customer Rating Program, and that customers who have ordered from Salty's Warehouse have given it high ratings.

We believe that Salty's Warehouse can compete on the basis of price by keeping prices low. Because Salty's Warehouse does not maintain an inventory and has its suppliers ship products directly to customers, Salty's Warehouse has a low overhead relative to many other stores. However, many of Salty's Warehouse's competitors are substantially larger, better financed and have superior resources compared to Salty's Warehouse. Therefore, there is no guarantee that Salty's Warehouse will be able to successfully compete with them.

Salty's Warehouse has numerous competitors. Some of Salty's Warehouse's competitors are sizeable companies selling a large variety of products, including products that compete with Salty's Warehouse both on the Internet and through "bricks and mortar" stores. Competitors in this category include Costco, Target, Kmart, Sears and Walmart.

Edgar Filing: NUCOTEC INC - Form 10KSB

Salty's Warehouse also faces competition from companies specializing in selling consumer electronic products, both on the Internet and through bricks and mortars stores. Competitors in this category include Radio Shack, Circuit City and Best Buy. Another category of competitors is companies that sell competing products only online, such as Overstock.com, Amazon.com, and Audio Direct.

Government Regulation. Internet access and online services are not subject to direct regulation in the United States. Changes in the laws and regulations relating to the telecommunications and media industry, however, could impact our business. For example, the Federal Communications Commission could begin to regulate the Internet and online services industry, which could result in increased costs for us. The laws and regulations applicable to the Internet and to our services are evolving and unclear and could damage our business. There are currently few laws or regulations directly applicable to access to, or commerce on, the Internet. Due to the increasing popularity and use of the Internet, it is possible that laws and regulations may be adopted, covering issues such as user privacy, defamation, pricing, taxation, content regulation, quality of products and services, and intellectual property ownership and infringement. Such legislation could expose us to substantial liability as well as dampen the growth in use of the Internet, decrease the acceptance of the Internet as a communications and commercial medium, or require us to incur significant expenses in complying with any new regulations. The European Union has recently adopted privacy and copyright directives that may impose additional burdens and costs on international operations.

Our Research and Development. We are not currently conducting any research and development activities, other than the development of our website. We have not made any expenditure for research and development since our inception.

Employees. As of December 31, 2003, we had a total of three employees and Salty's Warehouse had a total of two employees. If necessary, we hire seasonal workers on an as-needed basis. We do not anticipate hiring any additional employees during calendar year 2003. We hire independent contractors on an "as needed" basis only. We have no collective bargaining agreements with our employees. We believe that our employee relationships are satisfactory.

Facilities. As of December 31, 2003, our executive, administrative and operating offices were located at 1080 S.E. 3 rd Avenue, Ft. Lauderdale, Florida, 33316.

Item 2. Description of Property.

Property held by us. As of the dates specified in the following table, we held the following property:

Property	December 31, 2003	December 31, 2002
Cash	\$7,424	\$10,103
Other current asset	\$228	\$202

Our Facilities. As of December 31, 2003, our offices as well as the offices and storage space of Salty's Warehouse encompassed 800 square feet located in downtown Ft. Lauderdale, Florida in a building owned by Hudson Capital Group at 1080 S.E. 3 rd Avenue, Ft. Lauderdale, Florida, 33316. Our management believes these premises are in good condition. Hudson Capital Group allowed us to use

Edgar Filing: NUCOTEC INC - Form 10KSB

this space free of charge. Although the Hudson Capital Group can revoke our right to use this space at any time, we have been informed by its principal, Steven Hudson, that the Hudson Capital Group intends to allow us to continue using the space free of charge for the foreseeable future. However, should we be evicted from the space, we would need to relocate to new facilities and may lack the funds to do this.

Item 3. Legal Proceedings.

There are no legal actions pending against us nor are any legal actions contemplated by us at this time.

Item 4. Submission of Matters to Vote of Security Holders

Not applicable.

ITEM 5. MARKET PRICE FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.

Reports to Security Holders. We are a reporting company with the Securities and Exchange Commission, or SEC. The public may read and copy any materials filed with the SEC at the SEC's Public Reference Room at 450 Fifth Street N.W., Washington, D.C. 20549. The public may also obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The address of that site is <http://www.sec.gov>.

We participate in the OTC Bulletin Board, an electronic quotation medium for securities traded outside of the Nasdaq Stock Market, and prices for our common stock are published on the OTC Bulletin Board under the trading symbol "NCTE". This market is extremely limited and the prices quoted are not a reliable indication of the value of our common stock. As of May 17, 2004, our stock has not been traded.

We are authorized to issue 10,000,000 shares of \$.001 par value common stock. As of May 17, 2004, 6,600,000 shares of our common stock were issued and outstanding held by nineteen record holders of our common stock. There are no outstanding options or warrants to purchase, or securities convertible into, shares of our common stock.

Dividends. There have been no cash dividends declared on our common stock. Dividends are declared at the sole discretion of our Board of Directors. Each shareholder of our common stock is entitled to a pro rata share of cash distributions made to shareholders, including dividend payments. The holders of our common stock are entitled to one vote for each share of record on all matters to be voted on by shareholders. There is no cumulative voting with respect to the election of our directors or any other matter. Therefore, the holders of more than 50% of the shares voted for the election of those directors can elect all of the directors. The holders of our common stock are entitled to receive dividends when, as and if declared by our Board of Directors from funds legally available therefore. Cash dividends are at the sole discretion of our Board of Directors. In the event of our liquidation, dissolution or winding up, the holders of common stock are entitled to share ratably in all assets

Edgar Filing: NUCOTEC INC - Form 10KSB

remaining available for distribution to them after payment of our liabilities and after provision has been made for each class of stock, if any, having any preference in relation to our common stock. Holders of shares of our common stock have no conversion, preemptive or other subscription rights, and there are no redemption provisions applicable to our common stock.

Equity Compensation Plans. We have no securities authorized for issuance under any equity compensation plans.

5

Penny Stock Regulation. Shares of our common stock are subject to rules adopted by the Securities and Exchange Commission that regulate broker-dealer practices in connection with transactions in "penny stocks". Penny stocks are generally equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the Nasdaq system, provided that current price and volume information with respect to transactions in those securities is provided by the exchange or system). The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, deliver a standardized risk disclosure document prepared by the Securities and Exchange Commission, which contains the following:

- o a description of the nature and level of risk in the market for penny stocks in both public offerings and secondary trading;
- o a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to violation to such duties or other requirements of securities' laws;
- o a brief, clear, narrative description of a dealer market, including "bid" and "ask" prices for penny stocks and the significance of the spread between the "bid" and "ask" price;
- o a toll-free telephone number for inquiries on disciplinary actions;
- o definitions of significant terms in the disclosure document or in the conduct of trading in penny stocks; and
- o such other information and is in such form (including language, type, size and format), as the Securities and Exchange Commission shall require by rule or regulation.

Prior to effecting any transaction in penny stock, the broker-dealer also must provide the customer the following:

- o the bid and offer quotations for the penny stock;
- o the compensation of the broker-dealer and its salesperson in the transaction;
- o the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and
- o monthly account statements showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgment of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement. These disclosure requirements may have the effect of reducing the trading activity in the secondary market for a stock that becomes subject to the penny stock rules. Holders of shares of our common stock may have difficulty selling those shares because our common stock will probably be subject to the penny stock rules.

Edgar Filing: NUCOTEC INC - Form 10KSB

Holders. As of May 17, 2004, there were nineteen shareholders holding certificated securities. Our transfer agent is Transfer Online, 227 S.W. Pine, Suite 300, Portland, OR 97204.

Dividends. We have not paid any cash dividends on our Common Stock since our inception and we do not anticipate or contemplate paying cash dividends in the foreseeable future.

Stock Split . Subsequent to the period covered by this report, on April 13, 2004, our Board of Directors approved a 50 for 1 stock split of our issued and outstanding common stock which was effectuated through a dividend of 49 shares for each share of common stock outstanding as of the record date. Our intent of the stock split was to increase the marketability and liquidity of its common stock and hopefully increase the value of its common stock. The dividend was payable on April 27, 2004 for shareholders of record on April 26, 2004. After the split, the total number of our issued and outstanding shares of common stock was 6,600,000 shares. Our common stock will continue to be \$0.001 par value. Fractional shares will be rounded upward.

Item 6. Management's Discussion and Analysis of Financial Condition or Plan of Operation.

This following information specifies certain forward-looking statements of management of the company. Forward-looking statements are statements that estimate the happening of future events are not based on historical fact. Forward-looking statements may be identified by the use of forward-looking terminology, such as "may", "shall", "could", "expect", "estimate", "anticipate", "predict", "probable", "possible", "should", "continue", or similar terms, variations of those terms or the negative of those terms. The forward-looking statements specified in the following information have been compiled by our management on the basis of assumptions made by management and considered by management to be reasonable. Our future operating results, however, are impossible to predict and no representation, guaranty, or warranty is to be inferred from those forward-looking statements.

The assumptions used for purposes of the forward-looking statements specified in the following information represent estimates of future events and are subject to uncertainty as to possible changes in economic, legislative, industry, and other circumstances. As a result, the identification and interpretation of data and other information and their use in developing and selecting assumptions from and among reasonable alternatives require the exercise of judgment. To the extent that the assumed events do not occur, the outcome may vary substantially from anticipated or projected results, and, accordingly, no opinion is expressed on the achievability of those forward-looking statements. No assurance can be given that any of the assumptions relating to the forward-looking statements specified in the following information are accurate, and we assume no obligation to update any such forward-looking statements.

Critical Accounting Policy and Estimates.

Our Management's Discussion and Analysis of Financial Condition and Results of Operations section discusses our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of

Edgar Filing: NUCOTEC INC - Form 10KSB

revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments, including those related to revenue recognition, accrued expenses, financing operations, and contingencies and litigation. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources, primarily allowance for doubtful accounts receivables, accruals for other costs, and the classification of net operating loss and tax credit carry forwards between current and long-term assets. These accounting policies are described at relevant sections in this discussion and analysis and in the notes to the financial statements included in our Annual Report on Form 10-KSB for the fiscal year ended December 31, 2003.

7

Overview. We were incorporated in Nevada on October 8, 2001 in order to serve as a holding company for Salty's Warehouse, Inc., which sells consumer electronics products and other name brand consumer products over the Internet.

On March 19, 2004, pursuant to a Plan of Reorganization and Acquisition, we acquired 5,110,200 shares of our common stock from Earl T. Shannon and Steven W. Hudson in exchange for 80 shares of common stock of Salty's Warehouse, Inc. As a result of this transaction, we no longer own Salty's Warehouse, Inc. We have returned the 5,110,200 shares of our common stock to authorized, but unissued status.

As of May 17, 2004, we are in the process of arranging to undertake a different business focus under our new management, which is the identification, acquisition and resale of properties exhibiting the potential for gold mining operations by others.

Liquidity And Capital Resources. As of December 31, 2003, we had cash and cash equivalents of \$7,424 and other current assets of \$228, making our total current assets \$7,652 as of that date. On April 30, 2003, we borrowed a total of \$25,000 from Earl T. Shannon and Steven W. Hudson (\$12,500 from each), pursuant to promissory notes requiring us to repay the principal and interest accrued at the rate of 10% on April 30, 2004. On August 8, 2003, we borrowed a total of \$30,000 from Earl T. Shannon and Steven W. Hudson (\$15,000 from each), pursuant to promissory notes requiring us to repay the principal and interest accrued at the rate of 10% on August 8, 2004. On November 12, 2003, we borrowed \$7,500 from Earl T. Shannon, one of our officers and directors at the time, pursuant to a promissory note requiring us to repay the principal and interest accrued at the rate of 10% on November 12, 2004. On December 1, 2003, we borrowed \$7,500 from Steven W. Hudson, one of our officers and directors at the time, pursuant to a promissory note requiring us to repay the principal and interest accrued at the rate of 10% on December 1, 2004. (See "Certain Relationships and Related Transactions.")

As of December 31, 2003 we had a net working capital deficit of \$88,158 as compared to December 31, 2002, where we had a net working capital deficit of \$9,838. In March 2004, we borrowed \$650,000 from an unrelated third party pursuant to a promissory note due July 5, 2004 that bears interest at 8% per annum. On March 19, 2004, we made a payment of \$42,500 to these noteholders, who were our former officers, and they agreed to forgive the remaining aggregate sum of \$42,500 that was due to them. Also in March 2004, we redeemed 45,890,000

Edgar Filing: NUCOTEC INC - Form 10KSB

(917,800 pre-split) of the shares owned by our outgoing management in exchange for \$570,000.

8

Net cash used for operating activities was \$72,689 for the year ended December 31, 2003 compared to \$34,857 for the year ended December 31, 2002.

Salty's Warehouse generally does not hold the products we sell in inventory (see "Business"). Net revenue as an agent from the sale of products (consisting primarily of automobile electronic equipment, home electronics, computer accessories and supplies) is recognized when title to the products are transferred to the customer (product shipment) and only when no further contingencies or material performance obligations are warranted and, thereby, have earned the right to receive and retain reasonably assured payments. At the time a customer orders a product on our web site, the customer pays for the product by credit card. If the credit card is Visa or Mastercard we usually receive the funds within twenty-four hours. However if the credit card is American Express or Discover, we receive the funds as part of an aggregated payment from the respective credit card company once a month. The supplier invoices us when the product is actually shipped on terms requiring us to pay within 30 days. So in most transactions, we will have already received payment from the customer before we must pay the supplier for the product that this customer has ordered. Therefore, we do not have any significant requirements for capital to fund replenishing inventory.

As of December 31, 2003, our only internal sources of liquidity are our bank accounts and the future revenues we may receive from the sale of products on our web site. Our only external source of liquidity is loans from our management. We do not have any material commitments for capital expenditures.

Due to numerous economic and competitive risks, any or all of which may have a material adverse impact upon our operations, there can be no assurance that we will be able to successfully generate significant revenues or achieve a level of profits which will permit us to stay in business. In March 2004, we had a change of management under which we plan to undertake a different business focus, which is the identification and acquisition of potential gold mining properties for resale to others. However, due to the change in our business plan, we plan to raise additional capital which we hope will be sufficient to fund all or our general and administrative expenses for the next twelve months.

Results of Operations.

For the year ended December 31, 2003 compared to the year ended December 31, 2002.

Revenue. For the year ended December 31, 2003, we realized net revenues of \$5,846. All revenues were from the sale of products on the Salty's Warehouse web site. This is in comparison to the year ended December 31, 2002 where we realized net revenues of \$6,068, which is essentially the same level of revenues realized in the year ended December 31, 2003. Our net revenue is net of the wholesale price and shipping charges paid by Salty's Warehouse to its suppliers for products sold on the web site. In the beginning of 2002, Yahoo! started charging Salty's Warehouse a half percent transaction based fee for every product sold over the web site, further increasing these costs netted against revenues.

9

Edgar Filing: NUCOTEC INC - Form 10KSB

Operating Expenses. For the year ended December 31, 2003, our total operating expenses were approximately \$78,320. Therefore, our net loss from operations for the year ending December 31, 2003 was \$78,320. Expenses consisted primarily of general operating expenses and professional fees. This is in comparison to our operating expenses of \$42,481 and a net loss of \$36,413 for the year ended December 31, 2002. We anticipate that we will continue to incur significant general and administrative expenses, but hope to continue generating income as we implement our revised business plan and expand our operations.

Net Loss. We had a net loss of \$78,320 or basic and diluted net loss per common share of \$0 for the year ended December 31, 2003 compared to a net loss of \$36,413 or basic and diluted net loss per common share of \$0 for the year ended December 31, 2002.

Our Plan of Operation for the Next Twelve Months. As of May 17, 2004, we are in the process of arranging to undertake a different business focus under our new management, which is the identification and acquisition of properties exhibiting the potential for gold mining operations by others. On March 5, 2004 we borrowed \$650,000 from an unrelated third party due on July 5, 2004 at an annual interest rate of 8%. On April 27, 2004, we borrowed \$225,000 from an unrelated third party due and payable on demand; this note also accrues interest at an annual rate of 8%.

We have cash of \$7,424 as of December 31, 2003 and \$190,487 as of May 17, 2004. We believe we do not have adequate funds to satisfy our working capital requirements for the next twelve months. Our forecast for the period for which our financial resources will be adequate to support our operations involves risks and uncertainties and actual results could fail as a result of a number of factors. We may need to raise additional capital to expand our operations. In the event that we experience a shortfall in our capital, we intend to pursue capital through public or private financing as well as borrowings and other sources, such as our officers and directors. We cannot guaranty that additional funding will be available on favorable terms, if at all. If adequate funds are not available, then our ability to expand our operations may be significantly hindered. If adequate funds are not available, we believe that our officers and directors will contribute funds to pay for our expenses to achieve our objectives over the next twelve months. Our belief that our officers and directors will pay our expenses is based on the fact they own approximately 70% of our outstanding common stock. We believe that our officers and directors will continue to pay our expenses as long as they maintain their ownership of our common stock. Therefore, we have not contemplated any plan of liquidation in the event that we do not generate revenues.

We are not currently conducting any research and development activities. We do not anticipate conducting such activities in the near future. In the event that we expand our customer base, then we may need to hire additional employees or independent contractors as well as purchase or lease additional equipment.

Off-balance sheet arrangements. There are no off balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Report of Independent Registered Public Accounting Firm:

To The Board of Directors and Stockholders of
Nucotec, Inc. and Subsidiaries
Reno, Nevada

We have audited the accompanying consolidated balance sheet of Nucotec, Inc. and Subsidiary as of December 31, 2003 and the related consolidated statements of operations, stockholders' deficit and cash flows for the two years in the period then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement

Edgar Filing: NUCOTEC INC - Form 10KSB

presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Nucotec, Inc. and Subsidiary as of December 31, 2003, and the consolidated results of its operations and its cash flows for the two years in the period then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the accompanying consolidated financial statements, the Company has no established source of material revenue, has incurred a net loss of \$78,320 and \$36,413 for the years ended December 31, 2003 and 2002, respectively, and at December 31, 2003 had a negative working capital of \$88,158 and had a stockholders' deficit of \$88,158, all of which raise a substantial doubt about its ability to continue as a going concern. Management's plan in regard to these matters is also discussed in Note 1. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Nucotec, Inc. and Subsidiary Notes to Consolidated Financial Statements For the Years Ended December 31, 2003 and 2002

Note 1 - Organization and Significant Accounting Policies

Organization

Nucotec, Inc. was incorporated in the State of Nevada on October 8, 2001. Nucotec, Inc. and its subsidiary, Salty's Warehouse, Inc. (collectively the "Company") sell various home and automobile electronic equipment, computer accessories and supplies to the general public through its website-- <http://www.saltyswarehouse.com>.

Basis of Presentation

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. The Company has no established source of material revenue, has incurred a net loss of \$78,320 and \$36,413 for the years ended December 31, 2003 and 2002, respectively, and at December 31, 2003 had a negative working capital of \$88,158 and had a negative stockholders' deficit of \$88,158. These conditions raise substantial doubt as to the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Management plans to take the following steps that it believes will be sufficient to provide the Company with the ability to continue in existence:

- o Management intends to raise additional financing through private equity financing, loans from officer-stockholders or other means and interests that it deems necessary, with a view to moving forward and sustain a prolonged growth in its strategy phases.
- o The Company plans to raise additional operating funds through equity or debt financings. (Note 6) The Company intends to raise working capital from a variety of sources, including from investors who are associates of the Company's management, or by waiting until a public market develops for shares of the Company's common stock. There is no assurance that the Company will be able to arrange for financing and has not, to date, had any substantive discussions with any third parties regarding such financing.
- o The Company will also look to merge with an operating company that is generating positive cash flow.

Edgar Filing: NUCOTEC INC - Form 10KSB

- o In March 2004, the Company borrowed \$650,000 from an unrelated third party which was used to redeem the shares of the Company's former management; in April 2004, the Company borrowed \$225,000 from an unrelated third party to use as working capital.

17

On April 19, 2004, the Company authorized a 50:1 stock split. The accompanying consolidated financial statements have been retroactively restated to present the effect of this event.

Plan of Reorganization

During May 2002, Nucotec, Inc. ("Nucotec") entered into a plan of reorganization, whereby, Nucotec issued 45,600,000 shares of its common stock in exchange (the "Exchange") for 80% of the outstanding common stock of Salty's Warehouse, Inc. ("Salty's"), a Florida Corporation. The two principal shareholders of Nucotec immediately prior to the Exchange, were Winthrop Venture Management, Inc. and Lady Jean Charters, Inc. These two principal shareholders also had majority management and voting control of Salty's, by virtue of common ownership, prior to the Exchange. After the Exchange, the majority shareholders of Winthrop Venture Management, Inc. and Lady Jean Charters, Inc. maintained significant control of the combined entities. As such, this business combination has been accounted for as a reorganization of companies under common control in a manner similar to a pooling of interest, whereby the carrying value of the net assets of Salty's was transferred to Nucotec, pursuant to Statement of Financial Accounting Standards No. 141 -- "Business Combinations."

On March 19, 2004, Earl T. Shannon, Steven W. Hudson, and Scott W. Bodenweber agreed that 255,510,000 (5,110,200 pre-split) of their shares of the Company will be redeemed by the Company in exchange for all of the Company's shares of Salty's Warehouse, Inc. (the "Transfer"). Earl T. Shannon, Steven W. Hudson, and Scott W. Bodenweber have agreed that 45,890,000 (917,800 pre-split) of their shares of the Company will be redeemed by the Company in exchange for \$570,000 (the "Sale"). As a condition to these transactions, Messrs. Shannon, Hudson, and Bodenweber have resigned as officers of the Company. Earl W. Abbott has been appointed President, Chief Financial Officer and Secretary of the Company. In addition, Mr. Abbott, Carl A. Pescio and Stanley B. Keith have collectively purchased 84,000 shares (4,200,000 post-split shares) of common stock from the Company. Mr. Abbott, Mr. Pescio and Mr. Keith will replace Messrs. Shannon, Hudson and Bodenweber on the Board of Directors of the Company ten days after a Schedule 14f-1 is delivered to our shareholders.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Nucotec, Inc. and its wholly owned subsidiary, Salty's Warehouse, Inc. The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. All material inter-company accounts and transactions have been eliminated in consolidation.

Stock Based Compensation

Edgar Filing: NUCOTEC INC - Form 10KSB

SFAS No. 123, "Accounting for Stock-Based Compensation," establishes and encourages the use of the fair value based method of accounting for stock-based compensation arrangements under which compensation cost is determined using the fair value of stock-based compensation determined as of the date of grant and is recognized over the periods in which the related services are rendered. The statement also permits companies to elect to continue using the current intrinsic value accounting method specified in Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," to account for stock-based compensation. The Company has elected to use the intrinsic value based method and has disclosed the pro forma effect of using the fair value based method to account for its stock-based compensation. The Company uses the fair value method for options granted to non-employees. If the Company had elected to recognize compensation expense based upon the fair value at the grant date for awards under the Stock Option Plan consistent with the methodology prescribed by SFAS No. 123, the Company's net loss and loss per share would be reduced to the pro forma amounts indicated below for the year ended December 31, 2003 and 2002:

	2003	2002
	-----	-----
Net loss		
As reported	\$ (89,320)	\$ (36,413)

	=====	=====
Basic and diluted loss per common share:		
As reported	\$ -	\$ -
	=====	=====
Pro forma	\$ -	\$ -
	=====	=====

18

The fair value for these options was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions for 2003: risk-free interest rate of 5.5%; dividend yields of 0%; volatility factors of the expected market price of the Company's common stock of 50%; and a weighted average expected life of the option of 10 years.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from these estimates.

Fair Value of Financial Instruments

For certain of the Company's financial instruments, including cash,

Edgar Filing: NUCOTEC INC - Form 10KSB

accounts receivable, inventory, other current assets, and accounts payable and accrued expenses, the carrying amounts approximate fair value due to their short maturities. The amounts shown for notes payable also approximate fair value because current interest rates and terms offered to the Company for similar debt are substantially the same.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the Company defines cash equivalents as all highly liquid debt instruments purchased with a maturity of three months or less, plus all certificates of deposit.

Concentration of Credit Risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist of cash and accounts receivables. The Company places its cash with high quality financial institutions and at times may exceed the FDIC \$100,000 insurance limit. The Company extends credit based on an evaluation of the customer's financial condition, generally without collateral. Exposure to losses on receivables is principally dependent on each customer's financial condition. The Company monitors its exposure for credit losses and maintains allowances for anticipated losses, as required.

Inventory

Inventory is valued at the lower of cost (first-in, first-out) or market. At December 31, 2003, inventory consisted of finished goods.

19

Revenue Recognition

The Company accounts for revenues pursuant to SAB 101 -"Revenue Recognition" and EITF 99-19 -"Reporting Revenue Gross as a Principal versus Net as an Agent." Net revenue as an agent, from the sale of products (consisting primarily of automobile electronic equipment, home electronics, computer accessories and supplies) are recognized when title to the products are transferred to the customer (product shipment) and only when no further contingencies or material performance obligations are warranted and, thereby, have earned the right to receive and retain reasonably assured payments.

Income Taxes

The Company uses the asset and liability approach to measure temporary differences in accounting for income taxes. Temporary differences arise from differences in the timing of revenue and expense recognition for financial reporting and income tax return purposes and are measured using the currently enacted tax rates and laws. The principal temporary difference as of December 31, 2003 is the federal net operating loss carryforward of \$110,000, which if not utilized, will start to expire in 2017. A deferred asset has been included in the balance sheet as of December 31, 2003 provided and offset by a valuation allowance account, because its utilization does not appear to be reasonably assured.

Edgar Filing: NUCOTEC INC - Form 10KSB

Loss Per Share

The Company reports loss per share in accordance with SFAS No. 128, "Earnings per Share." Basic loss per share is computed by dividing loss available to common shareholders by the weighted average number of common shares available. Diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. There were 125,000,000 (2,500,000 post-split) and 0 common equivalent shares at December 31, 2003 and 2002, respectively.

Comprehensive Loss

Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income" ("SFAS 130"), established new rules for the reporting and display of comprehensive loss and its components, which requires unrealized gains or losses on the Company's available for sale securities, currency translation adjustments and minimum pension liability to be included in other comprehensive income. Other comprehensive income consisted only of net income (loss).

20

Reclassification

Certain reclassifications have been made to the 2002 balances to conform to the 2003 presentation.

Recently Issued Accounting Pronouncements

During April 2003, the FASB issued SFAS 149 - "Amendment of Statement 133 on Derivative Instruments and Hedging Activities", effective for contracts entered into or modified after September 30, 2003, except as stated below and for hedging relationships designated after September 30, 2003. In addition, except as stated below, all provisions of this Statement were applied prospectively. The provisions of this Statement that relate to Statement 133 Implementation Issues that were effective for fiscal quarters that began prior to June 15, 2003, were applied in accordance with their respective effective dates. In addition, paragraphs 7(a) and 23(a), which relate to forward purchases or sales of when-issued securities or other securities that do not yet exist, should be applied to both existing contracts and new contracts entered into after September 30, 2003. The Company does not participate in such transactions and accordingly, the adoption of FASB 149 did not have an impact on the Company's consolidated financial statements.

During May 2003, the FASB issued SFAS 150 - "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective for public entities at the beginning of the first interim period beginning after June 15, 2003. This Statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a freestanding financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity. Some of the

Edgar Filing: NUCOTEC INC - Form 10KSB

provisions of this Statement are consistent with the current definition of liabilities in FASB Concepts Statement No. 6, Elements of Financial Statements. The Company has adopted FASB 150 which did not have an impact on the Company's consolidated financial statements.

21

In January 2003, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin (ARB) No. 51". This interpretation clarifies the application of ARB No. 51, "Consolidated Financial Statements", to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. In December 2003, the FASB revised FASB Interpretation No. 46 (FIN 46R) which allowed companies with certain types of variable interest entities to defer implementation until March 31, 2004.

In December 2003, the FASB issued a revised SFAS No. 132, "Employers' Disclosures about Pensions and Other Postretirement Benefits" which replaces the previously issued Statement. The revised Statement increases the existing disclosures for defined benefit pension plans and other defined benefit postretirement plans. However, it does not change the measurement or recognition of those plans as required under SFAS No. 87, "Employers' Accounting for Pensions," SFAS No. 88, "Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits," and SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions." Specifically, the revised Statement requires companies to provide additional disclosures about pension plan assets, benefit obligations, cash flows, and benefit costs of defined benefit pension plans and other defined benefit postretirement plans. Also, companies are required to provide a breakdown of plan assets by category, such as debt, equity and real estate, and to provide certain expected rates of return and target allocation percentages for these asset categories. The Company has implemented this pronouncement and has concluded that the adoption has no material impact to the consolidated financial statements.

22

No options were granted during the year ended December 31, 2003, where the exercise price was less than the stock price at the date of the grant or the exercise price was greater than the stock price at the date of grant.

Note 4 - Income Taxes

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial statement purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax liabilities and assets as of December 31, 2003 are as follows:

Deferred tax assets:

Less valuation allowance	(110,000)
