BANCFIRST CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of BancFirst Corporation and its subsidiaries (the “Company”) conform to accounting principles generally accepted in the United States of America (U.S. GAAP) and general practice within the banking industry. A summary of significant accounting policies can be found in Note (1) to the Company’s Annual Report on Form 10-K for the year ended December 31, 2018.

Basis of Presentation

The accompanying unaudited interim consolidated financial statements include the accounts of BancFirst Corporation, Council Oak Partners, LLC, BancFirst Insurance Services, Inc., BancFirst Risk & Insurance Company and BancFirst and its subsidiaries. The principal operating subsidiaries of BancFirst are Council Oak Investment Corporation, Council Oak Real Estate, Inc., BFTower, LLC and BancFirst Agency, Inc. All significant intercompany accounts and transactions have been eliminated. Assets held in a fiduciary or agency capacity are not assets of the Company and, accordingly, are not included in the unaudited interim consolidated financial statements.

The accompanying unaudited interim consolidated financial statements and notes are presented in accordance with the instructions for Form 10-Q. The information contained in the financial statements and footnotes included in BancFirst Corporation’s Annual Report on Form 10-K for the year ended December 31, 2018, should be referred to in connection with these unaudited interim consolidated financial statements. Operating results for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for a full year or any future period.

The unaudited interim consolidated financial statements contained herein reflect all adjustments which are, in the opinion of management, necessary to provide a fair statement of the financial position and results of operations of the Company for the interim periods presented. All such adjustments are of a normal and recurring nature. There have been no significant changes in the accounting policies of the Company since December 31, 2018, the date of the most recent annual report.

Reclassifications

Certain items in prior financial statements have been reclassified to conform to the current presentation. Such reclassifications had no effect on previously reported cash flows, stockholders’ equity or comprehensive income.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States inherently involves the use of estimates and assumptions that affect the amounts reported in the financial statements and the related disclosures. These estimates relate principally to the determination of the allowance for loan losses, income taxes, the fair value of financial instruments and the valuation of intangibles. Such estimates and assumptions may change over time and actual amounts realized may differ from those reported.

Recent Accounting Pronouncements

Standards Adopted During Current Period:

In February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-02, “Leases - (Topic 842)”, amended by ASU 2018-11, “Leases – (Topic 842)”: Targeted Improvements. This new guidance requires a lessee to recognize on the balance sheet the assets and liabilities for the rights and obligations created by leases with lease terms of more than twelve months and provide additional disclosures. The amendments were effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2018. The Company adopted this new standard on January 1, 2019, using a modified retrospective transition approach and recognized right-of-use lease assets and related lease liabilities totaling \$4.3 million. The Company elected to apply certain practical adoption expedients provided under the updates whereby it did not reassess initial direct costs for any existing leases. No cumulative-effect adjustment was recognized as the amount was not material, and the impact on our results of operations and cash flows was also not material. No prior periods were adjusted. See Note 6 for the financial position impact and additional disclosures.

Standards Not Yet Adopted:

6

In August 2018, the FASB issued ASU No. 2018-13, “Fair Value Measurement (Topic 820).” ASU 2018-13 removes, modifies and adds disclosure requirements on fair value measurements. ASU 2018-13 will be effective for the Company on January 1, 2020. Early adoption is permitted. In addition, early adoption of any removed or modified disclosures and delayed adoption of the additional disclosures until the effective date is also permitted. The Company expects to adopt the standard in the first quarter of 2020.

In June 2016, the FASB issued ASU No. 2016-13, “Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments.” ASU 2016-13 requires a financial asset measured at amortized cost basis to be presented at the net amount expected to be collected. The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. ASU 2016-13 requires enhanced disclosures related to the significant estimates and judgements used in estimating credit losses, as well as the credit quality and underwriting standards of an organization’s portfolio. In addition, ASU 2016-13 amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. ASU 2016-13 will be effective for the Company on January 1, 2020. The Company is currently evaluating the potential impact of ASU 2016-13 on its financial statements. In that regard, the Company has formed a task force under the direction of its Chief Financial Officer. In preparation, the Company has developed new credit estimation models, processes and controls. Internal validation of the model is underway and expected to be completed early in 2019. The Company has performed test runs of the new processes and controls and expects to begin full parallel runs by mid-2019. The impact of the standard will depend on the composition of the Company’s portfolio as well as economic conditions and forecasts at the time of adoption. The adoption of ASU 2016-13 could result in an increase in the allowance for loan losses as a result of changing from an “incurred loss” model, which encompasses allowances for current known and inherent losses within the portfolio, to an “expected loss” model, which encompasses allowances for losses expected to be incurred over the life of the portfolio. Furthermore, ASU 2016-13 will necessitate that we establish an allowance for expected credit losses for certain debt securities and other financial assets. While we are currently unable to reasonably estimate the impact of adopting ASU 2016-13, we expect that the impact of adoption will be significantly influenced by the composition, characteristics and quality of our loan and securities portfolios as well as the prevailing economic conditions and forecasts as of the adoption date. The Company expects to adopt the standard in the first quarter of 2020.

(2) RECENT DEVELOPMENTS, INCLUDING MERGERS AND ACQUISITIONS

On April, 23, 2019, the Company entered into an agreement to acquire Pegasus Bank. See Note (12) for additional information on this subsequent event.

On August 31, 2018 BFTower, LLC, a wholly-owned subsidiary of BancFirst purchased Cotter Ranch Tower in Oklahoma City for the Company’s corporate headquarters for \$21.0 million. Cotter Ranch Tower was subsequently renamed BancFirst Tower. BancFirst Tower consists of an aggregate of 507,000 square feet, has 36 floors and is the second tallest building in Oklahoma City. The BancFirst Tower will remain an income producing property as approximately 55% is currently leased to outside tenants. BancFirst Tower will allow the Company to consolidate operations from three locations to one and will improve operational efficiencies. Upon consolidation, the Company

expects to occupy approximately 35% of BancFirst Tower, resulting in approximately 90% total occupancy. Renovations on BancFirst Tower will be substantially completed by the end of 2020 and are expected to cost approximately \$70 million. The renovation costs include substantial deferred maintenance including HVAC, plumbing, electrical, elevators, building skin and roof while also including much needed improvements to both the interior and exterior common areas including the lobby, underground and outdoor plaza. The Company could start depreciating certain components of the renovation as they are put into service as early as September 2019. The total purchase price and renovation costs were determined to be favorable to other alternatives, such as constructing new corporate headquarters. On December 14, 2018, BFTower LLC, purchased a 42.6% ownership interest in SFPG, LLC, which is the owner of a 1,568 space parking garage adjacent to BancFirst Tower, for \$9.8 million.

On January 11, 2018, the Company acquired First Wagoner Corp. and its subsidiary bank, First Bank & Trust Company, with locations in Carney, Grove, Ketchum, Luther, Tulsa and Wagoner. First Bank & Trust Company had approximately \$290 million in total assets, \$247 million in loans and \$251 million in deposits. First Bank & Trust Company operated as a subsidiary of BancFirst Corporation until it was merged into BancFirst on February 16, 2018. As a result of the acquisition, the Company recorded a core deposit intangible of approximately \$6.3 million and goodwill of approximately \$19.1 million. The effect of this acquisition was included in the consolidated financial statements of the Company from the date of acquisition forward. The acquisition did not have a material effect on the Company's consolidated financial statements. The acquisition of First Wagoner Corp. and its subsidiary bank, First Bank & Trust Company complements the Company's community banking strategy by adding an additional five communities to its banking network in Oklahoma.

On January 11, 2018, the Company acquired First Chandler Corp. and its subsidiary bank, First Bank of Chandler, with two locations in Chandler. First Bank of Chandler had approximately \$88 million in total assets, \$66 million in loans and \$79 million in deposits. First Bank of Chandler operated as a subsidiary of BancFirst Corporation until it was merged into BancFirst on September 7, 2018. As a result of the acquisition, the Company recorded a core deposit intangible of approximately \$2.2 million and goodwill of approximately \$6.6 million. The effect of this acquisition was included in the consolidated financial statements of the Company from

the date of acquisition forward. The acquisition did not have a material effect on the Company's consolidated financial statements. The acquisition of First Chandler Corp. and its subsidiary bank, First Bank of Chandler complements the Company's community banking strategy by increasing its banking network in Oklahoma.

The Company's loans are mostly to customers within Oklahoma and approximately 65% of the loans are secured by real estate. Credit risk on loans is managed through limits on amounts loaned to individual and related borrowers, underwriting standards and loan monitoring procedures. The amounts and types of collateral obtained, if any, to secure loans are based upon the Company's underwriting standards and management's credit evaluation. Collateral varies, but may include real estate, equipment, accounts receivable, inventory, livestock and securities. The Company's interest in collateral is secured through filing mortgages and liens, and in some cases, by possession of the collateral.

The Company's commercial and industrial loan category includes a small percentage of loans to companies that provide ancillary services to the oil and gas industry, such as transportation, preparation contractors and equipment manufacturers. The balance of these loans was approximately \$61 million at March 31, 2019 and approximately \$60 million at December 31, 2018.

Accounting policies related to appraisals, nonaccruals and charge-offs are disclosed in Note (1) to the Company's Annual Report on Form 10-K for the year ended December 31, 2018.

Nonperforming and Restructured Assets

The following is a summary of nonperforming and restructured assets:

| | March 31, 2019 | December 31, 2018 |
|---|------------------------|-------------------|
| | (Dollars in thousands) | |
| Past due 90 days or more and still accruing | \$2,170 | \$ 1,916 |

| Total nonperforming and restructured loans | 38,316 | 37,707 |
| Other real estate owned and repossessed assets | 6,433 | 6,873 |
| Total nonperforming and restructured assets | \$44,749 | \$ 44,580 |

Had nonaccrual loans performed in accordance with their original contractual terms, the Company would have recognized additional interest income of approximately \$544,000 for the three months ended March 31, 2019 and approximately \$542,000 for the three months ended March 31, 2018.

The Company charges interest on principal balances outstanding on restructured loans during deferral periods. The current and future financial effects of the recorded balance of loans considered to be restructured were not considered to be material.

Loans are segregated into classes based upon the nature of the collateral and the borrower. These classes are used to estimate the allowance for loan losses. The following table is a summary of amounts included in nonaccrual loans, segregated by class of loans. Residential real estate refers to one-to-four family real estate.

Impaired Loans

Loans are considered impaired when, based on current information and events, it is probable the Company will be unable to collect the full amount of scheduled principal and interest payments in accordance with the original contractual terms of the loan agreement. If a loan is impaired, a specific valuation allowance may be allocated, if necessary, so that the loan is reported, net of

allowance for loss, at the present value of future cash flows using the loan's existing rate, or the fair value of collateral if repayment is expected solely from the collateral.

The following table presents impaired loans, segregated by class of loans. During the period ended March 31, 2019 and March 31, 2018, no material amount of interest income was recognized on impaired loans subsequent to their classification as impaired.

Credit Risk Monitoring and Loan Grading

The Company considers various factors to monitor the credit risk in the loan portfolio including volume and severity of loan delinquencies, nonaccrual loans, internal grading of loans, historical loan loss experience and economic conditions.

An internal risk grading system is used to indicate the credit risk of loans. The loan grades used by the Company are for internal risk identification purposes and do not directly correlate to regulatory classification categories or any financial reporting definitions.

The general characteristics of the risk grades are disclosed in Note (5) to the Company's Annual Report on Form 10-K for the year ended December 31, 2018.

The following table presents internal loan grading by class of loans:

(6) LEASES

Lessee

On January 1, 2019, the Company adopted ASU No. 2016-02, “Leases - (Topic 842),” which requires the recognition of the Company’s operating leases on its balance sheet. See Note (1) for additional information.

The Company has operating leases, which primarily consist of office space in buildings, ATM locations, storage facilities, parking lots and land on which it owns buildings. Rent expense for all operating leases totaled approximately \$357,000 and \$381,000 for the three months ended March 31, 2019 and March 31, 2018, respectively. As of March 31, 2019, right of use lease asset, which is included in accrued interest receivable and other assets on the balance sheet totaled \$4.3 million, and the related lease liability, which is included in accrued interest payable and other liabilities on the balance sheet totaled \$4.3 million. There have been no significant changes in our expected future minimum lease payments since December 31, 2018. The future minimum lease payments are disclosed in Note (19) to the Company’s Annual Report on Form 10-K for the year ended December 31, 2018. As of March 31, 2019, our operating leases have a weighted-average remaining lease term of 4.4 years and a weighted-average discount rate of 3.6 percent.

Lessor

The Company is a lessor of operating leases, which primarily consist of office space in buildings and parking lots. These assets are classified on the balance sheet as premises and equipment. The Company had operating lease revenue of \$1.5 million during the first quarter of 2019, which is included in occupancy, net on the consolidated statement of comprehensive income.

Future Minimum Lease Payments to be received

The Company does not have in place leases beyond 2023. The following table presents the scheduled minimum future contractual rent to be received under the remaining non-cancelable term of the operating leases:

| | |

(7) STOCK-BASED COMPENSATION

16

The Company adopted a nonqualified incentive stock option plan (the “BancFirst ISOP”) in May 1986. The Company has amended the BancFirst ISOP since 1986 to increase the number of shares to be issued under the plan to 6,400,000 shares. At March 31, 2019, there were 265,470 shares available for future grants. The BancFirst ISOP will terminate on December 31, 2019, if not extended. The options vest and are exercisable beginning four years from the date of grant at the rate of 25% per year for four years. Options expire at the end of fifteen years from the date of grant. Options outstanding as of March 31, 2019 will become exercisable through the year 2026. The option price must be no less than 100% of the fair value of the stock relating to such option at the date of grant.

In June 1999, the Company adopted the BancFirst Corporation Non-Employee Directors’ Stock Option Plan (the “BancFirst Directors’ Stock Option Plan”). Each non-employee director is granted an option for 10,000 shares. The Company has amended the BancFirst Directors’ Stock Option Plan since 1999 to increase the number of shares to be issued under the plan to 520,000 shares. At March 31, 2019, there were 40,000 shares available for future grants. The BancFirst Directors’ Stock Option Plan will terminate on December 31, 2019, if not extended. The options vest and are exercisable beginning one year from the date of grant at the rate of 25% per year for four years, and expire at the end of fifteen years from the date of grant. Options outstanding as of March 31, 2019 will become exercisable through the year 2023. The option price must be no less than 100% of the fair value of the stock relating to such option at the date of grant.

The Company currently uses newly issued shares for stock option exercises, but reserves the right to use shares purchased under the Company’s Stock Repurchase Program (the “SRP”) in the future.

The following table is a summary of the activity under both the BancFirst ISOP and the BancFirst Directors’ Stock Option Plan:

| | Options | Wgtd. Avg. Exercise Price | Wgtd. Avg. Remaining Contractual Term | Aggregate Intrinsic Value |
|--|-----------|---------------------------|---------------------------------------|---------------------------|
| (Dollars in thousands, except option data) | | | | |
| Three Months Ended March 31, 2019 | | | | |
| Outstanding at December 31, 2018 | 1,216,700 | \$ 28.48 | | |
| Options granted | 40,000 | 55.38 | | |
| Options exercised | (5,500) | 28.35 | | |
| Options canceled, forfeited, or expired | (22,500) | 51.83 | | |
| Outstanding at March 31, 2019 | 1,228,700 | 28.93 | 9.39 Yrs | \$ 28,536 |
| Exercisable at March 31, 2019 | 613,700 | 21.78 | 6.98 Yrs | \$ 18,639 |

The following table has additional information regarding options exercised under both the BancFirst ISOP and the BancFirst Directors’ Stock Option Plan:

| | Three Months Ended | |
|--|--------------------|----------|
| | March 31, 2019 | 2018 |
| (Dollars in thousands) | | |
| Total intrinsic value of options exercised | \$ 145 | \$ 2,860 |
| Cash received from options exercised | 156 | 1,233 |

Tax benefit realized from options exercised 37 729

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model and is based on certain assumptions including risk-free rate of return, dividend yield, stock price volatility and the expected term. The fair value of each option is expensed over its vesting period.

The following table is a summary of the Company's recorded stock-based compensation expense:

| | Three Months Ended | |
|--|---------------------------|-------|
| | March 31, 2019 | 2018 |
| | (Dollars in thousands) | |
| Stock-based compensation expense | \$174 | \$306 |
| Tax benefit | 44 | 78 |
| Stock-based compensation expense, net of tax | \$130 | \$228 |

The Company will continue to amortize the unearned stock-based compensation expense over the remaining vesting period of approximately seven years. The following table shows the unearned stock-based compensation expense:

| | |
|---|--|
| | March 31, 2019 (Dollars in thousands) |
| Unearned stock-based compensation expense | \$ 3,437 |

The following table shows the assumptions used for computing stock-based compensation expense under the fair value method on options granted during the periods presented:

| | Three Months Ended | |
|---|-----------------------|----------|
| | March 31, 2019 | 2018 |
| Weighted average grant-date fair value per share of options granted | \$ 13.67 | \$ 13.98 |
| | 2.62 to | 2.55 to |
| Risk-free interest rate | 2.76% | 2.92% |
| Dividend yield | 2.00% | 2.00% |
| | 22.93 | |
| | to | 23.05 to |
| Stock price volatility | 22.96% | 23.18% |
| Expected term | 10 Yrs | 10 Yrs |

The risk-free interest rate is determined by reference to the spot zero-coupon rate for the U.S. Treasury security with a maturity similar to the expected term of the options. The dividend yield is the expected yield for the expected term. The stock price volatility is estimated from the recent historical volatility of the Company's stock. The expected term is estimated from the historical option exercise experience. The Company accounts for forfeitures as they occur.

In May 1999, the Company adopted the BancFirst Corporation Directors' Deferred Stock Compensation Plan (the "BancFirst Deferred Stock Compensation Plan"). The Company has amended the BancFirst Deferred Stock Compensation Plan since 1999 to increase the number of shares to be issued under the plan to 222,220 shares. The BancFirst Deferred Stock Compensation Plan will terminate on December 31, 2019, if not extended. Under the plan, directors and members of the community advisory boards of the Company and its subsidiaries may defer up to 100% of their board fees. They are credited for each deferral with a number of stock units based on the current market price of the Company's stock, which accumulate in an account until such time as the director or community board member terminates serving as a board member. Shares of common stock of the Company are then distributed to the terminating director or community board member based upon the number of stock units accumulated in his or her account. There were 8,362 and 2,842 shares of common stock distributed from the BancFirst Deferred Stock Compensation Plan during the three months ended March 31, 2019 and March 31, 2018, respectively.

A summary of the accumulated stock units is as follows:

| | | |
|-------------------------|---------|----------|
| | March | December |
| | 31, | 31, |
| | 2019 | 2018 |
| Accumulated stock units | 137,543 | 143,347 |

|---------------|---------|---------|
| Average price | \$25.70 | \$24.91 |
|---------------|---------|---------|

(8) STOCKHOLDERS' EQUITY

In November 1999, the Company adopted a Stock Repurchase Program (the "SRP"). The SRP may be used as a means to increase earnings per share and return on equity, to purchase treasury stock for the exercise of stock options or for distributions under the Deferred Stock Compensation Plan, to provide liquidity for optionees to dispose of stock from exercises of their stock options, and to provide liquidity for stockholders wishing to sell their stock. All shares repurchased under the SRP have been retired and not held as treasury stock. The timing, price and amount of stock repurchases under the SRP may be determined by management and approved by the Company's Executive Committee.

The following table is a summary of the shares under the program:

| | Three Months Ended | |

The Company and BancFirst are subject to risk-based capital guidelines issued by the Board of Governors of the Federal Reserve System and the Federal Deposit Insurance Corporation (“FDIC”). These guidelines are used to evaluate capital adequacy and involve both quantitative and qualitative evaluations of the Company’s and BancFirst’s assets, liabilities and certain off-balance-sheet items calculated under regulatory practices. Failure to meet the minimum capital requirements can initiate certain mandatory or discretionary actions by the regulatory agencies that could have a direct material effect on the Company’s financial statements. Management believes that as of March 31, 2019, the Company and BancFirst met all capital adequacy requirements to which they are subject. The actual and required capital amounts and ratios are shown in the following table:

As of March 31, 2019, the most recent notification from the Federal Reserve Bank of Kansas City and the FDIC categorized BancFirst as “well capitalized” under the regulatory framework from prompt corrective action. The Company’s trust preferred securities have continued to be included in Tier 1 capital as the Company’s total assets do not exceed \$15 billion. There are no conditions or events since the most recent notifications of BancFirst’s capital category that management believes would materially change its category under capital requirements existing as of the

report date.

Basel III Capital Rules

Under the Basel III Capital Rules, in order to avoid limitations on capital distributions, including dividend payments and certain discretionary bonus payments to executive officers, a banking organization must hold a capital conservation buffer composed of CET1 capital above its minimum risk-based capital requirements. The implementation of the capital conservation buffer began on January 1, 2016 at the 0.625% level and was phased in over a four-year period (increasing by that amount on each subsequent January 1, until it reached 2.5% on January 1, 2019). As of March 31, 2019, the Company and BancFirst met all capital adequacy requirements under the Basel III Capital Rules.

(9) NET INCOME PER COMMON SHARE

Basic and diluted net income per common share based on weighted-average shares outstanding are calculated as follows:

| | Income | Shares | Per Share |
|--|---|------------|-----------|
| | (Numerator/Denominator) | | Amount |
| | (Dollars in thousands, except per share data) | | |
| Three Months Ended March 31, 2019 | | | |

(10) FAIR VALUE MEASUREMENTS

Accounting standards define fair value as the price that would be received to sell an asset or the price paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants on the measurement date.

FASB Accounting Standards Codification (“ASC”) Topic 820 establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset and liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category includes certain impaired loans, repossessed assets, other real estate owned, goodwill and other intangible assets.

Financial Assets and Financial Liabilities Measured at Fair Value on a Recurring Basis

A description of the valuation methodologies and key inputs used to measure financial assets and financial liabilities at fair value on a recurring basis, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. These valuation methodologies were applied to the following categories of the Company's financial assets and financial liabilities.

Securities Available for Sale

Securities classified as available for sale are reported at fair value. U.S. Treasuries are valued using Level 1 inputs. Other securities available for sale including U.S. federal agencies, registered mortgage backed securities and state and political subdivisions are valued using prices from an independent pricing service utilizing Level 2 data. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions, among other things. The Company also invests in private label mortgage backed securities for which observable information is not readily available. These securities are reported at fair value utilizing Level 3 inputs. For these securities, management determines the fair value based on replacement cost, the income approach or information provided by outside consultants or lead investors.

The Company reviews the prices for Level 1 and Level 2 securities supplied by the independent pricing service for reasonableness and to ensure such prices are aligned with traditional pricing matrices. In general, the Company does not purchase investment portfolio securities that are esoteric or that have complicated structures. The Company's portfolio primarily consists of traditional investments including U.S. Treasury obligations, federal agency mortgage pass-through securities, general obligation municipal bonds and a small amount of municipal revenue bonds. Pricing for such instruments is fairly generic and is easily obtained. For in-state bond issues that have relatively low issue sizes and liquidity, the Company utilizes the same parameters for pricing mentioned in the preceding paragraph adjusted for the specific issue. Periodically, the Company will validate prices supplied by the independent pricing service by comparison to prices obtained from third party sources.

Derivatives

Derivatives are reported at fair value utilizing Level 2 inputs. The Company obtains dealer and market quotations to value its oil and gas swaps and options. The Company utilizes dealer quotes and observable market data inputs to substantiate internal valuation models.

The following table summarizes financial assets and financial liabilities measured at fair value on a recurring basis as of the periods presented, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

| | Level 1 Inputs | Level 2 Inputs | Level 3 Inputs | Total Fair Value |

The changes in Level 3 assets measured at estimated fair value on a recurring basis during the periods presented were as follows:

| | Three Months Ended | Twelve Months Ended |
|--------------------------------------|---------------------------|---------------------------|
| | March 31, 2019 | December 31, 2018 |
| | (Dollars in thousands) | |
| Balance at the beginning of the year | \$ 13,443 | \$ 14,467 |
| Settlements | (39) | (1,037) |
| Total unrealized (losses) gains | (3) | 13 |
| Balance at the end of the period | \$ 13,401 | \$ 13,443 |

The Company's policy is to recognize transfers in and transfers out of Levels 1, 2 and 3 as of the end of the reporting period. During the three months ended March 31, 2019 and 2018, the Company did not transfer any securities between levels in the fair value hierarchy.

Financial Assets and Financial Liabilities Measured at Fair Value on a Nonrecurring Basis

Certain financial assets and financial liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). These financial assets and financial liabilities are reported at fair value utilizing Level 3 inputs.

The Company invests in equity securities without readily determinable fair values and utilizes Level 3 inputs. Beginning January 1, 2018, upon adoption of ASU 2016-01, these securities are reported at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. The realized and unrealized gains and losses are reported as securities transactions in the noninterest income section of the consolidated statements of comprehensive income.

Impaired loans are reported at the fair value of the underlying collateral if repayment is dependent on liquidation of the collateral. In no case does the fair value of an impaired loan exceed the fair value of the underlying collateral. The impaired loans are adjusted to fair value through a specific allocation of the allowance for loan losses or a direct charge-down of the loan.

Repossessed assets, upon initial recognition, are measured and adjusted to fair value through a charge-off to the allowance for possible loan losses based upon the fair value of the repossessed asset.

Other real estate owned is revalued at fair value subsequent to initial recognition, with any losses recognized in net expense from other real estate owned.

The following table summarizes assets measured at fair value on a nonrecurring basis. The fair value represents end of period values, which approximate fair value measurements that occurred on various measurement dates throughout the period:

| | Total Fair Value Level 3 (Dollars in thousands) |
|---|--|
| As of and for the Year-to-date Period Ended March 31, 2019 | |
| Equity securities | \$ 9,239 |
| Impaired loans (less specific allowance) | 36,160 |
| Repossessed assets | 184 |
| Other real estate owned | 560 |
| As of and for the Year-to-date Period Ended December 31, 2018 | |
| Equity securities | \$ 7,521 |
| Impaired loans (less specific allowance) | 34,396 |
| Repossessed assets | 183 |
| Other real estate owned | 4,683 |

Estimated Fair Value of Financial Instruments

The Company is required under current authoritative accounting guidance to disclose the estimated fair value of their financial instruments that are not recorded at fair value. For the Company, as for most financial institutions, substantially all of its assets and

liabilities are considered financial instruments. A financial instrument is defined as cash, evidence of an ownership interest in an entity or a contract that creates a contractual obligation or right to deliver or receive cash or another financial instrument from a second entity. The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Cash and Cash Equivalents Include: Cash and Due from Banks and Interest-Bearing Deposits

The carrying amount of these short-term instruments is a reasonable estimate of fair value.

Securities Held for Investment

For securities held for investment, which are generally traded in secondary markets, fair values are based on quoted market prices or dealer quotes, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities making adjustments for credit or liquidity if applicable.

Loans Held For Sale

The Company originates mortgage loans to be sold. At the time of origination, the acquiring bank has already been determined and the terms of the loan, including interest rate, have already been set by the acquiring bank, allowing the Company to originate the loan at fair value. Mortgage loans are generally sold within 30 days of origination. Loans held for sale are valued using Level 2 inputs. Gains or losses recognized upon the sale of the loans are determined on a specific identification basis.

Loans

To determine the fair value of loans, the Company uses an exit price calculation, which takes into account factors such as liquidity, credit and the nonperformance risk of loans. For certain homogeneous categories of loans, such as some residential mortgages, fair values are estimated using the quoted market prices for securities backed by similar loans, adjusted for differences in loan characteristics. The fair values of other types of loans are estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities.

Deposits

The fair values of transaction and savings accounts are the amounts payable on demand at the reporting date. The fair values of fixed-maturity certificates of deposit are estimated using the rates currently offered for deposits of similar remaining maturities.

Short-term Borrowings

The amounts payable on these short-term instruments are reasonable estimates of fair value.

Junior Subordinated Debentures

The fair values of junior subordinated debentures are estimated using the rates that would be charged for junior subordinated debentures of similar remaining maturities.

Loan Commitments and Letters of Credit

The fair values of commitments are estimated using the fees currently charged to enter into similar agreements, taking into account the terms of the agreements. The fair values of letters of credit are based on fees currently charged for

similar agreements.

The estimated fair values of the Company's financial instruments that are reported at amortized cost in the Company's consolidated balance sheets, segregated by the level of valuation inputs within the fair value hierarchy utilized to measure fair value, are as follows:

Non-financial Assets and Non-financial Liabilities Measured at Fair Value

The Company has no non-financial assets or non-financial liabilities measured at fair value on a recurring basis. Certain non-financial assets and non-financial liabilities measured at fair value on a nonrecurring basis include intangible assets (excluding mortgage service rights, which are valued periodically) and other non-financial long-lived assets measured at fair value and adjusted for impairment. These items are evaluated at least annually for impairment. The overall levels of non-financial assets and non-financial liabilities measured at fair value on a nonrecurring basis were not considered to be significant to the Company at March 31, 2019 or December 31, 2018.

(11) SEGMENT INFORMATION

The Company evaluates its performance with an internal profitability measurement system that measures the profitability of its business units on a pre-tax basis. The four principal business units are metropolitan banks, community banks, other financial services and executive, operations and support. Metropolitan and community banks offer traditional banking products such as commercial and retail lending and a full line of deposit accounts. Metropolitan banks consist of banking locations in the metropolitan Oklahoma City and Tulsa areas. Community banks consist of banking locations in communities throughout Oklahoma. Other financial services are specialty product business units including guaranteed small business lending, residential mortgage lending, trust services, securities brokerage, electronic banking and insurance. The executive, operations and support groups represent

executive management, operational support and corporate functions that are not allocated to the other business units.

The financial information for each business unit is presented on the basis used internally by management to evaluate performance and allocate resources. The Company utilizes a transfer pricing system to allocate the benefit or cost of funds provided or used by the various business units. Certain services provided by the support group to other business units, such as item processing, are allocated at rates approximating the cost of providing the services. Eliminations are adjustments to consolidate the business units and companies. Capital expenditures are generally charged to the business unit using the asset.

(12) SUBSEQUENT EVENT

On April 23, 2019 BancFirst Corporation entered into an agreement to acquire Pegasus Bank (“Pegasus”), for an aggregate cash purchase price of \$122.0 million. Pegasus is a Texas chartered bank with three banking locations in Dallas, Texas. As of December 31, 2018, Pegasus had approximately \$639.1 million in total assets, \$367.4 million in loans and \$595.3 million in deposits. The acquisition is expected to be completed during the third quarter of 2019 and is subject to regulatory approval. Upon acquisition, Pegasus will continue to operate as “Pegasus Bank” under a separate Texas charter and remain an independent subsidiary of BancFirst Corporation governed by its existing board of directors. BancFirst Corporation intends to provide an appropriate amount of capital or other support to increase Pegasus’ ability to approve larger loans and allow Pegasus to continue to grow their assets.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis presents factors that the Company believes are relevant to an assessment and understanding of the Company's consolidated financial position and results of operations. This discussion and analysis should be read in conjunction with the Company's December 31, 2018 consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2018 and the Company's consolidated financial statements and the related Notes included in Item 1.

FORWARD LOOKING STATEMENTS

The Company may make forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 with respect to earnings, credit quality, corporate objectives, interest rates and other financial and business matters. Forward-looking statements include estimates and give management's current expectations or forecasts of future events. The Company cautions readers that these forward-looking statements are subject to numerous assumptions, risks and uncertainties, including economic conditions; the performance of financial markets and interest rates; legislative and regulatory actions and reforms; competition; as well as other factors, all of which change over time. Examples of forward-looking statements include, but are not limited to: (i) projections of revenues, expenses, income or loss, earnings or loss per share, the payment or nonpayment of dividends, capital structure and other financial items; (ii) statements of plans, objectives and expectations, including those relating to products or services; (iii) statements of future economic performance; and (iv) statements of assumptions underlying such statements. Words such as "believes", "anticipates", "expects", "intends", "targeted", "continue", "remain", "will", "should", "may" and other similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements.

Forward-looking statements involve risks and uncertainties that may cause actual results to differ materially from those in such statements. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to:

- Local, regional, national and international economic conditions and the impact they may have on the Company and its customers and the Company's assessment of that impact.
- Changes in the mix of loan geographies, sectors and types or the level of non-performing assets and charge-offs.
- Inflation, interest rate, crude oil price, securities market and monetary fluctuations.
- The effect of changes in laws and regulations (including laws and regulations concerning taxes, banking, securities and insurance) with which the Company must comply.
- Impairment of the Company's goodwill or other intangible assets.
- Changes in consumer spending, borrowing and savings habits.
- Changes in the financial performance and/or condition of the Company's borrowers.
- Technological changes.
- Acquisitions and integration of acquired businesses.
- The effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standard setters.
- The Company's success at managing the risks involved in the foregoing items.

Actual results may differ materially from forward-looking statements.

SUMMARY

BancFirst Corporation's net income for the first quarter of 2019 was \$31.8 million, compared to \$29.6 million for the first quarter of 2018. Diluted net income per common share was \$0.96 and \$0.89 for the first quarter of 2019 and 2018, respectively. On January 11, 2018 the Company completed the acquisitions of two Oklahoma banking corporations. Consequently, the first quarter of 2018 included one-time acquisition related expenses of approximately \$2.2 million.

The Company's net interest income for the first quarter of 2019 increased to \$66.9 million, compared to \$63.0 million for the first quarter of 2018. The net interest margin for the quarter was 3.85%, compared to 3.66% a year ago. The increase in margin was primarily due to the increase in the federal funds rate throughout 2018. The Company's provision for loan losses for the first quarter of 2019 was \$1.7 million, compared to \$314,000 a year ago. The increase in the provision was primarily due to downgrades of a few commercial loans and loan growth during the quarter. Net charge-offs for the quarter were less than 0.01% of average loans, compared to 0.01% for the first quarter of 2018. Noninterest income for the quarter totaled \$32.0 million, compared to \$30.1 million last year. Noninterest expense for the quarter totaled \$56.2 million, compared to \$55.9 million last year. The slight increase in noninterest expenses was due to salary increases in 2019 offset by a decrease in other expenses due to nonrecurring acquisition related expenses in 2018. The Company's effective tax rate was 22.4% compared to 19.8% for the first quarter of 2018. The lower effective tax rate for the first quarter of 2018 was due to the exercise of stock options.

At March 31, 2019, the Company's total assets were \$7.7 billion, an increase of \$134.7 million from December 31, 2018. Securities of \$724.9 million were down \$47.3 million from December 31, 2018, due to maturing U.S. treasury securities. Loans totaled \$5.1 billion, an increase of \$66.1 million from December 31, 2018. Deposits totaled \$6.7 billion, an increase of \$100.9 million from the December 31, 2018. The Company's total stockholders' equity was \$927.9 million, an increase of \$25.1 million over December 31, 2018.

Asset quality remained strong during the first quarter of 2019. Nonperforming and restructured assets represented 0.58% of total assets at March 31, 2019 and 0.59% at December 31, 2018. The allowance to total loans was 1.05% up slightly from 1.03% at year-end 2018. The allowance to nonperforming and restructured loans was 138.10% compared to 136.29% at year-end 2018.

On April 23, 2019 BancFirst Corporation entered into an agreement to acquire Pegasus, for an aggregate cash purchase price of \$122.0 million. Pegasus is a Texas chartered bank with three banking locations in Dallas, Texas. As of December 31, 2018, Pegasus had approximately \$639.1 million in total assets, \$367.4 million in loans and \$595.3 million in deposits. The acquisition is expected to be completed during the third quarter of 2019 and is subject to regulatory approval. Upon acquisition, Pegasus will continue to operate as "Pegasus Bank" under a separate Texas charter and remain an independent subsidiary of BancFirst Corporation governed by its existing board of directors. BancFirst Corporation intends to provide an appropriate amount of capital or other support to increase Pegasus' ability to approve larger loans and allow Pegasus to continue to grow their assets.

On August 31, 2018, BFTower, LLC, a wholly-owned subsidiary of BancFirst, purchased the Cotter Ranch Tower in Oklahoma City for the Company's corporate headquarters for \$21.0 million. Cotter Ranch Tower was subsequently renamed BancFirst Tower. BancFirst Tower consists of an aggregate of 507,000 square feet, has 36 floors and is the second tallest building in Oklahoma City. The BancFirst Tower will remain an income producing property as approximately 55% is currently leased to outside tenants. BancFirst Tower will allow the Company to consolidate operations from three locations to one and will improve operational efficiencies. Upon consolidation, the Company expects to initially occupy approximately 35% of the BancFirst Tower, resulting in approximately 90% total

occupancy. Renovations on BancFirst Tower will be substantially completed by the end of 2020 and are expected to cost approximately \$70 million. The renovation costs include substantial deferred maintenance including HVAC, plumbing, electrical, elevators, building skin and roof while also including much needed improvements to both the interior and exterior common areas including the lobby, underground and outdoor plaza. The Company could start depreciating certain components of the renovation as they are put into service as early as September 2019. The total purchase price and renovation costs were determined to be favorable to other alternatives, such as constructing new corporate headquarters. On December 14, 2018, BFTower LLC, purchased a 42.6% ownership interest in SPFG, LLC, which is the owner of a 1,568 space parking garage adjacent to BancFirst Tower, for \$9.8 million.

On January 11, 2018, the Company completed the acquisitions of two Oklahoma banking corporations. First Wagoner Corporation and its subsidiary bank, First Bank & Trust Company, and First Chandler Corp. and its subsidiary bank, First Bank of Chandler, had combined total assets of approximately \$378 million. The Company exchanged a combination of cash and stock for these transactions.

Net Interest Income

For the three months ended March 31, 2019, net interest income, which is the Company's principal source of operating revenue, increased \$3.9 million compared to the three months ended March 31, 2018. Net interest margin is the ratio of taxable-equivalent net interest income to average earning assets for the period. The Company's net interest margin for the first quarter of 2019 compared to the first quarter of 2018 increased primarily due to the increases in the federal funds rate throughout 2018.

Provision for Loan Losses

The Company's provision for loan losses for the first quarter of 2019 was \$1.7 million compared to \$314,000 a year ago. The increase in the provision was primarily due to downgrades of a few commercial loans and loan growth during the quarter. The Company establishes an allowance as an estimate of the probable inherent losses in the loan portfolio at the balance sheet date. Management believes the allowance for loan losses is appropriate based upon management's best estimate of probable losses that have been incurred within the existing loan portfolio. Should any of the factors considered by management in evaluating the appropriate level of the allowance for loan losses change, the Company's estimate of probable loan losses could also change, which could affect the amount of future provisions for loan losses. Net loan charge-offs were \$158,000 for the first quarter of 2019, compared to \$430,000 for the first quarter of 2018. The rate of net charge-offs to average total loans, as presented in the preceding table, continues to be at a very low level.

Noninterest Income

Noninterest income, as presented in the preceding table, increased slightly by \$1.9 million for first quarter of 2019 compared to first quarter of 2018. Noninterest income included increases in debit card usage fees and non-sufficient funds fees. The Company had fees from debit card usage totaling \$7.7 million and \$6.8 million during the three month periods ended March 31, 2019 and 2018, respectively. This represents 24.2% and 22.7% of the Company's noninterest income for the three month periods ended March 31,

2019 and 2018, respectively. In addition, the Company has non-sufficient funds fees totaling \$7.6 million and \$7.2 million for the three month periods ended March 31, 2019 and 2018, respectively. This represents 23.8% and 24.0% of the Company's noninterest income for the three month periods ended March 31, 2019 and 2018, respectively.

The Durbin Amendment is a provision in the larger Dodd-Frank Act that gave the Federal Reserve the authority to establish rates on debit card transactions. The Durbin Amendment aims to control debit card interchange fees and restrict anti-competitive practices. The law applies to banks with over \$10 billion in assets and limits these banks on what they charge for debit card interchange fees. If the Company grows to exceed \$10 billion in assets, the Durbin Amendment will decrease the Company's income from debit card usage fees by approximately \$15 million annually based on current volume.

Noninterest Expense

For the three months ended March 31, 2019, noninterest expense totaled \$56.2 million, compared to \$55.9 million for the three months ended March 31, 2018. The slight increase in noninterest expense was due to salary increases in 2019 offset by a decrease in other expense due to nonrecurring acquisition related expenses of approximately \$2.2 million in 2018.

Income Taxes

The Company's effective tax rate on income before taxes was 22.4% for the first quarter of 2019, compared to 19.8% for the first quarter of 2018. The lower effective tax rate for the first quarter of 2018 was due to the exercise of stock options.

(1) Refer to the "Reconciliation of Tangible Book Value per Common Share (non-GAAP)" Table

(2) Tangible book value per common share is stockholders' equity less goodwill and intangible assets, net, divided by common shares outstanding. This amount is a non-GAAP financial measure but has been included as it is considered to be a critical metric with which to analyze and evaluate the financial condition and capital strength of the Company. This measure should not be considered a substitute for operating results determined in accordance with GAAP.

Cash and Interest-Bearing Deposits with Banks

The aggregate of cash and due from banks and interest-bearing deposits with banks increased slightly by \$53.2 million or 3.7% to \$1.5 billion, from December 31, 2018 to March 31, 2019.

Securities

At March 31, 2019, total debt securities decreased \$47.3 million, or 6.1% compared to December 31, 2018, due to maturing U.S. treasury securities. The size of the Company's securities portfolio is determined by the Company's liquidity and asset/liability management. The net unrealized gain on securities available for sale, before taxes, was \$538,000 at March 31, 2019, compared to a net unrealized loss of \$2.9 million at December 31, 2018. These unrealized gains and losses are included in the Company's stockholders' equity as accumulated other comprehensive income, net of income tax, in the amounts of a gain of \$401,000 at March 31, 2019 and a loss of \$2.1 million at December 31, 2018.

Loans (Including Acquired Loans)

At March 31, 2019, loans totaled \$5.1 billion, an increase of \$66.1 million from December 31, 2018. The slight increase in loans was due to internal growth.

Allowance for Loan Losses/Fair Value Adjustments on Acquired Loans

At March 31, 2019, the allowance for loan losses to total loans represented 1.05% of total loans, compared to 1.03% at December 31, 2018.

The fair value adjustment on acquired loans consists of an interest rate component to adjust the effective rates on the loans to market rates and a credit component to adjust for estimated credit exposures in the acquired loans. The interest rate component was \$2.1 million at March 31, 2019 and \$2.2 million at December 31, 2018. The credit component of the adjustment was \$7.0 million at March 31, 2019 and \$7.6 million at December 31, 2018 while the acquired loans outstanding were \$242.6 million and \$294.6 million, respectively.

Nonperforming and Restructured Assets

Nonperforming and restructured assets totaled \$44.7 million at March 31, 2019, compared to \$44.6 million at December 31, 2018. The Company's level of nonperforming and restructured assets has continued to be relatively low.

Nonaccrual loans totaled \$21.6 million at March 31, 2019, compared to \$22.6 million at the end of 2018. The Company's nonaccrual loans are primarily commercial and real estate loans. Nonaccrual loans negatively impact the Company's net interest margin. A loan is placed on nonaccrual status when, in the opinion of management, the future collectability of interest or principal or both is in serious doubt. Interest income is recognized on certain of these loans on a cash basis if the full collection of the remaining principal balance is reasonably expected. Otherwise, interest income is not recognized until the principal balance is fully collected. Had nonaccrual loans performed in accordance with their original contractual terms, the Company would have recognized additional interest income of approximately \$544,000 for the first quarter of 2019 and \$542,000 for the first quarter of 2018. Only a small amount of this interest is expected to be ultimately collected.

Restructured loans totaled \$14.6 million at March 31, 2019, compared to \$13.2 million at the end of 2018. The increase in restructured loans was due primarily to a few commercial loans identified as troubled debt restructurings during the quarter. The Company charges interest on principal balances outstanding during deferral periods. As a result, the current and future financial effects of the recorded balance of loans considered to be troubled debt restructurings whose terms were modified during the period were not considered to be material.

Other real estate owned and repossessed assets totaled \$6.4 million at March 31, 2019, compared to \$6.9 million at December 31, 2018.

Potential problem loans are performing loans to borrowers with a weakened financial condition, or which are experiencing unfavorable trends in their financial condition, which causes management to have concerns as to the ability of such borrowers to comply with the existing repayment terms. The Company had approximately \$16.8 million of these loans at March 31, 2019, compared to \$8.0 million at December 31, 2018. Potential problem loans are not included in nonperforming and restructured loans. In general, these loans are adequately collateralized and have no specific identifiable probable loss. Loans which are considered to have identifiable probable loss potential are placed on nonaccrual status, are allocated a specific allowance for loss or are directly charged-down, and are reported as nonperforming.

Liquidity and Funding

Deposits

At March 31, 2019, deposits totaled \$6.7 billion, an increase of \$100.9 million or 1.5% from the December 31, 2018 total. The Company's core deposits provide it with a stable, low-cost funding source. The Company's core deposits as a percentage of total

deposits were 98.1% at both March 31, 2019 and December 31, 2018. Noninterest-bearing deposits to total deposits were 39.7% at March 31, 2019, compared to 39.6% at December 31, 2018.

Short-Term Borrowings

Short-term borrowings, consisting primarily of federal funds purchased and repurchase agreements are another source of funds for the Company. The level of these borrowings is determined by various factors, including customer demand and the Company's ability to earn a favorable spread on the funds obtained. Short-term borrowings were \$5.2 million at March 31, 2019, compared to \$1.7 million at December 31, 2018.

Long-Term Borrowings

The Company has a line of credit from the Federal Home Loan Bank ("FHLB") of Topeka, Kansas to use for liquidity or to match-fund certain long-term fixed-rate loans. The Company's assets, including residential first mortgages of \$785.3 million, are pledged as collateral for the borrowings under the line of credit. As of March 31, 2019 and December 31, 2018, the Company had no advances outstanding under the line of credit from FHLB. In addition, the Company has a revolving line of credit with another financial institution with the ability to draw up to \$10.0 million with no advances outstanding. This line of credit has a variable rate based on prime rate minus 25 basis points and matures in 2020.

There have not been any other material changes from the liquidity and funding discussion included in Management's Discussion and Analysis in the Company's Annual Report on Form 10-K for the year ended December 31, 2018.

Capital Resources

Stockholders' equity totaled \$927.9 million at March 31, 2019, compared to \$902.8 million at December 31, 2018. In addition to net income of \$31.8 million, other changes in stockholders' equity during the three months ended March 31, 2019 included \$326,000 related to common stock issuances, \$174,000 related to stock-based compensation and a \$2.5 million increase in other comprehensive income, that were partially offset by \$9.7 million in dividends. The Company's leverage ratio and total risk-based capital ratios at March 31, 2019, were well in excess of the regulatory requirements.

See Note (8) of the Notes to Consolidated Financial Statements for a discussion of capital ratio requirements.

CONTRACTUAL OBLIGATIONS

There have not been any material changes in the resources required for scheduled repayments of contractual obligations from the table of Contractual Cash Obligations included in Management's Discussion and Analysis which was included in the Company's Annual Report on Form 10-K for the year ended December 31, 2018.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no significant changes in the Registrant's disclosures regarding market risk since December 31, 2018, the date of its most recent annual report to stockholders.

Item 4. Controls and Procedures.

The Company's Chief Executive Officer, Chief Financial Officer and its Disclosure Committee, which includes the Company's Executive Chairman, Chief Risk Officer, Chief Internal Auditor, Chief Asset Quality Officer, Controller, General Counsel and Vice President of Corporate Finance, have evaluated, as of the last day of the period covered by this report, the Company's disclosure controls and procedures. Based on their evaluation they concluded that the disclosure controls and procedures of the Company are effective to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the applicable rules and forms.

No changes were made to the Company's internal control over financial reporting during the period covered by this report that materially affected, or are likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

The Company has been named as a defendant in various legal actions arising from the conduct of its normal business activities. Although the amount of any liability that could arise with respect to these actions cannot be accurately predicted, in the opinion of the Company, any such liability will not have a material adverse effect on the consolidated financial statements of the Company.

Item 1A. Risk Factors.

Except as set forth below, as of March 31, 2019, there have been no material changes from the risk factors previously disclosed in Part I, Item 1A, of the Company's Annual Report on Form 10-K for the year ended December 31, 2018:

The Company's noninterest income may be reduced

The Durbin Amendment is a provision in the larger Dodd-Frank Act that gave the Federal Reserve the authority to establish rates on debit card transactions. The Durbin Amendment aims to control debit card interchange fees and restrict anti-competitive practices. The law applies to banks with over \$10 billion in assets and limits these banks on what they charge for debit card interchange fees. If the Company grows to exceed \$10 billion in assets, the Durbin Amendment will decrease the Company's income from debit card usage fees by approximately \$15 million annually based on current volume.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.
