Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the three months ended March 31, 2016 and 2015

1. Basis of Presentation

Cheviot Financial Corp. (“Cheviot Financial” or the “Corporation”) is a savings and loan holding company, the principal asset of which consists of its ownership of Cheviot Savings Bank (the “Savings Bank”). The Savings Bank conducts a general banking business in southwestern Ohio, which consists of attracting deposits and applying those funds primarily to the origination of real estate loans. The Savings Bank’s profitability is significantly dependent on net interest income, which is the difference between interest income from interest-earning assets and the interest expense paid on interest-bearing liabilities. Net interest income is affected by the relative amount of interest-earning assets and interest-bearing liabilities and the interest received or paid on these balances.

On January 18, 2012, we completed our second step reorganization and sale of common stock. Prior to the completion of the second step conversion, Cheviot Financial was a federal corporation and mid-tier holding company. Following the reorganization Cheviot Financial is the Maryland incorporated holding company of the Savings Bank.

The accompanying unaudited consolidated financial statements were prepared in accordance with instructions for Form 10-Q and, therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America. Accordingly, these consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto of Cheviot Financial included in the Annual Report on Form 10-K for the year ended December 31, 2015. However, in the opinion of management, all adjustments (consisting of only normal recurring accruals) which are necessary for a fair presentation of the consolidated financial statements have been included. The results of operations for the three month period ended March 31, 2016 are not necessarily indicative of the results which may be expected for the entire year.

On November 23, 2015, the Company entered into an Agreement and Plan of Merger (the “Merger Agreement”) with MainSource Financial Group, Inc., an Indiana corporation (“MainSource”), pursuant to which the Company will merge with and into MainSource, whereupon the separate corporate existence of the Company will cease and MainSource will survive (the “Merger”). It is anticipated that immediately after the Merger, the Bank will merge with and into

MainSource Bank, an Indiana chartered commercial bank and wholly-owned subsidiary of MainSource, with MainSource Bank as the surviving bank.

Subject to the approval of the Company's shareholders of the Merger, regulatory approvals and other customary closing conditions, the parties anticipate completing the Merger in the second quarter of 2016. At the effective time of the Merger, the Company's shareholders will have the right to elect to receive either 0.6916 shares of MainSource common stock or \$15.00 in cash for each share of Company common stock owned, subject to proration provisions specified in the Merger Agreement that provide for a targeted aggregate split of total consideration of 50% common stock and 50% cash.

Cheviot Financial evaluates subsequent events through the date of filing with the Securities and Exchange Commission.

2. Principles of Consolidation

The accompanying consolidated financial statements as of and for the three months ended March 31, 2016 and 2015 include the accounts of the Corporation and its wholly-owned subsidiary, the Savings Bank. All significant intercompany items have been eliminated.

Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three months ended March 31, 2016 and 2015

3. Liquidity and Capital Resources

Liquidity describes our ability to meet the financial obligations that arise in the ordinary course of business. Liquidity is primarily needed to meet the borrowing and deposit withdrawal requirements of our customers and to fund current and planned expenditures. Our primary sources of funds are deposits, scheduled amortization and prepayments of loan principal and mortgage-backed securities, maturities and calls of securities and funds provided by our operations. In addition, we may borrow from the Federal Home Loan Bank of Cincinnati. At March 31, 2016 and December 31, 2015, we had \$12.1 million and \$12.6 million, respectively, in outstanding borrowings from the Federal Home Loan Bank of Cincinnati and had the capacity to increase such borrowings at those dates by approximately \$135.6 million and \$139.1 million, respectively.

Loan repayments and maturing securities are a relatively predictable source of funds. However, deposit flows, calls of securities and prepayments of loans and mortgage-backed securities are strongly influenced by interest rates, general and local economic conditions and competition in the marketplace. These factors reduce the predictability of these sources of funds.

Our primary investing activities are the origination of one- to four-family real estate loans, commercial real estate, construction and consumer loans, and the purchase of securities. For the three months ended March 31, 2016, loan originations totaled \$16.7 million, compared to \$24.4 million for the three months ended March 31, 2015.

Total deposits decreased \$8.2 million during the three months ended March 31, 2016 and increased \$3.7 million during the three months ended March 31, 2015. Deposit flows are affected by the level of interest rates, the interest rates and products offered by competitors and other factors.

The following table sets forth information regarding the Corporation's obligations and commitments to make future payments under contracts as of March 31, 2016.

	Payments due by period				
	Less than 1 year (In thousands)	More than 1-3 years	More than 3-5 years	More than 5 years	Total
Contractual obligations:					
Advances from the Federal Home Loan Bank	\$ 10,154	\$ 834	\$ 1,084	\$ -	\$ 12,072
Certificates of deposit	106,511	41,542	47,213	82	195,348
Lease obligations	125	170	119	70	484
Amount of loan commitments and expiration per period:					
Commitments to originate one- to four-family loans	1,452	-	-	-	1,452
Commitments to originate commercial loans	470	-	-	-	470
Home equity lines of credit	24,955	-	-	-	24,955
Commercial lines of credit	13,855	-	-	-	13,855
Undisbursed loans in process	12,343	-	-	-	12,343
Total contractual obligations	\$ 169,865	\$ 42,546	\$ 48,416	\$ 152	\$ 260,979

We are committed to maintaining a strong liquidity position and we monitor our liquidity position on a daily basis. We anticipate that we will have sufficient funds to meet our current funding commitments. Based on our deposit retention experience and current pricing strategy, we anticipate that a significant portion of maturing time deposits will be retained.

Cheviot Financial Corp.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

For the three months ended March 31, 2016 and 2015

3. Liquidity and Capital Resources (continued)

The following sets forth our regulatory capital position, compared to requirements to be considered “well-capitalized” as of March 31, 2016 under regulatory capital requirements enacted in 2015.

As of March 31, 2016
(Dollars in Thousands)

	Required Ratio		Actual Amount	Actual Ratio	
Tier 1 Leverage	5.00	%	\$ 78,886	14.3	%
Common Equity Tier 1 Capital	6.50	%	\$ 78,886	22.0	%
Tier 1 Risk-Based Capital	8.00	%	\$ 78,886	22.0	%
Total Capital	10.00	%	\$ 82,897	23.1	%

As of December 31, 2015
(Dollars in Thousands)

	Required Ratio		Actual Amount	Actual Ratio	
Tier 1 Leverage	5.00	%	\$ 78,699	13.9	%
Common Equity Tier 1 Capital	6.50	%	\$ 78,699	21.6	%
Tier 1 Risk-Based Capital	8.00	%	\$ 78,699	21.6	%
Total Capital	10.00	%	\$ 82,236	22.5	%

4. Earnings Per Share

Basic earnings per share is computed based upon the weighted-average common shares outstanding during the period, less shares in the Employee Stock Ownership Plan (the “ESOP”) that are unallocated and not committed to be released

Edgar Filing: Cheviot Financial Corp. - Form 10-Q

plus shares in the ESOP that have been allocated. Weighted-average common shares deemed outstanding gives effect to 149,600 and 158,950 unallocated shares held by the ESOP for the three months ended March 31, 2016 and 2015, respectively.

	For the three months ended March 31,	
	2016	2015
Weighted-average common shares outstanding (basic)	6,647,068	6,573,652
Dilutive effect of assumed exercise of stock options	96,007	90,132
Weighted-average common shares outstanding (diluted)	6,743,075	6,663,784

Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three months ended March 31, 2016 and 2015

5. Stock Option Plan

The Corporation established Stock Incentive Plans that provides for grants of up to 884,018 stock options. During 2015, 189,070 stock options were granted in accordance with the 2005 and 2013 Equity Incentive Plans subject to a five year vesting period in which the options granted will vest ratably annually beginning one year from the date of grant. As of March 31, 2016, all option shares have been granted in accordance with the 2005 and 2013 Equity Incentive Plans. The shares in the 2005 plan and shares granted prior to the second step conversion have been adjusted to reflect the exchange ratio of 0.857 for the second step conversion that occurred in 2012.

The Corporation follows Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) Topic 718, "Compensation – Stock Compensation," for its stock option plans, and accordingly, the Corporation recognizes the expense of these grants as required. Stock-based employee compensation costs pertaining to stock options is reflected as a net increase in equity, for both any new grants, as well as for all unvested options outstanding, in both cases using the fair values established by usage of the Black-Scholes option pricing model, expensed over the vesting period of the underlying option.

The compensation cost recorded for unvested equity-based awards is based on their grant-date fair value. For the three months ended March 31, 2016, the Corporation recorded \$44,000 of compensation cost for equity-based awards that vested during the three months ended March 31, 2016. The Corporation has \$621,000 of unrecognized compensation cost related to non-vested equity-based awards granted under its stock incentive plan as of March 31, 2016, which is expected to be recognized over a weighted-average vesting period of approximately 3.6 years.

Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three months ended March 31, 2016 and 2015

5. Stock Option Plan (continued)

A summary of the status of the Corporation's stock option plans (or "stock options") as of March 31, 2016, and changes during the period then ended is presented below:

	Three months ended March 31, 2016		Year ended December 31, 2015	
	Shares	Weighted- average exercise price	Shares	Weighted- average exercise price
Outstanding at beginning of period	544,168	\$ 13.29	758,929	\$ 12.67
Granted	-	-	189,070	14.96
Exercised	-	-	(328,831)	13.01
Forfeited	-	-	(75,000)	12.48
Outstanding at end of period	544,168	\$ 13.29	544,168	\$ 13.29
Options exercisable at period-end	112,264	\$ 12.32	112,264	\$ 12.32
Options expected to be exercisable at year-end	211,872		112,264	
Fair value of options granted		<u>NA</u>		\$ 2.05

The following information applies to options outstanding at March 31, 2016:

Number outstanding	544,168
Exercise price	\$8.30 - \$15.90

Edgar Filing: Cheviot Financial Corp. - Form 10-Q

Weighted-average exercise price	\$13.29
Weighted-average remaining contractual life	8.3 years

The expected term of options is based on evaluations of historical and expected future employee exercise behavior. The risk free interest rate is based upon the U.S. Treasury rates at the date of grant with maturity dates approximately equal to the expected life at the grant date. Volatility is based upon the historical volatility of the Corporation's stock.

The fair value of each option granted is estimated on the date of grant using the modified Black-Scholes options-pricing model with the following weighted-average assumptions used for the July 7, 2015 and May 4, 2015 grants: dividend yield of 2.70% and 2.33%; expected volatility of 15.09% and 15.56%; risk-free interest rates of 2.27% and 2.16%; and expected lives of 10 years. There were no grants during the three months ended March 31, 2016.

The effects of expensing stock options are reported in "cash provided by financing activities" in the Consolidated Statements of Cash Flows.

Cheviot Financial Corp.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

6. Investment and Mortgage-backed Securities (continued)

The amortized cost of mortgage-backed securities, including those designated as available for sale, at March 31, 2016, by contractual terms to maturity, is shown below. Expected maturities will differ from contractual maturities because borrowers may generally prepay obligations without prepayment penalties.

	March 31, 2016 (In thousands)
Due in one year or less	\$ 1,889
Due in more than one year through five years	6,246
Due in more than five years through ten years	5,998
Due in more than ten years	10,686
	\$ 24,819

The table below indicates the length of time individual securities have been in a continuous unrealized loss position at March 31, 2016:

Description of securities	Less than 12 months			12 months or longer			Total		
	Fair value		Unrealized losses	Fair value		Unrealized losses	Fair value	Unrealized losses	
	Number of investments			Number of investments			Number of investments		
	(Dollars in thousands)

Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three months ended March 31, 2016 and 2015

6. Investment and Mortgage-backed Securities (continued)

Management does not intend to sell any of the debt securities with an unrealized loss and does not believe that it is more likely than not that we will be required to sell a security in an unrealized loss position prior to a recovery in value. The decline in the fair value is primarily due to an increase in market interest rates. The fair values are expected to recover as securities approach maturity dates. The Corporation has evaluated these securities and has determined that the decline in their values is temporary.

7. Income Taxes

The Corporation uses an asset and liability approach to accounting for income taxes. The asset and liability approach requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred tax assets are recognized if it is more likely than not that a future benefit will be realized. The Corporation accounts for income taxes in accordance with FASB ASC 740, Income Taxes, which prescribes the recognition and measurement criteria related to tax positions taken or expected to be taken in a tax return.

The Corporation's principal temporary differences between financial income and taxable income result mainly from different methods of accounting for Federal Home Loan Bank stock dividends, the general loan loss allowance, deferred compensation, stock benefit plans, fair value adjustments arising from the First Franklin Corporation acquisition. The Corporation has approximately \$400,000 of net operating losses to offset future taxable income. This amount is expected to be utilized during the current year.

The Corporation recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At

adoption date, January 1, 2007, the Corporation applied the standard to all tax positions for which the statute of limitations remained open and was not required to record any liability for unrecognized tax benefits as that date. There have been no material changes in unrecognized tax benefits since January 1, 2007.

The Corporation is subject to income taxes in the U.S. federal jurisdiction, as well as various state jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Corporation is no longer subject to U.S. federal, state and local, or non U.S. income tax examinations by tax authorities for the years before 2012.

The Corporation will recognize, if applicable, interest accrued related to unrecognized tax liabilities in interest expense and penalties in operating expenses.

Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three months ended March 31, 2016 and 2015

7. Income Taxes (continued)

Federal income tax on earnings differs from that computed at the statutory corporate tax rate for the periods ended March 31, 2016 and 2015:

	2016	2015
	(Dollars in thousands)	
Federal income taxes (benefits) at statutory rate of 34%	\$ (9)	\$ 8
Increase (decrease) in taxes resulting primarily from:		
Stock compensation	17	54
Nontaxable interest income	(4)	(5)
Cash surrender value of life insurance	(37)	(37)
Other	2	2
Federal income taxes (benefits) per financial statements	\$ (31)	\$ 22

8. Fair Value of Financial Instruments

Fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practical to estimate the value, is based upon the characteristics of the instruments and relevant market information. Financial instruments include cash, evidence of ownership in an entity or contracts that convey or impose on an entity the contractual right or obligation to either receive or deliver cash for another financial instrument. These fair value estimates are based on relevant market information and information about the financial instruments. Fair value estimates are intended to represent the price for which an asset could be sold or liability could be settled. However, given there is no active market or observable market transactions identical to many of the Corporation's financial instruments, estimates of many of these fair values are based upon observable inputs which are subjective in nature, involve uncertainties and matters of significant judgment, and therefore, cannot be determined with precision.

Changes in assumptions could significantly affect the estimated values.

The following methods and assumptions were used by the Corporation in estimating its fair value disclosures for financial instruments at March 31, 2016:

Cash and cash equivalents: The carrying amounts presented in the consolidated statements of financial condition for cash and cash equivalents are deemed to approximate fair value.

Investment and mortgage-backed securities: For investment and mortgage-backed securities, fair value is deemed to equal the quoted market price.

Loans receivable: The loan portfolio was segregated into categories with similar characteristics, such as one-to four-family residential, multi-family residential and commercial real estate. These loan categories were further delineated into fixed-rate and adjustable-rate loans. The fair values for the resultant loan categories were computed via discounted cash flow analysis, using current interest rates offered for loans with similar terms to borrowers of similar credit quality. For loans on deposit accounts, fair values were deemed to equal the historic carrying values. The historical carrying amount of accrued interest on loans is deemed to approximate fair value.

Federal Home Loan Bank stock: The carrying amount presented in the consolidated statements of financial condition is deemed to approximate fair value.

Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three months ended March 31, 2016 and 2015

8. Fair Value of Financial Instruments (continued)

Deposits: The fair value of NOW accounts, passbook accounts, and money market demand deposits is deemed to approximate the amount payable on demand at March 31, 2016. Fair values for fixed-rate certificates of deposit have been estimated using a discounted cash flow calculation using the interest rates currently offered for deposits of similar remaining maturities.

Advances from the Federal Home Loan Bank: The fair value of these advances is estimated using the rates currently offered for similar advances of similar remaining maturities or, when available, quoted market prices.

Advances by Borrowers for Taxes and Insurance: The carrying amount of advances by borrowers for taxes and insurance is deemed to approximate fair value.

Commitments to extend credit: For fixed-rate loan commitments, the fair value estimate considers the difference between current levels of interest rates and committed rates. At March 31, 2016, the fair value of the derivative loan commitments was not material.

9. Disclosures about Fair Value of Assets and Liabilities

The estimated fair values of the Company's financial instruments are as follows:

For the three months ended March 31, 2016 and 2015

9. Disclosures about Fair Value of Assets and Liabilities (continued)

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-level hierarchy exists for fair value measurements based upon the inputs to the valuation of an asset or liability.

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Fair value methods and assumptions are set forth below for each type of financial instrument.

Securities available for sale: Fair value on available for sale securities was based upon a market approach. Securities which are fixed income instruments that are not quoted on an exchange, but are traded in active markets, are valued using prices obtained from our custodian, which used third party data service providers and classified as level 2 assets. Management compares the fair values to another third party report for reasonableness. Available for sale securities includes U.S. agency securities, municipal bonds and mortgage-backed agency securities.

10. Effects of Recent Accounting Pronouncements

We adopted the following accounting guidance in 2016, which did not have a material effect, if any, on our consolidated financial position or results of operations.

In January 2016, FASB issued ASU No. 2016-01, Financial Instruments-Overall (Subtopic 825-10). The amendments in this update affect all entities that hold financial assets or owe financial liabilities. The update's main provisions applicable to the Corporation are as follows: 1) Require equity investments with readily available fair values (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income; 2) Simplify the impairment assessment of

equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; 3) Eliminate the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; 4) Require public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; 5) Require separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements; and 6) Clarify that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. Public companies should apply the guidance in Update 2016-01 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Early adoption is generally not permitted. An entity should apply the amendments by means of a cumulative-effect adjustment to the balance sheet as of the beginning of the annual reporting period of adoption. We do not expect the adoption of these provisions to have a significant impact on the Company's consolidated financial statements.

Cheviot Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three months ended March 31, 2016 and 2015

11. Intangible Assets

The Corporation recorded goodwill and other intangibles associated with the purchase of First Franklin and Franklin Savings in March 2011 totaling \$11.6 million. Goodwill is not amortized, but is periodically evaluated for impairment. The Corporation did not recognize any impairment during the quarter ended March 31, 2016. The carrying amount of the goodwill at March 31, 2016 was \$10.3 million.

Identifiable intangibles are amortized to their estimated residual values over the expected useful lives. Such lives are also periodically reassessed to determine if any amortization period adjustments are required. During the quarter ended March 31, 2016, no such adjustments were recorded. The identifiable intangible asset consists of a core deposit intangible which is being amortized on an accelerated basis over the useful life of such asset. The gross carrying amount of the core deposit intangible at March 31, 2016 was \$1.3 million with \$1.1 million in accumulated amortization as of that date.

As of March 31, 2016, the current year and estimated future amortization expense for the core deposit intangible was:

(In thousands)	
2016 \$	82
2017	110
2018	55
Total \$	247

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three months ended March 31, 2016 and 2015

12. Financing receivables (continued)

Activity during 2016 for the accretable discount related to acquired credit impaired loans is as follows:

	(In thousands)
Accretable discount at December 31, 2015:	\$ 3,432
Reclass from accretable difference to nonaccretable discount	(91)
Less transferred to other real estate owned	-
Less accretion	(119)
Accretable discount at March 31, 2016:	\$ 3,222

The recorded investment in loans was as follows as of March 31, 2016. Subsequent to acquisition, we regularly evaluate our estimates of cash flows expected to be collected on purchased impaired loans. If we have probable decreases in cash flows expected to be collected (other than due to decreases in interest rate indices and changes in prepayment assumptions), we charge the provision for credit losses, resulting in an increase to the allowance for loan losses. If we have probable and significant increases in cash flows expected to be collected, we first reverse any previously established allowance for loan losses and then increase interest income as a prospective yield adjustment over the remaining life of the loan, or pool of loans. Estimates of cash flows are impacted by changes in interest rate indices for variable rate loans and prepayment assumptions, both of which are treated as prospective yield adjustments included in interest income. Cheviot Financial's allowance at March 31, 2016 does not include any credit quality discount related to loans acquired from First Franklin, other than \$910,000 for certain one-to-four family residential and nonresidential and commercial real estate loans. Due to uncertainties in the evaluation of allowance for loan loss, it is at least reasonably possible that management's estimate of the outcome will change within the next year.

Cheviot Financial Corp.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

For the three months ended March 31, 2016 and 2015

12. Financing receivables (continued)

The Corporation assigns credit risk grades to evaluated loans using grading standards employed by regulatory agencies. Loans judged to carry lower-risk attributes are assigned a “pass” grade, indicating a minimal likelihood of loss. Loans judged to carry a higher-risk attributes are referred to as “classified loans” and are further disaggregated, with increasing expectations for loss recognition, as “special mention”, “substandard”, “doubtful”, and “loss”. The Loan Classification of Assets committee assigns the credit risk grades to loans and reports to the board on a monthly basis the “classified asset” report.

The following table summarizes the credit risk profile by internally assigned grade:

Originated Loans at March 31, 2016						
One-to-four						
	Family	Multi-family	Construction	Commercial	Consumer	Total
	Residential	Residential				
(In thousands)

The modifications related to interest only payments ranging from a three to six month period. Due to the short term cash flow deficiency, no related allowance was recorded as a result of the restructurings. The collateral value was updated with recent appraisals which gave no indication of impairment.

Cheviot Financial Corp.

ITEM 2. MANAGEMENT'S DISCUSSION
AND ANALYSIS OF
FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

Forward Looking Statements

This report on Form 10-Q contains forward-looking statements, which can be identified by the use of such words as estimate, project, believe, intend, anticipate, plan, seek, expect and similar expressions. These forward-looking statements include, among other things:

- statements of our goals, intentions and expectations;
- statements regarding our business plans and prospects and growth and operating strategies;
- statements concerning trends in our provision for loan losses and charge-offs;
- statements regarding the trends in factors affecting our financial condition and results of operations, including asset quality of our loan and investment portfolios; and
- estimates of our risks and future costs and benefits.

These forward-looking statements are subject to significant risks, assumptions and uncertainties, including, among other things, the following important factors that could affect the actual outcome of future events: significantly increased competition among depository and other financial institutions; inflation and changes in the interest rate environment that reduce our interest margins or reduce the fair value of financial instruments; general economic conditions, either nationally or in our market areas, including employment prospects, real estate values and conditions that are worse than expected; decreased demand for our products and services and lower revenue and earnings because of a recession or other events; adverse changes and volatility in the securities markets or credit markets; legislative or regulatory changes that adversely affect our business, including changes in regulatory costs and capital requirements; our ability to enter new markets successfully and take advantage of growth opportunities, and the possible short-term dilutive effect of potential acquisitions or de novo branches, if any; changes in accounting policies and practices, as may be adopted by the bank regulatory agencies, the Financial Accounting Standards Board or the Public Company Accounting Oversight Board; changes in monetary and fiscal policy of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve and changes in the level of government support of housing finance; changes in policy and/or assessment rates of taxing authorities that adversely affect us; changes in our organization, or compensation and benefit plans and changes in expense trends (including, but not limited to trends affecting non-performing assets, charge-offs and provisions for loan losses); the impact of the governmental effort to restructure the U.S. financial and regulatory system, including the extensive reforms enacted in the Dodd-Frank Act and the continuing impact of our coming under the jurisdiction of new federal regulators; the inability of third-party providers to perform their obligations to us; and the ability of the U.S. Government to manage federal debt limits.

Because of these and other uncertainties, our actual future results may be materially different from the results indicated by any forward-looking statements. Any forward-looking statement made by us in this report speaks only as of the date on which it is made. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future developments or otherwise, except as may be required by law.

Cheviot Financial Corp.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (CONTINUED)**

Critical Accounting Policies

We consider accounting policies involving significant judgments and assumptions by management that have, or could have, a material impact on the carrying value of certain assets or on income to be critical accounting policies. We consider the accounting method used for the allowance for loan losses to be a critical accounting policy.

The allowance for loan losses is the estimated amount considered necessary to cover inherent, but unconfirmed credit losses in the loan portfolio at the balance sheet date. The allowance is established through the provision for losses on loans which is charged against income. In determining the allowance for loan losses, management makes significant estimates and has identified this policy as one of the most critical for Cheviot Financial.

Management performs a quarterly evaluation of the allowance for loan losses. Consideration is given to a variety of factors in establishing this estimate including, but not limited to, current economic conditions, delinquency statistics, geographic and industry concentrations, the adequacy of the underlying collateral, the financial strength of the borrower, results of internal loan review and other relevant factors. This evaluation is inherently subjective as it requires material estimates that may be susceptible to significant change.

The analysis has two components, specific and general allocations. Specific allocations are made for unconfirmed losses related to loans that are determined to be impaired. Impairment is measured by determining the present value of expected future cash flows or, for collateral-dependent loans, the fair value of the collateral adjusted for market conditions and selling expenses. If the fair value of the loan is less than the loan's carrying value, a charge-off is recorded for the difference. The general allocation is determined by segregating the remaining loans by type of loan, risk weighting (if applicable) and payment history. We also analyze historical loss experience, delinquency trends, general economic conditions and geographic and industry concentrations. This analysis establishes factors that are applied to the loan groups to determine the amount of the general allowance. Actual loan losses may be significantly more than the allowances we have established which could result in a material negative effect on our financial results.

The acquired assets and assumed liabilities of First Franklin were measured at estimated fair values, as required by FASB under Business Combinations. Management made significant estimates and exercised significant judgment in accounting for the acquisition. Management measured loan fair values based on loan file reviews (including borrower financial statements or tax returns), appraised collateral values, expected cash flows and historical loss factors of Franklin Savings. Real estate acquired through foreclosure was primarily valued based on appraised collateral values. The Corporation also recorded an identifiable intangible asset representing the core deposit base of Franklin Savings based on management's evaluation of the cost of such deposits relative to alternative funding sources. Management used significant estimates including the average lives of depository accounts, future interest rate levels, the cost of servicing various depository products and other significant estimates. Management used market quotations to determine the fair value of investment securities and FHLB advances.

The acquired assets of First Franklin and Franklin Savings include loans receivable. Loans receivable acquired with a deteriorated credit quality amounted to \$25.0 million with a related fair value discount of \$5.5 million. The method of measuring carrying value of purchased loans differs from loans originated by the Corporation, and as such, the Corporation identifies purchased loans and purchased loans with a fair value discount.

Cheviot Financial Corp.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (CONTINUED)**

Critical Accounting Policies (continued)

We classify our investments in debt and equity securities as either held-to-maturity or available-for-sale. Securities classified as held-to-maturity are recorded at cost or amortized cost. Available-for-sale securities are carried at fair value. We obtain our estimated fair values from a third party service. This service's fair value calculations are based on quoted market prices when such prices are available. If quoted market prices are not available, estimates of fair value are computed using a variety of techniques, including extrapolation from the quoted prices of similar instruments or recent trades for thinly traded securities, fundamental analysis, or through obtaining purchase quotes. Due to the subjective nature of the valuation process, it is possible that the actual fair values of these investments could differ from the estimated amounts, thereby affecting our financial position, results of operations and cash flows. If the estimated value of investments is less than the cost or amortized cost, we evaluate whether an event or change in circumstances has occurred that may have a significant adverse effect on the fair value of the investment. If such an event or change has occurred and we determine that the impairment is other-than-temporary, we expense the impairment of the investment in the period in which the event or change occurred. We also consider how long a security has been in a loss position in determining if it is other than temporarily impaired. Management also assesses the nature of the unrealized losses taking into consideration factors such as changes in risk-free interest rates, general credit spread widening, market supply and demand, creditworthiness of the issuer, and quality of the underlying collateral.

Discussion of Financial Condition Changes at March 31, 2016 and December 31, 2015

At March 31, 2016, total assets were \$561.9 million, compared with \$572.0 million at December 31, 2015. Total assets decreased \$10.1 million, or 1.8%, primarily due to a decrease in investment securities of \$14.3 million and a decrease in loans receivable of \$8.9 million, which were partially offset by an increase in mortgage-backed securities of \$17.3 million.

Cash, federal funds and interest-earning deposits decreased \$3.7 million, or 8.5% to \$39.3 million at March 31, 2016. The decrease in cash and cash equivalents at March 31, 2016 was due to a \$5.7 million decrease in cash and due from banks, which was partially offset by an increase \$2.0 million in interest-earning deposits. Investment securities

decreased \$14.3 million, or 15.7% to \$76.9 million at March 31, 2016. The decrease in investment securities was a result of maturities and investments called at par of \$15.0 million. At March 31, 2016, all investment securities were classified as available for sale.

Cheviot Financial Corp.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (CONTINUED)**

Discussion of Financial Condition Changes at March 31, 2016 and December 31, 2015 (continued)

Mortgage-backed securities increased \$17.3 million to \$24.8 million at March 31, 2016, from \$7.5 million at December 31, 2015. The increase in mortgage-backed securities was due primarily to purchases of \$17.6 million, which was partially offset by \$292,000 in principal repayments. At March 31, 2016, all mortgage-backed securities were classified as available for sale.

Loans receivable, including loans held for sale, decreased \$8.9 million, or 2.4%, to \$367.2 million at March 31, 2016, from \$376.2 million at December 31, 2015. The decrease in loans receivable resulted from principal repayments of \$19.6 million and the sale of loans in the secondary market of \$5.7 million, which was partially offset by loan originations of \$16.7 million.

The allowance for loan losses totaled \$4.0 million and \$3.5 million at March 31, 2016 and December 31, 2015, respectively. In determining the adequacy of the allowance for loan losses at any point in time, management and the board of directors apply a systematic process focusing on the risk of loss in the portfolio. First, the loan portfolio is segregated by loan types to be evaluated collectively and loan types to be evaluated individually. Delinquent multi-family and commercial loans are evaluated individually for potential impairments in their carrying value. Second, the allowance for loan losses entails utilizing our historic loss experience by applying such loss percentage to the loan types to be collectively evaluated in the portfolio. The \$541,000 provision for losses on loans during the quarter ended March 31, 2016 reflected these factors. The analysis of the allowance for loan losses requires an element of judgment and is subject to the possibility that the allowance may need to be increased, with a corresponding reduction in earnings. To the best of management's knowledge, all known and inherent losses that are probable and that can be reasonably estimated have been recorded at March 31, 2016.

Originated non-performing and impaired loans totaled \$2.2 million and \$2.4 million at March 31, 2016 and December 31, 2015, respectively. At March 31, 2016, originated non-performing and impaired loans were comprised of 25 loans secured by one- to four-family residential real estate totaling \$2.0 million, one multi-family loan totaling \$193,000, two commercial and non-residential loans totaling \$62,000 and one consumer loan totaling \$4,000. At March 31, 2016 and December 31, 2015 real estate acquired through foreclosure was \$1.3 million and \$1.6 million,

respectively. The allowance for loan losses represented 139.4% and 124.6% of Cheviot Financial's originated non-performing and impaired loans at March 31, 2016 and December 31, 2015, respectively. Although management believes that the Corporation's allowance for loan losses conforms to generally accepted accounting principles based upon the available facts and circumstances, there can be no assurance that additions to the allowance will not be necessary in future periods, which would adversely affect our results of operations.

Deposits totaled \$446.7 million at March 31, 2016, a decrease of \$8.2 million, or 1.8%, from \$454.9 million at December 31, 2015. Advances from the Federal Home Loan Bank of Cincinnati decreased by \$506,000, or 4.0%, to \$12.1 million at March 31, 2016, from \$12.6 million at December 31, 2015. The decrease is a result of \$482,000 in repayments during the three months ended March 31, 2016.

Cheviot Financial Corp.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (CONTINUED)**

Discussion of Financial Condition Changes at March 31, 2016 and December 31, 2015 (continued)

Shareholders' equity at March 31, 2016 was \$96.3 million, a decrease of \$168,000, or 0.2%, from December 31, 2015. The decrease primarily resulted from dividend payments on common stock of \$681,000, which was partially offset by a decrease of \$437,000 in other comprehensive loss on securities designated as available for sale. At March 31, 2016, tangible book value per share was \$12.60 as compared to \$12.59 at December 31, 2015. Tangible book value per share was affected by the increase in the fair market value of investment securities designated as available for sale as other comprehensive loss decreased during the 2016 period. At March 31, 2016 accumulated comprehensive loss was \$31,000. Over time, the impact of the accumulated comprehensive loss on our tangible book value per share would decrease as investments are called or mature at par, however, a sudden increase in interest rates can have an adverse effect, as increases in rates may increase accumulated comprehensive loss.

Liquidity and Capital Resources

We monitor our liquidity position on a daily basis using reports that summarize all deposit activity and loan commitments. A significant portion of our deposit base is comprised of time deposits. At March 31, 2016, \$106.5 million of time deposits are due to mature within one year. The daily deposit activity report allows us to price our time deposits competitively. Because of this and our deposit retention experience, we anticipate that a significant portion of maturing time deposits will be retained. At March 31, 2016, we had loan commitments of \$1.9 million. Our loan commitments are funded or expire within 45 days from the date of the commitment.

Borrowings from the Federal Home Loan Bank of Cincinnati decreased \$506,000 during the three months ended March 31, 2016. At March 31, 2016, we had the ability to increase such borrowings by approximately \$135.6 million. The additional borrowings can be used to offset any decrease in customer deposits or to fund loan commitments. The Corporation's other liabilities were primarily limited to \$484,000 of lease obligations.

Comparison of Operating Results for the Three-Month Periods Ended March 31, 2016 and 2015

General

Net earnings for the three months ended March 31, 2016 totaled \$4,000, a \$3,000 increase from the \$1,000 earnings reported in the 2015 period. The increase in net earnings reflects a decrease in general, administrative and other expenses of \$221,000, an increase of \$119,000 in net interest income and an increase of \$8,000 in other income, which were partially offset by an increase in the provision for losses on loans of \$398,000 and a decrease of \$53,000 in the provision for federal income taxes.

Total interest income increased \$13,000, or 0.3%, to \$4.5 million for the three months ended March 31, 2016, from the comparable quarter in 2015. Interest income on loans increased \$252,000, or 6.9%, to \$3.9 million during the 2016 quarter from \$3.6 million for the 2015 quarter. This increase was due primarily to a \$35.3 million, or 10.5%, increase in the average balance of loans outstanding, which was partially offset by a 14 basis point decrease in the average yield on loans to 4.18% for the 2016 quarter from 4.32% for the three months ended March 31, 2015.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (CONTINUED)**

Comparison of Operating Results for the Three-Month Periods Ended March 31, 2016 and 2015 (continued)

Net Interest Income

Interest income on mortgage-backed securities increased \$19,000, or 47.5%, to \$59,000 for the three months ended March 31, 2016, from \$40,000 for the comparable 2015 quarter, due primarily to a \$1.5 million, or 16.6% increase in the average balance of securities outstanding and a 46 basis point increase in the average yield. Interest income on investment securities decreased \$270,000, or 39.2%, to \$418,000 for the three months ended March 31, 2016, compared to \$688,000 for the same quarter in 2015, due primarily to a decrease of \$48.5 million, or 36.8% in the average balance of investment securities outstanding and by an eight basis point decrease in the average yield to 2.01% in the 2016 quarter. Interest income on other interest-earning deposits increased \$12,000, or 12.9% to \$105,000 for the three months ended March 31, 2016.

Interest expense decreased \$106,000, or 11.9% to \$785,000 for the three months ended March 31, 2016, from \$891,000 for the same quarter in 2015. Interest expense on borrowings decreased by \$19,000, or 17.0%, due primarily to a \$2.1 million decrease in the average balance outstanding, and a nine basis point decrease in the average cost of borrowings. Interest expense on deposits decreased by \$87,000, or 11.2%, to \$692,000, from \$779,000, due primarily to a seven basis point decrease in the average cost of deposits to 0.62% and by a \$4.9 million, or 1.1% decrease in the average balance of deposits outstanding.

As a result of the foregoing changes in interest income and interest expense, net interest income increased by \$119,000, or 3.3%, to \$3.7 million for the three months ended March 31, 2016, as compared to the same quarter in 2015. The average interest rate spread increased to 2.95% for the three months ended March 31, 2016 from 2.85% for the three months ended March 31, 2015. The net interest margin increased to 3.00% for the three months ended March 31, 2016 from 2.89% for the three months ended March 31, 2015.

Provision for Losses on Loans

As a result of an analysis of historical experience, the volume and type of lending conducted by the Savings Bank, the status of past due principal and interest payments, general economic conditions, particularly as such conditions relate to the Savings Bank's market area, and other factors related to the collectability of the Savings Bank's loan portfolio, management recorded a \$541,000 provision for losses on loans for the three months ended March 31, 2016 and \$143,000 for the three months ended March 31, 2015. Non-performing originated loans were 0.8% of net originated loans at both March 31, 2016 and December 31, 2015, respectively. The 2016 provision for loan losses reflects the amount necessary to maintain an adequate allowance based on our historical loss experience and other external factors. These other external factors, economic conditions, and collateral value changes, have had a negative impact on non-owner-occupied loans in the portfolio. There can be no assurance that the loan loss allowance will be sufficient to cover losses on non-performing loans in the future; however, management believes they have identified all known and inherent losses that are probable and that can be reasonably estimated within the loan portfolio, and that the allowance is adequate to absorb such losses.

Cheviot Financial Corp.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (CONTINUED)**

Comparison of Operating Results for the Three-Month Periods Ended March 31, 2016 and 2015 (continued)

Other Income

Other income increased \$8,000, or 1.2%, to \$689,000 for the three months ended March 31, 2016, compared to the same quarter in 2015. The increase is due primarily to an increase in service fee income of \$26,000 and an increase in the gain on sale of real estate acquired through foreclosure of \$12,000, which was partially offset by a decrease in the gain on sale of loans of \$25,000.

General, Administrative and Other Expense

General, administrative and other expense decreased \$221,000, or 5.4%, to \$3.9 million for of the three months ended March 31, 2016. This decrease is primarily a result of a decrease in employee compensation and benefits of \$655,000, which was partially offset by an increase of \$196,000 in legal and professional expense and an increase of \$150,000 in real estate owned impairment. The increase in legal and professional expense was due primarily to fees incurred in relation to our proposed merger with MainSource Financial Group.

As previously announced, on February 3, 2015 we entered into a severance agreement (the "Agreement") with our former President and Chief Executive Officer in connection with his retirement. The Agreement included non-competition, non-solicitation and confidentiality provisions and a full and final release of claims, in exchange for which we paid the former President and Chief Executive officer a total of \$765,330 upon his retirement. The execution of this Agreement and resulting payments caused the majority of the decrease in employee compensation and benefits and related property, payroll and other taxes for the quarter ended March 31, 2016 as compared to the quarter ended March 31, 2015.

Federal Income Taxes

The provision for federal income taxes decreased \$53,000 for the three months ended March 31, 2016. Cheviot Financial has approximately \$400,000 of net operating losses to offset future taxable income. This amount is expected to be utilized during the current year.

Cheviot Financial Corp.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There has been no material change in the Corporation's market risk since the Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2015.

ITEM 4 CONTROLS AND PROCEDURES

The Corporation's Chief Executive Officer and Chief Financial Officer evaluated the disclosure controls and procedures (as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this quarterly report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Corporation's disclosure controls and procedures are effective.

There were no changes in the Corporation's internal controls or in other factors that have materially affected, or are reasonably be likely to materially affect, these controls subsequent to the date of their evaluation by the Corporation's Chief Executive Officer and Chief Financial Officer.

Cheviot Financial Corp.

PART II

ITEM 1. Legal Proceedings

None.

ITEM 1A. Risk Factors

There have been no material changes to the Risk Factors disclosed in the Corporation's annual report on Form 10-K for the year ended December 31, 2015.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

On October 15, 2013, the Corporation amended the authorization of a stock repurchase plan. Under this program the Corporation is authorized to repurchase 341,845 shares constituting 5% of the outstanding shares of common stock. As of March 31, 2016, the Corporation had repurchased 127,000 shares at an average price of \$11.37.

During the three months ended March 31, 2016, there were no stock repurchases in accordance with stock repurchase plan.

ITEM 3. Defaults Upon Senior Securities

Not applicable.

ITEM 4. Mine Safety Disclosures

Not applicable.

ITEM 5. Other Information

None.

ITEM 6. Exhibits

- 31.1 Certification of Principal Executive Officer Pursuant to Rule 13a-14 of the Securities Exchange Act of 1934, As Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Principal Financial Officer Pursuant to Rule 13a-14 of the Securities Exchange Act of 1934, As Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Principal Executive Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of Principal Financial Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

Cheviot Financial Corp.

PART II (Continued)

101 The following financial statements of the Corporation at March 31, 2016 and December 31, 2015 and for the three months ended March 31, 2016 and 2015 formatted in XBRL: Consolidated Statements of Financial Condition; Consolidated Statements of Earnings; Consolidated Statements of Comprehensive Income; Consolidated Statements of Cash Flows; and Notes to Consolidated Financial Statements.
