IONICS, INCORPORATED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation:

In the opinion of the management of Ionics, Incorporated (the "Company"), all adjustments have been made that are necessary to present fairly the consolidated financial position of the Company, the consolidated results of its operations and the consolidated cash flows for each period presented. The consolidated results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year. These financial statements should be read in conjunction with the Company's 2000 Annual Report as filed on Form 10-K with the Securities and Exchange Commission. Other than as noted below, there have been no significant changes in the information reported in those Notes, other than from the normal business activities of the Company, and there have been no changes which would, in the opinion of management, have a materially adverse effect upon the Company. Certain prior year amounts have been reclassified to conform to the current year presentation with no impact on net income.

2. Contingent Liabilities:

On March 30, 2001, the two lawsuits alleging infringement of certain United States patents and brought against the Company by United States Filter Corporation, U.S. Filter/Ionpure, Inc., IP Holding Company, Millipore Corporation and Millipore Investment Holdings Limited in U.S. District Court, Boston (Civil Actions No. 98-10541-REK and No. 99-11242-RWZ), and a third lawsuit alleging infringement of another United States patent and also brought against the Company by United States Filter Corporation and U.S. Filter/Ionpure, Inc., in U.S. District Court, Boston (Civil Action No. 00-11157-REK), were settled.

Under terms of the settlement agreement concluding the first two lawsuits, the Company will make certain payments to United States Filter Corporation (USF) in exchange for a release and covenant not to sue. In the fourth quarter of 2000, Ionics reserved against this financial obligation. Under terms of the settlement agreement, Ionics is free to continue its current activities in electrodeionization (EDI).

Under terms of the settlement agreement concluding the third lawsuit, also entered into as of March 30, 2001, the Company agreed to an injunction against its future infringement of U.S. Patent No. 4,574,049. The Company has no separate financial obligation under this settlement agreement.

3. Earnings Per Share (EPS) Calculations:

(Amounts in thousands, except per share amounts)

	For the three months ended March 31,			
	2001		2000

The effect of dilutive stock options excludes those stock options for which the impact would have been antidilutive based on the exercise price of the options. The number of options that were antidilutive at the three months ended March 31, 2001 and 2000 was 1,568,234 and 736,250, respectively.

4. Comprehensive Income:

The Company has adopted the Statement of Financial Accounting Standards ("SFAS") No. 130, "Reporting Comprehensive Income," which establishes standards for the reporting and display of comprehensive income and its components. The table below sets forth "comprehensive income" as defined by SFAS No. 130 for the three-month periods ended March 31, 2001 and 2000.

Edgar Filing: IONICS INC - Form 10-Q

5. Segment Information:

In 1998, the Company adopted SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information." At the end of 1998, the Company changed from three reportable segments to four reportable "business group" segments corresponding to a "business group" structure which was put into place in the latter part of 1998. As of March 31, 2001, no changes have been made to the basis of segmentation or the measurement of profit or loss from that which was reported in the Company's 2000 Annual Report as filed on Form 10-K with the Securities and Exchange Commission, and there were no material changes to total assets by segment.

The following table summarizes the Company's operations by the four business group segments and "Corporate" (Corporate includes the elimination of intersegment transfers).

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Results of Operations

Edgar Filing: IONICS INC - Form 10-Q

Comparison of the Three Months Ended March 31, 2001 with the Three Months Ended

March 31, 2000

Revenues for the first quarter of 2001 increased 19.6%, and net income decreased by 15.9%, compared to the results of the first quarter of 2000. Gross profit was \$35.8 million in the first quarter of 2001 compared to gross profit of \$30.5 million in the first quarter of 2000. Gross profit for the first quarter of 2001 increased in each of the four business groups from the first quarter of 2000. These increases were primarily due to higher sales volume of capital equipment and consumer water products as well as improved margins for the Ultrapure Water Group (UWG) in the first quarter of 2001 compared to the first quarter of 2000.

Total revenues for the first quarter of 2001 were \$123.0 million compared to revenues of \$102.8 million for the first quarter of 2000. Revenues were higher in all of the business group segments for the first quarter of 2001 as compared to the first quarter of 2000.

Equipment Business Group (EBG) revenues increased 25.7%, or \$10.6 million, for the first three months of 2001 as compared to the first three months of 2000. The increase was due to increased capital equipment sales and continuing work on a desalination facility in Trinidad as well as partial delivery of a storage system for the containment of nuclear fuel at a commercial U.S. nuclear energy plant.

UWG revenues increased \$6.1 million, or 22%, in the first quarter of 2001 from the first quarter of 2000, primarily as a result of increased capital equipment sales to the microelectronics industry.

The revenues of the Consumer Water Group (CWG) increased \$2.9 million, or 11.1%, in the first quarter of 2001 compared to the first quarter of 2000. This increase was due to continued growth in both the bottled water and home water businesses.

Instrument Business Group (IBG) revenues increased \$0.5 million, or 7.1%, in the first quarter of 2001 compared to the first quarter of 2000.

Cost of sales as a percentage of revenue was 70.9% in the first quarter of 2001 compared to 70.3% in the first quarter of 2000.

Cost of sales as a percentage of revenue increased in the first quarter of 2001, compared to the first quarter of 2000, for EBG and CWG while such percentage decreased for UWG and IBG. EBG's cost of sales percentage increased to 77.0% in the first quarter of 2001 from 75.9% in the first quarter of 2000 reflecting a shift in business mix to lower margin capital equipment. The increase in CWG's cost of sales to 61.4% in the first quarter of 2001 from 59.4% in the first quarter of 2000 is primarily the result of higher distribution costs due to continued increases in fuel and labor costs. These increases were offset by decreases in the cost of sales as a percentage of revenue for UWG and IBG. The decrease in UWG's cost of sales percentage to 75.9% in the first quarter of 2001 from 78.8% in the first quarter of 2000 was primarily due to improved performance in certain domestic and Far East operations. Cost of sales as a percentage of revenues for IBG decreased to 44.2% in the first quarter of 2001 from 45.1% in the first quarter of 2000, primarily due to the consolidation of operations at the end of 2000.

Operating expenses as a percentage of revenues were 24.6% in the first quarter of 2001 and 24.1% in the first quarter of 2000. The increase in operating expenses as a percentage of revenue primarily relates to accounts receivable charges and legal expenses.

Edgar Filing: IONICS INC - Form 10-Q

Interest income of \$0.2 million for the first quarter of 2001 was flat in comparison to interest income for the first quarter of 2000. The increase of interest expense by \$0.9 million in the first quarter of 2001 from the first quarter of 2000 is attributable to higher average borrowings by the Company.

Financial Condition

Working capital decreased \$4.4 million during the first three months of 2001 while the Company's current ratio of 1.5 at March 31, 2001 was unchanged from the Company's current ratio at December 31, 2000. At March 31, 2001 the Company had \$155.0 million of accounts receivable, a decrease of \$7.7 million from December 31, 2000. Accounts payable decreased by \$18.4 million, and other current assets decreased by \$5.5 million.

Cash used by operating activities totaled \$2.4 million for the first three months of 2001, primarily due to the decrease in accounts payable. The primary use of cash for investing purposes was for additions to property, plant and equipment by the Company's various business groups and among the different asset classifications. Net cash provided by financing activities was \$5.3 million, primarily from short-term borrowings.

During 2001, construction has been continuing on the Trinidad desalination facility owned by Desalination Company of Trinidad and Tobago Ltd. (Desalcott), in which the Company has a 40% equity interest. During 2000 and through the first quarter of 2001, the Company loaned \$10 million to the 60% equity owner, Hafeez Karamath Engineering Services Ltd. (HKES), as the source of HKES' equity contribution, in addition to the \$10 million contributed by the Company for its 40% equity interest. Desalcott has entered into a "bridge loan" agreement with a Trinidad bank providing \$60 million in construction financing. However, the bridge loan plus the \$20 million equity provided to Desalcott will not provide sufficient funds to complete construction of the project. Although Desalcott has received proposals for long-term debt financing, there is no assurance that such financing will be obtained on terms acceptable to Desalcott, or prior to completion of construction. If permanent financing is not obtained prior to the completion of construction, Desalcott will be required to obtain additional funds to complete construction, and the Company has committed to lend to Desalcott up to \$10 million under such circumstances.

The Company completed a private placement of common stock to Fidelity Management & Research Company (Fidelity), on behalf of funds and accounts managed by Fidelity, in April 2001. 875,000 shares were sold at a price of \$24.93 per share, and the total proceeds to the Company were approximately \$21.8 million. The proceeds were used to reduce short-term borrowings. The Company has agreed to file a registration statement with the Securities and Exchange Commission covering the resale of these shares.

On March 1, 2001, the Company's principal revolving credit agreement with Fleet National Bank (the Bank) was amended and restated to increase the amount available for borrowing from \$70 million to \$80 million. In consideration of this increase, the company gave the Bank a "springing lien," which would result in a perfected security interest in the assets of the Company and its domestic subsidiaries (other than real estate and motor vehicles) in the event that the Company (i) defaults under any of its covenants or obligations in the credit agreement, or (ii) fails to pay down outstanding borrowings under the credit agreement to \$50 million by May 15, 2001. On May 14, 2001, the principal revolving credit agreement with the Bank was again amended to eliminate the "springing lien" and to reduce the borrowing capacity from \$80 million to \$65 million. Under the amended credit agreement, the Company has agreed to reduce the principal amount of its borrowings to \$50 million by September 30, 2001.

Edgar Filing: IONICS INC - Form 10-Q

The Company believes that its cash and cash equivalents, cash from operations, lines of credit and foreign exchange facilities are adequate to meet its currently anticipated needs.

Quantitative and Qualitative Disclosures about Market Risk

PART II - OTHER INFORMATION

Item 5. Other Information

The two lawsuits alleging infringement of certain United States patents and brought against the Company by United States Filter Corporation, U.S. Filter/Ionpure, Inc., IP Holding Company, Millipore Corporation and Millipore Investment Holdings Limited in U.S. District Court, Boston (Civil Actions No. 98-10541-REK and No. 99-11242-RWZ), and a third lawsuit alleging infringement of another United States patent and also brought against the Company by United States Filter Corporation and U.S. Filter/Ionpure, Inc., in U.S. District Court, Boston (Civil Action No. 00-11157-REK), have been settled.

Under the terms of the settlement agreement concluding the first two lawsuits, entered into as of March 30, 2001, the Company will make certain payments to United States Filter Corporation (USF) in exchange for a release and a covenant not to sue. In the fourth quarter of 2000, Ionics reserved against this financial obligation. Under the terms of the settlement agreement, Ionics is free to continue its current activities in electrodeionization (EDI).

 - (Four) The price for the Shares to be purchased shall be payable on the date of transfer and shall be payable in U.S. Dollars; and
