Information Concerning Forward-Looking Statements

Certain statements regarding the expectations of Graphic Packaging Holding Company (“GPHC” and, together with its subsidiaries, the “Company”), including, but not limited to, statements regarding cost savings from its continuous improvement programs, capital investment, depreciation and amortization, interest expense, debt reduction, synergies from acquisitions, pension plan contributions and postretirement health care benefit payments, in this report constitute “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Such statements are based on currently available operating, financial and competitive information and are subject to various risks and uncertainties that could cause actual results to differ materially from the Company’s historical experience and its present expectations. These risks and uncertainties include, but are not limited to, inflation of and volatility in raw material and energy costs, continuing pressure for lower cost products, the Company’s ability to implement its business strategies, including productivity initiatives and cost reduction plans, the Company’s debt level, currency movements and other risks of conducting business internationally, and the impact of regulatory and litigation matters, including those that could impact the Company’s ability to utilize its net operating losses to offset taxable income and those that impact the Company’s ability to protect and use its intellectual property. Undue reliance should not be placed on such forward-looking statements, as such statements speak only as of the date on which they are made and the Company undertakes no obligation to update such statements. Additional information regarding these and other risks is contained in Part I, “Item 1A., Risk Factors” of the Company’s 2012 Annual Report on Form 10-K, and in other filings with the Securities and Exchange Commission.

GRAPHIC PACKAGING HOLDING COMPANY  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

NOTE 1 — GENERAL INFORMATION

Nature of Business and Basis of Presentation

Graphic Packaging Holding Company (“GPHC” and, together with its subsidiaries, the “Company”) is a leading provider of packaging solutions for a wide variety of products to food, beverage and other consumer products companies. The Company is the largest U.S. producer of folding cartons and holds a leading market position in coated unbleached kraft paperboard, coated-recycled boxboard and flexible packaging. The Company’s customers include some of the most widely recognized companies in the world. The Company strives to provide its customers with packaging solutions designed to deliver marketing and performance benefits at a competitive cost by capitalizing on its low-cost paperboard mills and converting plants, its proprietary carton and packaging designs, and its commitment to customer service.

GPHC and Graphic Packaging Corporation (“GPC”) conduct no significant business and have no independent assets or operations other than GPHC’s ownership of all of GPC’s outstanding common stock, and GPC’s ownership of all of the outstanding common stock of Graphic Packaging International, Inc. (“GPII”).

The Company’s Condensed Consolidated Financial Statements include all subsidiaries in which the Company has the ability to exercise direct or indirect control over operating and financial policies. Intercompany transactions and balances are eliminated in consolidation.

In the Company’s opinion, the accompanying Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary to present fairly the financial position, results of operations and cash flows for the interim periods. The Company’s year end Condensed Consolidated Balance Sheet data was derived from audited financial statements. The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with instructions to Form 10-Q and Rule 10-01 of Regulation S-X and do not include all the information required by accounting principles generally accepted in the United States of America (“U.S. GAAP”) for complete financial statements. Therefore, these Condensed Consolidated Financial Statements should be read in conjunction with GPHC’s Form 10-K for the year ended December 31, 2012. In addition, the preparation of the Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates and changes in these estimates are recorded as known.

For a summary of the Company’s significant accounting policies, please refer to GPHC’s Form 10-K for the year ended December 31, 2012.

Equity Secondary Offering

During March of 2013, certain shareholders of the Company sold 28.0 million shares of common stock in a secondary public offering at \$7.00 per share, as well as an additional 4.2 million shares pursuant to the underwriters’ overallotment option. The shares were sold by certain affiliates of TPG Capital, L.P. (the “TPG Entities”), certain Coors

family trusts and the Adolph Coors Foundation (the "Coors Family Stockholders"), Clayton, Dubilier & Rice Fund V Limited Partnership (the "CD&R Fund") and Old Town, S.A. ("Old Town") (together with the TPG Entities, the Coors Family Stockholders, and the CD&R Fund, the "Selling Stockholders"). The shares outstanding held by the Selling Stockholders decreased from approximately 53% to approximately 44%. TPG Capital BD, LLC, an affiliate of TPG Capital, L.P., was one of the underwriters of the offering.

#### Adoption of New Accounting Standards

Effective January 1, 2013, the Company adopted revised guidance on the Comprehensive Income topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("the FASB Codification") which requires an entity to present either parenthetically on the face of the financial statements or in the notes, significant amounts reclassified from each component of accumulated other comprehensive income and the income statement line items affected by the reclassification. The adoption did not have any impact on the Company's financial position, results of operations or cash flows.

Effective January 1, 2013, the Company adopted revised guidance on Balance Sheet topic of the FASB Codification, which clarifies the scope of disclosures about offsetting assets and liabilities. The clarification applies only to derivatives, repurchase agreements and reverse purchase agreements, and to certain securities borrowing and securities lending transactions, and not to ordinary trade receivables and payables. The adoption did not have any impact on the Company's financial position, results of operations or cash flows.

#### Accounting Standards Not Yet Adopted

In March 2013, the FASB issued guidance amending the Foreign Currency Matters topic of the FASB Codification. The amendment requires a parent entity that ceases to have a controlling financial interest in a subsidiary or group of assets that represents a business, within a foreign entity, to release any related cumulative translation adjustment into net income. This guidance will be effective for the Company in the fourth quarter of 2013, to be applied prospectively, and is not expected to have a material impact on the Company's financial position, results of operations or cash flows.

Table of Contents

## Restructuring and Other Special Charges

The following table summarizes the transactions recorded in Restructuring and Other Special Charges in the Consolidated Statements of Operations:

In millions	Three Months Ended March 31,	
	2013	2012
Asset Impairment and Other Special Charges	\$0.6	\$2.5
Charges Associated with Business Combinations	0.8	1.0
Total	\$1.4	\$3.5

## NOTE 2 — INVENTORIES, NET

Inventories, Net by major class:

In millions	March 31, 2013	December 31, 2012
Finished Goods	\$293.5	\$269.5
Work in Progress	51.7	50.3
Raw Materials	171.4	152.1
Supplies	62.3	59.3
Total	\$578.9	\$531.2

## NOTE 3 — ACQUISITIONS

On December 31, 2012, the Company acquired Contego Cartons ("Contego"), a leading food and consumer product packaging company based in the United Kingdom. Under the terms of the transaction, the Company paid approximately \$93 million and assumed debt of approximately \$35 million in an all cash transaction funded with existing cash and debt under the Company's revolving line of credit. Contego operates four folding carton facilities that convert approximately 150,000 tons of paperboard annually into folding cartons for the food and consumer product industries. The acquisition and associated goodwill are included in the paperboard packaging segment. This transaction is herein referred to as the "Contego Transaction".

On December 31, 2012, the Company acquired A&R Carton's Beer and Beverage packaging business in Europe ("A&R"). Under the terms of the transaction, the Company paid approximately \$25 million in cash and assumed approximately \$2 million in debt. The transaction was funded with existing cash and borrowings from the Company's revolving line of credit. A&R includes two manufacturing facilities that convert approximately 30,000 tons of paperboard annually. The acquisition and associated goodwill are included in the paperboard packaging segment. This transaction is herein referred to as the "A&R Transaction". The A&R Transaction and the Contego Transaction are collectively referred to as the "European Acquisitions".

The purchase price of the European Acquisitions has been preliminarily allocated to the assets acquired and liabilities assumed based on the estimated fair values as of the purchase date and is subject to adjustments in subsequent periods. The European Acquisitions were made to grow the European food and beverage business and optimize the Company's

supply chain footprint around customer needs. The Company does not expect goodwill to be deductible for tax purposes. The preliminary purchase price allocation is as follows:

Goodwill	44.3
Total Estimated Fair Value of Net Assets Acquired	\$ 155.0

## NOTE 4 — DEBT

On March 16, 2012, the Company entered into a \$2.0 billion amended and restated credit agreement with a syndicate of lenders consisting primarily of commercial banks (the "Credit Agreement"). The Credit Agreement provides for a \$1.0 billion revolving credit facility and a \$1.0 billion amortizing term loan facility, both due on March 16, 2017. The interest rate margin over London Interbank Offered Rate (LIBOR) will vary between 175 basis points and 275 basis points depending upon the Company's current consolidated total leverage ratio. The Company's current rate is LIBOR plus 200 basis points. This transaction was treated primarily as an extinguishment of debt, and a charge of \$8.9 million was recorded as Loss on Modification or Extinguishment of Debt in the Company's Condensed Consolidated Statements of Operations.

On December 18, 2012, the Company entered into Amendment No. 1 to the existing Credit Agreement to amend certain restrictions in the Credit Agreement and to provide an incremental term loan facility (the "Incremental Term Loan") in the amount of \$300 million to fund a concurrent share repurchase. The Incremental Term Loan was treated primarily as a modification of debt. As a result, \$2.1 million in third party fees were expensed as part of the loss on modification of debt, and the remaining fees paid to creditors of \$3.1 million were deferred and will be amortized using the effective interest method over the term of the debt.

For more information regarding the Company's debt, see "Note 5 — Debt" of the Notes to Consolidated Financial Statements of the Company's 2012 Form 10-K.

Table of ContentsGRAPHIC PACKAGING HOLDING COMPANY  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

Long-Term Debt is composed of the following:

In millions	March 31, 2013	December 31, 2012
Senior Notes with interest payable semi-annually at 7.875%, payable in 2018 (\$250.0 million face amount)	\$247.0	\$246.8
Senior Notes with interest payable semi-annually at 9.5%, payable in 2017 (\$425.0 million face amount)	423.3	423.2
Senior Secured Term Loan Facility with interest payable at various dates at floating rates (2.20% at March 31, 2013) payable through 2017	1,262.5	1,275.0
Senior Secured Revolving Facility with interest payable at floating rates (2.28% at March 31, 2013) payable in 2017	378.5	325.8
Capital Lease Obligations	7.2	7.8
Other	54.0	54.7
	2,372.5	2,333.3
Less: current portion	88.0	79.8
Total	\$2,284.5	\$2,253.5

At March 31, 2013, the Company and its U.S. and international subsidiaries had the following commitments, amounts outstanding and amounts available under revolving credit facilities:

In millions	Total Commitments	Total Outstanding	Total Available <sup>(a)</sup>
Revolving Credit Facility	\$ 1,000.0	\$378.5	\$594.6
International Facilities	41.4	37.9	3.5
Total	\$ 1,041.4	\$416.4	\$598.1

In accordance with its debt agreements, the Company's availability under its Revolving Credit Facility has been reduced by the amount of standby letters of credit issued of \$26.9 million as of March 31, 2013. These letters of credit are used primarily as security against its self-insurance obligations and workers' compensation obligations. These letters of credit expire at various dates through 2013 unless extended.

The Credit Agreement and the indentures governing the 9.5% Senior Notes due 2017 and the 7.875% Senior Notes due 2018 (the "Indentures") limit the Company's ability to incur additional indebtedness. Additional covenants contained in the Credit Agreement and the Indentures, among other things, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, make dividend and other restricted payments, create liens, make equity or debt investments, make acquisitions, modify terms of the Indentures, engage in mergers or consolidations, change the business conducted by the Company and its subsidiaries, and engage in certain transactions with affiliates. Such restrictions, together with the highly leveraged nature of the Company, could limit the Company's ability to respond to changing market conditions, fund its capital spending program, provide for unexpected capital investments or take advantage of business opportunities.

Under the terms of the Credit Agreement, the Company must comply with a maximum consolidated total leverage ratio and a minimum consolidated interest coverage ratio. The Company's obligations under the Credit Agreement are secured by substantially all of the Company's domestic assets.

As of March 31, 2013, the Company was in compliance with the covenants in the Credit Agreement and the Indentures.

#### NOTE 5 — STOCK INCENTIVE PLANS

The Company has three active equity compensation plans, but since 2004 the Company's only plan pursuant to which new grants are made is the Graphic Packaging Holding Company Amended and Restated 2004 Stock and Incentive Compensation plan (the "2004 Plan"). Stock options and other awards granted under all of the Company's plans generally vest and expire in accordance with terms established at the time of grant. Shares issued pursuant to awards under the plans are from the Company's authorized but unissued shares. Compensation costs are recognized on a straight-line basis over the requisite service period of the award.

Stock Awards, Restricted Stock and Restricted Stock Units

Table of Contents

The Company's 2004 Plan permits the grant of stock awards, restricted stock and restricted stock units ("RSUs"). All outstanding RSUs vest and become payable in one to three years from date of grant. RSUs granted to employees generally contain performance conditions based on various financial targets and service requirements that must be met for the shares to vest. Upon vesting, RSUs are payable in shares of common stock. Stock awards granted to non-employee directors are unrestricted on the grant date.

Data concerning RSUs granted in the first three months of 2013 is as follows:

Shares in thousands	Shares	Weighted Average Grant Date Fair Value Per Share
RSUs — Employees	3,185	\$7.31

During the three months ended March 31, 2013 and 2012, \$6.8 million and \$9.8 million, respectively, were charged to compensation expense for stock incentive plans.

During the three months ended March 31, 2013 and 2012, approximately 3.0 million and 4.9 million shares were issued, respectively. The shares issued were primarily related to RSUs granted during 2009 and 2010.

During the three months ended March 31, 2013, approximately 0.8 million shares were issued through the exercise of stock options at an average exercise price of \$5.78.

**NOTE 6 — PENSIONS AND OTHER POSTRETIREMENT BENEFITS**

The Company maintains both defined benefit pension plans and postretirement health care plans that provide medical and life insurance coverage to eligible salaried and hourly retired employees in North America and their dependents. The Company maintains international defined benefit pension plans which are either noncontributory or contributory and are funded in accordance with applicable local laws. Pension or termination benefits are based primarily on years of service and the employees' compensation.

Currently, the North American defined benefit plans are closed to newly-hired salaried and non-union hourly employees. Effective July 1, 2011, the North American defined benefit plans were frozen for most salaried and non-union hourly employees and replaced with a defined contribution plan. The U.K. and Canada defined benefit plans were frozen effective March 31, 2001 and December 31, 2009, respectively, and replaced with defined contribution plans. The Company assumed additional benefit plans due to the European Acquisitions.

**Pension and Postretirement Expense**

The pension and postretirement expenses related to the Company's plans consisted of the following:

In millions	Pension Benefits		Postretirement Health Care Benefits	
	Three Months Ended March 31, 2013	2012	Three Months Ended March 31, 2013	2012

Edgar Filing: GRAPHIC PACKAGING HOLDING CO - Form 10-Q

Actuarial Loss (Gain)	9.4	7.5	(0.3 )	(0.3 )
Net Periodic Cost	\$9.9	\$10.4	\$0.6	\$0.6

Employer Contributions

The Company made contributions of \$10.7 million and \$6.9 million to its pension plans during the first three months of 2013 and 2012, respectively. The Company expects to make contributions of \$40 to \$70 million for the full year 2013. During 2012, the Company made \$55.1 million of contributions to its pension plans.

Table of Contents

GRAPHIC PACKAGING HOLDING COMPANY  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

The Company made postretirement health care benefit payments of \$0.5 million and \$0.5 million during the first three months of 2013 and 2012, respectively. The Company estimates its postretirement health care benefit payments for the full year 2013 to be approximately \$3 million. During 2012, the Company made postretirement health care benefit payments of \$3.2 million.

NOTE 7 — FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENT

The Company enters into derivative instruments for risk management purposes only, including derivatives designated as hedging instruments under the Derivatives and Hedging topic of the FASB Codification and those not designated as hedging instruments under this guidance. The Company uses interest rate swaps, natural gas swap contracts, and forward exchange contracts. These derivative instruments are designated as cash flow hedges and, to the extent they are effective in offsetting the variability of the hedged cash flows, changes in the derivatives' fair value are not included in current earnings but are included in Accumulated Other Comprehensive Income. These changes in fair value will subsequently be reclassified to earnings.

Interest Rate Risk

The Company uses interest rate swaps to manage interest rate risks on future interest payments caused by interest rate changes on its variable rate term loan facility. The differential to be paid or received under these agreements is recognized as an adjustment to Interest Expense related to debt. At March 31, 2013 and December 31, 2012, the Company had interest rate swap agreements outstanding with a notional amount of \$460 million. The swap agreements, under which the Company will pay fixed rates of 0.80% to 0.82% and receive one-month LIBOR rates, expire in April 2016.

Changes in fair value will subsequently be reclassified into earnings as a component of Interest Expense, Net as interest is incurred on amounts outstanding under the term loan facility. Ineffectiveness measured in the hedging relationship is recorded in earnings in the period it occurs.

During the first three months of 2013 and 2012, there were minimal amounts of ineffectiveness related to changes in the fair value of interest rate swap agreements. Additionally, there were no amounts excluded from the measure of effectiveness.

Commodity Risk

To manage risks associated with future variability in cash flows and price risk attributable to certain commodity purchases, the Company enters into natural gas swap contracts to hedge prices for a designated percentage of its expected natural gas usage. The contracts are carried at fair value with changes in fair value recognized in Accumulated Other Comprehensive Loss, and the resulting gain or loss is reclassified into Cost of Sales concurrently with the recognition of the commodity consumed. The ineffective portion of the swap contracts' change in fair value would be recognized immediately in earnings. The Company settled contracts outstanding at December 2012 during the first quarter 2013, and currently does not have any outstanding natural gas swap contracts.

During the first three months of 2013 and 2012, there were minimal amounts of ineffectiveness related to changes in the fair value of natural gas swap contracts. Additionally, there were no amounts excluded from the measure of effectiveness.

#### Foreign Currency Risk

The Company enters into forward exchange contracts to manage risks associated with future variability in cash flows resulting from anticipated foreign currency transactions that may be adversely affected by changes in exchange rates. The contracts are carried at fair value with changes in fair value recognized in Accumulated Other Comprehensive Income (Loss), and gains/losses related to these contracts are recognized in Other Income, Net when the anticipated transaction affects income.

At March 31, 2013, multiple forward exchange contracts existed that expire on various dates through 2013. Those purchased forward exchange contracts outstanding at March 31, 2013 and December 31, 2012, when aggregated and measured in U.S. dollars at contractual rates at March 31, 2013 and December 31, 2012 had notional amounts totaling \$47.6 million and \$63.9 million, respectively.

No amounts were reclassified to earnings during the first three months of 2013 or during 2012 in connection with forecasted transactions that were no longer considered probable of occurring, and there was no amount of ineffectiveness related to changes in the fair value of foreign currency forward contracts. Additionally, there were no amounts excluded from the measure of effectiveness.

#### Derivatives not Designated as Hedges

The Company enters into forward exchange contracts to effectively hedge substantially all of its accounts receivable resulting from sales transactions denominated in foreign currencies in order to manage risks associated with foreign currency transactions adversely affected by changes in exchange rates. At March 31, 2013 and December 31, 2012, multiple foreign currency forward exchange contracts existed, with maturities ranging up to three months. Those foreign currency exchange contracts outstanding at March 31, 2013 and December 31, 2012, when aggregated and measured in U.S. dollars at exchange rates at March 31, 2013 and December 31, 2012, had net notional amounts totaling \$21.2 million and \$19.5 million, respectively. Unrealized gains and losses resulting from these contracts are recognized in Other Income, Net and approximately offset corresponding recognized but unrealized gains and losses on these accounts receivable.

## Fair Value of Financial Instruments

The Company's derivative instruments are carried at fair value. The Company has determined that the inputs to the valuation of these derivative instruments are level 2 in the fair value hierarchy. Level 2 inputs are defined as quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. The Company uses valuation techniques based on discounted cash flow analyses, which reflect the terms of the derivatives and use observable market-based inputs, including forward rates and use market price quotations obtained from independent derivatives brokers, corroborated with information obtained from independent pricing service providers.

As of March 31, 2013, there has not been any significant impact to the fair value of the Company's derivative liabilities due to its own credit risk. Similarly, there has not been any significant adverse impact to the Company's derivative assets based on evaluation of the Company's counterparties' credit risks.

The fair value of the Company's derivative instruments is as follows:

In millions	Derivative Assets			Derivative Liabilities		
	Balance Sheet Location	March 31, 2013	December 31, 2012	Balance Sheet Location	March 31, 2013	December 31, 2012
Derivative Contracts Designated as Hedging Instruments						
Commodity Contracts	Other Current Assets	\$—	\$ —	Other Accrued Liabilities	\$—	\$ 0.2
Foreign Currency Contracts	Other Current Assets	2.2	0.1	Other Accrued Liabilities	—	0.2
Interest Rate Swap Agreements	Other Current Assets	—	—	Other Accrued Liabilities, Other Noncurrent Liabilities and Interest Payable	5.5	6.0
Total Derivative Contracts		\$2.2	\$ 0.1		\$5.5	\$ 6.4

The fair values of the Company's other financial assets and liabilities at March 31, 2013 and December 31, 2012 approximately equal the carrying values reported on the Consolidated Balance Sheets except for Long-Term Debt. The fair value of the Company's Long-Term Debt (excluding capital leases) was \$2,437.3 million and \$2,399.1 million as compared to the carrying amounts of \$2,365.3 million and \$2,325.5 million as of March 31, 2013 and December 31, 2012, respectively. The fair value of the Company's Senior Notes is based on quoted market prices (Level 1 inputs) and the remainder of the Company's Long-Term Debt is based on Level 2 inputs. Level 2 valuation techniques for Long-Term Debt are based on quotations obtained from independent pricing service providers.

## Effect of Derivative Instruments

The pre-tax effect of derivative instruments in cash flow hedging relationships on the Company's Consolidated Statements of Operations is as follows:

	Amount of (Gain) Loss Recognized in Accumulated Other Comprehensive Loss		Location in Statement of Operations (Effective Portion)	Amount of Loss (Gain) Recognized in Statement of Operations (Effective Portion)		Location in Statement of Operations (Effective Portion)	Amount Recognized in Statement of Operations (Ineffective Portion)	
	Three Months Ended March 31,			Three Months Ended March 31,			Three Months Ended March 31,	
In millions	2013	2012		2013	2012		2013	2012
Commodity Contracts	\$—	\$1.7	Cost of Sales	\$0.3	\$2.3	Cost of Sales	\$—	\$—
Foreign Currency Contracts	(2.7	) (0.7	Other (Income) Expense, Net	(0.5	) 0.4	Other (Income) Expense, Net	—	—
Interest Rate Swap Agreements	0.2	—	Interest Expense, Net	0.7	3.1	Interest Expense, Net	—	—
Total	\$(2.5	) \$1.0		\$0.5	\$5.8		\$—	\$—

Table of ContentsGRAPHIC PACKAGING HOLDING COMPANY  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

The effect of derivative instruments not designated as hedging instruments on the Company's Condensed Consolidated Statements of Operations is as follows:

In millions		Three Months Ended	
		March 31,	
		2013	2012
Foreign Currency Contracts	Other Income, Net	\$(0.5	)(0.2

## Accumulated Derivative Instruments (Loss) Income

The following is a rollforward of pre-tax Accumulated Derivative Instruments (Loss) Income which is included in the Company's Condensed Consolidated Balance Sheets:

In millions	
Balance at December 31, 2012	\$(5.7 )
Reclassification to earnings	0.5
Current period change in fair value	2.5
Balance at March 31, 2013	\$(2.7 )

At March 31, 2013, the Company expects to reclassify approximately \$0.2 million of pre-tax gain in the next twelve months from Accumulated Other Comprehensive Loss to earnings, contemporaneously with and offsetting changes in the related hedged exposure. The actual amount that will be reclassified to future earnings may vary from this amount as a result of changes in market conditions.

## NOTE 8 — REDEEMABLE NONCONTROLLING INTERESTS

On December 8, 2011, the Company combined its multi-wall bag and specialty plastics packaging businesses with the kraft paper and multi-wall bag businesses of Delta Natural Kraft, LLC and Mid-America Packaging, LLC (collectively "DNK"), both wholly owned subsidiaries of Capital Five Investments, LLC ("CVI"). Under the terms of the transaction, the Company formed a new limited liability company, Graphic Flexible Packaging, LLC ("GFP") and contributed its ownership interests in multi-wall bag and specialty plastics packaging subsidiaries to it. CVI concurrently contributed its ownership interests in DNK to GFP. Neither party received cash consideration as part of the transaction. After the combination, the Company owns approximately 87% of GFP and consolidates its results of operations. The remaining 13% of GFP is owned by CVI. CVI's noncontrolling interest in GFP is recorded as Redeemable Noncontrolling Interests in the Company's financial statements.

CVI has the right, at certain times, to require the Company to acquire their ownership interests in GFP at fair value based on third-party valuations. Since it is probable that the noncontrolling interests will become redeemable in the future, based on the passage of time, the noncontrolling interests subject to the put options are adjusted to their estimated redemption amounts each reporting period with a corresponding adjustment to Capital in Excess of Par Value. The adjustment to the carrying amount is determined after attribution of comprehensive income of the redeemable noncontrolling interests. The adjustment to the carrying amount does not impact net income or

comprehensive income in the Company's Condensed Consolidated Financial Statements and does not impact earnings per share since the shares of the redeemable noncontrolling interests are redeemable at fair value. For accounting purposes, the redemption value at which the redeemable noncontrolling interests is recorded on the Condensed Consolidated Balance Sheets cannot be less than the initial amount plus attribution of comprehensive income of the noncontrolling interest. At March 31, 2013, the book value of the redeemable noncontrolling interests was determined as follows:

In millions

Balance at December 31, 2012	\$ 10.8	
Net loss attributable to redeemable noncontrolling interests	(0.3	)
Other comprehensive income, net of tax	—	
Change in fair value of redeemable securities	—	
Balance at March 31, 2013	\$ 10.5	

The calculation of fair value (a Level 3 measurement) of the redeemable noncontrolling interest is determined by using a discounted cash flow analysis based on the Company's forecasts discounted using a weighed average cost of capital and market indicators of terminal year cash flows based upon a multiple of earnings before interest, taxes, depreciation and amortization ("EBITDA").

NOTE 9 — INCOME TAXES

During the three months months ended March 31, 2013, the Company recognized Income Tax Expense of \$23.7 million on Income before Income Taxes and Equity Income of Unconsolidated Entities of \$58.0 million. During the three months ended March 31, 2012, the Company recognized Income Tax Expense of \$13.0 million on Income before Income Taxes and Equity Income of Unconsolidated Entities of \$30.0 million. The effective tax rate for the three months ended March 31, 2013 and 2012 was different than the statutory rate primarily due to the mix and levels between foreign and domestic earnings including losses in jurisdictions with full valuation allowances, as well as the effects of certain discrete tax items. The Company has approximately \$892 million of Net Operating Losses for U.S. federal income tax purposes, which are currently being used and may be used to offset future taxable income.

NOTE 10 — ENVIRONMENTAL AND LEGAL MATTERS

Environmental Matters

The Company is subject to a broad range of foreign, federal, state and local environmental, health and safety laws and regulations, including those governing discharges to air, soil and water, the management, treatment and disposal of hazardous substances, solid waste and hazardous wastes, the investigation and remediation of contamination resulting from historical site operations and releases of hazardous substances, and the health and safety of employees.

Compliance initiatives could result in significant costs, which could negatively impact the Company's consolidated financial position, results of operations or cash flows. Any failure to comply with environmental or health and safety laws and regulations or any permits and authorizations required thereunder could subject the Company to fines, corrective action or other sanctions.

Some of the Company's current and former facilities are the subject of environmental investigations and remediations resulting from historical operations and the release of hazardous substances or other constituents. Some current and former facilities have a history of industrial usage for which investigation and remediation obligations may be imposed in the future or for which indemnification claims may be asserted against the Company. Also, potential future closures or sales of facilities may necessitate further investigation and may result in future remediation at those facilities.

The Company has established reserves for those facilities or issues where liability is probable and the costs are reasonably estimable. The Company believes that the amounts accrued for all of its loss contingencies, and the reasonably possible loss beyond the amounts accrued, are not material to the Company's consolidated financial position, results of operations or cash flows. The Company cannot estimate with certainty other future corrective compliance, investigation or remediation costs. Costs relating to historical usage that the Company considers to be reasonably possible of resulting in liability are not quantifiable at this time. The Company will continue to monitor environmental issues at each of its facilities, as well as regulatory developments, and will revise its accruals, estimates and disclosures relating to past, present and future operations, as additional information is obtained.

Legal Matters

The Company is a party to a number of lawsuits arising in the ordinary conduct of its business. Although the timing and outcome of these lawsuits cannot be predicted with certainty, the Company does not believe that disposition of these lawsuits will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

#### NOTE 11 — SEGMENT INFORMATION

The Company reports its results in two reportable segments: paperboard packaging and flexible packaging. These segments are evaluated by the chief operating decision maker based primarily on Income from Operations as adjusted for depreciation and amortization. The Company's reportable segments are based upon strategic business units that offer different products. The accounting policies of the reportable segments are the same as those described in GPHC's Form 10-K for the year ended December 31, 2012.

The paperboard packaging segment is highly integrated and includes a system of mills and plants that produce a broad range of paperboard grades convertible into folding cartons. Folding cartons are used primarily to protect products, such as food, detergents, paper products, beverages, and health and beauty aids, while providing point of purchase advertising. The paperboard packaging reportable segment includes the design, manufacture and installation of packaging machinery related to the assembly of cartons, the production and sale of corrugated medium and kraft paper from paperboard mills in the U.S, and produces paper and heat transfer labels.

The flexible packaging segment produces kraft paper and converts kraft and specialty paper into multi-wall bags, consumer and specialty retail bags and produces flexible packaging and laminations. The multi-wall bags are designed to ship and protect a wide range of industrial and consumer products including fertilizers, chemicals, concrete, and pet and food products. The flexible packaging and laminations are converted from a wide variety of technologically advanced films for use in the food, pharmaceutical and industrial end-markets. Flexible packaging paper is used in a wide range of consumer applications.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

INTRODUCTION

This management’s discussion and analysis of financial conditions and results of operations is intended to provide investors with an understanding of the Company's past performance, financial condition and prospects. The following will be discussed and analyzed:

Ø Overview of Business

Ø Overview of 2013 Results

Ø Results of Operations

Ø Financial Condition, Liquidity and Capital Resources

Ø Critical Accounting Policies

Ø New Accounting Standards

Ø Business Outlook

OVERVIEW OF BUSINESS

The Company’s objective is to strengthen its position as a leading provider of packaging solutions. To achieve this objective, the Company offers customers its paperboard, cartons and packaging machines, either as an integrated solution or separately. Cartons and carriers are designed to protect and contain products. Product offerings include a variety of laminated, coated and printed packaging structures that are produced from the Company’s coated unbleached kraft (“CUK”), coated-recycled board (“CRB”) and uncoated-recycled board (“URB”), as well as other grades of paperboard that are purchased from third party suppliers. Innovative designs and combinations of paperboard, films, foils, metallization, holographics and embossing are customized to the individual needs of the customers. The Company’s label business focuses on two product lines: heat transfer labels and lithographic labels.

The Company is a leading supplier of flexible packaging in North America. Products include multi-wall bags, shingle wrap, plastic bags and film for building materials (such as ready-mix concrete), retort pouches (such as meals ready to go), medical test kits, batch inclusion bags and film. Key end-markets include food and agriculture, building and industrial materials, chemicals, minerals, pet foods, and pharmaceutical products.

The Company is implementing strategies (i) to expand market share in its current markets and to identify and penetrate new markets; (ii) to capitalize on the Company’s customer relationships, business competencies, and mills and converting assets; (iii) to develop and market innovative, sustainable products and applications; and (iv) to continue to reduce costs by focusing on operational improvements. The Company’s ability to fully implement its strategies and achieve its objectives may be influenced by a variety of factors, many of which are beyond its control, such as inflation of raw material and other costs, which the Company cannot always pass through to its customers, and the effect of overcapacity in the worldwide paperboard packaging industry.

### Significant Factors That Impact The Company's Business

**Impact of Inflation.** The Company's cost of sales consists primarily of energy (including natural gas, fuel oil and electricity), pine pulpwood, chemicals, recycled fibers, purchased paperboard, paper, aluminum foil, ink, plastic films and resins, depreciation expense and labor. Deflation lowered costs in the first three months of 2013 by \$0.4 million, compared to the first three months of 2012. The lower costs in 2013 are primarily related to labor and related benefits (\$4.2 million); secondary fiber (\$2.2 million); resin (\$0.9 million); externally purchased board (\$0.8 million); and ink and coating (\$0.7 million). These lower costs were partially offset by higher wood costs (\$2.2 million); other costs (\$2.1 million); freight (\$2.0 million); other chemicals (\$0.8 million); energy costs (\$0.7 million), due primarily to the price of natural gas and electricity; and corrugated cases (\$0.6 million).

The Company has entered into contracts designed to manage risks associated with future variability in cash flows caused by changes in the price of natural gas. Since negotiated sales contracts and the market largely determine the pricing for its products, the Company is at times limited in its ability to raise prices and pass through to its customers any inflationary or other cost increases that the Company may incur. The Company settled contracts outstanding at December 2012 during the first quarter 2013, and currently does not have any outstanding natural gas swap contracts.

**Commitment to Cost Reduction.** In light of increasing margin pressure throughout the packaging industry, the Company has programs in place that are designed to reduce costs, improve productivity and increase profitability. The Company utilizes a global continuous improvement initiative that uses statistical process control to help design and manage many types of activities, including production and maintenance. This includes a Six Sigma process focused on reducing variable and fixed manufacturing and administrative costs. The Company expanded the continuous improvement initiative to include the deployment of Lean Sigma principles into manufacturing and supply chain services. As the Company strengthens the systems approach to continuous improvement, Lean Sigma supports the efforts to build a high performing culture. During the first three months of 2013, the Company achieved approximately \$16 million in incremental cost savings as compared to the first three months of 2012, through its continuous improvement programs and manufacturing initiatives.

Table of Contents

The Company's ability to continue to successfully implement its business strategies and to realize anticipated savings and operating efficiencies is subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the Company's control. If the Company cannot successfully implement the strategic cost reductions or other cost savings plans it may not be able to continue to compete successfully against other manufacturers. In addition, any failure to generate the anticipated efficiencies and savings could adversely affect the Company's financial results.

Competition and Market Factors. As some products can be packaged in different types of materials, the Company's sales are affected by competition from other manufacturers' CUK board and other substrates such as solid bleached sulfate and recycled clay-coated news. Substitute products also include plastic, shrink film and corrugated containers. In addition, while the Company has long-term relationships with many of its customers, the underlying contracts may be re-bid or renegotiated from time to time, and the Company may not be successful in renewing on favorable terms or at all. The Company works to maintain market share through efficiency, product innovation and strategic sourcing to its customers; however, pricing and other competitive pressures may occasionally result in the loss of a customer relationship.

In addition, the Company's sales historically are driven by consumer buying habits in the markets its customers serve. Increases in the costs of living, the condition of the residential real estate market, unemployment rates, access to credit markets, as well as other macroeconomic factors, may significantly negatively affect consumer spending behavior, which could have a material adverse effect on demand for the Company's products. New product introductions and promotional activity by the Company's customers and the Company's introduction of new packaging products also impact its sales. The Company's containerboard business is subject to conditions in the cyclical worldwide commodity paperboard markets, which have a significant impact on containerboard sales.

Debt Obligations. The Company had \$2,372.5 million of outstanding debt obligations as of March 31, 2013. This debt can have consequences for the Company, as it requires a portion of cash flow from operations to be used for the payment of principal and interest, exposes the Company to the risk of increased interest rates and restricts the Company's ability to obtain additional financing. Covenants in the Credit Agreement and the Indentures also prohibits or restricts, among other things, the disposal of assets, the incurrence of additional indebtedness (including guarantees), payment of dividends, loans or advances, and certain other types of transactions. These restrictions could limit the Company's flexibility to respond to changing market conditions and competitive pressures. The Credit Agreement also requires compliance with a maximum Consolidated Total Leverage Ratio and a minimum Consolidated Interest Coverage Ratio. The Company's ability to comply in future periods with these financial covenants will depend on its ongoing financial and operating performance, which in turn will be subject to many other factors, many of which are beyond the Company's control. See "Financial Condition, Liquidity and Capital Resources — Liquidity and Capital Resources" for additional information regarding the Company's debt obligations.

The debt and the restrictions under the Credit Agreement and the Indentures could limit the Company's flexibility to respond to changing market conditions and competitive pressures. The outstanding debt obligations and the restrictions may also leave the Company more vulnerable to a downturn in general economic conditions or its business, or unable to carry out capital expenditures that are necessary or important to its growth strategy and productivity improvement programs.

OVERVIEW OF 2013 RESULTS

This management's discussion and analysis contains an analysis of Net Sales, Income from Operations and other information relevant to an understanding of results of operations.

Net Sales for the first three months of 2013 increased by \$33.3 million, or 3.1%, to \$1,100.5 million from \$1,067.2 million for the three months ended March 31, 2012 primarily due to higher volume due to the European Acquisitions completed in the fourth quarter of 2012 and new consumer product business. This increase was partially offset by lower volume in flexible packaging due to continued general market softness, lower soft drink sales, lower pricing and unfavorable exchange rates primarily in Japan.

Income from Operations for the first three months of 2013 increased to \$85.2 million from Income from Operations of \$71.0 million for the three months ended March 31, 2012. The change was primarily driven by improved performance due to cost savings through continuous improvement programs and other strategic initiatives, the impact of the European Acquisitions, synergies and deflation in certain raw materials costs. These increases were partially offset by the lower volume and pricing, and the unfavorable foreign exchange rates primarily in Japan.

During March 2013, the Company completed a secondary public offering of 28 million shares of its common stock at \$7.00 per share as well as an additional 4.2 million shares pursuant to the underwriter's overallotment option. The shares were sold by the Selling Stockholders. The shares outstanding held by the Selling Stockholders decreased from approximately 53% to approximately 44%.

Table of Contents

## RESULTS OF OPERATIONS

## Segment Information

The Company reports its results in two reportable segments: paperboard packaging and flexible packaging.

In millions	Three Months Ended March 31,		
	2013	2012	
NET SALES:			
Paperboard Packaging	\$936.1	\$883.3	
Flexible Packaging	164.4	183.9	
Total	\$1,100.5	\$1,067.2	
INCOME (LOSS) FROM OPERATIONS:			
Paperboard Packaging	\$102.7	\$88.2	
Flexible Packaging	(3.8	) (1.4	)
Corporate	(13.7	) (15.8	)
Total	\$85.2	\$71.0	

## FIRST QUARTER 2013 COMPARED WITH FIRST QUARTER 2012

## Net Sales

In millions	Three Months Ended March 31,				Percent Change	
	2013	2012	Increase (Decrease)			
Paperboard Packaging	\$936.1	\$883.3	\$52.8	6.0	%	
Flexible Packaging	164.4	183.9	(19.5	) (10.6	)%	
Total	\$1,100.5	\$1,067.2	\$33.3	3.1	%	

The components of the change in Net Sales by segment are as follows:

In millions	Three Months Ended March 31,						2013
	2012	Variances			Total		
Paperboard Packaging	\$883.3	Price	) \$60.3	Exchange	) \$52.8	\$936.1	
Flexible Packaging	183.9	(1.3	) (18.1	) (0.1	) (19.5	) 164.4	
Total	\$1,067.2	\$(4.9	) \$42.2	\$(4.0	) \$33.3	\$1,100.5	

## Paperboard Packaging

The Company's Net Sales from paperboard packaging for the three months ended March 31, 2013 increased by \$52.8 million, or 6.0%, to \$936.1 million from \$883.3 million for the same period in 2012 as a result of the European Acquisitions and increased consumer product volume due to new products and increased volume in open market CRB

sales. This was partially offset by lower pricing due to deflationary cost pass throughs, lower volume due to general market softness primarily in cereal, away from home and soft drink, and the impact of unfavorable exchange rates primarily in Japan.

#### Flexible Packaging

The Company's Net Sales from flexible packaging for the three months ended March 31, 2013 decreased by \$19.5 million or 10.6%, to \$164.4 million from \$183.9 million for the same period in 2012 primarily due to lower volume and pricing. The decreases in volume/mix was a result of continued market softness in certain agriculture sectors and industrial sectors. The slightly lower pricing was primarily deflationary costs pass throughs.

Table of Contents

## Income (Loss) from Operations

In millions	Three Months Ended March 31,			
	2013	2012	Increase (Decrease)	Percent Change
Paperboard Packaging	\$102.7	\$88.2	\$14.5	16.4%
Flexible Packaging	(3.8	) (1.4	) (2.4	) N.M <sup>(a)</sup>
Corporate	(13.7	) (15.8	) 2.1	N.M <sup>(a)</sup>
Total	\$85.2	\$71.0	\$14.2	20.0%

<sup>(a)</sup> Percentage is not meaningful.

The components of the change in Income (Loss) from Operations by segment are as follows:

In millions	Three Months Ended March 31,							Total	2013
	2012	Variances					2013		
		Price	Volume/Mix	Inflation	Exchange	Other <sup>(a)</sup>			
Paperboard Packaging	\$88.2	\$(3.6 )	\$(5.0 )	\$1.6	\$(3.2 )	\$24.7	\$14.5	\$102.7	
Flexible Packaging	(1.4 )	(1.3 )	(0.7 )	(2.0 )	(0.5 )	2.1	(2.4 )	(3.8 )	
Corporate	(15.8 )	—	—	0.8	(0.1 )	1.4	2.1	(13.7 )	
Total	\$71.0	\$(4.9 )	\$(5.7 )	\$0.4	\$(3.8 )	\$28.2	\$14.2	\$85.2	

<sup>(a)</sup> Includes the Company's cost reduction initiatives and expenses related to integration activities.

## Paperboard Packaging

The Company's Income from Operations from paperboard packaging for the three months ended March 31, 2013 increased by \$14.5 million, or 16.4%, to \$102.7 million from \$88.2 million for the same period in 2012 as a result of cost savings through continuous improvement programs and other strategic initiatives, the impact of the European Acquisitions and deflation in certain raw material costs. These increases were partially offset by the lower pricing and unfavorable currency exchange rates, primarily in Japan. The deflation was primarily related to labor and benefits (\$3.4 million); lower secondary fiber (\$1.9 million); externally purchased board (\$0.8 million); other costs (\$0.8 million); and ink and coating (\$0.6 million). These lower costs were partially offset by higher wood costs (\$2.1 million); freight (\$1.6 million); energy costs (\$0.9 million), mainly natural gas; other chemicals (\$0.7 million); and corrugated cases (\$0.6 million). Additionally, in prior year the Company incurred a loss due to the sale of a small contract packaging facility and start-up costs related to new and relocated business.

## Flexible Packaging

The Company's Loss from Operations from flexible packaging for the three months ended March 31, 2013 was \$3.8 million compared to Loss from Operations of \$1.4 million for the same period in 2012. The current year loss was a result of inflation, the lower pricing and volume. These decreases were partially offset by the improved performance due to synergies and cost savings programs, which were offset by lower production at the Pine Bluff, AR mill and start-up costs at the New Philadelphia, OH converting facility. The inflation was related to externally purchased paper, partially offset by lower labor and benefits.

Corporate

The Company's Loss from Operations from corporate for the three months ended March 31, 2013 was \$13.7 million compared to \$15.8 million for the same period in 2012. The change was primarily due to lower labor and benefits. In prior year, the Company also incurred higher outside services cost.

INTEREST EXPENSE, NET AND INCOME TAX EXPENSE

Interest Expense, Net

Interest Expense, Net was \$27.2 million and \$32.1 million for the first three months of 2013 and 2012, respectively. Interest Expense, Net decreased due to lower debt levels and lower average interest rates on the Company's debt. As of March 31, 2013, approximately 51% of the Company's total debt was subject to floating interest rates.

Table of Contents

## Income Tax Expense

During the first three months of 2013, the Company recognized Income Tax Expense of \$23.7 million on Income before Income Taxes and Equity Income of Unconsolidated Entities of \$58.0 million. The effective tax rate for the three months ended March 31, 2013 was different than the statutory rate primarily due to the mix and levels between foreign and domestic earnings including losses in jurisdictions with full valuation allowances, as well as the effects of certain discrete tax items. During the three months ended March 31, 2012, the Company recognized Income Tax Expense of \$13.0 million on Income before Income Taxes and Equity Income of Unconsolidated Entities of \$30.0 million. The Company has approximately \$892 million of Net Operating Losses for U.S. federal income tax purposes, which are currently being used and may be used to offset future taxable income.

## FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

The Company broadly defines liquidity as its ability to generate sufficient funds from both internal and external sources to meet its obligations and commitments. In addition, liquidity includes the ability to obtain appropriate debt and equity financing and to convert into cash those assets that are no longer required to meet existing strategic and financial objectives. Therefore, liquidity cannot be considered separately from capital resources that consist of current or potentially available funds for use in achieving long-range business objectives and meeting debt service commitments.

## Cash Flows

In millions	Three Months Ended March 31,	
	2013	2012
Net Cash (Used in) Provided by Operating Activities	\$(11.9	) \$32.5
Net Cash Used in Investing Activities	(33.7	) (39.6
Net Cash Provided by (Used in) Financing Activities	34.4	(235.5

Net cash used in operating activities for the first three months of 2013 totaled \$11.9 million, compared to net cash provided by operating activities of \$32.5 million for the same period in 2012. The decrease was due primarily to higher inventory as a result of lower sales, and payment of higher incentive compensation; partially offset by lower interest payments due to the lower average interest rates on the Company's debt. The Company was able to utilize its net operating loss, and as a result the higher income tax expense had no impact on cash flow. Pension contributions for the first three months of 2013 and 2012 were \$10.7 million and \$6.9 million, respectively.

Net cash used in investing activities for the first three months of 2013 totaled \$33.7 million, compared to \$39.6 million for the same period in 2012. The year over year change was due to a decrease in capital spending, primarily for the previously announced biomass boiler project in Macon, GA as the project moves towards completion. In prior year, the Company had proceeds from the sale of assets of \$2.8 million.

Net cash provided by financing activities for the first three months of 2013 totaled \$34.4 million compared to net cash used in financing activities of \$235.5 million for the same period in 2012. Current year activities include primarily net borrowing under revolving credit facilities of \$54.2 million and payments on debt of \$13.0 million. The Company withheld \$10.9 million of restricted stock units to satisfy tax withholding requirements related to the payout of restricted stock units. In the prior year, the Company entered into an amended and restated Credit Agreement, and

approximately \$1.53 billion was drawn at closing which, when combined with cash on hand, was used to repay the outstanding term loans due in May 2014 which totaled \$1.68 billion. The Company incurred approximately \$22 million in fees and expenses related to the refinancing activities. Additionally, in prior year the Company withheld \$9.2 million of restricted stock units to satisfy tax withholding requirements related to the payout of restricted stock units.

On April 2, 2013, the Company completed its debt offering of \$425 million aggregated principal amount of 4.75% senior notes due 2021 in a registered public offering. The Company expects to use the net proceeds of this offering, together with cash on hand, to refinance, through a redemption, all \$425 million of the 9.5% senior notes due 2017, at a redemption premium plus accrued and unpaid interest to, June 15, 2013, the redemption date, and to pay fees and expenses incurred in connection with this offering and the redemption.

### Liquidity and Capital Resources

The Company's liquidity needs arise primarily from debt service on its indebtedness and from the funding of its capital expenditures, ongoing operating costs and working capital. Principal and interest payments under the term loan facility and the revolving credit facility, together with principal and interest payments on the Company's 9.5% Senior Notes due 2017 and the 7.875% Senior Notes due 2018 (the "Notes"), represent liquidity requirements for the Company. Based upon current levels of operations, anticipated cost savings and expectations as to future growth, the Company believes that cash generated from operations, together with amounts available under its revolving credit facility and other available financing sources, will be adequate to permit the Company to meet its debt service obligations, necessary capital expenditure program requirements and ongoing operating costs and working capital needs, although no assurance can be given in this regard. The Company's future financial and operating performance, ability to service or refinance its debt and ability to comply with the covenants and restrictions contained in its debt agreements (see "Covenant Restrictions") will be subject to future economic conditions, including conditions in the credit markets, and to financial, business and other factors, many of which are beyond the Company's control, and will be substantially dependent on the selling prices and demand for the Company's products, raw material and energy costs, and the Company's ability to successfully implement its overall business and profitability strategies.

Table of Contents

## Covenant Restrictions

The Credit Agreement and the Indentures limit the Company's ability to incur additional indebtedness. Additional covenants contained in the Credit Agreement and the Indentures, among other things, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, make dividends and other restricted payments, create liens, make equity or debt investments, make acquisitions, modify terms of the indentures under which the Notes are issued, engage in mergers or consolidations, change the business conducted by the Company and its subsidiaries, and engage in certain transactions with affiliates. Such restrictions, together with the disruptions in the credit markets, could limit the Company's ability to respond to changing market conditions, fund its capital spending program, provide for unexpected capital investments or take advantage of business opportunities.

Under the terms of the Credit Agreement, the Company must comply with a maximum Consolidated Total Leverage Ratio covenant and a minimum Consolidated Interest Expense Ratio covenant. The Amended and Restated Credit Agreement which contains the definitions of these covenants, was filed as an exhibit to the Company's Form 8-K filed on March 22, 2012. The Company must maintain a maximum Consolidated Total Leverage Ratio of less than the following:

Fiscal Quarter	Consolidated Total Leverage Ratio
March 31, 2012 - December 31, 2012	4.75 to 1.00
March 31, 2013 - December 31, 2013	4.50 to 1.00
March 31, 2014 and thereafter	4.25 to 1.00

The Company must also comply with a minimum consolidated interest expense ratio of the following:  
Minimum Consolidated Interest Expense Ratio: 3.00 to 1.00

The Company's management believes that presentation of the Consolidated Total Leverage Ratio, Consolidated Interest Expense Ratio and Credit Agreement EBITDA herein provides useful information to investors because borrowings under the Credit Agreement are a key source of the Company's liquidity, and the Company's ability to borrow under the Credit Agreement is dependent on, among other things, its compliance with the financial ratio covenants. Any failure by the Company to comply with these financial covenants could result in an event of default, absent a waiver or amendment from the lenders under such agreement, in which case the lenders may be entitled to declare all amounts owed to be due and payable immediately.

Credit Agreement EBITDA is a financial measure not calculated in accordance with U.S. GAAP, and is not a measure of net income, operating income, operating performance or liquidity presented in accordance with U.S. GAAP. Credit Agreement EBITDA should be considered in addition to results prepared in accordance with U.S. GAAP, but should not be considered a substitute for, or superior to, U.S. GAAP results. In addition, Credit Agreement EBITDA may not be comparable to EBITDA or similarly titled measures utilized by other companies because other companies may not calculate Credit Agreement EBITDA in the same manner as the Company does.

The calculations of the components of the Consolidated Total Leverage Ratio and Consolidated Interest Expense Ratio for and as of the period ended March 31, 2013 are listed below:

	Twelve Months Ended March 31, 2013
In millions	
Net Income	\$137.4
Income Tax Expense	93.2
Interest Expense, Net	99.9
Depreciation and Amortization including Debt Issuance Costs	270.6
Equity Income of Unconsolidated Entities, Net of Dividends	(0.7 )
Other Non-Cash Charges	63.0
Other Non-Recurring/Extraordinary/Unusual Items	42.3
Credit Agreement EBITDA	\$705.7

Table of Contents

In millions	As of March 31, 2013
Short-Term Debt	\$88.0
Long-Term Debt	2,284.5
Total Debt	\$2,372.5
Less Cash and Cash Equivalents	38.8
Consolidated Indebtedness	\$2,333.7

In millions	Twelve Months Ended March 31, 2013
Interest Expense, Net	\$106.2
Less Amortization of Financing Costs	6.3
Consolidated Interest Expense	\$99.9

At March 31, 2013, the Company was in compliance with the Consolidated Total Leverage Ratio covenant in the Credit Agreement and the ratio was as follows:

Consolidated Total Leverage Ratio: 3.31 to 1.00

At March 31, 2013, the Company was in compliance with the minimum Consolidated Interest Expense Ratio covenant in the Credit Agreement and the ratio was as follows:

Consolidated Interest Expense Ratio: 7.06 to 1.00

As of March 31, 2013, the Company's credit rating was BB+ by Standard & Poor's and Ba2 by Moody's Investor Services. Both Standard & Poor's and Moody's Investors Services' ratings on the Company included a stable outlook.

If inflationary pressures on key inputs continue, or depressed selling prices, lower sales volumes, increased operating costs or other factors have a negative impact on the Company's profitability, the Company may not be able to maintain its compliance with the financial covenants in its Credit Agreement. The Company's ability to comply in future periods with the financial covenants in the Credit Agreement will depend on its ongoing financial and operating performance, which in turn will be subject to economic conditions and to financial, business and other factors, many of which are beyond the Company's control, and will be substantially dependent on the selling prices for the Company's products, raw material and energy costs, and the Company's ability to successfully implement its overall business strategies, and meet its profitability objective. If a violation of the financial covenants or any of the other covenants occurred, the Company would attempt to obtain a waiver or an amendment from its lenders, although no assurance can be given that the Company would be successful in this regard. The Credit Agreement and the Indentures governing the Notes have certain cross-default or cross-acceleration provisions; failure to comply with these covenants in any agreement could result in a violation of such agreement which could, in turn, lead to violations of other agreements pursuant to such cross-default or cross-acceleration provisions. If an event of default occurs, the lenders are entitled to declare all amounts owed to be due and payable immediately. The Credit Agreement is collateralized by substantially all of the Company's domestic assets.

### Capital Investment

The Company's capital investment in the first three months of 2013 was \$32.9 million compared to \$41.7 million in the first three months of 2012. During the first three months of 2013, the Company had capital spending of \$25.5 million for improving process capabilities, including the biomass boiler project in Macon, GA, \$4.7 million for capital spares and \$2.7 million for manufacturing packaging machinery.

### Environmental Matters

Some of the Company's current and former facilities are the subject of environmental investigations and remediations resulting from historical operations and the release of hazardous substances or other constituents. Some current and former facilities have a history of industrial usage for which investigation and remediation obligations may be imposed in the future or for which indemnification claims may be asserted against the Company. Also, potential future closures or sales of facilities may necessitate further investigation and may result in future remediation at those facilities. The Company has established reserves for those facilities or issues where liability is probable and the costs are reasonably estimable.

For further discussion of the Company's environmental matters, see Note 10 in Part I, Item 1, Notes to Condensed Consolidated Financial Statements.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net sales and expenses during the reporting period. Actual results could differ from these estimates, and changes in these estimates are recorded when known. The critical accounting policies used by management in the preparation of the Company's condensed consolidated financial statements are those that are important both to the presentation of the Company's financial condition and results of operations and require significant judgments by management with regard to estimates used.

The Company's most critical accounting policies which require significant judgment or involve complex estimations are described in GPHC's Form 10-K for the year ended December 31, 2012.

NEW ACCOUNTING STANDARDS

For a discussion of recent accounting pronouncements impacting the Company, see Note 1 in Part I, Item 1, Notes to Condensed Consolidated Financial Statements.

BUSINESS OUTLOOK

The Company expects to realize between \$70 million and \$90 million of year over year operating cost savings from its continuous improvement programs, including Lean Sigma manufacturing projects.

Total capital investment for 2013 is expected to be between \$215 million and \$235 million and is expected to relate principally to the Company's process capability improvements and biomass boiler (approximately \$190 million), acquiring capital spares (approximately \$20 million), and producing packaging machinery (approximately \$15 million).

The Company also expects the following in 2013:

• Depreciation and amortization between \$270 million and \$290 million.

• Interest expense of \$105 million to \$115 million, including approximately \$5 million to \$10 million of non-cash interest expense associated with amortization of debt issuance costs.

• Debt reduction of approximately \$250 million.

• Pension plan contributions of \$40 million to \$70 million.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

For a discussion of certain market risks related to the Company, see Part II, “Item 7A, Quantitative and Qualitative Disclosure about Market Risk”, in GPHC’s Form 10-K for the year ended December 31, 2012. There have been no significant developments with respect to derivatives or exposure to market risk during the first three months of 2013. For a discussion of the Company’s Financial Instruments, Derivatives and Hedging Activities, see GPHC’s Form 10-K for the year ended December 31, 2012 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition, Liquidity and Capital Resources.”

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company’s management has carried out an evaluation, with the participation of its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company’s disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934, as amended. Based upon such evaluation, management has concluded that the Company’s disclosure controls and procedures were effective as of March 31, 2013.

Changes in Internal Control over Financial Reporting

There was no change in the Company’s internal control over financial reporting that occurred during the fiscal quarter ended March 31, 2013 that has materially affected, or is likely to materially affect, the Company’s internal control over financial reporting.

## PART II — OTHER INFORMATION

## ITEM 1. LEGAL PROCEEDINGS

The Company is a party to a number of lawsuits arising in the ordinary conduct of its business. Although the timing and outcome of these lawsuits cannot be predicted with certainty, the Company does not believe that disposition of these lawsuits will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows. For more information see Note 10 - Environmental and Legal Matters in the Notes to Condensed Consolidated Financial Statements.

## ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in GPHC's Form 10-K for the year ended December 31, 2012.

## ITEM 4. MINE SAFETY DISCLOSURES

None.

## ITEM 6. EXHIBITS
