

BRINKER INTERNATIONAL INC
Form 10-K
August 24, 2015

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K
ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended June 24, 2015

Commission File No. 1-10275

BRINKER INTERNATIONAL, INC.
(Exact name of registrant as specified in its charter)
DELAWARE
(State or other jurisdiction of
incorporation or organization)

75-1914582
(I.R.S. Employer
Identification No.)

6820 LBJ Freeway, Dallas, Texas
(Address of principal executive offices)
(972) 980-9917

75240
(Zip Code)

(Registrant's telephone number, including area code)
Securities registered pursuant to Section 12(b) of the Act:
Title of Each Class
Common Stock, \$0.10 par value
Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No
Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No
Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No
Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No
Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (229.405 of this chapter) is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.
Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):
Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Edgar Filing: BRINKER INTERNATIONAL INC - Form 10-K

State the aggregate market value of the voting and non-voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold, or the average bid and asked price of such common equity, as of the last business day of the registrant's most recently completed second fiscal quarter. \$3,497,359,922. Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

Class	Outstanding at August 10, 2015
Common Stock, \$0.10 par value	60,105,325 shares

DOCUMENTS INCORPORATED BY REFERENCE

We have incorporated portions of our Annual Report to Shareholders for the fiscal year ended June 24, 2015 into Part II hereof, to the extent indicated herein. We have also incorporated by reference portions of our Proxy Statement for our annual meeting of shareholders on October 29, 2015, to be dated on or about September 14, 2015, into Part III hereof, to the extent indicated herein.

PART I

Item 1. BUSINESS.

General

References to “Brinker,” the “Company,” “we,” “us,” and “our” in this Form 10-K are references to Brinker International, Inc. and its subsidiaries and any predecessor companies of Brinker International, Inc.

We own, develop, operate and franchise the Chili’s Grill & Bar (“Chili’s”) and Maggiano’s Little Italy (“Maggiano’s”) restaurant brands. The Company was organized under the laws of the State of Delaware in September 1983 to succeed to the business operated by Chili’s, Inc., a Texas corporation, which was organized in August 1977. We completed the acquisition of Maggiano’s in August 1995.

Restaurant Brands

Chili’s Grill & Bar

Chili’s, a recognized leader in the Bar & Grill category of casual dining, has been operating restaurants for 40 years. Chili’s also enjoys a global presence with locations in 30 countries and two U.S. territories around the world. Whether domestic or international, company-owned or franchised, Chili’s and its more than 100,000 team members are dedicated to delivering fresh, high-quality food with a unique point of view, as well as dining experiences that make people feel special. Chili’s menu features authentic Fresh Mex and Fresh Tex cuisine including signature items such as Baby Back Ribs smoked in-house, Hand-Crafted Burgers served with house-made garlic dill pickles, Mix and Match Fajitas, Tableside Guacamole and house-made Chips and Salsa. This year, Chili’s expanded upon its Fresh Tex and Fresh Mex menu platforms introducing items like Smoked Wings, White Spinach Queso and Top Shelf Tacos, carefully crafted with a unique blend of flavors and high-quality ingredients. The all-day menu offers guests a generous selection of appetizers, entrees and desserts at affordable prices. Weekday Lunch Combos are also available enabling guests to pick their favorites for the perfect meal. In addition to our flavorful food options, Chili’s offers a full selection of alcoholic beverages including flavor-infused margaritas and craft beer. For guests seeking convenience, Chili’s To Go menu is available to order online, through the brand’s mobile app or by calling the restaurant. In addition to convenience, guests can enjoy the control of on-demand ordering, a number of entertainment offerings and the pay-at-the-table feature that is available on the tabletop device located on every Chili’s table nationwide. In May 2015, Chili’s has also launched My Chili’s Rewards, a guest loyalty program to its company-owned restaurants. My Chili’s Rewards enables guests to earn and redeem their Chili’s favorites when they want on any device they want.

During the year ended June 24, 2015, at our company-owned restaurants, entrée selections ranged in menu price from \$6.00 to \$17.99. The average revenue per meal, including alcoholic beverages, was approximately \$14.52 per person. During this same year, food and non-alcoholic beverage sales constituted approximately 86.3% of Chili’s total restaurant revenues, with alcoholic beverage sales accounting for the remaining 13.7%. Our average annual sales volume per Chili’s restaurant during this same year was \$3.1 million.

Maggiano’s Little Italy

Maggiano’s is a full-service, national, casual dining Italian restaurant brand with a passion for making people feel special. The exterior of each Maggiano’s restaurant varies to reflect local architecture; however, the interior of all locations transport our guests back to a classic Italian-American restaurant in the style of New York’s Little Italy in the 1940s. Our Maggiano’s restaurants feature individual and family-style menus, and most of our restaurants also have extensive banquet facilities designed to host large party business or social events. We have a full lunch and dinner menu offering chef-prepared, classic Italian-American fare in the form of appetizers, entrées with bountiful portions of pasta, chicken, seafood, veal and prime steaks, and desserts. Our Maggiano’s restaurants also offer a full range of alcoholic beverages, including a selection of Handcrafted Classic Cocktails and premium wines. In addition, Maggiano’s offers a full carryout menu as well as local delivery services.

During the year ended June 24, 2015, entrée selections ranged in menu price from \$12.95 to \$42.50. The average revenue per meal, including alcoholic beverages, was approximately \$27.00 per person. During this same year, food and non-alcoholic beverage sales constituted approximately 83.0% of Maggiano's total restaurant revenues, with alcoholic beverage sales accounting for the remaining 17.0%. Sales from events at our banquet facilities made up 18.7% of Maggiano's total restaurant revenues for the year. Our average annual sales volume per Maggiano's restaurant during this same year was \$8.6 million.

Business Strategy

We are committed to strategies and initiatives that are centered on long-term sales and profit growth, enhancing the guest experience and team member engagement. These strategies are intended to differentiate our brands from the competition, reduce the costs associated with managing our restaurants and establish a strong presence for our brands in key markets around the world.

Key economic indicators such as total employment and consumer confidence continued to improve steadily this year and have driven slight improvements in the casual dining industry; however, growing sales and traffic has been a challenge over the last five years with steadily increasing competition. U.S. economic growth has been steady but wage growth has been slow and this wage pressure has challenged both restaurant operators and consumers as discretionary income available for restaurant visits has been limited. In response to these economic factors, we have developed strategies that we believe are appropriate for all operating conditions and will provide a solid foundation for earnings growth going forward.

We have completed a number of significant initiatives in recent years that have helped us drive profitable sales and traffic growth and to improve the guest experience in our restaurants. Investments in restaurant reimages, new kitchen equipment and operations software have improved the relevance of the Chili's brand and the efficiency of our restaurants. Our new kitchen equipment enables us to provide a higher quality product at a faster pace, enhancing both profitability and guest satisfaction. Our Chili's reimage program is complete and the design is intended to revitalize Chili's in a way which enhances the relevance of the brand while staying true to Chili's brand heritage. All company-owned Chili's and Maggiano's restaurants are now operating with an integrated point of sale and back office software system that was designed to improve the efficiency of our restaurant operations and reporting capabilities. We believe that these initiatives will positively impact the customer perception of our restaurant in both the dining room and bar areas and provide us with a great foundation for continued success.

We have also differentiated the Chili's brand by leveraging technology initiatives to engage our guests and drive traffic. All traditional domestic Chili's restaurants, with the exception of airport and college locations, are now outfitted with tabletop devices which gives us the largest network of tabletop devices in the country. Our Ziosk branded tabletop device is a multi-functional device which provides entertainment, ordering, guest survey and pay-at-the-table capabilities. We built on this momentum by launching the Chili's loyalty program called My Chili's Rewards in the fourth quarter of this fiscal year which utilizes our existing tabletop technology and provides us an opportunity to connect with our guests in a meaningful way to tailor their experience in our restaurants. We are also investing in additional upgrades to our on-line ordering and mobile platforms. We have also launched No Wait, a new technology which allows our hosts to provide more accurate wait times when a guest arrives during peak shifts, and to send them a text when their table is ready. Guests can also add themselves to the wait list via the Chili's mobile app which we believe will reduce the in-restaurant wait time and increase the efficiency of our restaurants by allowing us to turn tables more effectively.

We continually evaluate our menu at Chili's to improve quality, freshness and value by introducing new items and improving existing favorites. Our Fresh Mex platform introduced last year has been very successful and includes Fresh Mex Bowls, Mix and Match Fajitas and Tableside Guacamole. We leveraged this success by launching our new Top-Shelf Taco category including Pork Carnitas, Ranchero Chicken and Prime Rib tacos in the fourth quarter. We also introduced Fresh Tex, a new Texas themed platform featuring ribs, steaks and burgers this year. Our traditional burger menu was also updated with a new line of Craft Burgers, featuring fresh potato buns and house made garlic pickles. We continually seek opportunities to reinforce value and create interest for the brand with new and varied offerings to further enhance sales and drive incremental traffic. We are committed to offering a compelling everyday menu that provides items our customers prefer at a solid value.

Improvements at Chili's will have the most significant impact on the business; however, our results will also benefit through additional contributions from Maggiano's and our global business. Maggiano's continues to deliver sales growth and has opened three restaurants in fiscal 2015 based on the new prototype, which excludes banquet space. This new prototype will allow the brand to enter new markets for which the existing model was not suited. Maggiano's is committed to delivering high quality food and a dining experience in line with our brand heritage. We will continue to strengthen the brand's business model with kitchen efficiency and inventory controls that we believe will continue to enhance profitability.

We capitalized on an opportunity to further expand our domestic business by purchasing a franchisee of 103 Chili's restaurants in the Northeast and Southeast U.S. subsequent to the end of the year. We believe this acquisition fits well within our capital allocation strategy and will enable us to grow our sales and profits in fiscal 2016. We have begun implementing several initiatives at these locations designed to increase sales and margins including restaurant reimage, loyalty and other operational processes. Global expansion allows further diversification which will enable us to build strength in a variety of markets and

economic conditions. This expansion will come through franchise relationships, acquisitions, joint venture arrangements and equity investments. Our international franchisees opened 22 new restaurants in fiscal 2015 and plan to open 25 to 30 new international Chili's restaurants in fiscal 2016. Growing franchise operations enables us to improve revenues and operating income through increased royalties and franchise fees. We continue to work with our domestic franchisees to increase the pace of reimages of their restaurants, and to leverage technology initiatives like My Chili's Rewards and No Wait in their restaurants.

The casual dining industry is a highly competitive business which is sensitive to changes in economic conditions, trends in lifestyles and fluctuating costs. Our priority remains increasing profitable growth over time in all operating environments. We have designed both operational and financial strategies to achieve this goal and in our opinion, improve shareholder value. Success with our initiatives to improve sales trends and operational effectiveness will enhance the profitability of our restaurants and strengthen our competitive position. We believe the effective execution of our financial strategies, including repurchasing shares of our common stock, payment of quarterly dividends, disciplined use of capital and efficient management of operating expenses, will enhance shareholder value. We remain confident in the financial health of our company, the long-term prospects of the industry, as well as our ability to perform effectively in a competitive marketplace and a variety of economic environments.

Company Development

In fulfilling our long-term vision, over the past fiscal year we continued the expansion of our restaurant brands domestically through a select number of new company-owned restaurants in strategically desirable markets. We concentrate on the development of certain identified markets to achieve the necessary levels to improve our competitive position, marketing potential, profitability and return on invested capital. Our domestic expansion efforts focus not only on major metropolitan areas in the United States but also on smaller market areas and non-traditional locations (such as airports and universities) that can adequately support our restaurant brands. For smaller market areas, we have developed a newer smaller prototype that allows us to expand into these markets serving our guests while maintaining a focus on profitability and return on invested capital.

The restaurant site selection process is critical and we devote significant effort to the investigation of new locations utilizing a variety of sophisticated analytical techniques. Our process evaluates a variety of factors, including: trade area demographics, such as target population density and household income levels, physical site characteristics, such as visibility, accessibility and traffic volume; relative proximity to activity centers, such as shopping centers, hotel and entertainment complexes and office buildings; supply and demand trends, such as proposed infrastructure improvements, new developments and existing and potential competition. Members of each brand's executive team inspect, review and approve each restaurant site prior to its acquisition for that brand.

The specific rate at which we are able to open new restaurants is determined, in part, by our success in locating satisfactory sites, negotiating acceptable lease or purchase terms, securing appropriate local governmental permits and approvals, and by our capacity to supervise construction and recruit and train management and hourly team members. The following table illustrates the system-wide restaurants opened in fiscal 2015 and the planned openings in fiscal 2016:

	Fiscal 2015 Openings(1)	Fiscal 2016 Projected Openings
Chili's:		
Company-owned	9	11-13
Franchise(2)	5	8-10
Maggiano's	3	3
International:		
Company-owned(3)	1	—
Franchise(3)	22	25-30
Total	40	47-56

(1)

The numbers in this column are the total of new restaurant openings and openings of relocated restaurants during fiscal 2015.

(2) The numbers on this line for fiscal 2016 are projected domestic franchise openings.

(3) The numbers on this line are for Chili's.

4

We periodically re-evaluate company-owned restaurant sites to ensure attributes have not deteriorated below our minimum standards. In the event site deterioration occurs, each brand makes a concerted effort to improve the restaurant's performance by providing physical, operating and marketing enhancements unique to each restaurant's situation. If efforts to restore the restaurant's performance to acceptable minimum standards are unsuccessful, the brand considers relocation to a proximate, more desirable site, or evaluates closing the restaurant if the brand's measurement criteria, such as return on investment and area demographic trends, do not support relocation. We closed seven company-owned restaurants in fiscal 2015. We perform a comprehensive analysis that examines restaurants not performing at a required rate of return. These closed restaurants were generally performing below our standards or were near or at the expiration of their lease terms. If local market conditions warrant, we also opportunistically evaluate company-owned restaurants to determine if relocation to a proximate, more desirable site will strengthen our presence in those trade areas or markets. Our strategic plan is targeted to support our long-term growth objectives, with a focus on continued development of those restaurant locations that have the greatest return potential for the Company and our shareholders.

Franchise Development

In addition to our development of company-owned restaurants, our restaurant brands will maintain expansion through our franchisees and joint venture partners.

As part of our strategy to expand through our franchisees, our franchise operations (domestically and internationally) increased in fiscal 2015. The following table illustrates the percentages of franchise operations as of June 24, 2015 for the Company and by restaurant brand, respectively:

	Percentage of Franchise Operated Restaurants				
	Domestic(1)	International(2)	Overall(3)		
Brinker	33	% 96	% 45	%	
Chili's	34	% 96	% 47	%	
Maggiano's	—	% —	% —	%	

(1) The percentages in this column are based on number of domestic franchised restaurants versus total domestic restaurants.

(2) The percentages in this column are based on number of international franchised restaurants versus total international restaurants.

(3) The percentages in this column are based on the total number of franchised restaurants (domestic and international) versus total system-wide number of restaurants.

International

We continue our international growth through development agreements with new and existing franchisees and joint venture partners, introducing Chili's to new countries and expanding the brand within our existing markets. As of June 24, 2015, we had 22 total development arrangements. During fiscal year 2015, our international franchisees and joint venture partners opened 22 Chili's restaurants. We entered into a new development agreement with one of our existing franchisees for development of two Chili's Express restaurants at U.S. Armed Forces installations on the island of Okinawa, Japan.

As we develop Chili's internationally, we will selectively pursue expansion through various means, including franchising, joint ventures and acquisitions. Similar to our domestic agreements, typical international agreements provide the vehicle for payment of development fees and franchise fees in addition to subsequent royalty fees based on the gross sales of each restaurant. We expect future agreements to remain limited to enterprises who demonstrate a proven track record as a restaurant operator and showcase financial strength that can support a multi-unit development agreement, as well as, in some instances, multi-brand operations.

During the year ended June 24, 2015, we also opened one company-owned Chili's restaurant in Alberta, Canada.

Domestic

We remain committed to also growing our number of domestic franchised restaurants. We are accomplishing this through existing, new or renewed development and franchise obligations with new or existing franchisees. In addition, we have from time to time also sold and may sell company-owned restaurants to our franchisees (new or existing). As of June 24, 2015, two domestic development arrangements existed. Typical domestic agreements provide for payment of development and initial franchise fees in addition to subsequent royalty and advertising fees based on the gross sales of each restaurant. We expect future domestic

5

agreements to remain limited to enterprises having significant experience as restaurant operators and proven financial ability to support and develop multi-unit operations.

Domestic expansion efforts continue to focus not only on major metropolitan areas in the United States but also on smaller market areas and non-traditional locations (such as airports, college campuses and food courts) that can adequately support our restaurant brands.

During the year ended June 24, 2015, our domestic franchisees opened five Chili's restaurants.

Following the end of our fiscal year 2015, we acquired Pepper Dining Holding Corp., a franchisee of 103 Chili's restaurants primarily located in the Northeast and Southeast United States. This acquisition represented an opportunity to create value for our shareholders and generate additional earnings and cash flow growth. We continue to remain committed to growing and expanding our existing franchisees.

Restaurant Management

Our Chili's and Maggiano's brands have separate designated teams who support each brand including operations, finance, franchise, marketing, peopleworks and culinary. We believe these strategic, brand-focused teams foster the identities of the individual and uniquely positioned brands. To maximize efficiencies, brands continue to utilize common and shared infrastructure, including, among other services, accounting, information technology, purchasing, legal and restaurant development.

At the restaurant level, management structure varies by brand. A typical restaurant is led by a management team including a general manager, two to six additional managers, and for Maggiano's, an additional three to four chefs. The level of restaurant supervision depends upon the operating complexity and sales volume of individual locations.

We believe there is a high correlation between the quality of restaurant management and the long-term success of a brand. In that regard, we encourage increased experience at all management positions through various short and long-term incentive programs, which may include equity ownership. These programs, coupled with a general management philosophy emphasizing quality of life, have enabled us to attract and retain key team members, and enjoy turnover of managers and team members that is below industry averages.

We ensure consistent quality standards in all brands through the issuance of operations manuals covering all elements of operations and food and beverage manuals, which provide guidance for preparation of brand-formulated recipes.

Routine visitation to the restaurants by all levels of supervision enforces strict adherence to our overall brand standards and operating procedures. Each brand is responsible for maintaining their operational training program.

Depending on the brand, the training program typically includes a training period of two-to-three months for restaurant management trainees, as well as special training for high-potential managers. We also provide recurring management training for managers and supervisors to improve effectiveness or prepare them for more responsibility.

Supply Chain

Our ability to maintain consistent quality and continuity of supply throughout each restaurant brand depends upon acquiring products from reliable sources. Our pre-approved suppliers and our restaurants are required to adhere to strict product and safety specifications established through our quality assurance and culinary programs. These requirements ensure high quality products are served in each of our restaurants. We strategically negotiate directly with major suppliers to obtain competitive prices. We also use purchase commitment contracts when appropriate to stabilize the potentially volatile pricing associated with certain commodity items. All essential products are available from pre-qualified distributors to be delivered to our restaurant brands. Additionally, as a purchaser of a variety of protein products, we require our suppliers to adhere to humane processing standards for their respective industries and encourage them to evaluate new technologies for food safety and humane processing improvements. Due to the relatively rapid turnover of perishable food products, inventories in the restaurants, which consists primarily of food, beverages and supplies, have a modest aggregate dollar value in relation to revenues. Internationally, our franchisees and joint venture operations may encounter cultural and regulatory differences resulting in variances with product specifications for international restaurant locations.

Advertising and Marketing

Our brands generally target the 18 to 59 year-old age group. It is our belief that these consumers value the benefits of the casual dining category for multiple meal occasions. Brinker has launched several brand initiatives aimed at making both brands more "New School" or specifically more relevant for today's evolving consumer. In doing so, we focus

on the largest segment opportunities such as guests we have identified as "Win-backs", who have stopped using the brand six months or more ago, and "Switchers", who are not loyal to one brand. Initiatives include restaurant reimages designed to provide a more comfortable, up-

6

to-date environment; new kitchen equipment and procedures that deliver a more consistent food experience; food innovation with quality ingredients, made with care and presented with pride; and brand messaging that showcases the vibrant experiences of our restaurants, while demonstrating our quality, freshness and the care we put into the preparation of our food. We engage with our target groups, through a mix of national television, digital advertising, database marketing and social media with each of our restaurant brands utilizing one or more of these mediums to meet our communication strategies and budget. We recently launched an industry-leading loyalty program enabling members to earn and redeem what they want, when they want on the device they want - online, mobile app or tabletop tablet.

Our franchise agreements generally require advertising contributions to us by the franchisees. We use these contributions, in conjunction with company funds, for the purpose of retaining agencies, obtaining consumer insights, developing and producing brand-specific creative materials and purchasing national or regional media to meet the brand's strategy. Some franchisees also spend additional amounts on local advertising. Any such local advertising must first be approved by us.

Team Members

As of June 24, 2015, we employed approximately 53,000 team members, of which 615 were restaurant support center personnel in Dallas, and 4,007 were restaurant area directors, managers, or trainees. The remaining 48,394 were employed in non-management restaurant positions. Our executive officers have an average of 20 years of experience in the restaurant industry.

We have a positive team member relations outlook and continue to focus on improving our team member turnover rate. We have a variety of tools and strong resources in place to help us recruit and retain the best talent to work in our restaurants.

The majority of our team members, outside of restaurant management and restaurant support center personnel, are paid on an hourly basis. We stand firm in the belief that we provide competitive working conditions and wages favorable with other companies in our industry. Our team members are not covered by any collective bargaining agreements.

Trademarks

We have registered and/or have pending, among other marks, "Brinker International", "Chili's", "Chili's Bar & Bites", "Chili's Express", "Chili's Margarita Bar", "Chili's Southwest Grill & Bar", "Chili's Too", "Maggiano's", and "Maggiano's Little Italy" trademarks with the United States Patent and Trademark Office.

Available Information

We maintain an internet website with the address of <http://www.brinker.com>. You may obtain, free of charge, at our website, copies of our reports filed with, or furnished to, the Securities and Exchange Commission (the "SEC") on Forms 10-K, 10-Q and 8-K. Any amendments to such reports are also available for viewing and copying at our internet website. These reports will be available as soon as reasonably practicable after filing such material with, or furnishing it to, the SEC. In addition, you may view and obtain, free of charge, at our website, copies of our corporate governance materials, including, Corporate Governance Guidelines, Audit Committee Charter, Compensation Committee Charter, Governance and Nominating Committee Charter, Code of Conduct and Ethical Business Policy, and Problem Resolution Procedure/Whistle Blower Policy.

Item 1A. RISK FACTORS.

We wish to caution you that our business and operations are subject to a number of risks and uncertainties. The factors listed below are important because they could cause actual results to differ materially from our historical results and from those projected in forward-looking statements contained in this report, in our other filings with the SEC, in our news releases, written or electronic communications, and verbal statements by our representatives.

You should be aware that forward-looking statements involve risks and uncertainties. These risks and uncertainties may cause our or our industry's actual results, performance or achievements to be materially different from any future results, performances or achievements contained in or implied by these forward-looking statements. Forward-looking statements are generally accompanied by words like "believes," "anticipates," "estimates," "predicts," "expects," and other similar expressions that convey uncertainty about future events or outcomes. We expressly disclaim any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Risks Related to Our Business

Competition may adversely affect our operations and financial results.

The restaurant business is highly competitive as to price, service, restaurant location, nutritional and dietary trends and food quality, and is often affected by changes in consumer tastes, economic conditions, population and traffic patterns.

We compete

7

within each market with locally-owned restaurants as well as national and regional restaurant chains, some of which operate more restaurants and have greater financial resources and longer operating histories than ours. The U.S. total employment market is growing, and there is active competition for quality management personnel and hourly team members. We continue to face competition as a result of several factors, including quick service and fast casual restaurants also offering high quality food and beverage choices and the convergence in grocery, deli and restaurant services. We compete primarily on the quality, variety and value perception of menu items, as well as the quality and efficiency of service, the attractiveness of facilities and the effectiveness of advertising and marketing programs. Our restaurants also face competition from the introduction of new products and menu items by competitors, as well as substantial price discounting among other offers, and are likely to continue to face such future competition in light of the slow paced economic growth. Although we may implement a number of business strategies, the success of new products, initiatives and overall strategies is highly difficult to predict and will be influenced by competitive product offerings, pricing and promotions offered by competitors. Our ability to differentiate our brands from their competitors, which is in part limited by the advertising spend available to us and by consumer perception, cannot be assured. These factors could reduce the gross sales or profitability at our restaurants, which would decrease revenues or profitability generated by company-owned restaurants and royalty payments from franchisees.

Changing health or dietary preferences may cause consumers to avoid our products in favor of alternative foods. The foodservice industry as a whole rests on consumer preferences and demographic trends at the local, regional, national and international levels, including the impact on consumer eating habits of new information regarding diet, nutrition, health and health insurance. We and our franchisees depend on the sustained demand for our products, which may be affected by factors outside of our control. Changes in nutritional or health insurance guidelines issued by federal or local government agencies, issuance of similar guidelines or statistical information by other federal, state or local municipalities, academic studies, or advocacy organizations, among other things, may impact consumer choice and cause consumers to select foods other than those that are offered by our restaurants. We may not be able to adequately adapt our menu offerings to keep pace with developments in current consumer preferences, which may result in reductions to the revenues generated by our company-owned restaurants and the payments we receive from franchisees.

The slow global economic growth continues to impact consumer discretionary spending and a continued and prolonged slow trend in growth could result in declines in consumer discretionary spending materially affecting our financial performance in the future.

The restaurant industry is dependent upon consumer discretionary spending. Despite improvement in total employment and consumer confidence in the U.S., consumer incomes have been slow to recover and discretionary income for restaurant visits has been challenged. Economic improvement in the restaurant industry continues to come from cost savings initiatives as well as our success to improve the guest experience within our existing restaurant locations. If this current slow economic growth continues for a prolonged period of time and/or deepens in magnitude returning to the negative trends of the prior years, our business, results of operations and ability to comply with the covenants under our credit facility could be materially affected. Deterioration in guest traffic and/or a reduction in the average amount guests spend in our restaurants will negatively impact our revenues. This will also result in lower royalties collected, sales deleverage, spreading fixed costs across a lower level of sales, and in turn, cause downward pressure on our profitability. This could result in further reductions in staff levels, asset impairment charges and potential restaurant closures.

Future slow global economic growth or recessionary effects on us are unknown at this time and could have a potential material adverse affect on our financial position and results of operations. There is no assurance that any governmental plan to restore fiscal responsibility or future plans to stimulate the economy will foster growth in consumer confidence, stabilize the financial markets, increase liquidity and the availability of credit, or result in lower unemployment.

Inflation may increase our operating expenses.

We have experienced impact from inflation. Inflation has caused added food, labor and benefits costs and increased our operating expenses. As operating expenses rise, we, to the extent permitted by competition, recover costs by raising menu prices, or by reviewing, then implementing, alternative products or processes, or other cost reduction

procedures. We cannot ensure, however, we will be able to continue to recover increases in operating expenses due to inflation in this manner.

8

Changes in governmental regulation may adversely affect our ability to maintain our existing and future operations and to open new restaurants.

We are subject to the Fair Labor Standards Act (which governs such matters as minimum wages, overtime and other working conditions), along with the Americans with Disabilities Act, the Immigration Reform and Control Act of 1986, various family leave mandates and a variety of other laws enacted, or rules and regulations promulgated by federal, state and local governmental authorities that govern these and other employment matters, including, tip credits, working conditions, safety standards and immigration status. We have experienced and continue to expect adjustments in payroll expenses as a result of federal and state mandated increases in the minimum wage; we cannot be certain there will be no additional significant increases in the future. Enactment and enforcement of various federal, state and local laws, rules and regulations on immigration and labor organizations may adversely impact the availability and costs of labor for our restaurants in a particular area or across the United States. Other labor shortages or increased team member turnover could also increase labor costs. In addition, our suppliers may be affected by higher minimum wage standards or availability of labor, which may increase the price of goods and services they supply to us. We continue to review the Affordable Care Act and regulations issued related to the law to evaluate the potential impact of this law on our business, and to accommodate various parts of the law as they take effect. There are no assurances that a combination of cost management and price increases can accommodate all of the costs associated with compliance.

We are subject to laws and regulations, which vary from jurisdiction to jurisdiction, relating to nutritional content and menu labeling. Compliance with these laws and regulations may lead to increased costs and operational complexity, changes in sales mix and profitability, and increased exposure to governmental investigations or litigation. We do not expect to incur material costs from compliance with the provision of the Affordable Care Act requiring disclosure of calories on the menus, but cannot reliably anticipate any changes in guest behavior resulting from implementation of this portion of the law, which could have adverse effects on our sales or results of operations.

Each of our company-owned and our franchisees' restaurants is also subject to licensing and regulation by alcoholic beverage control, health, sanitation, safety and fire agencies in the state, county and/or municipality where the restaurant is located. We generally have not encountered any material difficulties or failures in obtaining and maintaining the required licenses and approvals that could impact the continuing operations of an existing restaurant, or delay or prevent the opening of a new restaurant. Although we do not, at this time, anticipate any occurring in the future, we cannot be certain that we, or our franchisees, will not experience material difficulties or failures that could impact the continuing operations of an existing restaurant, or delay the opening of restaurants in the future.

We are also subject to federal and state environmental regulations, and although these have not had a material negative affect on our operations, we cannot ensure this will not occur in the future. In particular, the U.S. and other foreign governments have increased focus on environmental matters such as climate change, greenhouse gases and water conservation. This may lead to new initiatives directed at regulating an unspecified array of environmental matters. These efforts could result in increased taxation or in future restrictions on or increases in costs associated with food and other restaurant supplies, transportation costs and utility costs, any of which could decrease our operating profits and/or necessitate future investments in our restaurant facilities and equipment to achieve compliance. Further, more stringent and varied requirements of local and state governmental bodies with respect to zoning, land use and environmental factors could delay, prevent or make cost prohibitive the continuing operations of an existing restaurant or the development of new restaurants in particular locations.

Due to our international franchising, we are also subject to governmental regulations throughout the world impacting the way we do business with our international franchisees and joint venture partners. These include antitrust and tax requirements, anti-boycott regulations, import/export/customs and other international trade regulations, the USA Patriot Act and the Foreign Corrupt Practices Act. Failure to comply with any such legal requirements could subject us to monetary liabilities and other sanctions, which could adversely impact our business and financial performance. The impact of current laws and regulations, the effect of future changes in laws or regulations that impose additional requirements and the consequences of litigation relating to current or future laws and regulations, or our inability to respond effectively to significant regulatory or public policy issues, could increase our compliance and other costs of doing business and therefore have an adverse affect on our results of operations. Failure to comply with the laws and

regulatory requirements of federal, state and local authorities could result in, among other things, revocation of required licenses, administrative enforcement actions, fines and civil and criminal liability. Compliance with these laws and regulations can be costly and can increase our exposure to litigation or governmental investigations or proceedings.

Shortages or interruptions in the availability and delivery of food and other products may increase costs or reduce revenues.

Possible shortages or interruptions in the supply of food items and other products to our restaurants caused by inclement weather, natural disasters such as floods, drought and hurricanes; the inability of our suppliers to obtain credit in a tight credit market; food safety warnings or advisories or the prospect of such pronouncements; animal disease outbreaks (such as the avian

flu outbreak in the midwestern U.S. in 2015); or other conditions beyond our control, could adversely affect the availability, quality and cost of items we buy and the operations of our restaurants. Our inability to effectively manage supply chain risk could increase our costs and limit the availability of products critical to our restaurant operations. Our profitability may be adversely affected by increases in energy costs.

Our success depends in part on our ability to absorb increases in utility costs, in particular, electricity and natural gas. Various regions of the United States in which we operate multiple restaurants have experienced volatility in utility prices. This has affected costs in the past and if they occur again, it would have possible adverse effects on our profitability to the extent not otherwise recoverable through price increases or alternative products, processes or cost reduction procedures. Further, higher prices for petroleum-based fuels may be passed on to us by suppliers putting further pressure on margins as well as impact our guests discretionary funds and ability to patron our restaurants or their menu choices.

Successful strategic transactions are important to our future growth and profitability.

We evaluate potential franchisees of new and existing restaurants and joint venture investments, as well as mergers, acquisitions and divestitures, as part of our strategic planning initiative. These transactions involve various inherent risks, including accurately assessing:

- the value, future growth potential, strengths, weaknesses, contingent and other liabilities and potential profitability of franchise and joint venture partner candidates;
- our ability to achieve projected economic and operating synergies; and
- unanticipated changes in business and economic conditions affecting an acquired business or the completion of a divestiture.

We acquired Pepper Dining Holding Corp., a franchisee with 103 Chili's restaurants in the northeastern and southeastern U.S. on June 25, 2015. These acquired restaurants have lower annual average sales volumes and different margin structures than our company-owned Chili's restaurants. We are integrating the acquired restaurants into our Chili's operations structure and are rolling out processes to improve sales and margins. We are also reimagining these restaurants and leveraging technology investments in the restaurants. There is no assurance that these initiatives will achieve the sales growth and margin improvements for which we have planned, and would not adversely impact our profitability in the future if not met.

If we are unable to meet our business strategy plan, our profitability in the future may be adversely affected.

Our ability to meet our business strategy plan is dependent upon, among other things, our and our franchisees' ability to:

- increase gross sales and operating profits at existing restaurants with food and beverage options and high quality service desired by our guests through successful implementation of strategic initiatives;
- identify adequate sources of capital to fund and finance strategic initiatives, including reimagining of existing restaurants, new restaurant development and new equipment;
- identify available, suitable and economically viable locations for new restaurants;
- obtain all required governmental permits (including zoning approvals and liquor licenses) on a timely basis;
- hire all necessary contractors and subcontractors, obtain construction materials at suitable prices, and maintain construction schedules; and
- hire and train or retain qualified managers and team members for existing and new restaurants.

The current slow economic growth could have a material adverse impact on our landlords or other tenants in retail centers in which we or our franchisees are located, which in turn could negatively affect our financial results.

If the slow economic growth continues or returns to prior recessionary levels, our landlords may be unable to obtain financing or remain in good standing under their existing financing arrangements, resulting in failures to pay required construction contributions or satisfy other lease covenants to us. In addition, other tenants at retail centers in which we or our franchisees are located or have executed leases, may fail to open or may cease operations. If our landlords fail to satisfy required co-tenancies, this may result in us or our franchisees terminating leases or delaying openings in these locations. Also, decreases in total tenant occupancy in retail centers in which we are located may affect guest traffic at our restaurants. All of these factors could have a material adverse impact on our operations.

The success of our franchisees is important to our future growth.

We have a significant percentage of system-wide restaurants owned and operated by our franchisees. While our franchise agreements are designed to maintain brand consistency, the franchise relationship reduces our direct day-to-day oversight of these restaurants and may expose us to risks not otherwise encountered if we maintained ownership and control. These risks include

10

franchisee defaults in their obligations to us arising from financial or other difficulties encountered by them, such as payments to us or maintenance and improvements obligations; limitations on enforcement of franchise obligations due to bankruptcy or insolvency proceedings; inability to participate in business strategy changes due to financial constraints; inability to meet rent obligations on leases on which we retain contingent liability; and failure to comply with food quality and preparation requirements subjecting us to litigation even when we are not legally liable for a franchisee's actions or failure to act.

Additionally our international franchisees and joint venture partners are subject to risks not encountered by our domestic franchisees. These risks include:

- difficulties in achieving consistency of product quality and service as compared to U.S. operations;
- changes to recipes and menu offerings to meet cultural norms;
- challenges to obtain adequate and reliable supplies necessary to provide menu items and maintain food quality; and
- differences, changes or uncertainties in economic, regulatory, legal, cultural, social and political conditions.

Our sales volumes generally decrease in winter months in North America.

Our sales volumes fluctuate seasonally and are generally higher in the summer months and lower in the winter months, which may cause seasonal fluctuations in our operating results.

Unfavorable publicity relating to one or more of our restaurants in a particular brand may taint public perception of the brand.

Multi-unit restaurant businesses can be adversely affected by publicity resulting from poor food quality, illness or health concerns or operating issues stemming from one or a limited number of restaurants. In particular, since we depend heavily on the Chili's brand for a majority of our revenues, unfavorable publicity relating to one or more Chili's restaurants could have a material adverse effect on the Chili's brand, and consequently on our business, financial condition and results of operations. The speed at which negative publicity (whether or not accurate) can be disseminated has increased dramatically with the capabilities of electronic communication, including social media. If we are unable to quickly and effectively respond to such reports, we may suffer declines in guest traffic which could materially impact our financial performance.

Our inability or failure to recognize, respond to and effectively manage the accelerated impact of social media could materially adversely impact our business.

There has been a marked increase in the use of social media platforms and similar devices which allow individuals access to a broad audience of consumers and other interested persons. Many social media platforms immediately publish the content their subscribers and participants can post, often without filters or checks on accuracy of the content posted. Information posted on such platforms at any time may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects, or business. The harm may be immediate without affording us an opportunity for redress or correction. The dissemination of information online could harm our business, prospects, financial condition, and results of operations, regardless of the information's accuracy.

Many of our competitors are expanding their use of social media and new social media platforms are rapidly being developed, potentially making more traditional social media platforms obsolete. As a result, we need to continuously innovate and develop our social media strategies in order to maintain broad appeal with guests and brand relevance. As part of our marketing efforts, we rely on search engine marketing and social media platforms to attract and retain guests. We have initiated a multi-year effort to implement new technology platforms that will allow us to digitally engage with our guests and employees and strengthen our marketing and analytics capabilities in this increasingly connected society. The initiatives may not be successful, resulting in expenses incurred without the benefit of higher revenues, increased employee engagement or brand recognition. In addition, a variety of risks are associated with the use of social media, including the improper disclosure of proprietary information, negative comments about us, exposure of personally identifiable information, fraud, or out-of-date information. The inappropriate use of social media vehicles by our guests or employees could increase our costs, lead to litigation or result in negative publicity that could damage our reputation.

Litigation could have a material adverse impact on our business and our financial performance.

We are subject to lawsuits, administrative proceedings and claims that arise in the regular course of business. These matters typically involve claims by guests, team members and others regarding issues such as food borne illness, food

safety, premises liability, compliance with wage and hour requirements, work-related injuries, discrimination, harassment, disability and other operational issues common to the foodservice industry, as well as contract disputes and intellectual property infringement matters. We could be adversely affected by negative publicity and litigation costs resulting from these claims, regardless of their validity.

Significant legal fees and costs in complex class action litigation or an adverse judgment or settlement that is not insured or is in excess of insurance coverage could have a material adverse effect on our financial position and results of operations.

We are dependent on information technology and any material failure in the operation or security of that technology or our ability to execute a comprehensive business continuity plan could impair our ability to efficiently operate our business.

We rely on information systems across our operations, including, for example, point-of-sale processing in our restaurants, management of our supply chain, collection of cash, payment of obligations and various other processes and procedures. Our ability to efficiently manage our business depends significantly on the reliability and capacity of these systems. The failure of these systems to operate effectively, problems with maintenance, upgrading or transitioning to replacement systems, or a breach in security of these systems could cause delays in customer service and reduce efficiency in our operations. A security breach or cyber attack could include theft of credit card data or other personal information as well as our intellectual property. Significant capital investments might be required to remediate any problems.

Additionally, our corporate systems and processes and corporate support for our restaurant operations are handled primarily at our restaurant support center. We have disaster recovery procedures and business continuity plans in place to address most events of a crisis nature, including tornadoes and other natural disasters, and back up and off-site locations for recovery of electronic and other forms of data and information. However, if we are unable to fully implement our disaster recovery plans, we may experience delays in recovery of data, inability to perform vital corporate functions, tardiness in required reporting and compliance, failures to adequately support field operations and other breakdowns in normal communication and operating procedures that could have a material adverse effect on our financial condition, results of operation and exposure to administrative and other legal claims.

Failure to protect the integrity and security of individually identifiable data of our guests and teammates and confidential and proprietary information of the company could damage our reputation and expose us to loss of revenues and litigation.

We receive and maintain certain personal information about our guests and team members in our information technology systems, such as point-of-sale, web and mobile platforms, including our rewards program. Additionally our systems contain proprietary and confidential information related to our business. Use of this information is regulated at the federal and state levels, as well as by certain third party contracts. If our or our business associates' information systems are compromised as a result of a cyber attack or other external or internal method, or we fail to comply with applicable laws and regulations, it could result in a violation of the laws and regulations, and an adverse and material impact on our reputation, operations, results of operations and financial condition. Such security breaches could also result in litigation or governmental investigation against us or the imposition of penalties. These impacts could also occur if we are perceived either to have had an attack, failure or to have failed to properly respond to an incident. Like many other retail companies, we experience frequent attempts to compromise our systems but none have resulted in a material breach. As privacy and information security laws and regulations change or cyber risks evolve pertaining to data, we may incur additional costs in technology, third party services and personnel to remain in compliance and maintain systems designed to anticipate and prevent cyber attacks. Our security frameworks prevent breaches of our systems and data loss, but these measures cannot provide assurance that we will be successful in preventing such breaches or data loss.

Failure to protect our service marks or other intellectual property could harm our business.

We regard our Chili's® and Maggiano's® service marks, and other service marks and trademarks related to our restaurant businesses, as having significant value and being important to our marketing efforts. We rely on a combination of protections provided by contracts, copyrights, patents, trademarks, service marks and other common law rights, such as trade secret and unfair competition laws, to protect our restaurants and services from infringement. We have registered certain trademarks and service marks in the United States and foreign jurisdictions. However, we are aware of names and marks identical or similar to our service marks being used from time to time by other persons. Although our policy is to oppose any such infringement, further or unknown unauthorized uses or other

misappropriation of our trademarks or service marks could diminish the value of our brands and adversely affect our business. In addition, effective intellectual property protection may not be available in every country in which we have or intend to open or franchise a restaurant. Although we believe we have taken appropriate measures to protect our intellectual property, there can be no assurance that these protections will be adequate, and defending or enforcing our service marks and other intellectual property could result in the expenditure of significant resources.

We outsource certain business processes to third-party vendors that subject us to risks, including disruptions in business and increased costs.

Some business processes are currently outsourced to third parties. Such processes include certain information technology processes, gift card tracking and authorization, credit card authorization and processing, insurance claims processing, certain

payroll processing, tax filings and other accounting processes. We also continue to evaluate our other business processes to determine if additional outsourcing is a viable option to accomplish our goals. We make a diligent effort to ensure that all providers of outsourced services are observing proper internal control practices, such as redundant processing facilities and adequate security frameworks to guard against breaches or data loss; however, there are no guarantees that failures will not occur. Failure of third parties to provide adequate services could have an adverse effect on our results of operations, financial condition or ability to accomplish our financial and management reporting.

Disruptions in the global financial markets may adversely impact the availability and cost of credit and consumer spending patterns.

Previous disruptions to the global financial markets and continuing slow economic recovery have adversely impacted the availability of credit already arranged and the availability and cost of credit in the future. The disruptions in the financial markets also had an adverse effect on the U.S. and world economy, which has negatively impacted consumer spending patterns. There can be no assurance that various U.S. and world government present and future responses to the previous disruptions in the financial markets will restore consumer confidence, stabilize the markets or increase liquidity or the availability of credit.

Declines in the market price of our common stock or changes in other circumstances that may indicate an impairment of goodwill could adversely affect our financial position and results of operations.

We perform our annual goodwill impairment test in the second quarter of each fiscal year. Interim goodwill impairment tests are also required when events or circumstances change between annual tests that would more likely than not reduce the fair value of our reporting units below their carrying value. It is possible that a change in circumstances such as the decline in the market price of our common stock or changes in consumer spending levels, or in the numerous variables associated with the judgments, assumptions and estimates made in assessing the appropriate valuation of our goodwill, could negatively impact the valuation of our brands and create the potential for a non-cash charge to recognize impairment losses on some or all of our goodwill. If we were required to write down a portion of our goodwill and record related non-cash impairment charges, our financial position and results of operations would be adversely affected.

Changes to estimates related to our property and equipment, or operating results that are lower than our current estimates at certain restaurant locations, may cause us to incur impairment charges on certain long-lived assets. We make certain estimates and projections with regards to individual restaurant operations, as well as our overall performance in connection with our impairment analyses for long-lived assets. An impairment charge is required when the carrying value of the asset exceeds the estimated fair value. The projection of future cash flows used in this analysis requires the use of judgment and a number of estimates and projections of future operating results. If actual results differ from our estimates, additional charges for asset impairments may be required in the future. If impairment charges are significant, our financial position and results of operations could be adversely affected.

Identification of material weakness in internal control over financial reporting may adversely affect our financial results.

We are subject to the ongoing internal control provisions of Section 404 of the Sarbanes-Oxley Act of 2002. Those provisions provide for the identification of material weaknesses in internal control over financial reporting. If such a material weakness is identified, it could indicate a lack of adequate controls to generate accurate financial statements. We routinely assess our internal control over financial reporting, but we cannot assure you that we will be able to timely remediate any material weaknesses that may be identified in future periods, or maintain all of the controls necessary for continued compliance. Likewise, we cannot assure you that we will be able to retain sufficient skilled finance and accounting team members, especially in light of the increased demand for such individuals among publicly traded companies.

Other risk factors may adversely affect our financial performance.

Other risk factors that could cause our actual results to differ materially from those indicated in the forward-looking statements by affecting, among many things, pricing, consumer spending and consumer confidence, include, without limitation, changes in economic conditions and financial and credit markets (including rising interest rates and costs for consumers and reduced disposable income); credit availability; increased costs of food commodities; increased

fuel costs and availability for our team members, customers and suppliers; increased health care costs; health epidemics or pandemics or the prospects of these events; consumer perceptions of food safety; changes in consumer tastes and behaviors; governmental monetary policies; changes in demographic trends; availability of employees; terrorist acts; energy shortages and rolling blackouts; and weather (including, major hurricanes and regional winter storms) and other acts of God.

Item 1B. UNRESOLVED STAFF COMMENTS.

None.

Item 2. PROPERTIES.

Restaurant Locations

At June 24, 2015, our system of company-owned and franchised restaurants included 1,629 restaurants located in 49 states and Washington, D.C. We also have restaurants in the U.S. territories of Guam and Puerto Rico and the countries of Bahrain, Canada, Colombia, Costa Rica, Dominican Republic, Ecuador, Egypt, El Salvador, Germany, Guatemala, Honduras, India, Indonesia, Japan, Jordan, Kuwait, Lebanon, Malaysia, Mexico, Oman, Peru, Philippines, Qatar, Saudi Arabia, Singapore, South Korea, Taiwan, United Arab Emirates and Venezuela. We have provided you a breakdown of our portfolio of restaurants in the two tables below:

Table 1: Company-owned vs. franchise (by brand) as of June 24, 2015:

Chili's	
Company-owned (domestic)	826
Company-owned (international)	13
Franchise	741
Maggiano's	
Company-owned	49
Total	1,629

Table 2: Domestic vs. foreign locations (by brand) as of June 24, 2015 (company-owned and franchised):

	Domestic (No. of States)	Foreign (No. of countries and U.S. territories)
Chili's	1,259(49)	321(31)
Maggiano's	49(21 & D.C.)	—

Restaurant Property Information

The following table illustrates the approximate dining capacity for each current prototypical restaurant in our restaurant brands:

	Chili's	Maggiano's
Square Feet	3,930-6,000	7,700-24,000
Dining Seats	150-252	200-700
Dining Tables	35-54	35-150

At June 24, 2015, we owned the land and building for 188 of our 888 company-owned restaurant locations (domestic and international). For these 188 restaurant locations, the net book value for the land was \$142 million and for the buildings was \$113 million. For the remaining 700 restaurant locations leased by us, the net book value of the buildings and leasehold improvements was \$533 million. The 700 leased restaurant locations can be categorized as follows: 569 are ground leases (where we lease land only, but own the building) and 131 are retail leases (where we lease the land/retail space and building). We believe that our properties are suitable, adequate, well-maintained and sufficient for the operations contemplated. Some of our leased restaurants are leased for an initial lease term of five to 30 years, with renewal terms of one to 30 years. The leases typically provide for a fixed rental plus percentage rentals based on sales volume.

Other Properties

We own an office building containing approximately 108,000 square feet which we use for part of our corporate headquarters and menu development activities. We lease an additional office complex containing approximately 198,000 square feet for the remainder of our corporate headquarters which is currently utilized by us, reserved for future expansion of our headquarters, or sublet to third parties. We also lease office space in Florida for use as a regional operations office. The size of this office space is approximately 4,000 square feet. Effective as of Fiscal 2016, and in connection with the purchase of Pepper Dining Holding Corp., there are two short-term regional office leases. One is located in Charlotte, North Carolina, and the other is in Providence, Rhode Island. These offices are approximately 1,600 square feet and approximately 1,955 square feet, respectively.

Item 3. LEGAL PROCEEDINGS.

Evaluating contingencies related to litigation is a complex process involving subjective judgment on the potential outcome of future events and the ultimate resolution of litigated claims may differ from our current analysis. Accordingly, we review the adequacy of accruals and disclosures pertaining to litigated matters each quarter in consultation with legal counsel and we assess the probability and range of possible losses associated with contingencies for potential accrual in the consolidated financial statements.

In August 2004, certain current and former hourly restaurant team members filed a putative class action lawsuit against us in California Superior Court alleging violations of California labor laws with respect to meal periods and rest breaks, styled as Hohnbaum, et al. v. Brinker Restaurant Corporation, et al.

On August 6, 2014, the parties reached a preliminary settlement agreement, which remained subject to court approval, to resolve all claims in exchange for a settlement payment not to exceed \$56.5 million. On December 12, 2014, the court granted final approval of the settlement agreement. In February 2015, we funded the settlement in the amount of \$44.0 million against our previously established reserve. We do not expect any further payments related to this matter.

We are engaged in various other legal proceedings and have certain unresolved claims pending. Reserves have been established based on our best estimates of our potential liability in certain of these matters. We are of the opinion that, apart from the discussion above, there are no matters pending or threatened which are likely to have a material adverse effect, individually or in the aggregate, on our consolidated financial condition or results of operations.

Item 4. MINE SAFETY DISCLOSURES.

Not applicable.

PART II

Item 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Our common stock is traded on the New York Stock Exchange ("NYSE") under the symbol "EAT". Bid prices quoted represent inter-dealer prices without adjustment for retail markup, markdown and/or commissions, and may not necessarily represent actual transactions. The following table sets forth the quarterly high and low closing sales prices of the common stock, as reported by the NYSE.

Fiscal year ended June 24, 2015:

	High	Low
First Quarter	\$51.77	\$44.16
Second Quarter	\$58.93	\$49.55
Third Quarter	\$63.12	\$57.43
Fourth Quarter	\$61.82	\$54.04

Fiscal year ended June 25, 2014:

	High	Low
First Quarter	\$43.74	\$38.19
Second Quarter	\$47.37	\$38.87
Third Quarter	\$55.00	\$44.77
Fourth Quarter	\$53.55	\$48.04

As of August 10, 2015, there were 524 holders of record of our common stock.

During the fiscal year ended June 24, 2015, we continued to declare quarterly cash dividends for our shareholders. We have set forth the dividends declared for the fiscal year in the following table on the specified dates:

Dividend Per Share of Common Stock	Declaration Date	Record Date	Payment Date
\$0.28	August 21, 2014	September 5, 2014	September 25, 2014
\$0.28	October 30, 2014	December 5, 2014	December 26, 2014
\$0.28	February 5, 2015	March 6, 2015	March 26, 2015
\$0.28	May 21, 2015	June 12, 2015	June 25, 2015

The graph below matches Brinker International, Inc.'s cumulative 5-Year total shareholder return on common stock with the cumulative total returns of the S&P 500 index and the S&P Restaurants index.

The graph assumes a \$100 initial investment and the reinvestment of dividends in our stock and each of the indexes on June 30, 2010 and its relative performance is tracked through June 24, 2015. The values shown are neither indicative nor determinative of future performance.

	2010	2011	2012	2013	2014	2015
Brinker International	\$ 100.00	\$ 174.00	\$ 221.76	\$ 287.55	\$ 386.66	\$ 446.25
S&P 500	\$ 100.00	\$ 130.69	\$ 137.81	\$ 166.20	\$ 207.10	\$ 222.47
S&P Restaurants(1)	\$ 100.00	\$ 140.12	\$ 162.68	\$ 213.15	\$ 213.15	\$ 242.78

The S&P Restaurants Index is comprised of Chipotle Mexican Grill, Inc., Darden Restaurants, Inc., McDonald's Corp., Starbucks Corporation and Yum! Brands, Inc.

In May 2013, the Company issued \$250.0 million in the aggregate principal amount at maturity of 2.600% Notes due 2018 (the "2018 Notes") and \$300.0 million in the aggregate principal amount at maturity of 3.875% Notes due 2023 (the "2023 Notes", and together with the 2018 Notes, the "Notes"). J.P. Morgan Securities LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated served as the joint book-running managers for the offering. The Notes were issued in a public offering pursuant to a registration statement on Form S-3, File No. 333-188252, and are freely tradeable. The Notes are redeemable at the Company's option at any

time, in whole or in part. The proceeds of the offering were used for general corporate purposes, including the redemption of the 5.75% notes due June 2014, pay down of the revolver and the repurchase of the Company's common stock pursuant to its share repurchase program.

During the three-year period ended on August 10, 2015, we issued no securities which were not registered under the Securities Act of 1933, as amended.

We continue to maintain our share repurchase program; on August 21, 2014, our Board of Directors increased our share repurchase authorization by \$350 million, bringing the total authorization to \$3,935 million. During the fourth quarter, we repurchased shares as follows (in thousands, except share and per share amounts):

	Total Number of Shares Purchased(a)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value that May Yet be Purchased Under the Program(b)
March 26, 2015 through April 29, 2015	926,991	\$60.62	926,000	\$ 393,554
April 30, 2015 through May 27, 2015	148,170	\$55.59	148,000	\$ 385,324
May 28, 2015 through June 24, 2015	440,878	\$56.20	440,594	\$ 360,554
Total	1,516,039	\$58.84	1,514,594	

(a) These amounts include shares purchased as part of our publicly announced programs and shares owned and tendered by team members to satisfy tax withholding obligations on the vesting of restricted share awards, which are not deducted from shares available to be purchased under publicly announced programs. Unless otherwise indicated, shares owned and tendered by team members to satisfy tax withholding obligations were purchased at the average of the high and low prices of the Company's shares on the date of vesting. During the fourth quarter of fiscal 2015, 1,445 shares were tendered by team members at an average price of \$59.90.

(b) The final amount shown is as of June 24, 2015.

Item 6. SELECTED FINANCIAL DATA.

The information set forth in that section entitled "Selected Financial Data" in our 2015 Annual Report to Shareholders is presented on page F-1 of Exhibit 13 to this document. We incorporate that information in this document by reference.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The information set forth in that section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2015 Annual Report to Shareholders is presented on pages F-2 through F-13 of Exhibit 13 to this document. We incorporate that information in this document by reference.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

The information set forth in that section entitled "Quantitative and Qualitative Disclosures About Market Risk" contained within "Management's Discussion and Analysis of Financial Condition and Results of Operations" is in our 2015 Annual Report to Shareholders presented on page F-13 of Exhibit 13 to this document. We incorporate that information in this document by reference.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

We refer you to the Index to Financial Statements attached hereto on page 22 for a listing of all financial statements in our 2015 Annual Report to Shareholders. This report is attached as part of Exhibit 13 to this document. We incorporate those financial statements in this document by reference.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

Item 9A. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

Based on their evaluation of our disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934 [the “Exchange Act”]), as of the end of the period covered by this Annual Report on Form 10-K, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were effective.

Management’s Report on Internal Control over Financial Reporting

“Management’s Report on Internal Control over Financial Reporting” and the attestation report of the independent registered public accounting firm of KPMG LLP on internal control over financial reporting are in our 2015 Annual Report to Shareholders and are presented on pages F-35 through F-37 of Exhibit 13 to this document. We incorporate our report in this document by reference.

Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during our fourth quarter ended June 24, 2015, that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. OTHER INFORMATION.

None.

PART III

Item 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

If you would like information about:

• our executive officers,

• our Board of Directors, including its committees, and

• our Section 16(a) reporting compliance,

you should read the sections entitled “Election of Directors—Information About Nominees”, “Committees of the Board of Directors”, “Executive Officers”, and “Section 16(a) Beneficial Ownership Reporting Compliance” in our Proxy Statement to be dated on or about September 14, 2015, for the annual meeting of shareholders on October 29, 2015. We incorporate that information in this document by reference.

The Board of Directors has adopted a code of ethics that applies to all of the members of Board of Directors and all of our team members, including, the principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. A copy of the code is posted on our internet website at the internet address: http://www.brinker.com/corp_gov/ethical_business_policy.asp. You may obtain free of charge copies of the code from our website at the above internet address. Any amendment of, or waiver from, our code of ethics will be posted on our website within four business days of such amendment or waiver.

Item 11. EXECUTIVE COMPENSATION.

If you would like information about our executive compensation, you should read the section entitled “Executive Compensation—Compensation Discussion and Analysis” in our Proxy Statement to be dated on or about September 14, 2015, for the annual meeting of shareholders on October 29, 2015. We incorporate that information in this document by reference.

Item 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND

RELATED STOCKHOLDER MATTERS.

If you would like information about our security ownership of certain beneficial owners and management and related stockholder matters, you should read the sections entitled “Director Compensation for Fiscal 2015”, “Compensation Discussion and Analysis”, and “Stock Ownership of Certain Persons” in our Proxy Statement to be dated on or about September 14, 2015, for the annual meeting of shareholders on October 29, 2015. We incorporate that information in this document by reference.

Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE. If you would like information about certain relationships and related transactions, you should read the section entitled “Compensation Committee Interlocks and Insider Participation” in our Proxy Statement to be dated on or about September 14, 2015, for the annual meeting of shareholders on October 29, 2015. We incorporate that information in this document by reference.

If you would like information about the independence of our non-management directors and the composition of the Audit Committee, Compensation Committee and Governance and Nominating Committee, you should read the sections entitled “Director Independence” and “Committees of the Board of Directors” in our Proxy Statement to be dated on or about September 14, 2015, for the annual meeting of shareholders on October 29, 2015. We incorporate that information in this document by reference.

Item 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

If you would like information about principal accountant fees and services, you should read the section entitled “Ratification of Independent Auditors” in our Proxy Statement to be dated on or about September 14, 2015, for the annual meeting of shareholders on October 29, 2015. We incorporate that information in this document by reference.

PART IV

Item 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES.

(a)(1) Financial Statements.

We make reference to the Index to Financial Statements attached to this document on page 22 for a listing of all financial statements attached as Exhibit 13 to this document.

(a)(2) Financial Statement Schedules.

All schedules are omitted as the required information is inapplicable or the information is presented in the financial statements or related notes.

(a)(3) Exhibits.

We make reference to the Index to Exhibits preceding the exhibits attached hereto on pages E-1 for a list of all exhibits filed as a part of this document.
