CAUTIONARY STATEMENT

This Quarterly Report on Form 10-Q, including “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Item 2, contains forward-looking statements that involve risks, uncertainties and assumptions. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of Calavo Growers, Inc. and its consolidated subsidiaries (Calavo, the Company, we, us or our) may differ materially from those expressed or implied by such forward-looking statements and assumptions. All statements, other than statements of historical fact, are statements that could be deemed forward-looking statements, including, but not limited to, any projections of revenue, margins, expenses, earnings, earnings per share, tax provisions, cash flows, currency exchange rates, the impact of acquisitions or other financial items; any statements of the plans, strategies and objectives of management for future operations, including execution of restructuring and integration plans; any statements regarding current or future macroeconomic trends or events and the impact of those trends and events on Calavo and its financial performance; any statements regarding pending investigations, claims or disputes; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. Risks, uncertainties and assumptions include the impact of macroeconomic trends and events; the competitive pressures faced by Calavo's businesses; the development and transition of new products and services (and the enhancement of existing products and services) to meet customer needs; integration and other risks associated with business combinations; the hiring and retention of key employees; the resolution of pending investigations, claims and disputes; and other risks that are described herein, including, but not limited to, the items discussed in Item 1A, Risk Factors, in our Annual Report on Form 10-K for the fiscal year ended October 31, 2014, and those detailed from time to time in our other filings with the Securities and Exchange Commission. Calavo assumes no obligation and does not intend to update these forward-looking statements.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

1. Description of the business

Business

Calavo Growers, Inc. (Calavo, the Company, we, us or our), is a global leader in the avocado industry and an expanding provider of value-added fresh food. Our expertise in marketing and distributing avocados, prepared avocados, and other perishable foods allows us to deliver a wide array of fresh and prepared food products to food distributors, produce wholesalers, supermarkets, and restaurants on a worldwide basis. We procure avocados principally from California and Mexico. Through our various operating facilities, we sort, pack, and/or ripen avocados, tomatoes, pineapples and/or Hawaiian grown papayas. Additionally, we also produce salsa and prepare ready-to-eat produce and deli products.

The accompanying unaudited consolidated condensed financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all adjustments, consisting of adjustments of a normal recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows. The results of operations for interim periods are not necessarily indicative of the results that may be expected for a full year. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 2014.

Recently Adopted Accounting Pronouncements

In July 2013, the FASB issued a new accounting standard requiring the presentation of certain unrecognized tax benefits as reductions to deferred tax assets rather than as liabilities in the Consolidated Balance Sheets when a net

operating loss carryforward, a similar tax loss or a tax credit carryforward exists. The adoption of this standard had no impact on our financial statements.

Recently Issued Accounting Standards

In April 2015, the Financial Accounting Standards Board ("FASB") issued an Accounting Standards Update ("ASU") which changes the presentation of debt issuance costs in financial statements. Under the ASU, an entity presents such costs in the balance sheet as a direct deduction from the related debt liability rather than as an asset. Amortization of the costs is reported as interest expense. The amendment in this ASU will be effective for us beginning the first day of our 2016 fiscal year. Early adoption is permitted. We do not expect the adoption of these amendments to have a material impact on our financial statements.

In February 2015, the FASB issued an ASU which amends certain requirements in ASC 810 for determining whether a variable interest entity must be consolidated. The amendment in this ASU will be effective for us beginning the first day of our 2016 fiscal year. Early adoption is permitted. We do not expect the adoption of these amendments to have a material impact on our financial statements.

In May 2014, the FASB amended the existing accounting standards for revenue recognition. The amendments are based on the principle that revenue should be recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. We are required to adopt the amendments in the first quarter of fiscal 2018. Early adoption is not

Table of Contents

permitted. The amendments may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. We do not expect the adoption of these amendments to have a material impact on our financial statements.

In April 2014, the FASB issued guidance which changes the criteria for identifying a discontinued operation. The guidance limits the definition of a discontinued operation to the disposal of a component or group of components that is disposed of or is classified as held for sale and represents a strategic shift that has, or will have, a major effect on an entity's operations and financial results. We are required to adopt the guidance in the first quarter of fiscal 2016, with early adoption permitted for transactions that have not been reported in financial statements previously issued. We do not expect the adoption of this guidance to have a material impact on our financial statements.

2. Information regarding our operations in different segments

We report our operations in three different business segments: (1) Fresh products, (2) Calavo Foods, and (3) RFG. These three business segments are presented based on how information is used by our Chief Executive Officer to measure performance and allocate resources. The Fresh products segment includes all operations that involve the distribution of avocados and other fresh produce products. The Calavo Foods segment represents all operations related to the purchase, manufacturing, and distribution of prepared products, including guacamole and salsa. The RFG segment represents all operations related to the manufacturing and distribution of fresh-cut fruit, ready-to-eat vegetables, recipe-ready vegetables and deli meat products. Selling, general and administrative expenses, as well as other non-operating income/expense items, are evaluated by our Chief Executive Officer in the aggregate. We do not allocate assets, or specifically identify them to, our operating segments. The following table sets forth sales by product category, by segment (in thousands):

Inventories are stated at the lower of cost or market. We periodically review the value of items in inventory and record any necessary reserves of inventory based on our assessment of market conditions. No inventory reserve was considered necessary as of July 31, 2015 and October 31, 2014.

4. Related party transactions

Certain members of our Board of Directors market California avocados through Calavo pursuant to marketing agreements substantially similar to the marketing agreements that we enter into with other growers. During the three months ended July 31, 2015 and 2014, the aggregate amount of avocados procured from entities owned or controlled by members of our Board of Directors was \$9.1 million and \$8.0 million. During the nine months ended July 31, 2015 and 2014, the aggregate amount of avocados procured from entities owned or controlled by members of our Board of Directors was \$15.4 million and \$9.2 million. Amounts payable to these board members were \$2.9 million and \$0.6 million as of July 31, 2015 and October 31, 2014.

During the three months ended July 31, 2015 and 2014, we received \$0.1 million as dividend income from Limoneira Company (Limoneira). During the nine months ended July 31, 2015 and 2014, we received \$0.2 million as dividend income from Limoneira. In addition, we lease office space from Limoneira and paid rental expenses of \$0.1 million for the three months ended July 31, 2015 and 2014. In addition, we paid rental expenses of \$0.2 million for the nine months ended July 31, 2015 and 2014. Harold Edwards, who is a member of our Board of Directors, is the Chief Executive Officer of Limoneira Company.

During our 3rd fiscal quarter, in conjunction with another round of financing for FreshRealm, LLC (FreshRealm), we invested \$0.8 million. Based on the total number of shares issued, our ownership interest in FreshRealm decreased from

Table of Contents

approximately 50% to a total of 49.5%. Additionally, two officers of Calavo contributed \$1.8 million, in exchange for a 2.8% ownership interest, and three board of director members contributed \$0.3 million in exchange for 0.44% ownership interest.

The three previous owners and current executives of RFG have a majority ownership of certain entities that provide various services to RFG. RFG's California operating facility leases a building from LIG partners, LLC (LIG) pursuant to an operating lease. RFG's Texas operating facility leases a building from THNC, LLC (THNC) pursuant to an operating lease. Additionally, RFG sells cut produce and purchases raw materials, obtains transportation services, and shares costs for certain utilities with Third Coast Fresh Distribution (Third Coast). LIG, THNC and Third Coast are majority owned by entities owned by three employees of Calavo (former/current executives of RFG). We anticipate recording amortization expense of approximately \$0.3 million for the remainder of fiscal 2015, with \$1.2 million of amortization expense for fiscal year 2016, \$1.1 million for fiscal year 2017 and 2018, \$0.7 million for each of the fiscal year 2019, and \$0.2 million for years thereafter, through fiscal year 2023.

6. Stock-Based Compensation

In April 2011, our shareholders approved the Calavo Growers, Inc. 2011 Management Incentive Plan (the “2011 Plan”). All directors, officers, employees and consultants (including prospective directors, officers, employees and consultants) of Calavo and its subsidiaries are eligible to receive awards under the 2011 Plan. Up to 1,500,000 shares of common stock may be issued by Calavo under the 2011 Plan.

On January 20, 2015, all 12 of our non-employee directors were granted 1,750 restricted shares each (total of 21,000 shares). These shares have full voting rights and participate in dividends as if unrestricted. The closing price of our stock on such date was \$40.39. On January 1, 2016, as long as the directors are still serving on the board, these shares lose their restriction and become non-forfeitable and transferable. These shares were granted pursuant to our 2011 Management Incentive Plan. The total recognized stock-based compensation expense for these grants was \$0.2 million and \$0.5 million for the three and nine months ended July 31, 2015.

On February 6, 2015, our executive officers were granted a total of 55,394 restricted shares. These shares have full voting rights and participate in dividends as if unrestricted. The closing price of our stock on such date was \$40.17. These shares vest in one-third increments, on an annual basis, beginning January 8, 2016. These shares were granted pursuant to our 2011 Management Incentive Plan. The total recognized stock-based compensation expense for these grants was \$0.1 million and \$0.3 million for the three and nine months ended July 31, 2015. On June 15, 2015, our Chief Operating Officer/Chief Financial Officer retired from Calavo. His unvested portion of restricted stock of 12,322 shares issued in February of 2015 and January of 2014 was forfeited. As part of his retirement he was granted 12,322 shares of unrestricted stock. The closing price of our stock on such date was \$49.95. We recorded for this grant \$0.6 million of stock-based compensation expense for the three and nine months ended July 31, 2015.

Stock options are granted with exercise prices of not less than the fair market value at grant date, generally vest over one to five years and generally expire two to five years after the grant date. We settle stock option exercises with newly issued shares of common stock.

We measure compensation cost for all stock-based awards at fair value on the date of grant and recognize compensation expense in our consolidated statements of operations over the service period that the awards are expected to vest. We measure the fair value of our stock based compensation awards on the date of grant.

A summary of stock option activity, related to our 2005 Stock Incentive Plan, is as follows (in thousands, except for per share amounts):

At July 31, 2015, outstanding stock options had a weighted-average remaining contractual term of 3.3 years. At July 31, 2015, exercisable stock options had a weighted-average remaining contractual term of 2.9 years. The total recognized and unrecognized stock-based compensation expense was insignificant for the three and nine months ended July 31, 2015.

At July 31, 2015, exercisable stock options had a weighted-average remaining contractual term of 4.0 years. The total recognized and unrecognized stock-based compensation expense was insignificant for the three and nine months ended July 31, 2015.

7. Other events

Dividend payment

On December 8, 2014, we paid a \$0.75 per share dividend in the aggregate amount of \$13.0 million to shareholders of record on November 17, 2014.

Contingencies

In January 2015, various class action lawsuits, which have been consolidated into a single lawsuit during our second fiscal quarter, were initiated against the company related to the restatement of previously-issued financial statements. In the third quarter of fiscal 2015, the plaintiffs filed an amended complaint, to which we filed a motion to dismiss (MTD). In the fourth quarter of fiscal 2015, the plaintiffs filed an opposition to this MTD, to which we subsequently filed a reply to said opposition. Currently, a hearing is scheduled in October 2015. During our 3rd fiscal quarter, we incurred \$0.2 million in legal expenses related to that lawsuit. We intend to vigorously defend ourselves against this lawsuit and we do not expect that such legal claims and litigation will ultimately have a material adverse effect on our consolidated financial position or results of operations.

8. Fair value measurements

A fair value measurement is determined based on the assumptions that a market participant would use in pricing an asset or liability. A three-tiered hierarchy draws distinctions between market participant assumptions based on (i) observable inputs such as quoted prices in active markets (Level 1), (ii) inputs other than quoted prices in active markets that are observable either directly or indirectly (Level 2) and (iii) unobservable inputs that require the Company to use present value and other valuation techniques in the determination of fair value (Level 3).

Table of Contents

The following table sets forth our financial assets and liabilities as of July 31, 2015 that are measured on a recurring basis during the period, segregated by level within the fair value hierarchy:

	Level 1	Level 2	Level 3	Total
	(All amounts are presented in thousands)			
Assets at Fair Value:				
Investment in Limoneira Company(1)	\$ 35,591	-	-	\$ 35,591
Total assets at fair value	\$ 35,591	\$ -	\$ -	\$ 35,591

(1) The investment in Limoneira Company consists of marketable securities in the Limoneira Company stock. We currently own approximately 12% of Limoneira's outstanding common stock. These securities are measured at fair value by quoted market prices. Limoneira's stock price at July 31, 2015 and October 31, 2014 equaled \$20.59 per share and \$25.66 per share. Unrealized gains and losses are recognized through other comprehensive income. Unrealized investment holding losses arising during the three months ended July 31, 2015 and 2014 was \$4.1 million and \$1.6 million. Unrealized investment holding losses arising during the nine months ended July 31, 2015 and 2014 was \$8.8 million and \$7.4 million.

The following table sets forth our financial assets as of July 31, 2015 that are measured on a non-recurring basis during the period, segregated by level within the fair value hierarchy:

	Level 1	Level 2	Level 3	Total
	(All amounts are presented in thousands)			
Assets at Fair Value:				
Investment in FreshRealm(2)	\$ -	\$ -	\$ 17,760	\$ 17,760
Total assets at fair value	\$ -	\$ -	\$ 17,760	\$ 17,760

(2) We estimated the fair value of our noncontrolling interest in FreshRealm by performing a forecast projection analysis when FreshRealm was

deconsolidated in fiscal 2014. This analysis was conducted with consultation from a third party consulting firm. Increases or decreases in the

fair value calculation can result from changes in assumed discount periods and rates, changes in the assumed timing and amount of revenue and

expense estimates. Significant judgment is employed in determining the appropriateness of these assumptions. Our investment in FreshRealm has

been recorded as investment in unconsolidated subsidiaries on our balance sheet. In June of 2015, we contributed an additional \$0.8 million as an

investment into FreshRealm.

The following is a reconciliation of the beginning and ending amounts of the contingent consideration for RFG:

	Balance at October 31, 2013	Interest	Revalue Adjustment	Settled	Balance at July 31, 2014

RFG contingent consideration	\$ 15,602	—	\$ 40,767	\$ —	56,369
Total	\$ 15,602	—	\$ 40,767	\$ —	56,369

There was no contingent consideration expense for the first nine months ended of fiscal 2015. In fiscal 2014, RFG's former owners received the maximum earn-out payment permitted pursuant to the acquisition agreement, as amended, and there will be no future expenses related to this acquisition.

10. Agricola Don Memo

In December 2014, Calavo formed a wholly owned subsidiary Calavo Growers De Mexico, S. de R.L. de C.V. ("Calavo Sub"). In July 2015, Calavo Sub entered into a Shareholder Agreement with Grupo Belo del Pacifico, S.A. de C.V., ("Belo") a Mexican Company owned by Agricola Belher, and Agricola Don Memo, S.A. de C.V. ("Don Memo"). Don Memo, a Mexican corporation created in July 2013, is engaged in the business of owning and improving land in Jalisco, Mexico for the growing of tomatoes and other produce and the sale and distribution of tomatoes and other produce. Pending shareholder resolution (expected to occur during our 4th fiscal quarter), Belo and Calavo Sub will

have an equal one-half ownership interest in Don Memo in exchange for \$2 million each. Via a management service agreement, Belo, through its officers and employees, shall have day-to-day power and authority to manage the operations. Belo is entitled to a management fee equal to 20% of the earnings before interest and taxes (EBIT), as defined, which is payable annually in July of each year. Additionally, Calavo Sub is entitled to a 12% commission, calculated in U.S. dollars, for the sale of produce in the Mexican National Market, United States, Canada, and any other overseas market.

We have loaned \$5.0 million to Don Memo since its formation. We have recorded such loans in prepaids and other current assets. These monies, effectively a bridge loan, are expected to be replaced with a loan from an institutional lender during our 4th fiscal quarter and this bridge loan will be immediately repaid from the proceeds of the new loan. Additionally, \$2.0 million, representing Calavo Sub's 50% ownership in Don Memo, is included in investment in unconsolidated entities on our balance sheet.

11. Jacksonville

In July 2015, we entered into a Lease Agreement with Green Cove, LLC to lease an operating facility in Jacksonville Florida. The facility is approximately 200,000 square feet and is expected to be a value-added distribution center for all operating segments. We took possession of the property in August 2015 and plan to make significant improvements to this facility. Through July 31, 2015, we have capitalized \$0.6 million in construction in progress in connection to the improvements for this facility. Green Cove, LLC has agreed to reimburse Calavo for up to \$1.0 million for tenant improvements. The lease is scheduled to begin in November 2015 and terminate in October 2031.

Summary

Net sales for the three months ended July 31, 2015, compared to fiscal 2014, increased by \$13.7 million, or 6.3%. Net sales for the nine months ended July 31, 2015, compared to fiscal 2014, increased by \$67.1 million, or 11.5%. The increases in sales, when compared to the same corresponding prior year periods, are related to increases in sales from all segments.

For the quarter ended July 31, 2015, our largest percentage increase in sales was RFG sales, followed by our Fresh Products segment, as shown above. The increase in RFG sales was due primarily to increased sales from cut fruit and vegetables platters, as well as an increase in sales of deli products. Our increase in Fresh product sales during the third quarter of fiscal 2015, was due primarily to increased sales of Mexican and Peruvian sourced avocados. Partially offsetting this increase in Fresh product sales for the third quarter of fiscal 2015, however, were decreases in sales of California sourced avocados and pineapples. We experienced an increase in our Calavo Foods segment during the three months ended July 31, 2015, which was due primarily to an increase in the sales of our guacamole and salsa products. See discussion below for further details.

For the nine months ended July 31, 2015, our largest percentage increase in sales was RFG sales, followed by our Fresh Products segment, as shown above. Our increase in RFG sales was due primarily to increased sales from cut fruit and vegetables platters, as well as an increase in sales of deli products. Our increase in Fresh product sales during the

nine months ended July 31, 2015 was due primarily to increased sales of Mexican, California and Peruvian sourced avocados. Partially offsetting this increase in Fresh product sales for the nine months ended July 31, 2015, however, were decreases in sales of tomatoes, papayas, Chilean sourced avocados and pineapples. We experienced an increase in our Calavo Foods segment during the nine months ended July 31, 2015, which was due primarily to an increase in the sales of our guacamole and salsa products. See discussion below for further details.

While the procurement of fresh avocados related to our Fresh products segment is very seasonal, our Calavo Foods business is generally not subject to a seasonal effect.

Net sales to third parties by segment exclude value-added services billed by our Uruapan packinghouse and our Uruapan processing plant to the parent company. All intercompany sales are eliminated in our consolidated results of operations.

Fresh products

Third Quarter 2015 vs. Third Quarter 2014

Net sales delivered by the Fresh products business increased by approximately \$5.9 million, or 4.6%, for the third quarter of fiscal 2015, when compared to the same period for fiscal 2014. As discussed above, this increase in Fresh product sales during the third quarter of fiscal 2015 was primarily related to increased sales of Mexican and Peruvian sourced avocados, partially offset by decreases in sales from California sourced avocados and pineapples.

Sales of Mexican sourced avocados increased \$12.7 million, or 19.9%, for the third quarter of 2015, when compared to the same prior year period. The increase in Mexican sourced avocados was primarily due to an increase in the pounds sold, which increased by approximately 15.2 million pounds, or 34.6%. Partially offsetting this increase in pounds sold, however, is a decrease in the sales price per carton, which decreased by approximately 10.9%. We attribute much of this change to the higher supply of avocados in the market.

Sales of Peruvian sourced avocados increased to \$4.2 million for the third quarter of fiscal 2015, compared to \$0.2 million for the same period for fiscal 2014. The increase in Peruvian sourced avocados was primarily due to an increase in in the pounds sold, which increased by approximately 3.7 million pounds.

Partially offsetting this increase was a decrease in sales of California sourced avocados, which decreased \$9.5 million, or 15.9%, for the third quarter of 2015, when compared to the same prior year period. The decrease in California sourced avocados was primarily due to a decrease in pounds sold. California sourced avocados sales reflect a decrease in 5.4 million pounds of avocados sold, or 12.4%, when compared to the same prior year period. We attribute most of this decrease in volume to the deliveries coming earlier in fiscal 2015 compared to prior year. Due to weather conditions, growers opted to pick fruit earlier in fiscal 2015 (i.e. during the first six months of fiscal 2015), which caused a decline of fruit deliveries during our 3rd fiscal quarter. Further contributing to this decrease, was a decrease in the sales price per carton, which decreased by approximately 3.9%. We attribute much of this change to a higher supply of avocados in the market.

Sales of pineapples decreased to \$0.5 million for the third quarter of fiscal 2015, compared to \$1.7 million for the same period for fiscal 2014. The decrease in sales for pineapples is due to a decrease in cartons sold to 0.1 million cartons from 0.2 million cartons. In addition to this decrease is a decrease in the sales price per carton, which decreased approximately 24.9%.

Nine Months Ended 2015 vs. Nine Months Ended 2014

Net sales delivered by the Fresh products business increased by approximately \$31.8 million, or 9.0%, for the nine months ended July 31, 2015, when compared to the same period for fiscal 2014. As discussed above, this increase in Fresh product sales during the nine months ended July 31, 2015, was primarily related to increased sales of Mexican,

Table of Contents

California and Peruvian sourced avocados, partially offset by a decrease in sales from tomatoes, papayas, Chilean sourced avocados and pineapples. See details below.

Sales of Mexican sourced avocados increased \$27.1 million, or 11.2%, for the nine months ended July 31, 2015, when compared to the same prior year period. The increase in Mexican sourced avocados was primarily due to an increase in the pounds sold, which increased by approximately 33.1 million pounds of avocados sold, or 17.9%, when compared to the same prior year period. Partially offsetting this increase in pounds sold, however, is a decrease in the sales price per carton. The sales price per carton for Mexican sourced avocados decreased by approximately 5.7%. We attribute much of this change to a higher supply of avocados in the market.

Sales of California sourced avocados increased \$10.9 million, or 14.4%, for the nine months ended July 31, 2015, when compared to the same prior year period. The increase in California sourced avocados was primarily due to an increase in pounds sold. California sourced avocados sales reflect an increase in 9.4 million pounds of avocados sold, or 16.8%, when compared to the same prior year period. We attribute most of this increase in volume to the timing of the deliveries of the California avocado crop for fiscal 2015. Due to weather conditions, growers opted to pick fruit earlier during the first nine months of fiscal 2015, which we expected to cause a decline during our 4th fiscal quarter, as total fruit deliveries are expected to be similar in total, year over year. Partially offsetting this increase in pounds sold, however, was a decrease in the sales price per carton. The sales price per carton for California sourced avocados decreased by approximately 2.1%. We attribute much of this change to a higher supply of avocados in the market.

Sales of Peruvian sourced avocados increased to \$4.2 million for the nine months ended July 31, 2015, compared to \$0.2 million for the same period for fiscal 2014. The increase in Peruvian sourced avocados was primarily due to an increase in the pounds sold, which increased by approximately 3.7 million pounds.

Partially offsetting these increases were decreases in sales of tomatoes, pineapples and papayas. Sales of tomatoes, decreased \$2.9 million, or 14.7%, sales of papayas decreased \$2.5 million, or 27.9% and sales of pineapples decreased \$2.2 million, or 50.9%, for the nine months ended July 31, 2015, when compared to the same period for fiscal 2014. The decrease in sales for tomatoes, pineapples and papayas are primarily due to decreases in the number of cartons sold. We attribute all of these decreases in cartons sold due to weather related issues.

Sales of Chilean sourced avocados decreased \$2.4 million, or 96.5%, for the nine months ended July 31, 2015, when compared to the same prior year period. The decrease in Chilean sourced avocados was due to a decrease in pounds sold. Chilean sourced avocados sales reflect a decrease in 2.2 million pounds of avocados sold, when compared to the same prior year period. This decrease in sales is due to the high availability of other avocado sources, and an increased focus on Mexican and California sourced avocados for the nine months ended July 31, 2015. In addition, we have liquidated our unconsolidated subsidiary Calavo Chile, which further caused the above decrease.

We anticipate that net sales related to Mexican sourced avocados will increase during our fourth fiscal quarter of 2015, as compared to the third fiscal quarter of 2015. We anticipate that sales of Mexican grown avocados will increase in the fourth quarter of fiscal 2015, when compared to the same prior year period, due to higher overall volume.

We anticipate that California avocado sales will experience a seasonal and cyclical decrease during our fourth fiscal quarter of 2015, as compared to the third quarter of fiscal 2015 (see discussion above). We believe that there will be a decrease in California avocado volume when compared to the fourth fiscal quarter of 2014.

Calavo Foods

Third Quarter 2015 vs. Third Quarter 2014

Sales for Calavo Foods for the quarter ended July 31, 2015, when compared to the same period for fiscal 2014, increased \$0.4 million, or 2.3%. This increase is due to an increase in sales of prepared guacamole products which increased approximately \$0.2 million, or 1.6%, in the third quarter of fiscal year 2015, when compared to the same prior year period. In addition, there was an increase in sales of salsa products which increased approximately \$0.2 million, or

Table of Contents

60.3%, in the third quarter of fiscal year 2015, when compared to the same prior year period. The increase in sales of prepared guacamole and salsa was primarily related to an increase in overall pounds sold.

Nine Months Ended 2015 vs. Nine Months Ended 2014

Sales for Calavo Foods for the nine months ended July 31, 2015, when compared to the same period for fiscal 2014, increased \$1.9 million, or 4.3%. This increase is due to an increase in sales of prepared guacamole products which increased approximately \$1.6 million, or 3.7%, for the nine months ended July 31, 2015, when compared to the same prior year period. The increase in sales of prepared guacamole was primarily related to an increase in overall pounds sold, which increased 0.8 million pounds, or 3.8%. In addition, sales of salsa products increased approximately \$0.3 million, or 27.0%, for the nine months ended July 31, 2015, when compared to the same prior year period. The increase in sales of salsa was primarily related to an increase in overall pounds sold, which increased 0.2 million pounds, or 20.7%.

RFG

Third Quarter 2015 vs. Third Quarter 2014

Sales for RFG for the quarter ended July 31, 2015, when compared to the same period for fiscal 2014, increased \$7.4 million, or 10.3%. This increase is due primarily to increased sales from cut fruit and deli products, as well as an increase in sales of cut vegetables. The overall increase in sales is primarily due to an increase in sales volume, partially offset by a decrease in the sales price per carton, which was primarily related to a change in sales mix. Collectively, cut fruit, cut vegetable, and deli product sales increased 1.8 million units, or 22.3%. We believe the overall increase in sales volume is primarily due to an increase in demand for the variety of innovative products that we offer.

Nine Months Ended 2015 vs. Nine Months Ended 2014

Sales for RFG for the nine months ended July 31, 2014, when compared to the same period for fiscal 2013, increased \$33.4 million, or 18.2%. This increase is due primarily to increased sales from cut fruit and deli products, as well as an increase in sales of cut vegetables. The overall increase in sales is primarily due to an increase in sales volume, partially offset by a decrease in the sales price per carton. Collectively, cut fruit, cut vegetable, and deli product sales increased 6.7 million units, or 33.9%. We believe the overall increase in sales volume is primarily due to an increase

in demand for the variety of innovative products that we offer.

Summary

Our cost of goods sold consists predominantly of fruit costs, packing materials, freight and handling, labor and overhead (including depreciation) associated with preparing food products and other direct expenses pertaining to products sold. Gross margins increased by approximately \$4.1 million, or 20.3%, for the third quarter of fiscal 2015, when compared to the same period for fiscal 2014. Gross margins increased by approximately \$12.3 million, or 23.4%, for the first nine months of fiscal 2015 when compared to the same period for fiscal 2014. These increases in our gross margin, when compared to the same corresponding prior year periods, are related to increases in gross margin across all segments.

Fresh products

During our three and nine months ended July 31, 2015, as compared to the same prior year periods, the increase in our Fresh products segment gross margin percentage was primarily the result of increased margins for Mexican sourced avocados. For the third quarter of 2015, compared to the same prior year period, Mexican sourced avocados gross margin increased from 5.7% in 2014 to 11.4% in 2015. For the nine months ended July 31, 2015, compared to the same prior year period, Mexican sourced avocados gross margin increased from 7.0% in 2014 to 9.7% in 2015. In fiscal 2015, we were able to manage the spread between the sales price and the fruit cost of Mexican sourced avocados more effectively. For the third quarter of 2015, compared to the same prior year period, average fruit/production costs decreased 16.3%, while we were able to only decrease sales by approximately 10.9%. For the nine months ended July 31, 2015, compared to the same prior year period, average fruit/production costs decreased 8.5%, while we were able to only decrease sales by approximately 5.7%. In addition, the U.S. Dollar to Mexican Peso exchange rate strengthened in the three and nine months ended July 31, 2015, as compared to the same prior year periods. Note that any significant fluctuations in the exchange rate between the U.S. Dollar and the Mexican Peso may have a material impact on future gross margins for our Fresh products segment. Partially offsetting this increase in gross margin from Mexican sourced fruit was a decrease in the gross margin for California sourced avocados. Our gross margin for California sourced avocados decreased due to increased fruit cost, in the form of higher grower returns, as we opted to increase our focus on market share in fiscal 2015.

Calavo Foods

The Calavo Foods segment gross margin percentage during our three and nine months ended July 31, 2015, when compared to the same prior year periods, increased primarily due to a decrease in fruit costs. Fruit costs decreased during our three and nine months ended July 31, 2015, by approximately 40.7% and 38.7%. In addition, the U.S. Dollar to Mexican Peso exchange rate strengthened in the three and nine months ended July 31, 2015, as compared to the same period year periods. Note that any significant fluctuation in the exchange rate between the U.S. Dollar and the Mexican Peso may have a material impact on future gross margins for our Calavo Foods segment.

RFG

RFG's improved gross-margin is reflective of certain economies of scale resulting from significant sales growth (see discussion above), improved labor utilization and improved raw-material quality and yield. Benefits from superior fruit quality/yield extend beyond just lower fruit costs, but also reduce other costs, including the labor needed to process such fruit. Sales for RFG for the quarter ended July 31, 2015, when compared to the same period for fiscal 2014, increased \$7.4 million, or 10.3%. Sales for RFG for the nine months ended July 31, 2015, when compared to the same period for fiscal 2014, increased \$33.4 million, or 18.2%.

Selling, general and administrative expenses include costs of marketing and advertising, sales expenses and other general and administrative costs. Selling, general and administrative expenses increased \$0.9 million, or 9.1%, for the three months ended July 31, 2015, when compared to the same period for fiscal 2014. This increase was primarily related to higher corporate costs, including, but not limited to, general and administrative costs related to stock compensation expense (approximately \$0.8 million, of which \$0.6 million is attributed to the retirement of our former CFO), salaries (approximately \$0.4 million) and legal/consulting fees (approximately \$0.2 million), partially offset by a decrease in accrued management bonuses (approximately \$0.8 million).

Selling, general and administrative expenses increased \$2.9 million, or 10.8%, for the nine months ended July 31, 2015, when compared to the same period for fiscal 2014. This increase was primarily related to higher corporate costs, including, but not limited to, general and administrative costs related to salaries (approximately \$1.6 million), stock compensation expense (approximately \$1.2 million), legal/consulting fees (approximately \$0.6 million), accounting fees (approximately \$0.3 million), promotion and advertising (approximately \$0.3 million), data processing (approximately \$0.2 million), other admin fees (approximately \$0.2 million) and employee benefits (approximately \$0.2 million), partially offset by a decreases in the start-up operations of FreshRealm (approximately \$1.0 million) and accrued management bonuses (approximately \$1.0 million).

Contingent Consideration Related to RFG Acquisition

	Three months ended July 31, 2015			Change			2014			Nine months ended July 31, 2015			Change			2014		
	Contingent consideration related to RFG acquisition	\$ —	NM		\$ 23,249			\$ —	NM		\$ 39,503							
Percentage of net sales	—			10.6	%		—			6.8	%							

NM-Not Meaningful

RFG's former owners received the maximum earn-out payment permitted pursuant to the acquisition agreement in fiscal 2014. This caused the significant increase in contingent consideration for fiscal 2014. There was no contingent consideration expense for the three and nine months ended of fiscal 2015. There will be no future expenses related to this acquisition.

Provision for Income Taxes

	Three months ended July 31,			Nine months ended July 31,		
	2015	Change	2014	2015	Change	2014
Provision for income taxes	\$ 4,910	(375.8) %	\$ (1,780)	\$ 12,390	(611.3) %	\$ (2,423)
Effective tax rate	36.2 %		(615.9)%	35.6 %		(152.4)%

For the third quarter of fiscal 2015, our provision for income taxes was \$4.9 million, as compared to a benefit \$1.8 million recorded for the comparable prior year period. For the first nine months of fiscal 2015, our provision for income taxes was \$12.4 million, as compared to a benefit of \$2.4 million recorded for the comparable prior year period. We expect our effective tax rate to be approximately 35.6% during fiscal 2015. The prior year benefits for income taxes are primarily attributable to the revaluation adjustment related to contingent consideration.

Liquidity and Capital Resources

Cash provided by operating activities was \$32.5 million for the nine months ended July 31, 2015, compared to \$27.5 million provided operations for the similar period in fiscal 2014. Operating cash flows for the nine months ended July 31, 2015 reflect our net income of \$22.4 million, net increase in non-cash activities (depreciation and amortization, stock compensation expense, and income from unconsolidated entities) of \$8.1 million and a net increase in the noncash components of our operating capital of approximately \$2.0 million.

Our operating capital increase includes an increase in payable to growers of \$9.2 million, a decrease in prepaid expenses and other current assets of \$2.1 million, a decrease in income tax receivable of \$1.8 million, and a decrease in advances to suppliers of \$0.5 million, and, partially offset by, a net increase in accounts receivable of \$9.5 million, a net decrease in trade accounts payable and accrued expenses of \$1.2 million, an increase in inventory of \$0.6 million and an increase in other assets of \$0.3 million.

The increase in payable to growers primarily reflects an increase in California fruit delivered in the month of July 2015, as compared to October 2014. The decrease in our prepaid assets is due primarily to a repayment of our Mexican IVA tax receivable in fiscal 2015. The decrease in income tax receivable primarily reflects the tax impact of current year's net income. The decrease in advances to suppliers primarily reflects fewer advances made to Agricola Belher related to the receipt of tomatoes in July 2015, compared to October 2014. The increase in our accounts receivable, as of July 31, 2015, when compared to October 31, 2014, primarily reflects higher sales recorded in the month of July 2015, as compared to October 2014. The decrease in accounts payable and accrued expenses is primarily related to a decrease in our payables related to tomatoes and Mexican avocados. The increase in inventory is primarily related to an increase in the fresh fruit on hand at July 31, 2015. This was primarily driven by an increase in the volume of California avocados purchased during our third fiscal quarter of 2015, as compared to October 2014.

Cash used in investing activities was \$16.9 million for the nine months ended July 31, 2015, which related to the purchase of property, plant and equipment items of \$13.9 million, a loan to Agicola Don Memo of \$1.8 million, an investment of \$1.0 million to the new joint venture which is expected to operate under the name of Agricola Don Memo, and an additional investment contribution in FreshRealm of \$0.8 million, partially offset by proceeds received from the liquidation of Calavo Chile of \$0.3 million and a repayment of a note to San Rafael for \$0.3 million.

Cash used in financing activities was \$16.8 million for the nine months ended July 31, 2015, which related principally to the payment of our \$13.0 million dividend and payments on long-term obligations of \$4.3 million, partially offset by proceeds received on our credit facilities totaling \$0.2 million and exercises of stock options of \$0.2 million.

Our principal sources of liquidity are our existing cash balances, cash generated from operations and amounts available for borrowing under our existing credit facilities. Cash and cash equivalents as of July 31, 2015 and October 31, 2014 totaled \$5.5 million and \$6.7 million. Our working capital at July 31, 2015 was \$36.2 million, compared to \$22.0 million at October 31, 2014.

We believe that cash flows from operations and available credit facilities will be sufficient to satisfy our future capital expenditures, grower recruitment efforts, working capital and other financing requirements. We will continue to evaluate grower recruitment opportunities and exclusivity arrangements with food service companies to fuel growth in each of our business segments. Our non-collateralized, revolving credit facilities with Farm Credit West, PCA and Bank of America, N.A. expire in February 2016. Under the terms of these agreements, we are advanced funds for both working capital and long-term productive asset purchases. Total credit available under these combined borrowing agreements was \$65 million, with a weighted-average interest rate of 1.7% at July 31, 2015 and October 31, 2014. Under these credit facilities, we had \$36.1 million and \$35.9 million outstanding as July 31, 2015 and October 31, 2014. These credit facilities contain various financial covenants, the most significant relating to Tangible Net Worth (as defined), Current Ratio (as defined), and Fixed Charge Coverage Ratio (as defined). We were in compliance with all such covenants at July 31, 2015.

Contractual Obligations

There have been no material changes to our contractual commitments from those previously disclosed in our Annual Report on Form 10-K for our fiscal year ended October 31, 2014. For a summary of the contractual commitments at October 31, 2014, see Part II, Item 7, in our 2014 Annual Report on Form 10-K.

Impact of Recently Issued Accounting Pronouncements

See Note 1 to the consolidated condensed financial statements that are included in this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our financial instruments include cash and cash equivalents, accounts receivable, payable to growers, accounts payable, current and long-term borrowings pursuant to our credit facilities with financial institutions, and long-term, fixed-rate obligations. All of our financial instruments are entered into during the normal course of operations and have not been acquired for trading purposes. The table below summarizes interest rate sensitive financial instruments and presents principal cash flows in U.S. dollars, which is our reporting currency, and weighted-average interest rates by expected maturity dates, as of July 31, 2015.

(All amounts in thousands)	Expected maturity date October 31,						Total	Fair Value
	2015	2016	2017	2018	2019	Thereafter		
Assets								
Cash and cash equivalents (1)	\$ 5,536	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 5,536	\$ 5,536
Accounts receivable (1)	66,147	—	—	—	—	—	66,147	66,147
Advances to suppliers (1)	2,746	—	—	—	—	—	2,746	2,746
Liabilities								
Payable to growers (1)	\$ 15,035	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 15,035	\$ 15,035
Accounts payable (1)	19,510	—	—	—	—	—	19,510	19,510
Current borrowings pursuant to credit facilities (1)	36,080	—	—	—	—	—	36,080	36,080
	3,006	154	92	89	92	197	3,630	3,674

Fixed-rate long-term obligations (2)

- (1) We believe the carrying amounts of cash and cash equivalents, accounts receivable, advances to suppliers, payable to growers, accounts payable, and current borrowings pursuant to credit facilities approximate their fair value due to the short maturity of these financial instruments.
- (2) Fixed-rate long-term obligations bear interest rates ranging from 1.7% to 4.3% with a weighted-average interest rate of 2.2%. We believe that loans with a similar risk profile would currently yield a return of 2.5%. We project the impact of an increase or decrease in interest rates of 100 basis points would result in a change of fair value of approximately \$53,000.

Except as disclosed with the acquisition of Calavo Salsa Lisa, we were not a party to any derivative instruments during the fiscal year. It is currently our intent not to use derivative instruments for speculative or trading purposes. Additionally, we do not use any hedging or forward contracts to offset market volatility.

Our Mexican-based operations transact business primarily in Mexican pesos. Funds are transferred by our corporate office to Mexico on a weekly basis to satisfy domestic cash needs. Historically, the consistency of the spot rate for the Mexican peso has led to a small-to-moderate impact on our operating results. We do not anticipate using derivative instruments to hedge fluctuations in the Mexican peso to U.S. dollar exchange rates during fiscal 2015. Total foreign currency losses for the three months ended July 31, 2015 and 2014, net of gains, was \$0.3 million and less than \$0.1 million. Total foreign currency losses for the nine months ended July 31, 2015 and 2014, net of gains, was \$1.5 million and \$0.1 million.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the

period covered by this report. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective.

There were no changes in the Company's internal control over financial reporting during the quarter ended July 31, 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 7 to the Consolidated Financial Statements, which is incorporated by reference into this Item 1, for a summary of a class action lawsuit that has been filed against us. In addition, we are involved in litigation in the ordinary course of business, none of which we believe will have a material adverse impact on our financial position or results of operations.

ITEM 1A. RISK FACTORS

For a discussion of our risk factors, see Part 1, item 1A "Risk Factors" of our Annual Report on Form 10-K for the year ended October 31, 2014. There have been no material changes from the risk factors set forth in such Annual Report on Form 10-K. However, the risks and uncertainties that we face are not limited to those set forth in the 2014 Form 10-K. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business and the trading price of our common stock.
