RAYONIER INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(Dollar amounts in thousands unless otherwise stated)

1. BASIS OF PRESENTATION

Basis of Presentation

The unaudited consolidated financial statements and notes thereto of Rayonier Inc. and its subsidiaries (“Rayonier” or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission (the “SEC”). In the opinion of management, these financial statements and notes reflect all adjustments (all of which are normal recurring adjustments) necessary for a fair presentation of the results of operations, financial position and cash flows for the periods presented. These statements and notes should be read in conjunction with the financial statements and supplementary data included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the SEC (the “2014 Form 10-K”).

Reclassifications

Certain 2014 amounts have been reclassified to conform to the current presentation, including changes in balance sheet presentation. During the first quarter of 2015, the Company reclassified seeds and seedlings from Inventory and Other Assets to Timber and Timberlands, Net to better reflect the intended use of the assets. Rayonier also reclassified long-term higher and better use (“HBU”) timberlands and real estate development costs from Other Assets to a separate balance sheet caption. These adjustments are reflected in the March 31, 2015 and December 31, 2014 Consolidated Balance Sheets. Corresponding changes have also been made to the Consolidated Statements of Cash Flows for both periods presented.

Certain 2014 amounts have also been adjusted for reclassifications of discontinued operations. Rayonier completed the spin-off of its Performance Fibers business on June 27, 2014. Accordingly, the operating results of this business segment are reported as discontinued operations in the Company’s Consolidated Statements of Income and Comprehensive Income for the prior-year period. Certain administrative and general costs historically allocated to the Performance Fibers business that remained with Rayonier are reported in continuing operations.

The Consolidated Statement of Cash Flows for March 31, 2014 has not been restated to exclude Performance Fibers cash flows.

See Note 2 — Discontinued Operations for additional information regarding the spin-off of the Performance Fibers business.

New Accounting Standards

In May 2014, the Financial Accounting Standards Board (“FASB”) and International Accounting Standards Board (“IASB”) jointly issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers, a comprehensive new revenue recognition standard that will supersede current revenue recognition guidance. The core principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to receive in exchange for those goods or services. The guidance provides a unified model to determine when and how revenue is recognized and will require enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity’s contracts with customers. In April 2015, the FASB voted for a one-year deferral of the effective date of the new standard, with an option for organizations to adopt early based on the original effective date. If approved, this standard will be effective for Rayonier beginning January 1, 2018 and can be applied either retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. The Company is currently evaluating the impact of adopting this new guidance on the consolidated financial statements.

In February 2015, the FASB issued ASU No. 2015-02, Consolidation, which changes the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. This standard will be effective for Rayonier’s first quarter 2016 Form 10-Q filing and is not expected to have an impact on the Company’s

consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, Interest — Imputation of Interest. This amendment requires that debt issuance costs be presented in the Balance Sheet as a direct deduction from the carrying amount of the debt liability.

This standard will be effective for Rayonier's first quarter 2016 Form 10-Q filing and is not expected to have a material impact on the Company's consolidated financial statements.

Subsequent Events

The Company evaluated events and transactions that occurred after the Balance Sheet date but before the financial statements were issued, and no subsequent events were identified.

2. DISCONTINUED OPERATIONS

Spin-Off of the Performance Fibers Business

On June 27, 2014, Rayonier completed the tax-free spin-off of its Performance Fibers business and retained its timber, real estate and trading businesses. The spin-off resulted in two independent, publicly-traded companies, with the Performance Fibers business being spun-off to Rayonier shareholders as a newly formed public company named Rayonier Advanced Materials Inc. ("Rayonier Advanced Materials"). On June 27, 2014, the shareholders of record received one share of Rayonier Advanced Materials common stock for every three common shares of Rayonier held as of the close of business on the record date of June 18, 2014.

In connection with the spin-off, Rayonier Advanced Materials distributed \$906.2 million in cash to Rayonier from \$550 million in Senior Notes issued by Rayonier A.M. Products (a wholly-owned subsidiary of Rayonier Advanced Materials), \$325 million in term loans, and \$75 million from a revolving credit facility Rayonier Advanced Materials entered into prior to the spin-off. Pursuant to the terms of the Internal Revenue Service spin-off ruling, \$75 million of this cash was paid to Rayonier's shareholders as dividends. Of this \$75 million, \$63.2 million was paid to shareholders as a special dividend in the third quarter of 2014.

In order to effect the spin-off and govern the Company's relationship with Rayonier Advanced Materials after the spin-off, Rayonier and Rayonier Advanced Materials entered into a Separation and Distribution Agreement, an Intellectual Property Agreement, a Tax Sharing Agreement, an Employee Matters Agreement and a Transition Services Agreement. See Note 3 — Discontinued Operations in the 2014 Form 10-K for further details concerning these agreements.

Rayonier will not have significant continuing involvement in the operations of the Performance Fibers business going forward. Accordingly, the operating results of the Performance Fibers business, formerly disclosed as a separate reportable segment, are classified as discontinued operations in the Company's Consolidated Statements of Income and Comprehensive Income for all periods presented. Certain administrative and general costs historically allocated to the Performance Fibers segment are reported in continuing operations, as required.

The following table summarizes the operating results of the Company's discontinued operations related to the Performance Fibers spin-off for the three months ended March 31, 2014, as presented in "Income from discontinued operations, net" in the Consolidated Statements of Income and Comprehensive Income:

In accordance with Accounting Standards Codification (“ASC”) 205-20-S99-3, Allocation of Interest to Discontinued Operations, the Company elected to allocate interest expense to discontinued operations where the debt is not directly attributed to the Performance Fibers business. Interest expense has been allocated based on a ratio of net assets to be discontinued to the sum of consolidated net assets plus consolidated debt (other than debt directly attributable to the Timber and Real Estate operations). The following table summarizes the interest expense allocated to discontinued operations for the three months ended March 31, 2014:

	Three Months Ended March 31, 2014

	Three Months Ended March 31, 2014
Depreciation and amortization	\$20,649
Capital expenditures	17,876

Pursuant to a Memorandum of Understanding agreement, Rayonier may provide Rayonier Advanced Materials with up to 120,000 tons of hardwood annually through July 30, 2017. Prior to the spin-off, hardwood purchases were intercompany transactions eliminated in consolidation as follows:

	Three Months Ended March 31, 2014

(a) Rayonier will not issue additional shares upon future exchange or maturity of the Senior Exchangeable Notes due 2015 (the

“2015 Notes”) due to offsetting hedges. ASC 260, Earnings Per Share requires the assumed conversion of the 2015 Notes to be included in dilutive shares if the average stock price for the period exceeds the strike price, while the assumed conversion of the hedges is excluded since they are anti-dilutive. The full dilutive effect of the 2015 Notes was included for all periods presented.

Rayonier will distribute additional shares upon maturity of the warrants sold in conjunction with the 2015 Notes if the stock price exceeds \$28.12 per share. The exchange price on the warrants is lower than periods prior to second quarter 2014 as it has been adjusted to reflect the spin-off of the Performance Fibers business. The warrants were not dilutive for the three months ended March 31, 2015 as the average stock price for the period did not exceed the strike price. For further information, see Note 13 — Debt in the 2014 Form 10-K and Note 15 — Debt of this Form 10-Q.

4. INCOME TAXES

The operations conducted by the Company’s Real Estate Investment Trust (“REIT”) entities are generally not subject to U.S. federal and state income taxation. Non-REIT qualifying operations are conducted by the Company’s taxable REIT subsidiaries. Prior to the June 27, 2014 spin-off of Rayonier Advanced Materials, the Company’s taxable REIT subsidiaries (“TRS”) operations included the Performance Fibers business. As such, during 2014 and prior periods the income tax benefit from continuing operations was significantly impacted by the TRS businesses. Subsequent to the spin-off, the primary businesses performed in Rayonier’s taxable REIT subsidiaries include log trading and certain real estate activities, such as the sale and entitlement of development HBU properties.

Provision for Income Taxes from Continuing Operations

The Company’s effective tax rate is below the 35 percent U.S. statutory rate due to tax benefits associated with being a REIT. The income tax benefit for the three months ended March 31, 2015 is principally related to the Matariki Forestry Group joint venture (the “New Zealand JV”). The prior year period’s benefit was due to losses at Rayonier's taxable operations primarily from interest and general administrative expenses not allowed to be allocated to the discontinued operations of the Performance Fibers business and is not comparable to the current year.

The table below reconciles the U.S. statutory rate to the Company’s effective tax rate for each period presented:

	Three Months Ended March 31,					
	2015		2014			
Income tax expense at federal statutory rate	(\$6,198) 35.0	% (\$959) 35.0	%

Provision for Income Taxes from Discontinued Operations

On June 27, 2014, Rayonier completed the spin-off of its Performance Fibers business. For the three months ended March 31, 2014, income tax expense related to Performance Fibers discontinued operations was \$15.3 million. See Note 2 — Discontinued Operations for additional information on the spin-off of the Performance Fibers business.

5. HIGHER AND BETTER USE TIMBERLANDS AND REAL ESTATE DEVELOPMENT COSTS

Rayonier continuously assesses potential alternative uses of its timberlands, as some properties may become more valuable for development, residential, recreation or other purposes. The Company periodically transfers, via a sale or contribution from the REIT to TRS, HBU timberlands to enable land-use entitlement, development or marketing activities. The Company also acquires HBU properties in connection with timberland acquisitions. These properties are still managed as timberlands until sold or developed. While the majority of HBU sales involve rural and recreational land, the Company also selectively pursues various land-use entitlements on certain properties for residential, commercial and industrial development in order to enhance the long-term value of such properties. For selected development properties, Rayonier also invests in targeted infrastructure improvements, such as roadways and utilities, to accelerate the marketability and improve the value of such properties.

An analysis of higher and better use timberlands and real estate development costs from December 31, 2014 to March 31, 2015 is shown below:

	Higher and Better Use Timberlands and Real Estate Development Costs

(a) The current portion of Higher and Better Use Timberlands and Real Estate Development Costs is recorded in Inventory. See Note 14 — Inventory for additional information.

(b) Capitalized real estate development costs for the three months ended March 31, 2015 of \$276,000 consisted of \$306,000 in cash outflows and a \$30,000 change in accrued spending.

6. RESTRICTED DEPOSITS

In order to qualify for like-kind exchange (“LKE”) treatment, the proceeds from real estate sales must be deposited with a third-party intermediary. These proceeds are accounted for as restricted cash until a suitable replacement property is acquired. In the event LKE purchases are not completed, the proceeds are returned to the Company after 180 days and reclassified as available cash. As of March 31, 2015 and December 31, 2014, the Company had \$13.8 million and \$6.7 million, respectively, of proceeds from real estate sales classified as restricted cash in Other Assets, which were deposited with an LKE intermediary.

8. SEGMENT AND GEOGRAPHICAL INFORMATION

On June 27, 2014, the Company spun-off its Performance Fibers business and its operations are shown as discontinued operations for all periods presented. See Note 2 — Discontinued Operations for additional information. Effective with the fourth quarter of 2014, the Company realigned its segments considering the economic characteristics of each business unit and the way management now internally evaluates business performance and makes capital allocation decisions. All prior period amounts have been reclassified to reflect the newly realigned segment structure. See Item 2 — Management’s Discussion and Analysis of Financial Condition and Results of Operations — Our Company for additional information.

Sales between operating segments are made based on estimated fair market value, and intercompany sales, purchases and profits (losses) are eliminated in consolidation. The Company evaluates financial performance based on segment operating income and Adjusted EBITDA. Asset information is not reported by segment, as the company does not produce asset information by segment internally.

Operating income as presented in the Consolidated Statements of Income and Comprehensive Income is equal to segment income. Certain income (loss) items in the Consolidated Statements of Income and Comprehensive Income are not allocated to segments. These items, which include gains (losses) from certain asset dispositions, interest income (expense), miscellaneous income (expense) and income tax (expense) benefit, are not considered by management to be part of segment operations.

Segment information for each of the three months ended March 31, 2015 and 2014 were as follows:

9. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

The Company is exposed to market risk related to potential fluctuations in foreign currency exchange rates and interest rates. The Company's New Zealand JV uses derivative financial instruments to mitigate the financial impact of exposure to these risks. The Company also uses derivative financial instruments to mitigate exposure to foreign currency risk due to the translation of the investment in Rayonier's New Zealand-based operations from New Zealand dollars to U.S. dollars.

Accounting for derivative financial instruments is governed by Accounting Standards Codification Topic 815, Derivatives and Hedging, ("ASC 815"). In accordance with ASC 815, the Company records its derivative instruments at fair value as either assets or liabilities in the Consolidated Balance Sheets. Changes in the instruments' fair value are accounted for based on their intended use. Gains and losses on derivatives that are designated and qualify for cash flow hedge accounting are recorded as a component of accumulated other comprehensive income ("AOCI") and reclassified into earnings when the hedged transaction materializes. Gains and losses on derivatives that are designated and qualify for net investment hedge accounting are recorded as a component of AOCI and will not be reclassified into earnings until the Company's investment in New Zealand is partially or completely liquidated. The ineffective portion of any hedge as well as changes in the fair value of derivatives not designated as hedging instruments and those which are no longer effective as hedging instruments, are recognized immediately in earnings. The Company's hedge ineffectiveness was immaterial for all periods presented.

Foreign Currency Exchange and Option Contracts

The functional currency of Rayonier's wholly owned subsidiary, Rayonier New Zealand Limited ("RNZ") and the New Zealand JV is the New Zealand dollar. The New Zealand JV is exposed to foreign currency risk on export sales and ocean freight payments which are mainly denominated in U.S. dollars. The timber operations of the New Zealand JV are typically hedged 50 percent to 90 percent of its estimated foreign currency exposure with respect to the following three months forecasted sales and purchases, 50 percent to 75 percent of forecasted sales and purchases for the

forward three to 12 months and up to 50 percent of the forward 12 to 18 months. Foreign currency exposure from the New Zealand JV's trading operations is typically hedged based on the following three months forecasted sales and purchases. As of March 31, 2015, foreign currency exchange contracts and foreign currency option contracts had maturity dates through July 2016 and September 2016, respectively.

(Unaudited)

(Dollar amounts in thousands unless otherwise stated)

Foreign currency exchange and option contracts hedging foreign currency risk on export sales and ocean freight payments that were entered into subsequent to the Company's acquisition of a majority interest in the New Zealand JV qualify for cash flow hedge accounting. The fair value of foreign currency exchange contracts is determined by a mark-to-market valuation which estimates fair value by discounting the difference between the contracted forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate. The fair value of foreign currency option contracts is based on a mark-to-market calculation using the Black-Scholes option pricing model.

In December 2014, the Company entered into a foreign currency exchange contract to mitigate the risk of fluctuations in foreign currency exchange rates when translating RNZ's balance sheet to U.S. dollars. This contract hedges a portion of the Company's net investment in New Zealand and qualifies as a net investment hedge. The fair value of the foreign currency exchange contract is determined by a mark-to-market valuation which estimates fair value by discounting the difference between the contracted forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate. The ineffectiveness of the foreign currency exchange contract is measured using the spot rate method, whereby the change in the fair value of the contract, other than the change attributable to movements in the spot rate, is excluded from the measure of hedge ineffectiveness and is reported directly in earnings. The Company does not expect any ineffectiveness or changes other than those attributable to movements in the spot rate as the critical risks of the forward contract and the net investment in RNZ coincide.

Interest Rate Swaps

The Company uses interest rate swaps to manage the New Zealand JV's exposure to interest rate movements on its variable rate debt attributable to changes in the New Zealand Bank bill rate. By converting a portion of these borrowings from floating rates to fixed rates the Company has reduced the impact of interest rate changes on its expected future cash outflows. As of March 31, 2015, the Company's interest rate contracts hedged 81 percent of the New Zealand JV's variable rate debt and had maturity dates through January 2020.

Fuel Hedge Contracts

The Company has historically used fuel hedge contracts to manage its New Zealand JV's exposure to changes in New Zealand's domestic diesel prices. Due to the low volume of diesel fuel purchases made by the New Zealand JV in 2013, the Company decided to no longer hedge its diesel fuel purchases effective November 2013. There were no contracts remaining as of December 31, 2014.

10. FAIR VALUE MEASUREMENTS

Fair Value of Financial Instruments

The Accounting Standards Codification established a three-level hierarchy that prioritizes the inputs used to measure fair value as follows:

Level 1 — Quoted prices in active markets for identical assets or liabilities.

Level 2 — Observable inputs other than quoted prices included in Level 1.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table presents the carrying amount and estimated fair values of financial instruments held by the Company at March 31, 2015 and December 31, 2014, using market information and what the Company believes to be appropriate valuation methodologies under generally accepted accounting principles:

Asset (liability)	March 31, 2015			December 31, 2014		
	Carrying Amount	Fair Value		Carrying Amount	Fair Value	
		Level 1	Level 2		Level 1	Level 2
Cash and cash equivalents	\$139,049	\$139,049	—	\$161,558	\$161,558	—
Restricted cash (a)	13,759	13,759	—	6,688	6,688	—
Current maturities of long-term debt	(130,213)	—	(150,588)	(129,706)	—	(156,762)
Long-term debt	(612,804)	—	(621,605)	(621,849)	—	(628,476)
Interest rate swaps (b)	(8,165)	—	(8,165)	(7,247)	—	(7,247)
Foreign currency exchange contracts (b)	(66)	—	(66)	(304)	—	(304)
Foreign currency option contracts (b)	(1,767)	—	(1,767)	(1,138)	—	(1,138)

(a) Restricted cash is recorded in “Other Assets” and represents the proceeds from LKE sales deposited with a third-party intermediary.

(b) See Note 9 — Derivative Financial Instruments and Hedging Activities for information regarding the Balance Sheet classification of the Company’s derivative financial instruments.

Rayonier uses the following methods and assumptions in estimating the fair value of its financial instruments:

Cash and cash equivalents and Restricted cash — The carrying amount is equal to fair market value.

Debt — The fair value of fixed rate debt is based upon quoted market prices for debt with similar terms and maturities. The variable rate debt adjusts with changes in the market rate, therefore the carrying value approximates fair value.

Interest rate swap agreements — The fair value of interest rate contracts is determined by discounting the expected future cash flows, for each instrument, at prevailing interest rates.

Foreign currency exchange contracts — The fair value of foreign currency exchange contracts is determined by a mark-to-market valuation which estimates fair value by discounting the difference between the contracted forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate.

Foreign currency option contracts — The fair value of foreign currency option contracts is based on a mark-to-market calculation using the Black-Scholes option pricing model.

11. GUARANTEES

The Company provides financial guarantees as required by creditors, insurance programs, and various governmental agencies. As of March 31, 2015, the following financial guarantees were outstanding:

Financial Commitments	Maximum Potential Payment	Carrying Amount of Associated Liability
Standby letters of credit (a)	\$16,685	\$15,000
Guarantees (b)	2,254	43
Surety bonds (c)	682	—
Total financial commitments	\$19,621	\$15,043

Approximately \$15 million of the standby letters of credit serve as credit support for industrial revenue bonds. The (a) remaining letters of credit support various insurance related agreements, primarily workers' compensation. These letters of credit will expire at various dates during 2015 and will be renewed as required.

In conjunction with a timberland sale and note monetization in 2004, the Company issued a make-whole agreement (b) pursuant to which it guaranteed \$2.3 million of obligations of a special-purpose entity that was established to complete the monetization. At March 31, 2015, the Company has a de minimis liability to reflect the fair market value of its obligation to perform under the make-whole agreement.

Rayonier issues surety bonds primarily to secure timber harvesting obligations in the State of Washington and to provide collateral for the Company's workers' compensation self-insurance program in that state. (c) These surety bonds expire at various dates during 2015 and 2016 and are expected to be renewed as required.

12. CONTINGENCIES

Following the Company's November 10, 2014 earnings release and filing of the restated interim financial statements for the quarterly periods ended March 31, 2014 and June 30, 2014 (the "November 2014 Announcement"), shareholders of the Company filed five putative class actions against the Company and Paul G. Boynton, Hans E. Vanden Noort, David L. Nunes, and H. Edwin Kiker arising from circumstances described in the November 2014 Announcement, entitled respectively:

• *Sating v. Rayonier Inc. et al*, Civil Action No. 3:14-cv-01395; filed November 12, 2014 in the United States District Court for the Middle District of Florida;

• *Keasler v. Rayonier Inc. et al*, Civil Action No. 3:14-cv-01398, filed November 13, 2014 in the United States District Court for the Middle District of Florida;

• *Lake Worth Firefighters' Pension Trust Fund v. Rayonier Inc. et al*, Civil Action No. 3:14-cv-01403, filed November 13, 2014 in the United States District Court for the Middle District of Florida;

• *Christie v. Rayonier Inc. et al*, Civil Action No. 3:14-cv-01429, filed November 21, 2014 in the United States District Court for the Middle District of Florida; and

• *Brown v. Rayonier Inc. et al*, Civil Action No. 1:14-cv-08986, initially filed in the United States District Court for the Southern District of New York and later transferred to the United States District Court for the Middle District of

Florida and assigned as Civil Action No. 3:14-cv-01474.

On January 9, 2015, the five securities actions were consolidated into one putative class action entitled *In re Rayonier Inc. Securities Litigation*, Case No. 3:14-cv-01395-TJC-JBT, in the United States District Court for the Middle District of Florida. The plaintiffs alleged that the defendants made false and/or misleading statements in violation of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder. The plaintiffs sought unspecified monetary damages and attorneys' fees and costs. Two shareholders, the Pension Trust Fund for Operating Engineers and the Lake Worth Firefighters' Pension Trust Fund moved for appointment as lead plaintiff on January 12, 2015, which was granted on February 25, 2015. On April 7, 2015, the plaintiffs filed a Consolidated Class Action Complaint (the "Amended Complaint"). In the Amended Complaint, plaintiffs added allegations as to and added as a defendant N. Lynn Wilson, a former officer of Rayonier. Although the Amended Complaint does not contain any allegations as to David L. Nunes or H. Edwin Kiker, they have not yet been formally dismissed from the case as defendants. Defendants' Motion to Dismiss is due not later than May 15, 2015. The court has set a hearing on the motion for August 25, 2015. At this preliminary stage, the Company cannot determine whether there is a reasonable possibility that a loss has been incurred nor can the range of any potential loss be estimated.

On November 26, 2014, December 29, 2014, January 26, 2015, and February 13, 2015, the Company received separate letters from shareholders requesting that the Company investigate or pursue derivative claims against certain officers and directors related to the November 2014 Announcement. Although these demands do not identify any claims against the Company, the Company could potentially incur certain obligations to advance expenses and provide indemnification to certain current and former officers and directors of the Company. The Company may also incur expenses as a result of any costs arising from the investigation of the claims alleged in the various demands. At this preliminary stage, the ultimate outcome of these matters cannot be predicted, nor can the range of potential expenses the Company may incur as a result of the obligations identified above be estimated.

In November 2014, the Company received a subpoena from the SEC seeking documents related to the Company's amended reports filed with the SEC on November 10, 2014. The Company is cooperating with the SEC and complying with the subpoena. The Company does not currently believe that the investigation will have a material impact on the Company's financial condition, results of operations, or cash flow, but cannot predict the timing or outcome of the SEC investigation.

The Company has also been named as a defendant in various other lawsuits and claims arising in the normal course of business. While the Company has procured reasonable and customary insurance covering risks normally occurring in connection with its businesses, it has in certain cases retained some risk through the operation of self-insurance, primarily in the areas of workers' compensation, property insurance and general liability. These pending lawsuits and claims, either individually or in the aggregate, are not expected to have a material adverse effect on the Company's financial position, results of operations, or cash flow.

13. EMPLOYEE BENEFIT PLANS

The Company has one qualified non-contributory defined benefit pension plan covering a portion of its employees and an unfunded plan that provides benefits in excess of amounts allowable under current tax law in the qualified plan. Currently, the pension plans are closed to new participants. Employee benefit plan liabilities are calculated using actuarial estimates and management assumptions. These estimates are based on historical information, along with certain assumptions about future events. Changes in assumptions, as well as changes in actual experience, could cause the estimates to change. In the first quarter of 2015, the Company lowered its return on asset assumption from 8.5 percent to 7.7 percent for 2015.

The net pension and postretirement benefit costs that have been recorded are shown in the following table:

	Pension		Postretirement	
	Three Months Ended March 31,		Three Months Ended March 31,	
	2015	2014	2015	2014
Components of Net Periodic Benefit Cost

(a) Net periodic benefit cost for the three months ended March 31, 2014 includes \$2.0 million recorded in “Income from discontinued operations, net” on the Consolidated Statements of Income and Comprehensive Income. In 2015, the Company has no mandatory pension contribution requirement.

14. INVENTORY

In the first quarter of 2015, Rayonier reclassified seeds and seedlings from Inventory and Other Assets to Timber and Timberlands, Net to better reflect the intended use of the assets, as discussed at Note 1 — Basis of Presentation. As of March 31, 2015 and December 31, 2014, Rayonier's inventory was solely comprised of finished goods, as follows:

	March 31, 2015	December 31, 2014
Finished goods inventory		
Real estate inventory (a)	\$6,511	\$4,932

15. DEBT

As of December 31, 2014, the Senior Exchangeable Notes due 2015 were not exchangeable at the option of the holders for the calendar quarter ended March 31, 2015. According to the indenture, in order for the notes to become exchangeable prior to May 15, 2015, the Company's stock price must exceed 130 percent of the exchange price for 20 trading days during a period of 30 consecutive trading days as of the last day of the quarter. Based upon the average stock price for the 30 trading days ended March 31, 2015, these notes will not become exchangeable until May 15, 2015, the date at which the notes become exchangeable until maturity without the aforementioned condition. The notes mature in August of 2015 and are classified as current maturities of long-term debt as of March 31, 2015.

Net draws of \$2 million were made in the first quarter of 2015 on the revolving credit facility. At March 31, 2015, the Company had available borrowings of \$180 million under the revolving credit facility, net of \$2 million to secure its outstanding letters of credit, and additional draws available of \$100 million under the term credit agreement.

As of March 31, 2015, the New Zealand JV had \$176 million of long-term variable rate debt maturing in September of 2016. This debt is subject to interest rate risk resulting from changes in the 90-day New Zealand Bank bill rate ("BKBM"). However, the New Zealand JV uses interest rate swaps to manage its exposure to interest rate movements on its bank loan by swapping a portion of these borrowings from floating rates to fixed rates. The notional amount of the outstanding interest rate swap contracts at March 31, 2015 was \$142 million, or 81 percent of the variable rate debt. The interest rate swap contracts have maturities extending through January 2020. The periodic interest rate on New Zealand JV debt is BKBM plus 80 basis points with an additional 80 basis point credit line fee. The Company estimates the periodic effective interest rate on New Zealand JV debt to be approximately 6.6% after consideration of interest rate swaps. During the three months ended March 31, 2015, the New Zealand JV paid \$1.4 million on its shareholder loan held with the non-controlling interest party. Favorable exchange rate changes resulted in a \$9.5 million decrease to the New Zealand JV's debt on a U.S. dollar basis.

There were no other significant changes to the Company's outstanding debt as reported in Note 13 — Debt in the 2014 Form 10-K.

Reflects \$78 million, net of taxes, of comprehensive income due to the transfer of losses to Rayonier Advanced Materials Pension Plans. This comprehensive income was offset by \$30 million, net of taxes, of losses as a result of revaluations required due to the spin-off and at December 31, 2014. See Note 22 — Employee Benefit Plans in the 2014 Form 10-K for additional information.

This accumulated other comprehensive income component is comprised of \$5 million from the computation of net periodic pension cost and the \$1 million write-off of a deferred tax asset related to the revaluation and transfer of liabilities as a result of the spin-off.

This component of other comprehensive income is included in the computation of net periodic pension cost. See Note 13 — Employee Benefit Plans for additional information.

18. CONSOLIDATING FINANCIAL STATEMENTS

The condensed consolidating financial information below follows the same accounting policies as described in the consolidated financial statements, except for the use of the equity method of accounting to reflect ownership interests in wholly-owned subsidiaries, which are eliminated upon consolidation, and the allocation of certain expenses of Rayonier Inc. incurred for the benefit of its subsidiaries.

In August 2009, Rayonier TRS Holdings Inc. issued \$172.5 million of 4.50% Senior Exchangeable Notes due August 2015. The notes are guaranteed by Rayonier Inc. as the Parent Guarantor and Rayonier Operating Company LLC (“ROC”) as the Subsidiary Guarantor. In connection with these exchangeable notes, the Company provides the following condensed consolidating financial information in accordance with SEC Regulation S-X Rule 3-10, Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered.

The subsidiary issuer and subsidiary guarantor are wholly-owned by the Parent Company, Rayonier Inc. The notes are fully and unconditionally guaranteed on a joint and several basis by the guarantor subsidiary and Rayonier Inc.
