Notes to Consolidated Financial Statements

(1) Description of the Company

Unless otherwise specified, as used in this Quarterly Report on Form 10-Q, the terms “we,” “us,” “our,” “Art’s-Way,” and the “Company,” refer to Art’s-Way Manufacturing Co., Inc., a Delaware corporation headquartered in Armstrong, Iowa, and its wholly-owned subsidiaries.

We began operations as a farm equipment manufacturer in 1956. Since that time, we have become a major worldwide manufacturer of agricultural equipment. Our principal manufacturing plant is located in Armstrong, Iowa.

We have organized our business into three operating segments. Management separately evaluates the financial results of each segment because each is a strategic business unit offering different products and requiring different technology and marketing strategies. Art’s-Way Manufacturing Co., Inc. manufactures farm equipment under its own and private labels. Art’s-Way Manufacturing Co., Inc. has two wholly-owned operating subsidiaries. Art’s-Way Vessels, Inc. (“Art’s-Way Vessels”) manufactures pressure vessels and Art’s-Way Scientific, Inc. (“Art’s-Way Scientific”) manufactures modular buildings for various uses, commonly animal containment and research laboratories. For detailed financial information relating to segment reporting, see Note 13, “Segment Information.”

(2) Summary of Significant Account Policies

Statement Presentation

The foregoing condensed consolidated financial statements of the Company are unaudited and reflect all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and operating results for the interim periods. The financial statements should be read in conjunction with the financial statements and notes thereto contained in the Company’s Annual Report on Form 10-K for the fiscal year ended November 30, 2009. The results of operations for the three and nine months ended August 31, 2010 are not necessarily indicative of the results for the fiscal year ending November 30, 2010.

(3) Income Per Share

Basic net income per common share has been computed on the basis of the weighted average number of common shares outstanding. Diluted net income per share has been computed on the basis of the weighted average number of common shares outstanding plus equivalent shares assuming exercise of stock options.

## Notes to Consolidated Financial Statements

Basic and diluted earnings per common share have been computed based on the following as of August 31, 2010 and August 31, 2009:

	For the three months ended	
	August 31, 2010	August 31, 2009
Basic:		
Numerator, net income	\$751,802	\$64,725
Denominator: Average number of common shares Outstanding	3,992,182	3,990,352
Basic earnings per common share	\$0.19	\$0.02
Diluted:		
Numerator, net income	\$751,802	\$64,725
Denominator: Average number of common shares outstanding	3,992,182	3,990,352
Effect of dilutive stock options	11,584	9,598
	4,003,766	3,999,950
Diluted earnings per common share	\$0.19	\$0.02

	For the nine months ended	
	August 31, 2010	August 31, 2009
Basic:		
Numerator, net income	\$886,707	\$181,238
Denominator: Average number of common shares Outstanding	3,991,381	3,987,856
Basic earnings per common share	\$0.22	\$0.05
Diluted:		
Numerator, net income	\$886,707	\$181,238
Denominator: Average number of common shares outstanding	3,991,381	3,987,856
Effect of dilutive stock options	9,482	1,767
	4,000,863	3,989,623
Diluted earnings per common share	\$0.22	\$0.05

## Notes to Consolidated Financial Statements

## (4) Inventory

Major classes of inventory are:

	August 31, 2010	November 30, 2009
Raw materials	\$8,361,107	\$9,209,873
Work in process	427,945	258,621
Finished goods	7,166,335	4,060,163
	\$15,955,388	\$13,528,657
Less: Reserves	(1,976,983 )	(1,600,423 )
	\$13,978,405	\$11,928,234

## (5) Accrued Expenses

Major components of accrued expenses are:

	August 31, 2010	November 30, 2009
Salaries, wages, and commissions	\$872,672	\$425,133
Accrued warranty expense	314,750	96,370
Other	421,613	269,878
	\$1,609,035	\$791,381

## (6) Product Warranty

The Company offers warranties of various lengths to its customers depending on the specific product and terms of the customer purchase agreement. The average length of the warranty period is one year from the date of purchase. The Company's warranties require it to repair or replace defective products during the warranty period at no cost to the customer. The Company records a liability for estimated costs that may be incurred under its warranties. The costs are estimated based on historical experience and any specific warranty issues that have been identified. Although historical warranty costs have been within expectations, there can be no assurance that future warranty costs will not exceed historical amounts. The Company periodically assesses the adequacy of its recorded warranty liability and adjusts the balance as necessary.

## Notes to Consolidated Financial Statements

Changes in the Company's product warranty liability for the three and nine months ended August 31, 2010 and August 31, 2009 are as follows:

	For the three months ended	
	August 31, 2010	August 31, 2009
Balance, beginning	\$148,412	\$259,899
Settlements made in cash or in-kind	(51,842 )	(137,506 )
Warranties accrued	218,180	77,050
Balance, ending	\$314,750	\$199,443

  

	For the nine months ended	
	August 31, 2010	August 31, 2009
Balance, beginning	\$96,370	\$327,413
Settlements made in cash or in-kind	(237,516 )	(361,771 )
Warranties accrued	455,896	233,801
Balance, ending	\$314,750	\$199,443

## (7) Loan and Credit Agreements

The Company has a \$6,000,000 revolving line of credit with West Bank (the "Line of Credit") which matures April 30, 2011. The Line of Credit is renewable annually with advances funding the Company's working capital and letter of credit needs. The interest rate is West Bank's prime interest rate, adjusted daily, with a minimum rate of 4.00%. As of August 31, 2010, the interest rate was the minimum of 4.0%. Monthly interest-only payments are required and the unpaid principal is due on the maturity date. As of August 31, 2010 and November 30, 2009, the Company had borrowed \$2,272,000 and \$2,438,892, respectively, against the Line of Credit. The available amounts remaining on the Line of Credit were \$3,728,000 and \$3,561,108 on August 31, 2010 and November 30, 2009, respectively. The borrowing base limits advances from the Line of Credit to 60% of accounts receivable less than 90 days, plus 60% of finished goods inventory, plus 50% of raw material inventory and work-in-process inventory, as calculated at each month-end. The Company's obligations under the Line of Credit are evidenced by a Commitment Letter dated April 27, 2010 (the "Commitment Letter"), a Promissory Note dated June 8, 2009, as updated by the Commitment Letter, and certain other ancillary documents.

On June 7, 2007, the Company obtained a term loan from West Bank in the amount of \$4,100,000. The loan, which had an outstanding principal balance of \$3,221,306 as of August 31, 2010, matures on May 1, 2013 and bears fixed interest at 5.75%. Monthly principal and interest payments in the amount of \$42,500 are required, with a final payment of principal and accrued interest in the amount of \$2,304,789 due on May 1, 2013.

The Company obtained two additional loans from West Bank in 2007 for the purpose of financing the construction of the Company's new facilities in Monona and Dubuque. On October 9, 2007, the Company obtained a loan for \$1,330,000, which has a maturity date of May 1, 2013 and bears interest at a fixed interest rate of 5.75%. Monthly payments of \$11,000 are required for principal and interest, with a final payment of accrued interest and principal in the amount of \$1,007,294 due on May 1, 2013. On August 31, 2010, the outstanding principal balance on this loan was \$1,183,842.

Notes to Consolidated Financial Statements

On November 30, 2007, the Company obtained a \$1,500,000 construction loan to finance construction of the Dubuque, Iowa facility, which has a maturity date of May 1, 2013 and bears interest at a fixed interest rate of 5.75%. Payments of \$12,550 are due monthly for principal and interest, with a final accrued interest and principal payment in the amount of \$1,114,714 due on May 1, 2013. On August 31, 2010 the outstanding principal balance on this loan was \$1,346,807.

Each of the Company's loans from West Bank are governed by a Business Loan Agreement dated June 8, 2009 (the "Business Loan Agreement"), as modified by the Commitment Letter, which requires the Company to comply with certain financial and reporting covenants. The Company must provide monthly internally prepared financial reports, including accounts receivable aging schedules and borrowing base and compliance certificates, and year-end audited financial statements. The Company must maintain a minimum debt service coverage ratio of 1.5, a maximum debt to tangible net worth ratio of 1.25, and a minimum tangible net worth of \$12,000,000, each as measured at the Company's fiscal year-end. Further, the Company must obtain West Bank's prior written consent for capital expenditures that exceed \$500,000 annually. The loans are secured by a first position security interest on the assets of the Company and its subsidiaries, including but not limited to, inventories, accounts receivable, machinery, equipment and real estate. The Company and its subsidiaries were required to execute Agreements to Provide Insurance that set forth the insurance requirements for the collateral.

If the Company or either of its subsidiaries (as guarantors) commits an event of default under the Business Loan Agreement and fails or is unable to cure that default, West Bank may cease advances under the Line of Credit and has the option of causing all outstanding indebtedness to become immediately due and payable. Events of default include, without limitation: (i) becoming insolvent or subject to bankruptcy proceedings; (ii) defaulting on any obligations to West Bank; (iii) defaulting on any obligations to third parties that would materially affect the ability to perform obligations owed to West Bank; (iv) suffering a material adverse change in financial condition or the value of any collateral; and (v) making false statements to West Bank.

The Company was in compliance with all covenants under the Business Loan Agreement as measured on November 30, 2009. Although compliance with the financial ratio covenants is measured only on an annual basis, the Company internally evaluates such ratios on a quarterly basis. As of August 31, 2010, the Company was in compliance with all financial ratio covenants under the Business Loan Agreement. The next measurement date is November 30, 2010.

On June 1, 2009, Art's-Way Scientific received funds from two \$95,000 promissory notes in connection with an agreement signed August 7, 2007 between Art's-Way Scientific and the Iowa Department of Economic Development. The first \$95,000 promissory note is a 0% interest loan requiring 60 monthly payments of \$1,583.33, with a final payment due July 1, 2014. The outstanding principal balance on this note was \$72,833 as of August 31, 2010. The second \$95,000 promissory note, which had an outstanding principal balance of \$95,000 as of August 31, 2010, is a forgivable loan subject to certain contract obligations. These obligations include maintaining Art's-Way Scientific's principal place of business in Iowa, complying with certain tax and insurance requirements, and creating 16 full-time positions and retaining 21 full-time positions in Iowa, which must be maintained for a two-year period. Art's-Way Manufacturing Co., Inc. has provided a guarantee in connection with these loans to Art's-Way Scientific.

On May 1, 2010, the Company obtained a loan to finance the purchase of an additional facility located in West Union, Iowa to be used as a distribution center, warehouse facility, and manufacturing plant for certain products under the Art's-Way brand. The funds for this loan were made available by the Iowa Finance Authority by the issuance of tax exempt bonds. This loan had an original principal amount of \$1,300,000 and bears fixed interest at 3.5%. The payments required on this loan began July 1, 2010 and continue until June 1, 2020. The terms of the loan require monthly payments of \$12,891.68 for principal and interest. As of August 31, 2010, the outstanding principal balance on this loan was \$1,282,407.

## Notes to Consolidated Financial Statements

This loan from the Iowa Finance Authority, which has been assigned to The First National Bank of West Union, is governed by a Manufacturing Facility Revenue Note dated May 28, 2010 and a Loan Agreement dated May 1, 2010 (“the IFA Loan Agreement”), which requires the Company to provide quarterly internally prepared financial reports and year-end audited financial statements and to maintain a minimum debt service coverage ratio of 1.5 to 1.0, which will be measured at November 30 of each year, beginning November 30, 2010. Among other covenants, the IFA Loan Agreement also requires the Company to maintain proper insurance on, and maintain in good repair, the West Union Facility, and continue to conduct business and remain duly qualified to do business in the State of Iowa. The loan is secured by a mortgage on the Company’s West Union Facility, pursuant to a Mortgage, Security Agreement, Assignment of Leases and Rents and Fixture Financing Statement dated May 1, 2010 between the Company and The First National Bank of West Union (the “West Union Mortgage”).

If the Company fails to make a required payment or perform any other covenant under the IFA Loan Agreement or the West Union Mortgage, becomes subject to bankruptcy or insolvency proceedings, defaults in payment on any of our other loan obligations in excess of \$100,000, or if there is a determination that any of the Company’s representations made in the IFA Loan Agreement or related documents are materially false, the Company will be deemed to have committed an event of default under the IFA Loan Agreement. If the Company does not cure the event of default within the time specified by the IFA Loan Agreement, the lender may cause the entire amount of the loan to be immediately due and payable and take any other action that it is permitted to take at law or in equity to enforce the Company’s performance.

A summary of the Company’s term debt is as follows:

	August 31, 2010	November 30, 2009
West Bank loan payable in monthly installments of \$42,500 including interest at 5.75%, due May 1, 2013	\$3,221,306	\$3,457,625
West Bank loan payable in monthly installments of \$11,000 including interest at 5.75%, due May 1, 2013	1,183,842	1,230,104
West Bank loan payable in monthly installments of \$12,550 including interest at 5.75%, due May 1, 2013	1,346,807	1,399,751
Iowa Finance Authority loan payable in monthly installments of \$12,891.68 including interest at 3.5%, due June 1, 2020	1,282,407	0
IDED loan payable in monthly installments of \$1,583.33 including interest at 0%, due July 1, 2014.	72,833	87,084
IDED loan payable in monthly installments of \$0 including interest at 0%, due July 1, 2014	95,000	95,000
Total term debt	7,202,195	6,269,564
Less current portion of term debt	603,136	473,341

(8) Recently Issued Accounting Pronouncements

Fair Value Measurements

In September 2006, the Financial Accounting Standards Board (“FASB”) issued a statement that defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosure about fair value measurements. The statement does not require any new fair value measurements, but for some entities, the application of the statement will change current practice. This statement was adopted by the Company without a material impact on the financial statements. In January 2010, the FASB issued an update to amend existing disclosure requirements. The update requires new disclosures for significant transfers between Levels 1 and 2 in the fair value hierarchy and separate disclosures for purchases, sales, issuances, and settlements in the reconciliation of activity for Level 3 fair value measurements. This update also clarifies the existing fair value disclosures regarding the level of disaggregation and the valuation techniques and inputs used to measure fair value. The update is effective for interim and annual periods beginning after December 15, 2009, except for the disclosures on purchases, sales, issuances, and settlements in the roll forward of activity for Level 3 fair value measurements. Those disclosures are effective for interim and annual periods beginning after December 15, 2010. The Company does not expect the adoption of this update to have a material impact on the financial results of the Company.

(9) Stock Option Plan

On January 25, 2007, the Board of Directors adopted the 2007 Non-Employee Directors’ Stock Option Plan (the “Directors’ Stock Option Plan”), which was approved by the Company’s stockholders at the annual stockholders’ meeting on April 24, 2008. The Directors’ Stock Option Plan provides that the plan administrator may grant non-employee directors’ options to purchase shares of common stock of the Company at an exercise price not less than fair market value at the date the options are granted. The Board of Directors has approved a director compensation policy pursuant to which non-employee directors are automatically granted non-qualified stock options to purchase 2,000 shares of common stock annually or initially upon their election to the Board, which are fully vested.

On February 5, 2007, the Board of Directors adopted the 2007 Employee Stock Option Plan, which was approved by the Company’s stockholders at the annual stockholders’ meeting on April 26, 2007. Under this plan, options may be granted to key personnel and consultants at the discretion of the plan administrator. The exercise price of the options must be not less than fair market value at the grant date. The options may be non-qualified or incentive stock options. The term and vesting conditions of options granted under the plan are at the administrator’s discretion.

(10) 2010 Acquisitions

Effective January 19, 2010, the company acquired certain assets related to the manure spreader product line of Roda Mfg., Inc. The acquisition-date fair value of the total consideration transferred was approximately \$1,189,900. The Company expects the allocation of the purchase price to be finalized within one year of the acquisition date. The operating results of the acquired business are reflected in the Company’s consolidated statement of operations from the acquisition date forward. The amount of revenue attributable to the Roda Mfg. product line since the acquisition date was \$357,753 for the period ended August 31, 2010. The amount of revenue from all product lines for the combined entity as of August 31, 2010 was \$22,909,802, compared with \$19,406,975 as of August 31, 2009. The amounts of expenses for the individual product lines are not separately identifiable as the production and related accounting are integrated. Prior information is not available for the product line. The acquisition was made to continue the Company’s growth strategy and diversify its product offerings inside the agricultural industry. The purchase price was determined based on an arms-length negotiated value. The transaction is being accounted for under the acquisition method of accounting, with the purchase price allocated to the individual assets acquired.

Notes to Consolidated Financial Statements

In addition, effective June 11, 2010, the company acquired certain assets related to the baler product line of M&W, a subsidiary of the Alamo Group. The acquisition-date fair value of the total consideration transferred was approximately \$453,000. The Company expects the allocation of the purchase price to be finalized within one year of the acquisition date. The operating results of the acquired business are reflected in the Company's consolidated statement of operations from the acquisition date forward. The amount of revenue attributable to the M&W baler product line since the acquisition date was \$16,644 for the period ended August 31, 2010. The amount of revenue for the combined entity as of August 31, 2010 was \$22,909,802, compared with \$19,406,975 as of August 31, 2009. The amounts of expenses for individual product lines are not separately identifiable as the production and related accounting are integrated. Prior information is not available for the product line. The acquisition was made to continue the Company's growth strategy and diversify its product offerings inside the agricultural industry. The purchase price was determined based on an arms-length negotiated value. The transaction is being accounted for under the acquisition method of accounting, with the purchase price allocated to the individual assets acquired.

(11) Disclosures About the Fair Value of Financial Instruments

The fair value of a financial instrument is defined as the amount at which the instrument could be exchanged in a current transaction between willing parties. At August 31, 2010, and November 30, 2009, the carrying amount approximated fair value for cash, accounts receivable, accounts payable, notes payable to bank, and other current and long-term liabilities. The carrying amounts approximate fair value because of the short maturity of these instruments. The fair value of the Company's installment term loans payable also approximate recorded value because the interest rates charged under the loan terms are not substantially different than current interest rates.

(12) Related Party Transactions

The financial statements of Art's-Way Manufacturing, Inc. include a sale by our Vessels division to Adamson Global Technology for \$250,000. The terms of this sale were consistent with those of an arm's length transaction. Adamson Global Technology is wholly-owned and operated by J. Ward McConnell, Jr., the Executive Chairman of the Board of Directors.

(13) Segment Information

There are three reportable segments: agricultural products, pressurized vessels and modular buildings. The agricultural products segment fabricates and sells farming products as well as replacement parts for these products in the United States and worldwide. The pressurized vessel segment produces pressurized tanks. The modular building segment produces modular buildings for animal containment and various laboratory uses.

The accounting policies applied to determine the segment information are the same as those described in the summary of significant accounting policies. Management evaluates the performance of each segment based on profit or loss from operations before income taxes, exclusive of nonrecurring gains and losses.

## Notes to Consolidated Financial Statements

Approximate financial information with respect to the reportable segments is as follows.

Three Months Ended August 31, 2010				
	Agricultural Products	Pressurized Vessels	Modular Buildings	Consolidated
Revenue from external customers	\$7,725,000	\$502,000	\$2,355,000	\$10,582,000
Income from operations	1,092,000	(116,000 )	295,000	1,271,000
Income before tax	1,062,000	(171,000 )	276,000	1,167,000
Total Assets	20,367,000	3,139,000	3,997,000	27,503,000
Capital expenditures	101,000	21,000	9,000	131,000
Depreciation & Amortization	135,000	27,000	26,000	188,000

Three Months Ended August 31, 2009				
	Agricultural Products	Pressurized Vessels	Modular Buildings	Consolidated
Revenue from external customers	\$4,993,000	\$242,000	\$365,000	\$5,600,000
Income from operations	733,000	(89,000 )	(431,000 )	213,000
Income before tax	687,000	(141,000 )	(447,000 )	99,000

Depreciation & Amortization	341,000	71,000	74,000	486,000

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the condensed consolidated financial statements and notes thereto included in Item 1 of Part I of this report and the audited consolidated financial statements and related notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the fiscal year ended November 30, 2009. Some of the statements in this report may contain forward-looking statements that reflect our current view on future events, future business, industry and other conditions, our future performance, and our plans and expectations for future operations and actions. In some cases you can identify forward-looking statements by the use of words such as "may," "should," "anticipate," "believe," "expect," "plan," "future," "intend," "could," "estimate," "predict," "hope," "potential," "continue," these terms or other similar expressions. Many of these forward-looking statements are located in this report under "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" but they may appear in other sections as well. Forward-looking statements in this report generally relate to: (i) our expectation to remain in compliance with covenants in our loan agreements; (ii) the anticipated benefits of our efforts to improve our disclosure controls and procedures and remediate the material weakness in our internal control over financial reporting; (iii) our order backlog; and (iv) our beliefs regarding the sufficiency of working capital and our continued ability to renew or obtain financing on reasonable terms when necessary.

You should read this report thoroughly with the understanding that our actual results may differ materially from those set forth in the forward-looking statements for many reasons, including events beyond our control and assumptions that prove to be inaccurate or unfounded. We cannot provide any assurance with respect to our future performance or results. Our actual results or actions could and likely will differ materially from those anticipated in the forward-looking statements for many reasons, including but not limited to: (i) delays in or obstacles to our ability to successfully improve our disclosure controls and procedures and remediate the material weakness in our internal control over financial reporting; (ii) the impact of tightening credit markets on our ability to continue to obtain financing on reasonable terms; (iii) our ability to continue to meet debt obligations; (iv) the effect of general economic conditions on the demand for our products and the cost of our supplies and materials; (v) unforeseen costs or delays in implementing production of new products; and (vi) other factors described from time to time in our reports to the SEC. We do not intend to update the forward-looking statements contained in this report. We caution you not to put undue reliance on any forward-looking statements, which speak only as of the date of this report. You should read this report and the documents that we reference in this report and have filed as exhibits completely and with the understanding that our actual future results may be materially different from what we currently expect. We qualify all of our forward-looking statements by these cautionary statements.

### Critical Accounting Policies

Our critical accounting policies involving the more significant judgments and assumptions used in the preparation of the financial statements as of August 31, 2010 have remained unchanged from November 30, 2009. These policies include revenue recognition, inventory valuation, income taxes and stock-based compensation. Disclosure of these critical accounting policies is incorporated by reference under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended November 30, 2009.

### Results of Operations

#### Net Sales and Cost of Sales

Our consolidated corporate sales for the three- and nine- month periods ended August 31, 2010 were \$10,582,000 and \$22,910,000 respectively, compared to \$5,600,000 and \$19,407,000 during the same respective periods in 2009, a

\$4,982,000 increase for the quarter and \$3,503,000 increase year-to-date, or 88.9%, and 18.0% respectively. While all three divisions had increases in sales year-to-date the largest increase can be attributed to our modular buildings segment (“Scientific”). Consolidated gross profit margin for the third fiscal quarter of 2010 was 24.4% compared to 23.2% during the third fiscal quarter of 2009. Year-to-date gross margin was 23.9% in fiscal 2010, compared to 21.1% in fiscal 2009.

Our third fiscal quarter sales at our agricultural products segment (“Manufacturing”) were \$7,725,000, compared to \$4,993,000 during the same period of 2009, a 54.7% increase. Year-to-date sales were \$15,927,000, up from \$15,868,000 as of August 31, 2009, a 0.4% increase and a significant improvement over year-to-date results as of the end of the second fiscal quarter. Although we have experienced decreased sales of Miller Pro products and OEM blowers, we have increased our sales of augers and beet equipment, which yield higher profit margins. Gross margins at Manufacturing for the third fiscal quarter of 2010 were 27.8% compared to 31.0% in fiscal 2009. Our decreased gross margins for the quarter are primarily due to increased overtime wages in 2010 compared to 2009, and also due to negative material variances due to tighter inventory controls. Our year-to-date gross margins were 27.3%, compared to 26.1% for the same period in 2009.

Our third fiscal quarter sales at Vessels were \$502,000, compared to \$242,000 for the same period in 2009, a 107.7% increase. Year-to-date sales were \$1,245,000 in fiscal 2010, compared to \$616,000 for the same period in 2009, a 101.9% increase. A large portion of the year-to-date increase is due to a sale for \$250,000 to Adamson Global Technology, which is wholly owned and operated by J. Ward McConnell, Jr., our Executive Chairman of the Board of Directors. Gross margins at Vessels for the third fiscal quarter of 2010 were -5.0%, compared to 5.1% in fiscal 2009. Year-to-date gross margins were -4.4%, compared to -21.2% for the same period in 2009. These increases can be attributed to our larger sales volume.

Our third fiscal quarter sales at Scientific were \$2,355,000, compared to \$365,000 for the same period in fiscal 2009, a 544.2% increase. Year-to-date sales were \$5,738,000 in fiscal 2010, compared to \$2,923,000 for the same period in 2009, a 96.3% increase. These increases are primarily due to higher demand during 2010, which we believe has resulted from improved economic conditions. Gross margins at Scientific for the third fiscal quarter of 2010 were 19.4%, compared to -70.6% in 2009. Year-to-date gross margins were 20.6%, compared to 2.5% for the same period in 2009. During 2009, our low sales volume negatively impacted our gross margins.

#### Expenses

Our third fiscal quarter consolidated selling expenses were \$550,000 compared to \$436,000 for the same period in 2009. Year-to-date selling expenses were \$1,476,000 in 2010 compared to \$1,250,000 for the same period in 2009. The increase was primarily due to increased marketing efforts, including attending a greater number of trade shows, creating new product literature and increased advertising, as well as wages for additional sales staff. Selling expenses as a percentage of sales were 5.2% and 6.4% for the three- and nine-month periods ending August 31, 2010, compared to 7.8% and 6.4% for the same respective periods in 2009.

Consolidated engineering expenses were \$102,000 and \$309,000 for the three and nine months ended August 31, 2010, compared to \$89,000 and \$248,000 for the same respective periods in 2009. These increases were primarily due to the addition of engineering staff in Armstrong, Iowa. Engineering expenses as a percentage of sales were 1.0% and 1.4% for the three- and nine-month periods ending August 31, 2010, compared to 1.6% and 1.3% for the same respective periods in 2009.

Consolidated administrative expenses for the three months ended August 31, 2010 were \$654,000 compared to \$563,000 for the same period in 2009. Year-to-date administrative expenses were \$2,081,000 compared to \$1,986,000 for the same period in 2009. Administrative expenses as a percentage of sales were 6.2% and 9.1% for the three- and nine-month periods ending August 31, 2010, compared to 10.0% and 10.2% for the same respective periods in 2009.

## Order Backlog

The consolidated order backlog as of August 31, 2010 was \$4,823,000 compared to \$6,174,000 as of August 31, 2009. Manufacturing's order backlog was \$2,884,000 as of August 31, 2010, compared to \$3,151,000 in fiscal 2009. The backlog for Vessels was \$655,000 as of August 31, 2010, compared to \$511,000 in fiscal 2009. The backlog for Scientific was \$1,334,000 as of August 31, 2010, compared to \$2,512,000 in fiscal 2009. Our order backlog is not necessarily indicative of future revenue to be generated from such orders due to the possibility of order cancellations and dealer discount arrangements we may enter into from time to time

## Liquidity and Capital Resources

Our main use of funds year-to-date has been for the purchase of both the Roda and M&W product lines, as well as the acquisition of the facility in West Union, Iowa. Our main sources of funds year-to-date have been cash from operations of approximately \$2,938,000, as well as proceeds from financing activities. Of the \$2,938,000 of cash from operations, \$1,441,000 is a result of the increased payables and accrued expenses. The increase in accounts payable is primarily due to increased purchasing for the production of our new manure spreader product line. The increase in accrued expenses has several factors including increased accruals for our warranties, an accrual for bonuses that was not present at year end, and also increased accrued property taxes due to our new facilities.

We have a \$6,000,000 revolving line of credit with West Bank, pursuant to which we had borrowed \$2,272,000 and \$2,438,892 as of August 31, 2010 and November 30, 2009, respectively. In addition, we have three term loans from West Bank, which had outstanding principal balances of \$3,221,306, \$1,183,842 and \$1,346,806 as of August 31, 2010, respectively. We have also received funds pursuant to two promissory notes from the Iowa Department of Economic Development. These notes had outstanding principal balances of \$95,000 and \$72,833 as of August 31, 2010, respectively. In May 2010, the Iowa Finance Authority also extended us a loan to finance the purchase of a facility. As of August 31, 2010, the outstanding principal balance on this loan was \$1,282,407.

Our loans require us to comply with various covenants, including maintaining certain financial ratios. We were in compliance with all financial ratio covenants as of November 30, 2009, our last measurement date.

For additional information about our financing activities, please refer to note 8 to the audited consolidated financial statements and the discussion entitled "Liquidity and Capital Resources," each contained in our Annual Report on Form 10-K for the fiscal year ended November 30, 2009, as well as note 7 to the unaudited consolidated financial statements included in Part I, Item 1 of this Quarterly Report.

We believe that our current financing arrangements provide sufficient cash to finance operations for the next 12 months. We expect to continue to rely on cash from financing activities to supplement our cash flows from operations in order to meet our liquidity and capital expenditure needs in the near future. We expect to continue to be able to procure financing upon reasonable terms.

## Off Balance Sheet Arrangements

None.

#### Item 4. Controls and Procedures

##### Evaluation of Disclosure Controls and Procedures

The person serving as our principal executive officer and principal financial officer evaluated the effectiveness of our disclosure controls and procedures, as defined in Exchange Act Rules 13a-15(e) and 15d-15(e), as of the end of the period covered by this report. As a result of the material weakness relating to inventory accounting that existed at the end of our fiscal year, which was previously disclosed in Item 9A(T) of our 2009 Annual Report on Form 10-K, the person serving as our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were not effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (a) accumulated and communicated to our management, including the person serving as our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure; and (b) recorded, processed, summarized and reported, within the time specified in the SEC's rules and forms. As a result of this conclusion, the financial statements for the period covered by this report were prepared with particular attention to the material weakness previously disclosed.

We are taking actions to remediate the previously-disclosed material weakness in our internal controls over financial reporting and improve our disclosure controls and procedures. We will continue to evaluate and monitor these efforts and intend to take all appropriate action when and as necessary to ensure we have effective disclosure controls and procedures.

##### Changes in Internal Controls

We have made significant progress, and continue to work on remediating the material weakness identified in our 2009 Annual Report on Form 10-K. During the first three quarters of 2010, we continued to improve our physical inventory count procedures to ensure that inventory is properly reflected in our financial statements. We intend to continue to implement and use these procedures throughout the 2010 fiscal year. No other changes in our internal control over financial reporting occurred during the third fiscal quarter of 2010 which have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

We are currently not a party to any material pending legal proceedings.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. (Removed and Reserved.)

Item 5. Other Information

As previously disclosed on our Quarterly Report for the period ending May 31, 2010, on May 10, 2010, we entered into an Asset Purchase Agreement with Alamo Group, Inc., pursuant to which we agreed to acquire the product line of M&W Balers from Alamo Group for a cash purchase price of approximately \$453,000. We completed the acquisition, and paid the purchase price in full, on June 11, 2010. This price included \$453,000 of inventory. The foregoing summary of the asset purchase does not purport to be complete and is qualified in its entirety by reference to our Asset Purchase Agreement with and the Alamo Group, a copy of which is attached as Exhibit 2.1 to our Quarterly Report on Form 10-Q for the period ending May 31, 2010 and is incorporated herein by reference.

Item 6. Exhibits

See “Exhibit Index” on page 21 of this report.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
