Operational cash generation.

In 1Q09 we generated R\$ 52.5 million of operational cash, most of which was used for defraying payments (R\$ 41.8 million) arising out of investments effected. The cash balance remaining after the investment activities (R\$10.7 million) together with the available cash was used to pay debts with notes in January as well as to effect payment of dividends and interest on the own capital.

In the comparison with 4Q08, a reduction in the operational cash was recorded as a result of the payment of the Installation and Inspection Fee (TFF) occurred on March 31, 2009. However, such reduction was followed by an higher reduction in investment activities, causing the Cash Flow After Investment Activities to increase by R\$59.0 million in relation to the previous quarter.

In the comparison with 1Q08, a reduction of R\$160.6 million was recorded in cash generated by operational activities, mainly because of the extraordinary recovery of the ICMS tax effected in 1Q08 by Telemig. There was also an increase in investment activities occurred after the change of the stock control to VIVO.

OPERATING HIGHLIGHTS

Valuing of the customer base.

- With a market share of 28.8%, higher than it was recorded in 1Q08 and 4Q08, the customer base in the end of 1Q09 reached **4,678 thousand customers**, approximately 4.3 thousand in the GSM/EDGE technology. The growth in the customer base recorded 17.4% and 1.1% in relation to 1Q08 and 4Q08, respectively. Offers implemented in the quarter, the signal and coverage quality, in addition to a larger portfolio of plans and handsets, contributed to such growth.

Net additions in the 1Q09 totaled 52 thousand new customers, with a market share of net additions of 50.1% in its operational area. It must be pointed out that the percentage of net additions results from the “cleaning” of the customer base implemented in February by one of the competitors. The segmented and qualified selection of prospects and customers in all income classes has kept a consistent growth at long term.

Growth of SAC due to foreign exchange devaluation.

- **SAC** of R\$ 54.0 in the 1Q09, up 22.7% in relation to 1Q08, as a result of the increase in expenses with subsidies and advertising. In the comparison to 4Q08, it recorded a reduction of 10.0%, as a result of the decrease in the expenses with subsidies and advertising, besides the foreign exchange devaluation due to seasonality.

Reduction on monthly churn.

- **Monthly churn rate** of 3.3% in the quarter, lower than the 4.1% recorded in the same period of last year, and the 4.2% recorded in 4Q08. The reduction is mainly due to the improved general customer satisfaction.

ARPU of R\$ 26.2, due to seasonality

- **ARPU** was R\$ 26.2 in the quarter, 4.4% down from the 1Q08, as a result of the reduction of 10.0% in the incoming ARPU. When compared to the 4Q08, the ARPU decreased by 7.7% due to seasonality and to the number of business days. This reduction is also due to the entry of new customers with lower income generation potential.

Outgoing MOU growth of 6.3%

- **Consolidated MOU** decreased by 2.1% when compared to the 1Q08, due to a

compared to 1Q08.

decrease in the incoming MOU, partially offset by the increase in the outgoing MOU, due to the increase of the volume of promotional minutes offered to customers. When compared to 4Q08, it shows a decrease of 3.1% for the same reasons which reduced the ARPU. The campaigns in the period stimulated the outgoing traffic, reducing the dependence on interconnection revenue.

OPERATING REVENUE					

Revenue growth over sector's average.

- **Total net revenue** increased by 14.3% when compared to 1Q08. This increase is a result of higher revenue from access and usage, increase in the usage of data and VAS services, in addition to growth in the revenue from sales of handsets, allied to growth of the customer base.
- The “**revenue from access and usage**” recorded an increase of 14.8% in relation to 1Q08, especially due to the improvement on the customer base quality and to the growth in the total outgoing traffic because of the usage incentives, which increased by 18.3% thanks to the quality of the customer base and the growth in the total outgoing traffic due to stimulation of usage. When compared to 4Q08, there was a decrease of 5.6% due to seasonality and number of business days.

Data and VAS revenue increased by 34.7%

- **Data and VAS revenue** increased by 34.7% and 13.0% compared to the 1Q08 and 4Q08, respectively. The amount of R\$ 37.3 million, representing 10.2% of the net service revenue, is mainly due to the increase in peer-to-peer SMS/MMS usage as a consequence of new activations offering data advantages.

OPERATING COSTS

Cost of service rendered increased by 27.1% over 1Q08.

- **Cost of services rendered** increased by 27.1% over 1Q08 due to higher interconnection cost related to both the growth of outgoing traffic and increase of expenses with Fistel Fee due to increase of the customer base. When compared to 4Q08, which is positively impacted by the co-billing renegotiation,

the cost of services rendered increased 12.1%, as a result of the increase in interconnection expenses and Fistel Fee, which effects are associated to the customer base expansion, as well as increase of rent, insurance and condominium expenses.

Higher commercial activity led to the increase on costs of goods sold.

- The **cost of goods sold** recorded an increase of 72.3% in the quarter in relation to 1Q08. This increase was due to the commercial activity in the period and to the foreign exchange devaluation. When compared to 4Q08, it recorded a reduction of 30.4% due to lower activity in the period.
- In the 1Q09, **selling expenses** decreased by 7.8% over the 1Q08 due to a decrease in expenses in customer retention efforts, in addition to a decrease in provision for doubtful accounts. When compared to 4Q08, it recorded a reduction of 13.5% due to the decrease in expenses with customer retention and third-party services, especially publicity and advertising.

Provision for doubtful accounts already aligned with Vivo's results.

- **Provision for doubtful accounts** recorded a reduction in 1Q09 of 21.7% over 1Q08. The amount of R\$ 6.5 million represents 1.1% of the total gross revenue, a reduction of 0.5 percentile point, a 62.5% increase in comparison with the 4Q08, which is positively impacted by the corporate segment credit recovery for which provisions had been previously booked and by the individual segment credit recovery due to the campaigns carried out for stimulating use of the 13th salary.

Reduction of 37.1% in general and administrative expenses in relation to 1Q08

- **General and administrative expenses** decreased by 37.1% when compared to the 1Q08 due, mainly, to the reduction in consulting and other expenses with technical administrative services. When compared to 4Q08, general and administrative expenses recorded an increase of 25.0% due to the growth in expenses with third-party services.
- **Other Operating Revenues/Expenses** recorded revenue of R\$ 11.5 million, reverting the result recorded in 4Q08 and slightly lower than it was recorded in 1Q08, excluding the effects of the ICMS reversal. This result is due to the increase in other revenue.

EBITDA

Increase in the EBITDA.

- **EBITDA**(earnings before interest, taxes, depreciation and amortization) in 1Q09 was R\$ 106.3 million, an increase of 2.5% in relation to 1Q08, excluding the effects of the ICMS reversal, resulting in an EBITDA Margin of 26.6%. This growth resulted from the increase in the net revenue and cost control. When compared to the 4Q08, the reduction of 10.9% was due to decrease in revenue due to seasonality.

DEPRECIATION AND AMORTIZATION

- **Depreciation and amortization** increased by 44.8% and by 21.1% in relation to 1Q08 and 4Q08, respectively, as a consequence of investments made in the period for expansion of coverage and amortization of softwares due to the integration with Vivo.

Increase of 34% in net financial revenues in 1Q09 over 4Q08

In the comparison with 1Q08, the net financial revenue increased by R\$ 2.6 million. This is due to a lower debt cost (due to settlement of Notes, aligned to a higher effective interest rate in the period (2.85% in 1Q09 and 2.53% in 1Q08).

Comparing 1Q09 to 4Q08, despite a lower effective interest rate in the period, the net financial revenue of the Company increased by R\$ 5.2 million. This increase is explained by a lower debt cost (settlement of the Notes), as already mentioned, and their respective swaps.

Corporate Reorganization.

The managements of Vivo Participações S.A. (“Vivo Part”), Telemig Celular Participações S.A. (“TCP”) and Telemig Celular S.A. (“TC”) (jointly referred to as “Companies”), in the form and for the purposes of CVM Instructions no. 319/99 and 358/02, have informed that their respective Boards of Directors approved the proposal to constitute an independent Committee (in conformity with “Parecer de Orientação” of CVM nº 35) for a corporate reorganization aiming at the merger of TC’s shares into TCP and of TCP’s shares into Vivo Part, for conversion of TC into a wholly-owned subsidiary of TCP, and of TCP into a wholly-owned subsidiary of Vivo Part.

The purpose of the proposed Corporate Reorganization is to simplify the current organizational structure, which has three publicly-held companies, two of them having ADRs traded abroad. The simplified structure will reduce administrative costs and allow the shareholders of the Companies to hold shares in one sole company whose shares are traded both in Brazilian and international stock exchanges, with more liquidity. Additionally, the structure will make the unification, standardization and rationalization of the general business management easier.

Having in consideration that TC will become a wholly-owned subsidiary of TCP and that TCP will become a wholly-owned subsidiary of Vivo Part, their respective registrations with CVM and BOVESPA and the registrations of TCP with the Securities and Exchange Commission – SEC and with the New York Stock Exchange – NYSE will be cancelled, in order to eliminate the costs associated thereto.
