Notes To The Financial Statements

January 31, 2013

NOTE 1 - ORGANIZATION AND NATURE OF BUSINESS

Amazonica, Corp. (the Company) was incorporated under the laws of the State of Nevada, U.S. on June 2, 2010. We are a development-stage company in the field of marketing and distributing hardwood flooring. The Company is in the development stage as defined under Statement on Financial Accounting Standards Accounting Standards Codification FASB ASC 915-205 "Development-Stage Entities . Amazonica, Corp. is in the business of distributing of Brazilian hardwood flooring. The Company has not generated any revenue to date and consequently its operations are subject to all risks inherent in the establishment of a new business enterprise. For the period from inception, June 2, 2010 through January 31, 2013 the Company has accumulated losses of \$52,037.

NOTE 2 - GOING CONCERN

The financial statements have been prepared on a going concern basis, which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of \$52,037 as of January 31, 2013 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand and loans from directors and/or private placement of common stock.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents. The Company had \$40 cash and \$-0- cash equivalents as of January 31, 2013.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign Currency Translation

The Company's functional currency and its reporting currency is the United States dollar.

Stock-based Compensation

The Company records stock based compensation in accordance with the guidance in ASC Topic 718 which requires the Company to recognize expenses related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Basic and Diluted Loss Per Share

The Company computes loss per share in accordance with ASC-260 , Earnings per Share which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive. The Company has no potential dilutive instruments and accordingly basic loss and diluted loss per share are equal.

Fiscal Periods

The Company's fiscal year end is April 30.

NOTE 4 - COMMON STOCK

The authorized capital of the Company is 75,000,000 common shares with a par value of \$ 0.001 per share. On April 5, 2011, the Company issued 3,000,000 shares of common stock at a price of \$0.001 per share for total cash proceeds of \$3,000. For the year ended April 30, 2012 the Company issued 520,000 shares of common stock at a price of \$0.04 per share for total cash proceeds of \$20,800.

There were 3,520,000 shares of common stock issued and outstanding as of January 31, 2013.

We have not generated any revenues and the only operations we have engaged in to date are developing of business plan and executing of an Exclusive Contract for Sale of Goods on April 15, 2011 with Equatorian S.A. Brazilian hardwood is manufactured from rare types of wood (such as Rose Wood, Snake Wood, Brazilian Teak, Santos Mahogany, Tigerwood, Brazilian Walnut and others). Some of the varieties of hardwood (e.g. Rosewood) have been excessively overharvested and are

no longer exported from Brazil and are now only available in North America from recycled materials such as furniture. We will also distribute products that are usually included with main product as a service kit, such as small hardwood products like: molding, glue and necessary finishing material to maintain floors.

RESULTS OF OPERATION

We are a development stage company with limited operations since our inception on June 2, 2010 to January 31, 2013. As of January 31, 2013, we had total assets of \$40 and total liabilities of \$28,277. Since our inception to January 31, 2013, we have accumulated a deficit of \$52,037. We anticipate that we will continue to incur substantial losses in the next 12 months. Our financial statements have been prepared assuming that we will continue as a going concern. We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

Nine Month Period Ended January 31, 2013 Compared to Nine Month Period Ended January 31, 2012

Our net loss for the Nine month period ended January 31, 2013 was \$30,696 compared to a net loss of \$3,729 during the Nine month period ended January 31, 2012. During the Nine month period ended January 31, 2013, we have not generated any revenue.

During the Nine month period ended January 31, 2013, we incurred general and administrative expenses of \$30,696 compared to \$3,729 incurred during the Nine month period ended January 31, 2012. General and administrative expenses incurred during the Nine month period ended January 31, 2013 were generally related to corporate overhead, financial and administrative contracted services, such as legal and accounting, developmental costs, and marketing expenses.

The weighted average number of shares outstanding was 3,520,000 for the Nine month period ended January 31, 2013.

LIQUIDITY AND CAPITAL RESOURCES

As of January 31, 2013

As of January 31, 2013, our current assets were \$40 compared to \$7,583 in current assets at April 30, 2012. As of January 31, 2013, our current liabilities were \$28,277. Current liabilities were comprised entirely of \$28,277 in advance from director.

Stockholders' equity decreased from \$2,459 as of April 30, 2012 to \$(28,237) as of January 31, 2013.

Cash Flows from Operating Activities

We have not generated positive cash flows from operating activities. For the Nine month period ended January 31, 2013, net cash flows used in operating activities was \$23,396 consisting of a net loss of \$30,696 and prepaid expenses of \$7,500. Net cash flows used in operating activities was \$52,037 for the period from inception (June 2, 2010) to January 31, 2013.

For the period from inception (June 2, 2010) to January 31, 2013, net cash provided by financing activities was \$52,077 received from proceeds from issuance of common stock and advance from director.

PLAN OF OPERATION AND FUNDING

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of our business.

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next twelve months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Quarterly Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

GOING CONCERN

The independent auditors' report accompanying our April 30, 2012 financial statements contained an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

No report required.
