ITEM 5. OTHER EVENTS

On January 14, 2004, Genentech, Inc., a Delaware corporation, issued a press release announcing earnings for the three and twelve months ended December 31, 2003. A copy of the earnings press release is filed as Exhibit 99.1 to this report.

The non-GAAP financial measures used within our earnings press release include net income and earnings per share for the three and twelve months ended December 31, 2003 and 2002, excluding recurring charges related to the redemption of our callable putable common stock on June 30, 1999 (the "Redemption") and the effects of push-down accounting, litigation-related special items, the cumulative effect of a change in accounting principle related to our adoption of Financial Accounting Standards Board Interpretation No. 46, "Consolidation of Variable Interest Entities" (or FIN 46), and their related tax effects.

Each non-GAAP financial measure presented in the earnings press release is included because our management uses this information to monitor and evaluate Genentech's operating results and trends on an on-going basis. Our management believes the non-GAAP information is also useful for investors because the amounts relating to the Redemption and push-down accounting, the litigation-related special items and the cumulative effect of a change in accounting principle related to our adoption of FIN 46 that are excluded were the result of transactions that are unusual due to their nature, size or infrequency. Consequently, excluding those items from our operating results provides users of the financial statements an important insight into our operating results and related trends that affect our business. In addition, our management uses non-GAAP financial information and measures internally for operating, budgeting and financial planning purposes.
