QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended July 31, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number: 000-33385

CALAVO GROWERS, INC.

(Exact name of registrant as specified in its charter)

California 33-0945304
(State of incorporation) (I.R.S. Employer Identification No.)

1141-A Cummings Road

Santa Paula, California 93060

Edgar Filing: CALAVO GROWERS INC - Form 10-Q

(Address of principal executive offices) (Zip code)

(805) 525-1245

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Emerging Growth Company

Large accelerated filer Accelerated filer Non-accelerated filer Smaller Reporting Company

Emerging growth company (Do not check if a smaller reporting company)

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Registrant's number of shares of common stock outstanding as of July 31, 2017 was 17,533,179

CAUTIONARY STATEMENT

This Quarterly Report on Form 10-Q, including “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Item 2, contains forward-looking statements that involve risks, uncertainties and assumptions. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of Calavo Growers, Inc. and its consolidated subsidiaries (Calavo, the Company, we, us or our) may differ materially from those expressed or implied by such forward-looking statements and assumptions. All statements, other than statements of historical fact, are statements that could be deemed forward-looking statements, including, but not limited to, any projections of revenue, margins, expenses, earnings, earnings per share, tax provisions, cash flows, currency exchange rates, the impact of acquisitions or other financial items; any statements of the plans, strategies and objectives of management for future operations, including execution of restructuring and integration (including information technology systems integration) plans; any statements regarding current or future macroeconomic trends or events and the impact of those trends and events on Calavo and its financial performance; any statements regarding pending investigations, legal claims or tax disputes; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. Risks, uncertainties and assumptions include the impact of macroeconomic trends and events; the competitive pressures faced by Calavo’s businesses; the development and transition of new products and services (and the enhancement of existing products and services) to meet customer needs; integration and other risks associated with business combinations; the hiring and retention of key employees; the resolution of pending investigations, legal claims and tax disputes; and other risks that are described herein, including, but not limited to, the items discussed in Item 1A, Risk Factors, in our Annual Report on Form 10-K for the fiscal year ended October 31, 2016, and those detailed from time to time in our other filings with the Securities and Exchange Commission. Calavo assumes no obligation and does not intend to update these forward-looking statements.

CALAVO GROWERS, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

1. Description of the business

Business

Calavo Growers, Inc. (Calavo, the Company, we, us or our), is a global leader in the avocado industry and an expanding provider of value-added fresh food. Our expertise in marketing and distributing avocados, prepared avocados, and other perishable foods allows us to deliver a wide array of fresh and prepared food products to retail grocery, foodservice, club stores, mass merchandisers, food distributors and wholesalers on a worldwide basis. We procure avocados principally from California and Mexico. Through our various operating facilities, we (i) sort, pack, and/or ripen avocados, tomatoes and Hawaiian grown papayas, (ii) process and package fresh cut fruit and vegetables, salads, wraps, sandwiches, fresh snacking products and a variety of prepared deli items and (iii) produce and package guacamole and salsa.

The accompanying unaudited consolidated condensed financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all adjustments, consisting of adjustments of a normal recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows. The results of operations for interim periods are not necessarily indicative of the results that may be expected for a full year. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 2016.

Recently Adopted Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board ("FASB") issued an Accounting Standards Update ("ASU"), Improvements to Employee Share-Based Payment Accounting, which simplified several areas of accounting for share-based compensation arrangements, including the income tax impact, classification on the statement of cash flows and forfeitures. The new standard requires excess tax benefits or deficiencies for share-based payments to be recognized as income tax benefit or expense, rather than within additional paid-in capital, when the awards vest or are

settled. Furthermore, cash flows related to excess tax benefits are required to be classified as operating activities in the statement of cash flows rather than financing activities. We have elected to account for forfeitures of stock-based awards as they occur. The Company's early adoption of the amendments resulted in an income tax benefit of approximately \$0.3 million on the Company's net earnings in the first quarter of fiscal year 2017.

In July 2015, the FASB issued an ASU for measuring inventory. The core principal of the guidance is that an entity should measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The Company adopted this new standard beginning in the three months ended January 31, 2017. The adoption of the amendment did not have a material impact on the Company's consolidated financial statements.

Recently Issued Accounting Standards

In May 2017, the FASB issued an ASU, Stock Compensation (Topic 718), Scope of Modification Accounting. This ASU clarifies when changes to the terms or conditions of a share-based payment award must be accounted for as modifications. The guidance clarifies that modification accounting will be applied if the value, vesting conditions or classification of the award changes. This ASU will be effective for us beginning the first day of our 2018 fiscal year. We do not anticipate a significant impact on our financial condition, results of operations and cash flows upon adoption.

Table of Contents

In March 2017, the FASB issued an ASU, Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. This ASU requires that the service cost component of net periodic benefit costs from defined benefit and other postretirement benefit plans be included in the same Statement of Earnings captions as other compensation costs arising from services rendered by the covered employees during the period. The other components of net benefit cost will be presented in the Statement of Earnings separately from service costs. Following adoption, only service costs will be eligible for capitalization into manufactured inventories, which should reduce diversity in practice. This ASU will be effective for us beginning the first day of our 2019 fiscal year. We do not anticipate a significant impact on our financial condition, results of operations and cash flows upon adoption.

In January 2017, the FASB issued an ASU, Business Combinations: Clarifying the Definition of a Business, which adds guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. This ASU will be effective for us beginning the first day of our 2019 fiscal year. Early adoption is permitted. We do not expect this ASU to have an impact until an applicable transaction takes place.

In October 2016, the FASB issued an ASU, Intra-Entity Transfers of Assets Other Than Inventory, which will require companies to recognize the income tax effects of intra-entity sales and transfers of assets other than inventory, particularly those asset transfers involving intellectual property, in the period in which the transfer occurs. The ASU will be effective for us beginning the first day of our 2019 fiscal year and is not expected to have a significant impact upon adoption.

In January 2017, the FASB issued an ASU, Simplifying the Test for Goodwill Impairment, which removes the requirement to compare the implied fair value of goodwill with its carrying amount as part of step 2 of the goodwill impairment test. The ASU permits an entity to perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. This ASU will be effective for us beginning the first day of our 2021 fiscal year. Early adoption is permitted. We are evaluating the impact of adoption of this ASU on our financial condition, results of operations and cash flows, and as such, we are not able to estimate the effect the adoption of the new standard will have on our financial statements.

In February 2016, the FASB issued an ASU, Leases, which requires a dual approach for lessee accounting under which a lessee would account for leases as finance leases or operating leases. Both finance leases and operating leases will result in the lessee recognizing a right-of use asset and a corresponding lease liability. For finance leases, the lessee would recognize interest expense and amortization of the right-of-use asset, and for operating leases, the lessee would recognize a straight-line total lease expense. The guidance also requires qualitative and specific quantitative disclosures to supplement the amounts recorded in the financial statements so that users can understand more about the nature of an entity's leasing activities, including significant judgments and changes in judgments. This ASU will be effective for us beginning the first day of our 2020 fiscal year. Early adoption is permitted. We are evaluating the impact of adoption of this ASU on our financial condition, results of operations and cash flows, and as such, we are

not able to estimate the effect the adoption of the new standard will have on our financial statements.

In January 2016, the FASB issued an ASU, which requires equity investments (except those accounted for under the equity method of accounting) to be measured at fair value with changes in fair value recognized in net income. The guidance is effective for interim and annual periods beginning after December 15, 2017. Early adoption is permitted. We are evaluating the impact of adoption of this ASU on our financial condition, result of operations and cash flows.

In May 2014, the FASB amended the existing accounting standards for revenue recognition. The amendments are based on the principle that revenue should be recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. We are required to adopt the amendments in the first quarter of fiscal 2019. Early adoption is not permitted. The amendments may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. We are evaluating the impact of the adoption of this amended accounting standard on our financial condition, result of operations and cash flows.

Table of Contents

2. Information regarding our operations in different segments

We report our operations in three different business segments: (1) Fresh products, (2) Calavo Foods, and (3) RFG. These three business segments are presented based on how information is used by our Chief Executive Officer to measure performance and allocate resources. The Fresh products segment includes all operations that involve the distribution of avocados and other fresh produce products. The Calavo Foods segment represents all operations related to the purchase, manufacturing, and distribution of prepared products, including guacamole and salsa. The RFG segment represents all operations related to the manufacturing and distribution of fresh-cut fruit, ready-to-eat vegetables, recipe-ready vegetables and other fresh prepared food products. Selling, general and administrative expenses, as well as other non-operating income/expense items, are evaluated by our Chief Executive Officer in the aggregate. We do not allocate assets, or specifically identify them to, our operating segments. Data in the following tables is presented in thousands:

Nine months ended July 31, 2016				
Net sales	\$ 395,264	\$ 47,126	\$ 245,634	\$ 688,024
Cost of sales	352,424	29,228	225,923	607,575
Gross margin	\$ 42,840	\$ 17,898	\$ 19,711	\$ 80,449

For the nine months ended July 31, 2017 and 2016, inter-segment sales and cost of sales of \$0.9 million and \$2.8 million between Fresh products and RFG were eliminated. For the nine months ended July 31, 2017 and 2016, inter-segment sales and cost of sales of \$2.3 million and \$2.0 million between Calavo Foods and RFG were eliminated.

For the nine months ended July 31, 2017, inter-segment sales and cost of sales of \$0.4 million between Fresh products and Calavo Foods were eliminated.

3. Inventories

Inventories consist of the following (in thousands):

	July 31, 2017	October 31, 2016
Fresh fruit	\$ 15,853	\$ 17,126
Packing supplies and ingredients	9,870	7,605
Finished prepared foods	6,991	7,118
	\$ 32,714	\$ 31,849

Inventories are stated at the lower of cost or net realizable value. We periodically review the value of items in inventory and record any necessary write downs of inventory based on our assessment of market conditions. We

Table of Contents

recorded a write down of \$1.1 million to adjust our fresh fruit inventory to the lower of cost or net realizable value as of October 31, 2016. We recorded a write down of \$0.1 million to adjust our finished prepared foods inventory to the lower of cost or net realizable value as of July 31, 2017.

4.Related party transactions

Certain members of our Board of Directors market California avocados through Calavo pursuant to marketing agreements substantially similar to the marketing agreements that we enter into with other growers. During the three months ended July 31, 2017 and 2016, the aggregate amount of avocados procured from entities owned or controlled by members of our Board of Directors was \$12.3 million and \$19.9 million. During the nine months ended July 31, 2017 and 2016, the aggregate amount of avocados procured from entities owned or controlled by members of our Board of Directors was \$17.5 million and \$23.5 million. Amounts payable to these Board members were \$3.6 million as of July 31, 2017. We did not have any amounts payable to these Board members as of October 31, 2016.

During the three months ended July 31, 2017 and 2016, we received \$0.1 million as dividend income from Limoneira Company (Limoneira). During each of the nine months ended July 31, 2017 and 2016, we received \$0.3 million as dividend income from Limoneira. In addition, we lease office space from Limoneira and paid rental expenses of \$0.1 million for each of the three months ended July 31, 2017 and 2016. We paid rental expenses of \$0.2 million for each of the nine months ended July 31, 2017 and 2016. Harold Edwards, who is a member of our Board of Directors, is the Chief Executive Officer of Limoneira Company. We have a 12% ownership interest in Limoneira. Additionally, our Chief Executive Officer is a member of the Limoneira Board of Directors.

We currently have a member of our Board of Directors who also serves as a partner in the law firm of TroyGould PC, which frequently represents Calavo as legal counsel. During each of the three months ended July 31, 2017 and 2016, Calavo Growers, Inc. paid fees totaling \$0.1 million to TroyGould PC. During each of the nine months ended July 31, 2017 and 2016, Calavo Growers, Inc. paid fees totaling approximately \$0.2 million to TroyGould PC.

In December 2014, Calavo formed a wholly owned subsidiary Calavo Growers De Mexico, S. de R.L. de C.V. (Calavo Sub). In July 2015, Calavo Sub entered into a Shareholder Agreement with Grupo Belo del Pacifico, S.A. de C.V., (Belo) a Mexican Company owned by Agricola Belher, and formed Agricola Don Memo, S.A. de C.V. (Don Memo). Belo and Calavo Sub have an equal one-half ownership interest in Don Memo in exchange for \$2 million each. Pursuant to a management service agreement, Belo, through its officers and employees, has day-to-day power and authority to manage the operations. Belo is entitled to a management fee, as defined, which is payable annually in July of each year. Additionally, Calavo Sub is entitled to commission, for the sale of produce in the Mexican National Market, United States, Canada, and any other overseas market.

We loaned a total of \$4.0 million to Don Memo since its formation. These monies, effectively a bridge loan, were replaced with a new loan to Don Memo from Bank of America, N.A. (BoA) during our first fiscal quarter of 2016 and our bridge loan was repaid from the proceeds of the new loan. Also, in January 2016, Calavo and BoA, entered into a Continuing and Unconditional Guaranty Agreement (the Guaranty). Under the terms of the Guaranty, Calavo unconditionally guarantees and promises to pay BoA any and all Indebtedness, as defined therein, of our unconsolidated subsidiary Don Memo to BoA. Belo has also entered into a similar guarantee with BoA. These guarantees were entered into in connection with the new loan in the amount of \$4.5 million from BoA to Don Memo that closed in January 2016.

As of July 31, 2017 and October 31, 2016, we have an investment of \$4.3 million and \$3.7 million, representing Calavo Sub's 50% ownership in Don Memo, which is included as an investment in unconsolidated entities on our balance sheet. We make advances to Don Memo for operating purposes, provide additional advances as shipments are made during the season, and return the proceeds from tomato sales under our marketing program to Don Memo, net of our commission and aforementioned advances. As of July 31, 2017 and October 31, 2016, we had outstanding advances of \$1.6 million and \$0.9 million to Don Memo. During the three months ended July 31, 2017 and 2016, we recorded \$4.3 million and \$1.4 million of expenses to Don Memo pursuant to our consignment agreement. During the nine months ended July 31, 2017 and 2016, we recorded \$5.0 million and \$1.4 million of expenses to Don Memo pursuant to our consignment agreement.

Table of Contents

We had grower advances due from Belher of \$2.5 million and \$4.4 million as of July 31, 2017 and October 31, 2016, which are netted against the grower payable. In addition, we had infrastructure advances due from Belher of \$0.8 million as of July 31, 2017 and October 31, 2016. Of these infrastructure advances \$0.2 million was recorded as receivable in prepaid and other current assets. The remaining \$0.6 million of these infrastructure advances are recorded in other assets. During the three months ended July 31, 2017 and 2016, we recorded \$0.8 million and \$0.5 million of expenses to Belher pursuant to our consignment agreement. During the nine months ended July 31, 2017 and 2016, we recorded \$13.9 million and \$26.0 million of expenses to Belher pursuant to our consignment agreement.

In August 2015, we entered into Shareholder's Agreement with various partners and created Avocados de Jalisco, S.A.P.I. de C.V. ("Avocados de Jalisco"). Avocados de Jalisco is a Mexican corporation created to engage in procuring, packing and selling avocados. This entity is approximately 80% owned by Calavo and is consolidated in our financial statements. Avocados de Jalisco has built a packinghouse located in Jalisco, Mexico and such packinghouse has begun operations in June of 2017. As of July 31, 2017 and October 31, 2016, we have made preseason advances of approximately \$0.3 million to various partners of Avocados de Jalisco. During the three and nine months ended July 31, 2017, we purchased approximately \$1.7 million of avocados from the partners of Avocados de Jalisco.

We have an approximate 46% ownership interest in FreshRealm, LLC (FreshRealm). An officer, two members of our board of directors and key employees have made investments into FreshRealm. In addition, as of July 31, 2017 and October 31, 2016, we have a loan to FreshRealm members of approximately \$0.3 million. In February 2017, we loaned \$0.8 million to FreshRealm. In addition, two other FreshRealm members loaned approximately \$0.8 million to FreshRealm. In total, this \$1.5 million was considered a bridge loan, and was repaid in April 2017. In April 2017, in another round of financing, we committed to invest an additional \$8.3 million into FreshRealm if and when certain terms and conditions are met. If the certain conditions are met and we invest up to our commitment level of \$8.3 million, our ownership percentage in Freshrealm is still expected to remain at approximately 46%. Through July of 2017, we have invested \$5.6 million of the total \$8.3 million. In September 2017, we have invested an additional \$1.4 million into FreshRealm.

We provide storage services to FreshRealm from our New Jersey Value-Added Depot and from our new RFG Riverside location. We have received \$0.1 million in storage services revenue from FreshRealm in the three months ended July 31, 2017. We have received \$0.2 million in storage services revenue from FreshRealm in the nine months ended July 31, 2017.

The previous owners and current managers of RFG have a majority ownership of certain entities that provide various services to RFG, specifically LIG Partners, LLC and THNC, LLC. RFG's California operating facility leases a building from LIG Partners, LLC (LIG) pursuant to an operating lease. RFG's Texas operating facility leases a building from THNC, LLC (THNC) pursuant to an operating lease. See the following tables for the related party activity for the three and nine months ended July 31, 2017 and 2016:

We anticipate recording amortization expense of approximately \$0.3 million for the remainder of fiscal 2017, \$1.1 million for fiscal year 2018, \$0.7 million for fiscal year 2019, \$0.1 million for fiscal year 2020, and \$0.1 million for each year thereafter, through fiscal year 2023.

See Note 11 for additional information related to Mexican IVA taxes.

6. Stock-Based Compensation

In April 2011, our shareholders approved the Calavo Growers, Inc. 2011 Management Incentive Plan (the “2011 Plan”). All directors, officers, employees and consultants (including prospective directors, officers, employees and consultants) of Calavo and its subsidiaries are eligible to receive awards under the 2011 Plan. Up to 1,500,000 shares of common stock may be issued by Calavo under the 2011 Plan.

On January 4, 2017, all 12 of our non-employee directors were granted 1,750 restricted shares each (total of 21,000 shares). These shares have full voting rights and participate in dividends as if unrestricted. The closing price of our stock on such date was \$62.65. On January 3, 2018, as long as the directors are still serving on the board, these shares lose their restriction and become non-forfeitable and transferable. These shares were granted pursuant to our 2011 Plan. The total recognized stock-based compensation expense for these grants was \$0.3 million for the three months ended July 31, 2017. The total recognized stock-based compensation expense for these grants was \$0.8 million for the nine months ended July 31, 2017.

On December 19, 2016, our executive officers were granted a total of 70,327 restricted shares. These shares have full voting rights and participate in dividends as if unrestricted. The closing price of our stock on such date was \$56.20. These shares vest in one-third increments, on an annual basis, beginning December 19, 2017. These shares were granted pursuant to our 2011 Plan. The total recognized stock-based compensation expense for these grants was \$0.3 million for

Table of Contents

the three months ended July 31, 2017. The total recognized stock-based compensation expense for these grants was \$0.6 million for the nine months ended July 31, 2017.

On January 6, 2017, our Chief Operating Officer resigned from Calavo. His unvested portion of restricted stock of 12,800 shares issued in December of 2016 and January of 2016 was forfeited. On January 25, 2017, as part of his resignation he was granted 12,800 shares of unrestricted stock, which immediately vested. The closing price of our stock on such date was \$58.05. We recorded for this grant \$0.7 million of stock-based compensation expense in our fiscal first quarter of 2017.

On February 2, 2017, our Vice President of the Foods Division retired from Calavo for medical reasons. In January 2017, the board of directors agreed that his unvested portion of restricted stock of 13,040 shares shall be vested due to the medical reasons provision in the restricted stock agreements. As a result, we recorded \$0.5 million of stock-based compensation expense in our fiscal first quarter of 2017.

In January 2017, our Board of Directors approved the issuance of options to acquire a total of 10,000 shares of our common stock to one member of our Board of Directors. Such grant vests in equal increments over a five-year period and has an exercise price of \$56.65 per share. Vested options have an exercise period of five years from the vesting date. The market price of our common stock at the grant date was \$56.65. The estimated fair market value of such option grant was approximately \$0.2 million. The total compensation cost not yet recognized as of July 31, 2017 was approximately \$0.2 million, which will be recognized over the remaining service period of 60 months.

The value of each option award is estimated using a lattice-based option valuation model. We primarily consider the following assumptions when using these models: (1) expected volatility, (2) expected dividends, (3) expected life and (4) risk-free interest rate. Such models also consider the intrinsic value in the estimation of fair value of the option award.

Prior to November 1, 2016, stock-based compensation expense was recorded net of estimated forfeitures our consolidated statements of income and, accordingly, was recorded for only those stock-based awards that we expected to vest. We estimated the forfeiture rate based on historical forfeitures of equity awards and adjusted the rate to reflect changes in facts and circumstances, if any. We revised our estimated forfeiture rate if actual forfeitures differed from its initial estimates.

Effective as of November 1, 2016, we adopted a change in accounting policy in accordance with ASU 2016-09, "Compensation—Stock Compensation (Topic 718)" to account for forfeitures as they occur. The change was applied on a modified retrospective basis, and no prior periods were restated as a result of this change in accounting policy.

We measure the fair value of our stock option awards on the date of grant. The following assumptions were used in the estimated grant date fair value calculations for stock options issued in first quarter of 2017:

Edgar Filing: CALAVO GROWERS INC - Form 10-Q

Risk-free interest rate	1.84%
Expected volatility	42.09%
Dividend yield	1.59%
Expected life (years)	5.0

Table of Contents

A summary of restricted stock activity, related to our 2011 Management Incentive Plan, is as follows (in thousands, except for per share amounts):

	Number of Shares	Weighted-Average Grant Price	Aggregate Intrinsic Value
Outstanding at October 31, 2016	84	\$ 44.76	
Vested	(69)	\$ 52.23	
Forfeited	(13)	\$ 53.66	
Granted	103	\$ 57.62	
Outstanding at July 31, 2017	105	\$ 54.63	\$ 7,769

The total recognized stock-based compensation expense for restricted stock was \$0.8 million and \$0.6 million for the three months ended July 31, 2017 and 2016. The total recognized stock-based compensation expense for restricted stock was \$3.5 million and \$1.6 million for the nine months ended July 31, 2017 and 2016. Total unrecognized stock-based compensation expense totaled \$3.9 million and \$7.4 million as of July 31, 2017 and October 31, 2016, and will be amortized through fiscal year 2019.

Stock options are granted with exercise prices of not less than the fair market value at grant date, generally vest over one to five years and generally expire two to five years after the grant date. We settle stock option exercises with newly issued shares of common stock.

We measure compensation cost for all stock-based awards at fair value on the date of grant and recognize compensation expense in our consolidated statements of operations over the service period that the awards are expected to vest. We measure the fair value of our stock based compensation awards on the date of grant.

A summary of stock option activity, related to our 2005 Stock Incentive Plan, is as follows (in thousands, except for per share amounts):

	Number of Shares	Weighted-Average Exercise Price	Aggregate Intrinsic Value
Outstanding at October 31, 2016	8	\$ 18.05	
Exercised	(1)	\$ 14.58	
Outstanding at July 31, 2017	7	\$ 18.54	\$ 516
Exercisable at July 31, 2017	7	\$ 18.54	\$ 516

At July 31, 2017, outstanding and exercisable stock options had a weighted-average remaining contractual term of 1.9 years. The total recognized and unrecognized stock-based compensation expense was insignificant for the three and nine months ended July 31, 2017.

A summary of stock option activity, related to our 2011 Management Incentive Plan, is as follows (in thousands, except for per share amounts):

	Number of Shares	Weighted-Average Exercise Price	Aggregate Intrinsic Value
Outstanding at October 31, 2016	11	\$ 23.33	
Granted	10	\$ 56.65	
Exercised	(1)	\$ 21.80	
Outstanding at July 31, 2017	20	\$ 40.07	\$ 673
Exercisable at July 31, 2017	8	\$ 23.48	\$ 402

At July 31, 2017, outstanding and exercisable stock options had a weighted-average remaining contractual term of 5.5 years. The total recognized and unrecognized stock-based compensation expense was insignificant for the three months and nine months ended July 31, 2017.

Table of Contents

7. Other events

Dividend payment

On December 8, 2016, we paid a \$0.90 per share dividend in the aggregate amount of \$15.7 million to shareholders of record on November 17, 2016.

Litigation

We are currently a named defendant in two class action lawsuits filed in Superior state courts in California alleging violations of California wage-and-hour laws, failure to pay overtime, failure to pay for missed meal and rest periods, failure to provide accurate itemized wage statements, failure to pay all wages due at the time of termination or resignation, as well as statutory penalties for violation of the California Labor Code and Minimum Wage Order-2014.

In August 2017, the parties reached a tentative settlement of the case, whereby we agreed to pay \$0.4 million to resolve the allegations and avoid further distraction that would result if the litigation continued. The settlement is subject to court approval. The Company recorded \$0.4 million as a selling, general and administrative expense in the third quarter of fiscal 2017.

From time to time, we are also involved in other litigation arising in the ordinary course of our business that we do not believe will have a material adverse impact on our financial statements.

Mexico tax audits

We conduct business internationally and, as a result, one or more of our subsidiaries files income tax returns in U.S. federal, U.S. state and certain foreign jurisdictions. Accordingly, in the normal course of business, we are subject to examination by taxing authorities, primarily in Mexico and the United States. During our third quarter of fiscal 2016, our wholly-owned subsidiary, Calavo de Mexico (“CDM”), received a written communication from the Ministry of Finance and Administration of the government of the State of Michoacan, Mexico (“MFM”) containing preliminary observations related to a fiscal 2011 tax audit of such subsidiary. MFM’s preliminary observations outline certain proposed adjustments primarily related to intercompany funding, deductions for services from certain vendors/suppliers and Value Added Tax (“VAT”). During our fourth fiscal quarter of 2016, we provided a written rebuttal to MFM’s preliminary observations and requested the adoption of a conclusive agreement before the PRODECON (Local Tax Ombudsman) so that a full discussion of the case between us, the MFM and the PRODECON, as appropriate, can lead to a reconsideration of the MFM findings. We expect that several formal meetings between us, the MFM and the PRODECON will be required before the MFM will reach a conclusion. The

first such meeting occurred during our second fiscal quarter of fiscal 2017. We expect another meeting to occur in the coming months. During the meeting and discussion process, the fiscal year 2011 final assessment (previously expected no later than February 2017) has been suspended.

Additionally, we also received notice from Mexico's Federal Tax Administration Service, Servicio de Administracion Tributaria (SAT), that our wholly-owned Mexican subsidiary, Calavo de Mexico, is currently under examination related to fiscal year 2013. In January 2017 we received preliminary observations from SAT outlining certain proposed adjustments primarily related to intercompany funding deductions for services from certain vendors/suppliers and VAT. We provided a written rebuttal to these preliminary observation during our second fiscal quarter of 2017 which the SAT is in process of analyzing. During our third fiscal quarter of 2017, we requested the adoption of a conclusive agreement before the PRODECON (Local Tax Ombudsman) so that a full discussion of the case between us, the SAT and the PRODECON, as appropriate, can lead to a reconsideration of the SATs findings. We expect that several formal meetings between us, the SAT and the PRODECON will be required before the SAT will reach a conclusion. Note that during the meeting and discussion process, the fiscal year 2013 final assessment (previously expected no later September 2017) has been suspended.

Table of Contents

We believe that the ultimate resolution of these matters is unlikely to have a material effect on our consolidated financial position.

8. Fair value measurements

A fair value measurement is determined based on the assumptions that a market participant would use in pricing an asset or liability. A three-tiered hierarchy draws distinctions between market participant assumptions based on (i) observable inputs such as quoted prices in active markets (Level 1), (ii) inputs other than quoted prices in active markets that are observable either directly or indirectly (Level 2) and (iii) unobservable inputs that require the Company to use present value and other valuation techniques in the determination of fair value (Level 3).

The following table sets forth our financial assets and liabilities as of July 31, 2017 that are measured on a recurring basis during the period, segregated by level within the fair value hierarchy:

	Level 1	Level 2	Level 3	Total
	(All amounts are presented in thousands)			
Assets at Fair Value:				
Investment in Limoneira Company(1)	\$ 39,342	-	-	\$ 39,342
Total assets at fair value	\$ 39,342	-	-	\$ 39,342

(1) The investment in Limoneira Company consists of marketable securities in the Limoneira Company stock. We currently own approximately 12% of Limoneira's outstanding common stock. These securities are measured at fair value by quoted market prices. Limoneira's stock price at July 31, 2017 and October 31, 2016 equaled \$22.76 per share and \$19.69 per share. Unrealized gains and losses are recognized through other comprehensive income. Unrealized investment holding gains arising during the three months ended July 31, 2017 was \$3.6 million. Unrealized investment holding losses arising during the three months ended July 31, 2016 was \$0.3 million. Unrealized investment holding gains arising during the nine months ended July 31, 2017 and 2016 was \$5.3 million and \$3.2 million.

9. Noncontrolling interest

In March 2017, pursuant to the Amended and Restated Limited Liability Company Agreement dated February 8, 2010 entered into by Calavo Growers, Inc., Calavo Salsa Lisa LLC, Lisa's Salsa Company, Elizabeth Nicholson and Eric

Nicholson, we purchased the 35 percent ownership of Calavo Salsa Lisa not held by us for \$1.0 million.

The following table reconciles shareholders' equity attributable to noncontrolling interest related to Salsa Lisa and Avocados de Jalisco (in thousands).

	Three months ended July 31, 2017	Three months ended July 31, 2016

11.Mexican IVA taxes receivable

Included in prepaids & other current assets and other assets are tax receivables due from the Mexican government for value-added taxes (IVA) paid in advance. CDM is charged IVA by vendors on certain expenditures in Mexico, which, insofar as they relate to the exportation of goods, translate into IVA amounts receivable from the Mexican government.

Edgar Filing: CALAVO GROWERS INC - Form 10-Q

As of July 31, 2017 and October 31, 2016, CDM IVA receivables totaled \$18.7 million and \$14.2 million. Historically, CDM received IVA refund payments from the Mexican tax authorities on a timely basis. Beginning in fiscal 2014 and continuing into fiscal 2017, however, the tax authorities began carrying out more detailed reviews of our refund requests and our supporting documentation. Additionally, they are also questioning the refunds requested attributable to IVA paid to certain suppliers that allegedly did not fulfill their own tax obligations. We believe these

Table of Contents

factors and others have contributed to delays in the processing of IVA claims by the Mexican tax authorities. Currently, we are in the process of collecting such balances through regular administrative processes, but certain amounts may ultimately need to be recovered via legal means. We believe that our operations in Mexico are properly documented and that the Mexican tax authorities will ultimately authorize the refund of the corresponding IVA amounts. We will continue to monitor the collection of these receivables with our outside consultants.

During the first quarter of fiscal 2017, tax authorities informed us that their internal opinion, based on the information provided by local SAT office in Uruapan, considers that CDM is not properly documented relative to its declared tax structure and therefore CDM cannot claim the refundable VAT balance. CDM has strong arguments and supporting documentation to sustain its declared tax structure for VAT and income tax purposes. CDM decided to start an administrative appeal for the VAT related to the request of the months of July, August and September of 2015 in order to assert its argument that CDM is properly documented and to therefore change the SAT's internal assessment. CDM expects to have a resolution to this matter in the fourth quarter of fiscal 2017; however, it should be noted that our timing expectations are predicated on a timely response from the tax authorities. Based on the information mentioned above, in the first quarter of fiscal 2017, we reclassified the total CDM IVA balance from prepaid and other current assets to other assets. As of October 31, 2016, \$7.3 million of CDM IVA were recorded in prepaids and other current assets. As of July 31, 2017 and October 31, 2016, \$18.7 million and \$7.0 million of CDM IVA receivables were recorded in other assets.

12. Subsequent event

In August 2017, Hurricane Harvey made landfall as a category 4 hurricane impacting the Houston metropolitan area with significant flooding. Although we suffered only minimal physical damage to our facility in Houston, the damage to the region in general has temporarily impacted our ability to operate. We are continuing to evaluate the impact of Harvey on our business, but we do not believe that this will have a material impact on our financial statements.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This information should be read in conjunction with the unaudited consolidated condensed financial statements and the notes thereto included in this Quarterly Report, and the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the Annual Report on Form 10-K for the fiscal year ended October 31, 2016 of Calavo Growers, Inc. (we, Calavo, or the Company).

Recent Developments

Dividend payment

On December 8, 2016, we paid a \$0.90 per share dividend in the aggregate amount of \$15.7 million to shareholders of record on November 17, 2016.

Litigation

We are currently a named defendant in two class action lawsuits filed in Superior state courts in California alleging violations of California wage-and-hour laws, failure to pay overtime, failure to pay for missed meal and rest periods, failure to provide accurate itemized wage statements, failure to pay all wages due at the time of termination or resignation, as well as statutory penalties for violation of the California Labor Code and Minimum Wage Order-2014.

In August 2017, the parties reached a tentative settlement of the case, whereby we agreed to pay \$0.4 million to resolve the allegations and avoid further distraction that would result if the litigation continued. The settlement is subject to court approval. The Company recorded \$0.4 million as a selling, general and administrative expense in the third quarter of fiscal 2017.

From time to time, we are also involved in other litigation arising in the ordinary course of our business that we do not believe will have a material adverse impact on our financial statements.

Net Sales

The following table summarizes our net sales by business segment for each of the three months and nine months ended July 31, 2017 and 2016:

(in thousands)	Three months ended July 31,			Nine months ended July 31,		
	2017	Change	2016	2017	Change	2016
Net sales:						
Fresh products	\$ 168,919	8.2	% \$ 156,129	\$ 436,601	10.5	% \$ 395,264
Calavo Foods	20,251	24.4	% 16,285	53,876	14.3	% 47,126
RFG	112,475	24.0	% 90,732	307,884	25.3	% 245,634
Total net sales	\$ 301,645	14.6	% \$ 263,146	\$ 798,361	16.0	% \$ 688,024
As a percentage of net sales:						
Fresh products	56.0	%	59.3	%	54.7	% 57.4
Calavo Foods	6.7	%	6.2	%	6.7	% 6.8
RFG	37.3	%	34.5	%	38.6	% 35.8
	100.0	%	100.0	%	100.0	% 100.0

Table of Contents

Summary

Net sales for the three months ended July 31, 2017, compared to the corresponding period in fiscal 2016, increased by \$38.5 million, or approximately 15%. Compared to the same corresponding prior year period, sales increased in all segments. Net sales for the nine months ended July 31, 2017, compared to the corresponding period in fiscal 2016, increased by \$110.3 million, or 16%. Compared to the same corresponding prior year period, sales increased in all segments.

For the quarter ended July 31, 2017, our largest percentage increases in sales were in our Calavo Foods and RFG segments, followed by our Fresh products segment, as shown above. The increase in Calavo Foods sales was due primarily to increased sales of our guacamole and salsa products. The increase in RFG sales was due primarily to increased sales from fresh prepared food, fresh-cut fruit and vegetable products. The increase in Fresh products sales during the third quarter of fiscal 2017, was due primarily to increased sales of Mexican and Peruvian sourced avocados and Mexican sourced tomatoes, which were partially offset by decreased sales of California sourced avocados. See discussion below for further details.

For the nine months ended July 31, 2017, our largest percentage increase in sales was in our RFG segment, followed by our Calavo Foods and Fresh products segments, as shown above. The increase in RFG sales was due primarily to increased sales from fresh prepared food, fresh-cut fruit and vegetable products. The increase in Calavo Foods sales was due primarily to increased sales of our salsa and guacamole products. The increase in Fresh products sales was due primarily to increased sales of Mexican and Peruvian sourced avocados, which were partially offset by decreased sales of California sourced avocados and Mexican sourced tomatoes. See discussion below for further details.

All three segments of our business are subject to seasonal trends which can impact the volume and/or quality of fruit sourced in any particular quarter. All intercompany sales are eliminated in our consolidated results of operations.

Fresh products

Third Quarter 2017 vs. Third Quarter 2016

Net sales delivered by the Fresh products business increased by approximately \$12.8 million, or 8%, for the third quarter of fiscal 2017, when compared to the same period for fiscal 2016. As discussed above, this increase in Fresh product sales during the third quarter of fiscal 2017 was primarily related to increased sales of Mexican and Peruvian

avocados and Mexican sourced tomatoes, partially offset by decreased sales of California sourced avocados.

Sales of Mexican sourced avocados increased \$40.8 million, or 80%, for the third quarter of 2017, when compared to the same prior year period. This increase was primarily due to an approximately 40% increase in the average sales price per carton, which was largely related to the current market conditions, in which consumer demand continued to exceed available industry supply.

Sales of tomatoes increased to \$6.2 million for the third quarter of fiscal 2017, compared to \$2.6 million for the same period for fiscal 2016. The increase in sales for tomatoes is primarily due to an approximately 76% increase in the volume of cartons sold as well as an increase in the sales price per carton.

Sales of Peruvian sourced avocados increased \$2.8 million for the third quarter of fiscal 2017, when compared to the same prior year period. This increase was primarily due to an approximately 2.1 million pound increase in the pounds sold.

Sales of California sourced avocados decreased \$33.6 million, or 34%, for the third quarter of 2017, when compared to the same prior year period. The decrease in California sourced avocados was primarily due to a large decrease in the overall industry supply of California avocados during the quarter, offset by an approximately 32% increase in the average sales price per carton.

Table of Contents

Nine Months Ended 2017 vs. Nine Months Ended 2016

Net sales delivered by the Fresh products business increased by approximately \$41.3 million, or 11%, for the nine months ended July 31, 2017, when compared to the same period for fiscal 2016. As discussed above, this increase in Fresh product sales during the nine months ended July 31, 2017, was primarily related to increased sales of Mexican sourced avocados, partially offset by decreased sales from California sourced avocados and tomatoes.

Sales of Mexican sourced avocados increased \$84.9 million, or 37%, for the nine months ended July 31, 2017, when compared to the same prior year period. The increase in Mexican sourced avocados was primarily due to a 59% increase in the average sales price per carton largely related to current market conditions, in which consumer demand continued to exceed available industry supply. Partially offsetting this increase was a decrease in pounds sold of Mexican sourced avocados.

Partially offsetting the increase noted above was a \$33.2 million, or 27%, decrease in sales of California sourced avocados for the nine months ended July 31, 2017, when compared to the same prior year period. The decrease in sales of California sourced avocados was primarily due to a large decrease in the overall industry supply of California avocados during the nine month period which resulted in a decrease in pounds sold, compared to the same prior year period. Partially offsetting the decrease, was an approximately 44% increase in the average sales price per carton, primarily related to current market conditions, in which consumer demand continued to exceed available industry supply.

Sales of tomatoes decreased to \$22.3 million for the nine months ended July 31, 2017, compared to \$34.4 million for the same period for fiscal 2016. The decrease in sales for tomatoes is primarily due to a 29% decrease in the sales price per carton, primarily due to a change in weather patterns which resulted in a wider availability of tomatoes in the market, as well as a decrease in cartons sold.

Calavo Foods

Third Quarter 2017 vs. Third Quarter 2016

Sales for Calavo Foods for the quarter ended July 31, 2017, when compared to the same period for fiscal 2016, increased \$4.0 million, or 24%. This increase is primarily due to an approximate \$3.8 million, or 25%, increase in sales of guacamole products in the third quarter of fiscal year 2017, when compared to the same prior year period, due to an increase in pounds sold and an increase in the average selling price per pound. In addition, sales of salsa increased by approximately \$0.2 million, or 21%, primarily due to an increase in pounds sold.

Nine Months Ended 2017 vs. Nine Months Ended 2016

Sales for Calavo Foods for the nine months ended July 31, 2017, when compared to the same period for fiscal 2016, increased \$6.8 million, or 14%. This increase is primarily due to an approximate \$6.4 million, or 14%, increase in sales of guacamole products, in the nine months ended July 31, 2017, when compared to the same prior year period. This increase in our guacamole products is primarily due to an increase in pounds sold. In addition in the nine months ended July 31, 2017, sales of salsa increased by approximately \$0.3 million, or 13%, primarily due to an increase in pounds sold.

Table of Contents

RFG

Third Quarter 2017 vs. Third Quarter 2016

Sales for RFG for the quarter ended July 31, 2017, when compared to the same period for fiscal 2016, increased \$21.7 million, or 24%. The overall increase in sales is primarily due to an increase in sales volume, which we believe results from an increase in demand for the variety of fresh, convenient products that we offer, as well as our ability to expand retail relationships by providing high-quality, fresh foods solutions from our growing national production footprint. In addition, approximately \$0.8 million of the increase in sales was due to a change in the presentation of broker commission expenses which was moved to selling, general and administrative expense during the first quarter of fiscal 2017, rather than shown as a reduction in net sales as was done during the third quarter of fiscal 2016.

Nine Months Ended 2017 vs. Nine Months Ended 2016

Sales for RFG for the nine months ended July 31, 2017, when compared to the same period for fiscal 2016, increased \$62.3 million, or 25%. The overall increase in sales is primarily due to an increase in sales volume, which we believe results from an increase in demand for the variety of fresh, convenient products that we offer, as well as our ability to expand retail relationships by providing high-quality, fresh foods solutions from our growing national production footprint. In addition, approximately \$2.2 million of the increase in sales was due to a change in the presentation of broker commission expenses which was moved to selling, general and administrative expense during the first quarter of fiscal 2017, rather than shown as a reduction in net sales as was done during the nine months ended for fiscal 2016.

Gross Margin

The following table summarizes our gross margin and gross margin percentages by business segment for the three months and nine months ended July 31, 2017 and 2016:

(in thousands)	Three months ended July 31,			Nine months ended July 31,		
	2017	Change	2016	2017	Change	2016

Gross Margin:

Edgar Filing: CALAVO GROWERS INC - Form 10-Q

Fresh products	\$ 16,948	(7.3)	%	\$ 18,284	\$ 48,596	13.4	%	\$ 42,840
Calavo Foods	1,076	(81.5)	%	5,801	11,768	(34.2)	%	17,898
RFG	6,828	(20.2)	%	8,559	22,665	15.0	%	19,711
Total gross margin	\$ 24,852	(23.9)	%	\$ 32,644	\$ 83,029	3.2	%	\$ 80,449

Gross margin percentages:

Fresh products	10.0	%	11.7	%	11.1	%	10.8	%
Calavo Foods	5.3	%	35.6	%	21.8	%	38.0	%
RFG	6.1	%	9.4	%	7.4	%	8.0	%
Consolidated	8.2	%	12.4	%	10.4	%	11.7	%

Summary

Our cost of goods sold consists predominantly of fruit and other raw material costs, packing materials, freight and handling, labor and overhead (including depreciation) associated with preparing food products and other direct expenses pertaining to products sold. Gross margin decreased by approximately \$7.8 million, or 24%, for the third quarter of fiscal 2017, when compared to the same period for fiscal 2016. Gross margin increased by approximately \$2.6 million, or 3%, for the first nine months of fiscal 2017 when compared to the same period for fiscal 2016. The decrease in our gross margin dollars for the third quarter of fiscal 2017, when compared to the same prior year period, relates to decreases in gross margin dollars across all segments. The increase in our gross margin dollars for the first nine months of fiscal 2017, when compared to the same prior year period, relates to increases in gross margin in the Fresh products and RFG segments, partially offset by a decrease in gross margin in our Calavo Foods segment.

Table of Contents

Fresh products

During our three months ended July 31, 2017, as compared to the same prior year period, the decrease in our Fresh products segment gross margin percentage was primarily the result of decreased margins for California sourced avocados, partially offset by an increase in margin for Mexican sourced avocados and tomatoes. For the third quarter of 2017, the gross margin percentage for California sourced avocados was 9.4% compared to 13.8% in the same prior year period. For the third quarter of 2017, the gross margin percentage for Mexican sourced avocados increased to 10.6% compared to 8.0% in the same prior year period. During our nine months ended July 31, 2017, as compared to the same prior year period, the increase in our Fresh products segment gross margin percentage was primarily the result of increased margins for Mexican sourced avocados, partially offset by a decrease in margin for California sourced avocados and Mexican sourced tomatoes. For the nine months ended July 31, 2017, the gross margin percentage for Mexican sourced avocados increased to 12.3% compared to 10.7% in the same prior year period. For the nine months ended July 31, 2017, the gross margin percentage for California sourced avocados decreased to 8.3% compared to 11.4% in the same prior year period. In addition, the U.S. Dollar to Mexican Peso exchange rate was slightly weaker in our third quarter of fiscal 2017, when compared to the same period in fiscal 2016. Note that any significant fluctuations in the exchange rate between the U.S. Dollar and the Mexican Peso may have a material impact on future gross margins for our Fresh products segment.

The gross margin and gross margin percentage for consignment sales, such as tomatoes, are dependent on the average selling prices and volume of fruit we handle, and the competitiveness of the returns that we provide to third-party growers/packers. The gross margin we earn is generally based on a commission agreed to with each party, which usually is a percentage of the overall selling price. In the third quarter of fiscal year 2017, we had an increase in gross margin from our consigned tomato sales of approximately \$0.5 million, when compared to the same prior year period. For the nine months ended July 31, 2017 we had a decrease in gross margin from our consigned tomato sales of approximately \$1.9 million, when compared to the same prior year period. The increase during the third quarter of fiscal year 2017, in gross margin is primarily due to a 76% increase in the cartons sold of as well as a 36% increase in the sales price per carton compared to the same prior year period. The decrease during the nine months ended July 31, 2017 in gross margin is primarily due to a decrease in overall sales for tomatoes, resulting from a 29% decrease in the sales price per carton, which in turn, led us to bring fewer cartons to market during the first half of fiscal 2017.

Calavo Foods

The gross margin percentage for the Calavo Foods segment decreased during our three and nine months ended July 31, 2017 when compared to the same prior year periods, primarily due to an increase in fruit costs for guacamole products. The U.S. Dollar to Mexican Peso exchange rate was slightly weaker in fiscal 2017, when compared to the same period in fiscal 2016. Note that any significant fluctuation in the exchange rate between the U.S. Dollar and the Mexican Peso may have a material impact on future gross margins for our Calavo Foods segment.

RFG

For the quarter ended July 31, 2017, RFG's gross margin decreased \$1.7 million, or 20%, when compared to the same period for fiscal 2016. For nine months ended July 31, 2017, RFG's gross margins increased \$3.0 million, or 15%, when compared to the same prior year period. Gross margin in the fiscal third quarter was impacted primarily by costs associated with growth initiatives, specifically costs incurred in ramping up activity at new or recently expanded RFG plants. The gross margin in the third quarter and first nine months of fiscal 2017, was enhanced, in part, by a change in the presentation of broker commission expenses, totaling \$0.8 million in the third quarter of fiscal 2017 and \$2.2 million in the first nine months of fiscal 2017, which was moved to selling, general and administrative expense, rather than shown as a reduction in net sales, as was done in prior periods. Without the broker commission impact, gross margins would have decreased \$2.5 million or 29% for quarter ended July 31, 2017. Without the broker commission impact, gross margins would have increased \$0.8 million or 4% for nine months ended July 31, 2017.

25

Table of Contents

Selling, General and Administrative

(in thousands)	Three months ended July 31,			Nine months ended July 31,		
	2017	Change	2016	2017	Change	2016
	(Dollars in thousands)			(Dollars in thousands)		
Selling, general and administrative	\$ 12,698	3.3 %	\$ 12,287	\$ 41,950	20.3 %	\$ 34,866
Percentage of net sales	4.2 %		4.7 %	5.3 %		5.1 %

Selling, general and administrative expenses include costs of marketing and advertising, sales expenses and other general and administrative costs. Selling, general and administrative expenses increased \$0.4 million, or 3%, for the three months ended July 31, 2017, when compared to the same period for fiscal 2016. Part of this increase was related to a change in the presentation of RFG broker commission (approximately \$0.8 million) to include such costs in selling, general and administrative expenses, which had historically been presented as a reduction in net sales. In addition to this item, the increase was related to a \$0.4 million legal settlement (see Note 7 for further information) and an increase in salaries (approximately \$0.4 million, due in part to higher headcount), which were partially offset by a decrease in accrued management bonuses (approximately \$1.5 million).

Selling, general and administrative expenses increased \$7.1 million, or 20.3%, for the nine months ended July 31, 2017, when compared to the same period for fiscal 2016. This increase was partly related to three factors that do not reflect changes in the overall cost structure of the Company, specifically a change in presentation of RFG broker commission (approximately \$2.2 million) to include such costs in selling, general and administrative expenses, which had historically been presented as a reduction in net sales, non-recurring expenses related to the resignation and retirement of two corporate officers (approximately \$1.2 million) and a \$0.4 million legal settlement (see Note 7 for further information). In addition to these items, the increase was related to an increase in salaries (approximately \$1.4 million, due in part to higher headcount), an increase in bad debt (approximately \$1.2 million), and an increase in stock based compensation (approximately \$0.7 million), which were partially offset by a decrease in accrued management bonuses (approximately \$1.0 million).

Other Income (Loss), Net

(in thousands)	Three months ended July 31,			Nine months ended July 31,		
	2017	Change	2016	2017	Change	2016
	(Dollars in thousands)			(Dollars in thousands)		
Other income (loss), net	\$ 588	611.3 %	\$ (115)	\$ 552	38.3 %	\$ 399
Percentage of net sales	0.2 %		(0.0) %	0.1 %		0.1 %

Other income (loss), net includes income from unconsolidated subsidiaries, dividend income, as well as certain other transactions that are outside of the normal course of operations. The increase for the three and nine months ended July 31, 2017, compared to the same prior year periods are primarily due to an increase of income from our unconsolidated subsidiary Don Memo (See Note 4 for further information).

Provision for Income Taxes

(in thousands)	Three months ended July 31,			Nine months ended July 31,		
	2017	Change	2016	2017	Change	2016
Provision for income taxes	\$ 3,719	(49.2) %	\$ 7,323	\$ 13,883	(16.4) %	\$ 16,609
Effective tax rate	29.7 %		36.6 %	34.0 %		36.6 %

For the third quarter of fiscal 2017, our provision for income taxes was \$3.7 million, as compared to \$7.3 million in the comparable prior year period. For the nine months ended July 31, 2017, our provision for income taxes was \$13.9 million, as compared to \$16.6 million in the comparable prior year period. We currently expect our annual effective tax rate to be approximately 35.3% during fiscal 2017, less tax benefits related to the Company's early adoption of the new Accounting Standards Updated ("ASU") on the accounting for share-based payment transactions and less tax benefits

Table of Contents

related to the Section 199 return to provision adjustment, which was higher than anticipated in the prior year and applied in the third quarter of fiscal 2017 as a discrete item.

Liquidity and Capital Resources

Cash provided by operating activities was \$41.2 million for the nine months ended July 31, 2017, compared to cash provided by operations of \$55.0 million for the similar period in fiscal 2016. Operating cash flows for the nine months ended July 31, 2017 reflect our net income of \$27.0 million, net increase in non-cash activities (depreciation and amortization, provision for losses on accounts receivable, stock compensation expense, and income from unconsolidated entities) of \$12.2 million and a net increase in the non-cash components of our operating capital of approximately \$2.0 million.

The working capital increases include a net increase in accounts payable and accrued expenses of \$10.4 million, an increase in payable to growers of \$7.0 million, a decrease in advances to suppliers of \$1.9 million, a decrease in deferred rent of \$0.2 million, and a decrease in income taxes receivable, partially offset by, an increase in accounts receivable of \$12.3 million, an increase in other assets of \$3.5 million, an increase in prepaid expenses and other current assets of \$0.9 million, and an increase in inventory of \$0.9 million.

The increase in accounts payable and accrued expenses is primarily related to an increase in our payables related to RFG. The increase in payable to growers primarily reflects an increase in our California avocado grower liability due to seasonality of California avocados. The decrease in advances to suppliers primarily reflects less pre-season advances made to our tomato growers in July 2017, compared to October 2016. The increase in our accounts receivable, as of July 31, 2017 when compared to October 31, 2016, primarily reflects higher sales recorded in the month of July 2017, as compared to October 2016. The increase in other assets is due to an increase in Mexican IVA tax receivable (see Note 11 to our consolidated condensed financial statements). The increase in inventory is primarily related to an increase in the value of fresh fruit on hand at July 31, 2017 compared to October 31, 2016. This was primarily driven by an increase in the per unit value of inventory on hand and an increase in pounds of California avocados on hand at July 31, 2017 compared to October 31, 2016.

Cash used in investing activities was \$48.5 million for the nine months ended July 31, 2017, which primarily related to expansion projects for RFG segment (including more than \$19 million for purchase of the new Riverside plant which was financed under our existing credit facilities as noted below) and for the Fresh segment, and an investment in FreshRealm of \$7.2 million and an investment into Agricola Don Memo of \$0.5 million, partially offset by proceeds received from the repayment of the San Rafael note of \$0.3 million.

Cash provided by financing activities was \$2.3 million for the nine months ended July 31, 2017, which related principally to receipts on our credit facilities totaling \$19.0 million, partially offset by the payment of our \$15.7

million dividend and for the purchase of the noncontrolling interest of Salsa Lisa of \$1.0 million.

Our principal sources of liquidity are our existing cash balances, cash generated from operations and amounts available for borrowing under our existing Credit Facility. Cash and cash equivalents as of July 31, 2017 and October 31, 2016 totaled \$8.9 million and \$13.8 million. Our working capital at July 31, 2017 was \$8.1 million, compared to \$25.6 million at October 31, 2016.

We believe that cash flows from operations and the available Credit Facility will be sufficient to satisfy our future capital expenditures, grower recruitment efforts, working capital and other financing requirements for the next twelve months. We will continue to evaluate grower recruitment opportunities and expand relationships with retail and/or foodservice customers to fuel growth in each of our business segments. We have a revolving credit facility with Bank of America as administrative agent and Merrill Lynch, Pierce, Fenner & Smith Inc. as joint lead arranger and sole bookrunner, and Farm Credit West, as joint lead arranger. Under the terms of this agreement, we are advanced funds for both working capital and long-term productive asset purchases. Total credit available under this agreement is \$80 million, and will expire in June 2021. Upon notice to Bank of America, we may from time to time, request an increase in the Credit Facility by an amount not exceeding \$50 million. For our current and past line of credit agreements the weighted-average interest rate was 2.2% and 1.9% at July 31, 2017 and October 31, 2016. Under these credit facilities, we had \$38.0 million and \$19.0 million outstanding as July 31, 2017 and October 31, 2016.

Table of Contents

This Credit Facility contains customary affirmative and negative covenants for agreements of this type, including the following financial covenants applicable to the Company and its subsidiaries on a consolidated basis: (a) a quarterly consolidated leverage ratio of not more than 2.50 to 1.00 and (b) a quarterly consolidated fixed charge coverage ratio of not less than 1.15 to 1.00. We were in compliance with all such covenants at July 31, 2017.

Contractual Obligations

There have been no material changes to our contractual commitments, from those previously disclosed in our Annual Report on Form 10-K for our fiscal year ended October 31, 2016. For a summary of the contractual commitments at October 31, 2016, see Part II, Item 7, in our 2016 Annual Report on Form 10-K.

Impact of Recently Issued Accounting Pronouncements

See Note 1 to the consolidated condensed financial statements that are included in this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our financial instruments include cash and cash equivalents, accounts receivable, payable to growers, accounts payable, current and long-term borrowings pursuant to our credit facilities with financial institutions, and long-term, fixed-rate obligations. All of our financial instruments are entered into during the normal course of operations and have not been acquired for trading purposes. The table below summarizes interest rate sensitive financial instruments and presents principal cash flows in U.S. dollars, which is our reporting currency, and weighted-average interest rates by expected maturity dates, as of July 31, 2017.

(All amounts in thousands)	Expected maturity date July 31,						Total	Fair Value
	2018	2019	2020	2021	2022	Thereafter		
Assets								
Cash and cash equivalents								
(1)	\$ 8,871	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 8,871	\$ 8,871
Accounts receivable (1)	81,217	—	—	—	—	—	81,217	81,217

Liabilities								
Payable to growers (1)	\$ 27,986	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 27,986	\$ 27,986
Accounts payable (1)	30,597	—	—	—	—	—	30,597	30,597
Current borrowings pursuant to credit facilities (1)	38,000	—	—	—	—	—	38,000	38,000
Fixed-rate long-term obligations (2)	137	109	107	107	107	24	591	619

-
- (1) We believe the carrying amounts of cash and cash equivalents, accounts receivable, advances to suppliers, payable to growers, accounts payable, and current borrowings pursuant to credit facilities approximate their fair value due to the short maturity of these financial instruments.
- (2) Fixed-rate long-term obligations bear interest rates ranging from 3.5% to 4.3% with a weighted-average interest rate of 4.2%. We project the impact of an increase or decrease in interest rates of 100 basis points would result in a change of fair value of approximately \$16,000.

We were not a party to any derivative instruments during the fiscal year. It is currently our intent not to use derivative instruments for speculative or trading purposes. Additionally, we do not use any hedging or forward contracts to offset market volatility.

Our Mexican affiliates transact business primarily in Mexican pesos. Funds are transferred by our corporate office to Mexico on a weekly basis to satisfy the domestic cash needs of our Mexican affiliates. We do not currently use derivative instruments to hedge fluctuations in the Mexican peso to U.S. dollar exchange rates. Management does, however, evaluate this opportunity from time to time. Total foreign currency translation losses for the three months ended July 31, 2017 and 2016, net of gains, was \$0.4 million and \$1.0 million. Total foreign currency translation losses for the nine months ended July 31, 2017 and 2016, net of gains, was \$0.1 million and \$1.1 million.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective.

There were no changes in the Company’s internal control over financial reporting during the quarter ended July 31, 2017 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

In August of 2017, the Company has implemented a new financial accounting system in one of our three business segments. The implementation was not made in response to any significant deficiency or material weakness in our internal controls.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are also involved in litigation arising in the ordinary course of our business that we do not believe will have a material adverse impact on our financial statements.

See Note 7 in our consolidated financial statements for further information regarding legal proceedings.

ITEM 1A. RISK FACTORS

For a discussion of our risk factors, see Part 1, item 1A “Risk Factors” of our Annual Report on Form 10-K for the year ended October 31, 2016. There have been no material changes from the risk factors set forth in such Annual Report on Form 10-K. However, the risks and uncertainties that we face are not limited to those set forth in the 2016 Form 10-K. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business and the trading price of our common stock.

ITEM 6. EXHIBITS

- 31.1 Certification of Chief Executive Officer Pursuant to 15 U.S.C. § 7241, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Principal Financial Officer Pursuant to 15 U.S.C. § 7241, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification by Chief Executive Officer and Chief Financial Officer of Periodic Report Pursuant to 18 U.S.C. Section 1350.
