Forward-Looking Statements

This Quarterly Report on Form 10-Q (this Form 10-Q) includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 in addition to historical information. These forward-looking statements are included throughout this Form 10-Q, including in the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” All statements that are not statements of historical fact, including those that relate to matters such as our industry, business strategy, goals and expectations concerning our market position, future operations, margins, profitability, capital expenditures, liquidity and capital resources and other financial and operating information, are forward-looking statements. We may use the words “anticipate,” “assume,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “potential,” “predict,” “project,” “future,” “target” and phrases to identify forward-looking statements in this Form 10-Q.

The forward-looking statements contained in this Form 10-Q are based on management’s current expectations and are subject to uncertainty and changes in circumstances. We cannot assure you that future developments affecting us will be those that we have anticipated. Actual results may differ materially from these expectations due to changes in global, regional or local political, economic, business, competitive, market, regulatory and other factors, many of which are beyond our control. We believe that these factors include those referenced in “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended September 30, 2015 (the Form 10-K). Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, our actual results may vary in material respects from those projected in these forward-looking statements.

Any forward-looking statement made by us in this Form 10-Q speaks only as of the date of this report. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by any applicable securities laws. You are advised, however, to consult any further disclosures we may make in our future reports filed with the Securities and Exchange Commission (the SEC). Such reports may be read and copied at the SEC’s Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 and may also be accessed on the SEC’s website at www.sec.gov. Our filings with the SEC are also available, free of charge, through our website at www.naturalgrocers.com.

NATURAL GROCERS BY VITAMIN COTTAGE, INC.

Notes to Unaudited Interim Consolidated Financial Statements

June 30, 2016 and 2015

1. Organization

Nature of Business

Natural Grocers by Vitamin Cottage, Inc. (Natural Grocers or the holding company) and its consolidated subsidiaries (collectively, the Company) operate retail stores that specialize in natural and organic groceries and dietary supplements. The Company operates its retail stores under its trademark *Natural Grocers by Vitamin Cottage*®. As of June 30, 2016, the Company operated 118 stores in 19 states. The Company also has a bulk food repackaging facility and distribution center in Golden, Colorado. The Company had 103 stores in 18 states as of September 30, 2015.

2. Basis of Presentation and Summary of Significant Accounting Policies

Consolidated Financial Statements

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial statements and are in the form prescribed by Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for annual financial statements. The information included in this Form 10-Q should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and notes thereto included in the Form 10-K. The accompanying consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the Company's financial results. Interim results are not necessarily indicative of results for any other interim period or for a full fiscal year. The Company reports its results of operations on a fiscal year ending September 30.

The accompanying consolidated financial statements include all the accounts of the holding company's wholly owned subsidiaries, Vitamin Cottage Natural Food Markets, Inc. (the operating company) and Vitamin Cottage Two Ltd. Liability Company (VC2). Natural Systems, LLC, formerly a wholly owned subsidiary of the operating company, was merged into the operating company on November 13, 2015. All significant intercompany balances and transactions have been eliminated in consolidation.

The Company has one reporting segment: natural and organic retail stores. Sales from the Company's natural and organic retail stores are derived from sales of the following product categories, which are presented as a percentage of sales for the three and nine months ended June 30, 2016 and 2015, as follows:

	Three months ended		Nine months ended	
	June 30,		June 30,	
	2016	2015	2016	2015
Grocery	66.8 %	66.9	66.4	66.5
Dietary supplements	22.0	22.1	22.3	22.5
Other	11.2	11.0	11.3	11.0
	100.0%	100.0	100.0	100.0

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities (including the fair value of assets acquired and liabilities assumed in a business combination), the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management reviews its estimates on an ongoing basis, including those related to allowances for self-insurance reserves, valuation of inventories, useful lives of property and equipment for depreciation and amortization, valuation allowances for deferred tax assets and litigation based on currently available information. Changes in facts and circumstances may result in revised estimates and actual results could differ from those estimates.

Table Of Contents

Recent Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-09, “Improvements to Employee Share-Based Payment Accounting,” Topic 718, “Compensation-Stock Compensation” (ASU 2016-09). ASU 2016-09 includes provisions intended to simplify various aspects related to how share-based payments are accounted for and presented in the financial statements. The main provision requires all excess tax benefits and tax deficiencies to be recognized as income tax benefit or expense in the statement of income. The tax effects of exercised or vested awards should be treated as discrete items in the reporting period in which they occur. The ASU also allows an entity to make an entity-wide election to either estimate the number of awards that are expected to vest (current GAAP) or account for forfeitures when they occur. Other provisions in ASU 2016-09 permit tax withholding up to the maximum statutory tax rates in the applicable jurisdictions. Under ASU 2016-09 excess tax benefits must be classified along with other income tax cash flows as an operating activity. The provisions of ASU 2016-09 are effective for the Company’s first quarter of the fiscal year ending September 30, 2018. Early adoption is permitted. The Company is currently evaluating the impact that the adoption of ASU 2016-09 will have on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, “Leases,” Topic 842, “Leases” (ASU 2016-02). ASU 2016-02 intends to improve financial reporting about leasing transactions. The ASU will require organizations that lease assets to recognize on the balance sheet assets and liabilities for the rights and obligations created by those leases. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or capital. Operating leases will result in straight-line expense while capital leases will result in a front-loaded expense pattern. Classification will be based on criteria that are largely similar to those applied in current lease accounting, but without explicit bright lines. The amendments also require certain quantitative and qualitative disclosures. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018 and interim periods within those years. The provisions of ASU 2016-02 are effective for the Company’s first quarter of the fiscal year ending September 30, 2020. Early adoption is permitted. The new standard must be adopted using a modified retrospective transition, and provides for certain practical expedients. Transition will require application of the new guidance at the beginning of the earliest comparative period presented. The Company is currently evaluating the impact that the adoption of ASU 2016-02 will have on its consolidated financial statements but expects it to have a significant impact on its balance sheet due to the number of operating leases to which the Company is a party.

In April 2015, the FASB issued ASU 2015-05, “Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement,” Subtopic 350-40, “Intangibles-Goodwill and Other – Internal-Use Software” (ASU 2015-05). ASU 2015-05 provides guidance as to whether a cloud computing arrangement (such as software as a service, platform as a service, infrastructure as a service, and other similar hosting arrangements) includes a software license and, based on that determination, how to account for such arrangements. The amendments in ASU 2015-05 may be applied on either a prospective or retrospective basis and early adoption is permitted. ASU 2015-05 is effective for fiscal years beginning after December 15, 2015 and interim periods within those fiscal years. The provisions of ASU 2015-05 are effective for the Company’s first quarter of the fiscal year ending September 30, 2017. The Company does not expect the adoption of these provisions to have a significant impact on the Company’s consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, “Revenue from Contracts with Customers,” Topic 606, “Revenue from Contracts with Customers” (ASU 2014-09). ASU 2014-09 provides guidance for revenue recognition and will replace most existing revenue recognition guidance in GAAP when it becomes effective. ASU 2014-09’s core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled for the transfer of those goods or services. ASU 2014-09 permits the use of either the retrospective or cumulative effect transition method. In July 2015, the FASB issued ASU 2015-14, “Revenue from Contracts with Customers – Deferral of the Effective Date.” The FASB approved the deferral of ASU 2014-09, by extending the new revenue recognition standard’s mandatory effective date by one year and permitting public companies to apply the new revenue standard to annual reporting periods beginning after December 15, 2017. However, earlier adoption is permitted only for annual reporting periods beginning after December 15, 2016. The guidance in ASU 2014-09 will be effective for the Company in the first quarter of the fiscal year ending September 30, 2019. The Company is currently evaluating the impact that the adoption of ASU 2014-09 will have on its consolidated financial statements.

Table Of Contents**3. Earnings Per Share**

Basic earnings per share (EPS) is computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. Diluted EPS reflects the potential dilution that could occur if the Company's granted but unvested restricted stock units (RSUs) were to vest, resulting in the issuance of common stock that would then share in the Company's earnings. Presented below are basic and diluted EPS for the three and nine months ended June 30, 2016 and 2015, dollars in thousands, except per share data:

	Three months ended June 30,		Nine months ended June 30,	
	2016	2015	2016	2015
Net income	\$2,680	4,345	10,005	13,312
Weighted average number of shares of common stock outstanding	22,501,044	22,491,158	22,499,229	22,488,975
Effect of dilutive securities	5,054	9,296	5,991	10,757
Weighted average number of shares of common stock outstanding including effect of dilutive securities	22,506,098	22,500,454	22,505,220	22,499,732
Basic earnings per share	\$0.12	0.19	0.44	0.59
Diluted earnings per share	\$0.12	0.19	0.44	0.59

There were 103,795 and 91,828 non-vested RSUs for the three and nine months ended June 30, 2016, respectively, excluded from the calculation of diluted EPS as they are antidilutive. There were zero and 26,796 antidilutive non-vested RSUs for the three and nine months ended June 30, 2015, respectively.

The Company did not declare any dividends in the three or nine months ended June 30, 2016 or 2015.

4. Debt*Credit Facility*

On January 28, 2016, the Company entered into a new credit agreement (the Credit Facility). The operating company is the borrower under the Credit Facility and its obligations under the Credit Facility are guaranteed by the holding

company and VC2. The Credit Facility is secured by a lien on substantially all of the Company's assets.

On May 10, 2016, the operating company entered into an amendment to the Credit Facility, pursuant to which the amount available for borrowing under the Credit Facility was increased from \$30.0 million to \$45.0 million (including a \$5.0 million sublimit for standby letters of credit). The Company has the ability to increase the amount available for borrowing by an additional amount that may not exceed \$5.0 million if the existing lenders or other eligible lenders agree to provide an additional commitment or commitments. The Company has the right to borrow, prepay and re-borrow amounts under the Credit Facility at any time prior to the maturity date. The Credit Facility matures on January 31, 2021.

For floating rate borrowings under the Credit Facility, interest is determined by the lender's administrative agent based on the most recent compliance certificate of the operating company and stated at the base rate less the lender spread based upon certain financial measures. For fixed rate borrowings under the Credit Facility, interest is determined by quoted LIBOR rates for the interest period plus the lender spread based upon certain financial measures. The unused commitment fee is based upon certain financial measures.

The Credit Facility requires compliance with certain customary operational and financial covenants, including a leverage ratio. The Credit Facility also contains certain other customary limitations on the Company, including with respect to its ability to incur additional debt, guarantee other obligations, grant liens on assets and make investments or acquisitions. Additionally, the Credit Facility prohibits the payment of cash dividends to the holding company from the operating company without the administrative agent's consent, except when no default or event of default exists. If no default or event of default exists, dividends are allowed for various audit, accounting, tax, securities, indemnification, reimbursement, insurance expenses and for other reasonable expenses incurred in the ordinary course of business, including cash dividends to the holding company for the repurchase of shares of common stock in an amount not to exceed \$10.0 million.

At the same time it entered into the Credit Facility, the Company terminated its prior credit agreement (the Prior Credit Facility).

Table Of Contents

The Company had \$18.8 million outstanding under the Credit Facility as of June 30, 2016 and zero outstanding under the Prior Credit Facility as of September 30, 2015. As of June 30, 2016, the Company had undrawn, issued and outstanding letters of credit of \$1.0 million, which were reserved against the amount available for borrowing under the terms of the Credit Facility. As of September 30, 2015, the Company had undrawn, issued and outstanding letters of credit of \$1.0 million, which were reserved against the amount available for borrowing under the terms of the Prior Credit Facility. The Company had \$25.2 million available for borrowing under the Credit Facility as of June 30, 2016 and \$14.0 million available for borrowing under the Prior Credit Facility as of September 30, 2015.

As of June 30, 2016, the Company was in compliance with the debt covenants under the Credit Facility. As of September 30, 2015, the Company was in compliance with the debt covenants under the Prior Credit Facility.

Capital and Financing Lease Obligations

The Company had 15 leases as of June 30, 2016 and 13 leases as of September 30, 2015 that are included in capital and financing lease obligations (see Note 6). The Company does not record rent expense for these capitalized real estate leases, but rather rental payments under the capital leases are recognized as a reduction of the capital and financing lease obligation and as interest expense. The interest rate on capital and financing lease obligations is determined at the inception of the lease.

Interest

The Company incurred gross interest expense of approximately \$0.8 million for each of the three months ended June 30, 2016 and 2015 and approximately \$2.2 million for each of the nine months ended June 30, 2016 and 2015. Interest expense for the three and nine months ended June 30, 2016 and 2015 relates primarily to interest on capital and financing lease obligations. The Company capitalized interest of \$0.2 million and \$0.1 million for the three months ended June 30, 2016 and 2015, respectively and \$0.5 million and \$0.2 million for the nine months ended June 30, 2016 and 2015, respectively.

5. Shareholders' Equity

Share Repurchases

On May 5, 2016, the Company’s Board of Directors (the “Board”) authorized a two-year share repurchase program pursuant to which the Company may repurchase up to \$10.0 million in shares of the Company’s common stock. Repurchases under the Company’s share repurchase program are made from time to time at management’s discretion on the open market or through privately negotiated transactions in compliance with Rule 10b-18 under the Securities Exchange Act of 1934, as amended (the Exchange Act), subject to market conditions, applicable legal requirements and other relevant factors. Repurchases of common stock may also be made under a Rule 10b5-1 plan, which would permit common stock to be repurchased when the Company might otherwise be precluded from doing so under insider trading laws. The share repurchase program does not obligate the Company to purchase any particular amount of common stock and may be suspended, modified or discontinued by the Company without prior notice.

The following table summarizes share repurchase activity for the periods indicated (in thousands, except number of shares acquired and average per share cost):

	Three months ended		Nine months ended	
	June 30,		June 30,	
	2016	2015	2016	2015
Number of common shares acquired	10,300	—	10,300	—
Average price per common share acquired (including commissions)	\$13.46	—	13.46	—
Total cost of common shares acquired	\$139	—	139	—

At June 30, 2016 and September 30, 2015, the Company held in treasury 10,300 shares and zero shares, respectively, totaling approximately \$0.1 million and zero, respectively.

Between July 1 and July 25, 2016 (the latest practicable date for making the determination), the Company has not repurchased any additional shares of the Company’s common stock.

Table Of Contents**6. Lease Commitments**

Capital and financing lease obligations as of June 30, 2016 and September 30, 2015, were as follows, dollars in thousands:

	As of June 30,	September 30,
	2016	2015
Capital lease finance obligations, due in monthly installments through fiscal year 2031	\$25,680	22,096
Capital lease obligations, due in monthly installments through fiscal year 2041	5,264	4,539
Capital lease obligations for assets under construction, due in monthly installments through fiscal year 2041	—	972
Total capital and financing lease obligations	30,944	27,607
Less current portion	(435)	(333)
Total capital and financing lease obligations, net of current portion	\$30,509	27,274

7. Property and Equipment

The Company had the following property and equipment balances as of June 30, 2016 and September 30, 2015, dollars in thousands:

	Useful lives	As of June 30,	September 30,
	(in years)	2016	2015
Construction in process	n/a	\$9,440	10,150
Capitalized real estate leases for build-to-suit stores, including unamortized land of \$617 and \$617, respectively	40	28,473	24,774
Capitalized real estate leases	15	5,735	4,866
Land	n/a	192	192
Buildings	40	12,018	4,980
Land improvements	5- 15	1,022	1,015
Leasehold and building improvements	1- 25	109,846	91,865
Fixtures and equipment	5- 7	97,498	83,932

Edgar Filing: Natural Grocers by Vitamin Cottage, Inc. - Form 10-Q

Computer hardware and software	3- 5	15,600	13,834
		279,824	235,608
Less accumulated depreciation and amortization		(107,821)	(90,389)
Property and equipment, net		\$172,003	145,219

Capitalized real estate leases for build-to-suit stores includes the assets for the Company's buildings under capital lease finance obligations, and capitalized real estate leases includes assets for the Company's buildings under capital lease obligations (see Note 6).

Construction in process as of June 30, 2016 includes zero related to construction costs for leases in process for which the Company was deemed the owner during the construction period during which such properties were not in service. Construction in process as of September 30, 2015, includes approximately \$0.9 million related to one building under a capital lease obligation that was not yet in service.

Depreciation and amortization expense for the three and nine months ended June 30, 2016 and 2015 is summarized as follows, dollars in thousands:

	Three months ended		Nine months ended	
	June 30,		June 30,	
	2016	2015	2016	2015
Depreciation and amortization expense included in cost of goods sold and occupancy costs	\$220	200	639	597
Depreciation and amortization expense included in store expenses	5,851	4,968	17,084	14,316
Depreciation and amortization expense included in administrative expenses	309	234	894	619
Total depreciation and amortization expense	\$6,380	5,402	18,617	15,532

Table Of Contents**8. Accrued Expenses**

The composition of accrued expenses as of June 30, 2016 and September 30, 2015 is summarized as follows, dollars in thousands:

	As of June 30,	September 30,
	2016	2015
Payroll and employee-related expenses	\$6,251	7,795
Accrued income taxes payable	—	5,540
Accrued property, sales and use tax payable	4,473	4,365
Accrued marketing expenses	875	532
Deferred revenue related to gift card sales	947	864
Other	747	553
Total accrued expenses	\$13,293	19,649

9. Related Party Transactions

The Company has ongoing relationships with related entities as noted below:

Chalet Properties, LLC: The Company has five operating leases and one capital lease with Chalet Properties, LLC (Chalet). Chalet is owned by the Company's four non-independent Board members: Kemper Isely, Zephyr Isely, Heather Isely and Elizabeth Isely, and other related family members. Rent paid to Chalet was approximately \$0.3 million for each of the three months ended June 30, 2016 and 2015. Rent paid to Chalet was approximately \$0.9 million for each of the nine months ended June 30, 2016 and 2015.

Isely Family Land Trust LLC: The Company has one operating lease with the Isely Family Land Trust LLC (Land Trust). The Land Trust is owned by the Isely Children's Trust and by the Margaret A. Isely Family Trust. Rent paid to the Land Trust was approximately \$0.1 million for each of the three months ended June 30, 2016 and 2015. Rent paid to the Land Trust was approximately \$0.2 million for each of the nine months ended June 30, 2016 and 2015.

FTVC LLC: The Company has one operating lease for a store location with FTVC LLC, which is owned by the Company's four non-independent Board members and other related family members. Rent paid to FTVC LLC was less than \$0.1 million for each of the three months ended June 30, 2016 and 2015. Rent paid to FTVC LLC was less than \$0.1 million for each of the nine months ended June 30, 2016 and 2015.

10. Commitments and Contingencies

The Company is periodically involved in various legal proceedings that are incidental to the conduct of its business, including but not limited to employment discrimination claims, customer injury claims and investigations. When the potential liability from a matter can be estimated and the loss is considered probable, the Company records the estimated loss. Due to uncertainties related to the resolution of lawsuits, investigations and claims, the ultimate outcome may differ from the estimates. Although the Company cannot predict with certainty the ultimate resolution of any lawsuits, investigations and claims asserted against it, management does not believe any currently pending legal proceeding to which the Company is a party will have a material adverse effect on its business, prospects, financial condition, cash flows or results of operations.

In *Bernhard Engl v. Natural Grocers by Vitamin Cottage, Inc. and Vitamin Cottage Natural Food Markets, Inc.*, filed on September 25, 2015 in the United States District Court for the District of Colorado, the plaintiff filed a lawsuit against the Company in connection with a data security incident that affected the Company during fiscal year 2015. The complaint purports to state an action on behalf of a class of customers who used debit or credit cards at the Company's stores. The Company believes the plaintiff's claims are without merit and intends to vigorously defend itself in this proceeding. On June 20, 2016, a Magistrate Judge of the United States District Court for the District of Colorado issued a Recommendation and Order dismissing the plaintiff's complaint without prejudice. At this time, we cannot predict: (i) whether the Court will affirm the Magistrate Judge's Recommendation and Order; (ii) whether, if the Court affirms the Magistrate Judge's Recommendation and Order, the plaintiff will appeal such ruling; or (iii) the scope of the potential loss in the event of an adverse outcome. As a result, the Company has not accrued any liability with respect to this matter.

Table Of Contents

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with our unaudited consolidated financial statements and notes thereto included elsewhere in this Form 10-Q and with the audited consolidated financial statements and notes thereto in our Form 10-K. This MD&A contains forward-looking statements. Refer to “*Forward-Looking Statements*” at the beginning of this Form 10-Q for an explanation of these types of statements. All references to a “fiscal year” refer to a year beginning on October 1 of the previous year and ending on September 30 of such year (for example “fiscal year 2016” refers to the fiscal year from October 1, 2015 to September 30, 2016). Summarized numbers included in this section, and corresponding percentage or basis point changes may not sum due to the effects of rounding.

Company Overview

We operate natural and organic grocery and dietary supplement stores that are focused on providing high quality products at affordable prices, exceptional customer service, nutrition education and community outreach. We offer a variety of natural and organic groceries and dietary supplements that meet our strict quality standards. We believe we have been at the forefront of the natural and organic foods movement since our founding. We are headquartered in Lakewood, Colorado. As of June 30, 2016, we operated 118 stores in 19 states, including Colorado, Arkansas, Arizona, Idaho, Iowa, Kansas, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, Texas, Utah, Washington and Wyoming. We also operate a bulk food repackaging facility and distribution center in Golden, Colorado. The size of our stores varies from 5,000 to 16,000 selling square feet. During the twelve months ended June 30, 2016, our new stores averaged approximately 11,000 selling square feet.

The growth in the organic and natural foods industry and growing consumer interest in health and nutrition have enabled us to continue to open new stores and enter new markets. During the five fiscal years ended September 30, 2015, we increased our store count at a compound annual growth rate of 21.4%. In fiscal year 2015, we opened 16 new stores, and we currently plan to open 23 new stores in fiscal year 2016, 15 of which opened during the nine months ended June 30, 2016. Since June 30, 2016, we have opened two new stores in Arizona and have signed a total of 19 leases for new stores that we plan to open in fiscal years 2016 and 2017 in Arizona, Colorado, Idaho, Iowa, Missouri, Nevada, North Dakota, Oregon, Texas, Utah, and Washington. We have relocated four existing stores and remodeled one store in fiscal year 2016.

Performance Highlights

Key highlights of our performance for the three and nine month periods ended June 30, 2016 are discussed briefly below and in further detail throughout this MD&A. Key financial metrics, including, but not limited to, comparable store sales, daily average comparable store sales, mature store sales and daily average mature store sales are defined under the caption “Key Financial Metrics in Our Business,” presented later in this MD&A.

Net sales. Net sales were \$179.3 million for the three months ended June 30, 2016, which is an increase of \$20.6 million, or 13.0%, compared to net sales of \$158.7 million for the three months ended June 30, 2015. Net sales were \$524.5 million for the nine months ended June 30, 2016, which is an increase of \$62.2 million, or 13.4%, compared to net sales of \$462.3 million for the nine months ended June 30, 2015.

Comparable store sales. Comparable store sales for the three months ended June 30, 2016 and 2015, increased 1.8% and 5.8%, respectively. Comparable store sales for the nine months ended June 30, 2016 and 2015 increased 2.1% and 5.8%, respectively.

Daily average comparable store sales. Daily average comparable store sales, which removes the effect of one more selling day in the three months ended June 30, 2016, as a result of the occurrence of Easter in March 2016 (as compared to April 2015), increased 0.7% and 5.8% for the three months ended June 30, 2016 and 2015, respectively. Daily average comparable store sales, which removes the effect of one more selling day in the nine months ended June 30, 2016 as a result of the occurrence of leap year in fiscal 2016, increased 1.8% and 5.8%, for the nine months ended June 30, 2016 and 2015, respectively.

Mature store sales. Mature store sales for the three months ended June 30, 2016 decreased 0.2% and for the three months ended June 30, 2015 increased 2.3%. Mature store sales for the nine months ended June 30, 2016 decreased 0.4% and for the nine months ended June 30, 2015 increased 2.6%.

Table Of Contents

Daily average mature store sales. Daily average mature store sales, which removes the effect of one more selling day in the three months ended June 30, 2016, decreased 1.3% for the three months ended June 30, 2016 and increased 2.3% for the three months ended June 30, 2015. Daily average mature store sales, which removes the effect of one more selling day in the nine months ended June 30, 2016, decreased 0.8% for the nine months ended June 30, 2016 and increased 2.6% for the nine months ended June 30, 2015.

Net income. Net income was \$2.7 million for the three months ended June 30, 2016, a decrease of \$1.7 million, or 38.3%, compared to net income of \$4.3 million for the three months ended June 30, 2015. Net income was \$10.0 million for the nine months ended June 30, 2016, a decrease of \$3.3 million, or 24.8%, compared to net income of \$13.3 million for the nine months ended June 30, 2015.

EBITDA. Earnings before interest, taxes, depreciation and amortization (EBITDA) was \$10.4 million for the three months ended June 30, 2016, a decrease of \$2.2 million, or 17.7%, from \$12.6 million for the three months ended June 30, 2015. We generated EBITDA of \$35.8 million for the nine months ended June 30, 2016, a decrease of \$2.8 million, or 7.3%, from \$38.6 million for the nine months ended June 30, 2015. EBITDA is not a measure of financial performance under GAAP. Refer to the “Non-GAAP Financial Measures” section in this MD&A for a definition of EBITDA and a reconciliation of net income to EBITDA.

Liquidity. As of June 30, 2016, cash and cash equivalents was \$2.7 million, and there was \$25.2 million available for borrowing under our Credit Facility, net of undrawn, issued and outstanding letters of credit of \$1.0 million.

New store growth. We opened six new stores during the three months ended June 30, 2016 and 15 new stores during the nine months ended June 30, 2016. We operated a total of 118 stores as of June 30, 2016. We plan to open a total of 23 new stores in fiscal year 2016, which would result in an annual new store growth rate of 22.3% for fiscal year 2016.

Store Relocations and Remodels. We have relocated four stores and remodeled one store in fiscal year 2016.

Industry Trends and Economics

We have identified the following recent trends and factors that have impacted and may continue to impact our results of operations and financial condition:

Impact of broader economic trends. The grocery industry and our sales are affected by general economic conditions, including, but not limited to, consumer spending, economic conditions, the level of disposable consumer income, consumer debt, interest rates, the price of commodities, the political environment and consumer confidence. In this regard, we believe our financial results for the three and nine months ended June 30, 2016 continue to reflect

economic pressures in several of the markets we serve due to lower oil and natural gas prices (although we believe those pressures have begun to moderate).

Opportunities in the growing natural and organic grocery and dietary supplements industry. Our industry, which includes organic and natural foods and dietary supplements, continues to experience growth driven primarily by increased public interest in health and nutrition. Capitalizing on this opportunity, we continue to open new stores and enter new markets. As we open new stores, our results of operations have been and may continue to be materially adversely affected based on the timing and number of new stores we open, their initial sales and new lease costs. The length of time it takes for a new store to become profitable can vary depending on a number of factors, including location, competition, a new market versus an existing market, the strength of store management and general economic conditions. Once a new store is open, it typically grows at a faster rate than mature stores for several years. Mature stores are stores that have been open for any part of five fiscal years or longer.

As we expand across the United States and enter markets where consumers may not be as familiar with our brand, we seek to secure prime real estate locations for our stores to establish greater visibility with consumers in those markets. This strategy has resulted in higher lease costs, and we anticipate these increased costs will continue for the foreseeable future. Our financial results for the three and nine months ended June 30, 2016 reflect the effects of these factors, and we anticipate future periods will be similarly impacted.

Our performance is also impacted by trends regarding natural and organic products, dietary supplements and at-home meal preparation. Consumer preferences towards dietary supplements or natural and organic food products might shift as a result of, among other things, economic conditions, food safety perceptions, changing consumer choices and the cost of these products. Our store offerings consist of natural and organic products and dietary supplements. A change in consumer preferences away from our offerings, including those resulting from reductions or changes in our offerings, would have a material adverse effect on our business. Additionally, negative publicity regarding the safety of dietary supplements, product recalls or new or upgraded regulatory standards may adversely affect demand for our products and could result in lower consumer traffic, sales and results of operations.

Table Of Contents

Increased Competition. The grocery and dietary supplement retail business is a large, fragmented and highly competitive industry, with few barriers to entry. Our competition varies by market and includes conventional supermarkets such as Kroger and Safeway, mass or discount retailers such as Wal-Mart and Target, natural and gourmet markets such as Whole Foods and The Fresh Market, specialty food retailers such as Sprouts and Trader Joe's, warehouse clubs such as Sam's Club and Costco, independent health food stores, dietary supplement retailers, drug stores, farmers' markets, food co-ops, mail order and online retailers and multi-level marketers. These businesses compete with us on the basis of price, selection, quality, customer service, shopping experience or any combination of these or other factors. They also compete with us for products and locations. In addition, some of our competitors are expanding to offer a greater range of natural and organic foods. We believe our commitment to carrying only carefully vetted, affordably priced and high-quality natural and organic products and dietary supplements, as well as our focus on providing nutritional education, differentiate us in the industry and provide a competitive advantage. In addition, we face internally generated competition as a result of our opening of new stores in markets we already serve.

Outlook

We believe there are several key factors that have contributed to our success. These factors include a loyal customer base, increasing basket size, growing consumer interest in nutrition and wellness, a differentiated shopping experience that focuses on customer service, nutrition education and a shopper friendly retail environment, and our focus on high quality, affordable natural and organic groceries and dietary supplements.

We plan for the foreseeable future to continue opening new stores and entering new markets. The rate of new store growth in the foreseeable future is expected to moderate somewhat compared to recent years, depending on economic and business conditions and other factors. During the past few years, we have expanded our infrastructure to enable us to support our continued growth. This has included implementing our enterprise resource planning system, hiring key personnel, developing efficient new store opening construction and operations processes and relocating and expanding our bulk food repackaging facility and distribution center. During fiscal year 2015, we redesigned our website (www.naturalgrocers.com) to enhance functionality, create a more engaging user experience and increase its reach and effectiveness. In addition, in fiscal year 2015 we introduced the {N}powerSM customer appreciation program at all of our stores, which we believe will enhance customer loyalty and increase customer engagement levels.

We believe there are opportunities for us to continue to expand our store base, expand profitability and increase comparable store sales. However, future sales growth, including comparable store sales, and our profitability could vary due to increasing competitive conditions in the natural and organic grocery and dietary supplement industry and regional and general economic conditions. In this regard, during the three and nine months ended June 30, 2016, the rate of growth in our comparable store sales moderated compared to the prior year periods in part due to the impact of increased competition in the natural and organic retail sector and internally generated competition due to opening new stores in our existing markets. To a lesser extent, we experienced economic pressures in several of the markets we serve due to lower oil and natural gas prices (which pressures we believe have begun to moderate).

As we continue to expand our store base, we believe there are opportunities for increased leverage in costs, such as administrative expenses, as well as increased economies of scale in sourcing products. However, due to our commitment to providing high-quality products at affordable prices and increased competition, such sourcing economies and efficiencies at our bulk food repacking facility and distribution center may not be reflected in our gross margin in the near term. In addition, our ability to leverage costs may be limited due to the fixed nature of our rent obligations and related occupancy expenses.

Our operating results may be affected by the above-described factors as well as a variety of other internal and external factors and trends described more fully in the section “Risk Factors” contained in our Form 10-K.

Key Financial Metrics in Our Business

In assessing our performance, we consider a variety of performance and financial measures. The key measures are as follows:

Net sales

Our net sales are comprised of gross sales net of discounts, in-house coupons and returns and allowances. In comparing net sales between periods we monitor the following:

Change in comparable store sales. We begin to include sales from a store in comparable store sales on the first day of the thirteenth full month following the store’s opening. We monitor the percentage change in comparable store sales by comparing sales from all stores in our comparable store base for a reporting period against sales from the same stores for the same number of operating months in the comparable reporting period of the prior year. When a store that is included in comparable store sales is remodeled or relocated, we continue to consider sales from that store to be comparable store sales. Our comparable store sales data may not be presented on the same basis as our competitors. We use the term “new stores” to refer to stores that have been open for less than thirteen months.

Table Of Contents

Change in daily average comparable store sales. Daily average comparable store sales are comparable store sales divided by the number of selling days in each period. We use this metric to remove the effect of differences in the number of selling days we are open during the comparable periods (for example, as a result of leap years or the Easter holiday shift between quarters).

Change in mature store sales. We begin to include sales from a store in mature store sales after the store has been open for any part of five fiscal years (for example, our mature stores for fiscal year 2016 are stores that opened during or before fiscal year 2011). We monitor the percentage change in mature store sales by comparing sales from all stores in our mature store base for a reporting period against sales from the same stores for the same number of operating months in the comparable reporting period of the prior year. When a store that is included in mature store sales is remodeled or relocated, we continue to consider sales from that store to be mature store sales. Our mature store sales data may not be presented on the same basis as our competitors.

Change in daily average mature store sales. Daily average mature store sales are mature store sales divided by the number of selling days in each period. We use this metric to remove the effect of differences in the number of selling days during the comparable periods (for example, as a result of leap years or the Easter holiday shift between quarters).

Transaction count. Transaction count represents the number of transactions reported at our stores during the period and includes transactions that are voided, return transactions and exchange transactions.

Average transaction size. Average transaction size, or basket size, is calculated by dividing net sales by transaction count for a given time period. We use this metric to track the trends in average dollars spent in our stores per customer transaction.

Cost of goods sold and occupancy costs

Our cost of goods sold and occupancy costs include the cost of inventory sold during the period (net of discounts and allowances), shipping and handling costs, distribution and supply chain costs (including the costs of our bulk food repackaging facility), buying costs, shrink expense and store occupancy costs. Store occupancy costs include rent, common area maintenance and real estate taxes. Depreciation expense included in cost of goods sold relates to depreciation of assets directly used at our bulk food repackaging facility. The components of our cost of goods sold and occupancy costs may not be identical to those of our competitors, and as a result, our cost of goods sold and occupancy costs data included in this Form 10-Q may not be comparable to similar data made available by our competitors. Occupancy costs as a percentage of sales typically decrease as new stores mature and increase sales. We do not record in costs of goods sold and occupancy costs rent payments for leases classified as capital and financing lease obligations. Rather, these rent payments are recognized as a reduction of the related obligations and as interest expense. Additionally, depreciation expense related to the capitalized asset is recorded in store expenses.

Gross profit and gross margin

Gross profit is equal to our net sales less our cost of goods sold and occupancy costs. Gross margin is gross profit as a percentage of net sales. Gross margin is impacted by changes in retail prices, product costs, occupancy costs, and the mix of products sold, as well as the rate at which we open new stores.

Store expenses

Store expenses consist of store level expenses, such as salary and benefits, share-based compensation, supplies, utilities, depreciation, advertising, bank credit card charges and other related costs associated with operations and purchasing support. Depreciation expense included in store expenses relates to depreciation for assets directly used at the stores, including depreciation on capitalized real estate leases, land improvements, leasehold improvements, fixtures and equipment and computer hardware and software. Additionally, store expenses include any gain or loss recorded on the disposal of fixed assets, primarily related to store relocations. The majority of store expenses are comprised of salary-related expenses which we closely manage and which typically trend with sales. Labor-related expenses as a percentage of sales tend to be higher at new stores compared to comparable stores, as new stores typically have lower sales and require a certain level of staffing in order to maintain adequate levels of customer service. As new stores increase their sales, labor related expenses as a percentage of sales typically decrease.

Table Of Contents

Administrative expenses

Administrative expenses consist of home office-related expenses, such as salary and benefits, share-based compensation, office supplies, hardware and software expenses, depreciation and amortization expense, occupancy costs (including rent, common area maintenance, real estate taxes and utilities), professional services expenses, expenses associated with our Board and other general and administrative expenses. Depreciation expense included in administrative expenses relates to depreciation for assets directly used at the home office including depreciation on land improvements, leasehold improvements, fixtures and equipment and computer hardware and software.

Pre-opening and relocation expenses

Pre-opening and relocation expenses may include rent expense, salaries, advertising, supplies and other miscellaneous costs incurred prior to the store opening. Rent expense is generally incurred from one to four months prior to a store's opening date for store leases classified as operating. For store leases classified as capital or financing leases, no pre-opening rent expense is recognized. Other pre-opening and relocation expenses are generally incurred in the 60 days prior to the store opening. Certain advertising and promotional costs associated with opening a new store may be incurred both before and after the store opens. All pre-opening and relocation costs are expensed as incurred.

Operating income

Operating income consists of gross profit less store expenses, administrative expenses and pre-opening and relocation expenses. Operating income can be impacted by a number of factors, including the timing of new store openings and store relocations, whether or not a store lease is classified as an operating, capital or financing lease, as well as fluctuations in store expenses and administrative expenses. The amount of time it takes for new stores to become profitable can vary depending on a number of factors, including location, competition, a new market versus an existing market and the strength of store management.

Interest expense

Interest expense consists of the interest associated with capital and financing lease obligations and interest we incur on outstanding indebtedness, including under our Credit Facility, all net of capitalized interest.

Table Of Contents**Results of Operations**

The following table presents key components of our results of operations expressed as a percentage of net sales for the periods presented:

	Three months ended June 30,		Nine months ended June 30,	
	2016	2015	2016	2015
Statements of Income Data:*				
Net sales	100.0%	100.0	100.0	100.0
Cost of goods sold and occupancy costs	71.6	70.9	71.2	70.7
Gross profit	28.4	29.1	28.8	29.3
Store expenses	22.4	21.1	21.9	21.0
Administrative expenses	2.7	2.7	2.8	2.7
Pre-opening and relocation expenses	1.1	0.7	0.8	0.5
Operating income	2.2	4.6	3.3	5.0
Interest expense	(0.4)	(0.5)	(0.4)	(0.5)
Income before income taxes	1.8	4.1	2.9	4.5
Provision for income taxes	(0.3)	(1.3)	(1.0)	(1.6)
Net income	1.5 %	2.7	1.9	2.9

**Figures may not sum due to rounding.*

Number of stores at end of period	118	99	118	99
Number of stores opened during the period	6	4	15	12
Total store unit count increase period over period	19.2%	17.9	19.2	17.9
Change in comparable store sales	1.8	5.8	2.1	5.8
Change in daily average comparable store sales	0.7	5.8	1.8	5.8
Change in mature store sales	(0.2)	2.3	(0.4)	2.6
Change in daily average mature store sales	(1.3)	2.3	(0.8)	2.6

Three months ended June 30, 2016 compared to the three months ended June 30, 2015

The following table summarizes our results of operations and other operating data for the periods presented, dollars in thousands:

	Three months ended		Change In		
	June 30, 2016	2015	Dollars	Percent	
Statements of Income Data:					
Net sales	\$ 179,274	158,650	20,624	13.0	%
Cost of goods sold and occupancy costs	128,344	112,508	15,836	14.1	
Gross profit	50,930	46,142	4,788	10.4	
Store expenses	40,095	33,508	6,587	19.7	
Administrative expenses	4,813	4,322	491	11.4	
Pre-opening and relocation expenses	2,007	1,078	929	86.3	
Operating income	4,015	7,234	(3,219)	(44.5)	
Interest expense	(768)	(768)	—	(0.1)	
Income before income taxes	3,247	6,466	(3,219)	(49.8)	
Provision for income taxes	(567)	(2,121)	1,554	(73.3)	
Net income	\$2,680	4,345	(1,665)	(38.3)	

Net sales

Net sales increased \$20.6 million, or 13.0%, to \$179.3 million for the three months ended June 30, 2016 compared to \$158.7 million for the three months ended June 30, 2015, primarily due to a \$17.7 million increase in sales from new stores and a \$2.9 million, or 1.8%, increase in comparable store sales. Daily average comparable store sales increased 0.7% for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015. The daily average comparable store sales increase resulted from a 0.7% increase in average transaction size; daily average transaction count remained flat quarter over quarter. Comparable store average transaction size was \$35.39 for the three months ended June 30, 2016. Daily average mature store sales decreased 1.3% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. The rate of growth in our comparable store sales has moderated in part due to the impact of increased competition in the natural and organic sector and internally generated competition due to opening new stores in our existing markets. To a lesser extent, we experienced economic pressures in several of the markets we serve due to lower oil and natural gas prices (which pressures we believe have begun to moderate).

Table Of Contents

Gross profit

Gross profit increased \$4.8 million, or 10.4%, to \$50.9 million for the three months ended June 30, 2016 compared to \$46.1 million for the three months ended June 30, 2015, primarily driven by an increase in the number of comparable stores. Gross profit was positively impacted in the three months ended June 30, 2016 by one more selling day compared to the same period in 2015 due to the occurrence of Easter in March 2016 as compared to April 2015. Gross margin decreased to 28.4% for the three months ended June 30, 2016 from 29.1% for the three months ended June 30, 2015. Gross margin was negatively impacted by an increase in occupancy costs as a percentage of sales, primarily due to higher average lease expenses at newer and relocated stores. The increase in occupancy cost as a percentage of sales also reflects the decrease in mature store sales combined with the fixed nature of our rent obligations and related occupancy expenses. Additionally, gross margin was negatively impacted by increased shrink expense, partially offset by product margin improvements across most categories, all as a percentage of sales.

We had 15 and 13 store leases that were classified as capital and financing lease obligations for the three months ended June 30, 2016 and 2015, respectively. If these leases had qualified as operating leases, the straight-line rent expense would have been included in occupancy costs, and our costs of goods sold and occupancy costs as a percentage of sales during the three months ended June 30, 2016 and 2015, would have each been approximately 55 basis points higher, respectively, than as reported.

Store expenses

Store expenses increased \$6.6 million, or 19.7%, to \$40.1 million for the three months ended June 30, 2016 compared to \$33.5 million for the three months ended June 30, 2015. Store expenses as a percentage of sales were 22.4% and 21.1% for the three months ended June 30, 2016 and 2015, respectively. The increase in store expenses as a percentage of sales was primarily due to increases in salary-related expenses, depreciation and other store expenses.

Administrative expenses

Administrative expenses increased \$0.5 million, or 11.4%, to \$4.8 million for the three months ended June 30, 2016 compared to \$4.3 million for the three months ended June 30, 2015. The increase in administrative expenses was primarily due to the addition of senior management positions to support our growth, together with legal and public company costs. Administrative expenses as a percentage of sales was 2.7% for each of the three months ended June 30, 2016 and 2015.

Pre-opening and relocation expenses

Pre-opening and relocation expenses increased \$0.9 million, or 86.3%, for the three months ended June 30, 2016 to \$2.0 million compared to \$1.1 million for the three months ended June 30, 2015, due to the impact of the number and timing of new store openings and relocations. We opened six new stores and relocated one existing store during the three months ended June 30, 2016 and opened four new stores during the three months ended June 30, 2015.

Additionally, we incurred heightened pre-opening expenses as we prepared to open eight new stores during the fourth quarter of fiscal 2016. Pre-opening and relocation expenses as a percentage of sales were 1.1% and 0.7% for the three months ended June 30, 2016 and 2015, respectively.

Interest expense

Interest expense, net of capitalized interest, decreased less than \$0.1 million, or 0.1%, for the three months ended June 30, 2016 compared to the three months ended June 30, 2015, primarily due to an increase in capitalized interest, offset by higher average borrowings under our Credit Facility during the three months ended June 30, 2016. If the capital and financing lease obligations had qualified as operating leases, interest expense as a percent of sales would have been approximately 35 and 50 basis points lower than as reported for the three months ended June 30, 2016 and 2015, respectively.

Income taxes

Our effective income tax rate for the three months ended June 30, 2016 and 2015 was 17.5% and 32.8%, respectively. The decrease in the effective income tax rate was driven by a revision in our estimated annual federal tax rate from 35% to 34% and federal and state tax credits in our fiscal 2015 tax return that were higher than previously estimated in the provision for the three months ended June 30, 2016.

Table Of Contents*Net income*

Net income was \$2.7 million, or \$0.12 diluted earnings per share, for the three months ended June 30, 2016 compared to \$4.3 million, or \$0.19 diluted earnings per share, for the three months ended June 30, 2015.

Nine months ended June 30, 2016 compared to the nine months ended June 30, 2015

The following table summarizes our results of operations and other operating data for the periods presented, dollars in thousands:

	Nine months ended		Change In		
	June 30, 2016	2015	Dollars	Percent	
Statements of Income Data:					
Net sales	\$524,455	462,281	62,174	13.4	%
Cost of goods sold and occupancy costs	373,627	326,975	46,652	14.3	
Gross profit	150,828	135,306	15,522	11.5	
Store expenses	114,768	97,018	17,750	18.3	
Administrative expenses	14,503	12,705	1,798	14.2	
Pre-opening and relocation expenses	4,399	2,525	1,874	74.2	
Operating income	17,158	23,058	(5,900)	(25.6)	
Interest expense	(2,154)	(2,217)	63	(2.9)	
Income before income taxes	15,004	20,841	(5,837)	(28.0)	
Provision for income taxes	(4,999)	(7,529)	2,530	(33.6)	
Net income	\$10,005	13,312	(3,307)	(24.8)	

Net sales

Net sales increased \$62.2 million, or 13.4%, to \$524.5 million for the nine months ended June 30, 2016 compared to \$462.3 million for the nine months ended June 30, 2015, primarily due to a \$52.4 million increase in sales from new stores and a \$9.8 million, or 2.1%, increase in comparable store sales. Daily average comparable store sales increased 1.8% for the nine months ended June 30, 2016 as compared to the nine months ended June 30, 2015. The daily average comparable store sales increase was primarily driven by a 1.1% increase in average transaction size and a 0.7% increase in daily average transaction count. Comparable store average transaction size was \$36.11 for the nine months ended June 30, 2016. Daily average mature store sales decreased 0.8% for the nine months ended June 30,

2016 as compared to the nine months ended June 30, 2015. The rate of growth in our comparable store sales has moderated in part due to the impact of increased competition in the natural and organic sector and internally generated competition due to opening new stores in our existing markets. To a lesser extent, we experienced economic pressures in several of the markets we serve due to lower oil and natural gas prices (which pressures we believe have begun to moderate).

Gross profit

Gross profit increased \$15.5 million, or 11.5%, to \$150.8 million for the nine months ended June 30, 2016 compared to \$135.3 million for the nine months ended June 30, 2015, primarily driven by positive comparable store sales and an increase in the number of comparable stores. Gross profit was positively impacted in the nine months ended June 30, 2016 by one more selling day compared to the same period in 2015 due to the occurrence of leap year in fiscal 2016. Gross margin decreased to 28.8% for the nine months ended June 30, 2016 from 29.3% for the nine months ended June 30, 2015. Gross margin for the nine months ended June 30, 2016 was negatively impacted by an increase in occupancy costs as a percentage of sales. The increase in occupancy costs as a percentage of sales was primarily due to higher average lease expenses at newer and relocated stores, and also reflects the decrease in mature store sales and the fixed nature of our rent obligations and related occupancy expenses. Additionally, product margin improved across most categories, offset by increased shrink expense, all as a percentage of sales.

We had 15 and 13 leases for stores that were classified as capital and financing lease obligations for the nine months ended June 30, 2016 and 2015, respectively. If these leases had qualified as operating leases, the straight-line rent expense would have been included in occupancy costs, and our costs of goods sold and occupancy costs as a percentage of sales would have been approximately 55 basis points higher for each of the nine months ended June 30, 2016 and 2015, respectively, rather than as reported.

Store expenses

Store expenses increased \$17.8 million, or 18.3%, to \$114.8 million for the nine months ended June 30, 2016 from \$97.0 million for the nine months ended June 30, 2015. Store expenses as a percentage of sales were 21.9% and 21.0% for the nine months ended June 30, 2016 and 2015, respectively. The increase in store expenses as a percentage of sales was primarily due to increases in salary-related expenses, depreciation and other store expenses.

Table Of Contents

Administrative expenses

Administrative expenses increased \$1.8 million, or 14.2%, to \$14.5 million for the nine months ended June 30, 2016 compared to \$12.7 million for the nine months ended June 30, 2015, primarily due to the addition of senior management positions to support our growth, together with legal and public company costs. Administrative expenses as a percentage of sales was 2.8% and 2.7% for the nine months ended June 30, 2016 and 2015, respectively.

Pre-opening and relocation expenses

Pre-opening and relocation expenses increased \$1.9 million, or 74.2%, to \$4.4 million for the nine months ended June 30, 2016 compared to \$2.5 million for the nine months ended June 30, 2015, due to the impact of the number and timing of new store openings and relocations. We opened 15 new stores, relocated three stores and remodeled one store during the nine months ended June 30, 2016 and opened 12 new stores during the nine months ended June 30, 2015. Additionally, we incurred heightened pre-opening expenses as we prepared to open eight new stores during the fourth quarter of fiscal 2016. Pre-opening and relocation expenses as a percentage of sales were 0.8% and 0.5% for the nine months ended June 30, 2016 and 2015, respectively.

Interest expense

Interest expense, net of capitalized interest, decreased less than \$0.1 million, or 2.9%, for the nine months ended June 30, 2016 compared to the nine months ended June 30, 2015, primarily due to an increase in capitalized interest, partially offset by an increase in interest expense associated with our Credit Facility due to higher average borrowings during the nine months ended June 30, 2016. If the capital and financing lease obligations had qualified as operating leases, interest expense as a percentage of sales would have been approximately 35 and 50 basis points lower than as reported for the nine months ended June 30, 2016 and 2015, respectively.

Income taxes

Our effective income tax rate for the nine months ended June 30, 2016 and 2015 was 33.3% and 36.1%, respectively. The decrease in the effective income tax rate was driven by a revision in our estimated annual federal tax rate from 35% to 34% and federal and state tax credits in our fiscal 2015 tax return that were higher than previously estimated in the provision for the nine months ended June 30, 2016.

Net income

Net income was \$10.0 million, or \$0.44 diluted earnings per share, for the nine months ended June 30, 2016 compared to \$13.3 million, or \$0.59 diluted earnings per share, for the nine months ended June 30, 2015.

Non-GAAP financial measures

EBITDA

EBITDA is not a measure of financial performance under GAAP. We define EBITDA as net income before interest expense, provision for income taxes and depreciation and amortization.

EBITDA decreased 17.7% to \$10.4 million in the three months ended June 30, 2016 compared to \$12.6 million for the three months ended June 30, 2015. EBITDA decreased 7.3% to \$35.8 million in the nine months ended June 30, 2016 compared to \$38.6 million for the nine months ended June 30, 2015. EBITDA as a percent of sales was 5.8% and 8.0% in the three months ended June 30, 2016 and 2015, respectively. EBITDA as a percent of sales was 6.8% and 8.3% in the nine months ended June 30, 2016 and 2015, respectively. Stores with leases that are classified as capital and financing lease obligations, rather than being reflected as operating leases, increased EBITDA as a percentage of sales by approximately 55 basis points in each of the three months ended June 30, 2016 and 2015, respectively, and by approximately 55 basis points in each of the nine months ended June 30, 2016 and 2015, respectively, due to the impact on cost of goods sold and occupancy costs as discussed above, as well as occupancy costs that would have been included in pre-opening expenses prior to the stores' opening dates if these leases had been accounted for as operating leases.

We believe EBITDA provides additional information about: (i) our operating performance, because it assists us in comparing the operating performance of our stores on a consistent basis, as it removes the impact of non-cash depreciation and amortization expense as well as items not directly resulting from our core operations such as interest expense and income taxes and (ii) our performance and the effectiveness of our operational strategies. Additionally, EBITDA is a component of a measure in our financial covenants under the Credit Facility. Further, our incentive compensation plans base incentive compensation payments on EBITDA.

Table Of Contents

Furthermore, management believes some investors use EBITDA as a supplemental measure to evaluate the overall operating performance of companies in our industry. Management believes that some investors' understanding of our performance is enhanced by including this non-GAAP financial measure as a reasonable basis for comparing our ongoing results of operations. By providing this non-GAAP financial measure, together with a reconciliation from net income, we believe we are enhancing analysts' and investors' understanding of our business and our results of operations, as well as assisting analysts and investors in evaluating how well we are executing our strategic initiatives. Our competitors may define EBITDA differently, and as a result, our measure of EBITDA may not be directly comparable to EBITDA of other companies. Items excluded from EBITDA are significant components in understanding and assessing financial performance. EBITDA is a supplemental measure of operating performance that does not represent, and should not be considered as an alternative to, or substitute for, net income or other financial statement data presented in our consolidated financial statements as indicators of our financial performance. EBITDA has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of the limitations are:

EBITDA does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

EBITDA does not reflect any impact for straight-line rent expense for leases classified as capital and financing lease obligations;

EBITDA does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments on our debt;

EBITDA does not reflect our tax expense or the cash requirements to pay our taxes; and

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future and EBITDA does not reflect any cash requirements for such replacements.

Due to these limitations, EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using EBITDA as supplemental information.

The following table reconciles net income to EBITDA for the periods presented, dollars in thousands:

	Three months ended June 30,		Nine months ended June 30,	
	2016	2015	2016	2015
Net income	\$2,680	4,345	10,005	13,312
Interest expense	768	768	2,154	2,217
Provision for income taxes	567	2,121	4,999	7,529
Depreciation and amortization	6,380	5,402	18,617	15,532
EBITDA	\$10,395	12,636	35,775	38,590

Liquidity and Capital Resources

On January 28, 2016, the Company entered into a new \$30.0 million credit agreement (the Credit Facility). On May 10, 2016, the operating company entered into an amendment to the Credit Facility pursuant to which the amount available for borrowing thereunder was increased from \$30.0 million to \$45.0 million (including a \$5.0 million sublimit for standby letters of credit). Our ongoing primary sources of liquidity are cash generated from operations, current balances of cash and cash equivalents and borrowings under the Credit Facility.

Our primary uses of cash are for purchases of inventory, operating expenses, capital expenditures predominantly in connection with opening, relocating and remodeling stores, interest and principal payments for outstanding indebtedness and corporate taxes.

As of June 30, 2016, we had \$2.7 million in cash and cash equivalents, as well as \$25.2 million available for borrowing under the Credit Facility.

Table Of Contents

On May 5, 2016, our Board authorized a new two-year share repurchase program pursuant to which the Company may expend up to \$10.0 million to repurchase shares of the Company's common stock. During the three months ended June 30, 2016, we purchased 10,300 shares of our common stock for approximately \$0.1 million (an average price of \$13.46 per share) under the share repurchase program. We expect funding of share repurchases will come from operating cash flow, excess cash and/or borrowings under the Credit Facility. The timing and the amount of shares purchased will be dictated by our capital needs and stock market conditions.

We plan to continue to open new stores, which has previously required, and may continue to require, us to borrow additional amounts under the Credit Facility. We plan to spend approximately \$13.0 million to \$15.0 million on capital expenditures during the remainder of fiscal year 2016 in connection with our 8 planned new store openings and one store relocation. We believe that cash and cash equivalents, together with the cash generated from operations and the borrowing availability under our Credit Facility, will be sufficient to meet our working capital needs and planned capital expenditures, including capital expenditures related to new store needs for at least the next twelve months. Our working capital position benefits from the fact that we generally collect cash from sales to customers the same day or, in the case of credit or debit card transactions, within days of the related sale.

We anticipate that our new stores will require, on average, an upfront capital investment of approximately \$2.2 million per store consisting of capital expenditures of approximately \$1.7 million, net of tenant allowances, initial inventory of approximately \$0.3 million, net of payables, and pre-opening expenses of approximately \$0.2 million.

Following is a summary of our operating, investing and financing activities for the periods presented, dollars in thousands:

	Nine months ended	
	June 30, 2016	2015
Net cash provided by operating activities	\$20,732	29,221
Net cash used in investing activities	(39,290)	(30,395)
Net cash provided by (used in) financing activities	18,346	(705)
Net decrease in cash and cash equivalents	(212)	(1,879)
Cash and cash equivalents, beginning of period	2,915	5,113
Cash and cash equivalents, end of period	\$2,703	3,234

Operating Activities

Net cash provided by operating activities consists primarily of net income adjusted for non-cash items, including depreciation and amortization and changes in deferred taxes, and the effect of working capital changes. Cash provided by operating activities decreased \$8.5 million, or 29.1%, to \$20.7 million for the nine months ended June 30, 2016, compared to \$29.2 million for the nine months ended June 30, 2015. The decrease in cash provided by operating activities was primarily due to a decrease in net income, as adjusted for non-cash items such as depreciation and amortization resulting from the addition of new stores and deferred tax expense as well as changes in working capital driven by the timing of payment on inventory and other purchases. Our working capital requirements for inventory will likely continue to increase as we continue to open new stores.

Investing Activities

Net cash used in investing activities increased \$8.9 million, or 29.3%, to \$39.3 million for the nine months ended June 30, 2016 compared to \$30.4 million for the nine months ended June 30, 2015 due to a \$14.5 million increase in cash paid for property and equipment, which was driven by the timing of new store openings, relocations and remodels, partially offset by a decrease in the payment for acquisition.

Financing Activities

Cash provided by financing activities consists primarily of borrowings and repayments under our Credit Facility and payments of capital and financing lease obligations. Cash provided by financing activities was \$18.3 million for the nine months ended June 30, 2016, compared to cash used in financing activities of \$0.7 million for the nine months ended June 30, 2015. The increase in cash provided by financing activities for the nine months ended June 30, 2016 compared to the nine months ended June 30, 2015 was primarily due to net borrowings of \$18.8 million under our Credit Facility during the nine months ended June 30, 2016.

Credit Facility

On January 28, 2016, the Company entered into the Credit Facility. The operating company is the borrower under the Credit Facility and its obligations under the Credit Facility are guaranteed by the holding company and VC2. The Credit Facility is secured by a lien on substantially all of the Company's assets.

Table Of Contents

On May 10, 2016, the operating company entered into an amendment to the Credit Facility, pursuant to which the amount available for borrowing thereunder was increased from \$30.0 million to \$45.0 million (including a \$5.0 million sublimit for standby letters of credit). The Company has the ability to increase the amount available for borrowing by an additional amount that may not exceed \$5.0 million if the existing lenders or other eligible lenders agree to provide an additional commitment or commitments. The Company has the right to borrow, prepay and re-borrow amounts under the Credit Facility at any time prior to the maturity date. The Credit Facility matures on January 31, 2021.

For floating rate borrowings under the Credit Facility, interest is determined by the lender's administrative agent based on the most recent compliance certificate of the operating company and stated at the base rate less the lender spread based upon certain financial measures. For fixed rate borrowings under the Credit Facility, interest is determined by quoted LIBOR rates for the interest period plus the lender spread based upon certain financial measures. The unused commitment fee is based upon certain financial measures.

The Credit Facility requires compliance with certain customary operational and financial covenants, including a leverage ratio. The Credit Facility also contains certain other customary limitations on the Company's ability to incur additional debt, guarantee other obligations, grant liens on assets and make investments or acquisitions, among other limitations. Additionally, the Credit Facility prohibits the payment of cash dividends to the holding company from the operating company without the administrative agent's consent, except when no default or event of default exists. If no default or event of default exists, dividends are allowed for various audit, accounting, tax, securities, indemnification, reimbursement, insurance and other reasonable expenses incurred in the ordinary course of business, including cash dividends to the holding company for the repurchase of shares of common stock in an amount not to exceed \$10.0 million.

At the same time it entered into the Credit Facility, the Company terminated its prior credit agreement (the Prior Credit Facility).

The Company had \$18.8 million outstanding under the Credit Facility as of June 30, 2016 and zero outstanding under the Prior Credit Facility as of September 30, 2015. As of June 30, 2016 the Company had undrawn, issued and outstanding letters of credit of \$1.0 million, which were reserved against the amount available for borrowing under the terms of the Credit Facility. As of September 30, 2015, the Company had undrawn, issued and outstanding letters of credit of \$1.0 million, which were reserved against the amount available for borrowing under the terms of the Prior Credit Facility. The Company had \$25.2 million available for borrowing under the Credit Facility as of June 30, 2016 and \$14.0 million available for borrowing under the Prior Credit Facility as of September 30, 2015.

As of June 30, 2016, the Company was in compliance with the debt covenants under the Credit Facility. As of September 30, 2015, the Company was in compliance with the debt covenants under the Prior Credit Facility.

Share Repurchases

Certain information about the Company's share repurchases is set forth under the heading "Share Repurchases" in Note 5 of Notes to Unaudited Interim Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q and in Part II, Item 2 of this Form 10-Q.

Contractual Obligations

The following table summarizes our contractual obligations as of June 30, 2016, dollars in thousands:

	Payments Due by Period				
	Total	Less than 1 year	1 - 3 years	3 - 5 years	More than 5 years
Operating leases (1)	\$485,237	33,916	74,672	71,398	305,251
Capital and financing lease obligations, including principal and interest payments (2)	46,495	3,789	7,642	7,714	27,350
Contractual obligations for construction related activities (3)	2,221	2,221	—	—	—
Debt obligations (4)	18,827	—	—	18,827	—
Interest payments (5)	1,340	292	584	464	—
	\$554,120	40,218	82,898	98,403	332,601

Table Of Contents

(1) Represents the minimum lease payments due under our operating leases, excluding annual common area maintenance, insurance and taxes related to our operating lease obligations.

(2) Represents the payments due under our capital and financing lease obligations for 15 stores, all of which were open as of June 30, 2016. We do not record rent expense for these capital leases, but rather rental payments under the capital leases are recognized as a reduction of the capital and financing lease obligations and interest expense.

(3) Contractual obligations for construction-related activities include future payments to general contractors that are legally binding as of June 30, 2016 and relate to new store construction, relocations and remodels.

(4) Represents the outstanding balance on our Credit Facility as of June 30, 2016. For purposes of this table, the outstanding balance was considered outstanding until January 31, 2021, which is the maturity date of the Credit Facility.

(5) In order to calculate future interest payments during the remaining term of our Credit Facility, current amounts were considered outstanding until January 31, 2021, which is the maturity date of the Credit Facility.

We periodically make other commitments and become subject to other contractual obligations that we believe to be routine in nature and incidental to the operation of the business. Management believes that such routine commitments and contractual obligations do not have a material impact on our business, financial condition or results of operations.

Off-Balance Sheet Arrangements

As of June 30, 2016, our off-balance sheet arrangements consisted of operating leases and the undrawn portion of our Credit Facility. All of our stores and facilities, with one exception, are leased. We own two stores that are located on leased property. As of June 30, 2016, 15 store leases were classified as capital and financing lease obligations, and the remaining leases were classified as operating leases in our consolidated financial statements. We have no other off-balance sheet arrangements that have had, or are reasonably likely to have, a material effect on our consolidated financial statements or financial condition.

Recent Accounting Pronouncements

See Note 2 to the consolidated financial statements included in this Form 10-Q.

Critical Accounting Policies

The preparation of our consolidated financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures of contingent assets and liabilities. Actual amounts may differ from these estimates. We base our estimates on historical experience and on various other assumptions and factors that we believe to be reasonable under the circumstances. We evaluate our accounting policies and resulting estimates on an ongoing basis to make adjustments we consider appropriate under the facts and circumstances.

Critical accounting policies that affect our more significant judgments and estimates used in the preparation of our financial statements include accounting for income taxes, accounting for impairment of long-lived assets and accounting for leases, which are discussed in more detail under the caption “Critical Accounting Policies” under Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” in our Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to interest rate changes of our long-term debt, and, to a limited extent, our Credit Facility. We do not use financial instruments for trading or other speculative purposes. There have been no material changes regarding our market risk position from the information provided under Item 7A, “Quantitative and Qualitative Disclosures about Market Risk” in our Form 10-K.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our principal executive officers and principal financial and accounting officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act, as of the end of the period covered by this Form 10-Q. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Table Of Contents

Based on that evaluation, our principal executive officers and principal financial and accounting officer concluded that our disclosure controls and procedures were effective as of June 30, 2016.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. Other Information

Item 1. Legal Proceedings

We periodically are involved in various legal proceedings, including discrimination and other employment-related claims, customer personal injury claims, investigations and other proceedings arising in the ordinary course of business. When the potential liability from a matter can be estimated and the loss is considered probable, we record the estimated loss. Due to uncertainties related to the resolution of lawsuits, investigations and claims, the ultimate outcome may differ from our estimates. Although we cannot predict with certainty the ultimate resolution of any lawsuits, investigations and claims asserted against us, we do not believe any currently pending legal proceeding to which we are a party will have a material adverse effect on our business, prospects, financial condition, cash flows or results of operations.

In *Bernhard Engl v. Natural Grocers by Vitamin Cottage, Inc. and Vitamin Cottage Natural Food Markets, Inc.*, filed on September 25, 2015 in the United States District Court for the District of Colorado, the plaintiff filed a lawsuit against the Company in connection with a data security incident that affected the Company during fiscal year 2015. The complaint purports to state an action on behalf of a class of customers who used debit or credit cards at our stores. We believe the plaintiff's claims are without merit and intend to vigorously defend ourselves in this proceeding. On June 20, 2016, a Magistrate Judge of the United States District Court for the District of Colorado issued a Recommendation and Order dismissing the plaintiff's complaint without prejudice. At this time, we cannot predict: (i) whether the Court will affirm the Magistrate Judge's Recommendation and Order; (ii) whether, if the Court affirms the Magistrate Judge's Recommendation and Order, the plaintiff will appeal such ruling; or (iii) the scope of the potential loss in the event of an adverse outcome.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in Part I, “Item 1A-Risk Factors,” of our Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table presents information with respect to purchases of the Company’s common stock during the quarter ended June 30, 2016 by the Company or any affiliated purchaser, as defined in Rule 10b-18(a)(3) under the Exchange Act.

Period	Total Number of Shares Purchased	Average Price Paid Per Share ⁽¹⁾	Total Number of Shares	Approximate Dollar Value of
			Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Shares that May Yet Be Purchased Under the Plans or Programs (<i>in thousands</i>)
May 5, 2016 to May 31, 2016	—	—	—	—
June 1, 2016 to June 30, 2016	10,300	\$ 13.46	10,300	\$ 9,861
Total	10,300	\$ 13.46	10,300	\$ 9,861

(1) Average price paid per share includes commissions paid.

(2) On May 5, 2016, our Board authorized a two-year share repurchase program pursuant to which the Company may repurchase up to \$10.0 million in shares of the Company’s common stock.
