January 24, 2011

Dear Shareholders, Managers, Directors, Partners, Counselors, Family and Friends

I would like to take this opportunity to speak to you and give you an update of this last year's company events. Even though it was only five months ago that my husband, best friend and Co-founder of the company died of cancer, the company has made tremendous growth progress this year. I am extremely proud of each and everyone that has helped the company to make such tremendous progress and even when all of us have had hard adversities to overcome as well ourselves. I am ever so grateful to each and every one who has helped the company, my family and me personally regarding all the corporate and personal matters we have had to work through this past year. The company and I would never have been able to make so much progress without the help of each and everyone of you. I am so pleased to announce the following progress we have made this past year. At this date of this Writing eMax Worldwide has:

1. Paid all the hard costs associated with the mailing of four different stock dividends to our shareholders. The stock dividends are for year 2003, 2005 and for two in year 2007. We all have our transfer agent National Stock Transfer to thank for working so diligently and proficiently to make sure that every detailed is handled perfectly. This is a very large task as for we have over 2700 shareholders and a majority of them are holding certificates so that means that over 2700 pieces of mailings had to be prepared and some that will carry four certificates, a two page letter from the company and all has to be sent with a form of registered mailing. All shareholders that held their shares in a brokerage account at time of the dividends were announced will be receiving their dividends directly to their brokerage firms.

2. Formed a new Subsidiary, New Unified Corp, to acquire operating company investments in the area of income producing real estate, oil, gas and alternative energy companies and commodity producing operations in the US. eMax Worldwide's objectives are to acquire companies that will help to put Americans back to work and produce more USA made products.

The company has currently finished preparing all corporate accounting files through the end of 2010 and is planning to be finished the auditing process with their auditors as soon as possible over the next few weeks. 5.02 SLANDEROUS AND MALICIOUS ATTACKS FROM POSTERS ON THE INVESTORSHUB.COM INVESTMENT CHAT BOARD

The company has recently been attacked for months now with sladerous and wrongful comments on an investment chat board called, <http://www.investorshub.com>. The Moderator position has been taken by a poster by the name of NXXI_08 and in doing our own due diligence, below is links to some of the articles that we have found on the board investorhub.com. Because of these findings, and months of continual malicious attacks by this board, we have decided to suggest publicly to all our shareholders to stay away form the board because of investorshub's known unethical practices.

Below is some due diligence eMax Worldwide has discovered and is now letting more people know of these findings through this 8k filing. We beleive these attacks are intentional and malicious to keep our companies market cap down and we can not understand who or why this is going on. Many people who have followed our stocks on that board have asked the company to remove the moderator that took over the board this past two months countless times with no returns messages or calls from the owners of investorshub.com. They asked for their removal because everytime someone posted due diligence proper information on our

Edgar Filing: EMAX HOLDINGS CORP - Form 8-K

company the moderator proceeded to remove the information and then ban that same poster from use of their paid subscriber service. Some have been banned for long period of times. At one time , the site had lots of reposted filing information on eMax Worldwide and their filing information but just to have all the due diligence on our company removed. These are the reasons that countless members there has asked for the moderator to be removed. During our own due diligence on investorshub we have learned that this is a real problem for many other public companies, and their shareholder postings as well. We believe investorshub, after our due diligence, doesnt care at all about these unsavory acts or the success of the public companies. The company plans to file a formal complaint to the SEC against this company and the posters that have been posting lies and untrue statements on their chat board as the very near term. In the meantime, the company has been using their websites, and other communication channels with their shareholders to announce other chat boards they can follow our company and we have placed the OTCmarkets.com link on the front page of all our corporate websites; so our shareholders can get factual due diligence materials that they need to make proper investment decisions surrounding our company's stocks timely.
