Gafisa Reports Results for Third Quarter 2011

--- Launches were R\$ 1.0 billion in 3Q11, 15% below 3Q10 as the Company implemented a more conservative strategy for Tenda launches ---

--- Contracted Sales were R\$ 1.0 billion in 3Q11, in line with 3Q10 and Consolidated Sales Velocity reached 23.1% and was 62% over launches in YTD ---

--- Consolidated Gafisa delivered 8,700 units in 3Q11 as Cash Burn for the quarter was reduced by 56% sequentially ---

-- Implementing new strategic plan that will slow launch growth for remainder of 2011 while targeting cash generation and long term profitable growth FOR IMMEDIATE RELEASE - São Paulo, November 14th, 2011 – Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today reported financial results for the third quarter ended September 30, 2011.

Commenting on the results, Duilio Calciolari, Chief Executive Officer said, "We are pleased to report quarterly results led by a recovery in our operating margins as the share of older lower margin developments continues to diminish in our overall product mix. Gross margin for the quarter was 29.5%, an increase on both a year-over-year and sequential basis. Subsequently, our EBITDA margin also improved sequentially to 20.1% for the third quarter. Despite these improvements, we expect to continue to see some pressure on the EBITDA margin during the coming quarters as we complete the delivery of the higher cost legacy Tenda projects and lower margin Gafisa projects from our geographic expansionary period as well as implement some aspects of our new strategic plan."

"While sales velocity of launches during the quarter was 50%, indicating strong demand for our projects, we have deliberately decided to slow the growth of launches for the remainder of 2011. This change is part of a more comprehensive strategic plan we are in the process of implementing that will help us achieve improved profitability, positive cash flow and a reduction in our overall leverage. We now expect to finish the year with total launches of between R\$ 3.5 – R\$ 4.0 billion. At this stage we expect to become cash flow positive during the coming quarters and achieve a net debt to equity ratio of below 60%."

Calciolari added, "We are committed to making the changes necessary to put in place a structure that fosters long term sustainability and profitable growth. While we are now in a period of transition, we have already seen tangible signs of recovery. We have developed an actionable strategic plan for moving forward, we have the right team in place to implement the requisite changes and have a

portfolio of brands and products with a strong proven track record in the market.”

3Q11 - Operating & Financial Highlight

Launches in 3Q11 reached R\$ 1.0 billion which represents a decrease of 15% as compared to 3Q10, totaling R\$ 2.9 billion in the first nine months of 2011, reflecting the implementation of a strategy to focus Tenda launches on those that can be immediately transferred to the Caixa Economica Federal (CEF). The launches for the first nine months of 2011 represent 56% of the mid-range of launch guidance expected for the full year of R\$ 5.3 billion – resulting in a downward revision of guidance to a range of R\$ 3.5 - R\$ 4.0 billion.

Pre-sales reached R\$ 1.04 billion in the quarter, a 3% increase as compared to 3Q10 mainly due to better sales of launches in 3Q11, which reached 50%. Consolidated VSO was 23.1%.

Net revenues, recognized by the Percentage of Completion (“PoC”) method, reached R\$ 1.00 billion, a 5% increase from 3Q10, mainly due to higher recognition coming from recent launches.

Adjusted Gross Profit (w/o capitalized interest) was R\$ 297 million, 7% higher than the same period of 2010, with a 33.4% Adjusted Gross Margin.

Adjusted EBITDA reached R\$ 202 million with a 20.1% margin, a 2.5% increase when compared to R\$ 197 million in the 3Q10, which can be attributed to the delivery of higher margin products by AlphaVille and Gafisa.

Net Income was R\$ 46.2 million for 3Q11 (5.9% Adj.Net Margin), a decrease of 60% from 3Q10.

Net Debt/Equity reached 75.3% at the end of the quarter, supported by a securitization of part of Gafisa’s receivables, totaling R\$ 221 million.

The Backlog of Revenues to be recognized reached R\$ 4.53 billion, a 6% increase over last quarter. The margin to be recognized increased to 38.4%, mainly due to the positive impact from the National Construction Cost Index, which increased approximately 2% in the period.

CEO Comments and Corporate Highlights for 3Q11

While the long term prospects for the Brazilian housing market has not changed, it has become clear over the last year that we will need to reexamine how we have approached the demand for high growth and diversification in the market in order to achieve sustainable, profitable returns for our shareholders going forward. Demand has outstripped supply on all fronts, from units and availability of skilled labor, to reliable and experienced suppliers and building partners, to financing, and to the ability to rapidly issue permits and execute the requisite chain of approvals to deliver units under the Minha Casa Minha Vida program. Over the last four months the entire management team of Gafisa together with a professional team of consultants from Bain & Co. , have dedicated countless hours to analyzing our profitability by project, region and brand. While we still have much to do, we are encouraged by the opportunities that lay in front of us and the clear progress identified in righting the “wrongs” from previous periods. We are entering the last quarter of the year with a clear vision of our short- and mid-term priorities.

In the near term, we will simplify our overall business and reinforce the fundamentals of each of our segments. Initially, we will prioritize the geographic markets with the strongest prospects by brand and where we have the best supply chain, and focus our efforts there. Over the last few years, we have made strong progress in consolidating our back office and establishing shared operations between the three businesses, Gafisa, AlphaVille and Tenda. With the implementation of the SAP platform across all divisions, we have the right tools in place guiding us in making better decisions across the company. That said, we now know that critical to our future success is the implementation of a new management structure that gives the brand manager P&L responsibility. This along with several other immediate changes including focusing the Tenda team on the transfer of receivables (“repassa”), and an incentive structure that aligns the entire organization, down to individual engineers on a project, with the objective of delivering high quality projects on time and within budget, should reduce Gafisa’s cash burn and accelerate its return to sustainable growth. We will expand on this new strategic plan in the following pages and on our conference call.

Our plan for operating profitability improvement is advancing, launches have been slowed to reduce cash burn particularly at Tenda and a sharper focus is in place on the business segments that provide the greatest return. The sequential gross margin improvement of 850 basis points to 29.5% reflects a higher concentration of AlphaVille developments in our product mix, a segment that we intend to continue to expand in the future. The same level of launches, R\$1 billion, from the prior year period reflect our decision to slow the expansion of Tenda and focus on those developments that could immediately generate cash flow for the Company. In the third quarter, we delivered an adjusted EBITDA margin of 20.1% including expected provisions related to potential Tenda cancellations and Gafisa related project delays from outsourced construction projects. The changes we believe need to take place, particularly at Tenda, may require us to include additional provisions in the fourth quarter results, as we expect the number of cancellations to increase, given the higher volume of delivered units. Our contracted sales of launches, which are at higher margins, are continuing to track at an appropriate level to achieve the expected margin

improvement. However, it is worth mentioning that we continue to focus on finished inventory reduction, which may impact our margins.

We transferred 2,997 Tenda units to Caixa during the quarter and we are focused on the Tenda turn-around and monetization high quality receivables at Gafisa in the amount of R\$ 221 million. Across the Company, we delivered slightly more than 8,700 units and our cash burn is down to R\$56 million in the quarter as compared to R\$ 148 million in 2Q11.

While the Brazilian economy has moved into a more rational growth phase, overall the fundamentals remain sound to support long term growth for the homebuilding industry. We are confident that our strategic plan will allow us to focus on the strong pockets of opportunity for our brands and set the stage for continued market leadership in the future.

Quarterly information - 09/30/2011 – Gafisa S.A.

The key elements of our plan are to drive cash generation, improve margins and deleverage to facilitate rational, profitable growth going forward. In order to achieve these goals, through 2012 we will need to slow the pace of growth and expect that launches for this year will be in the range of R\$ 3.5 - \$4.0 billion. We will continue to launch Gafisa products as long as the sales environment is strong for each product. Tenda launches will be based on our ability to immediately transfer the units to CEF. Additionally, our focus at Tenda will be to deliver units in progress. We have some R\$ 400 million yet to transfer to CEF from finished units around 5,000. We also intend to expand AlphaVille in our product mix and allocate the capital necessary to leverage the tremendous competitive advantages we have with this brand segment. We fully understand that this strategy may impact the size of our firm for some years to come. However, these are necessary actions and we believe will prove a highly successful trade-off in the longer term.

The identification of what must be changed and enhanced is a fundamental step in improving shareholder return. We have now done this and are committed to putting in place the measures that need to be taken to continue to improve margins, generate cash flow and reduce our leverage in the near and medium term.

Duilio Calciolari, CEO -- Gafisa S.A.

Overview of Strategic Plan

Since July 2011, the Company management has focused on a deep evaluation of each of the Gafisa, AlphaVille and Tenda businesses from a strategic and capital allocation perspective. The result is a modified strategy and a new plan of action moving forward. Following is an overview of key elements of this strategy focusing on the current period through 2014 including a new organizational structure, targeted geographic regions for expansion, a turn-around strategy for Tenda, and an expansion of AlphaVille in the product mix.

New Organizational Structure

Establish P&L owners by brand to guarantee a focus on each line of business and deliver on the unique qualities of each of the brand segments. The new business heads will be:

Gafisa: Sandro Gamba has been at Gafisa for over 15 years. He is currently the Real Estate Development Officer. He has served Gafisa in a number of senior roles in the São Paulo region, including head of business development for Gafisa and director and manager of prospecting land.

Tenda:* Rodrigo Osmo. Rodrigo has successfully managed the P&L of AlphaVille since 2009 and has been with Gafisa for over five years. He has spent the last months focused on the turn-around strategy for Tenda and will lead a highly experienced team in the development and sales of lower income housing.

AlphaVille: Marcelo Willer has been AlphaVille's Real Estate Development Officer since 2006 and served as Project Officer from 2000 to 2006.

*Currently, we are in the process of identifying a new Chief Financial Officer. During this transition period, Rodrigo Osmo will remain as CFO and Duilio Calciolari as IRO.

Near Term Growth in High Priority Regions

Through 2014, Gafisa will focus its expansion on highly targeted regions of the country with proven potential for profitable development for each of the brand segments. We have identified the key geographic regions of focus for each of the brands based on market potential, existing competitiveness (local expertise and network, brand perception, etc) as well as reliable supplier relationships.

Gafisa – The medium to high income market in Brazil is concentrated in approximately 10% of the municipalities and accounts for approximately R\$100 billion/year of potential sales value. Thus, Gafisa will focus its near term growth on several key markets including strengthening its leadership position in Sao Paulo, where launches have proven to be most profitable, and shoring up management and operational capacity in Rio de Janeiro, where long term prospects are strong. Thus, the main focus should be Sao Paulo and Rio de Janeiro. We will deliver projects in progress in other regions of the country and continue to monitor markets in which we have a presence to opportunistically develop units with high potential. The current land bank will be realigned in accordance with this strategy. Since approximately 41% of the land bank outside of SP & Rio was acquired through swaps, minimal capital was deployed in these regions.

AlphaVille – AlphaVille has increasingly become an important part of our overall product mix. With high gross margins of approximately 50%, significant barriers to entry and our competitive advantages, we intend to fully develop the potential of this business opportunity. We have already identified some 60 cities throughout the country where we can launch AlphaVille developments over the next 3-5 years.

Tenda Turn-Around Strategy

The plan for Tenda is based on two fundamental elements - conserving capital by only launching units that can immediately be transferred to CEF and developing a scale advantage to optimize the use of the innovative aluminum mold technology which facilitates a lower cost structure for building these types of units. Our initial focus will be on four regions: Sao Paulo, Rio de Janeiro, Minas Gerais and Salvador, where we have already established a strong base to relaunch operations and CEF is well established. We are currently evaluating all developments in progress and launched but not yet in progress to determine which of these will not be brought to conclusion. We are also focused on complete the delivery of the higher cost legacy Tenda projects.

AlphaVille - Status of the Acquisition of the Remaining Shares

In October, we began the acquisition process of the remaining 20% stake from its controlling shareholders. The valuation will be based on independent experts' analysis and is expected to be concluded by the end of the year. However, we do not expect a disbursement to take place until the beginning of 2012.

In 3Q11, launches totaled R\$ 1.05 billion, a decrease of 15% compared to 3Q10, represented by 7 projects/phases, located in 3 states.

In 9M11, 51% of Gafisa launches had a price per unit below R\$ 500 thousand, while nearly 100% of Tenda's launches had prices per unit under the MCMV program. This quarter Tenda launched two projects under MCMV program, with an average price per unit of R\$ 150 thousand. These projects represented a PSV of R\$ 49 million.

For the quarter, the Gafisa segment was responsible for 62% of total launches with 38% of them coming from the state of Sao Paulo, reflecting favorable projects approval performance, Tenda and AlphaVille accounted for 5% and 33% of launches, respectively.

The tables below detail new projects launched during 3Q11 and 9M11:

(A free translation of the original in Portuguese)**Quarterly information - 09/30/2011 – Gafisa S.A.****Pre-Sales**

Pre-sales for the quarter reached R\$ 1.04 billion, an increase of 3%, compared to 3Q10. In the case of Tenda, the 71% decrease is a consequence of a 90% decrease in launches during 9M11, when compared to 9M10; as well as the concentration of products launched in the last month of the quarter, reducing the availability of products under the Tenda brand during this period.

In 3Q11, the Gafisa segment was responsible for 64% of total pre-sales, while Tenda and AlphaVille accounted for approximately 9% and 27%, respectively. Among Gafisa's pre-sales, 75% corresponded to units priced below R\$ 500 thousand, while 100% of Tenda's pre-sales came from units priced under the MCMV program. The tables below illustrate a detailed breakdown of our pre-sales for 3Q11 and 9M11:

Sales Velocity

On a consolidated basis, the Company attained a sales velocity of 23.1% in 3Q11, compared to 25.7% in 3Q10. Sales velocity decreased over the previous period mainly due to a lower volume of launches at Tenda. Sales velocity of launches reached 50%, compared to 42% in 2Q11, reflecting our strategy of selecting the appropriate tract of land, add the right product at the appropriate time/price to announce the launches.

Operations

By the end of 3Q11, the Company was present in 22 different states plus the Federal District, and had 197 projects under development. Around 437 engineers and architects were in the field, in addition to 587 intern engineers in training.

Since June we saw an acceleration of the number of units contracted by the CEF likely due to the internal improvements resulting from the start-up of a new area dedicated to working with the major homebuilders. In 3Q11 Tenda contracted 5,305 units with CEF, with 56% of them contracted in September alone. This improvement resulted in 13,998 units in 9M11.

Transferred units totaled 2,997 units in 3Q11 (7,955 in 9M11). In 4Q11, we expect to transfer more units than in 3Q11, allowing us to maintain the target of close to 12,000 units to be transferred for the full year.

Quarterly information - 09/30/2011 – Gafisa S.A.**Delivered Projects**

During the third quarter, consolidated Gafisa delivered 44 projects with 8,700 units and an approximate PSV of R\$ 1.1 billion. The Gafisa segment delivered 12 projects, while Tenda and AlphaVille delivered the remaining 30 and 2 projects/phases, respectively. The delivery date is based on the “delivery meeting” that takes place with customers, and not upon the physical completion which is prior to the delivery meeting.

For 4Q11 we expect to deliver an additional 9,000 units for a total of 25,000, almost double the amount delivered during the full year of 2010, mainly due to the delivery of older Tenda units along with some of Gafisa’s leveraged 2007/2008 launches. The tables below list the products delivered in 3Q11 and first nine months of 2011:

(A free translation of the original in Portuguese)**Quarterly information - 09/30/2011 – Gafisa S.A.****Land Bank**

The Company's land bank of approximately R\$ 21.1 billion is composed of 204 different projects in 19 states, equivalent to approximately one hundred thousand units. In line with our strategy, 39.5% of our land bank was acquired through swaps – which require no cash obligations.

During 3Q11 we recorded a gross increase of R\$ 2.68 billion in land bank, reflecting acquisitions that offset the R\$1.00 billion launches in the quarter. Regarding the breakdown of the acquisitions by brand: Gafisa accounted 43% of the new additions, Alphaville 30% and Tenda the remaining 28%. As to cash transactions, which represented 35% of the total, our strategy was focused in areas of high liquidity and profitability, such as the acquisition of the last module of Ceramica, located in Sao Caetano.

The table below shows a detailed breakdown of our current land bank:

(A free translation of the original in Portuguese)**Quarterly information - 09/30/2011 – Gafisa S.A.****3Q11 - Revenues**

On a consolidated basis, revenues for 3Q11 totaled R\$ 1.0 billion from R\$ 957 million in 3Q10, with Tenda contributing 33% of consolidated revenues.

This quarter, 36% of Tenda revenue came from projects from and prior to 2008, compared to 47% in 2Q11. We should see this consistently decreasing in the coming quarters due to the delivery of Tenda legacy units. The negative sales from 2008 units were due to Tenda's effort to cancel sales from customers with low credit scores. These negative sales, which occurred at the end of the quarter, should be re-sold in 4Q11.

The table below presents detailed information about pre-sales and recognized revenues by launch year:

In the third quarter, SG&A expenses totaled R\$ 128.0 million. SG&A increased 13%, from R\$ 113.2 million in 3Q10 and 5% from R\$122.4 million in 2Q11. When compared to 3Q10, the G&A ratio improved in relation to net revenues. Selling expenses/Net revenue increased primarily due to higher selling expenses with the launch and sales volume in the quarter.

3Q11 - Other Operating Results

In 3Q11, our results reflected a negative impact of R\$10.4 million, compared to R\$2.2 million in 3Q10, primarily due to a higher level of contingency provisions in the quarter. These included an R\$ 20.7 million contingency mainly at Tenda, related to delayed delivery of units from legacy Tenda projects and labor contingency mainly related to outsourced tasks, where we continued taking a conservative stance by making this provision.

3Q11 - Adjusted EBITDA

Adjusted EBITDA for 3Q11 totaled R\$ 202.2 million, 2.5% higher than the R\$ 197 million for 3Q10, with a consolidated adjusted margin of 20.1%, compared to 20.6% in 3Q10. In 9M11, EBITDA margin reached 16.1%, at the low-end of the previously stated guidance of 16%-20% for the year. For more detailed

information about EBITDA margin guidance, please refer to “Outlook” section, on page 21.

We adjusted our EBITDA for expenses associated with stock option plans, as it is a non-cash expense.

Quarterly information - 09/30/2011 – Gafisa S.A.

3Q11 - Depreciation and Amortization

Depreciation and amortization in 3Q11 was R\$ 21.8 million, an increase of R\$ 13 million when compared to the R\$ 8.3 million recorded in 3Q10, mainly due to higher showroom depreciation.

3Q11 – Financial Results

Net financial expenses totaled R\$ 58.1 million in 3Q11, compared to net financial expenses of R\$ 20.0 million in 3Q10. Additionally, this quarter we capitalized R\$ 61 million, compared to R\$ 47 million in 3Q10, mainly due to higher project finance debt, reflecting leveraging activity, and capitalization of some short term land investments. Net financial expenses when compared to the R\$ 28.9 million from 2Q11, the difference is mainly due to the expenses related to the securitization.

3Q11 - Taxes

Income taxes, social contribution and deferred taxes for 3Q11 amounted to R\$ 23.8 million, compared to R\$ 10.5 million in 3Q10. In the future, and assuming normalized margins, we continue to expect income tax to represent approximately 2% of net revenue.

3Q11 - Adjusted Net Income

Net income in 3Q11 was R\$ 46.2 million compared to R\$ 121.7 million in the 3Q10, representing a decrease of 60.4%. However, net income on an adjusted basis (before deduction of expenses related to minority shareholders and stock options), reached R\$ 59.3 million, with an adjusted net margin of 5.9%. When compared to 2Q11 adjusted net income increased 50%, mainly due to better mix and a positive impact from the INCC.

3Q11 - Earnings per Share

Earnings per share was R\$ 0.11 in the 3Q11 compared to R\$ 0.27 in 3Q10, a 60.4% decrease, and R\$0.06 in 2Q11. Shares outstanding at the end of the period were 431.5 million (ex. Treasury shares) compared to 429.3 million in 3Q10.

Backlog of Revenues and Results

The backlog of results to be recognized under the PoC method reached R\$ 1.74 billion in 3Q11, 32,9% higher than the R\$1.31 billion in the 3Q10. The consolidated margin for the quarter was 38.4%, higher than the 38,2% in 3Q10 and 195 bps higher than 2Q11, mainly reflecting the fact that recent projects are having

a greater impact on the company's results to be recognized while the impact of our older-lower margin projects are beginning to diminish.

Another positive impact came from the National Construction Cost Index (INCC) that increased over 2% in the period, reflecting inflation from May to July, since contracted unit prices are adjusted based on INCC of the second prior month.

The table below shows our revenues, costs and results to be recognized, as well as the expected margin:

Balance Sheet

Cash and Cash Equivalents

On September 30, 2011, cash and cash equivalents reached R\$ 912.4 million. We see our cash position as sufficient to execute our development plans, and we see no need to increase this current level. Assuming this scenario, the expected positive cash flow generation in the coming quarters should contribute to reduce gross debt.

Accounts Receivable

At the end of 3Q11, total accounts receivable increased by 21% to R\$ 10.6 billion, from R\$ 8.7 billion in 3Q10. Sequentially, accounts receivable increased 3% from R\$ 10.3 billion in 2Q11.

Inventory at market value totaled R\$ 3.5 billion in 3Q11, an increase of 19% when compared to the R\$ 2.9 billion registered in 3Q10. On a consolidated basis, our inventory is at a level of 9.6 months of sales based on LTM sales figures.

Finished units of inventory at market value represented 12% by the end of the quarter, or stable compared to the 2Q11 figures, mainly due to Gafisa's finished units sold in the quarter which more than compensated the completion of unsold units. We continue to focus on reducing finished inventory primarily concentrated under Gafisa brand which represents 64% of the total of finished inventory.

At the end of 3Q11, 48.2% of the total inventory reflected units where construction is up to 30% complete.

(A free translation of the original in Portuguese)**Quarterly information - 09/30/2011 – Gafisa S.A.****Liquidity**

As of September 30, 2011, Gafisa had a cash position of R\$ 912 million. On the same date, Gafisa's debt and obligations to investors totaled R\$ 3.86 billion, resulting in a net debt and obligations of R\$ 2.9 billion. The net debt and investor obligations to equity and minorities ratio was 75.3% compared to 75.1% in 2Q11, due to the R\$ 56 million cash burn in the second quarter. Excluding Project Finance, this net debt/equity ratio reached 28.6%, a comfortable leverage level with a competitive cost that is equivalent to the Selic rate.

Our 3Q11 cash burn was mainly explained by the R\$ 685 million in expenditures in construction and development payments and R\$ 120 million in land acquisition payments, partially offset by increasing cash inflow (expected to continue increasing in 4Q11) and also due to the true securitization that we did by the end of the quarter, containing both receivables that are due and receivables that will come due within the next six months (which are considered by the investor to be equivalent to performed receivables, since there is no longer execution risk, resulting in a definitive sale).

During 4Q11 we expect cash burn to continue to diminish, following expected positive cash flow generation. With the expected positive cash flow for 4Q11, we should be able to deleverage the Company, which together with a greater use of the blue print mortgage—which requires almost no working capital – for Tenda's MCMV units, should contribute to our ability to reduce current leverage and keep it at a comfortable level going forward. On page 24, we also highlighted our current debt covenants ratio, showing a comfortable position by the end of the quarter.

Project finance now represents 47% of total debt. Currently we have access to a total of R\$ 4.3 billion in construction finance lines of credit provided by all of the major banks in Brazil. At this time we have R\$ 1.6 billion in signed contracts and R\$ 1.3 billion of contracts in process, giving us additional availability of R\$ 1.4 billion.

We also have additional receivables (from units already delivered) of over R\$ 500 million available for securitization. The following tables provide information on our debt position.

(A free translation of the original in Portuguese)**Quarterly information - 09/30/2011 – Gafisa S.A.****Outlook vs. Actual**

In 9M11 Gafisa achieved 56% of the mid-range of launch guidance of between R\$ 5.0 billion and R\$ 5.6 billion for the full year. Due to this fact, and also the assumption of a more conservative approach (focusing on long term profitability and cash flow generation) we decided to reduce the full year launch guidance range by 30%, to between R\$3.5 billion and R\$4.0 billion from between R\$5.0 billion and R\$5.6 billion.

Table 24 – Guidance Launches 2011

| Max | 5,600 | | 53% | Max | 4,000 | | 74% |

With regard to profitability, we are currently at a 16.1% EBITDA margin for the first nine months of the year, which is at the lower-end of the range of our expectations for the full year guidance of between 16% and 20%. Since the first half, our EBITDA margin improved primarily due to higher contribution of more profitable projects, compared to the results for 1H11.

| | Mid | 18% | 16.1% | 190 bps |
| | Max | 20% | | 390 bps |

These changes lead to an expectation for positive operating cash flow for 2012 that should bring the Net Debt/Equity ratio down to below 60% over the next quarters.

Quarterly information - 09/30/2011 – Gafisa S.A.

Detailed Information to Support Gafisa's Expected Improvement

The following information is being provided this quarter to support our expectations for achieving the operational and financial performance guided.

Positive Cash Flow:

Since 3Q10, when the cash burn rate reached its peak of R\$ 453 million for the quarter, it has declined sequentially to the R\$ 56 million reported in 3Q11. We are considering the securitization in this calculation, as the traded receivables were sold without joint liability for both those that were due and those scheduled to be delivered within 6 months (thus eliminating execution risk).

Additionally, we are seeing healthy, continuous improvement in cash inflow.. In 3Q11 cash inflow reached R\$ 946 million, or 74% higher than 3Q10, as a consequence of higher number of units being delivered. Cash inflow is expected to accelerate further in the last quarter.

Based on all the information above, we expect a net debt/equity of 60% by the end of next year, reflecting the positive impact from the upcoming delivery of units expected for the fourth quarter.

Margin Expansion:

In 3Q11, 39.8% of the Net Revenues came from projects from and prior to 2008. Crucial to our expectation of important improvement in terms of margin expansion going forward is the fact that the recognition from projects < 2008 should quickly diminish and be replaced by increasing recognition of projects from 2H10 and 2011, with average gross margin in the range of 35%-41%, compared to 16,9% from 2008.

Glossary

Affordable Entry Level

Residential units targeted to the mid-low and low income segments with prices below R\$200 thousand per unit.

Backlog of Results

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues and expenses over a multi-year period for each residential unit we sell. Our backlog of results represents revenues minus costs that will be incurred in future periods from past sales.

Backlog of Revenues

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues over a multi-year period for each residential unit we sell. Our backlog represents revenues that will be incurred in future periods from past sales.

Backlog Margin

Equals to “Backlog of Results” divided “Backlog of Revenues” to be recognized in future periods.

Land Bank

Land that Gafisa holds for future development paid either in Cash or through swap agreements. Each decision to acquire land is analyzed by our investment committee and approved by our Board of Directors.

LOT (Urbanized Lots)

Land subdivisions, or lots, with prices ranging from R\$ 150 to R\$ 600 per square meter

PoC Method

Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using the percentage-of-completion (“PoC”) method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

Pre-sales

Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted pre-sales" under Brazilian GAAP.

PSV

Potential Sales Value.

SFH Funds

Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

Quarterly information - 09/30/2011 – Gafisa S.A.

Swap Agreements

A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to reduce our cash requirements and increase our returns.

About Gafisa

Gafisa is a leading diversified national homebuilder serving all demographic segments of the Brazilian market. Established over 57 years ago, we have completed and sold more than 1,000 developments and built more than 12 million square meters of housing only under Gafisa's brand, more than any other residential development company in Brazil. Recognized as one of the foremost professionally managed homebuilders, "Gafisa" is also one of the most respected and best-known brands in the real estate market, recognized among potential homebuyers, brokers, lenders, landowners, competitors, and investors for its quality, consistency, and professionalism. Our pre-eminent brands include Tenda, serving the affordable/entry level housing segment, and Gafisa and AlphaVille, which offer a variety of residential options to the mid to higher-income segments. Gafisa S.A. is traded on the Novo Mercado of the BM&FBOVESPA (BOVESPA:GFS3) and on the New York Stock Exchange (NYSE:GFA).

Quarterly information - 09/30/2011 – Gafisa S.A.

1. Operations

Gafisa S.A. ("Gafisa" or "Company") is a publicly traded company with headquarters at Av. das Nações Unidas, 8501, 19º andar, in the City and State of São Paulo, and started its commercial operations in 1997 with the objectives of: (a) promoting and managing all forms of real estate ventures on its own behalf or for third parties; (b) purchasing, selling and negotiating real estate properties in general, including provision of financing to real estate customers; (c) carrying out civil construction and providing civil engineering services; (d) developing and implementing marketing strategies related to its own or third party real estate ventures; and (e) investing in other companies, which have similar objectives as the Company's.

The Company forms jointly-controlled ventures (Special Purpose Entities - SPEs) and participates in consortia and condominiums with third parties as a means of meeting its objectives. The controlled entities substantially share the managerial and operating structures and the corporate, managerial and operating costs with the Company.

In May 2010, the Company approved the acquisition of the total amount of shares issued by Shertis Empreendimentos e Participações S.A., whose main asset comprises 20% of the capital of Alphaville Urbanismo S.A. (AUSA). The acquisition of shares has the purpose of ensuring the viability of the implementation of the Second Phase of the schedule for investment planned in the Investment Agreement and other Covenants, signed between the Company and Alphaville Participações S.A. (Alphapar) on October 2, 2006, thus increasing the interest of Gafisa in the capital of AUSA to 80%. As a result of the acquisition of shares, Shertis was converted into a wholly-owned subsidiary of Gafisa, with the issue of 9,797,792 new common shares to Alphapar, former shareholder of Shertis, thus resulting in a capital increase amounting to R\$ 20,282 (Note 15.1).

2. Presentation of interim information

The interim information was approved by the Board of Directors at the meeting held on November 10, 2011.

The interim individual financial information and the interim consolidated financial information were prepared in accordance with accounting practices adopted in Brazil that comprise the Technical Pronouncement of the Brazilian FASB (CPC) 21, and the IAS 34 – Interim Financial Reporting, which considers Guideline 04 issued by the CPC on the application of Technical Interpretation ICPC 02 to the Brazilian Real Estate Development Entities regarding revenue recognition, and respective costs and expenses arising from real estate development operations in reference to the state of completion (percentage of completion method), issued by the Brazilian FASB (CPC) and approved by the Brazilian Securities Commission (CVM) and the Brazilian National Association of State Boards of Accountancy (CFC), as well as for the presentation of this information in compliance with the rules issued by the CVM, applicable to the preparation of quarterly information (ITR).

Quarterly information - 09/30/2011 – Gafisa S.A.

Certain matters related to the meaning and application of the continuous transfer of the risks, benefits and control over the real estate unit sales are under consideration by the International Financial Reporting Interpretation Committee (IFRIC). The results of this consideration may cause the Company to revise its accounting practices related to revenue recognition.

The accounting policies adopted in the preparation of interim individual and consolidated financial information of the Company were applied consistently with those adopted and disclosed in Note 2 to the financial statements for the year ended December 31, and, accordingly, shall be read together with this document.

2.1 Interim consolidated information

The Company's quarterly consolidated information, which includes the financial statements of subsidiaries and the joint ventures indicated in Note 8, was prepared in compliance with the applicable consolidation practices and the legal provisions. Accordingly, intercompany balances, accounts, income and expenses, and unrealized earnings were eliminated. The jointly-controlled investees are consolidated in proportion to the interest held by the Company.

Quarterly information - 09/30/2011 – Gafisa S.A.

3. New pronouncements issued by the IASB

Until disclosure date of the interim individual and consolidated financial information, the following pronouncements and interpretations issued by the IASB were published, however, their application was not mandatory for the year beginning January 1, 2011:

| New Standards | Mandatory application for years beginning as from: |
|--|---|
| IFRS 9 – Financial Instruments (i) | January 1, 2013 |
| New Interpretations | |
| Amendment to IFRS 7 – Financial Instruments: Disclosures | |
| Transfer of Financial Assets | January 1, 2013 |

(i) IFRS 9 ends the first part of the Project for replacing “IAS 39 Financial Instruments: Recognition and Measurement”. IFRS 9 adopts a simple approach to determine whether a financial asset is measured at amortized cost or fair value, based on how an entity manages its financial instruments (its business model) and the characteristic contractual cash flow of financial assets. The standard also requires the adoption of only one method for determining impairment of assets. This standard shall be effective for the fiscal years beginning as from January 1, 2013. The Company does not expect this change to cause impact on its consolidated financial statements.

The Company does not expect significant impacts on the consolidated financial statements in the first adoption of the new pronouncements and interpretations.

The following pronouncements and interpretations issued by the IASB shall be mandatorily applied for the fiscal years indicated below. Such changes did not have impact on or have already been reflected in the interim consolidated information of the Company.

| New Standards | Mandatory application for years beginning as from: |
|--|---|
| IAS 24 – Revised Related Parties: Disclosure (i) | January 1, 2011 |
| New Interpretations | |
| | January 1, 2011 |

| | |
|---|-----------------|
| Amendment to IFRIC 14 – Prepayments of a minimum funding requirement (ii) | |
| IFRIC 10 – Consolidated financial statements (iii) | January 1, 2013 |
| IFRIC 11 – Joint ventures (iv) | January 1, 2013 |
| IFRIC 12 – Disclosure of investments in other entities (v) | January 1, 2013 |
| IFRIC 13 – Measurement of the fair value (vi) | January 1, 2013 |
| Amendments to Existing Standards | |
| Amendment to IAS 1 – Presentation of Financial Statements | January 1, 2011 |
| Amendment to IFRS 3 – Business Combinations | January 1, 2011 |

(i) It simplifies the disclosure requirements for state-owned entities and clarifies the definition of the term related party. The revised standard deals with aspects that, according to the previous disclosure requirements and related party definition, were too complex and hardly applicable, mainly in environments with wide governmental control, offering partial exemption to state-owned entities and a revised definition of the related party concept. This amendment was issued in November 2009, and shall be effective for the fiscal years beginning as from January 1, 2011.

Quarterly information - 09/30/2011 – Gafisa S.A.

- (ii) This amendment applies only to those situations in which an entity is subject to minimum funding requirements and prepays contributions to cover such requirements. This amendment permits that this entity accounts for the benefit of such prepayment as asset. This amendment shall be effective for the fiscal years beginning as from January 1, 2011. This change will not have impact on the Company's consolidated financial statements
- (iii) IFRS 10 supersedes SIC 12 and IAS 27 and applies to the consolidated financial statements where a company controls one or more companies.
- (iv) IFRS supersedes SIC 13 and IAS 31 and applies to jointly-controlled companies.
- (v) IFRS 12 addresses disclosure of equity in other companies, purpose of which is to inform users of the risks, nature, and impact of such equity on the financial statements.
- (vi) IFRS 13 applies where other pronouncements issued by IFRS require or allow measurements or disclosure of fair value (and measurements such as fair value less selling cost, based on the fair value or disclosure of such measurements).

There are no other standards and interpretations issued, but not adopted yet, that may, in Management's opinion, produce significant impact on the P&L or the equity disclosed by the Company.

The Brazilian FASB (CPC) has not issued the respective pronouncements and amendments related to the new and revised IFRS previously presented. Because of CPC and CVM's commitment to keeping the set of standards issued updated on the basis of the updates made by the IASB, these pronouncements and amendments are expected to be issued by CPC and approved by CVM until the date of their mandatory application.

4.2 Marketable securities and collaterals (Continued)

In fiscal year 2010, the Company acquired 22,000 Additional Construction Potential Certificates (CEPACs) in the Seventh Session of the Fourth Public Auction conducted by the Municipal Government of São Paulo, related to the consortium of Água Espraiada urban operation, totaling R\$16,500. At September 30, 2011, the CEPACs, recorded in the heading “Other”, have liquidity, the estimated fair value approximates cost, and shall not be used in ventures to be launched in the future.

Such issue was registered with the CVM under No. CVM/SER/TIC/2008/002, and according to CVM Rule No. 401/2003, CEPACs are put up for public auction having as intermediary the institutions that take part in the securities distribution system.

As of September 30, 2011 and December 31, 2010, the amount related to open-end and exclusive investment funds is recorded at fair value through profit and loss. Pursuant to CVM Rule No. 408/04, short-term investment in Investment Funds in which the Company has exclusive interest is consolidated.

Exclusive funds are as follows:

Fundo de Investimento Arena is a multimarket fund under management and administration of Santander Asset Management and custody of Itaú Unibanco. The objective of this fund is to appreciate the value of its shares by investing the funds of its investment portfolio, which may be comprised of financial and/or other operating assets available in the financial and capital markets that yield fixed return. Assets eligible to the portfolio are the following: government bonds, derivative contracts, debentures, CDBs and Bank Receipts of Deposits (RDBs), investment fund shares of classes accepted by CVM and securities purchased under agreement to resell, according to the rules of the National Monetary Council (CMN). There is no grace period for redemption of shares, which can be redeemed with a return at any time.

The breakdown of securities, which comprise the portfolio of exclusive funds at September 30, 2011, is as follows:

5. Trade accounts receivable and services provided (Continued)

(i) The balance of accounts receivable from units sold and not yet delivered is not fully reflected in financial statements. Its record is limited to the portion of revenues accounted for net of the amounts already received.

The consolidated balance of advances from customers (development and services), which exceed the revenues recorded in the period, amounts to R\$104,592 at September 30, 2011 (R\$158,145 at December 31, 2010), and are classified in “Payables for purchase of land and advances from customers” (Note 14).

Accounts receivable from completed real estate units delivered, financed by the Company, are in general subject to annual interest of 12% plus IGP-M variation, the financial income being recorded in income as “revenue from real estate development”; the amounts recognized for the periods ended September 30, 2011 and 2010 totaled R\$21,935 and R\$20,854, respectively.

The allowance for doubtful accounts is estimated by considering the expectation on accounts receivable losses.

The balance of allowance for doubtful accounts recorded amounts to R\$25,301 (consolidated) at September 30, 2011 (December 31, 2010 – R\$18,016), and is considered sufficient by Company management to cover the estimate of future losses on realization of the accounts receivable balance.

During the period ended September 30, 2011, the changes in the allowance for doubtful accounts are summarized as follows:

| | |
|------------------------|---------------------|
| | Consolidated |
| | 2011 |
| Balance at December 31 | 18,916 |

| | |
|-----------------|---------------|
| Additions | 6,385 |

5. Trade accounts receivable and services provided (Continued)

Receivables from real estate units not yet finished were measured at present value by considering the discount rate determined according to the criterion described in Note 2.22 to the financial statements at December 31, 2010. The rate applied by the Company and its subsidiaries stood at 4.47% for the period ended September 30, 2011 (5.02% at December 31, 2010), net of Civil Construction National Index (INCC).

(ii) At March 31, 2009, the Company entered into a Receivables Investment Funds (FIDC) transaction, which consists of assignment of a portfolio comprising select residential and commercial real estate receivables arising from Gafisa and its subsidiaries. This portfolio was assigned and transferred to “Gafisa FIDC” which issued Senior and Subordinated shares. This first issuance of senior shares was made through an offering restricted to qualified investors. Subordinated shares were subscribed for exclusively by Gafisa. Gafisa FIDC acquired the portfolio of receivables at a discount rate equivalent to the interest rate of finance contracts.

Gafisa was engaged by Gafisa FIDC and will be compensated for performing, among other duties, the reconciliation of the receipt of receivables owned by the fund and the collection of past due receivables. The transaction structure provides for the substitution of the Company as a collection agent in case of non-fulfillment of the responsibilities described in the collection service contract.

The Company assigned its receivables portfolio amounting to R\$ 119,622 to Gafisa FIDC in exchange for cash, at the transfer date, discounted to present value, for R\$ 88,664. The subordinated shares represent approximately 21% of the amount issued, totaling R\$ 18,958 (present value); at September 30, 2011 it totaled R\$17,260 (Note 8). Senior and Subordinated shares receivables are indexed by IGP-M and incur interest at 12% per year.

The Company consolidated Gafisa FIDC in its financial statements, accordingly, the Company discloses at September 30, 2011 receivables amounting to R\$24,926 in the group of accounts of trade accounts receivable, and R\$7,666 are reflected in the heading Payables to Venture Partners and Other, the balance of subordinated shares held by the Company being eliminated in this consolidation process;

5. Trade accounts receivable and services provided (Continued)

(iii) On June 26, 2009, the Company and its subsidiaries entered into a CCI transaction, which consists of an assignment of a portfolio comprising select residential real estate receivables from Gafisa and its subsidiaries. The Company assigned its receivables portfolio amounting to R\$ 89,102 in exchange for cash, at the transfer date, discounted to present value, of R\$ 69,315, classified in the heading “Payables to Venture Partners and Other – Assignment of Credits”.

Eight book-entry CCIs were issued, amounting to R\$ 69,315 at the date of the issuance. These 8 CCIs are backed by Rights to the Credit, whose installments fall due on and up to June 26, 2014 (“CCI-Investor”).

A CCI-Investor, pursuant to Article 125 of the Brazilian Civil Code, has general guarantees represented by statutory lien on real estate units, as soon as the following occurs: (i) the suspensive condition included in the registration takes place, in the record of the respective real estate units; (ii) the assignment of Rights to the Credit from the assignors to SPEs, as provided for in Article 167, item II, (21) of Law No. 6015, of December 31, 1973; and (iii) the issue of CCI – Investor by SPEs, as provided for in Article 18, paragraph 5 of Law No. 10931/04.

Gafisa was engaged and will be compensated for performing, among other duties, the reconciliation of the receipt of receivables, guarantee of the CCIs, and the collection of past due receivables. The transaction structure provides for the substitution of Gafisa as collection agent in case of non-fulfillment of the responsibilities described in the collection service contract.

(iv) On June 27, 2011, the Company and its subsidiaries entered into a Definitive Assignment of Real Estate Receivables Agreement - CCI. The purpose of said Assignment Agreement is the definitive assignment by the Assignor to the benefit of the Assignee. The assignment relates to a portfolio comprising select residential real estate receivables performed and to be performed arising out of Gafisa and its subsidiaries. The assigned portfolio of receivables amounts to R\$203,915 (R\$ 185,210 - % Gafisa) (in exchange for cash, at the transfer date, discounted to present value, for R\$171,694 (R\$155,889 - % Gafisa), recorded in the heading “Payables to venture partners and other – Credit Assignment”.

The Assigned Credits meet the validation eligibility criteria at the date of execution of the corresponding Assignment Agreement. Upon compliance with the validation eligibility criteria, the Company shall have no more than 18 months to regularize the Assigned Credits.

During the regularization period, Gafisa was engaged and will be compensated for performing, among other duties, receivables collection management, guarantee of the Assignment, and collection of past due receivables. After the regularization period, receivable management will be performed by an outsourced company, as provided under the transaction contract.

(v) On September 29, 2011, the Company and its subsidiaries entered into a Private Instrument for Assignment of Real Estate Receivables and Other Covenants. The purpose of said Assignment Agreement is the assignment by the Assignor (“Company”) to the benefit of the Assignee. The assignment relates to a portfolio comprising select residential real estate receivables performed and to be performed arising out of Gafisa and its subsidiaries. The object of this Receivables Assignment only comprises the flow of obligations (installments, charges and key installments). The assigned portfolio of receivables, paid by the Assignee, on September 29, 2011, amounts to R\$238,356 (% Gafisa - R\$221,376). A portion of this amount will be amortized through the SFH debt balance of the bank that purchased the receivables and the remaining balance will be amortized through the issue of Bank Deposit Certificates – CDBs amounting to R\$40,444 (R\$40,382 - % Gafisa). This short-term investment – CDB can be redeemed in 90 days, as mentioned in note 4.2 (a).

The balance at September 30, 2011 is R\$290,621 (December 31, 2010 – R\$ 37,714) in the Company and R\$462,054 (December 31, 2010 - R\$ 88,442) in the consolidated.

(a) The Company participates in the development of real estate ventures with other partners, directly or through related parties, based on the constitution of condominiums and/or consortia. The management structure of these enterprises and cash management is centralized by the lead partner of the enterprise, who manages the construction schedule and budgets. Thus, the lead partner ensures that the investments of the necessary funds are made and allocated as planned. The sources and use of resources of the venture are reflected in these balances, observing the respective interest of each investor, which are not subject to indexation or financial charges of each investor and do not have a fixed maturity date. Such transactions aim at simplifying business relations that demand the joint management of amounts reciprocally owed by the involved parties and, consequently, the control over changes in amounts reciprocally granted which offset against each other at the time the current account is closed. The average term for the development and completion of the projects in which the resources are invested is between 24 and 30 months. The Company receives a compensation for the management of these ventures.

(b) As of September 30, 2011, the balance of future capital contributions made by Gafisa in its subsidiary Tenda amounted to R\$146,503. The remaining balance refers to future capital contributions to various SPEs that are annually paid in.

(c) The loans of the Company and its subsidiaries, shown below, are made because these subsidiaries need cash for carrying out their respective activities, which are subject to the respective financial charges. It shall be noted that Company operations and business with related parties follow market practices (arm's length). The business and operations with related parties are carried out based on conditions that are strictly on an arm's length transaction basis and appropriate, in order to protect the interests of both parties involved in the business. The breakdown and nature of the loan receivable by the Company are shown below.

8. Investments in subsidiaries

In January 2007, upon acquisition of 60% of AUSA, arising from the acquisition of Catalufa Participações Ltda., a capital increase of R\$ 134,029 was approved upon the issuance for public subscription of 6,358,116 common shares. This transaction generated goodwill of R\$ 170,941 recorded based on expected future profitability, which was partially amortized exponentially and progressively up to December 31, 2008 to match the estimated profit before income and social contribution taxes on net profit of AUSA on an accrual basis of accounting. Goodwill balance at September 30, 2011 is R\$ 152,856.

As mentioned in Note 1, in May 2010 the Company approved the acquisition of the total amount of shares issued by Shertis Empreendimentos e Participações S.A., whose main asset comprises 20% of the capital of AUSA. The acquisition of shares had the purpose of ensuring the viability of the implementation of the Second Phase of the schedule for investment planned in the Investment Agreement and Other Covenants, signed between the Company and Alphaville Participações S.A. (Alphapar) on October 2, 2006, thus increasing the interest of Gafisa in the capital of AUSA to 80%. As a result of the acquisition of shares, Shertis was converted into a wholly-owned subsidiary of Gafisa, with the issue of 9,797,792 new common shares to Alphapar, former shareholder of Shertis, for the total issue price of R\$ 20,282 at carrying amount.

The Company has a commitment to purchase the remaining 20% of AUSA's capital based on the fair value of AUSA, evaluated on the future acquisition dates, amount of which cannot yet be calculated and, consequently, is not recognized. The acquisition contract of AUSA provides that the Company undertakes to purchase the remaining 20% of AUSA in 2011, in cash or shares, at the Company's sole discretion.

On October 26, 2007, Gafisa acquired 70% of Cipesa. Gafisa and Cipesa established a new company, "Cipesa Empreendimentos Imobiliários Ltda." ("Nova Cipesa"), in which the Company holds a 70% interest and Cipesa 30%. Gafisa made a cash contribution amounting to R\$ 50,000 to Nova Cipesa and acquired the shares that Cipesa held in Nova Cipesa amounting to R\$ 15,000, paid on October 26, 2008. The non-controlling interest holders of Cipesa are entitled to receive from the Company a variable portion corresponding to 2% of the Total Sales Value (VGV), as defined, of the projects launched by Nova Cipesa through 2014; the minimum amount of acquisition is R\$25,000 adjusted by the INCC variation, in case the variable portion is lower. Accordingly, the Company's purchase consideration totaled R\$ 90,000. As a result of this transaction, goodwill amounting to R\$ 40,687 was recorded based on expected future profitability.

11. Debentures

In June 2008, the Company obtained approval for its Third Debenture Placement Program, which allows it to place R\$ 1,000,000 in simple debentures with a general guarantee maturing in five years.

Under the Third Debenture Placement Program, the Company placed a series of 25,000 debentures in the total amount of R\$250,000, with the below features.

In August 2009, the Company obtained approval for its sixth placement of nonconvertible simple debentures in two series, which have general guarantee, maturing in two years and unit face value at the issuance date of R\$ 10,000, totaling R\$ 250,000. In May 2010, the Company amended this indenture, changing the maturity for four years and ten months.

In December 2009, the Company obtained approval for its seventh placement of nonconvertible simple debentures in a single and undivided lot, sole series, secured by a floating and additional guarantee, in the total amount of R\$ 600,000, maturing in five years.

In April 2009, the subsidiary Tenda obtained approval for its First Debenture Placement Program, which allowed it to place up to R\$ 600,000 in non-convertible simple subordinated debentures, in a single and undivided lot, secured by a floating and additional guarantee, with semi-annual maturities between October 1, 2012 and April 1, 2014. The funds raised through the placement shall be exclusively used in the financing of real estate ventures focused only on the popular segment.

In November 2010, the Company obtained approval for its eighth placement of nonconvertible simple debentures, in the amount of R\$ 300,000, in two series, the first maturing on October 15, 2015, and the second on October 15, 2016.

12. Payables to venture partners and other (Continued)

(a) In relation to the individual financial statements, in January 2008, the Company formed an unincorporated venture (SCP), the main objective of which is to hold interest in other real estate development companies, which shall have as main objective the development and carrying out of real estate ventures. As of September 30, 2011, the SCP received contributions of R\$ 313,084 (represented by 13,084,000 Class A units of interest fully paid-in by the Company and 300,000,000 Class B units of interest from the other venture partners). The SCP will preferably use these funds to acquire equity investments and increase the capital of its investees. As a result of this operation, as a precaution and considering that the decision to invest or not is made jointly by all members, thus independent from Company management decision, as of September 30, 2011, “payables to venture partners” were recognized in the amount of R\$ 300,000 maturing on January 31, 2014. The venture partners receive an annual minimum dividend substantially equivalent to the variation in the Interbank Deposit Certificate (CDI) rate, as of September 30, 2011, the amount accrued totaled R\$6,186. The SCP's charter provides for the compliance with certain covenants by the Company, in its capacity as lead partner, which include the maintenance of minimum ratio of net debt and receivables. As of September 30, 2011, the Company was in compliance with these clauses.

In relation to the consolidated financial statements, in April 2010, subsidiary Alphaville Urbanismo S.A. paid-in the capital of an entity, the main objective of which is to hold interest in other companies, which shall have as main objective the development and carrying out of real estate ventures. As of September 30, 2011, this entity subscribed capital and paid-in capital reserve amounting to R\$ 161,720 (comprising 81,719,641 common shares held by the Company and 80,000,000 preferred shares held by other shareholders). As a result of this transaction, as a precaution and taking into consideration the rights to which the holders of preferred shares are entitled, such as payment of fixed dividends and redemption, as of September 30, 2011, payables to investors/venture partners are recognized at R\$ 80,000, with final maturity on March 31, 2014. The preferred shares shall pay cumulative fixed dividends, substantially equivalent to the variation of the General Market Prices Index (IGP-M) plus 7.25% p.a., as of September 30, 2011, the provisioned amount totals R\$5,308. The Company's articles of incorporation sets out that certain matters shall be submitted for approval by preferred shareholders through vote, such as the rights conferred by such shares, increase or reduction in capital, use of profits, set up and use of any profit reserve, and disposal of assets. As of September 30, 2011, the Company is in compliance with the above-described clauses.

Dividend amounts are reclassified as financial expenses in the financial statements.

(b) It refers to the operation on assignment of receivables portfolio (see Note 5(ii), (iii) and (iv)).

(c) As part of the funding through issuance of Certificates of Bank Credit– CCB, described in Note 10, the Company and subsidiary AUSA entered into a paid usufruct agreement in connection with 100% of the preferred shares in SPE-89 Empreendimentos Imobiliários S.A. and Alphaville Ribeirão Preto Empreendimentos Imobiliários S.A., for six years, having raised R\$ 45,000 and R\$ 35,000, respectively. These are recorded based on the effective interest method of amortization.

13. Provisions for legal claims and commitments

The Company and its subsidiaries are parties to lawsuits and administrative claims at various courts and government agencies that arise from the ordinary course of business, involving tax, labor, civil lawsuits and other matters. Management, based on information provided by its legal counsel, analyzed pending claims and, with respect to the labor claims, based on past experience regarding the amounts claimed, recognized a provision in an amount considered sufficient to cover probable losses inherent in pending claims.

In the quarter ended September 30, 2011, the changes in the provision are summarized as follows:

| Individual | Civil claims | Tax claims | Labor claims | Total |
|--|---------------------|-------------------|---------------------|--------------|
| Balance at December 31, 2010 | 81,153 | 640 | 5,168 | 86,961 |

| Balance at September 30, 2011 | 89,176 | 1,025 | 11,325 | 101,526 |
| Current portion | | | | 27,770 |
| Non-current portion | | | | 73,756 |

| Consolidated | Civil claims | Tax claims | Labor claims | Total |
|--|---------------------|-------------------|---------------------|--------------|
| Balance at December 31, 2010 | 102,828 | 12,110 | 23,755 | 138,693 |
| Additional provision | 15,996 | 1,124 | 24,739 | 41,859 |
| Payment and reversal of provision not used | (12,465) | (46) | (16,321) | (28,832) |
| Balance at September 30, 2011 | 106,359 | 13,188 | 32,173 | 151,720 |
| Current portion | | | | 27,770 |
| Non-current portion | | | | 123,950 |

(i) Civil, tax and labor claims

(a) As of September 30, 2011, the provisions related to civil claims include R\$73,756 related to lawsuits in which the Company is included as successor in enforcement actions and in which the original debtor is a former shareholder of Gafisa, Cimob Companhia Imobiliária (“Cimob”), among other companies. The plaintiff understands that the Company should be liable for the debts of Cimob. Some lawsuits, amounting to R\$ 6,402, are backed by guarantee insurance; in addition, there are judicial deposits amounting to R\$53,318, in connection with the restriction of the usage of the Gafisa’s bank accounts; and there is the restriction referring to the use of Gafisa’s treasury stock to guarantee the enforcement as well.

13. Provision for legal claims and commitments (Continued)

(i) Civil, tax and labor claims (Continued)

The Company is filing appeals against all decisions, as it considers that the inclusion of Gafisa in the claims is legally unreasonable; these appeals aim at releasing amounts and obtaining the recognition that it cannot be held liable for the debt of a company that does not have any relationship with Gafisa. The final decision on the Company's appeal, however, cannot be predicted at present.

(b) Subsidiary AUSA is a party to legal and administrative claims related to Federal VAT (IPI) and State VAT (ICMS) on two imports of aircraft in 2001 and 2005, respectively, under leasing agreements without purchase option. The likelihood of loss in the ICMS case is rated by legal counsel as (i) probable in regard to the principal and interest, and (ii) remote in regard to the fine for noncompliance with accessory liabilities. The contingency amount rated by legal counsel as a probable loss, inherent in the claim above, reaches R\$11,630 and is provisioned at September 30, 2011.

(c) As of September 30, 2011, the Company and its subsidiaries were subject to labor lawsuits, which had the most varied characteristics and at various court levels, and is awaiting judgment. These claims corresponded to a total maximum risk of R\$109,758. Based on the opinion of the Company's legal counsel and the expected favorable outcome, as well as on the negotiation that shall be made, the provisioned amount is considered sufficient by management to cover expected losses

The Company and its subsidiaries have judicially deposited the amount of R\$ 83,838 (Company) and R\$ 102,383 (consolidated) (Note 7) in connection with the aforementioned legal claims.

In addition, the Company and its subsidiaries are aware of other claims and civil, labor and tax risks at September 30, 2011 based on the assessment of its legal counsel, in which loss is possible, but not probable, in the approximate amount of R\$381,582, based on the historical average of claim monitoring, for

which the Company understands that it is not necessary to record a provision for possible losses.

(d) Environmental risk

There are various environmental laws at the federal, state and municipal levels. These environmental laws may result in delays for the Company in connection with adjustments for compliance and other costs, and prevent or restrict ventures. Before acquiring a land, the Company assesses all necessary and applicable environmental issues, including the possible existence of hazardous or toxic materials, residual substance, trees, vegetation and the proximity of the land to permanent preservation areas. Therefore, before acquiring land, the Company obtains all governmental approvals, including environmental licenses and construction permits.

(i) Civil, tax and labor claims (Continued)

In addition, the environmental legislation establishes criminal, civil and administrative sanctions to individuals and legal entities for activities considered as environmental infringements or offense. The penalties include the suspension of development activities, loss of tax benefits, confinement and fine.

(ii) Payables related to the completion of real estate ventures

The Company and its subsidiaries are committed to deliver real estate units that will be built in exchange for the acquired land, and to guarantee the release of financing, in addition to guaranteeing the installments of the financing to customers over the construction period.

The Company is also committed to completing units sold and to comply with the Laws regulating the civil construction sector, including the obtainment of licenses from the proper authorities, and compliance with the terms for starting and delivering the ventures, subject to legal and contractual penalties.

As described in Note 4, at September 30, 2011, the Company and its subsidiaries have resources approved and recorded as short-term investments guaranteed, which will be released as ventures progress in the total amount of R\$43,838 (Company) and R\$65,813 (consolidated) to meet restrictive clause rate commitments.

The Company has obligations arising from commitments to suppliers for future delivery regarding the purchase of materials to be used in the construction process of units.

(i) Gafisa

Company management uses the Binomial and Monte Carlo models for pricing the options granted because of its understanding that these models are capable of including and calculating with a wider range the variables and assumptions comprising the plans of the Company.

A total of six stock option plans are offered by the Company. The first plan was launched in 2000 and is managed by a committee that periodically creates new stock option plans, determining their terms, which, among other things, (i) define the length of service that is required for employees to be eligible to the benefits of the plans, (ii) select the employees that will be entitled to participate, and (iii) establish the purchase prices of the shares to be exercised under the plans.

To be eligible for the 2006 and 2007 plans, employees are required to contribute at least 70% of the annual bonus received to exercise the options, under penalty of losing the right to exercise all options of subsequent lots.

The Company and its subsidiaries record the amounts received from employees in an account of advances in liabilities. No advances were received in the period ended September 30, 2011.

The stock option may be exercised in one to five years subsequent to the initial date of the work period established in each of the plans. The shares are usually available to employees for ten years after their contribution.

The Company and its subsidiaries may decide to issue new shares or transfer the treasury shares to the employees and executive officers in accordance with the clauses established in the plans. The Company and its subsidiaries have the right of first refusal on shares issued under the plans in the event of dismissal and retirement. In such cases, the amounts advanced are returned to the plan beneficiaries, in certain circumstances, at amounts that correspond to the greater of the market value of the shares (as established in the rules of the plans) and the amount inflation-indexed (IGP-M) plus annual interest at 3%.

In 2008, the Company and its subsidiaries issued a new stock option plan. In order to become eligible for the grant, beneficiaries are required to contribute from 25% to 80% of their annual net bonus to exercise the options within 30 days from the program date

On June 26, 2009, the Company issued a new stock option plan for granting 1,300,000 options. In addition, the exchange of the 2,740,000 options of the 2007 and 2008 plans for 1,900,000 options granted under this new stock option plan was approved. The incremental fair value granted as a result of such modification is R\$ 3,529, recognized to the extent services are provided by employees and management members.

The assumptions adopted for calculating the fair value to be used in the recognition of the stock option plan for 2009 were the following: expected volatility at 40% p.a., expected dividends on shares at 1.91%, and risk-free interest rate at 8.99% p.a. The volatility was set based on the regression analysis of the relation between return on Gafisa's shares and that of Ibovespa.

In the period ended September 30, 2011 the Company recognized the amounts of R\$9,946 (Company) and R\$12,789 (consolidated), as operating expenses. The amounts recognized in the Company are recorded in capital reserve in equity

(ii) Tenda

Subsidiary Tenda has a total of three stock option plans - the first two were approved in June 2008, and the other one in April 2009. These plans, limited to a maximum of 5% of total capital and approved by the Board of Directors, establish the general terms, which, among other things, (i) define the length of service that is required for employees to be eligible to the benefits of the plans, (ii) select the employees that will be entitled to participate, and (iii) establish the purchase prices of the preferred shares to be exercised under the plans.

In June 2008, a stock option plan was issued by the Company for granting 1,090,000 options. The assumptions used in estimating the fair value that will base the recognition of the stock option plan for 2008 were as follows: expected volatility at 81.5% per year, without dividends expected on the shares, and risk-free interest rate at 8.65%.

In April 2009, two stock option plans were issued by the Company for granting 3,500,000 options under plan 1, and 1,350,712 options under plan 2. The assumptions used in estimating the fair value that will base the recognition of stock option plan 1 for 2009 were as follows: expected volatility at 81.5% per year, without dividends expected on the shares, and risk-free interest rate at 8.82%. The assumptions used in estimating the fair value that will base the recognition of the stock option plan 2 for 2009 were as follows: expected volatility at 81.5% p.a., expected dividends on shares at 1.91%, and risk-free interest rate at 8.60%.

In the option granted in 2008, when exercising the option, the base price will be adjusted according to the market value of shares, based on the average price in the 20 trading sessions prior to the commencement of each annual exercise period. The exercise price is adjusted according to a fixed table of values, according to the share value in the market, at the time of the two exercise periods for each annual lot. The stock option may be exercised by beneficiaries, who shall partially use their annual bonuses, as awarded, within 10 years subsequent to the initial date of the work period established in each of the plans. | Tax expenses - current | (37,698) | (27,384) |
| Tax expenses – deferred | 10,592 | (27,694) |

(ii) Deferred income and social contribution taxes

Deferred income and social contribution taxes are recorded to reflect the future tax effects attributable to temporary differences between the tax bases of assets and liabilities and their respective carrying amounts.

The Company recognized tax assets on social contribution tax losses for prior years, which do not have statute of limitations, and offset of which is limited to 30% of annual taxable profit, as such taxable profit is

likely to be available for offsetting temporary differences.

The carrying amount of a deferred tax asset is periodically reviewed, and the projections are annually reviewed, in case that there are significant factors that may modify the projections, the latter having been reviewed during the year by the Company and approved by the Supervisory Board.

| Differences between income taxed on a cash basis and recorded on an accrual basis | 65,389 | 65,453 |
| | 170,352 | 166,012 |

At September 30, 2011, R\$28,154 inherent in deferred income and social contribution taxes regarding the taxation of income between cash and accrual basis in the short term, calculated pursuant the presumed income-based taxation system, are classified in the heading Tax Obligations.

The Company calculates its taxes based on the recognition of P&L proportionally to the receipt of the contracted sales, in accordance with the tax rules determined by the Brazilian IRS (SRF) Revenue Procedure No. 84/79, which differs from the calculation of the accounting revenues based on the costs

incurred versus total estimated cost. The tax base will crystallize over an average period of four years as cash inflows arise and corresponding projects are concluded.

Gafisa has not recorded a deferred income tax asset on social contribution tax losses of its subsidiaries amounting to R\$9,143 at September 30, 2011, which are under the taxable profit regime, and do not have a history of taxable profit over the last three years, except in subsidiary Tenda.

Management considers that deferred tax assets arising from temporary differences will be realized as the contingencies and events are settled.

17. Financial instruments

The Company and its subsidiaries participate in operations involving financial instruments. These instruments are managed through operational strategies and internal control aimed at liquidity, return and safety. The contracting of financial instruments for hedging purposes is made through a periodical analysis of exposure to the risk that the management intends to cover (exchange, interest rate, etc), which is approved by the Board of Directors for authorization and performance of the proposed strategy. The policy on control consists of permanently following up the contracted conditions versus conditions prevailing in the market. The result from these operations is consistent with the policies and strategies devised by Company management. Company and its subsidiaries operations are subject to the risk factors described below:

(i) Risk considerations

a) *Credit risk*

The Company and its subsidiaries restrict their exposure to credit risks associated with cash and cash equivalents, by investing in financial institutions considered highly rated and in short-term securities.

Quarterly information - 09/30/2011 – Gafisa S.A.

17. Financial instruments (Continued)

(i) Risk considerations (Continued)

a) *Credit risk* (Continued)

With regards to accounts receivable, the Company restricts its exposure to credit risks through sales to a broad base of customers and ongoing credit analysis. Additionally, there is no significant history of losses due to the existence of liens for the recovery of its products in the cases of default during the construction period. As of September 30, 2011, there was no significant credit risk concentration associated with customers.

b) *Derivative financial instruments*

The Company adopts the policy of participating in operations involving derivative financial instruments for the purpose of mitigating or eliminating currency risks, when considered necessary.

The Company holds derivative instruments to mitigate its exposure to rates and interest volatility recognized at their fair value directly as part of P&L for the year. Pursuant to its treasury policies, the Company does not own or issue derivative financial instruments other than for hedging purposes.

On September 30, 2011, the Company had derivative contracts for hedging purposes in relation to interest fluctuations, with final maturity from March to June 2017. The derivative contracts are as follows:

| Swap agreements (Fixed for CDI) | BR Real Percentage | | Swap |
|---------------------------------|--------------------|---------------------|------------------|
| | Face Value | Original Index | |
| Banco Votorantim S.A. | 110,000 | Fixed rate 12.3450% | 100 CDI + 0.2801 |
| Banco Votorantim S.A. | 90,000 | Fixed rate 12.1556% | 100 CDI + 0.3100 |
| | 200,000 | | |

During the period ended September 30, 2011, the amount of R\$ 199, which refers to net P&L of the interest swap transaction, was recognized in line “financial income” allowing correlation between the impact of such transactions and interest rate fluctuation on the Company’s balance sheet.

(i) Risk considerations (Continued)

c) *Interest rate risk*

This arises from the possibility that the Company and its subsidiaries earn gains or incur losses because of fluctuations in the interest rates of its financial assets and liabilities. Aiming at mitigating this kind of risk, the Company and its subsidiaries seek to diversify funding in terms of fixed and floating rates. The interest rates on loans, financing and debentures are disclosed in Notes 10 and 11. The interest rates contracted on short-term investments are disclosed in Note 4. Accounts receivable from real estate units delivered, as disclosed in Note 5, are subject to annual interest rate of 12%, allocated on a pro rata basis.

d) *Liquidity risk*

The liquidity risk consists of the possibility that the Company and its subsidiaries do not have sufficient funds to meet their commitments in view of settlement terms of their rights and obligations.

In order to mitigate the liquidity risks and optimize the weighted average cost of capital, the Company and its subsidiaries permanently monitor the indebtedness levels according to the market standards and the fulfillment of covenants provided for in loan,

Fair value classification

The Company uses the following classification to determine and disclose the fair value of financial instruments by the valuation technique:

Level 1: quoted prices (without adjustments) in active markets for identical assets or liabilities;

Level 2: other techniques for which all data that may have a significant effect on the recognized fair value is observable, directly or indirectly.

Level 3: techniques that use data which has significant effect on the recognized fair value, not based on observable market data.

The classification level of fair value for financial instruments measured at fair value through profit or loss of the Company, presented in the financial statements for the period ended September 30, 2011, is as follows.

In the period ended September 30, 2011, there were no transfers between the levels 1 and 2 fair value valuation or transfers between levels 3 and 2 fair value valuation. As permitted by IFRS1/CPC 37, the Company did not disclose any comparative information on fair value classification or liquidity disclosures.

The following estimated fair values were determined by using available market information and proper measurement methodologies. However, a considerable amount of judgment is necessary to interpret market information and estimate fair value. Accordingly, the estimates presented in this document are not necessarily indicative of amounts that the Company could realize in the current market. The use of different market assumptions and/or estimate methodology may have a significant effect on estimated fair values.

The following methods and assumptions were used in order to estimate the fair value for each financial instrument type for which the estimate of values is practicable:

(i) The amounts of cash and cash equivalents, marketable securities, accounts receivable and other receivables and suppliers, and other current liabilities approximate their fair values, recorded in the financial statements.

(ii) The fair value of bank loans and other financial debts is estimated through future cash flows discounted by using rates that are annually available for similar and outstanding debts or terms.

(ii) Fair value of financial instrumentsa) *Fair value measurement*

Quarterly information - 09/30/2011 – Gafisa S.A.

The annual aggregate amount to be distributed among the Company's key management personnel for 2011, as fixed and variable compensation, is R\$ 12,345 according to the Annual Shareholders' Meeting held on April 29, 2011.

(ii) Profit sharing

The Company has a profit-sharing plan that entitles its employees and those of its subsidiaries to participate in the profit sharing of the Company that is tied to a stock option plan, the payment of dividends to shareholders and the achievement of specific targets, established and agreed-upon at the beginning of each year. As of September 30, 2011, the Company recorded a provision for profit sharing amounting to R\$6,425 under the heading "General and administrative expenses".

(iii) Commercial operations

At September 30, 2011, total contracted sales from units sold to management is approximately R\$9,500 and total balance receivable is approximately R\$9,800.

23. Insurance

Gafisa S.A. and its subsidiaries maintain insurance policies against engineering risk, barter guarantee, guarantee for the completion of the work and civil liability related to unintentional personal damages caused to third parties and material damages to tangible assets, as well as against fire hazards, lightning strikes, electrical damages, natural disasters and gas explosion. The contracted coverage is considered sufficient by management to cover possible risks involving its assets and/or responsibilities. The risk assumptions made are not included in the scope of the review of interim information. Accordingly, they were not audited by our independent auditors.

The chart below shows coverage by insurance policy and respective amounts at September 30, 2011:

| Insurance type | Coverage in thousands of R\$ |
|--|-------------------------------------|
| Engineering risks and completion guarantee | 1,961,366 |
| Policy outstanding | 268,190 |
| Directors & Officers liability insurance | 78,055 |
| | 2,307,611 |

24. Earnings per share

In accordance with CPC 41, the Company shall present basic and diluted earnings per share. The comparison data of basic and diluted earnings per share shall be based on the weighted average number of shares outstanding for the year, and all dilutive potential shares outstanding for each year presented, respectively.

Quarterly information - 09/30/2011 – Gafisa S.A.

When the exercise price for the purchase of shares is higher than the market price of shares, the diluted earnings per share are not affected by the stock option. According to CPC 41, dilutive potential shares are not considered when there is a loss, because that would have antidilutive effect. For the period ended September 30, 2011, 0.53% of dilutive potential shares were not considered.

25. Segment information

Starting in 2007, following the respective acquisition, formation and merger of AUSA, Fit Residencial, Bairro Novo and Tenda, respectively, Company management assesses segment information on the basis of different business segments rather than based on the geographical regions of operations.

The Company operates in the following segments: Gafisa for ventures targeted at high and medium income; Alphaville for land subdivision; and Tenda for ventures targeted at low income.

25. Segment information (Continued)

The Company's chief executive officer, who is responsible for allocating resources to businesses and monitoring their progresses, uses economic present value data, which is derived from a combination of historical and forecasted operating P&L. The Company provides below a measure of historical profit or loss, segment assets and other information related to each reporting segment.

This information is gathered internally in the Company and used by management to develop economic present value estimates, provided to the chief executive officer for making operating decisions, including the allocation of resources to operating segments. The information is derived from the statutory accounting records which are prepared in accordance with accounting practices adopted in Brazil. The reporting segments do not separate operating expenses, total assets and depreciation. No revenues from an individual customer represented more than 10% of net sales or services.

Outlook

Outlook vs. Actual

In 9M11 Gafisa achieved 56% of the mid-range of launch guidance of between R\$ 5.0 billion and R\$ 5.6 billion for the full year. Due to this fact, and also the assumption of a more conservative approach (focusing on long term profitability and cash flow generation) we decided to reduce the full year launch guidance range by 30%, to between R\$3.5 billion and R\$4.0 billion from between R\$5.0 billion and R\$5.6 billion.

Table 24 – Guidance Launches 2011

| | | | | | | | |
|-----|-------|-------|-----|-----|-------|-------|-----|
| Min | 5,000 | | 59% | Min | 3,500 | | 84% |
| Mid | 5,300 | 2,945 | 56% | Mid | 3,750 | 2,945 | 79% |
| Max | 5,600 | | 53% | Max | 4,000 | | 74% |

With regard to profitability, we are currently at a 16.1% EBITDA margin for the first nine months of the year, which is at the lower-end of the range of our expectations for the full year guidance of between 16% and 20%. Since the first half, our EBITDA margin improved primarily due to higher contribution of more profitable projects, compared to the results for 1H11.

Table 25 – Guidance EBITDA Margin (%)

| Gafisa (Consolidated) | Min | 16% | | -10 bps |
| | Mid | 18% | 16.1% | 190 bps |
| | Max | 20% | | 390 bps |

These changes lead to an expectation for positive operating cash flow for 2012 that should bring the Net Debt/Equity ratio down to below 60% over the next quarters.
