Exhibit 99.1

AMERISERV FINANCIAL REPORTS EARNINGS FOR THE FIRST QUARTER OF 2009

JOHNSTOWN, PA AmeriServ Financial, Inc. (NASDAQ: ASRV) reported first quarter 2009 net income of \$533,000 or \$0.01 per diluted common share. This represents a decrease of \$696,000 from the first quarter 2008 net income of \$1,229,000 or \$0.06 per diluted common share. The following table highlights the Company's financial performance for the quarters ended March 31, 2009 and 2008:

	First Quarter 2009	First Quarter 2008	\$ Change	% Change
Net income	\$533,000	\$1,229,000	(\$696,000)	(56.6 %)
Diluted earnings per share	\$ 0.01	\$ 0.06	(\$ 0.05)	(83.3%)

Allan R. Dennison, President and Chief Executive Officer, commented on the first quarter 2009 financial results, AmeriServ Financial generated strong loan and deposit growth during the first quarter of 2009 which led to increased net interest income and margin performance. However, this difficult economic environment has led us to further strengthen our allowance for loan losses which was the primary factor causing the decline in earnings between periods. Overall our asset quality continues to be good by industry standards with non-performing assets amounting to \$5.1 million or 0.70% of total loans and net charge-offs for the first quarter of 2009 totaling \$49,000 or 0.03% of total loans.

The Company's net interest income in the first quarter of 2009 increased by \$1.4 million or 20.9% from the prior year's first quarter and the net interest margin was up by 40 basis points to 3.72% over the same comparative period. The increased net interest income and margin resulted from a combination of good balance sheet growth and the pricing benefits achieved from a steeper positively sloped yield curve. Specifically, total loans averaged \$714 million in the first quarter of 2009, an increase of \$80 million or 12.7% over the first quarter of 2008. The loan growth was driven by increased commercial and commercial real-estate loan production. Total deposits averaged \$715 million in the first quarter of 2009, an increase of \$20 million or 2.9% over the same 2008 quarter. The Company believes that uncertainties in the financial markets and the economy have contributed to growth in both money market and demand deposits as consumers have looked for safety in well capitalized community banks like AmeriServ Financial. Additionally, the Company also benefited from a favorable decline in interest expense caused by the more rapid downward repricing of both deposits and Federal Home Loan Bank borrowings due to the market decline in short-term interest rates.

The Company recorded a \$1.8 million provision for loan losses in the first quarter of 2009 compared to a \$150,000 provision in the first quarter of 2008, or an increase of \$1.65 million. When determining the provision for loan losses,

the Company considers a number of factors some of which include periodic credit reviews, delinquency and charge-off trends, concentrations of credit, loan volume trends and broader local and national economic trends. The higher loan provision in the first quarter of 2009 was caused by the Company's decision to strengthen its allowance for loan losses due to the downgrade of the rating classification of one large performing commercial loan and uncertainties in the local and national economies. The Company's net charge-offs in the first quarter of 2009 amounted to only \$49,000 or 0.03% of total loans. This amount was comparable with the net charge-offs of \$93,000 or 0.06% of total loans experienced in the first quarter of 2008. Non-performing assets increased moderately to \$5.1 million or 0.70% of total loans at March 31, 2009 compared to \$4.6 million or 0.65% of total loans at December 31, 2008. Overall, the allowance for loan losses provided 209% coverage of non-performing assets and was 1.47% of total loans at March 31, 2009 compared to 195% of non-performing assets and 1.26% of total loans at December 31, 2008. Note also that the Company has no direct exposure to sub-prime mortgage loans in either the loan or investment portfolios.

The Company's non-interest income in the first quarter of 2009 decreased by \$277,000 or 7.2% from the first quarter of 2008. The quarterly decrease was primarily due to a \$320,000 decline in trust and investment advisory fees due to reductions in the market value of assets managed due to lower equity and real estate values in the first quarter of 2009.

These negative items were partially offset by increased gains on asset sales. Specifically, gains realized on residential mortgage sales into the secondary market increased by \$29,000 or 32.6% due to increased mortgage purchase and refinance activity in the Company's primary market. The Company also took advantage of market opportunities and generated \$101,000 of gains on the sale of investment securities in order to provide additional liquidity to fund the strong loan growth.

Total non-interest expense in the first quarter of 2009 increased by \$383,000 or 4.4% from the prior year's first quarter. Total salaries and benefits expense increased by \$262,000 or 5.4% due greater incentive compensation and health care costs. The other main factor causing the increase in non-interest expense was a \$151,000 increase in professional fees. The increased professional fees resulted primarily from higher legal, consulting and other professional fees in the first quarter of 2009.

ASRV had total assets of \$975 million and shareholders' equity of \$114 million or a book value of \$4.44 per common share at March 31, 2009. The Company's asset leverage ratio remained strong at 11.82% and the Company had a tangible common equity to tangible assets ratio of 8.35% at March 31, 2009.

This news release may contain forward-looking statements that involve risks and uncertainties, as defined in the Private Securities Litigation Reform Act of 1995, including the risks detailed in the Company's Annual Report and Form 10-K to the Securities and Exchange Commission. Actual results may differ materially.
