Results for the fourth quarter to 31 March 2018

10 May 2018

BT Group plc (BT.L) today announced its results for the fourth quarter and year to 31 March 2018.

Gavin Patterson, Chief Executive, commenting on the results, said

"BT delivered a solid set of financial results in the fourth quarter, with growth in our consumer divisions offset by declines in our enterprise businesses, due to both challenging market conditions and our decision to exit lower margin business.

"We continue to invest for growth, having now passed 1.5m premises with our ultrafast network and securing 40MHz of 3.4GHz spectrum suitable for 5G mobile services. We are improving our customer experience across the Group, with our key metrics of Group NPS1 and Right First Time2 both strongly up.

"Our integration and restructuring activities remain on track. The integration of EE into BT is delivering run rate cost synergies of £290m. Our restructuring programme has removed over 2,800 roles and delivered savings of £180m during the year.

"I am pleased that we have reached agreement with the Trustee on the pension valuation and recovery plan, which is affordable within our capital allocation framework, and draws a line under a key source of uncertainty for our stakeholders.

"We have announced today an update to our strategy to accelerate leadership in converged connectivity and services. Our strategy will drive sustainable growth in value by focusing on delivering differentiated customer experiences, investing in integrated network leadership, and transforming our operating model."

Key developments for the quarter:

Strategy announced today to drive sustainable long term growth in value by leading in converged connectivity, including removal of 13,000 roles at a total cost of £800m - see separate press release

Continued improvement in customer experience metrics; Group NPS1 up 8.3 points and Right First Time2 up 4.3%

Clarity on the pricing of key products provided in Ofcom's final statement on Wholesale Local Access regulation  
40MHz of 3.4GHz spectrum secured; positions us well for launch of 5G and strengthens network leadership  
Consumer businesses brought together from 1 April 2018 and Enterprise businesses from 1 October 2018

Triennial pension deficit agreed at £11.3bn, 13 year recovery plan including payments of £2.1bn over the three years to 31 March 2020 in line with prior recovery plan and a further £2.0bn contribution, due to be funded by the issuance of bonds which will be held by the BTPS; BTPS closed to future defined benefit accruals from 30 June 2018 reducing future exposure to pensions risk - see separate press release
