CONNECTED TRANSACTION

On 3 December 2007, the Company entered into the Transfer Agreement with HIPDC, pursuant to which the Company agreed to acquire from HIPDC its 60% interest in the registered capital of Jinling Power Plant for a consideration of RMB420 million. The purchase price will be funded by the Company's internal cash surplus. The purchase price was determined on arm's length terms after negotiations by the parties.

As HIPDC is the Company's controlling shareholder holding 42.03% of the total issued share capital of the Company, HIPDC is regarded as a connected person to the Company. The transaction as contemplated by the Acquisition thus constitutes a connected transaction to the Company.

Since the relevant percentage ratios calculated pursuant to Rule 14.07 of the Hong Kong Listing Rules in connection with the Acquisition are all less than 2.5%, the Acquisition is only subject to the reporting and announcement requirements set out in Rules 14A.45 and 14A.47 of the Hong Kong Listing Rules and is exempt from the independent shareholders' approval requirements.

The Company develops, constructs, operates and manages large-scale power plants throughout China. It is one of the largest listed power producers in China which owns a total generation capacity of 31,747 MW on an equity basis.

The relationships among the Company and HIPDC are as follows:

- * Huaneng Group, through China Hua Neng Group Hong Kong Limited, its wholly-owned subsidiary, indirectly holds a 50% interest in Pro-Power Investment Limited while Pro-Power Investment Limited holds a 10% interest in HIPDC. Therefore, Huaneng Group holds a 5% indirect interest in HIPDC.

Huaneng Group is the controlling shareholder of HIPDC, holding a 51.98% direct interest in HIPDC. In addition, Huaneng Group also holds a 5% indirect interest in HIPDC and directly holds 8.75% of the total issued share capital of the Company. REASONS FOR THE ACQUISITION AND PRICING FACTORS

The Acquisition reflects the Company's continued implementation of its development strategy which focuses on both green-field development and acquisition. Jinling Power Plant is a newly constructed power plant equipped with advanced technology. Its generating units are efficient, energy saving and environmental friendly with relatively strong peak adjustment capability. Upon completion of the Acquisition, the Company's total generation capacity on an equity basis will increase by 468MW. This will help the Company to increase its market share in Jiangsu Province. The Company will also obtain the development right of subsequent projects of Jinling Power Plant, which is conducive to the consolidated development of the Company in the eastern China region and is beneficial for the Company's long term interests.

In terms of financial impact, the net revenue for and net profit of Jinling Power Plant for the six months ended 30 June 2007 amounted to RMB335 million and RMB38.53 million, respectively. Therefore, the Acquisition will also provide a stable cash income to the Company.

The consideration of the Acquisition was arrived at after various negotiations between the Company and HIPDC, and has already taken into account the market environment, operating conditions, profitability and cash generating ability of Jinling Power Plant. According to the financial statements of Jinling Power Plant as audited by KPMG Huazhen Limited, the book value of Jinling Power Plant's net asset as at 30 June 2007 amounted to approximately RMB620.54million, thereby indicating the Jinling Power Plant Interest at approximately RMB372.32 million. After negotiations between the Company and HIPDC, it was agreed that the entire equity interest of Jinling Power Plant was priced at RMB700 million and the consideration for Jinling Power Plant Interest being RMB420 million, representing a premium of 12.8% over the book value of the net asset. The pricing level of the Acquisition has reflected the value as viewed by the prevailing market that Jinling Power Plant may create in operation, which differ from the book value of the net asset.

The Directors believe that the Acquisition price and terms are fair and reasonable to the Company and its shareholders. This transaction will benefit the Company and its shareholders.
