APPENDIX

49 Alexander & Baldwin, Inc. | September 10-19, 2013 PARTICIPANTS IN A SOLICITATION Alexander & Baldwin, Inc. (the “Company”) and its directors and officers may be deemed to be participants in the solicitation of proxies from the Company's shareholders with respect to the special meeting of the Company's shareholders that will be held on September 24, 2013, at which shareholders will be asked to consider the proposed issuance of Company shares in connection with the proposed acquisition of GPC Holdings, Inc. (the “Proposed Transaction”). Information about the Company's directors and executive officers and their ownership of the Company's common stock is set forth in the proxy statement for the Company's Annual Meeting of Shareholders, which was filed with the SEC on April 2, 2013. Shareholders may obtain additional information regarding the interests of the Company and its directors and executive officers in the Proposed Transaction, which may be different than those of the Company's shareholders generally, by reading the proxy statement/prospectus and other relevant documents regarding the Proposed Transaction.

50 Alexander & Baldwin, Inc. | September 10-19, 2013 WHERE TO FIND ADDITIONAL INFORMATION This communication does not constitute an offer to sell or the solicitation of an offer to buy any securities or a solicitation of any vote or approval. The Company has filed a registration statement on Form S-4 that includes a proxy statement/prospectus and other relevant documents in connection with the Proposed Transaction. INVESTORS ARE URGED TO CAREFULLY READ THE PROXY STATEMENT/PROSPECTUS BECAUSE IT CONTAINS IMPORTANT INFORMATION ABOUT THE PROPOSED TRANSACTION, THE COMPANY AND GPC HOLDINGS, INC. 51 Alexander & Baldwin, Inc. | September 10-19, 2013 USE OF NON-GAAP FINANCIAL MEASURES Grace's earnings before interest, taxes, depreciation and amortization ("EBITDA") is not a measure of financial performance calculated in accordance with GAAP. EBITDA represents net income plus interest expense, income taxes, and depreciation and amortization. Adjusted EBITDA excludes non-cash impairment charges for goodwill and intangible assets related to Grace's Petroleum business and merger-related costs incurred by Grace. The GAAP financial measure that is most directly comparable to EBITDA is operating income, which represents operating revenue minus operating expenses. EBITDA does not have any standardized meaning prescribed by GAAP and, therefore, may differ from definitions of EBITDA used by other companies. EBITDA should not be considered a measure in isolation from, or a substitute for, measures prepared in accordance with GAAP. Grace management believes that the presentation of Adjusted EBITDA is useful to investors because (i) it provides useful information regarding Grace's ability to service its debt and fund capital expenditures, (ii) it is a measure that allows investors to compare Grace's operating performance with that of other companies with different capital structures or tax rates and (iii) it provides supplementary data for comparing Grace's performance to other similar

Edgar Filing: Alexander & Baldwin, Inc. - Form 425

companies. Adjusted EBITDA information for Grace's Petroleum Businesses and the Grace Businesses are also shown separately because the Petroleum Businesses will be distributed to Grace Holdings shareholders prior to the merger and, consequently, will not be acquired by A&B. The following slide presents Grace's Adjusted EBITDA measure for the periods indicated.

52 Alexander & Baldwin, Inc. | September 10-19, 2013 RECONCILIATION OF GRACE'S NET INCOME TO ADJUSTED EBITDA DOLLARS IN MILLIONS

Adjusted EBITDA--Grace businesses	23.9	21.1	31.8

Grace's financial results are subject to seasonal changes, including the impact that weather can have on aggregate production and tonnage of asphalt sold/paved. As a result, the highest sales volume normally occurs in the third and fourth quarters of Grace's fiscal year, which correspond to lower levels of precipitation in Hawaii during the months of April through September. Grace's twelve month trailing Adjusted EBITDA through June 30, 2013 was \$34.6 million.

53 Alexander & Baldwin, Inc. | September 10-19, 2013 USE OF NON-GAAP FINANCIAL MEASURES Alexander & Baldwin, Inc. reports net income and operating profit in accordance with GAAP and on a non-GAAP basis. Reconciliations of the Company's GAAP to non-GAAP financial measures for the years ended December 31, 2012, 2011, 2010, 2009 and 2008 and six months ended June 30, 2013 are presented on the next slide. The Company uses these non-GAAP financial measures when evaluating operating performance because management believes that the exclusion from net income of 1) one-time advisory, legal, equity conversion and other expenses that were incurred to acquire Grace Pacific Corporation and to effect the separation of the Company from Matson, Inc., and 2) the reduction in carrying values of two of the Company's Mainland development projects that do not align with the Company's post-separation focus on Hawaii real estate development, provides insight into the Company's core operating results, future cash flow generation, and the underlying business trends affecting performance on a consistent and comparable basis from period to period. A&B provides this information to investors as an additional means of evaluating ongoing core operations. The non-GAAP financial information presented herein should be considered supplemental to, and not as a substitute for, or superior to, financial

measures calculated in accordance with GAAP.

55 Alexander & Baldwin, Inc. | September 10-19, 2013 USE OF NON-GAAP FINANCIAL MEASURES The Company presents NOI, which is a non-GAAP measure derived from real estate revenues (determined in accordance with GAAP, less straight-line rental adjustments) minus property operating expenses (determined in accordance with GAAP). NOI does not have any standardized meaning prescribed by GAAP, and therefore, may differ from definitions of NOI used by other companies. NOI should not be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of the Company's financial performance, or as an alternative to cash flow from operating activities as a measure of the Company's liquidity. NOI is commonly used as a measure of operating performance because it is an indicator of the return on property investment, and provides a method of comparing property performance over time. NOI excludes general and administrative expenses, straight-line rental adjustments, interest income, interest expense, depreciation and amortization, and gains on sales of interests in real estate. The Company believes that the Real Estate Leasing segment's operating profit after subtracting discontinued operations is the most directly comparable GAAP measurement to NOI. A required reconciliation of Real Estate Leasing operating profit to Real Estate Leasing segment NOI is

presented on the next slide.
