(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-15283

DineEquity, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

95-3038279

(I.R.S. Employer Identification No.)

450 North Brand Boulevard,
Glendale, California

(Address of principal executive offices)

91203-1903

(Zip Code)

(818) 240-6055

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Edgar Filing: DineEquity, Inc - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding as of October 24, 2014
Common Stock, \$0.01 par value	18,954,883

Table of Contents

DineEquity, Inc. and Subsidiaries Notes to Consolidated Financial Statements (Unaudited)

1. General

The accompanying unaudited consolidated financial statements of DineEquity, Inc. (the “Company”) have been prepared in accordance with United States generally accepted accounting principles (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The operating results for the nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the twelve months ending December 31, 2014.

The consolidated balance sheet at December 31, 2013 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements.

These consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013.

2. Basis of Presentation

The Company’s fiscal quarters end on the Sunday closest to the last day of each quarter. For convenience, the fiscal quarters of each year are referred to as ending on March 31, June 30, September 30 and December 31. The first quarter of fiscal 2014 began December 30, 2013 and ended on March 30, 2014; the second and third quarters of fiscal 2014 ended on June 29, 2014 and September 28, 2014, respectively. The first quarter of fiscal 2013 began December 31, 2012 and ended on March 31, 2013; the second and third quarters of fiscal 2013 ended on June 30, 2013 and September 29, 2013, respectively.

The accompanying consolidated financial statements include the accounts of the Company and its subsidiaries that are consolidated in accordance with U.S. GAAP. All intercompany balances and transactions have been eliminated.

The preparation of financial statements in conformity with U.S. GAAP requires the Company’s management to make assumptions and estimates that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, the Company evaluates its estimates, including those related to provisions for doubtful accounts, legal contingencies, income taxes, long-lived assets, and the valuation of goodwill and intangible assets. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from those estimates.

3. Accounting Policies

Accounting Standards Adopted in the Current Fiscal Year

In February 2013, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2013-04, Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date (“ASU 2013-04”). The amendments in ASU 2013-04 require an entity to measure obligations resulting from joint and several liability arrangements as the amount the entity agreed to pay on

the basis of the arrangement among its co-obligors plus the amount an entity expects to pay on behalf of co-obligors. ASU 2013-04 also requires an entity to disclose the nature, amount and other information about each obligation or group of similar obligations. The adoption of ASU 2013-04 as of January 1, 2014 did not have an impact on the Company's consolidated financial statements.

In July 2013, the FASB issued ASU No. 2013-11, Income Taxes - Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists ("ASU 2013-11"). ASU 2013-11 provides guidance on the financial statement presentation of an unrecognized tax benefit, as either a reduction of a deferred tax asset or as a liability, when a net operating loss carryforward, similar tax loss, or a tax credit carryforward exists. The adoption of ASU 2013-11 as of January 1, 2014 did not have a material impact on the Company's consolidated financial statements.

Table of Contents

DineEquity, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

3. Accounting Policies (Continued)

Newly Issued Accounting Standards Not Yet Adopted

In April 2014, the FASB issued ASU No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity (“ASU 2014-08”). The amendments in ASU 2014-08 change the criteria for the reporting of discontinued operations. Under ASU 2014-08, only disposals resulting in a strategic shift that will have a major effect on an entity's operations and financial results will be reported as discontinued operations. ASU 2014-08 also removes the requirement under current U.S. GAAP that an entity not have any significant continuing involvement in the operations of the component after disposal to qualify for reporting of the disposal as a discontinued operation. The Company will be required to apply the provisions of ASU 2014-08 prospectively to all disposals of components beginning with its first fiscal quarter of 2015. Early adoption is permitted for any disposal transaction not previously reported.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (“ASU 2014-09”). The core principle of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 also requires additional disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. The Company will be required to apply the provisions of ASU 2014-09 beginning with its first fiscal quarter of 2017, either retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption; early adoption is not permitted.

The guidance in ASU 2014-09 supersedes nearly all of the existing general revenue recognition guidance under U.S. GAAP as well as most industry-specific revenue recognition guidance, including guidance with respect to revenue recognition by franchisors. The Company believes the recognition of the majority of its revenues, including franchise royalty revenues, sales of IHOP pancake and waffle dry mix and retail sales at company-operated restaurants will not be affected by ASU 2014-09. Additionally, lease rental revenues are not within the scope of ASU 2014-09 guidance. The Company is currently evaluating the effect that ASU 2014-09 will have on its financial statements and related disclosures and which method of adoption will be used.

The Company reviewed all other newly issued accounting pronouncements and concluded that they either are not applicable to the Company or are not expected to have a material effect on the Company's consolidated financial statements as a result of future adoption.

4. Long-Term Debt

Long-term debt consisted of the following components:

	September 30, 2014	December 31, 2013
	(In millions)	
Senior Secured Credit Facility, due October 2017, at a variable interest rate of 3.75% as of September 30, 2014 and December 31, 2013	\$463.6	\$467.2
Senior Notes due October 2018, at a fixed rate of 9.5%	760.8	760.8
Discount	(16.9)	(19.8)
Total long-term debt	1,207.5	1,208.2
Less: current maturities	(4.7)	(4.7)
Long-term debt, less current maturities	\$ 1,202.8	\$ 1,203.5

For a description of the respective instruments, refer to Note 7 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Debt Modification Costs

In February 2013, the Company entered into Amendment No. 2 ("Amendment No. 2") to the Credit Agreement under the Senior Secured Credit Facility (the "Credit Agreement"). For a description of Amendment No. 2, refer to Note 7 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. Fees of \$1.3 million paid to third parties in connection with Amendment No. 2 were included as "Debt modification costs" in the Consolidated Statement of Comprehensive Income for the nine months ended September 30, 2013.

Table of Contents

DineEquity, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

4. Long-Term Debt (Continued)

Subsequent Events

See Note 13, Subsequent Events, as to events occurring after September 28, 2014 that impact the Company's long-term debt.

5. Stockholders' Equity

Dividends

During the nine months ended September 30, 2014, the Company declared and paid quarterly dividends as follows:

Nine months ended September 30, 2014	Declaration date	Payment date	Dividend per share	Total ⁽¹⁾
				(In millions)
First quarter	February 25, 2014	March 28, 2014	\$0.75	\$14.3
Second quarter	May 28, 2014	June 27, 2014	0.75	14.3
Third quarter	August 4, 2014	September 26, 2014	0.75	14.2
Total			\$2.25	\$42.8

(1) Includes dividend equivalents paid on restricted stock units

See Note 13, Subsequent Events, regarding declaration of a fourth quarter 2014 dividend.

Stock Repurchase Program

In February 2013, the Company's Board of Directors approved a stock repurchase authorization of up to \$100 million of DineEquity common stock. Under this program, the Company may repurchase shares on an opportunistic basis from time to time in open market transactions and in privately negotiated transactions based on business, market, applicable legal requirements, and other considerations. The repurchase program does not require the repurchase of a specific number of shares and may be terminated at any time. During the nine months ended September 30, 2014, the Company repurchased 367,256 shares of common stock at a cost of \$30.0 million. As of September 30, 2014, the Company has repurchased a cumulative total of 779,278 shares of common stock under the current Board authorization at a total cost of \$59.7 million. The Company may repurchase up to an additional \$40.3 million of common stock under the current Board authorization.

See Note 13, Subsequent Events, regarding modification of the stock repurchase authorization.

Treasury Stock

Repurchases of DineEquity common stock are included in treasury stock at the cost of shares repurchased plus any transaction costs. Treasury stock may be re-issued when stock options are exercised, when restricted stock awards are granted and when restricted stock units settle in stock upon vesting. The cost of treasury stock re-issued is determined using the first-in, first-out ("FIFO") method. During the nine months ended September 30, 2014, the Company re-issued 331,350 treasury shares at a total FIFO cost of \$12.0 million.

6. Income Taxes

The Company's effective tax rate was 37.8% for the nine months ended September 30, 2014 as compared to 38.2% for the nine months ended September 30, 2013. The effective tax rate in 2014 was slightly lower primarily due to favorable 2013 state tax return-to-provision adjustments.

The total gross unrecognized tax benefit as of September 30, 2014 and December 31, 2013 was \$3.1 million and \$2.7 million, respectively, excluding interest, penalties and related tax benefits. The Company estimates the unrecognized tax benefit may decrease over the upcoming 12 months by an amount up to \$0.7 million related to settlements with taxing authorities and the lapse of statutes of limitations. For the remaining liability, due to the uncertainties related to these tax matters, the Company is unable to make a reasonably reliable estimate when cash settlement with a taxing authority will occur.

Table of Contents

DineEquity, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

6. Income Taxes (Continued)

As of September 30, 2014, accrued interest was \$3.7 million and accrued penalties were less than \$0.1 million, excluding any related income tax benefits. As of December 31, 2013, accrued interest and penalties were \$2.9 million and \$0.1 million, respectively, excluding any related income tax benefits. The increase of \$0.8 million in accrued interest is primarily related to an increase in unrecognized tax benefits as a result of recent audits by taxing authorities. The Company recognizes interest accrued related to unrecognized tax benefits and penalties as a component of its income tax provision recognized in the Consolidated Statements of Comprehensive Income.

The Company files federal income tax returns and the Company or one of its subsidiaries files income tax returns in various state and foreign jurisdictions. With few exceptions, the Company is no longer subject to federal, state or non-United States tax examinations by tax authorities for years before 2008. In the second quarter of 2013, the Internal Revenue Service (“IRS”) issued a Revenue Agent’s Report (“RAR”) related to its examination of the Company’s U.S federal income tax return for the tax years 2008 to 2010. The Company disagrees with a portion of the proposed assessments and has contested them through the IRS administrative appeals procedures. We anticipate the appeals process to continue through the end of 2014. The Company continues to believe that adequate reserves have been provided relating to all matters contained in the tax periods open to examination.

7. Stock-Based Compensation

From time to time, the Company has granted nonqualified stock options, restricted stock, cash-settled and stock-settled restricted stock units and performance units to officers, other employees and non-employee directors of the Company. Currently, the Company is authorized to grant nonqualified stock options, stock appreciation rights, restricted stock, cash-settled and stock-settled restricted stock units and performance units to officers, other employees and nonemployee directors under the DineEquity, Inc. 2011 Stock Incentive Plan (the “2011 Plan”). The 2011 Plan was approved by stockholders on May 17, 2011 and permits the issuance of up to 1,500,000 shares of the Company’s common stock. The 2011 Plan will expire in May 2021.

The nonqualified stock options generally vest ratably over a three-year period in one-third increments and have a term of ten years from the grant date. Option exercise prices equal the closing price of the Company’s common stock on the New York Stock Exchange on the date of grant. Restricted stock and restricted stock units are issued at no cost to the holder and vest over terms determined by the Compensation Committee of the Company’s Board of Directors, generally three years from the grant date.

The following table summarizes the components of the Company’s stock-based compensation expense included in general and administrative expenses in the Consolidated Statements of Comprehensive Income for the three and nine months ended September 30, 2014 and 2013:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
	(In millions)			
Total stock-based compensation expense:				
Equity classified awards expense	\$1.9	\$1.2	\$7.5	\$7.1
Liability classified awards expense (credit)	0.7	(0.8) 1.2	(0.9
Total pre-tax stock-based compensation expense	2.6	0.4	8.7	6.2

Edgar Filing: DineEquity, Inc - Form 10-Q

Tax benefit	(1.0)	(0.2)	(3.3)	(2.4)
Total stock-based compensation expense, net of tax	\$1.6		\$0.2		\$5.4		\$3.8	

As of September 30, 2014, total unrecognized compensation costs of \$10.2 million related to restricted stock and restricted stock units and \$4.0 million related to stock options are expected to be recognized over a weighted average period of 1.57 years for restricted stock and restricted stock units and 1.47 years for stock options.

7. Stock-Based Compensation (Continued)

Equity Classified Awards - Stock Options

The estimated fair value of the stock options granted during the nine months ended September 30, 2014 was calculated using a Black-Scholes option pricing model. The following summarizes the assumptions used in the Black-Scholes model:

Risk-free interest rate	1.57	%
Weighted average historical volatility	51.1	%
Dividend yield	3.68	%
Expected years until exercise	4.60	
Forfeitures	11.0	%
Weighted average fair value of options granted	\$26.87	

Stock option balances as of September 30, 2014 and activity related to stock options for the nine months ended September 30, 2014 were as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in Years)	Aggregate Intrinsic Value (in Millions)
Outstanding at December 31, 2013	775,059	\$42.09		
Granted	120,932	81.53		
Exercised	(236,692)	31.23		
Forfeited	(14,804)	68.01		
Outstanding at September 30, 2014	644,495	52.88	6.2	\$18.2
Vested at September 30, 2014 and Expected to Vest	618,897	51.88	6.1	\$18.1
Exercisable at September 30, 2014	454,011	\$43.92	5.1	\$16.9

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the closing stock price of the Company's common stock on the last trading day of the third quarter of 2014 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on September 30, 2014. The aggregate intrinsic value will change based on the fair market value of the Company's common stock and the number of in-the-money options.

Equity Classified Awards - Restricted Stock and Restricted Stock Units

Outstanding balances as of September 30, 2014 and activity related to restricted stock and restricted stock units for the nine months ended September 30, 2014 were as follows:

	Restricted Stock	Weighted Average Grant Date Fair Value	Restricted Stock Units	Weighted Average Grant Date Fair Value
Outstanding at December 31, 2013	266,252	\$58.87	47,230	\$64.57
Granted	94,658	81.52	13,879	81.65
Released	(85,981)	52.83	(19,487)	70.82

Edgar Filing: DineEquity, Inc - Form 10-Q

Forfeited	(29,397) 66.52	—	—
Outstanding at September 30, 2014	245,532	\$68.88	41,622	\$66.92

7. Stock-Based Compensation (Continued)

Liability Classified Awards - Restricted Stock Units

The Company previously had issued shares of cash-settled restricted stock units to members of the Board of Directors. Originally, these instruments were expected to be settled in cash and were recorded as liabilities based on the closing price of the Company's common stock as of each period end. In February 2013, it was determined that, pursuant to the terms of the Plan, these restricted stock units would be settled in shares of common stock and all outstanding restricted stock units were converted to equity classified awards. Prior to the conversion, for nine months ended September 30, 2013, \$0.3 million was included in pre-tax stock-based compensation expense for the cash-settled restricted stock units.

Liability Classified Awards - Long-Term Incentive Awards

The Company has granted cash long-term incentive awards ("LTIP awards") to certain employees. Annual LTIP awards vest over a three-year period and are determined using a multiplier from 0% to 200% of the target award based on the total shareholder return of DineEquity, Inc. common stock compared to the total shareholder returns of a peer group of companies. Although LTIP awards are both denominated and paid only in cash, because the multiplier is based on the price of the Company's common stock, the awards are considered stock-based compensation in accordance with U.S. GAAP and are recorded as liabilities based on the closing price of the Company's common stock as of each period end. For the three months ended September 30, 2014 and 2013, an expense of \$0.7 million and a credit of \$0.8 million, respectively, were included in total stock-based compensation expense related to the LTIP awards. For the nine months ended September 30, 2014 and 2013, an expense of \$1.2 million and a credit of \$1.2 million, respectively, were included in total stock-based compensation expense related to the LTIP awards. At both September 30, 2014 and December 31, 2013, liabilities of \$2.8 million related to LTIP awards were included as accrued employee compensation and benefits in the Consolidated Balance Sheets.

8. Segments

The Company has four reporting segments: franchise operations, company restaurant operations, rental operations and financing operations.

As of September 30, 2014, the franchise operations segment consisted of (i) 1,986 restaurants operated by Applebee's franchisees in the United States, two U.S. territories and 14 countries outside the United States; and (ii) 1,634 restaurants operated by IHOP franchisees and area licensees in the United States, two U.S. territories and eight countries outside the United States. Franchise operations revenue consists primarily of franchise royalty revenues, sales of proprietary products to franchisees (primarily pancake and waffle dry mixes for the IHOP restaurants), IHOP franchise advertising fees and the portion of the franchise fees allocated to IHOP and Applebee's intellectual property. Franchise operations expenses include IHOP advertising expenses, the cost of IHOP proprietary products, IHOP and Applebee's pre-opening training expenses and other franchise-related costs.

At September 30, 2014, the company restaurant operations segment consisted of 23 Applebee's company-operated restaurants and 10 IHOP company-operated restaurants, all of which are located in the United States. Company restaurant sales are retail sales at company-operated restaurants. Company restaurant expenses are operating expenses at company-operated restaurants and include food, labor, utilities, rent and other restaurant operating costs.

Rental operations revenue includes revenue from operating leases and interest income from direct financing leases. Rental operations expenses are costs of operating leases and interest expense from capital leases on

franchisee-operated restaurants.

Financing operations revenue primarily consists of interest income from the financing of franchise fees and equipment leases and sales of equipment associated with refranchised IHOP restaurants. Financing expenses are primarily the cost of restaurant equipment associated with refranchised IHOP restaurants.

Notes to Consolidated Financial Statements (Continued)

10. Fair Value Measurements

The Company does not have a material amount of financial assets or liabilities that are required under U.S. GAAP to be measured on a recurring basis at fair value. The Company is not a party to any derivative financial instruments. The Company does not have a material amount of non-financial assets or non-financial liabilities that are required under U.S. GAAP to be measured at fair value on a recurring basis. The Company has not elected to use the fair value measurement option, as permitted under U.S. GAAP, for any assets or liabilities for which fair value measurement is not presently required.

The Company believes the fair values of cash equivalents, accounts receivable, accounts payable and the current portion of long-term debt approximate their carrying amounts due to their short duration.

The fair values of non-current financial liabilities at September 30, 2014 and December 31, 2013, determined based on Level 2 inputs, were as follows:

	September 30, 2014		December 31, 2013	
	Carrying Amount (In millions)	Fair Value	Carrying Amount	Fair Value
Long-term debt, less current maturities	\$1,202.8	\$1,275.7	\$1,203.5	\$1,306.2

11. Commitments and Contingencies

Litigation, Claims and Disputes

The Company is subject to various lawsuits, administrative proceedings, audits, and claims arising in the ordinary course of business. Some of these lawsuits purport to be class actions and/or seek substantial damages. The Company is required under U.S. GAAP to record an accrual for litigation loss contingencies that are both probable and reasonably estimable. Legal fees and expenses associated with the defense of all of the Company's litigation are expensed as such fees and expenses are incurred. Management regularly assesses the Company's insurance coverage, analyzes litigation information with the Company's attorneys and evaluates the Company's loss experience in connection with pending legal proceedings. While the Company does not presently believe that any of the legal proceedings to which it is currently a party will ultimately have a material adverse impact on the Company, there can be no assurance that the Company will prevail in all the proceedings the Company is party to, or that the Company will not incur material losses from them.

Lease Guarantees

In connection with the sale of Applebee's restaurants or previous brands to franchisees and other parties, the Company has, in certain cases, guaranteed or has potential continuing liability for lease payments totaling \$383.0 million as of September 30, 2014. This amount represents the maximum potential liability for future payments under these leases. These leases have been assigned to the buyers and expire at the end of the respective lease terms, which range from 2014 through 2048. In the event of default, the indemnity and default clauses in the sale or assignment agreements govern the Company's ability to pursue and recover damages incurred. No material liabilities have been recorded as of September 30, 2014.

12. Consolidating Financial Information

Edgar Filing: DineEquity, Inc - Form 10-Q

Certain of the Company's subsidiaries have guaranteed the Company's obligations under the Senior Secured Credit Facility. The following presents the condensed consolidating financial information separately for: (i) the parent Company, the issuer of the guaranteed obligations; (ii) the guarantor subsidiaries, on a combined basis, as specified in the Credit Agreement; (iii) the non-guarantor subsidiaries, on a combined basis; (iv) consolidating eliminations and reclassifications; and (v) DineEquity, Inc. and Subsidiaries on a consolidated basis.

Each guarantor subsidiary is 100% owned by the Company at the date of each balance sheet presented. The notes are fully and unconditionally guaranteed on a joint and several basis by each guarantor subsidiary. Each entity in the consolidating financial information follows the same accounting policies as described in Note 2 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

See Note 13, Subsequent Events, regarding refinancing of the Company's indebtedness.

DineEquity, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

13. Subsequent Events

On September 30, 2014, subsequent to the last day of the Company's fiscal third quarter, the Company issued and sold in a privately placed securitization transaction \$1.3 billion of Series 2014-1, Class A-2 Fixed Rate Senior Secured Notes (the "Notes"). The Notes were issued by two indirect, special purpose subsidiaries of the Company (the "Co-Issuers"). The Notes will bear interest at a rate of 4.277% per annum, payable quarterly, and will have an expected term of seven years. The Co-Issuers and their subsidiaries will own substantially all of the Applebee's and IHOP domestic franchising, rental and financing assets and will use cash flows generated from these assets to make interest and principal payments on the Notes. The Co-Issuers also entered into a purchase agreement for the issuance of up to \$100 million Series 2014-1 Variable Funding Senior Notes, Class A-1 (the "VFN"), which will allow the Co-Issuers to borrow amounts from time to time on a revolving basis and issue letters of credit.

The Company used the proceeds from the sale of the Notes to repay the entire outstanding balance of \$463.6 million of the Senior Secured Credit Facility. Approximately \$833 million was placed in escrow to repay the \$760.8 million principal amount of 9.5% Senior Notes outstanding, approximately \$36 million of accrued interest and a make-whole premium required for early repayment of the Senior Notes of \$36 million. The Senior Notes will not be removed from the Company's balance sheet until they are repaid on or about October 30, 2014. The remaining proceeds will be used for transaction costs associated with the refinancing and general corporate purposes.

As the extinguished debt was repaid by incurring another long-term obligation, the extinguished debt was not classified as current pursuant to Accounting Standards Codification 210-10-45-12.

On October 27, 2014, the Company's Board of Directors approved the payment of a cash dividend of \$0.875 per share of our common stock, payable at the close of business on January 9, 2015 to the stockholders of record as of the close of business December 3, 2014.

On October 27, 2014, the Company's Board of Directors also approved increasing our share repurchase authorization back to the previous level of \$100 million. In February 2013 the Board of Directors had approved a \$100 million share repurchase authorization pursuant to which we had repurchased \$59.7 million of our common stock prior to the approval of the new authorization.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Cautionary Statement Regarding Forward-Looking Statements

Statements contained in this report may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements involve known and unknown risks, uncertainties and other factors, which may cause actual results to be materially different from those expressed or implied in such statements. You can identify these forward-looking statements by words such as "may," "will," "should," "expect," "anticipate," "believe," "estimate," "intend," "plan" and other similar expressions. You should consider our forward-looking statements in light of the risks discussed under the heading "Risk Factors" in our most recent Annual Report on Form 10-K, as well as our consolidated financial statements, related notes, and the other financial information appearing elsewhere in this report and our other filings with the United States Securities and Exchange Commission. The forward-looking statements contained in this report are made as of the date hereof and the Company assumes no obligation to update or supplement any forward-looking statements.

You should read the following Management's Discussion and Analysis of Financial Condition and Results of Operations in conjunction with the consolidated financial statements and the related notes that appear elsewhere in this report.

Overview

The following discussion and analysis provides information we believe is relevant to an assessment and understanding of our consolidated results of operations and financial condition. The discussion should be read in conjunction with the consolidated financial statements and the notes thereto included in Item 1 of Part I of this Quarterly Report and the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013. Except where the context indicates otherwise, the words "we," "us," "our" and the "Company" refer to DineEquity, Inc., together with its subsidiaries that are consolidated in accordance with United States generally accepted accounting principles ("U.S. GAAP").

Through various subsidiaries, we own, franchise and operate two restaurant concepts: Applebee's Neighborhood Grill & Bar® ("Applebee®"), in the bar and grill segment within the casual dining category of the restaurant industry, and International House of Pancakes® ("IHOP®"), in the family dining category of the restaurant industry. References herein to Applebee's and IHOP restaurants are to these two restaurant concepts, whether operated by franchisees, area licensees or by us. With over 3,600 restaurants combined, 99% of which are franchised, we believe we are one of the largest full-service restaurant companies in the world. The June 30, 2014 issue of Nation's Restaurant News reported that IHOP and Applebee's were the largest restaurants in their respective categories in terms of United States system-wide sales during 2013. This marks the seventh consecutive year each brand has achieved the number one ranking.

Table of Contents

Net income for the three months ended September 30, 2014 increased 0.8% due to lower general & administrative (“G&A”) expenses and a lower effective tax rate, partially offset by a decline in segment profit that resulted from the lower termination fees as discussed under “Results of Operations - Revenue” below. Net income per diluted share increased 2.1% compared with the same period of the prior year due to the increase in net income and a decline in weighted shares outstanding as the result of our stock repurchase program.

Net income for the nine months ended September 30, 2014 increased 9.2% compared with the same period of the prior year. This improvement was due to (i) revenue and segment profit growth, primarily stemming from an increase in IHOP domestic same-restaurant sales and IHOP restaurant development over the past twelve months; (ii) lower G&A expenses and (iii) expenses related to a 2013 debt modification that did not recur. Net income per diluted share increased 10.9% compared with the same period of the prior year due to the increase in net income and a decline in weighted shares outstanding as the result of our stock repurchase program.

Key Performance Indicators

In evaluating the performance of each restaurant concept, we consider the key performance indicators to be net franchise restaurant development and the percentage change in domestic system-wide same-restaurant sales. Since we are a 99% franchised company, expanding the number of franchise restaurants is an important driver of revenue growth because we currently do not plan to open any new Applebee's or IHOP company-operated restaurants or expand our rental and financing operations, legacies from the IHOP business model we operated under prior to 2003. Growth in both the number of franchise restaurants and sales at those restaurants will drive franchise revenues in the form of higher royalty revenues, additional franchise fees and, in the case of IHOP restaurants, sales of proprietary pancake and waffle dry mix.

An overview of these key performance indicators for the three and nine months ended September 30, 2014 is as follows:

	Three Months Ended September 30, 2014		Nine Months Ended September 30, 2014	
	Applebee's	IHOP	Applebee's	IHOP
Percentage increase in domestic system-wide same-restaurant sales	1.7%	2.4%	0.6%	3.2%
Net franchise restaurant development (reduction) ⁽¹⁾	—	12	(2)	24

⁽¹⁾ Franchise and area license openings, net of closings

IHOP's increase of 2.4% in domestic system-wide same-restaurant sales for three months ended September 30, 2014 was the sixth consecutive quarter of positive IHOP domestic system-wide same-restaurant sales. The increase resulted from a higher average customer check and a slight increase in customer traffic. For the nine months ended September 30, 2014, IHOP's domestic system-wide same-restaurant sales increased 3.2%. The increase resulted from a higher average customer check partially offset by a decline in customer traffic. IHOP has outperformed the overall restaurant industry as well as the family dining segment in domestic system-wide same-restaurant sales. Based on data from Black Box Intelligence, a restaurant sales reporting firm (“Black Box”), same-restaurant sales for the family dining segment increased slightly during the three months ended September 30, 2014 and decreased for the nine months ended September 30, 2014. Same-restaurant sales for the overall restaurant industry increased for both the three and nine months ended September 30, 2014.

Applebee's domestic system-wide same-restaurant sales for three months ended September 30, 2014 increased 1.7%. For the nine months ended September 30, 2014, Applebee's domestic system-wide same-restaurant sales increased 0.6%. In each case, an increase in average customer check was partially offset by a decline in customer traffic.

Applebee's domestic system-wide same-restaurant sales performance essentially equaled that of the overall restaurant industry as well of as the casual dining segment, both of which increased during the three and nine months ended

September 30, 2014, based on data from Black Box.

During the nine months ended September 30, 2014, Applebee's franchisees opened 24 new restaurants, with 10 of the openings taking place in the third quarter. Applebee's franchisees closed 26 restaurants during the nine months ended September 30, 2014, of which 10 closures took place in the third quarter, resulting in a net decrease of two franchise restaurants during the nine months ended September 30, 2014.

During the nine months ended September 30, 2014, IHOP franchisees opened 45 new restaurants, with 18 of the openings taking place in the third quarter. IHOP franchisees closed 21 restaurants during nine months ended September 30, 2014, of which six closings took place in the third quarter, resulting in net franchise restaurant development of 24 restaurants in 2014.

Table of Contents

Franchise restaurant closures take place each year for a variety of reasons. The majority of closures that have taken place during the three and nine months ended September 30, 2014 were unrelated events as no individual franchisee of either brand has closed more than two restaurants during 2014.

In 2014, we now expect IHOP franchisees to open a total of between 55 to 60 new restaurants, an upward revision from our original expectation of 40 to 50 new restaurants. We now expect Applebee's franchisees to open a total of between 33 to 38 new restaurants, a slight downward revision from our original expectation of 40 to 50 new restaurants. The majority of openings for each brand are expected to be in domestic markets. The actual number of openings in 2014 may differ from both our expectations and development commitments. Historically, the actual number of restaurants developed in a particular year has been less than the total number committed to be developed due to various factors, including economic conditions and franchisee noncompliance with development agreements. The timing of new restaurant openings also may be affected by various factors including weather-related and other construction delays, difficulties in obtaining timely regulatory approvals and the impact of currency fluctuations on our international franchisees.

In evaluating the performance of the consolidated enterprise, we consider the key performance indicators to be consolidated cash flows from operating activities and consolidated free cash flow (cash from operations, plus receipts from notes, equipment contracts and other long-term receivables, minus capital expenditures, principal payments on capital leases and financing obligations and the mandatory annual repayment of 1% of the principal balance of our Term Loans).

Our consolidated cash flows from operating activities and consolidated free cash flow for the nine months ended September 30, 2014 and 2013 were as follows:

	Nine Months Ended September 30, 2014		2013	
	(In millions)			
Consolidated cash flows from operating activities	\$ 102.4		\$ 102.8	
Consolidated free cash flow	\$ 95.2		\$ 97.6	

Additional detail on each of our key performance indicators is presented under the captions "Restaurant Development Activity," "Restaurant Data," and "Liquidity and Capital Resources" that follow.

Restaurant Development Activity

Restaurant Data

The following table sets forth, for the three and nine months ended September 30, 2014 and 2013, the number of “Effective Restaurants” in the Applebee’s and IHOP systems and information regarding the percentage change in sales at those restaurants compared to the same periods in the prior year. Sales at restaurants that are owned by franchisees and area licensees are not attributable to the Company. However, we believe that presentation of this information is useful in analyzing our revenues because franchisees and area licensees pay us royalties and advertising fees that are generally based on a percentage of their sales, and, where applicable, rental payments under leases that partially may be based on a percentage of their sales. Management also uses this information to make decisions about future plans for the development of additional restaurants as well as evaluation of current operations.

Table of Contents

(a) “Effective Restaurants” are the weighted average number of restaurants open in a given fiscal period, adjusted to account for restaurants open for only a portion of the period. Information is presented for all Effective Restaurants in the Applebee’s and IHOP systems, which includes restaurants owned by franchisees and area licensees as well as those owned by the Company.

(b) “System-wide sales” are retail sales at Applebee’s restaurants operated by franchisees and IHOP restaurants operated by franchisees and area licensees, as reported to the Company, in addition to retail sales at company-operated restaurants. Sales at restaurants that are owned by franchisees and area licensees are not attributable to the Company. Unaudited reported sales for Applebee’s domestic franchise restaurants, IHOP franchise restaurants and IHOP area license restaurants for the three and nine months ended September 30, 2014 and 2013 were as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
	(In millions)			
Reported sales (unaudited)				
Applebee's franchise restaurant sales	\$ 1,100.3	\$ 1,073.7	\$ 3,434.1	\$ 3,409.4
IHOP franchise restaurant sales	\$ 678.3	\$ 642.6	\$ 2,028.1	\$ 1,912.7
IHOP area license restaurant sales	\$ 64.3	\$ 61.8	\$ 199.2	\$ 188.0

(c) “Sales percentage change” reflects, for each category of restaurants, the percentage change in sales in any given fiscal period compared to the prior fiscal period for all restaurants in that category.

(d) “Domestic same-restaurant sales percentage change” reflects the percentage change in sales in any given fiscal period, compared to the same weeks in the prior fiscal period, for domestic restaurants that have been operated throughout both fiscal periods that are being compared and have been open for at least 18 months. Because of new unit openings and restaurant closures, the domestic restaurants open throughout both fiscal periods being compared may be different from period to period. Domestic same-restaurant sales percentage change does not include data on IHOP area license restaurants.

(e) The sales percentage change for the three and nine months ended September 30, 2013 for Applebee’s franchise restaurants was impacted by the refranchising of 154 company-operated restaurants during 2012.

Table of Contents

Significant Known Events, Trends or Uncertainties Impacting or Expected to Impact Comparisons of Reported or Future Results

Same-restaurant Sales Trends

Applebee's domestic system-wide same-restaurant sales increased 1.7% for the three months ended September 30, 2014 from the same period in 2013. An increase in average customer check was partially offset by a decline in customer traffic. Same-restaurant sales performance for the first three quarters of 2014 is not necessarily indicative of results expected for the full year.

IHOP's domestic system-wide same-restaurant sales increased 2.4% for the three months ended September 30, 2014 from the same period in 2013, the sixth consecutive quarter of positive same-restaurant sales. The improvement resulted from a higher average customer check as well as a slight increase in customer traffic. Same-restaurant sales performance for the first three quarters of 2014 is not necessarily indicative of results expected for the full year.

Both of our brands have experienced a decline in customer traffic during the nine months ended September 30, 2014. Based on data from Black Box, customer traffic declined during that period for the restaurant industry overall, as well as for both the casual dining and family dining segments of the restaurant industry. However, for the three months ended September 30, 2014, we experienced a slight increase in IHOP customer traffic. In the short term, a decline in customer traffic may be offset by an increase in average customer check resulting from an increase in menu prices, a favorable change in product sales mix, or a combination thereof. A sustained decline in same-restaurant customer traffic that cannot be offset by an increase in average customer check could have an adverse effect on our business, results of operations and financial condition.

Table of Contents

We strive to identify and create opportunities for growth in customer traffic and frequency, average check and same-restaurant sales. We focus on differentiating our two brands through innovative advertising, enhancing our menus and bar offerings, achieving operational excellence each day, and keeping Applebee's and IHOP restaurants contemporary. To drive each brand forward, we will seek to leverage what has worked to improve sales, while remaining focused on generating sustainable positive traffic.

Refinancing of Indebtedness

On September 30, 2014, the second day of our fiscal fourth quarter, we issued and sold in a privately placed securitization transaction \$1.3 billion of Series 2014-1, Class A-2 Fixed Rate Senior Secured Notes (the "Notes"). The Notes were issued by two indirect, special purpose subsidiaries (the "Co-Issuers"). The Notes will bear interest at a rate of 4.277% per annum, payable quarterly, and will have an expected term of seven years. The Co-Issuers and their subsidiaries will own substantially all of the Applebee's and IHOP domestic franchising, rental and financing assets and will use cash flows generated from these assets to make interest and principal payments on the Notes. The Co-Issuers also entered into a purchase agreement for the issuance of up to \$100 million Series 2014-1 Variable Funding Senior Notes, Class A-1 (the "VFN"), which will allow us to borrow amounts from time to time on a revolving basis and issue letters of credit.

We used the proceeds from the sale of the Notes to repay the entire outstanding balance of approximately \$464 million of our senior secured credit facility on September 30, 2014. An additional \$833 million was placed in escrow to repay approximately \$761 million in outstanding principal amount of our 9.5% senior notes, approximately \$36 million of accrued interest on the senior notes and a make-whole premium of \$36 million. The Senior Notes will not be removed from the Company's balance sheet until they are repaid on or about October 30, 2014. The remaining proceeds will be used for transaction costs associated with the refinancing and general corporate purposes.

We estimate our cash interest payments on the Notes will be approximately \$34 million lower, on an annualized basis, than the combined interest payments on the refinanced indebtedness.

Long-Term Capital Allocation Strategy

On October 27, 2014, our Board of Directors approved the payment of a cash dividend of \$0.875 per share of our common stock, payable at the close of business on January 9, 2015 to the stockholders of record as of the close of business December 3, 2014. The Board of Directors also approved increasing our share repurchase authorization back to the previous level of \$100 million. In February 2013 the Board of Directors had approved a \$100 million share repurchase authorization pursuant to which we had repurchased \$59.7 million of our common stock prior to the approval of the new authorization. We anticipate using the majority of our remaining free cash flow after dividend payments for share repurchases.

Table of Contents

RESULTS OF OPERATIONS

Comparison of the Three and Nine Months Ended September 30, 2014 and 2013

REVENUE

	Three Months Ended		Favorable (Unfavorable) Variance	Nine Months Ended		Favorable (Unfavorable) Variance
	September 30, 2014	2013		September 30, 2014	2013	
	(In millions)					
Franchise operations	\$ 114.3	\$ 111.7	\$ 2.6	\$ 340.6	\$ 331.6	\$ 9.0
Company restaurant operations	15.0	15.4	(0.4)	47.0	48.1	(1.1)
Rental operations	30.8	31.0	(0.2)	92.2	92.7	(0.5)
Financing operations	2.8	3.2	(0.4)	10.8	10.2	0.6
Total revenue	\$ 162.9	\$ 161.3	\$ 1.6	\$ 490.6	\$ 482.6	\$ 8.0

Total revenue for the three months ended September 30, 2014 increased 1.0% compared to the prior year. The improvement was primarily due to higher franchise revenues that resulted from a 2.4% increase in IHOP domestic same-restaurant sales, a 1.7% increase in Applebee's domestic same-restaurant sales and IHOP restaurant development over the past twelve months. These favorable items were offset by a decrease of \$4.6 million in termination, transfer and extension fees related to Applebee's franchise restaurants.

Total revenue for the nine months ended September 30, 2014 increased 1.7% compared to the prior year. The improvement was primarily due to higher franchise revenues that resulted from a 3.2% increase in IHOP domestic same-restaurant sales during the period, IHOP restaurant development over the past twelve months, fees of \$1.4 million associated with the negotiated early termination of two IHOP leases and a 0.6% increase in Applebee's domestic same-restaurant sales. These favorable items were offset by a decrease of \$5.4 million in termination, transfer and extension fees related to Applebee's franchise restaurants.

Termination, transfer and extension fees, by their nature, are unpredictable and variable in any given period. We believe the \$6.1 million of such fees we received during the nine months ended September 30, 2013 was an unusually high level of activity and not indicative of any trend.

SEGMENT PROFIT

	Three Months Ended		Favorable (Unfavorable) Variance	Nine Months Ended		Favorable (Unfavorable) Variance
	September 30, 2014	2013		September 30, 2014	2013	
	(In millions)					
Franchise operations	\$82.1	\$83.3	\$ (1.2)	\$252.3	\$248.8	\$ 3.5
Company restaurant operations	(0.3)	(0.3)	0.0	(0.2)	(0.1)	(0.1)
Rental operations	7.1	6.8	0.3	21.1	19.8	1.3
Financing operations	2.8	3.2	(0.4)	10.0	10.0	0.0
Total segment profit	\$91.7	\$93.0	\$ (1.3)	\$283.2	\$278.5	\$ 4.7

Total segment profit for the three months ended September 30, 2014 decreased 1.5% compared to the prior year, primarily due to a decline in franchise segment profit. Termination, transfer and extension fees related to Applebee's franchise restaurants declined \$4.6 million, partially offset by increased royalty revenues resulting from increases in IHOP and Applebee's same-restaurant sales and IHOP restaurant development over the past twelve months.

Segment profit for the nine months ended September 30, 2014 increased 1.7% compared to the prior year, primarily due to the higher franchise revenues as discussed above, lower rental interest expense and a lower provision against

deferred rental revenue.

⁽²⁾	71.8	% 74.6	%	74.1	% 75.1	%

⁽¹⁾ Effective Franchise Restaurants are the weighted average number of franchise and area license restaurants open in a given fiscal period, adjusted to account for restaurants open for only a portion of the period.

⁽²⁾ Percentages calculated on actual amounts, not rounded amounts presented above.

Applebee's franchise revenue for the three months ended September 30, 2014 declined 6.2% compared to the same period of the prior year primarily due to a \$4.6 million decrease in termination, transfer and extension fees that was partially offset by an increase in royalty revenue resulting from a 1.7% increase in domestic same-restaurant sales. Applebee's franchise revenue for the nine months ended September 30, 2014 declined 2.2% from the same period of the prior year due to a \$5.4 million decrease in termination and transfer fees and a decrease in the number of Effective Franchise Restaurants open during the period. The impact on franchise revenue of these declines was partially offset by an increase in franchise fees due to more restaurant openings in 2014 and a 0.6% increase in domestic same-restaurant sales.

The 4.0% increase in IHOP franchise revenue (other than advertising) for the three months ended September 30, 2014 was primarily due to higher royalty revenues resulting from a 3.3% increase in Effective Franchise Restaurants and a 2.4% increase in domestic same-restaurant sales. The 5.0% increase in IHOP franchise revenue (other than advertising) for the nine months ended September 30, 2014 was due to higher royalty revenues resulting from a 3.2% increase in domestic same-restaurant sales and a 2.5% increase in Effective Franchise Restaurants, as well as a \$0.6 million increase in sales volumes of pancake and waffle dry mix.

IHOP's franchise expenses are substantially higher than Applebee's due to advertising expenses. Franchise fees designated for IHOP's national advertising fund and local marketing and advertising cooperatives are recognized as

revenue and expense of franchise operations. However, because we have less contractual control over Applebee's advertising expenditures, that activity is considered to be an agency relationship and therefore is not recognized as franchise revenue and expense. The increases in IHOP advertising revenue and expense for the three and nine months ended September 30, 2014 were due to higher contributions to marketing funds by IHOP franchisees. Franchisee contributions can be impacted by changes in contribution rates, domestic franchise same-restaurant sales and the number of franchise restaurants.

Table of Contents

Company Restaurant Operations

	Three Months Ended		Favorable (Unfavorable) Variance	Nine Months Ended		Favorable (Unfavorable) Variance
	September 30, 2014	2013		September 30, 2014	2013	
(In millions, except number of restaurants)

⁽¹⁾ Effective Company Restaurants are the weighted average number of company restaurants open in a given fiscal period, adjusted to account for company restaurants open for only a portion of the period.

⁽²⁾ Percentages calculated on actual amounts, not rounded amounts presented above.

As of September 30, 2014, company restaurant operations comprised 23 Applebee's company-operated restaurants and 10 IHOP company-operated restaurants. We operate these restaurants primarily to test new remodel programs, operating procedures, products, technology, cooking platforms and service models and accordingly, we do not anticipate these restaurants will generate a significant amount of profit or loss in any given period. Additionally, from time to time we also may operate restaurants reacquired from IHOP franchisees on a temporary basis until the restaurants are refranchised. Company restaurant sales and expenses for the three and nine months ended September 30, 2014 declined compared to the same periods in 2013 because we operated fewer such reacquired restaurants during 2014. As of September 30, 2014, we were not operating any reacquired restaurants.

Rental Operations

	Three Months Ended		Favorable (Unfavorable) Variance	Nine Months Ended		Favorable (Unfavorable) Variance
	September 30, 2014	2013		September 30, 2014	2013	
(In millions)

Rental expenses	23.7	24.2	0.5	71.1	72.9	1.8
Rental operations segment profit	\$7.1	\$6.8	\$ 0.3	\$21.1	\$19.8	\$ 1.3
Segment profit as % of revenue ⁽¹⁾	23.1 %	22.1 %		22.8 %	21.3 %	

⁽¹⁾ Percentages calculated on actual amounts, not rounded amounts presented above.

Rental operations relate primarily to IHOP franchise restaurants. Rental income includes revenue from operating leases and interest income from direct financing leases. Rental expenses are costs of prime operating leases and interest expense on prime capital leases on certain franchise restaurants.

Rental revenue for the three months ended September 30, 2014 decreased compared to the same period of the prior year due to a \$0.2 million decline in interest income as direct financing leases are repaid. Rental revenue for the nine months ended September 30, 2014 decreased primarily due to a \$0.6 million decline in interest income as direct financing leases are repaid, partially offset by an increase in rental income due to higher IHOP domestic same-restaurant sales.

Rental segment expenses for the three months ended September 30, 2014 decreased compared to the same period of the prior year primarily due to a \$0.2 million decline in interest expense on capital lease obligations. Rental segment expenses decreased for the nine months ended September 30, 2014 compared to the same period of the prior year primarily due to a \$0.8 million decline in interest expense on capital lease obligations as well as \$0.5 million decrease in the provision against deferred rental revenue associated with franchise restaurants whose lease agreements were terminated.

Table of Contents

Financing Operations

	Three Months Ended		Favorable (Unfavorable) Variance	Nine Months Ended		Favorable (Unfavorable) Variance
	September 30, 2014	2013		September 30, 2014	2013	
	(In millions)					
Financing revenues	\$2.8	\$3.2	\$ (0.4)	\$ 10.8	\$ 10.2	\$ 0.6
Financing expenses	—	—	—	0.8	0.2	(0.6)
Financing operations segment profit	\$2.8	\$3.2	\$ (0.4)	\$ 10.0	\$ 10.0	\$ 0.0
Segment profit as % of revenue ⁽¹⁾	100.0	% 100.0	%	92.3	% 97.6	%

⁽¹⁾ Percentages calculated on actual amounts, not rounded amounts presented above.

All financing operations relate to IHOP franchise restaurants. Financing revenues primarily consist of interest income from the financing of franchise fees and equipment leases, as well as sales of equipment associated with refranchised IHOP restaurants. Financing expenses are primarily the cost of restaurant equipment associated with refranchised IHOP restaurants.

The decrease in financing revenue for the three months ended September 30, 2014 was primarily due to a \$0.2 million decrease in interest revenue resulting from the progressive decline in note balances due to repayments.

The increase in financing revenue for the nine months ended September 30, 2014 was primarily due to fees of \$1.4 million associated with the negotiated early termination of two leases in the first quarter of 2014. Early lease terminations such as these occur relatively infrequently and should not be considered indicative of any trend with respect to financing segment revenue.

This increase from these fees was partially offset by a \$0.6 million decrease in interest revenue resulting from the progressive decline in note balances due to repayments and a decrease in equipment sales. The increase in financing expenses for the nine months ended September 30, 2014 was due to increased cost of sales of equipment associated with temporarily operated IHOP restaurants that were refranchised.

OTHER EXPENSE AND INCOME ITEMS

	Three Months Ended		Favorable (Unfavorable) Variance	Nine Months Ended		Favorable (Unfavorable) Variance
	September 30, 2014	2013		September 30, 2014	2013	
	(In millions)					
General and administrative expenses	\$33.8	\$35.3	\$ 1.5	\$ 102.8	\$ 105.0	\$ 2.2
Interest expense	25.0	25.0	0.0	74.9	75.2	0.3

(Gain) loss on disposition of assets	(0.2)	(0.1)	0.1	0.6	(0.3)	(0.9)
Provision for income taxes	10.9	11.4	0.5	35.7	33.4	(2.4)

General and Administrative Expenses

G&A expenses for the three months ended September 30, 2014 decreased by 4.2% compared to the same period of the prior year, primarily due to declines in travel, consumer research, and professional services costs. G&A expenses for the nine months ended September 30, 2014 decreased by 2.1% compared to the same period of the prior year, primarily due to a decline in costs for professional services and travel, partially offset by higher compensation costs. Some of the favorability in travel costs is due to the timing of our annual brand franchisee conferences that took place in the fiscal fourth quarter of 2014 as compared to the third fiscal quarter of 2013.

Interest Expense

Interest expense for the three months ended September 30, 2014 was consistent with the same period of the prior year. Interest expense for the nine months ended September 30, 2014 decreased by \$0.3 million compared to the same period of the prior year. Average interest-bearing debt outstanding during 2014 (our Term Loans, Senior Notes and financing obligations) was slightly lower than the prior year due to quarterly repayments of \$1.2 million on the Term Loans and the release of financing obligations on several Applebee's restaurants that had been refranchised in prior years. Additionally, the interest rate

Table of Contents

on our Term Loans was 3.75% during the first nine months of 2014, whereas the interest rate on our Term Loans was 4.25% at the beginning of 2013 but was reduced to 3.75% after the debt modification noted below.

Amortization of Intangible Assets

Amortization of intangible assets relates to intangible assets, primarily franchising rights, that arose from the November 2007 acquisition of Applebee's. The amount of amortization expense will decline by approximately \$2 million on an annualized basis beginning in 2015 as intangible assets with shorter lives become fully amortized.

Closure and Impairment Charges

Closure and impairment charges were \$0.2 million and \$1.0 million for the three and nine months ended September 30, 2014, respectively. Impairment charges during 2014 totaled less than \$0.2 million. During the three months ended September 30, 2013, a downward revision of closure costs resulted in a credit of \$0.4 million. Closure charges were \$0.8 million for the nine months ended September 30, 2013. There were no impairment charges in 2013. There were no individually significant transactions during any of these periods.

During the nine months ended September 30, 2014, we performed assessments of whether events or changes in circumstances have occurred that potentially indicate the carrying value of tangible long-lived assets may not be recoverable. No significant impairments were noted in performing the assessments. We also considered whether there were any indicators of potential impairment to our goodwill and indefinite-lived intangible assets. No such indicators were noted.

Debt Modification Costs

On February 4, 2013, we entered into Amendment No. 2 ("Amendment No. 2") to the Credit Agreement under our Senior Secured Credit Facility (the "Credit Agreement"). For a description of Amendment No. 2, refer to Note 7 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. Fees paid to third parties of \$1.3 million in connection with Amendment No. 2 were included as "Debt modification costs" in the Consolidated Statement of Comprehensive Income for the nine months ended September 30, 2013.

Gain/Loss on Disposition of Assets

We recognized a gain on disposition of assets of \$0.2 million for the three months ended September 30, 2014 compared to a gain of \$0.1 million for the three months ended September 30, 2013. We recognized a loss on disposition of assets of \$0.6 million for the nine months ended September 30, 2014 compared to a gain of \$0.3 million for the nine months ended September 30, 2013. There were no individually significant dispositions during any of these periods.

Provision for Income Taxes

Our effective tax rate was 36.5% for the three months ended September 30, 2014 compared to an effective rate of 37.8% for the three months ended September 30, 2013. Our effective tax rate was 37.8% for the nine months ended September 30, 2014 compared to an effective rate of 38.2% for the nine months ended September 30, 2013. The effective tax rates for each period of 2014 were lower than the respective periods of 2013 primarily due to favorable 2013 state tax return-to-provision adjustments.

Liquidity and Capital Resources

Refinancing of Indebtedness

On September 30, 2014, Applebee's Funding LLC and IHOP Funding LLC (each a "Co-Issuer"), each a special purpose, wholly-owned indirect subsidiary of the Company issued \$1.3 billion of Series 2014-1 4.277% Fixed Rate Senior Notes, Class A-2 (the "Class A-2 Notes") in an offering exempt from registration under the Securities Act of 1933, as amended. The Co-Issuers also entered into a revolving financing facility of Series 2014-1 Variable Funding Senior Notes Class A-1 (the "Variable Funding Notes"), which allows for drawings of up to \$100 million of Variable Funding Notes and the issuance of letters of credit. The Class A-2 Notes and the Variable Funding Notes are referred to collectively as the "Notes." The Notes were issued in a securitization transaction pursuant to which substantially all of our domestic revenue-generating assets and our domestic intellectual property, are held by the Co-Issuers and certain other special-purpose, wholly-owned indirect subsidiaries of the Company (the "Guarantors") that act as guarantors of the Notes and that have pledged substantially all of their assets to secure the Notes.

Table of Contents

Class A-2 Notes

The Notes were issued under a Base Indenture, dated September 30, 2014 (the “Base Indenture”) and the related Series 2014-1 Supplement to the Base Indenture, dated September 30, 2014 (the “Series 2014-1 Supplement”), among the Co-Issuers and Citibank, N.A., as the trustee (in such capacity, the “Trustee”) and securities intermediary. The Base Indenture and the Series 2014-1 Supplement (collectively, the “Indenture”) will allow the Co-Issuers to issue additional series of notes in the future subject to certain conditions set forth therein.

While the Notes are outstanding, payment of principal and interest is required to be made on the Class A-2 Notes on a quarterly basis. The payment of principal on the Class A-2 Notes may be suspended when the leverage ratio for the Company and its subsidiaries is less than or equal to 5.25x. In general, the leverage ratio is our indebtedness (assuming all variable funding facilities are fully drawn) divided by adjusted EBITDA for the four preceding quarterly periods. The complete definitions of all calculation elements of the leverage ratio are contained in the Indenture filed as an Exhibit to Form 8-K filed on October 3, 2014.

The legal final maturity of the Class A-2 Notes is in September 2044, but it is anticipated that, unless earlier prepaid to the extent permitted under the Indenture, the Class A-2 Notes will be repaid in September 2021 (the “Class A-2 Anticipated Repayment Date”). If the Co-Issuers have not repaid or refinanced the Class A-2 Notes prior to the Class A-2 Anticipated Repayment Date, additional interest will accrue on the Class A-2 Notes equal to the greater of (i) 5.00% per annum and (ii) a per annum interest rate equal to the amount, if any, by which the sum of the following exceeds the Class A-2 Note interest rate: (A) the yield to maturity (adjusted to a quarterly bond-equivalent basis) on the Class A-2 Anticipated Repayment Date of the United States Treasury Security having a term closest to 10 years plus (B) 5.00% plus (C) 2.150%.

The Notes are secured by the collateral described below under “Guarantees and Collateral.”

Variable Funding Notes

In connection with the issuance of the Class A-2 Notes, the Co-Issuers also entered into a revolving financing facility that allows for the drawings of up to \$100 million of Variable Funding Notes and the issuance of letters of credit. The Variable Funding Notes were issued under the Indenture and allow for drawings on a revolving basis. Drawings and certain additional terms related to the Variable Funding Notes are governed by the Class A-1 Note Purchase Agreement dated as of September 30, 2014 (the “Variable Funding Note Purchase Agreement”), among the Co-Issuers, the Guarantors, certain conduit investors, financial institutions and funding agents, and Cooperatieve Centrale Raiffeisen-Boerenleenbank, B.A. (“Rabobank Nederland”), New York Branch, as provider of letters of credit, as swingline lender and as administrative agent.

The Variable Funding Notes will be governed, in part, by the Variable Funding Note Purchase Agreement and by certain generally applicable terms contained in the Indenture. Depending on the type of borrowing by the Co-Issuers, the applicable interest rate under the Variable Funding Notes is calculated at a per annum rate equal to (a) LIBOR plus 2.50%, (b) (i) the greatest of (x) the prime rate, (y) the federal funds effective rate plus 0.50% or (z) a daily rate equal to one month LIBOR plus 0.5% plus (ii) 2.00% or (c) the lenders’ commercial paper funding rate plus 2.50%. There is a scaled commitment fee based on the unused portion of the Variable Funding Notes facility of between 50 to 100 basis points. It is anticipated that the principal and interest on the Variable Funding Notes will be repaid in full on or prior to September 2019 (the “VFN Anticipated Repayment Date”), subject to two additional one-year extensions at the option of the Company, which acts as the manager (as described below), upon the satisfaction of certain conditions. Following the VFN Anticipated Repayment Date (and any extensions thereof), additional interest will accrue on the Variable Funding Notes equal to 5.00% per annum. The Variable Funding Notes and other credit instruments issued under the Variable Funding Note Purchase Agreement are secured by the collateral described below under “Guarantees

and Collateral.”

Guarantees and Collateral

Under the Guarantee and Collateral Agreement dated September 30, 2014 (the “Guarantee and Collateral Agreement”), among the Guarantors in favor of the Trustee, the Guarantors guarantee the obligations of the Co-Issuers under the Indenture and related documents and secure the guarantee by granting a security interest in substantially all of their assets.

The Notes are secured by a security interest in substantially all of the assets of the Co-Issuers and the Guarantors (collectively, the “Securitization Entities”). On September 30, 2014, these assets (the “Securitized Assets”) generally included substantially all of the domestic revenue-generating assets of the Corporation and its subsidiaries, which principally consist of franchise agreements, area license agreements, development agreements, franchisee fee notes, equipment leases, agreements related to the production and sale of pancake and waffle dry-mixes, owned and leased real property and intellectual property.

32

Table of Contents

The Notes are obligations only of the Co-Issuers pursuant to the Indenture and are unconditionally and irrevocably guaranteed by the Guarantors pursuant to the Guarantee and Collateral Agreement. Except as described below, neither we nor any of our subsidiaries, other than the Securitization Entities, will guarantee or in any way be liable for the obligations of the Co-Issuers under the Indenture or the Notes.

Covenants and Restrictions

The Notes are subject to a series of covenants and restrictions customary for transactions of this type, including (i) that the Co-Issuers maintain specified reserve accounts to be used to make required payments in respect of the Notes, (ii) provisions relating to optional and mandatory prepayments, and the related payment of specified amounts, including specified make-whole payments in the case of the Class A-2 Notes under certain circumstances, (iii) certain indemnification payments in the event, among other things, the transfers of the assets pledged as collateral for the Notes are in stated ways defective or ineffective and (iv) covenants relating to recordkeeping, access to information and similar matters. The Notes are also subject to customary rapid amortization events provided for in the Indenture, including events tied to failure of the Securitization Entities to maintain the stated debt service coverage ("DSCR") ratio, the sum of domestic retail sales for all restaurants being below certain levels on certain measurement dates, certain manager termination events, certain events of default and the failure to repay or refinance the Notes on the Class A-2 Anticipated Repayment Date. The Notes are also subject to certain customary events of default, including events relating to non-payment of required interest, principal or other amounts due on or with respect to the Notes, failure of the Securitization Entities to maintain the stated debt service coverage ratio, failure to comply with covenants within certain time frames, certain bankruptcy events, breaches of specified representations and warranties and certain judgments.

The DSCR ratio is Net Cash Flow for the four quarters preceding the calculation date divided by the total debt service payments of the preceding four quarters. The complete definitions of the DSCR and all calculation elements are contained in the Indenture filed as an Exhibit to Form 8-K filed on October 3, 2014. Failure to maintain a prescribed DSCR ratio can trigger a Cash Trapping Event, A Rapid Amortization Event, a Manager Termination Event or a Default Event as described below. In a Cash Trapping Event, the Trustee is required to retain a certain percentage of cash flow in a restricted account. In a Rapid Amortization Event, all excess Cash Flow is retained and used to retire principal amounts of debt. Key DSCR ratios are as follows:

- DSCR less than 1.75x but equal to or greater than 1.50x - Cash Trapping Event, 50% of Net Cash Flow
- DSCR less than 1.50x - Cash Trapping Event, 100% of Net Cash Flow
- DSCR less than 1.30x - Rapid Amortization Event
- DSCR less than 1.20x - Manager Termination Event
- DSCR less than 1.10x - Default Event

Previous Credit Facilities

We had a \$75.0 million revolving credit facility (the "Revolving Facility") under our senior secured credit facility in place prior to September 30, 2014. During the nine months ended September 30, 2014, we did not borrow from our Revolving Facility and there were no outstanding borrowings under the Revolving Facility as of the close of our fiscal third quarter. The Revolving Facility also was used to collateralize letters of credit that were required for insurance purposes.

Dividends

During the nine months ended September 30, 2014, we declared and paid quarterly dividends as follows:

Nine months ended September 30, 2014	Declaration date	Payment date	Total ⁽¹⁾
--------------------------------------	------------------	--------------	----------------------

Edgar Filing: DineEquity, Inc - Form 10-Q

			Dividend per share	(In millions)
First quarter	February 25, 2014	March 28, 2014	\$0.75	\$14.3
Second quarter	May 28, 2014	June 27, 2014	0.75	14.3
Third quarter	August 4, 2014	September 26, 2014	0.75	14.2
Total			\$2.25	\$42.8

(1) Includes dividend equivalents paid on restricted stock units

On October 27, 2014, our Board of Directors approved the payment of a fourth quarter cash dividend of \$0.875 per share of our common stock, payable at the close of business on January 9, 2015 to the stockholders of record as of the close of business December 3, 2014.

Table of Contents

Share Repurchases

In February 2013, our Board of Directors approved a stock repurchase authorization of up to \$100 million of DineEquity common stock. Under this program, we may repurchase shares on an opportunistic basis from time to time in open market transactions and in privately negotiated transactions based on business, market, applicable legal requirements, and other considerations. The repurchase program does not require the repurchase of a specific number of shares and may be terminated at any time. During the nine months ended September 30, 2014, we repurchased 367,256 shares of common stock at a cost of \$30.0 million. As of September 30, 2014, we have repurchased a cumulative total of 779,278 shares of common stock under the current Board authorization at a total cost of \$59.7 million. On October 27, 2014, our Board of Directors approved increasing our share repurchase authorization back to the previous level of \$100 million.

Cash Flows

In summary, our cash flows for the nine months ended September 30, 2014 and 2013 were as follows:

	Nine Months Ended September 30,		
	2014	2013	Variance
	(In millions)		
Net cash provided by operating activities	\$102.4	\$102.8	\$(0.4)
Net cash provided by investing activities	5.4	6.0	(0.6)
Net cash used in financing activities	(81.0)	(77.8)	(3.2)
Net increase in cash and cash equivalents	\$26.8	\$31.0	\$(4.2)

Operating Activities

Cash provided by operating activities for the nine months ended September 30, 2014 was essentially the same as for the nine months ended September 30, 2013. For the first nine months of 2014, our net income plus the non-cash reconciling items shown in our statements of cash flows (primarily depreciation, gains on asset sales, deferred taxes and stock-based compensation) decreased by \$4.4 million compared to 2013. Net income for the nine months ended September 30, 2014 increased compared to the same period of 2013, primarily due to higher franchise and rental segment profit, and lower G&A expenses, but this was offset by a decrease in net deferred taxes. Additionally, net changes in working capital provided cash of \$28.0 million during the first nine months of 2014 compared to \$24.0 million of cash provided during the first nine months of 2013, a favorable variance of \$4.0 million.

Investing Activities

Investing activities provided net cash of \$5.4 million for the nine months ended September 30, 2014. Principal receipts from notes, equipment contracts and other long-term receivables of \$10.3 million and proceeds from asset sales of \$0.7 million were partially offset by \$5.5 million in capital expenditures. Capital expenditures are expected to be approximately \$10 million for fiscal 2014.

Financing Activities

Financing activities used net cash of \$81.0 million for the nine months ended September 30, 2014. Cash used in financing activities primarily consisted of cash dividends on our common stock totaling \$42.7 million, repurchases of our common stock totaling \$30.0 million, repayments of capital lease, financing obligations and long-term debt of \$12.1 million, and an increase in marketing fund restricted cash of \$4.9 million. Cash provided by financing activities

primarily consisted of a net cash inflow of \$8.8 million related to equity compensation awards.

Change in Cash and Cash Equivalents

At September 30, 2014, our cash and cash equivalents totaled \$132.9 million, including approximately \$48.3 million of cash held for gift card programs and advertising funds. Cash and cash equivalents increased \$26.8 million during the nine months ended September 30, 2014 as compared to an increase of \$31.0 million during the nine months ended September 30, 2013. This change was primarily due to an increase of \$5.3 million in repurchases of our common stock.

Based on our current level of operations, we believe that our cash flow from operations, available cash and available borrowing capacity under our Variable Funding Notes will be adequate to meet our liquidity needs for the next twelve months.

Table of Contents

Free Cash Flow

We define “free cash flow” for a given period as cash provided by operating activities, plus receipts from notes, equipment contracts and other long-term receivables (collectively, “long-term receivables”), less additions to property and equipment, principal payments on capital lease and financing obligations and the mandatory annual repayment of 1% of the principal balance of our borrowings under our senior secured credit facility in place prior to September 30, 2014 (the “Term Loans”). We believe this information is helpful to investors to determine our cash available for general corporate purposes and for the return of cash to stockholders pursuant to our capital allocation strategy.

Free cash flow is considered to be a non-U.S. GAAP measure. Reconciliation of the cash provided by operating activities to free cash flow is as follows:

	Nine Months Ended		Variance
	2014	2013	
	September 30,		
	(In millions)		
Cash flows provided by operating activities	\$102.4	\$102.8	\$(0.4)
Principal receipts from long-term receivables	10.3	10.3	—
Additions to property and equipment	(5.5)	(4.5)	(1.0)
Principal payments on capital lease and financing obligations	(8.5)	(7.5)	(1.0)
Mandatory 1% repayment of principal balance of Term Loans	(3.5)	(3.5)	—
Free cash flow	\$95.2	\$97.6	\$(2.4)

This non-U.S. GAAP measure is not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies. Non-U.S. GAAP measures should be considered in addition to, and not as a substitute for, the U.S. GAAP information contained within our financial statements.

Off-Balance Sheet Arrangements

As of September 30, 2014, we had no off-balance sheet arrangements, as defined in Item 303(a)(4) of SEC Regulation S-K.

Contractual Obligations and Commitments

There were no material changes to the contractual obligations table as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with U.S. GAAP requires we make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net revenues and expenses in the reporting period. We base our estimates and assumptions on current facts, historical experience and various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. We continually review the estimates and underlying assumptions to ensure they are appropriate for the circumstances. Accounting assumptions and estimates are inherently uncertain and actual results may differ materially from our estimates.

A summary of our critical accounting estimates is included in Management’s Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended December 31, 2013. During the nine months ended September 30, 2014, there were no significant changes in our estimates and critical accounting policies.

See Note 3, "Accounting Policies," in the Notes to Consolidated Financial Statements for a discussion of recently adopted accounting standards and newly issued accounting standards.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

There were no material changes from the information contained in the Company's Annual Report on Form 10-K as of December 31, 2013.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures.

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting.

There have been no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are subject to various lawsuits, administrative proceedings, audits, and claims arising in the ordinary course of business. Some of these lawsuits purport to be class actions and/or seek substantial damages. We are required to record an accrual for litigation loss contingencies that are both probable and reasonably estimable. Legal fees and expenses associated with the defense of all of our litigation are expensed as such fees and expenses are incurred. Management regularly assesses our insurance deductibles, analyzes litigation information with our attorneys and evaluates our loss experience in connection with pending legal proceedings. While we do not presently believe that any of the legal proceedings to which we are currently a party will ultimately have a material adverse impact on us, there can be no assurance that we will prevail in all the proceedings we are party to, or that we will not incur material losses from them.

Item 1A. Risk Factors.

Except as set forth below, there are no material changes from the risk factors set forth under Item 1A of Part I of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013:

The terms of the securitized debt issued by certain of our wholly-owned subsidiaries have restrictive terms and the failure to comply with such restrictive terms could put us in default, which would have an adverse effect on our business and prospects.

Unless and until we repay all outstanding borrowings under our securitized debt, we will remain subject to the restrictive terms of the securitized debt issued by certain of our wholly-owned subsidiaries. For example, the

Indenture entered into by such subsidiaries in connection with the securitized debt contains covenants that limit the ability of certain of our wholly-owned subsidiaries to, among other things: sell assets; alter the business conducted by such subsidiaries; engage in mergers or acquisitions; declare dividends or redeem or purchase certain equity interests; incur, assume or permit to exist additional indebtedness or guarantees; make loans and investments; incur liens; and enter into transactions with affiliates other than on an arms-length basis. These covenants are applicable only to the securitization subsidiaries and do not apply to any of DineEquity, Inc., International House of Pancakes, LLC or Applebee's International, Inc. as these entities are not a party to the Indenture. A breach of a covenant could result in a rapid amortization event or default under the securitized debt.

Further, the securitized debt also includes limitations on our ability to incur additional indebtedness and contains a number of financial performance measures that must be met to avoid a possible rapid amortization event or event of default. The most

Table of Contents

significant of these measures include a minimum debt service coverage ratio and minimum domestic franchise system sales. The ability to meet these financial performance measures can be affected by events beyond our control and there can be no assurance that we will satisfy these financial measures.

If amounts owed under the securitized debt are accelerated because of a default and we are unable to pay such amounts, the debt investors may have the right to assume control of substantially all of the securitized assets, which consist of substantially all of our domestic revenue-generating assets and domestic intellectual property.

During the seven-year term following issuance, the outstanding fixed-rate senior notes will accrue interest at a rate of 4.277% per year. Additionally, the fixed-rate senior notes have scheduled quarterly principal amortization payments of \$3.25 million. If we maintain a leverage ratio of less than or equal to 5.25x total debt to EBITDA, we may elect to not make the scheduled principal payments.

If we are unable to refinance or repay amounts under the securitized debt prior to the expiration of the seven-year term, our cash flow would be directed to the repayment of the securitized debt and, other than a weekly management fee sufficient to cover minimal selling, general and administrative expenses, would not be available for operating our business.

No assurance can be given that any refinancing or additional financing will be possible when needed or that we will be able to negotiate acceptable terms. In addition, our access to capital is affected by prevailing conditions in the financial and capital markets and other factors beyond our control. There can be no assurance that market conditions will be favorable at the times that we require new or additional financing.

The Indenture governing the securitized debt will restrict the cash flow from the entities subject to the securitization to any of our other entities and upon the occurrence of certain events, cash flow would be further restricted.

In the event that a rapid amortization event occurs under the Indenture (including, without limitation, upon an event of default under the Indenture or the failure to repay the securitized debt at the end of the seven-year term), the funds available to us would be reduced or eliminated, which would in turn reduce our ability to operate or grow our business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Purchases of Equity Securities by the Company

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs (b)	Approximate dollar value of shares that may yet be purchased under the plans or programs (b)
June 30, 2014 – July 27, 2014 ^(a)	—	—	—	\$40,300,000
July 28, 2014 – August 24, 2014 ^(a)	5,878	\$81.22	—	\$40,300,000
August 25, 2014 – September 28, 2014 ^(a)	6,170	\$82.69	—	\$40,300,000
Total	12,048	\$81.97	—	\$40,300,000

^(a) These amounts represent shares owned and tendered by employees to satisfy tax withholding obligations arising upon vesting of restricted stock awards.

^(b) On February 26, 2013, our Board of Directors approved a stock repurchase authorization of up to \$100 million of our common stock, replacing the previously announced \$45 million authorization. Repurchases are subject to prevailing market prices and may take place in open market transactions and in privately negotiated transactions, based on business, market, applicable legal requirements and other considerations. The program does not require the repurchase of a specific number of shares and may be terminated at any time.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not Applicable.
