Prospectus Summary

The following summary highlights selected information contained in this prospectus supplement and the accompanying prospectus. This summary does not contain all the information that may be important to you. You should read the more detailed information contained in this prospectus supplement and the accompanying prospectus, including but not limited to, the risk factors beginning on page S-7.

Medical Transcription Billing, Corp., together with its consolidated subsidiaries (the “Company”), is a healthcare information technology company that provides a fully integrated suite of proprietary web-based solutions, together with related business services, to healthcare providers. Our integrated Software-as-a-Service (or SaaS) platform is designed to help our clients increase revenues, streamline workflows and make better business and clinical decisions, while reducing administrative burdens and operating costs. We employ a highly educated workforce of more than 1,800 people in Pakistan and Sri Lanka, where we believe labor costs are approximately one-half the cost of comparable India-based employees and one-tenth the cost of comparable U.S. employees, thus enabling us to deliver our solutions at competitive prices.

Our flagship offering, PracticePro, empowers healthcare practices with the core software and business services they need to address industry challenges on one unified SaaS platform. We deliver powerful, integrated and easy-to-use ‘big practice solutions’ to small and medium practices, which enable them to efficiently operate their businesses, manage clinical workflows and receive timely payment for their services. PracticePro consists of:

- Practice management software and related tools, which facilitate the day-to-day operation of a medical practice;
- Electronic health records (or EHR), which are easy to use, highly ranked, and allow our clients to reduce paperwork and qualify for government incentives;
- Revenue cycle management (or RCM) services, which include end-to-end medical billing, analytics, and related services; and
- Mobile Health (or mHealth) solutions, including smartphone applications that assist patients and healthcare providers in the provision of healthcare services.

Adoption of our solutions requires little or no upfront expenditure by a provider. Additionally, our financial performance is linked directly to the financial performance of our clients because the vast majority of our revenues is based on a percentage of our clients' collections. The standard fee for our complete, integrated, end-to-end solution is among the lowest in the industry.

Our offshore operations in Pakistan and Sri Lanka accounted for approximately 28% of total expenses for the six months ended June 30, 2017. A significant portion of those expenses were personnel-related costs (approximately 79% of expenses for the six months ended June 30, 2017). Personnel-related costs for comparably educated employees are significantly lower in Pakistan and Sri Lanka than in the U.S. and many other offshore locations, therefore our Pakistan and Sri Lanka operations give us a competitive advantage over many industry participants. Most of the medical billing companies that we have acquired use domestic labor or subcontractors from higher cost locations to provide all or a substantial portion of their services. We are able to achieve significant cost reductions as we leverage technology to reduce manual work and strategically transition a portion of the remaining manual tasks to our highly-specialized, cost-efficient team in the U.S., Pakistan and Sri Lanka.

Our principal executive offices are located at 7 Clyde Road, Somerset, New Jersey, 08873, and our main telephone number is (732) 873-5133.

Our Growth Strategy

Our growth strategy involves two approaches: acquiring smaller RCM companies and then migrating the clients of those companies to our solutions, as well as growing organically through referrals from industry partners and our clients. The RCM service industry is highly fragmented, with many local and regional RCM companies serving small medical practices. We believe that the industry is ripe for consolidation and that we can achieve significant growth through acquisitions. We further believe that it is becoming increasingly difficult for traditional RCM companies to meet the growing technology and business service needs of healthcare providers without a significant investment in information technology infrastructure.

We believe we will also be able to further accelerate organic growth by partnering with industry participants, utilizing them as channel partners to offer integrated solutions to their clients. We have entered into arrangements with industry participants from which we began to derive revenue starting in mid-2014, including emerging EHR providers and other healthcare vendors that lack a full suite of solutions. We have developed application interfaces with several EHR systems, as well as providers of paper-based clinical forms to create integrated offerings, together with device and lab integration.

MediGain Acquisition

On October 3, 2016, MTBC Acquisition, Corp., our wholly-owned subsidiary (“MAC”), acquired substantially all of the assets of MediGain, LLC, a Texas-based medical billing company, and its subsidiary, Millennium Practice Management Associates, LLC, a New Jersey-based medical billing company (together, “MediGain”).

Prior to MAC’s acquisition of MediGain, MediGain was experiencing client attrition and revenues were declining. We believe that the annualized revenue from MediGain clients in good standing at the time of the acquisition was at least \$10 million; however, there can be no assurance that this estimate is accurate or that revenue will not continue to decline. At the time of acquisition, MediGain employed approximately 150 U.S.-based employees, approximately 200 offshore employees in India and Sri Lanka, as well as several hundred employees of India-based subcontractors.

The Company has reduced MediGain’s expenses, through a combination of eliminating third-party subcontractors, reducing personnel expenses by leveraging technology and the Company’s specialized global team, reducing the size and cost of facilities in the U.S., reducing the need for third-party software by leveraging MTBC’s technology platform, and eliminating the need for separate administrative overhead expenses.

The total purchase price for MediGain was \$7 million, which was payable to Prudential Insurance Company of America and Prudential Retirement Insurance and Annuity Company (together, “Prudential”). MTBC made an initial \$2 million payment to Prudential at closing, and, pursuant to an amendment to the acquisition documents, the parties agreed that the remaining \$5 million would be payable in two installments: \$3 million by March 9, 2017 and \$2 million by May 15, 2017. Commencing January 3, 2017, interest began to accrue on the \$2 million portion of the remaining purchase price at a rate of 18% until paid in full; however, our agreement with Prudential does not provide for any interest on the remaining \$3 million. Our payment obligation to Prudential is neither secured by collateral, nor otherwise supported by a guarantee.

We have not yet repaid the remaining \$5 million plus accrued interest owed to Prudential, and as a result, our payment obligations to Prudential are past due. Our inability to repay the remaining purchase price is due to a lack of funds. Our existing credit agreement with Opus Bank requires us to obtain the bank’s consent prior to making any payment to Prudential. We are engaged in continuing dialogue with both Opus Bank and Prudential, and we believe that once we have raised sufficient capital, the parties will likely reach a mutually satisfactory agreement on the terms by which we would be permitted to satisfy our obligations to Prudential. Since we do not have complete control over this process, we are unable to guarantee that the parties will reach a mutually satisfactory agreement on terms, nor can we predict with certainty the modified payment terms (including the amount and timing of payments) as well as other amendments that would be acceptable to both Prudential and Opus Bank. We do believe, however, that the more

capital we raise, the sooner we will be able to satisfy our obligations to Prudential on terms acceptable to us.

On March 29, 2017 Prudential sent a written notice to us demanding payment. If we are unable to pay the balance of the consideration due to Prudential in the MediGain acquisition, Prudential may seek all possible monetary and/or equitable remedies. While our obligation to Prudential is unsecured, the Series A Preferred Stock effectively ranks junior to the amounts owed to Prudential, and if we are forced to liquidate our assets to pay Prudential and our other creditors, we may not have sufficient assets to pay amounts due on any or all of the Series A Preferred Stock then outstanding. See “Risk Factors - The Series A Preferred Stock ranks junior to all of our indebtedness and other liabilities” on page S-7. Also, our inability to make the remaining payments due in the MediGain acquisition or renegotiate these payments would have a material adverse effect on our business. See “Risk Factors – We may be unable to pay the remaining balance of the MediGain acquisition price and have difficulty paying for future acquisitions” on page S-11.
