Announcement regarding an Estimated Loss in 2008

This announcement is made by Huaneng Power International, Inc. (the "Company") pursuant to the requirements of Rules 13.09(1) and 13.09(2) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited to provide shareholders of the Company and the public with the financial information of the Company. This announcement is also disseminated on the Shanghai Stock Exchange simultaneously. The estimate contained in this announcement is only a preliminary estimate of the Company and is not audited by the Company's certified public accountants. Detailed financial information of the Company will be disclosed in the 2008 Annual Report of the Company. Potential investors and shareholders of the Company should exercise caution when dealing in the shares of the Company.

The Company and all the members of the Board of Directors hereby confirm the truthfulness, accuracy and completeness of the contents of this announcement and jointly accept full responsibility for any false representation, misleading statement or material omission herein contained.

I. Estimated results for the reporting period

1. Period to which the estimated results applies: From 1 January 2008 to 31 December 2008;
2. Estimated results: Based on a preliminary estimate by the Company, it is expected that the Company may record an unaudited loss for the period from 1 January 2008 to 31 December 2008;
3. The estimated results have not been audited or reviewed by certified public accountants.

II. Results of the corresponding period last year (Based on the Accounting Standard of the People's Republic of China)

1. Net profit attributable to the Company's shareholders: RMB5,997,058,661;
2. Earnings per share (based on the net profit attributable to the Company's shareholders): RMB0.50.

III. Reasons for the change in the results

The loss is mainly due to the reason that prices of fuel coal stay at high levels after a substantial increase of the prices. Although power tariffs have been adjusted upwards two times during the period, the increment is still unable to offset the rise of fuel costs. In case that the prices of fuel coal continue to stay at high levels in the fourth quarter while no new tariff

adjustment is introduced, the principal business will suffer a loss.

IV. Risk Warning

Detailed financial information will be disclosed in the 2008 Annual Report of the Company. Potential investors and shareholders of the Company should exercise caution when dealing in the shares of the Company.

HUANENG POWER INTERNATIONAL, INC.
Announces Results for the First Three Quarters of 2008
Net Loss Attributable to the Company's Equity Holders
Amounted to RMB2.63 billion

(Beijing, China, October 21, 2008) Huaneng Power International, Inc. (the "Company") [NYSE: HNP; HKEx: 902; SSE: 600011] today announced its unaudited results for the nine months ended September 30, 2008.

Under the PRC Accounting Standards, for the first three quarters of 2008, the Company realized consolidated operating revenues of RMB50.12 billion, representing an increase of 36.75% over the same period last year. Net loss attributable to equity holders of the Company amounted to RMB2.63 billion.

In the first three quarters of 2008, newly operated generating units and newly acquired generating units provided strong support to the growth of the Company's power generation. Meanwhile, continued growth in electricity demand in the regions where the Company's power plants are located provided room for an increase in power generation. The Company's total domestic power generation based on a consolidated basis amounted to 140.375 billion kWh, an increase of 12.73% over the same period last year. Power generation of Tuas Power Ltd. in Singapore amounted to 7.521 billion kWh for the first three quarters of 2008, representing an increase of 0.14% over the same period last year (i.e. 7.510 billion kWh). Among the power generation of Tuas Power, power generation attributable to the Company (commencing from 25 March 2008, the date on which the accounts were consolidated) amounted to 5.264 billion kWh. However, since the prices of thermal coal remained at high levels and the tariff adjustments failed to compensate the rise in fuel costs, the Company continued to record a loss in the third quarter of 2008, thereby increasing the amount of loss for the first three quarters.

Based on a preliminary estimate by the Company, it is expected that the Company may record an unaudited loss in 2008. The loss is mainly due to the reason that prices of fuel coal stay at high levels after a substantial increase of the prices. Although power tariffs have been adjusted upwards two times during the period, the increment is still unable to offset the rise of fuel costs. In case that the prices of fuel coal continue to stay at high levels in the fourth quarter while no new tariff adjustment is introduced, the principal business of the Company will suffer a loss. Detailed financial information will be disclosed in the 2008 Annual Report of the Company. Potential investors and shareholders of the Company should exercise caution when dealing in the shares of the Company.

Huaneng Power International, Inc. has a total generation capacity of 37,593MW on an equity basis and a controlling installed generation capacity of 40,989MW. The Company wholly owns sixteen operating power plants, an operating power company, and has controlling interests in thirteen operating power companies and minority interests in five operating power companies. Currently, it is one of the largest listed power producers in China.
