Xicheng District,
Beijing, 100031 PRC

This Form 6-K consists of:

an announcement on power generation increase in 2010 of Huaneng Power International, Inc. (the “Registrant”), made by the Registrant on January 19, 2011.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this document, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

POWER GENERATION WITHIN CHINA INCREASES 26.25%
FOR THE WHOLE YEAR OF 2010

This announcement is made pursuant to Rules 13.09(1) and (2) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Huaneng Power International, Inc. (the "Company") announces its power generation of 2010.

According to the Company's preliminary statistics, as of 31 December 2010, the Company's total power generation within China on consolidated basis amounted to 256.95 billion kWh, representing an increase of 26.25% over the same period last year. Accumulated electricity sold amounted to 241.799 billion kWh.

The increase in power generation of the Company was mainly attributable to the following reasons:

1. the Company has increased its sales efforts, thereby grasping the growth trend of the national economy in 2010 and the favourable conditions for substantial increase in the national electricity demand, expanding various marketing channels and increasing power generation;
2. the Company had various new generating units commenced operation, thereby increasing the market share; and

3. under the impact of the global financial crisis, the national electricity demand in 2009 was depressed. The base number of the power generation was relatively lower, resulting in a relatively higher growth in 2010 as compared to the same period of last year.

The power generation and electricity sold by each of the Company's domestic power plants of 2010 are listed below (in billion kWh):

Domestic Power Plant	Power generation of 2010	Power generation of 2009	Change	Electricity sold in 2010
