INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Why am I receiving these materials?

The Company has delivered printed versions of these materials to you by mail, in connection with the Company's solicitation of proxies for use at the Annual Meeting. These materials describe the proposals on which the Company would like you to vote and also give you information on these proposals so that you can make an informed decision.

What is included in these materials?

These materials include:

- this Proxy Statement for the Annual Meeting; and
- the Company's Annual Report on Form 10-K/A for the fiscal year ended September 30, 2012; and
- the Proxy Card or vote instruction form for the Annual Meeting.

We hereby incorporate by reference into this Proxy Statement All other Reports and other documents filed by the Company pursuant to Section 13(e) or 15(d) of the Exchange Act subsequent to September 30, 2012 and prior to the date of the Meeting or such later date or dates to which the Meeting may be adjourned.

What is the Proxy Card?

The Proxy Card enables you to appoint Tom M. Djokovich, our Chief Executive Officer and Member of the Board of Directors, as your representative at the Annual Meeting. By completing and returning a Proxy Card, you are authorizing Mr. Djokovich to vote your shares at the Annual Meeting in accordance with your instructions on the Proxy Card. This way, your shares will be voted whether or not you attend the Annual Meeting.

What is the purpose of the Annual Meeting?

At our Annual Meeting, stockholders will act upon the matters outlined in the Notice of Annual Meeting on the cover page of this Proxy Statement, including (i) the election of five persons named herein as nominees for directors of the Company, to hold office subject to the provisions of the Bylaws of the Company, until the next annual meeting of stockholders and until their successors are duly elected and qualified, (ii) ratification of the appointment of HJ Associates & Consultants, LLP as the Company's independent auditors for the fiscal year ending September 30, 2013, (iii) approval of an amendment to the articles of incorporation of the Company to increase the Company's authorized shares of common stock from 500,000,000 to 2,000,000,000.

What constitutes a quorum?

The presence at the meeting, in person or by proxy, of the holders of a majority of the number of shares of common stock issued and outstanding on the record date will constitute a quorum permitting the meeting to conduct its business. We anticipate that as of the record date, there will be 365,668,449 shares of our common stock issued and outstanding. Thus, the presence of the holders of 182,834,226 issued and outstanding shares of common stock will be required to establish a quorum.

What is the difference between a stockholder of record and a beneficial owner of shares held in street name?

Most of our stockholders hold their shares in an account at a brokerage firm, bank or other nominee holder, rather than holding share certificates in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially in street name.

Stockholder of Record

If on June 3, 2013, your shares were registered directly in your name with our transfer agent, Pacific Island Stock Transfer, you are considered a stockholder of record with respect to those shares, and the Notice of Annual Meeting and Proxy Statement was sent directly to you by the Company. As the stockholder of record, you have the right to direct the voting of your shares by returning the Proxy Card to us. Whether or not you plan to attend the Annual Meeting, if you do not vote over the Internet, please complete, date, sign and return a Proxy Card to ensure that your vote is counted.

If on June 3, 2013, your shares were held in an account at a brokerage firm, bank, broker-dealer, or other nominee holder, then you are considered the beneficial owner of shares held in "street name," and the Notice of Annual Meeting and Proxy Statement was forwarded to you by that organization. The organization holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. As the beneficial owner, you have the right to direct that organization on how to vote the shares held in your account. However, since you are not the stockholder of record, you may not vote these shares in person at the Annual Meeting unless you receive a valid proxy from the organization.

How do I vote?

Stockholders of Record. If you are a stockholder of record, you may vote by any of the following methods:

- *Via the Internet.* You may vote by proxy via the Internet by following the instructions provided on the enclosed Proxy Card.

- *By Telephone.* You may vote by calling the toll free number found on the Proxy Card.

- *By Mail.* You may vote by completing, signing, dating and returning your Proxy Card in the pre-addressed, postage-paid envelope provided.

- *In Person.* You may attend and vote at the Annual Meeting. The Company will give you a ballot when you arrive.

Beneficial Owners of Shares Held in Street Name. If you are a beneficial owner of shares held in street name, you may vote by any of the following methods:

· *Via the Internet.* You may vote by proxy via the Internet by following the instructions provided on the enclosed Proxy Card.

· *By Telephone.* You may vote by proxy by calling the toll free number found on the vote instruction form.

· *By Mail.* You may vote by proxy by filling out the vote instruction form and returning it in the pre-addressed, postage-paid envelope provided.

· *In Person.* If you are a beneficial owner of shares held in street name and you wish to vote in person at the Annual Meeting, you must obtain a legal proxy from the organization that holds your shares.

Abstentions and broker non-votes

While the inspectors of election will treat shares represented by Proxies that reflect abstentions or include “broker non-votes” as shares that are present and entitled to vote for purposes of determining the presence of a quorum. Abstentions or “broker non-votes” do not constitute a vote “for” or “against” any matter and thus will be disregarded in any calculation of “votes cast.” However, abstentions and “broker non-votes” will have the effect of a negative vote if an item requires the approval of a majority of a quorum or of a specified proportion of all issued and outstanding shares.

Brokers holding shares of record for customers generally are not entitled to vote on “non-routine” matters, unless they receive voting instructions from their customers. As used herein, “uninstructed shares” means shares held by a broker who has not received voting instructions from its customers on a proposal. A “broker non-vote” occurs when a nominee holding uninstructed shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that non-routine matter. In connection with the treatment of abstentions and broker non-votes, the proposed increase in authorized shares of common stock are not considered “routine” matters. Accordingly, brokers are not entitled to vote uninstructed shares with respect to these proposals.

What happens if I do not give specific voting instructions?

Shareholders of Record. If you are a stockholder of record and you:

- indicate when voting on the Internet or by telephone that you wish to vote as recommended by the Board of Directors, or

- sign and return a Proxy Card without giving specific voting instructions,

then the proxy holder will vote your shares in the manner recommended by the Board of Directors on all matters presented in this proxy statement and as the proxy holder may determine in his discretion with respect to any other matters properly presented for a vote at the Annual Meeting.

Beneficial Owners of Shares Held in Street Name. If you are a beneficial owner of shares held in street name and do not provide the organization that holds your shares with specific voting instructions, under the rules of various national and regional securities exchanges, the organization that holds your shares may generally vote on routine matters, but cannot vote on non-routine matters such as the proposed increase in authorized shares of common stock.

What are the Board’s recommendations?

The Board’s recommendation is set forth together with the description of each item in this Proxy Statement. In summary, the Board recommends a vote:

· *for approval of the election of five persons named herein as nominees for directors of the Company, to hold office subject to the provisions of the Bylaws of the Company, until the next annual meeting of stockholders and until their successors are duly elected and qualified;*

· *for ratification of the appointment of HJ Associates & Consultants, LLP as the Company's independent auditors for the fiscal year ending September 30, 2013; and*

· *for approval of an amendment to the articles of incorporation of the Company to increase the number of authorized shares of common stock from 500,000,000 to 2,000,000,000.*

With respect to any other matter that properly comes before the meeting, the proxy holder will vote as recommended by the Board of Directors or, if no recommendation is given, in his own discretion.

Dissenters' Right of Appraisal

Holders of shares of our common stock do not have appraisal rights under Colorado law or under the governing documents of the Company in connection with this solicitation.

How are Proxy materials delivered to households?

Only one copy of this Proxy Statement will be delivered to an address where two or more stockholders reside with the same last name or who otherwise reasonably appear to be members of the same family based on the stockholders' prior express or implied consent.

We will deliver promptly upon written or oral request a separate copy of this Proxy Statement upon such request. If you share an address with at least one other stockholder, currently receive one copy of our Proxy Statement at your residence, and would like to receive a separate copy of our Proxy Statement for future stockholder meetings of the Company, please specify such request in writing and send such written request to XsunX, Inc., 65 Enterprise, Aliso Viejo CA 92656; Attention: Corporate Secretary.

As a result, the actual amount of time which they will devote to the Company's affairs is unknown and is likely to vary substantially from month to month.

Director Nominations

Part of our Board's duties is to screen and nominate candidates considered for election to our Board. In this capacity, it concerns itself with the composition of the Board with respect to depth of experience, balance of

professional interests, required expertise and other factors. The Board evaluates prospective nominees identified on its own initiative or referred to it by other Board members, management, stockholders or external sources and all self-nominated candidates. The Board uses the same criteria for evaluating candidates nominated by stockholders and self-nominated candidates as it does for those proposed by other Board members, management and search companies.

The Board values diversity as a factor in selecting individuals nominated to serve on the Board. Although the Board prefers a mix of backgrounds and experience among its members, it does not follow any ratio or formula to determine the appropriate mix, nor is there any specific policy on diversity. The Board uses its judgment to identify nominees whose backgrounds, attributes and experiences, taken as a whole, will contribute to a high standard of service for the Board.

EXECUTIVE COMPENSATION

We are a development stage Company and we rely on our board of directors to evaluate compensation and incentive offerings made by the Company as it applies to our executive officers, and efforts to attract and maintain qualified staff. To date, our compensation policy has been conducted on a case by case basis with input from our chief executive officer, and focused on the following four primary areas; (a) first the Company's commitment capabilities within the scope of objectives and capital capabilities, (b) salary compensatory with peer group companies and peer position, (c) cash bonuses tied to sales and revenue attainment, and (d) long term equity compensation tied to strategic objectives of establishing marketable solar technologies.

In the year ended September 30, 2012 the Company's named executive offices elected to accept reductions to compensation to allow for the re-direction of available capital resources for use in the purchase and assembly of the Company's multi-chamber CIGSolar® thermal co-evaporation system. As a result, initially salaries were reduced effective October 1, 2011 to \$120,000 each annually. Then effective January 1, 2012 salaries were further reduced and/or eliminated to allow further re-direction of available capital resources towards system assembly efforts. Since January 2012, wages have been paid as capital resources have allowed, and as work efforts have been extended to complete the strategic objectives of the Company.

In this Compensation Discussion and Analysis, the individuals in the Summary Compensation Table set forth below are referred to as the “named executive officers”. Generally, the types of compensation and benefits provided to the named executive officers may be similar to what we intend to provide to future executive officers.

At this Annual Meeting, the Board of Directors proposes that the nominees listed below be elected to hold office until the next annual meeting of stockholders and until their successors are duly elected and qualified. All of the nominees are currently serving as directors. All nominees have consented to being named in this Proxy Statement and to serve if elected.

Assuming a quorum is present, the five nominees receiving the highest number of affirmative votes of shares entitled to be voted for such persons will be elected as directors of the Company to hold office until the next annual meeting of stockholders and until their successors are duly elected and qualified. Nominees for election to the Board are proposed by our existing directors. In identifying and evaluating individuals qualified to become Board members, our current directors will consider such factors as they deem appropriate to assist in developing a board of directors and committees thereof that are diverse in nature and comprised of experienced and seasoned advisors. Our Board of Directors has not adopted a formal policy with regard to the consideration of diversity when evaluating candidates for election to the Board. However, our Board believes that membership should reflect diversity in its broadest sense, but should not be chosen nor excluded based on race, color, gender, national origin or sexual orientation. In this context, the Board does consider a candidate's experience, education, industry knowledge and, history with the Company, and differences of viewpoint when evaluating his or her qualifications for election the Board. In evaluating such candidates, the Board seeks to achieve a balance of knowledge, experience and capability in its composition. In connection with this evaluation, the Board determines whether to interview the prospective nominee, and if warranted, one or more directors interview prospective nominees in person or by telephone.

All of the nominees have informed the Company that they are willing to serve, if elected, and management has no reason to believe that any of the nominees will be unavailable. In the event a nominee for director should become unavailable for election, the persons named in the Proxy will vote for the election of any other person who may be recommended and nominated by the Board for the office of director. The persons named in the accompanying Proxy

PROPOSAL NO. 3

APPROVAL OF AMENDMENT TO ARTICLES OF INCORPORATION TO INCREASE OUR AUTHORIZED SHARES OF COMMON STOCK FROM 500,000,000 TO 2,000,000,000

Our Board of Directors has approved, subject to shareholder approval, an amendment to our articles of incorporation to increase our authorized shares of common stock from 500,000,000 to 2,000,000,000, to be effective upon filing of an amendment to the Articles of Incorporation with the Secretary of State of Colorado. If the amendment to increase our authorized shares of common stock is approved by shareholders at the Annual Meeting, we intend to file the amendment to our articles of incorporation as soon as practicable following the Annual Meeting.

The form of certificate of amendment to be filed with the Secretary of State of the State of Colorado is set forth as Appendix A to this Proxy Statement.

Outstanding Shares Purpose of the Proposal

Our articles of incorporation currently authorize us to issue a maximum of 500,000,000 shares of common stock, no par value per share, and 50,000,000 shares of preferred stock with a par value of \$0.01 per share. Our issued and outstanding securities as of June 3, 2013, not including commitments under convertible promissory notes that may convert at various times over the next twelve months are as follows:

- 365,668,449 shares of common stock
- No shares of Preferred Stock
- Approximately \$513,863 in principal amount of notes and debentures (Notes) that, subject to the holder's discretion and the terms of the Notes, may be convertible into shares of common stock by the holder(s). The Notes allow for conversions by the holder(s) at fixed discounts at the time of conversion, but as the trade price for the Company's common stock increases or decreases over time we will be required to issue common stock in amounts necessary to satisfy the conversion obligations at the time of each conversion. At this time the Company anticipates that, in lieu of the Company's ability to redeem for cash any Note prior to its conversion of which there can be no assurance that the Company will have the financial capacity to do so in a timely manner, the Notes will be converted by the

holder(s) resulting in the new issuance by the Company of common stock to satisfy the obligation(s) under the Notes.

·Options to purchase 9,500,000 shares of common stock at a weighted average exercise price of \$.070.

The Board of Directors believes that without the increase in authorized common shares the Company's ability to both satisfy the obligations of additional share issuance under current convertible Notes, and to seek additional equity or debt financing as necessary will be severely limited. Our independent registered public accounting firm has issued their report dated January 11, 2013, that included an explanatory paragraph expressing substantial doubt in our ability to continue as a going concern without additional capital becoming available.

We are a development stage company and subject to the many risk factors disclosed in the Company's Form 10-K/A filed on January 11, 2013. In addition, we operate in a highly competitive and emerging market for photovoltaic manufacturing technologies. The market for our technologies is highly dependent on demand by manufacturers to expand operations and/or invest in new technologies. General industry wide consensus is that between 2012 and 2013 solar manufacturers, in response to rapidly declining solar panel pricing, reduced capital equipment expenditures by approximately 80% from about \$13 billion in 2011 to an estimated \$2.3 billion in 2013. During this period, many of our competitors failed to adapt to these changing conditions and ceased operations, failed, or merged with other companies. In response to these rapidly changing conditions, and with the intent of completing development of our products, management implemented a plan in January 2012 under which salaries

and non-product development cash expenditures were reduced or eliminated to allow for the re-direction of available cash resources for use in the assembly of the Company's multi-chamber CIGSolar® thermal co-evaporation system. Since implementation of these efforts, the Company has recorded approximately \$97,000 in contributed services from management in lieu of salaries for use in operations and CIGSolar® evaporator assembly costs.

The Company has completed the assembly of its initial multi-chamber CIGSolar® thermal co-evaporation system, is working to commercialize the technology, and is engaged in sales efforts. The market data that we have seen indicates that pricing for solar modules has begun to stabilize, and we have begun to see an increase in interest by manufacturers to install or increase production capacity in developing regions. These are encouraging indications of improving market conditions however; our ability to continue to execute under our plan and make our products available will continue to be dependent on our ability finance operations and commercialization efforts of our products until such time that we can generate sales and profits. Our ability to continue as a going concern ultimately is dependent on our ability to commercialize our products and to generate revenues and a profit.

If we are unable to seek additional operating capital through the offer of equity or convertible debt financing or other means, our ability to fund our operations, maintain our efforts necessary to commercialize marketable products or otherwise respond to competitive pressures will be significantly impaired. We would also be forced to curtail our business operations, reduce our investments, decrease or eliminate capital expenditures and delay the execution of our business plan which would have a material adverse effect on our business. It is for these and the other reasons described below that the Board of Directors has presented this proposal and recommends a vote *for* the increase in the number of authorized shares.

Effects of the Increase in Authorized Common Stock

The additional shares of common stock will have the same rights as the presently authorized shares, including the right to cast one vote per share of common stock. Although the authorization of additional shares will not, in itself, have any effect on the rights of any holder of our common stock, the future issuance of additional shares of common stock (other than by way of a stock split or dividend) would have the effect of diluting the voting rights and could have the effect of diluting earnings per share and book value per share of existing shareholders.

Except for the conversion of outstanding convertible securities (which conversion would be at the option of the respective holders), the Company does not currently have any plans, proposal or arrangement to issue any of its authorized but unissued shares of common stock. However, it is possible that some of these additional shares could be used in the future for various other purposes without further shareholder approval, except as such approval may be required in particular cases by our charter documents, applicable law or the rules of any stock exchange or other system on which our securities may then be listed. These purposes may include: raising additional working or investment capital, providing equity incentives to employees, officers or directors, establishing strategic relationships with other companies, and expanding the Company's business or product lines through the acquisition of other

businesses or products.

Future Dilutive Transactions

It is emphasized that management of the Company may affect transactions having a potentially adverse impact upon the Company's stockholders pursuant to the authority and discretion of the Company's management to complete share issuances without submitting any proposal to the stockholders for their consideration. Holders of the Company's securities should not anticipate that the Company necessarily will furnish such holders with any documentation concerning the proposed issuance prior to any share issuances. All determinations (except in some cases involving a merger where the number of shares of common stock of the Company issued will equal more than 20% of the issued and outstanding shares of common stock of the Company prior to the transaction) involving share issuances are in the discretion and business judgment of the Board of Directors in their exercise of fiduciary responsibility, but require a determination by the Board that the shares are being issued for fair and adequate consideration.

The issuance of additional shares in future transactions will allow, the following types of actions or events to occur without the current stockholders being able to effectively prevent such actions or events:

20

1. Dilution may occur due to the issuance of additional shares. The percentage ownership of the Company by the existing stockholders may be diluted by 100%.
2. Control of the Company by stockholders may change due to new issuances.
3. The election of the Board of Directors could be dominated by new large stockholders, effectively blocking current stockholders from electing directors.
4. Business plans and operations may change.
5. Mergers, acquisitions, or divestitures may occur which are approved by the holders of the newly issued shares, though no such opportunities have been identified by the Company at this time.

In the future event that the Board continues to issue shares for capital, services, or acquisitions, the present management and stockholders of the Company most likely will not have control of a majority of the voting shares of the Company. It is likely that the Company may acquire other compatible business opportunities through the issuance of common stock of the Company. Although the terms of any such transaction cannot be predicted, this could result in substantial additional dilution in the equity of those who were stockholders of the Company prior to such issuance. There is no assurance that any future issuance of shares will be approved at a price or value equal to or greater than the price which a prior stockholder has paid, or at a price greater than the then current market price. Typically, unregistered shares are issued at less than market price due to their illiquidity and restricted nature as a result of, among other things, the extended holding period and sales limitations which such shares are subject to.

Possible Anti-Takeover Effects of Increase in Authorized Common Stock

We could also use the additional shares of common stock that will become available for issuance to oppose a hostile takeover attempt or to delay or prevent changes in control or management of the Company. For example, it may be possible for the Board of Directors to delay or impede a takeover or transfer of control of the Company by causing such additional authorized shares to be issued to holders who might side with the Board of Directors in opposing a takeover bid that the Board of Directors determines is not in the best interests of the Company or its stockholders. The proposed increase in authorized shares of common stock therefore may have the effect of discouraging unsolicited takeover attempts. By potentially discouraging initiation of any such unsolicited takeover attempts, the proposed increase in authorized shares of common stock may limit the opportunity for the Company's stockholders to dispose of their shares at the higher price generally available in takeover attempts or that may be available under a merger

proposal. The proposed increase in authorized shares of common stock may have the effect of permitting the Company's current management, including the current Board of Directors, to retain its position, and place it in a better position to resist changes that stockholders may wish to make if they are dissatisfied with the conduct of the Company's business. However, the Board of Directors is not aware of any attempt to take control of the Company and the Board of Directors has not approved the proposed increase in authorized shares of common stock with the intent that it be utilized as a type of anti-takeover device. The Company's articles of incorporation and by-laws do not have any anti-takeover provisions.

Required Vote

The affirmative vote of the holders of a majority of the total issued and outstanding shares of common stock as of the record date is necessary to approve the increase in our authorized shares of common stock.

RECOMMENDATION OF THE BOARD FOR PROPOSAL NO. 3:

THE BOARD RECOMMENDS A VOTE FOR APPROVAL OF THE INCREASE IN AUTHORIZED SHARES OF COMMON STOCK
