04.01 EXPLANATORY NOTES

(Amounts in thousands of Brazilian reais-R\$, unless otherwise stated)

1. OPERATIONS

Companhia de Saneamento Básico do Estado de São Paulo (SABESP or the company) is engaged in the operation of public water and sewage systems in the State of São Paulo, providing water and sewage services to a broad range of residential, commercial, industrial and government customers. The Company also provides water on a wholesale basis to certain municipalities in the São Paulo Metropolitan Region that do not have water production systems.

The Company provides water and sewage services in 368 municipalities in the State of São Paulo, nearly all of which are through concessions granted by the municipalities and most of them with 30-year term. The 17 (seventeen) concession contracts that expired in 2005, have been extended or are under negotiation. In 2006, 135 contracts are going to expire and the rest between 2007 and 2034. Management expects that the referred concessions will be renewed or extended, thus there will not be a discontinuity of the water supply and sewage collection. The net book value of property, plant and equipment items relating to the municipalities where the concessions are under negotiation (2005) or will expire in 2006, totals R\$ 1.53 billion.

The Company does not hold a formal concession to provide water and sewage services in the City of São Paulo, which accounts for a substantial portion of the sales and services rendered. In Santos, a municipality located in the Santos Coastal Area, which also has a significant population, the Company operates under a public deed of authorization, like in some other municipalities in the Santos Coastal Area and in the Ribeira Valley, where the Company started operating after the merger of companies that formed SABESP.

2. PRESENTATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with accounting practices adopted in Brazil and regulations with the Brazilian Securities Commission (CVM).

3. SIGNIFICANT ACCOUNTING PRACTICES

(a) Determination of results of operations

(i) Revenue from sales and services

Revenue from water and sewer services is recognized as water is consumed or as services are provided. Revenue from water and sewer services rendered but not billed is recorded as unbilled customer accounts receivable based on monthly estimates in order to match such revenue with costs incurred.

(ii) Financial income and expenses

Primarily comprised of interest and monetary and exchange variations on loans and financing, and financial investments, calculated and reported on the accrual basis of accounting.

(iii) Income tax and social contribution

Income tax and social contribution are recorded on an accrual basis. The provisions for income tax and deferred income tax on tax losses and on temporary differences are recorded at the base-rate of 15% plus an additional of 10%. The provisions for social contribution on net income and deferred social contribution on tax losses and on temporary differences are recorded at the rate of 9%.

(iv) Other income and expenses

Other income and expenses are recorded on an accrual basis.

(b) Financial Investments

Those comprise mainly Financial Investment Funds (FIF) and CDB – Banking Deposit Certificate and are stated of cost plus accrued interest (pro-rata temporis) until the end of the period, up to the limit of market value.

(c) Allowance for Doubtful Accounts

The Company records an allowance for doubtful accounts for receivable balances in excess of R\$ 5 and overdue for more than 360 days and in excess of R\$ 30 and overdue for more than 360 days, which are under judicial collection proceedings. The amount is deemed by the Management to be sufficient to cover probable losses, based on an aging analysis of receipts, taking into consideration the expected recovery in the different categories of customers. For accounts receivable balances under R\$ 5 and overdue more than 180 days, such balances are written off through a direct charge to income.

(d) Inventories

Inventories of materials used in operations and in the maintenance of the Company's water and sewage systems are stated at the lower of average acquisition cost or realizable value and are classified in current assets.

Inventories for capital projects are classified under property, plant and equipment and are stated at the average acquisition cost.

(e) Other current assets and long-term receivables

Other current assets and long-term receivables are stated at the lower of acquisition cost or realization value, plus accrued interest, when applicable.

(f) Property, plant & equipment

These are stated at adjusted cost up to December 31, 1995, and take the following into consideration:

Depreciation of property, plant & equipment is recorded using the straight-line method at the annual rates mentioned in Note 6a.

Revaluation of property, plant and equipment items carried out in two stages, in 1990 and 1991, based on an appraisal report issued by independent experts. The referred revaluation was stated with a corresponding entry to the Revaluation Reserve account, in Shareholder's Equity, and is realized through depreciation, sale and disposal of the respective assets, with a corresponding entry to the Retained Earnings account. .

Interest charges on financings raised with third parties for construction in progress are capitalized as part of the cost of assets.

Deferred charges are amortized on the straight-line basis over five years as from the date when benefits start to be generated.

(g) Loans and Financing

Loans and financing are adjusted by indexation charges and foreign exchange variations and include accruals for related interest expenses.

(h) Provision for vacation pay

The provision for vacation pay and respective payroll charges is accrued as earned.

(i) Provision for contingencies

Provisions for contingencies are recorded to cover losses, assessed as probable by legal councilors and in the amount estimated on March 31, 2006, related to labor, tax, environmental and commercial litigations in administrative and judicial levels. The balances of the provision for contingencies are presented net of the respective judicial deposits. For comparison purposes we have performed the reclassifications in the financial statements of 2005.

(j) Environmental costs

Expenditures relating to ongoing environmental programs are recorded in the income statement as incurred. Ongoing programs are designed and performed with a view to minimize the environmental impact of the operations and to manage the environmental risks related to the Company's activities. Provisions for contingent losses related to environmental claims are recorded when they are considered to be probable and reasonably estimable by the Company's management.

(k) Private Pension Plan

The Company sponsors a private defined benefit pension plan. CVM Deliberation 371 of December 13, 2000 determines the recognition of actuarial liabilities exceeding the fair value of the assets of the pension plans. Liabilities ascertained at December 31, 2001 have been recognized over a period of 5 years, as from fiscal year 2002.

(l) Other current liabilities and long-term liabilities

These are stated at their known or estimated amounts, including accrued charges and monetary and foreign exchange variations, when applicable.

(m) Interest on shareholder's equity

This interest has been recorded in accordance with Law 9249/95, for tax deductibility purposes, being limited to the daily pro-rata variation of the Long-term Interest Rate (TJLP) and recorded in conformity with CVM Deliberation 207/96.

(n) Profit per thousand shares

Profit per thousand shares is calculated based on the number of shares outstanding at the balance sheet date.

(o) Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts or revenues and expenses for the reporting periods. Actual results could differ from those estimates.

Collections	(56,417)	(42,422)

The Company does not record an allowance for doubtful accounts for any amounts due from the State Government or entities controlled by the State Government, since it does not expect losses on such receivables.

(i) Water and sewage services

The Company provides water and sewage services to the State Government and its related agencies under conditions that management believes are equal to those with third parties, except for the settlement of amounts outstanding, as

described further below in items (iii) and (iv).

(ii) Reimbursement for pension and benefits paid.

Reimbursement for pension and benefits paid represents supplementary pension and leave benefit paid by the Company to former employees of State Government-owned companies which merged to form SABESP. These amounts should be reimbursed to the Company by the State Government, as the primary obligor, in conformity with Law No. 200/74.

(iii) GESP Agreement

On December 11, 2001, the Company entered into an agreement with the State of São Paulo Government, through the State Department of Finance and the State Department of Water and Energy - DAEE, having the State Department of Water Resources, Sanitation and Works as intervening party, under which the State Government, by force of Law no 200/74, acknowledged to be responsible for the benefit arising out of supplementation of retirement and pension payments and agreed to pay amounts it owed to the Company in respect of water and sewage services. The value to date of the Agreement was R\$ 678,830, of which R\$ 320,623 refer to supplemental retirement and pension benefits in the period from March 1986 until November 2001, and R\$ 358,207 refer to water supply and sewage collection services invoiced and due from 1985 until December 1, 2001.

Considering the strategic importance of Taiacupeba, Jundiaí, Biritiba, Paraitinga and Ponte Nova reservoirs, for ensuring the volume of water of the Alto Tietê System to be maintained, the Water and Electric Power Department - DAEE will transfer these assets to the Company as partial amortization, by means of credit assignment, of the amount owed by the State. The reservoirs evaluation works has been completed and approved by the Board of Directors of the Company, which works indicated an amount of R\$ 300,880 (base date - June, 2002), as shown in the respective report.

Based on official notice no. 53/2005 of the State Capital Defense Council - CODEC, dated March 21, 2005, negotiations have restarted between the Company and the State Government with a view to restate the debt for supplementary retirement and pension benefits, under the terms defined in the GESP agreement, including amounts due after November, 2001. These negotiations shall result in a second amendment to the Agreement between the State Government and SABESP. The Company shall retain FIPECAFI to validate the actual values to be reimbursed by the State Government, taking into account the legal advice provided by the General Office of the State Attorney.

Once the amounts and any monetary adjustment criterion are established, SABESP will be able to take applicable actions with DAEE in order to transfer the ownership rights to the Alto Tietê System reservoirs, since no legal restraint exists any more, once the State Government has timely filed an appeal against the decision that had granted the public civil action and managed to obtain the suspension of the effects thereof.

This second amendment shall also include the criteria for monthly recovery of the future amounts to be disbursed by SABESP.

Since these negotiations are still in the early stages, it is not possible to determine the net effects on the balance sheet resulting from such negotiation. Management does not expect to incur significant net losses relating to any differences between the amounts recorded as due from the State Government and the amounts actually paid by SABESP.

The balances for water and sewage services were included in the 1st amendment, as described below (iv).

(iv) First Amendment to GESP Agreement

On March 22, 2004, the Company and the State Government amended the terms of the original GESP Agreement, thereby (1) consolidating and acknowledging amounts due from the State Government for water and sewage services through February 2004, monetarily adjusted through February 2004; (2) formally providing for the offset of amounts due from the State Government against interest on shareholder's equity declared by the Company and any other debt owed to the State Government at December 31, 2003, which were monetarily adjusted through February 2004; and (3) defining the payment terms of the remaining obligations of the State Government for water and sewage services.

Under the terms of the Amendment, the State Government acknowledged amounts due to the Company for water and sewage services provided through February 2004, in the amount of R\$ 581,779, including monetary adjustments based on the Reference Rate (TR) at the end of each fiscal year through February 2004. The Company acknowledged amounts due to the State Government with respect to interest on shareholders' equity of R\$ 518,732, including (1) amounts declared and paid relating to years prior to 2003 (R\$ 126,967), (2) monetary adjustments on these amounts based on the annual change in the Consumer Prices Index (IPC/FIPE) through February 2004 (R\$ 31,098); and (3) amounts declared and paid relating to 2003 (R\$ 360,667).

The Company and the State Government have agreed to the reciprocal offset of R\$ 404,889 (monetarily adjusted through February 2004). The remaining obligation of R\$ 176,890 at February 29, 2004 will be payable in monthly installments from May 2005 through April 2009, which will be subject to monthly monetary adjustment at the Expanded Consumer Price Index (IPCA/IBGE), plus 0.5% .

The Amendment to the GESP Agreement does not provide for amounts owed by the State Government for supplementary retirement and pension plan benefits, paid by the Company on behalf of the State Government. Such amounts continue to be subject to the terms of the original GESP Agreement. Part of such amounts may be netted upon the transfer of the reservoirs that make up the Alto Tietê System. The Company and the State Government are negotiating the transfer and netting of the additional amounts owed.

Management believes that the amounts owed by the State Government shall be received and it is not estimated that losses will be incurred with such accounts receivable.

(b) Cash and cash equivalents

The Company's balance of banks and short-term investments accounts with financial institutions controlled by the State Government was R\$ 445,145 at March 31, 2006 (R\$ 242,021 at December 31, 2005). The financial income from such investments was R\$ 12,713 and R\$ 3,638 in fiscal years ended March 31, 2006 and 2005, respectively.

(c) Agreement for use of reservoirs

The Company uses the Guarapiranga and Billings reservoirs and a portion of some of the reservoirs of the Alto Tietê System, which are owned by another company controlled by the State of São Paulo Government. The Company does not pay any fee for the use of these reservoirs, but is responsible for maintaining and funding there.

The Company has the right to draw water and exploit the reservoirs for a period of 30 years, commencing as from 1997.

(a) Depreciation:

Depreciation is calculated at the following annual rates: buildings 4%; networks 2%; equipment 10%; water meters 10%; transportation equipment 20%; IT equipment 20%; building connections 5% furniture, fixtures and equipment

10%.

Amortization of intangible assets is effected during the term of the concession agreements entered into with the municipalities

(b) Construction in progress

The estimated disbursements as from April 2006, up to 2011, relating to the works already contracted, is approximately R\$ 818,000 (information not reviewed by the independent auditors).

(c) Disposals of property, plant and equipment

In the first quarter of 2006, the Company wrote-off property, plant and equipment in the amount of R\$ 2,546, resulting in a total loss of R\$ 1,365 (2005 R\$ 884), related to the group of properties in use, due to obsolescence, theft and sale.

(d) Expropriations

As a result of the implementation of priority projects related to the water and sewage systems there was the need to expropriate or establish rights of way over third party properties, in conformity with the relevant legislation. The owners of these properties will be compensated either through negotiated settlements or judicial arbitration. Disbursements to be effected as from second quarter of 2006 are estimated to be approximately R\$ 279,900 (information not reviewed by the independent auditors), which will be paid out of Company funds. The related assets acquired as a result of these negotiations are recorded as property, plant and equipment when the expropriation is complete. The total amount of property, plant and equipment referring to expropriations in the first quarter of 2006 was R\$ 1,212 (2005 R\$ 407).

(e) Tax effects on revaluation of assets

Property, plant and equipment items were revalued in 1990 and 1991 and have been depreciated at annual rates which take into consideration the estimated remaining economic

useful lives of the assets as determined in the respective valuation reports that, as a rule, fall within the ranges of the above presented rates.

As permitted by CVM Instruction 197/93, the Company did not record a provision for the tax effects (deferred taxes) on the surplus of the revaluation of property, plant and equipment carried out in 1990 and 1991. Had the income tax and social contribution on the revaluation reserve been accounted for, the unrealized amount at March 31, 2006 would be R\$ 453,397 (Dec/2005 - R\$ 461,068). In the period from January to March, 2006 the realized revaluation reserve was R\$ 23,748 (January to March, 2005 R\$ 22,306).

(f) Intangible Assets

As of the fiscal year 1998, negotiations relating to new concessions started to be carried out based on the economic-financial results of the relevant business, as established on appraisal reports, issued by independent experts.

The amount defined in the respective contracting instrument, after the celebration of the deal together with the municipality, with the realization by means of underwriting stock of the Company or in cash, it is registered under this line item and amortized over the concession period, normally on a 30-year term.

16. INDEMNITIES RECEIVABLE

The municipalities of Diadema and Maua withdrew the Company's concession for water sewage services in the beginning of 1995.

In December 1996, SABESP filed a claim seeking compensation for the amounts due by the municipality of Diadema. In first instance, the judge pronounced a sentence against SABESP. The Company has filed an appeal in November 2000. On December 1st, 2005, partial acceptance to the SABESP appeal was given in order to declare the validation of the agreement with the Municipality of Diadema.

The net book value of property, plant and equipment items relating to the municipality of Diadema, which was written-off in December 1996, was R\$ 75,231, and the balance of indemnity and other receivables from the local government is R\$ 62,876, and is recorded in long-term assets, under Indemnities receivable.

SABESP signed a protocol of intentions with the municipality of Mauá when the concession was terminated, by means of which it would agree to pay amounts to the Company referring to the water and sewage systems. However, the municipality of Mauá has never performed the payment of any amount whatsoever. SABESP filed the collecting proceeding in December, 1996 against the municipality. On indemnification title, the sentence pronounced in 2004 has condemned the municipality and the Basic Sanitation of the Municipality of Mauá - SAMA to pay the amount of R\$ 153.2 million with monetary restatement by the practice of the Court of Justice of the State of Sao Paulo, from March 2000, legal interests since the summoning, costs, judicial expenses and legal fees in the amount of 20% over the amount of condemnation. This sentence is subject to the double jurisdiction degree, by means of interlocutory appeal by the municipality of Maua and by the Basic Sanitation of the Municipality of Mauá - SAMA, which has recently responded by SABESP. Such appeal is expecting sentence by the Court of Justice of São Paulo.

The net book value of property, plant and equipment items relating to the municipality of Mauá, which was written-off in fiscal year 1999, was R\$ 103,763, and the balance of indemnity, in the amount of R\$ 85,918, is recorded in long-term assets, under Indemnities receivable.

Both cases are the subject matter of court claims (Mauá and Diadema), and the legal counsel in charge of the proceedings believe that a favorable judgment is likely to be rendered to the Company.

SABESP obtained gross operating revenues of R\$ 1,456.8 million and EBITDA of R\$ 695,4 million in 1Q06. The 16.4% growth in gross operating revenues arises, mainly, from the following factors:

4.6% in crease in the volume services billed of water and sewage;

9% note readjustment from August, 2005;

The migration of consumers to higher levels of consumption has also contributed to this growth.

The net operating revenue in the period totaled R\$ 1,3 billion, an increase of R\$ 185,9 million, as compared to the same quarter last year. EBIT has presented an important growth of 32.6% due to the fact that costs and expenses have increased less than the gross operating revenues. EBITDA went from R\$ 559,3 million in the 1Q05 to R\$ 695,4 million in 1Q06, with increase in margin from 48.3% to 51.7% .

Net income of R\$ 327,9 million was R\$ 176,5 million higher to the same period last year, mainly due to the increase in revenues and to the Brazilian real appreciation.

R\$ million

3.1. Salaries and Payroll Charges

In 1Q06 the Company expanded the service providing and increased staff productivity in 4.3% . The quantity of connections per employee went from 632 in 1Q05 to 659 in 1Q06. These reported been an increase of R\$ 23.8 million or 9.4%, related to the following factors:

7.9% salary adjustment (index IPC-FIPE), from May 2005 and to Performance Evaluation, with the application of 2%, from June, 2005;

Headcount reduction in the order of 1.7% going from 17,669 in March, 2005 down to 17,364 in March, 2006.

3.2. General supplies

In 1Q06, it presented a growth of R\$ 4.0 million or 16.5%, mainly due to the following variations:

- Fuels and vehicle lubricants in the amount of R\$ 1.2 million or 23.8% mostly due to price adjustment;
- Network maintenance with an increase of R\$ 0.8 million and
- Maintenance of residential connections with an increase of R\$ 0.5 million.

3.3. Treatment Materials

An increase of R\$ 1,5 million or 4.8%, as a result of a higher volume of treated water.

3.4. Services

These recorded an increase of R\$ 5,7 million or 5.6% in 1Q06, going from R\$ 101,6 million up to R\$ 107,3 million.

The reasons for this increase were:

Maintenance of residential connections in the amount of R\$ 2,2 million occurred in the water distribution and sewage collection systems in the Metropolitan Region of São Paulo;

Systems Maintenance of the Metropolitan Region of São Paulo in the amount of R\$ 1,5 million, and

Hydrometer readings and delivery of bills with an increase of R\$ 1,5 million.

3.5. Power and Energy

1Q06 recorded an increase of R\$ 7.3 millions or 7.4% in relation to 1Q05, going from, R\$ 98,0 million up to R\$ 105,3 million, described as follows:

Growth in electric power consumption of 1.15%, caused by the increase in the volume produced;

Reduction in expenditures in the captive market in 9.9%. Although there has been a 10.4% weighted average increase in the electric power fares of the captive market, costs have been reduced, as 19.6% of the electric power that was consumed in this market has migrated to the free market;

In function of the migration of the installations of the captive market to the free market, 48.1% increase to the energy consumed in the free market that, coped with the 17.9% adjustment in the fares of this segment, meant an increase in the expenses around 74.6% and

Extinction of the ECE fee - Emergency Capacity Fee as of December, 2005 leading to a 2.2% saving in relation to the total expenditure in 1Q06.

3.6. General Expenses

In 1Q06, this item recorded a R\$ 16,3 million or 42.7% decrease in relation to 1Q05, going from R\$ 38,2 million down to R\$ 21,9 million, mainly due to the following:

R\$ 18,3 million decrease resulting from the lower necessity of provision for losses and judicial contingencies (environmental and civil) in 1Q06, and

Increase for the collection of use of hydro resources of the Capivari, Piracicaba e Jundiaí basins of R\$ 1,6 million, by the Water National Agency - ANA.

3.7. Credit Write-offs

It presented an increase of R\$ 22,3 million or 48.8%, caused by a higher invoicing, having in view:

6.78% fare increase, and

6.4% consumption increase and fare progressiveness.

3.8. Tax Expenses

It presented a R\$ 1,5 million increase or 22.8%, mainly, due to the payment of CPMF arising from higher volume of financial investments.

4. Financial Expenses and monetary variation expenses

4.1. Financial Expenses

Those recorded a R\$ 6,7 million decrease, as a result of:

Interests of internal loans and financing, and the increase of R\$ 22,2 million, related to the 7th issue (March/05) and 8th issue (June/05) of debentures. This increase was offset by the reduction of the interests on external loans and financing, in the amount of R\$ 26,5 million related to the lower debt balance in foreign currency and as a result of the appreciation of the real in relation to the dollar;

R\$ 1,9 million increase, referring to the provision for interests and monetary restatement of new judicial lawsuits;

Decrease of R\$ 1,8 million in banking fees expenses, and

Decrease of R\$ 2,5 million, referring to charges on taxes, occurred in 2005, not recurring in 2006.

4.2. Monetary variation expenses

The monetary variation expenses recorded a gain of R\$ 80,2 million, mainly due to the appreciation of the real in relation to the North-American dollar of 7.2% in 1Q06 in comparison to the devaluation occurred in 1Q05 of 0.4% and a lower balance of debt in foreign currency.

5. Non-operating result

Presented a R\$ 1,1 million or 220.0% increase, having as main reason the sale of a land lot generating a gain in the amount of R\$ 1,0 million.

6. Financial Income

It presented a R\$ 7,1 million or 46.1% increase, referring to the proceeds of financial investments.

16.01 - OTHER INFORMATION DEEMED BY THE COMPANY TO BE RELEVANT SUPPLEMENTARY

Supplementary Information

In order to improve the information provided to the market, the company is presenting, as supplementary information, the financial statements in a constant purchasing power currency.

1. SUPPLEMENTARY INFORMATION IN CONSTANT PURCHASING POWER CURRENCY

(a) Index of restatement

The monetary indexation of the operations relating to the permanent assets, shareholder's equity, income statement accounts and the calculation of gains or losses in the monetary items have been measured based on the variation of the Accounting Monetary Unit - UMC, taking for variation basis the variation of the General Prices Index - Market - IGP-M in the 1st quarter of 2006, of 0.70% .

(b) Balance Sheet Accounts

Amounts related to monetary assets and liabilities presented in constant purchasing power currency are identical to those presented by the corporate legislation, except for accounts receivable from customers, accounts payable to suppliers and contractors, deferred income tax and social contribution in long term liabilities, which are adjusted to reflect the purchasing power or the currency realization as of March 31, 2006, taking as basis the rate published by the

National Association of Investment Banks - ANBID.

Permanent assets and shareholder's equity were adjusted based on the monthly variation of the UMC, updated by the IGP-M up to March 31, 2006.

(c) Income Statement Accounts

All accounts have been monetarily restated based on the variation of the UMC, from the month of booking, adjusted for inflationary gains or losses calculated on the beginning and ending balances of each month of the monetary assets and liabilities, and that generated financial or inflationary nominal income or expenses, which have been considered as reductions to the respective profit and loss accounts they are related to.

(d) Deferred taxes and contributions

The deferred income tax and social contribution have been calculated based on the rates of 15% plus additional of 10% and 9%, respectively, on the amounts of the over value of the assets and rights of the fixed assets generated by the result of the monetary variation, in accordance with the instructions of CVM, contained in the Statement of IBRACON - Institute of the Independent Auditors of Brazil, n°. 99/006.

The amounts presented are in purchasing power currency as of March 31, 2006.

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Shareholders and Management of
Companhia de Saneamento Básico do Estado de São Paulo - SABESP
São Paulo - SP

1. We have performed a special review of the accompanying interim financial statements of Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the Company), consisting of the balance sheet as of March 31, 2006, and the related statement of operations for the quarter then ended and the performance report, all expressed in Brazilian reais and prepared in conformity with Brazilian accounting practices under the responsibility of the Company's management.
2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company.
- 3.

Based on our special review, we are not aware of any material modifications that should be made to the interim financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.

4. The supplementary information for the quarter ended March 31, 2006, referring to the financial statements in constant purchasing power, and the statement of cash flows are presented for purposes of additional analysis and are not a required part of the basic financial statements. This supplementary information was reviewed by us in accordance with the auditing procedures mentioned in paragraph 2 and, based on our review, we are not aware of any material modifications that should be made for it to be fairly presented, in all material respects, in relation to the interim financial statements referred to in paragraph 1 taken as a whole.
5. As mentioned in Note 5 to the interim financial statements, the Company is negotiating with the State of São Paulo Government the reimbursement of the amounts for supplementary retirement and pensions paid by the Company and the future flow of these payments to be reimbursed by the State of São Paulo Government.
6. We had previously audited the balance sheet as of December 31, 2005, and reviewed the statements of operations for the quarter ended March 31, 2005, the supplementary information in constant purchasing power, and the statement of cash flows for the quarter ended March 31, 2005, presented for comparative purposes, and issued an unqualified opinion thereon and unqualified review report thereon, dated March 23, 2006 and May 13, 2005, respectively. In addition, our report, dated March 23, 2006, contains a comment similar to the one described in paragraph 5.
7. The accompanying interim financial statements have been translated into English for the convenience of readers outside Brazil.
