**Signature of Reporting Person Date

Explanation of Responses:

- * If the form is filed by more than one reporting person, see Instruction 4(b)(v).
 - ** Intentional misstatements or omissions of facts constitute Federal Criminal Violations. See 18 U.S.C. 1001 and 15 U.S.C. 78ff(a).
- (1) Salary stock issued bi-weekly as a portion of the reporting person's salary compensation under the First BanCorp Omnibus Incentive Plan, as amended. Salary stock is fully vested on the date of grant. The number of shares represented by this award was determined by dividing the dollar value of the award granted to the reporting person by \$5.14 (the closing price of the Issuer's common stock as quoted on the NYSE on November 8, 2016, the last trading day of the pay period). The shares reported as disposed of were withheld for taxes.
- (2) Includes 3,762 shares purchased through the Employee Purchase Plan.

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, see Instruction 6 for procedure. Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number. INVESTORS REAL ESTATE TRUST AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)
for the nine months ended January 31, 2012 and 2011

NOTE 1 • ORGANIZATION

Investors Real Estate Trust (“IRET” or the “Company”) is a self-advised real estate investment trust engaged in acquiring, owning and leasing multi-family and commercial real estate. IRET has elected to be taxed as a Real Estate Investment Trust (“REIT”) under Sections 856-860 of the Internal Revenue Code of 1986, as amended. As a REIT, we are subject to a number of organizational and operational requirements, including a requirement to distribute 90% of ordinary taxable income to shareholders, and, generally, are not subject to federal income tax on net income, except for taxes on undistributed REIT taxable income. IRET’s multi-family residential properties and commercial properties are located mainly in the states of North Dakota and Minnesota, but also in the states of Colorado, Idaho, Iowa, Kansas, Michigan, Missouri, Montana, Nebraska, South Dakota, Wisconsin and Wyoming. As of January 31, 2012, IRET owned 81 multi-family residential properties with 8,921 apartment units and 184 commercial properties, consisting of office, medical, industrial and retail properties, totaling 12.3 million net rentable square feet. IRET conducts a majority of its business activities through its consolidated operating partnership, IRET Properties, a North Dakota Limited Partnership (the “Operating Partnership”), as well as through a number of other consolidated subsidiary entities.

All references to IRET or the Company refer to Investors Real Estate Trust and its consolidated subsidiaries.

NOTE 2 • BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements include the accounts of IRET and all subsidiaries in which it maintains a controlling interest. All intercompany balances and transactions are eliminated in consolidation. The Company’s fiscal year ends April 30th.

The accompanying condensed consolidated financial statements include the accounts of IRET and its interest in the Operating Partnership. The Company’s interest in the Operating Partnership was 81.4% and 80.1%, respectively, as of January 31, 2012 and April 30, 2011. The limited partners in the Operating Partnership have a redemption option that they may exercise. Upon exercise of the redemption option by the limited partners, IRET has the choice of redeeming the limited partners’ interests (“Units”) for IRET common shares of beneficial interest, on a one-for-one basis, or making a cash payment to the unitholder. The redemption generally may be exercised by the limited partners at any time after the first anniversary of the date of the acquisition of the Units (provided, however, that in general not more than two redemptions by a limited partner may occur during each calendar year, and each limited partner may not exercise the redemption for less than 1,000 Units, or, if such limited partner holds less than 1,000 Units, for all of the Units held by such limited partner). The Operating Partnership and some limited partners have contractually agreed to a holding period of greater than one year and/or a greater number of redemptions during a calendar year.

The condensed consolidated financial statements also reflect the ownership by the Operating Partnership of certain joint venture entities in which the Operating Partnership has a general partner or controlling interest. These entities are consolidated into IRET’s other operations, with noncontrolling interests reflecting the noncontrolling partners’ share of ownership and income and expenses.

UNAUDITED INTERIM FINANCIAL STATEMENTS

The interim condensed consolidated financial statements of IRET have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the applicable rules and regulations of the Securities and Exchange Commission (“SEC”). Accordingly, certain disclosures accompanying annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) are omitted. The year-end balance sheet data was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. In the opinion of management, all adjustments, consisting solely of normal recurring adjustments, necessary for the fair presentation of the Company’s financial position, results of operations and cash flows for the interim periods have been included.

Table of Contents

8

The current period's results of operations are not necessarily indicative of results which ultimately may be achieved for the year. The interim condensed consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011, as filed with the SEC on July 14, 2011, as amended by the Current Report on Form 8-K filed with the SEC on December 12, 2011.

RECENT ACCOUNTING PRONOUNCEMENTS

In May 2011, the Financial Accounting Standard Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. ASU 2011-04 amended Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards ("IFRS"), and in some limited cases, changes some principles to achieve convergence between U.S. GAAP and IFRS. ASU 2011-04 results in a consistent definition of fair value and common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU 2011-04 also expands the disclosures for fair value measurements that are estimated using significant unobservable (Level 3) inputs. The amendments are to be applied prospectively for annual periods beginning after December 15, 2011. The Company is evaluating the effect ASU 2011-04 will have on the Company's consolidated financial statements, but does not expect the adoption of ASU 2011-04 will have a material effect on the Company's operating results or financial position. To date, the Company has not had any transfers in and out of Level 1, Level 2 and Level 3 fair value measurements.

In June 2011, the FASB issued ASU 2011-05, Presentation of Comprehensive Income, which requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income, or in two separate but consecutive statements. ASU 2011-05 eliminates the option to present components of other comprehensive income as part of the statement of equity. ASU 2011-05 will be effective for annual and interim periods beginning after December 15, 2011. The Company does not expect the adoption of ASU 2011-05 to have a material effect on its operating results or financial position.

In September 2011, the FASB issued ASU 2011-08, Testing Goodwill for Impairment. This standard gives entities testing goodwill for impairment the option of performing a qualitative assessment before calculating the fair value of the reporting unit (step I of the goodwill impairment test). If entities determine, on the basis of qualitative factors, that the fair value of the reporting unit is more likely than not less than its carrying amount, the two-step impairment test would be required. Otherwise, no further testing is required. The ASU does not change how goodwill is calculated or assigned to reporting units, nor does it revise the requirement to test goodwill annually for impairment. The ASU is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted.

IMPAIRMENT OF LONG-LIVED ASSETS

The Company periodically evaluates its long-lived assets, including its investments in real estate, for impairment indicators. The judgments regarding the existence of impairment indicators are based on factors such as operational performance, market conditions, expected holding period of each asset and legal and environmental concerns. If indicators exist, the Company compares the expected future undiscounted cash flows for the long-lived asset against the carrying amount of that asset. If the sum of the estimated undiscounted cash flows is less than the carrying amount of the asset, an impairment loss is recorded for the difference between the estimated fair value and the carrying amount of the asset. If our anticipated holding period for properties, the estimated fair value of properties or other factors change based on market conditions or otherwise, our evaluation of impairment charges may be different and

such differences could be material to our consolidated financial statements. The evaluation of anticipated cash flows is subjective and is based, in part, on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results. Plans to hold properties over longer periods decrease the likelihood of recording impairment losses. During the nine months ended January 31, 2012, the Company incurred a loss of approximately \$128,000 due to impairment of a retail property located in Kentwood, Michigan. The impairment was based on receipt of a market offer to purchase and the Company's intention to dispose of the property (a purchase agreement was signed by the Company in the fourth quarter of fiscal year 2012). A related impairment of \$7,000 was recorded to write-off goodwill assigned to the Kentwood property. During the nine months ended January 31, 2011, the Company incurred no losses due to impairment.

Table of Contents

9

COMPENSATING BALANCES AND OTHER INVESTMENTS; LENDER HOLDBACKS

The Company maintains compensating balances, not restricted as to withdrawal, with several financial institutions in connection with financing received from those institutions and/or to ensure future credit availability. At January 31, 2012, the Company's compensating balances consisted of the following: Dacotah Bank, Minot, North Dakota, deposit of \$350,000; United Community Bank, Minot, North Dakota, deposit of \$275,000; Commerce Bank, A Minnesota Banking Corporation, deposit of \$250,000; First International Bank, Watford City, North Dakota, deposit of \$6.1 million; Peoples State Bank of Velva, North Dakota, deposit of \$225,000; Equity Bank, Minnetonka, Minnesota, deposit of \$300,000; Associated Bank, Green Bay, Wisconsin, deposit of \$500,000; Venture Bank, Eagan, Minnesota, deposit of \$500,000, and American National Bank, Omaha, Nebraska, deposit of \$400,000. The deposits at United Community Bank and Equity Bank and a portion of the deposit at Dacotah Bank are held as certificates of deposit and comprise the \$633,000 in Other investments on the Condensed Consolidated Balance Sheets. The certificates of deposit have remaining terms of less than three years and the Company intends to hold them to maturity.

The Company has a number of mortgage loans under which the lender retains a portion of the loan proceeds for the payment of constructions costs or tenant improvements, and additionally has two construction loans (for the Company's Trinity build-to-suit project and Jamestown Theater expansion project) under which the lender held back a portion of the loan proceeds for release against specified construction milestones. The decrease of \$5.1 million in lender holdbacks for improvements reflected in the Condensed Consolidated Statements of Cash Flows for the nine months ended January 31, 2012 is due primarily to the release of loan proceeds to the Company upon completion of these construction milestones and tenant improvement projects.

IDENTIFIED INTANGIBLE ASSETS AND INTANGIBLE LIABILITIES AND GOODWILL

Upon acquisition of real estate, the Company records the intangible assets and liabilities acquired (for example, if the leases in place for the real estate property acquired carry rents above the market rent, the difference is classified as an intangible asset) at their estimated fair value separate and apart from goodwill. The Company amortizes identified intangible assets and liabilities that are determined to have finite lives based on the period over which the assets and liabilities are expected to affect, directly or indirectly, the future cash flows of the real estate property acquired (generally the life of the lease). In the nine months ended January 31, 2012 and 2011, respectively, the Company added approximately \$3.7 million and \$6.5 million of new intangible assets. The Company added no new intangible liabilities in the nine months ended January 31, 2012 and \$32,000 of new intangible liabilities in the nine months ended January 31, 2011. The weighted average lives of the intangible assets and intangible liabilities acquired in the nine months ended January 31, 2012 and 2011 are 10.0 years and 9.5 years, respectively. The estimated fair values of intangible assets acquired in the nine months ended January 31, 2012 are provisional and are based on the information that was available as of the filing of the Company's Form 10-Q. The Company will continue to evaluate the purchase price allocation as better information becomes available. The Company expects to finalize the valuation and complete the purchase price allocation as soon as practicable, but no later than one year from the respective acquisition dates. Amortization of intangibles related to above or below-market leases is recorded in Real estate rentals in the Condensed Consolidated Statements of Operations. Amortization of other intangibles is recorded in Depreciation/amortization related to real estate investments in the Condensed Consolidated Statements of Operations. Intangible assets subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. An impairment loss is recognized if the carrying amount of an intangible asset is not recoverable and its carrying amount exceeds its estimated fair value.

The Company's identified intangible assets and intangible liabilities at January 31, 2012 and April 30, 2011 were as follows:

(in thousands)

Explanation of Responses:

	January 31, 2012	April 30, 2011
Identified intangible assets (included in intangible assets):		
Gross carrying amount	\$95,729	\$ 91,986
Accumulated amortization	(46,674)	(42,154)
Net carrying amount	\$49,055	\$ 49,832
Identified intangible liabilities (included in other liabilities):		
Gross carrying amount	\$1,104	\$ 1,104
Accumulated amortization	(954)	(900)
Net carrying amount	\$150	\$ 204

Table of Contents

10

The effect of amortization of acquired below-market leases and acquired above-market leases on rental income was approximately \$(8,000) and \$(19,000) for the three months ended January, 31 2012 and 2011, respectively, and \$(40,000) and \$(36,000) for the nine months ended January 31, 2012 and 2011. The estimated annual amortization of acquired below-market leases, net of acquired above-market leases for each of the five succeeding fiscal years is as follows:

Year Ended April 30,	(in thousands)
2013	\$ 32
2014	35
2015	18
2016	14
2017	6

Amortization of all other identified intangible assets (a component of depreciation and amortization expense) was \$1.2 million and \$1.7 million for the three months ended January 31, 2012 and 2011, respectively, and \$4.4 million and \$5.5 million for the nine months ended January 31, 2012 and 2011. The estimated annual amortization of all other identified intangible assets for each of the five succeeding fiscal years is as follows:

Year Ended April 30,	(in thousands)
2013	\$ 4,921
2014	4,515
2015	4,158
2016	3,940
2017	3,471

The excess of the cost of an acquired business over the net of the amounts assigned to assets acquired (including identified intangible assets) and liabilities assumed is recorded as goodwill. The Company's goodwill has an indeterminate life and is not amortized, but is tested for impairment on an annual basis, or more frequently if events or changes in circumstances indicate that the asset might be impaired. Goodwill book value as of January 31, 2012 and April 30, 2011 was \$1.1 million. The annual review at April 30, 2011 indicated no impairment to goodwill. At January 31, 2012, the impairment of a Kentwood, Michigan, retail property indicated that goodwill assigned to the property was also impaired. Accordingly, an approximately \$7,000 impairment to goodwill was recognized.

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECLASSIFICATIONS

Certain previously reported amounts have been reclassified to conform to the current financial statement presentation. The Company reports, in discontinued operations, the results of operations of a property that has either been disposed of or is classified as held for sale and the related gains or losses, and as a result of discontinued operations, retroactive reclassifications that change prior period numbers have been made. See Note 7 for additional information. During the

first and third quarters of fiscal year 2012 the Company had no real estate dispositions. During the second quarter of fiscal year 2012, the Company sold a small retail property in Livingston, Montana. During fiscal year 2011, the Company sold four apartment complexes, one industrial property, one retail property and a patio home. The results of operations for these properties are included in discontinued operations in the condensed consolidated statements of operations.

TAXABLE REIT SUBSIDIARY

During the third quarter of fiscal year 2012, the Company sold its wholly-owned taxable REIT subsidiary, LSREF Golden Ops 14 (WY), LLC (“LSREF Golden Ops”), to the owner of Edgewood Vista Senior Living Inc., the manager of the Company’s portfolio of Edgewood assisted living facilities and of the Company’s Wyoming assisted living facilities. LSREF Golden Ops is the tenant in the Company’s Wyoming assisted living facilities. The Company sold this entity to restructure its assisted living portfolio following its acquisition of a portfolio of seven senior housing projects in Idaho and an assisted living facility in Minot, North Dakota. Following the sale of this entity, the Company’s revenue from its Wyoming assisted living portfolio will be

Table of Contents

11

received solely as rent under the lease agreement with LSREF Golden Ops, and property management expenses will be paid by LSREF Golden Ops as the tenant, and accordingly will not be included in the Property management expenses category of the Company's financial statements.

INVOLUNTARY CONVERSION OF ASSETS

As we have previously reported, Minot, North Dakota, where our corporate headquarters is located, experienced significant flooding in June 2011, resulting in extensive damage to our Arrowhead Shopping Center and Chateau Apartments property, which consists of two 32-unit buildings. Additionally, on February 22, 2012, one of the buildings of our Chateau Apartments property, which had been undergoing restoration work following the flood, was completely destroyed by fire. We expect to rebuild the destroyed building but have no firm estimates at this time for costs or expected completion date of such rebuilding. The property is insured and we currently expect our losses to be covered under our insurance policy, subject to a deductible of \$200,000. The remaining units in our Chateau Apartments property are expected to be available for leasing in the first quarter of fiscal year 2013. Arrowhead Shopping Center is currently in various stages of re-leasing. Costs related to clean-up, redevelopment and loss of rents for our Arrowhead Shopping Center and Chateau Apartments from the June 2011 flood are being reimbursed to the Company by our insurance carrier, less the Company's deductible of \$200,000 under the policy. As of January 31, 2012, the Company had received \$5.3 million of insurance proceeds for flood clean-up costs and redevelopment and approximately \$246,000 reimbursement for business interruption (loss of rents); additional reimbursement for business interruption in an amount totaling \$328,000 is expected to be added back as income to the extent that insurance proceeds are received and gain contingencies are resolved, in accordance with U.S. GAAP. In regard to its Arrowhead Shopping Center, the Company currently estimates that a gain on involuntary conversion of approximately \$1.7 million will be reported in a future quarter, once all flood-related costs have been reimbursed; however, this number is an estimate only and is subject to revision as reimbursements are received and recognized. The Company is currently unable to estimate whether and to what extent there may be a gain or loss on involuntary conversion due to the recent Chateau Apartments fire.

NOTE 3 • EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. The following table presents a reconciliation of the numerator and denominator used to calculate basic and diluted earnings per share reported in the condensed consolidated financial statements for the three and nine months ended January 31, 2012 and 2011:

	(in thousands, except per share data)

NOTE 4 • EQUITY

The Company has a currently-effective shelf registration statement under which it has registered common and preferred shares of beneficial interest with an aggregate public offering price of up to \$150.0 million. On January 20, 2012, the Company entered into a continuous equity offering program under this shelf registration statement with BMO Capital Markets Corp. (“BMO”) as sales agent, pursuant to which the Company may from time to time offer and sell its common shares of beneficial interest having an aggregate gross sales price of up to \$100.0 million. Sales of common shares, if any, under the program will depend upon market conditions and other factors to be determined by IRET. During the third quarter of fiscal year 2012, IRET issued approximately 366,000 common shares under this program for total proceeds (before offering expenses but after underwriting discounts and commissions) of \$2.7 million. During the third quarter of fiscal year 2011, IRET sold no shares under its previous continuous equity offering program with Robert W. Baird & Co., Incorporated as sales agent. The shelf registration statement under which the Company had reserved shares for issuance under this previous continuous equity offering program expired at the end of its three-year life during the second quarter of fiscal year 2012.

During the nine months ended January 31, 2012 and 2011, respectively, approximately 759,000 Units and 831,000 Units were converted to common shares, with a total value of approximately \$3.5 million and \$6.0 million included in equity. Approximately 52,000 common shares and 15,000 shares were issued under the Company’s 401(k) plan during the nine months ended January 31, 2012 and 2011, respectively, with a total value of approximately \$372,000 and \$125,000 included in equity. Under the Company’s Distribution Reinvestment and Share Purchase Plan, approximately 4.0 million common shares and 1.2 million common shares were issued during the nine months ended January 31, 2012 and 2011, respectively, with a total value of \$28.8 million and \$10.1 million included in equity.

NOTE 5 • SEGMENT REPORTING

IRET reports its results in five reportable segments: multi-family residential properties, commercial office, commercial medical (including senior housing), commercial industrial and commercial retail properties. The Company’s reportable segments are aggregations of similar properties. The accounting policies of each of these segments are the same as those described in Note 2.

IRET measures the performance of its segments based on net operating income (“NOI”), which the Company defines as total real estate revenues less real estate expenses (which consist of utilities, maintenance, real estate taxes, insurance and property management expenses). IRET believes that NOI is an important supplemental measure of operating performance for a REIT’s operating real estate because it provides a measure of core operations that is unaffected by depreciation, amortization, financing and general and administrative expense. NOI should not be considered an alternative to net income, net income available for common shareholders or cash flow from operating activities as a measure of financial performance.

The revenues and net operating income for these reportable segments are summarized as follows for the three and nine month periods ended January 31, 2012 and 2011, along with reconciliations to the condensed consolidated financial statements. Segment assets are also reconciled to Total Assets as reported in the condensed consolidated financial statements.

Mortgage loans receivable, net of allowance						156
Total Assets						\$ 1,615,363

NOTE 6 • COMMITMENTS AND CONTINGENCIES

Litigation. The Company is not a party to any legal proceedings which are expected to have a material effect on the Company's liquidity, financial position, cash flows or results of operations. The Company is subject to a variety of legal actions for personal injury or property damage arising in the ordinary course of its business, most of which are covered by liability insurance. Various claims of resident discrimination are also periodically brought, most of which also are covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes that the final outcome of such legal proceedings and claims will not have a material effect on the Company's

liquidity, financial position, cash flows or results of operations.

Insurance. IRET carries insurance coverage on its properties in amounts and types that the Company believes are customarily obtained by owners of similar properties and are sufficient to achieve IRET's risk management objectives.

Purchase Options. The Company has granted options to purchase certain IRET properties to tenants in these properties, under lease agreements. In general, the options grant the tenant the right to purchase the property at the greater of such property's appraised value or an annual compounded increase of a specified percentage of the initial cost of the property to IRET. As of January 31, 2012, the total property cost of the 36 properties subject to purchase options was approximately \$244.3 million, and the total gross rental revenue from these properties was approximately \$14.7 million for the nine months ended January 31, 2012.

Environmental Matters. Under various federal, state and local laws, ordinances and regulations, a current or previous owner or operator of real estate may be liable for the costs of removal of, or remediation of, certain hazardous or toxic substances in, on,

Table of Contents

15

around or under the property. While IRET currently has no knowledge of any material violation of environmental laws, ordinances or regulations at any of its properties, there can be no assurance that areas of contamination will not be identified at any of the Company's properties, or that changes in environmental laws, regulations or cleanup requirements would not result in material costs to the Company.

Restrictions on Taxable Dispositions. Approximately 110 of IRET's properties, consisting of approximately 6.1 million square feet of the Company's combined commercial segments' properties and 4,017 apartment units, are subject to restrictions on taxable dispositions under agreements entered into with some of the sellers or contributors of the properties. The real estate investment amount of these properties (net of accumulated depreciation) was approximately \$787.2 million at January 31, 2012. The restrictions on taxable dispositions are effective for varying periods. The terms of these agreements generally prevent the Company from selling the properties in taxable transactions. The Company does not believe that the agreements materially affect the conduct of the Company's business or decisions whether to dispose of restricted properties during the restriction period because the Company generally holds these and the Company's other properties for investment purposes, rather than for sale. Historically, however, where IRET has deemed it to be in the shareholders' best interests to dispose of restricted properties, it has done so through transactions structured as tax-deferred transactions under Section 1031 of the Internal Revenue Code.

Redemption Value of UPREIT Units. The limited partnership units ("UPREIT Units") of the Company's operating partnership, IRET Properties, are redeemable at the option of the holder for cash, or, at our option, for the Company's common shares of beneficial interest on a one-for-one basis, after a minimum one-year holding period. All UPREIT Units receive the same cash distributions as those paid on common shares. UPREIT Units are redeemable for an amount of cash per Unit equal to the average of the daily market price of an IRET common share for the ten consecutive trading days immediately preceding the date of valuation of the Unit. As of January 31, 2012 and 2011, the aggregate redemption value of the then-outstanding UPREIT Units of the operating partnership owned by limited partners was approximately \$144.7 million and \$179.2 million, respectively.

Joint Venture Buy/Sell Options. Certain of IRET's joint venture agreements contain buy/sell options in which each party under certain circumstances has the option to acquire the interest of the other party, but do not generally require that the Company buy its partners' interests. During the third quarter of fiscal year 2012, IRET acquired, in an equity transaction for \$1.3 million, its joint venture partner's interest in the Company's only joint venture which allowed IRET's unaffiliated partner, at its election, to require that IRET buy its interest at a purchase price to be determined by an appraisal conducted in accordance with the terms of the agreement, or at a negotiated price. The entity will continue to be consolidated in IRET's financial statements. The Company currently has no joint ventures in which its joint venture partner can require the Company to buy the partner's interest.

Tenant Improvements. In entering into leases with tenants, IRET may commit itself to fund improvements or build-outs of the rented space to suit tenant requirements. These tenant improvements are typically funded at the beginning of the lease term, and IRET is accordingly exposed to some risk of loss if a tenant defaults prior to the expiration of the lease term, and the rental income that was expected to cover the cost of the tenant improvements is not received. As of January 31, 2012, the Company is committed to fund approximately \$10.1 million in tenant improvements, within approximately the next 12 months.

Development, Expansion and Renovation Projects. As of January 31, 2012, the Company had several development, expansion and renovation projects underway or recently completed, the costs for which have been capitalized, as follows:

Multi-Family Conversion, Minot, North Dakota: The Company is converting an existing approximately 15,000 square foot commercial office building in Minot, North Dakota to a 20-unit multi-family residential property, for an

estimated total cost of \$2.9 million and a projected completion date in the second quarter of fiscal year 2013. As of January 31, 2012, the Company had incurred approximately \$330,000 of these project costs. Work on this project had been temporarily postponed as Company employees and other resources were directed to the supervision of repairs at Company properties damaged by the extensive summer 2011 flooding in Minot, North Dakota, but planning for this conversion project has now resumed.

Senior Housing Memory Care and Assisted Living Units, Casper, Wyoming: During the third quarter of fiscal year 2012, the Company substantially completed construction of an additional approximately 28 assisted living units and 16 memory care units at its existing Meadow Wind senior housing facility in Casper, Wyoming. The Company estimates that construction costs for this expansion project will total approximately \$4.7 million. As of January 31, 2012, the Company had incurred approximately \$3.8 million of these project costs.

Quarry Ridge Apartment Homes, Rochester, Minnesota: In June 2011, the Company commenced construction on an approximately 159-unit apartment project in Rochester, Minnesota, located adjacent to its existing Quarry Ridge Apartment Homes. The Company currently estimates that construction costs (excluding the value of the land) will total approximately \$17.3

Table of Contents

16

million, and that the project will be completed approximately 14 months from the start of construction. As of January 31, 2012, the Company had incurred approximately \$8.1 million of the estimated construction costs.

Williston Apartments, Williston, North Dakota: During the second quarter of fiscal year 2012, the Company formed a joint venture to construct a 144-unit multi-family residential property in Williston, North Dakota. Construction commenced in August 2011, and the Company currently estimates that the project will be completed by July 2012 at a total cost to the joint venture entity of approximately \$19.5 million, including the value of the land. The Company is the majority member of the joint venture, with a 60% interest; the remaining 40% interest is held by the Company's joint venture partner, a Minnesota limited liability company formed by a developer and a construction company based in St. Cloud, Minnesota. The Company's cash contribution to the project is approximately \$3.3 million; the Company's joint venture partner contributed project planning and development services and the land for the project, which together were valued at \$2.2 million. The remainder of the project cost is being financed with a construction loan from First International Bank & Trust. As of January 31, 2012, the joint venture entity had incurred approximately \$8.6 million of the estimated project costs.

Senior Housing Memory Care and Assisted Living Units, Laramie, Wyoming: During the second quarter of fiscal year 2012, the Company entered into a contract for the construction of an additional 29 assisted living units at its existing 48-unit Spring Wind senior housing facility in Laramie, Wyoming, and for the conversion of an existing 16 units at the facility to memory care units, for a total, following project completion, of 61 assisted living units and 16 memory care units. The Company estimates that the construction costs for this expansion project will total approximately \$3.8 million and that the project will be completed in the first quarter of fiscal year 2013. As of January 31, 2012, the Company had incurred approximately \$1.4 million of these project costs.

Industrial-Office Build-to-Suit, Minot, North Dakota: During the second quarter of fiscal year 2012, the Company entered into a 10-year, fully net lease with a provider of production enhancement services to the oil and gas industry, to construct and then lease an approximately 28,000 square foot industrial building to be located in Minot, North Dakota on an approximately 9.6-acre parcel of vacant land. Construction began in October 2011, with completion estimated in the summer of 2012. Total construction costs are currently estimated at \$5.8 million (including the cost of the land), subject to tenant requested changes. As of January 31, 2012, the Company had incurred approximately \$1.0 million of these estimated construction costs.

Construction interest capitalized for the three month periods ended January 31, 2012 and 2011, respectively, was approximately \$116,000 and \$26,000 for development projects completed and in progress. Construction interest capitalized for the nine month periods ended January 31, 2012 and 2011, respectively, was approximately \$230,000 and \$58,000 for development projects completed and in progress.

NOTE 7 • DISCONTINUED OPERATIONS

The Company reports in discontinued operations the results of operations of a property that has either been disposed of or is classified as held for sale. The Company also reports any gains or losses from the sale of a property in discontinued operations. During the first and third quarters of fiscal year 2012 the Company had no real estate dispositions. During the second quarter of fiscal year 2012, the Company sold a small retail property in Livingston, Montana. During fiscal year 2011, the Company sold four apartment complexes, one industrial property, one retail property and a patio home. See Note 8 for additional information on the properties sold during the nine months ended January 31, 2012 and 2011. There were no properties held for sale as of January 31, 2012 or 2011. The following information shows the effect on net income and the gains or losses from the sale of properties classified as discontinued operations for the three months ended January 31, 2011 and the nine months ended January 31, 2012 and 2011:

NOTE 8 • ACQUISITIONS AND DISPOSITIONS**PROPERTY ACQUISITIONS**

During the third quarter of fiscal year 2012, the Company closed on its acquisition of a 36-unit multi-family residential property in Isanti, Minnesota, on approximately 1.7 acres of land, and an adjoining 4.9 acre parcel of vacant land, for a purchase price of approximately \$3.5 million, of which \$3.0 million was paid in cash and the remainder in limited partnership units of the Operating Partnership valued at \$495,000. This property is located next to the Company's existing 36-unit Evergreen Apartments in Isanti, Minnesota. Also during the third quarter of fiscal year 2012, the Company substantially completed construction of an additional approximately 28 assisted living units and 16 memory care units at its existing Meadow Wind senior housing facility in Casper, Wyoming. The Company estimates that construction costs for this expansion project will total approximately \$4.7 million. As of January 31, 2012, the Company had incurred approximately \$3.8 million of these project costs.

The estimated fair values of land, building and intangible assets acquired are provisional and are based on the information that was available as of the filing of the Company's Form 10-Q. The Company will continue to evaluate the purchase price allocation as better information becomes available. The Company expects to finalize the valuation and complete the purchase price allocation as soon as practicable, but no later than one year from the acquisition date. The Company expensed approximately \$40,000 and \$85,000 of transaction costs related to acquisitions in the three months ended January 31, 2012 and 2011, respectively, and approximately \$466,000 and \$142,000 in the nine months ended January 31, 2012 and 2011, respectively. The Company's acquisitions and development projects placed in

service during the nine months ended January 31, 2012 and 2011 are detailed below:

NOTE 9 • MORTGAGES PAYABLE AND LINE OF CREDIT

The Company's mortgages payable and revolving line of credit are collateralized by substantially all of its properties owned. The majority of the Company's mortgages payable are secured by individual properties or groups of properties, and are non-recourse to the Company, other than for standard carve-out obligations such as fraud, waste, failure to insure, environmental conditions and failure to pay real estate taxes. Interest rates on mortgages payable range from 2.71% to 8.25%, and the mortgages have varying maturity dates from the current fiscal year through July 1, 2036.

Of the mortgages payable, the balances of fixed rate mortgages totaled \$1.0 billion at January 31, 2012 and \$992.3 million at April 30, 2011. The balances of variable rate mortgages totaled \$10.5 million and \$1.5 million as of January 31, 2012 and April 30, 2011, respectively. The Company does not utilize derivative financial instruments to mitigate its exposure to changes in market interest rates. Most of the fixed rate mortgages have substantial pre-payment penalties. As of January 31, 2012, the weighted average rate of interest on the Company's mortgage debt was 5.84%, compared to 5.92% on April 30, 2011. The aggregate amount of required future principal payments on mortgages payable as of January 31, 2012, is as follows:

Year Ended April 30,	(in thousands)
2012 (remainder)	\$ 13,417
2013	51,724
2014	66,024
2015	106,207
2016	86,182
Thereafter	715,163

Total payments	\$ 1,038,717
----------------	--------------

The Company's revolving, multi-bank line of credit with First International Bank and Trust, Watford City, North Dakota, as lead bank, had, as of January 31, 2012, lending commitments of \$60.0 million. As of January 31, 2012, the line of credit was secured by mortgages on 23 properties; under the terms of the line of credit, properties may be added and removed from the collateral pool with the agreement of the lenders. Participants in this credit facility as of January 31, 2012 included, in addition to First International Bank, the following financial institutions: The Bank of North Dakota; First Western Bank and Trust; Dacotah Bank; United Community Bank; American State Bank & Trust Company and Town & Country Credit Union. The line of credit has a current interest rate of 5.65% and a minimum outstanding principal balance requirement of \$10.0 million, and as of January 31, 2012, the Company had borrowed \$49.0 million. The facility includes customary loan covenants including restrictions regarding minimum debt-service ratios to be maintained in the aggregate and individually on properties in the collateral pool, and the Company is also required to maintain minimum depository account(s) totaling \$6.0 million with First International, of which

Table of Contents

21

\$1.5 million is to be held in a non-interest bearing account. As of January 31, 2012, the Company believes it is in compliance with the facility covenants.

NOTE 10 • FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate the fair value of each class of financial instruments.

Mortgage Loans Receivable. Fair values are based on the discounted value of future cash flows expected to be received for a loan using current rates at which similar loans would be made to borrowers with similar credit risk and the same remaining maturities. Terms are short term in nature and carrying value approximates the estimated fair value.

Cash and Cash Equivalents. The carrying amount approximates fair value because of the short maturity.

Other Investments. The carrying amount, or cost plus accrued interest, of the certificates of deposit approximates fair value.

Other Debt. The fair value of other debt is estimated based on the discounted cash flows of the loan using current market rates.

Line of Credit. The carrying amount approximates fair value because the variable rate debt re-prices frequently.

Mortgages Payable. For variable rate loans that re-price frequently, fair values are based on carrying values. The fair value of fixed rate loans is estimated based on the discounted cash flows of the loans using current market rates.

The estimated fair values of the Company's financial instruments as of January 31, 2012 and April 30, 2011, are as follows:

	(in thousands)			
	January 31, 2012		April 30, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
FINANCIAL ASSETS				
Mortgage loans receivable	\$0	\$0	\$156	\$156
Cash and cash equivalents	35,502	35,502	41,191	41,191
Other investments	633	633	625	625
FINANCIAL LIABILITIES				
Other debt	6,176	6,255	8,200	7,279
Line of credit	49,000	49,000	30,000	30,000
Mortgages payable	1,038,717	1,086,940	993,803	1,013,713

NOTE 11 • REDEEMABLE NONCONTROLLING INTERESTS

Redeemable noncontrolling interests on our Condensed Consolidated Balance Sheets represent the noncontrolling interest in a joint venture of the Company in which the Company's unaffiliated partner, at its election, could require the Company to buy its interest at a purchase price to be determined by an appraisal conducted in accordance with the terms of the agreement, or at a negotiated price. Redeemable noncontrolling interests are presented at the greater of

their carrying amount or redemption value at the end of each reporting period. Changes in the value from period to period are charged to common shares of beneficial interest on our consolidated balance sheets. The Company acquired this interest from its joint venture partner in the third quarter of fiscal year 2012, and, following this acquisition, currently has no redeemable noncontrolling interests in consolidated real estate entities. As of January 31, 2012 and April 30, 2011, the estimated redemption value of the redeemable noncontrolling interests was \$0 and \$987,000, respectively. Below is a table reflecting the activity of the redeemable noncontrolling interests.

NOTE 12 • SUBSEQUENT EVENTS

Common and Preferred Share Distributions. On March 7, 2012, the Company's Board of Trustees declared a regular quarterly distribution of 13.00 cents per share and unit on the Company's common shares of beneficial interest and the limited partnership units of IRET Properties, payable April 2, 2012 to common shareholders and unitholders of record on March 19, 2012. Also on March 7, 2012, the Company's Board of Trustees declared a distribution of 51.56 cents per share on the Company's preferred shares of beneficial interest, payable April 2, 2012 to preferred shareholders of record on March 19, 2012.

Completed Acquisition. Subsequent to the end of the third quarter of fiscal year 2012, on February 16, 2012, the Company closed on its acquisition of the Grand Gateway Apartments, a 116-unit multi-family residential property located in St. Cloud, Minnesota, for a purchase price of \$7.9 million, of which approximately \$3.4 million was paid in cash and the remainder in limited partnership units of the Operating Partnership valued at approximately \$4.5 million. A limited partnership of which Stephen Stenehjem, a trustee of the Company, is the general partner, was one of six investors in this property prior to its acquisition by the Company, and the Company's purchase of the property resulted in the issuance to this limited partnership of UPREIT units of the Operating Partnership valued at approximately \$1.0 million. As required under the Company's Related Party Transactions policy and Declaration of Trust, the transaction was approved by the Company's Audit Committee and by the independent trustees of the Company, without the participation of Mr. Stenehjem. As a result of this transaction with the Company, the Board of Trustees has determined that Mr. Stenehjem is no longer eligible to be considered an independent trustee under the listing standards of the NASDAQ stock exchange. Mr. Stenehjem remains on the Company's Board as a trustee but has resigned as a member of the Company's Audit Committee. The Company continues to have a majority of independent trustees on its Board, and three independent trustees on its Audit Committee, and accordingly remains in compliance with these requirements of the listing standards of the NASDAQ stock exchange.

Pending Acquisitions. The Company has signed purchase agreements for the acquisition of the following properties (these pending acquisitions are subject to various closing conditions, and accordingly no assurances can be given that these transactions will be completed): two multi-family residential projects in Grand Forks, North Dakota, with a total of 84 units, for a purchase price totaling approximately \$8.3 million, of which approximately \$1.1 million would be paid through the issuance of limited partnership units of the Operating Partnership, with the remainder paid in cash; and a 44 building, 308-unit multi-family residential complex in Topeka, Kansas, for a price totaling approximately \$17.7 million, of which \$5.2 million would be paid in cash, with the remainder consisting of the assumption of existing mortgage debt on the property.

Jamestown, North Dakota Joint Venture. Subsequent to the end of the third quarter of fiscal year 2012, on February 10, 2012, the Company formed a joint venture entity to develop an approximately 45,000 square foot medical office building in Jamestown, North Dakota on approximately 4.98 acres of land to be leased under a prepaid ground lease with an initial term of 79 years. The medical office building would be connected to the recently-built Jamestown

Regional Medical Center. The Company's joint venture partner in this development project will be an investment group based in Minneapolis, Minnesota. The estimated total project cost for construction of the medical office building is approximately \$9.2 million (including the prepaid ground lease), with IRET expected to invest approximately \$1.5 million for a 51.0% share in the joint venture. Construction is currently expected to commence in the fourth quarter of fiscal year 2012, and conclude in the third quarter of fiscal year 2013. Construction financing of approximately \$6.2 million is being offered by Wells Fargo Bank, NA and this loan is expected to close in the fourth quarter of fiscal year 2012. IRET will provide management services for this development. This joint venture development project is subject to continued negotiation and various closing conditions, and accordingly no assurances can be given that the project will be completed on the terms summarized above, or at all.

Chateau Apartments Fire. On February 22, 2012, one of the two buildings of our Chateau Apartments property in Minot, North Dakota, was destroyed by fire. The building had been undergoing restoration following the significant flooding in Minot in June 2011. None of the units in either of the Chateau Apartments buildings were occupied at the time of the fire. We expect to

Table of Contents

23

rebuild the destroyed building but have no firm estimates at this time for the cost or expected completion date of such rebuilding. The property is insured and we currently expect our losses to be covered under our insurance policy, subject to a deductible of \$200,000. The remaining units in the other building of our Chateau Apartments property are expected to be available for leasing in the first quarter of fiscal year 2013.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements included in this report, as well as the Company's audited financial statements for the fiscal year ended April 30, 2011, which are included in the Company's Form 10-K filed with the SEC on July 14, 2011, as amended by the Current Report on Form 8-K filed with the SEC on December 12, 2011.

Forward Looking Statements. Certain matters included in this discussion are forward looking statements within the meaning of the federal securities laws. Although we believe that the expectations reflected in the following statements are based on reasonable assumptions, we can give no assurance that the expectations expressed will actually be achieved. Many factors may cause actual results to differ materially from our current expectations, including general economic conditions, local real estate conditions, the general level of interest rates and the availability of financing and various other economic risks inherent in the business of owning and operating investment real estate.

Overview. IRET is a self-advised equity REIT engaged in owning and operating income-producing real estate properties. Our investments include multi-family residential properties and commercial office, commercial medical, commercial industrial and commercial retail properties located primarily in the upper Midwest states of Minnesota and North Dakota. Our properties are diversified by type and location. As of January 31, 2012, our real estate portfolio consisted of 81 multi-family residential properties containing 8,921 apartment units and having a total real estate investment amount net of accumulated depreciation of \$388.3 million, and 184 commercial properties containing approximately 12.3 million square feet of leasable space. Our commercial properties consist of:

68 commercial office properties containing approximately 5.1 million square feet of leasable space and having a total real estate investment amount net of accumulated depreciation of \$486.1 million;

65 commercial medical properties (including senior housing) containing approximately 2.9 million square feet of leasable space and having a total real estate investment amount net of accumulated depreciation of \$418.4 million;

49 commercial industrial properties containing approximately 2.9 million square feet of leasable space and having a total real estate investment amount net of accumulated depreciation of \$98.8 million; and

32 commercial retail properties containing approximately 1.4 million square feet of leasable space and having a total real estate investment amount net of accumulated depreciation of \$105.5 million.

Our primary source of income and cash is rents associated with multi-family residential and commercial leases. Our business objective is to increase shareholder value by employing a disciplined investment strategy. This strategy is focused on growing assets in desired geographical markets, achieving diversification by property type and location, and adhering to targeted returns in acquiring properties. We intend to continue to achieve our business objective by investing in multi-family residential properties and in commercial office, commercial medical, commercial industrial, and commercial retail properties that are leased to single or multiple tenants, usually for five years or longer, and are located throughout the upper Midwest. We operate mainly within the states of North Dakota and Minnesota, although we also have real estate investments in Colorado, Idaho, Iowa, Kansas, Michigan, Missouri, Montana, Nebraska,

South Dakota, Wisconsin and Wyoming.

We compete with other owners and developers of multi-family and commercial properties to attract tenants to our properties, and we compete with other real estate investors to acquire properties. Principal areas of competition for tenants are in respect of rents charged and the attractiveness of location and quality of our properties. Competition for investment properties affects our ability to acquire properties we want to add to our portfolio, and the price we pay for acquisitions.

Physical occupancy as of January 31, 2012 compared to January 31, 2011 increased in three of our five reportable segments, decreasing in our commercial office and commercial medical segments, on a stabilized basis and an all-property basis. Stabilized properties are properties owned and in operation for the entirety of the periods being compared (including properties that were

Table of Contents

24

redeveloped or expanded during the periods being compared, with properties purchased or sold during the periods being compared excluded from the stabilized property category), and, in the case of development or re-development properties, which have achieved a target level of occupancy. Our overall level of tenant concessions decreased in the three month period ended January 31, 2012, compared to the three months ended January 31, 2011 and increased in the nine month period ended January 31, 2012, compared to the nine months ended January 31, 2011.

We continue to experience lower revenues and decreased occupancy levels in our commercial office segment in comparison with the year-earlier period, which we believe reflects the continuing challenging and uncertain economic conditions in certain of our markets, despite some signs of economic recovery and renewed commercial leasing interest. Our multi-family residential portfolio continues to improve in occupancy and real estate revenue compared to the year-earlier period, although physical occupancy declined in the third quarter of fiscal year 2012 compared to the immediately preceding quarter, due to lower leasing activity in the winter months.

During the third quarter of fiscal year 2012, as discussed below in the Property Acquisitions and Dispositions section of this Management's Discussion and Analysis of Financial Condition and Results of Operations, the Company closed on its acquisition of a 36-unit multi-family residential property in Isanti, Minnesota, on approximately 1.7 acres of land, and an adjoining 4.9 acre parcel of vacant land. This property is located next to the Company's existing 36-unit Evergreen Apartments in Isanti, Minnesota. During the third quarter of fiscal year 2012, the Company sold its wholly-owned taxable REIT subsidiary LSREF Golden Ops 14 (WY), LLC ("LSREF Golden Ops"), to the owner of Edgewood Vista Senior Living Inc., the manager of the Company's portfolio of Edgewood assisted living facilities and of the Company's Wyoming assisted living facilities. LSREF Golden Ops is the tenant in the Company's Wyoming assisted living facilities. The Company sold this entity to restructure its assisted living portfolio following its acquisition of a portfolio of seven senior housing projects in Idaho and an assisted living facility in Minot, North Dakota.

As we have previously reported, Minot, North Dakota, where our corporate headquarters is located, experienced significant flooding in June 2011, resulting in extensive damage to our Arrowhead Shopping Center and Chateau Apartments property, which consists of two 32-unit buildings. Additionally, on February 22, 2012, one of the buildings of our Chateau Apartments property, which had been undergoing restoration work following the flood, was completely destroyed by fire. We expect to rebuild the destroyed building but have no firm estimates at this time for costs or expected completion date of such rebuilding. The property is insured and we currently expect our losses to be covered under our insurance policy, subject to a deductible of \$200,000. The remaining units in our Chateau Apartments property are expected to be available for leasing in the first quarter of fiscal year 2013. Arrowhead Shopping Center is currently in various stages of re-leasing. Costs related to clean-up, redevelopment and loss of rents for our Arrowhead Shopping Center and Chateau Apartments from the June 2011 flood are being reimbursed to the Company by our insurance carrier, less the Company's deductible of \$200,000 under the policy. As of January 31, 2012, the Company had received \$5.3 million of insurance proceeds for flood clean-up costs and redevelopment and approximately \$246,000 reimbursement for business interruption (loss of rents); additional reimbursement for business interruption in an amount totaling \$328,000 is expected to be added back as income to the extent that insurance proceeds are received and gain contingencies are resolved, in accordance with U.S. GAAP. In regard to its Arrowhead Shopping Center, the Company currently estimates that a gain on involuntary conversion of approximately \$1.7 million will be reported in a future quarter, once all flood-related costs have been reimbursed; however, this number is an estimate only and is subject to revision as reimbursements are received and recognized. The Company is currently unable to estimate whether and to what extent there may be a gain or loss on involuntary conversion due to the recent Chateau Apartments fire.

On January 20, 2012, the Company entered into a continuous equity offering program with BMO Capital Markets Corp. as sales agent, pursuant to which the Company may from time to time offer and sell its common shares of

beneficial interest having an aggregate gross sales price of up to \$100.0 million. Sales of common shares, if any, under the program will depend upon market conditions and other factors to be determined by IRET. During the third quarter of fiscal year 2012, the Company issued approximately 366,000 common shares under this program for total proceeds (before offering expenses but after underwriting discounts and commissions) of \$2.7 million.

Critical Accounting Policies. In preparing the condensed consolidated financial statements management has made estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. A summary of the Company's critical accounting policies is included in the Company's Form 10-K for the fiscal year ended April 30, 2011, filed with the SEC on July 14, 2011, as amended by the Current Report on

Table of Contents

25

Form 8-K filed with the SEC on December 12, 2011, in Management's Discussion and Analysis of Financial Condition and Results of Operations. There have been no significant changes to those policies during the three months ended January 31, 2012.

RECENT ACCOUNTING PRONOUNCEMENTS

For disclosure regarding recent accounting pronouncements and the anticipated impact they will have on our operations, please refer to Note 2 to our condensed consolidated financial statements.

RESULTS OF OPERATIONS FOR THE THREE AND NINE MONTHS ENDED JANUARY 31, 2012 AND 2011

REVENUES

Revenues for the three months ended January 31, 2012 were \$61.0 million compared to \$60.1 million in the three months ended January 31, 2011, an increase of \$877,000 or 1.5%. Revenues for the nine months ended January 31, 2012 were \$181.3 million compared to \$178.1 million in the nine months ended January 31, 2011, an increase of \$3.2 million or 1.8%. The increase in revenue for the three and nine months ended January 31, 2012 resulted primarily from properties acquired in Fiscal 2011 and 2012, as shown in the table below.

	(in thousands)	
	Increase in Total Revenue Three Months ended January 31, 2012	Increase in Total Revenue Nine Months ended January 31, 2012
Rent in Fiscal 2012 primarily from 8 properties acquired in Fiscal 2011 in excess of that received in Fiscal 2011 from the same 8 properties	\$311	\$ 2,342
Rent in Fiscal 2012 primarily from 12 properties acquired in Fiscal 2012	1,564	2,517
Decrease in rental income on stabilized properties due to a decrease in tenant reimbursements in commercial segments related to the overall increase in commercial segments' vacancy	(1,888)	(2,445)
Increase in straight line rent	498	1,687
Decrease (increase) in tenant concessions	392	(937)
Net increase in total revenue	\$877	\$ 3,164

The increase in revenue in the three and nine months ended January 31, 2012 compared to the same quarter in the prior fiscal year is shown by segment in the following table:

Three Months Ended January 31, 2012	Multi-Family Residential	Commercial Office	Commercial Medical	Commercial Industrial	Commercial Retail	All Segments
Non-stabilized real estate revenue	\$ 799	\$ 138	\$ 888	\$ 0	\$ 50	\$ 1,875
Stabilized real estate revenue	1,044	(1,135)	(1,923)	281	(155)	(1,888)

26

NET OPERATING INCOME

The following tables show real estate revenues, real estate expenses and NOI by reportable operating segment for the three and nine months ended January 31, 2012 and 2011. For a reconciliation of net operating income of reportable segments to net income as reported, see Note 5 of the Notes to the condensed consolidated financial statements in this report.

The tables also show NOI by reportable operating segment on a stabilized property and non-stabilized (all-property) basis. This comparison allows the Company to evaluate the performance of existing properties and their contribution to net income. Management believes that measuring performance on a stabilized property basis is useful to investors because it enables evaluation of how the Company's properties are performing year over year. Management uses this measure to assess whether or not it has been successful in increasing net operating income, renewing the leases of existing tenants, controlling operating costs and appropriately handling capital improvements.

FACTORS IMPACTING NET OPERATING INCOME

Real estate revenue increased slightly in the three month period ended January 31, 2012 compared to the three month period ended January 31, 2011, to \$61.0 million compared to \$60.1 million; however, real estate revenue increased in only two of our five reportable segments, decreasing in our commercial office, commercial medical and commercial retail segments, with lower tenant reimbursements due to increases in vacancy in our commercial office segment primarily responsible for most of the revenue decrease across these three segments. Real estate revenue increased in three of our five reportable segments in the nine month period ended January 31, 2012 compared to the nine month

period ended January 31, 2011, to \$181.3 million compared to \$178.1 million primarily due to acquisitions in Fiscal 2011 and 2012. Our overall level of tenant concessions decreased in the three month period ended January 31, 2012 and increased in the nine month period ended January 31, 2012 compared to the year-earlier periods.

- **Physical Occupancy.** As of January 31, 2012, physical occupancy levels on a stabilized basis and on an all property basis increased from the year earlier period in three of our five reportable segments, decreasing in our commercial office and commercial medical segments. We attribute the decrease in commercial office occupancy primarily to continued challenging economic conditions in certain of our markets, as discussed above in the Overview section of this Management's Discussion and Analysis of Financial Condition and Results of Operations. Multi-family residential market conditions improved from the year earlier period. Physical occupancy rates on a stabilized property and all property basis for January 31, 2012, compared to the January 31, 2011, are shown below:

Table of Contents

28

	Stabilized Properties				All Properties			
	January 31, 2012		2011		January 31, 2012		2011	
Multi-Family Residential	93.5	%	91.1	%	93.2	%	91.1	%
Commercial Office	77.6	%	79.8	%	77.9	%	80.1	%
Commercial Medical	93.8	%	95.8	%	94.5	%	96.1	%
Commercial Industrial	94.4	%	81.4	%	94.5	%	81.7	%
Commercial Retail	87.0	%	81.9	%	87.5	%	82.0	%

- **Increased Concessions.** Our overall level of tenant concessions decreased in the three month period ended January 31, 2012 compared to the year-earlier period and increased in the nine month period ended January 31, 2012 compared to the year-earlier period. To maintain or increase physical occupancy levels at our properties, we may offer tenant incentives, generally in the form of lower or abated rents, which results in decreased revenues and income from operations at our properties. Additionally, as discussed below, in the three and nine months ended January 31, 2012, we abated rents at our Chateau Apartments and Arrowhead Shopping Center properties for tenants displaced by the flooding in Minot, North Dakota in June 2011, and those abated rents are reflected in the amounts reported in the table below. Rent concessions offered during the three and nine months ended January 31, 2012 will lower, over the lives of the respective leases, our operating revenues by approximately \$1.1 million and \$4.6 million, as compared to an approximately \$1.5 million and \$3.6 million reduction, over the lives of the respective leases, in operating revenues attributable to rent concessions offered in the three and nine months ended January 31, 2011, as shown in the table below:

	(in thousands)					
	Three Months Ended January 31,			Nine Months Ended January 31,		
	2012	2011	Change	2012	2011	Change
Multi-Family Residential	\$278	\$386	\$(108)	\$1,234	\$1,185	\$49
Commercial Office	697	913	(216)	2,179	1,725	454
Commercial Medical	24	56	(32)	150	234	(84)
Commercial Industrial	94	57	37	569	308	261
Commercial Retail	49	122	(73)	448	191	257
Total	\$1,142	\$1,534	\$(392)	\$4,580	\$3,643	\$937

The amounts in the table above include abated rent at our Chateau Apartments and Arrowhead Shopping Center properties, which were extensively damaged in the flooding that occurred in Minot, North Dakota in June 2011. Abated rent included in the table above totaled \$39,000 and \$282,000 for the three and nine months ended January 31, 2012, respectively, at our Chateau Apartments; and \$17,000 and \$248,000 for the three and nine months ended January 31, 2012, respectively, at our Arrowhead Shopping Center property.

- **Utility Expense.** Utility expense totaled \$4.5 million for the three months ended January 31, 2012, compared to \$4.8 million for the three months ended January 31, 2011, a decrease of 5.2%, over the year-earlier period. Utility expenses at properties newly acquired in fiscal years 2012 and 2011 added \$88,000 to the utility expense category for the three months ended January 31, 2012. Utility expenses at existing properties decreased by \$337,000 resulting in an overall decrease of \$249,000 for the three months ended January 31, 2012 compared to the three months ended January 31, 2011. The decrease in utility costs at our stabilized properties for the three months

ended January 31, 2012 compared to the year earlier period is due primarily to a decrease in heat and electricity expenses due to the mild winter. Utility expense totaled \$13.4 million for the nine months ended January 31, 2012, compared to \$13.2 million for the nine months ended January 31, 2011, an increase of 1.8% over the year-earlier periods. Utility expenses at properties newly acquired in fiscal years 2012 and 2011 added \$256,000 to the utility expense category for the nine months ended January 31, 2012. Utility expenses at existing properties decreased by \$16,000 resulting in an overall increase of \$240,000 for the nine months ended January 31, 2012 compared to the nine months ended January 31, 2011. The decrease in utility costs at our stabilized properties for the nine months ended January 31, 2012 compared to the year earlier period is due primarily to a the timing of payments for an electrical bill-back in our commercial industrial segment offset by the increase in electricity for lights at our commercial office segment.

Utility expenses by reportable segment for the three and nine months ended January 31, 2012 and 2011 are as follows:

Non-stabilized	\$162	\$96	\$3	\$0	\$(5)	\$256
Change	\$219	\$220	\$4	\$(192)	\$(11)	\$240

- **Decreased Maintenance Expense.** Maintenance expenses totaled \$6.4 million and \$20.2 million for the three and nine months ended January 31, 2012 compared to \$8.4 million and \$22.0 million for the three and nine months ended January 31, 2011. Maintenance expenses at properties newly acquired in fiscal year 2012 and 2011 added \$141,000 and \$341,000, respectively, to the maintenance expenses category for the three and nine months ended January 31, 2012 compared to the corresponding period in fiscal year 2011. Maintenance expenses at existing properties decreased by \$2.1 million and \$2.2 million, respectively, for the three and nine months ended January 31, 2012 compared to the corresponding period in fiscal year 2011, resulting in a net decrease in maintenance expenses of \$2.0 million and \$1.8 million, or 23.5% and 8.3% for the three and nine months ended January 31, 2012 compared to the corresponding period in fiscal year 2011. The decrease in maintenance costs at our stabilized properties for the three and nine months ended January 31, 2012 compared to the three and nine months ended January 31, 2011 is primarily due to a decrease in snow removal costs.

Maintenance expenses by reportable segment for the three and nine months ended January 31, 2012 and 2011 are as follows:

(in thousands)

Three Months Ended January 31,	Multi-Family Residential	Commercial Office	Commercial Medical	Commercial Industrial	Commercial Retail	Total

- **Increased Real Estate Tax Expense.** Real estate taxes on properties newly acquired in fiscal years 2012 and 2011 added \$213,000 and \$437,000 to real estate tax expense in the three and nine months ended January 31, 2012, compared to the three and nine months ended January 31, 2011. Real estate taxes on stabilized properties increased by \$56,000 and \$23,000 in the three and nine months ended January 31, 2012, resulting in an increase of \$269,000 and \$460,000, or 3.5% and 2.0% for the three and nine months ended January 31, 2012, compared to the three and nine months ended January 31, 2011. The increase in real estate taxes for our stabilized properties for the three months ended January 31, 2012 compared to the three months ended January 31, 2011 was due to higher value assessments and increased tax levies in all segments, with the exception of our multi-family residential and commercial office segments where value assessments and tax levies decreased as a result of certain successful tax appeals. The increase in real estate taxes for our stabilized properties for the nine months ended January 31, 2012 compared to the nine months ended January 31, 2011 was due to higher value assessments and increased tax levies in all segments, with the exception of our commercial office segment where value assessments and tax levies decreased as a result of certain successful tax appeals.

- Increased Insurance Expense. Insurance expense totaled \$890,000 and \$2.6 million for the three and nine months ended January 31, 2012 compared to \$646,000 and \$1.9 million for the three and nine months ended January 31, 2011. Insurance expenses at properties newly acquired in fiscal years 2012 and 2011 added \$24,000 and \$41,000 to the insurance expense category, while insurance expense at existing properties increased by \$220,000 and \$645,000 resulting in a net increase in

Table of Contents

31

insurance expenses of \$244,000 and \$686,000 in the three and nine months ended January 31, 2012, a 37.8% and 36.8% increase over insurance expenses in the three and nine months ended January 31, 2011. The increase in insurance expense at stabilized properties is due primarily to the effect of the deductible under our insurance policy covering damages as a result of the flooding in North Dakota, in addition to other deductible adjustments in the prior year.

Insurance expense by reportable segment for the three and nine months ended January 31, 2012 and 2011 is as follows:

- **Property Management Expense.** Property management expense totaled \$5.0 million for the three months ended January 31, 2012 and compared to \$5.5 million for the three months ended January 31, 2011. Property management expenses at properties newly acquired in fiscal years 2012 and 2011 added \$130,000 to the property management expenses category in the three months ended January 31, 2012. Property management expenses at stabilized properties decreased by \$615,000 for the three months ended January 31, 2012 compared to the three months ended January 31, 2011, primarily as a result of decreased operating expenses in the Wyoming TRS properties following the sale of our TRS entity in the commercial medical segment, resulting in a decrease of \$485,000 or 8.9% in the three months ended January 31, 2012 compared to the year-earlier periods. Property management expense totaled \$15.8 million for the nine months ended January 31, 2012, compared to \$15.5 million for the nine months ended January 31, 2011. Property management expenses at properties newly acquired in fiscal years 2012 and 2011 added \$227,000 to the property management expenses category in the nine months ended January 31, 2012. Property management expenses at stabilized properties increased by \$84,000 for the nine months ended January 31, 2012 compared to the nine months ended January 31, 2011, primarily as a result of bad debt provisions in the commercial medical segment.

FACTORS IMPACTING NET INCOME

Net income decreased by approximately \$12.1 million and \$18.5 million for the three and nine months ended January 31, 2012, compared to the three and nine months ended January 31, 2011. The decrease in net income is due primarily to the decrease in gain on sale of discontinued operations in the three and nine months ended January 31, 2012, compared to the three and nine months ended January 31, 2011, as well as other factors shown by the following analysis:

	Decrease in Net Income (in thousands)	
	Three Months ended January 31, 2012	Nine Months ended January 31, 2012
Net income for Fiscal 2011	\$14,588	\$ 24,041
Increase in NOI	3,061	3,283
	(681)	(1,554)

Increase in depreciation/amortization due to depreciation of tenant and capital improvements		
Decrease (increase) in administrative, advisory and trustee fees due to additional corporate staff and overhead and increased trustee fees	191	(407)
Decrease (increase) in other expenses	82	(152)
Increase in impairment of real estate investments	(135)	(135)
Increase in interest expense	(665)	(421)
Increase in interest and other income	188	250
Decrease in income from discontinued operations	(14,108)	(19,320)
Net income for Fiscal 2012	\$2,521	\$ 5,585

The following factors impacted net income in the three and nine months ended January 31, 2012:

- **Mortgage Interest Expense.** Our mortgage interest expense increased approximately \$146,000, or 1.0%, to approximately \$15.4 million during the third quarter of fiscal year 2012, compared to \$15.3 million in the third quarter of fiscal year 2011. Mortgage interest expense decreased approximately \$866,000, or 1.9%, to approximately \$45.5 million during the nine month period ended January 31, 2012, compared to \$46.3 million in the nine month period ended January 31, 2011.

Table of Contents

33

Mortgage interest expense for properties newly acquired in fiscal years 2012 and 2011 added \$572,000 and \$1.4 million, respectively to our total mortgage interest expense in the three and nine months ended January 31, 2012, while mortgage interest expense on existing properties decreased \$426,000 and \$2.3 million, respectively for the three and nine months ended January 31, 2012. The decrease in mortgage interest expense is due to refinancings in our stabilized properties portfolio. The mortgage interest expense category does not include interest expense on the multi-bank line of credit we entered into in the first quarter of fiscal year 2011, which totaled approximately \$775,000 and \$1.8 million in the three and nine months ended January 31, 2012. Mortgage interest expense and interest expense on our line of credit are all components of “Interest expense” on our consolidated statement of operations. Our overall weighted average interest rate on all outstanding mortgage debt (excluding borrowings under our secured line of credit) was 5.81% as of January 31, 2012 and 6.05% as of January 31, 2011. Our mortgage debt on January 31, 2012 increased approximately \$44.9 million, or 4.5% from April 30, 2011. Mortgage debt does not include our multi-bank line of credit which appears on our consolidated balance sheet in “Revolving line of credit.”

Mortgage interest expense by reportable segment for the three and nine months ended January 31, 2012 and 2011 is as follows:

In addition to IRET’s mortgage interest expense, the Company incurs interest expense for a line of credit, amortization of loan costs, security deposits, and special assessments offset by capitalized construction interest. For the three months ended January 31, 2012 and 2011 these amounts were \$1.1 million and \$568,000, respectively, for a total interest expense for the three months ended January 31, 2012 and 2011 of \$16.5 million and \$15.9 million, respectively, an increase of \$665,000. For the nine months ended January 31, 2012 and 2011

these amounts were \$3.3 million and \$2.0 million, respectively, for a total interest expense for the nine months ended January 31, 2012 and 2011 of \$48.8 million and \$48.3 million, respectively, an increase of \$421,000.

- **Decreased Amortization Expense.** The Company allocates a portion of the purchase price paid for properties to in-place lease intangible assets. The amortization period of these intangible assets is the term of the respective lease. Amortization expense related to in-place leases totaled \$1.2 million and \$4.4 million in the three and nine months ended January 31, 2012 compared to \$1.7 million and \$5.5 million in the three and nine months ended January 31, 2011.

CREDIT RISK

The following table lists our top ten commercial tenants on January 31, 2012, for all commercial properties owned by us, measured by percentage of total commercial segments' minimum rents as of January 1, 2012. Our results of operations are

Table of Contents

34

dependent on, among other factors, the economic health of our tenants. We attempt to mitigate tenant credit risk by working to secure creditworthy tenants that meet our underwriting criteria and monitoring our portfolio to identify potential problem tenants. We believe that our credit risk is also mitigated by the fact that no individual tenant accounts for more than 10% of our total real estate rentals, although affiliated entities of Edgewood Vista together accounted for approximately 12.4% of our total commercial segments' minimum rents as of January 1, 2012, and they accounted for approximately 7.9% of our total real estate rentals as of January 1, 2012.

	% of Total Commercial Segments' Minimum Rents as of January 1, 2012

Total Monthly Commercial Rent as of January 1, 2012	100.0%

PROPERTY ACQUISITIONS AND DISPOSITIONS

During the third quarter of fiscal year 2012, the Company closed on its acquisition of a 36-unit multi-family residential property in Isanti, Minnesota, on approximately 1.7 acres of land, and an adjoining 4.9 acre parcel of vacant land, for a purchase price of approximately \$3.5 million, of which \$3.0 million was paid in cash and the remainder in limited partnership units of the Operating Partnership valued at \$495,000. This property is located next to the Company's existing 36-unit Evergreen Apartments in Isanti, Minnesota. Also during the third quarter of fiscal year 2012, the Company substantially completed construction of an additional approximately 28 assisted living units and 16 memory care units at its existing Meadow Wind senior housing facility in Casper, Wyoming. The Company estimates that construction costs for this expansion project will total approximately \$4.7 million. As of January 31, 2012, the Company had incurred approximately \$3.8 million of these project costs. The Company had no real estate dispositions in the third quarter of fiscal year 2012.

See Note 8 of Notes to Condensed Consolidated Financial Statements above for a table detailing the Company's acquisitions and dispositions during the nine month periods ended January 31, 2012 and 2011.

FUNDS FROM OPERATIONS FOR THE THREE AND NINE MONTHS ENDED JANUARY 31, 2012 AND 2011

IRET considers Funds from Operations ("FFO") a useful measure of performance for an equity REIT. IRET uses the definition of FFO adopted by the National Association of Real Estate Investment Trusts, Inc. ("NAREIT"). NAREIT defines FFO to mean "net income (computed in accordance with generally accepted accounting principles), excluding

gains (or losses) from sales of property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis.” In addition, NAREIT has recently clarified its computation of FFO so as to exclude impairment charges for all periods presented. Because of limitations of the FFO definition adopted by NAREIT, IRET has made certain interpretations in applying the definition. IRET believes all such interpretations not specifically provided for in the NAREIT definition are consistent with the definition.

IRET management considers that FFO, by excluding depreciation costs, impairment write-downs, the gains or losses from the sale of operating real estate properties and extraordinary items as defined by U.S. GAAP, is useful to investors in providing an additional perspective on IRET’s operating results. Historical cost accounting for real estate assets in accordance with U.S. GAAP assumes, through depreciation, that the value of real estate assets decreases predictably over time. However, real estate asset values have historically risen or fallen with market conditions. NAREIT’s definition of FFO, by excluding depreciation costs, reflects the fact that real estate, as an asset class, generally appreciates over time and that depreciation charges required by U.S. GAAP may not reflect underlying economic realities. Additionally, the exclusion, in NAREIT’s definition of FFO, of impairment write-downs and gains and losses from the sales of previously depreciated operating real estate assets, assists IRET management

Table of Contents

35

and investors in identifying the operating results of the long-term assets that form the core of IRET's investments, and assists in comparing those operating results between periods. FFO is used by IRET management and investors to identify trends in occupancy rates, rental rates and operating costs.

While FFO is widely used by REITs as a primary performance metric, not all real estate companies use the same definition of FFO or calculate FFO in the same way. Accordingly, FFO presented here is not necessarily comparable to FFO presented by other real estate companies. FFO should not be considered as an alternative to net income as determined in accordance with U.S. GAAP as a measure of IRET's performance, but rather should be considered as an additional, supplemental measure, and should be viewed in conjunction with net income as presented in the consolidated financial statements included in this report. FFO does not represent cash generated from operating activities in accordance with U.S. GAAP, and is not necessarily indicative of sufficient cash flow to fund all of IRET's needs or its ability to service indebtedness or make distributions.

FFO applicable to common shares and Units for the three and nine months ended January 31, 2012 increased to \$17.2 million compared to \$14.6 million, and \$48.2 million compared to \$47.5 million for the comparable period ended January 31, 2011, an increase of 17.4% and 1.5% respectively.

(4) Real estate depreciation and amortization consists of the sum of depreciation/amortization related to real estate investments and amortization related to non-real estate investments from the Condensed Consolidated Statements of Operations, totaling \$45,105 and \$43,551, and depreciation/amortization from Discontinued Operations of \$8 and \$1,172, less corporate-related depreciation and amortization on office equipment and other assets of \$221 and \$198, for the nine months ended January 31, 2012 and 2011, respectively.

DISTRIBUTIONS

The following distributions per common share and unit were paid during the nine months ended January 31 of fiscal years 2012 and 2011:

Month	Fiscal Year 2012	Fiscal Year 2011
July	\$.1715	\$.1715
October	.1300	.1715
January	.1300	.1715

LIQUIDITY AND CAPITAL RESOURCES

OVERVIEW

The Company's principal liquidity demands are maintaining distributions to the holders of the Company's common and preferred shares of beneficial interest and UPREIT Units, capital improvements and repairs and maintenance to the Company's properties, acquisition of additional properties, property development, tenant improvements and debt service and repayments.

The Company has historically met its short-term liquidity requirements through net cash flows provided by its operating activities, and, from time to time, through draws on secured and unsecured lines of credit (the Company currently has one multi-bank line of credit with a total commitment capacity of \$60.0 million, secured by mortgages on 23 Company properties). Management considers the Company's ability to generate cash from property operating activities, cash-out refinancing of existing properties and, from time to time, draws on its line of credit to be adequate to meet all operating requirements and to make distributions to its shareholders in accordance with the REIT provisions of the Internal Revenue Code. Budgeted expenditures for ongoing maintenance and capital improvements and renovations to our real estate portfolio are also generally expected to be funded from existing cash on hand, cash flow generated from property operations, cash-out refinancing of existing properties, and/or new borrowings. However, the commercial real estate market continues to experience significant challenges including reduced tenant demand, occupancies and rental rates. In the event of deterioration in property operating results, or absent the Company's ability to successfully continue cash-out refinancing of existing properties and/or new borrowings, the Company may need to consider additional cash preservation alternatives, including scaling back development activities, capital improvements and renovations and reducing the level of distributions to shareholders.

To the extent the Company does not satisfy its long-term liquidity requirements, which consist primarily of maturities under the Company's long-term debt, construction and development activities and potential acquisition opportunities, through net cash flows provided by operating activities and its credit facilities, the Company intends to satisfy such requirements through a combination of funding sources which the Company believes will be available to it, including the issuance of UPREIT Units, additional common or preferred equity, proceeds from the sale of properties, and additional long-term secured or short-term unsecured indebtedness.

SOURCES AND USES OF CASH

Explanation of Responses:

While the economy is showing signs of a modest recovery and credit markets have stabilized, underwriting on commercial real estate continues to be more conservative compared to the underwriting standards employed prior to the recessionary period. We continue to expect to be able to refinance our maturing debt, but we also expect lenders to continue to employ conservative underwriting regarding asset quality, occupancy levels and tenant creditworthiness, and accordingly we are cautious regarding our ability in the remainder of fiscal year 2012 to rely on cash-out refinancing at levels we have achieved in recent years to provide funds for investment opportunities and other corporate purposes. Additionally, while to date there has been no material negative impact on our ability to borrow in our multi-family segment, we continue to closely monitor proposals such as the Federal Housing Finance Agency's proposal released February 21, 2012, to modify the roles of the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal National Mortgage Association (Fannie Mae) in financing multi-family residential properties. As we have previously noted, we consider that one of the consequences of a modification in the agencies' roles could potentially be a narrowing of their lending focus away from the smaller secondary or tertiary markets which we generally target, to multi-family residential properties in major metropolitan markets. IRET obtains a majority of its multi-family debt from

Table of Contents

37

primarily Freddie Mac. Our current plan is to refinance a majority of our maturing multi-family debt with these two entities, so any change in their ability or willingness to lend going forward will most likely result in higher loan costs or more constricted availability of financing for us; accordingly, we continue to closely monitor announcements regarding both firms. As of January 31, 2012, 100%, or \$8.1 million of our mortgage debt maturing in the fourth quarter of fiscal year 2012 and first quarter of fiscal year 2013 is debt placed on properties in our four commercial segments. Of this \$8.1 million, we have to date loan applications or commitments to refinance approximately \$6.0 million. As of January 31, 2012, 100%, or \$15.2 million of our mortgage debt maturing in the next twelve months is debt placed on properties in our four commercial segments.

The Company's revolving, multi-bank line of credit with First International Bank and Trust, Watford City, North Dakota, as lead bank, had, as of January 31, 2012, lending commitments of \$60.0 million. As of January 31, 2012, the line of credit was secured by mortgages on 23 properties; under the terms of the line of credit, properties may be added and removed from the collateral pool with the agreement of the lenders. Participants in this credit facility as of January 31, 2012 included, in addition to First International Bank, the following financial institutions: The Bank of North Dakota; First Western Bank and Trust; Dacotah Bank; United Community Bank; American State Bank & Trust Company and Town & Country Credit Union. The line of credit has a current interest rate of 5.65% and a minimum outstanding principal balance requirement of \$10.0 million, and as of January 31, 2012, the Company had borrowed \$49.0 million. The facility includes customary loan covenants including restrictions regarding minimum debt-service ratios to be maintained in the aggregate and individually on properties in the collateral pool, and the Company is also required to maintain minimum depository account(s) totaling \$6.0 million with First International, of which \$1.5 million is to be held in a non-interest bearing account. As of January 31, 2012, the Company believes it is in compliance with the facility covenants.

The Company maintains compensating balances, not restricted as to withdrawal, with several financial institutions in connection with financing received from those institutions and/or to ensure future credit availability. At January 31, 2012, the Company's compensating balances consisted of the following: Dacotah Bank, Minot, North Dakota, deposit of \$350,000; United Community Bank, Minot, North Dakota, deposit of \$275,000; Commerce Bank, A Minnesota Banking Corporation, deposit of \$250,000; First International Bank, Watford City, North Dakota, deposit of \$6.1 million; Peoples State Bank of Velva, North Dakota, deposit of \$225,000; Equity Bank, Minnetonka, Minnesota, deposit of \$300,000; Associated Bank, Green Bay, Wisconsin, deposit of \$500,000; Venture Bank, Eagan, Minnesota, deposit of \$500,000, and American National Bank, Omaha, Nebraska, deposit of \$400,000.

The issuance of UPREIT Units for property acquisitions continues to be an expected source of capital for the Company. In the three months ended January 31, 2012, approximately 62,000 Units, valued at issuance at approximately \$495,000, were issued in connection with the Company's acquisition of property. During the nine months ended January 31, 2012, approximately 288,000 Units, valued at issuance at \$2.5 million, were issued in connection with the Company's acquisition of property. In the three and nine months ended January 31, 2011, approximately 357,000 Units, valued at issuance at \$3.3 million, were issued in connection with the Company's acquisition of property and the noncontrolling interests in a joint venture.

The Company has a Distribution Reinvestment and Share Purchase Plan ("DRIP"). The DRIP provides common shareholders and UPREIT Unitholders of the Company an opportunity to invest their cash distributions in common shares of the Company, and purchase additional shares through voluntary cash contributions, at a discount (currently 5%) from the market price. The maximum monthly voluntary cash contribution permitted without prior Company approval is currently \$10,000. The Company can issue waivers to DRIP participants to provide for investments in excess of the \$10,000 maximum monthly investment. During the three months ended January 31, 2012, the Company issued 973,000 shares at an average price of \$7.19 per share pursuant to such waivers, for total net proceeds to the Company of \$7.0 million. During the nine months ended January 31, 2012, the Company issued 2.2 million shares at

an average price of \$7.21 per share pursuant to such waivers, for total net proceeds to the Company of \$15.8 million. During the three and nine months ended January 31, 2012, respectively, the Company issued a total of approximately 2.3 million common shares and 4.0 million common shares under its DRIP through reinvestments and voluntary cash contributions, with a total value of \$16.5 million and \$28.8 million.

Cash and cash equivalents on January 31, 2012 totaled \$35.5 million, compared to \$30.9 million on January 31, 2011, an increase of \$4.6 million. Net cash provided by operating activities for the nine months ended January 31, 2012 increased by approximately \$6.0 million, primarily due to a decrease in accounts receivable and an increase in accounts payable and other liabilities, compared to the nine months ended January 31, 2011. Net cash used by investing activities was \$89.0 million for the nine months ended January 31, 2012 as compared to net cash provided of \$17.0 million for the nine months ended January 31, 2011, a change of approximately \$106.0 million, primarily due to an increase in payments for acquisitions and improvements of real estate and a decrease in proceeds from discontinued operations. Net cash provided by financing activities was \$38.9 million

Table of Contents

38

for the nine months ended January 31, 2012, as compared to net cash used by financing activities of \$79.3 million in the prior year. The increase in funds provided by financing activity was primarily due to a decrease in principal payments on mortgages in the nine months ended January 31, 2012 as compared to the nine months ended January 31, 2011.

FINANCIAL CONDITION

Mortgage Loan Indebtedness. Mortgage loan indebtedness increased by \$44.9 million as of January 31, 2012, compared to April 30, 2011, due to new debt on existing and new properties, net of principal payments and loans that were paid off. As of January 31, 2012, approximately 99.0% of the Company's \$1.0 billion of mortgage debt is at fixed rates of interest, with staggered maturities. This limits the Company's exposure to changes in interest rates, which minimizes the effect of interest rate fluctuations on the Company's results of operations and cash flows. As of January 31, 2012, the weighted average rate of interest on the Company's mortgage debt was 5.84%, compared to 5.92% on April 30, 2011.

Property Owned. Property owned increased to \$1.9 billion at January 31, 2012 from \$1.8 billion at April 30, 2011. During the nine months ended January 31, 2012, the Company acquired 13 additional investment properties and one parcel adjoining an existing property, placed three construction projects in service and disposed of one property, as described above in the "Property Acquisitions and Dispositions" subsection of this Management's Discussion and Analysis of Financial Condition and Results of Operations.

Cash and Cash Equivalents. Cash and cash equivalents on hand on January 31, 2012 were \$35.5 million, compared to \$41.2 million on April 30, 2011.

Other Investments. Other investments, consisting of certificates of deposit held primarily for compensating balances, totaled approximately \$633,000 and \$625,000 on January 31, 2012 and on April 30, 2011, respectively.

Operating Partnership Units. Outstanding units in the Operating Partnership decreased to 19.6 million Units at January 31, 2012 compared to 20.1 million Units outstanding at April 30, 2011. The decrease resulted primarily from the conversion of Units to common shares, net of units issued in exchange for property.

Common and Preferred Shares of Beneficial Interest. Common shares of beneficial interest outstanding on January 31, 2012 totaled 85.7 million, compared to 80.5 million outstanding on April 30, 2011. During the nine months ended January 31, 2012, IRET issued approximately 366,000 common shares under its continuous equity offering program for total proceeds (before offering expenses but after underwriting discounts and commissions) of \$2.7 million. The Company issued common shares pursuant to its Distribution Reinvestment and Share Purchase Plan, consisting of approximately 4.0 million common shares issued during the nine months ended January 31, 2012, for a total value of \$28.8 million. Conversions of approximately 759,000 UPREIT Units to common shares, for a total of approximately \$3.5 million in IRET shareholders' equity, also increased the Company's common shares of beneficial interest outstanding during the nine months ended January 31, 2012.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market risk is limited primarily to fluctuations in the general level of interest rates on our current and future fixed and variable rate debt obligations.

Variable interest rates. Because approximately 99.0% and 99.8% of our debt, as of January 31, 2012 and April 30, 2011, respectively, is at fixed interest rates, we have little exposure to interest rate fluctuation risk on our existing

debt, and accordingly interest rate fluctuations during the third quarter of fiscal year 2012 did not have a material effect on the Company. However, even though our goal is to maintain a fairly low exposure to interest rate risk, we are still vulnerable to significant fluctuations in interest rates on any future repricing or refinancing of our fixed or variable rate debt, and on future debt. We primarily use long-term (more than nine years) and medium term (five to seven years) debt as a source of capital. We do not currently use derivative securities, interest rate swaps or any other type of hedging activity to manage our interest rate risk. As of January 31, 2012, we had the following amount of future principal and interest payments due on mortgages secured by our real estate:

Table of Contents

39

(in thousands)
Future Principal Payments

Mortgages	Remaining		Future Principal Payments					Total	Fair Value
	Fiscal 2012	Fiscal 2013	Fiscal 2014	Fiscal 2015	Fiscal 2016	Thereafter			
Fixed Rate	\$ 13,364	\$ 51,607	\$ 65,425	\$ 96,457	\$ 86,182	\$ 715,163	\$ 1,028,198	\$ 1,076,421	
Average Fixed Interest Rate(1)	5.77 %	5.76 %	5.72 %	5.60 %	5.53 %				
Variable Rate	\$ 53	\$ 117	\$ 599	\$ 9,750	\$ 0	\$ 0	\$ 10,519	\$ 10,519	
Average Variable Interest Rate(1)	5.00 %	5.46 %	5.32 %	5.57 %	0				
							\$ 1,038,717	\$ 1,086,940	

(in thousands)
Future Interest Payments

Mortgages	Remaining		Future Interest Payments					Total
	Fiscal 2012	Fiscal 2013	Fiscal 2014	Fiscal 2015	Fiscal 2016	Thereafter		
Fixed Rate	\$ 15,020	\$ 58,489	\$ 55,113	\$ 50,268	\$ 44,326	\$ 117,398	\$ 340,614	
Variable Rate	135	571	550	136	0	0	1,392	
							\$ 342,006	

(1) Interest rate given is for the entire year.

The weighted average interest rate on our fixed rate and variable rate debt as of January 31, 2012, was 5.84%. Any fluctuations in variable interest rates could increase or decrease our interest expenses. For example, an increase of one percent per annum on our \$10.5 million of variable rate indebtedness would increase our annual interest expense by \$105,000.

ITEM 4. CONTROLS AND PROCEDURES

IRET's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of January 31, 2012, such disclosure controls and procedures were effective to ensure that information required to be disclosed by IRET in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and is accumulated and communicated to management, including the Company's principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting: There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Securities and Exchange Act of 1934, as amended) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
