Holders of Common Stock of record at the close of business on April 28, 2003 are entitled to notice of and to vote at the Meeting, or any adjournment or adjournments thereof. A complete list of such stockholders will be open to the examination of any stockholder at the Company's principal executive offices at 650 College Road East, Suite 3100, Princeton, New Jersey 08540, for a period of 10 days prior to the Meeting. PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Cytogen Corporation (also referred to in this Proxy

Edgar Filing: CYTOGEN CORP - Form DEF 14A

Statement as the "Company", "Cytogen", "we" or "us") of proxies to be voted at our Annual Meeting of Stockholders to be held on Tuesday, June 10, 2003 at the Radisson Hotel, Route One at Ridge Road, Princeton, New Jersey at 11:00 a.m., local time, and at any adjournment or adjournments thereof. Holders of record of our common stock, \$.01 par value per share, as of the close of business on April 28, 2003, will be entitled to notice of and to vote at the Annual Meeting and any adjournment or adjournments thereof. As of that date, there were 8,813,832 shares of common stock issued and outstanding and entitled to vote. Each share of common stock is entitled to one vote on any matter presented at the Annual Meeting. The aggregate number of common stock votes entitled to be cast at the Annual Meeting is 8,813,832. The holders of common stock will vote as a single class for all proposals.

If proxies in the accompanying form are properly executed and returned, the shares of common stock represented thereby will be voted in the manner specified therein. If not otherwise specified, the shares of common stock represented by the proxies will be voted:

- (i) FOR, the election of the eight nominees named below as directors;
- (ii) FOR, a proposal to amend our 1995 Stock Option Plan (the "1995 Plan") to increase the maximum aggregate number of shares of common stock available for issuance thereunder from 450,263 to 650,263, and to reserve an additional 200,000 shares of our common stock for issuance in connection with such increase; and
- (iii) in the discretion of the persons named in the enclosed form of proxy, on any other proposals which may properly come before the Annual Meeting or any adjournment or adjournments thereof.

Any stockholder who has submitted a proxy may revoke it at any time before it is voted, by written notice addressed to and received by our Corporate Secretary, by submitting a duly executed proxy bearing a later date or by electing to vote in person at the Annual Meeting. The mere presence at the Annual Meeting of the person appointing a proxy does not, however, revoke the appointment.

The presence, in person or by proxy, of holders of shares of our common stock in the aggregate having a majority of the votes entitled to be cast by the holders of common stock at the Annual Meeting, shall constitute a quorum with respect to all matters presented. The affirmative vote by the holders of a plurality of the shares of common stock represented at the Annual Meeting is required for the election of directors, provided a quorum of such stockholders is present in person or by proxy. All actions, other than the election of directors, may be taken upon the affirmative vote of stockholders possessing a majority of the requisite voting power represented at the Annual Meeting, provided a quorum is present in person or by proxy.

Abstentions are included in the shares present at the Annual Meeting for purposes of determining whether a quorum is present, and are counted as a vote against for purposes of determining whether a proposal is approved. Broker non-votes (when shares are represented at the Annual Meeting by a proxy specifically conferring only limited authority to vote on certain matters and no authority to vote on other matters) are included in the determination of the number of shares represented at the Annual Meeting for purposes of determining whether a quorum is present, but are not counted for purposes of determining whether a proposal has been approved and thus have no effect on the outcome.

This Proxy Statement, together with the related proxy card, is being mailed to our stockholders on or about May 8, 2003. The Annual Report to Stockholders of the Company for the year ended December 31, 2002, including financial statements, is being mailed together with this Proxy Statement to all

Edgar Filing: CYTOGEN CORP - Form DEF 14A

stockholders of record as of April 28, 2003. In addition, we have provided brokers, dealers, banks, voting trustees and their nominees, at our expense, with additional copies of the Annual Report and proxy materials so that such record holders could supply such materials to beneficial owners as of April 28, 2003.

ELECTION OF DIRECTORS

At the Annual Meeting, eight directors are to be elected (which number shall constitute our entire Board of Directors) to hold office until the 2004 Annual Meeting of Stockholders, and until their successors shall have been elected and qualified. The holders of common stock, voting as a class, will elect each such director.

It is the intention of the persons named in the enclosed form of proxy to vote the stock represented thereby, unless otherwise specified in the proxy, for the election as directors of the persons whose names and biographies appear below. All such persons, except Mr. Bloom, are, at present, members of our Board of Directors. To accommodate the addition of Mr. Bloom to our Board of Directors, our Board of Directors has amended our Bylaws to permit a Board size of eight members and has increased the size of our Board from seven to eight. In the event any of the nominees should become unavailable or unable to serve as a director, it is intended that votes will be cast for a substitute nominee designated by our Board of Directors. Our Board of Directors has no reason to believe that the nominees named will be unable to serve if elected. Each of the nominees has consented to being named in this Proxy Statement and to serve if elected.

The nominees for election to our Board of Directors are as follows:

Committees and Meetings of the Board

Our Board of Directors currently consists of James A. Grigsby, who serves as Chairman of the Board, Michael D. Becker, John E. Bagalay, Stephen K. Carter, Robert F. Hendrickson, Kevin G. Lokay and H. Joseph Reiser. There were 9 meetings of the Board of Directors during 2002. There are currently three committees of the Board of Directors: the Compensation Committee, the Nominating Committee and the Audit and Finance Committee.

The Compensation Committee

The Compensation Committee currently consists of Robert F. Hendrickson, who serves as Chairman, and Kevin G. Lokay. The Compensation Committee was established in 1986 and held 3 meetings in 2002. The primary responsibilities of the Compensation Committee include overseeing the administration of our stock option plans, recommending compensation for our executive officers and other key employees to the Board of Directors and generally reviewing our compensation policy.

The Nominating Committee

The Nominating Committee currently consists of James A. Grigsby, who serves as Chairman, and Michael D. Becker. The Nominating Committee was established in 1994 and did not hold any meetings in 2002. The primary responsibility of the Nominating Committee is investigating, recruiting and interviewing potential candidates for election to the Board of Directors. The Nominating Committee will consider nominees for the Board of Directors suggested by stockholders whose names are submitted in writing to the Nominating Committee in care of the office of our Corporate Secretary.

The Audit and Finance Committee

The Audit and Finance Committee currently consists of John E. Bagalay, Jr., who serves as Chairman, Robert F. Hendrickson and Stephen K. Carter. The Audit and Finance Committee was established in 1986 and held 5 meetings in 2002. The primary responsibilities of the Audit and Finance Committee include: (i) evaluating and recommending to our Board of Directors the engagement of our independent auditors; (ii) reviewing the results and scope of the audit and other services provided by our independent auditors; and (iii) monitoring and consulting with the independent auditors and management regarding risk management, the adequacy of financial and accounting procedures and internal controls on a periodic basis. The Audit and Finance Committee also reviews and monitors our financial planning and financial structure to accommodate our operating requirements and strategic objectives. The responsibilities of the Audit and Finance Committee are more fully set forth in the Audit and Finance Committee Charter adopted by the Audit and Finance Committee on May 16, 2000, a copy of which was filed as an Appendix to our Proxy Statement filed with the Securities and Exchange Commission on April 30, 2001.

The Nasdaq National Market has adopted requirements relating to the independence of members of the audit committees of companies traded on the market. Our Audit and Finance Committee members meet the requirements of that rule.

Each Audit and Finance Committee member is an independent member of our Board of Directors as defined in Rule 4200(a)(14) of the National Association of Securities Dealers' listing standards. As an independent director of our Board of Directors, each Audit and Finance Committee member is not an officer or employee of the Company or our subsidiaries and does not have a relationship which, in the opinion of our Board of Directors, would interfere with that person's exercise of independent judgment in carrying out the responsibilities of a director.

Report of the Audit and Finance Committee

March 28, 2003

To the Board of Directors of Cytogen Corporation:

We have reviewed and discussed with management the Company's audited financial statements as of and for the year ended December 31, 2002.

Management is responsible for the Company's internal controls and financial reporting process. The Company's independent auditors, KPMG LLP ("KPMG") are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and to issue a report on those consolidated financial statements. As appropriate, the Audit and Finance Committee reviews, evaluates and discusses with the Company's management, internal accounting and financial personnel and KPMG, the following:

- the plan for, and KPMG's report on, the audit of the Company's financial statements;
- the Company's financial disclosure documents, including all financial statements and reports filed with the Securities and Exchange Commission or sent to stockholders;
- management's selection, application and disclosure of critical accounting policies;
- changes in the Company's accounting practices, principles, controls or methodologies;
- significant developments or changes in accounting rules applicable to the Company; and
- the adequacy of the Company's internal controls and accounting, financial and auditing personnel.

We have discussed with KPMG the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as amended, by the Auditing Standards Board of the American Institute of Certified Public Accountants ("SAS 61"). SAS 61 requires KPMG to discuss with the Audit and Finance Committee, among other things, the following:

- methods to account for significant unusual transactions;

Edgar Filing: CYTOGEN CORP - Form DEF 14A

- the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus;
- the process used by management in formulating particularly sensitive accounting estimates and the basis for KPMG's conclusions regarding the reasonableness of those estimates; and

5

- disagreements with management over the application of accounting principles, the basis for management's accounting estimates and the disclosures in the financial statements.

We have received, reviewed and discussed the written disclosures and the letter from KPMG required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, as amended, by the Independence Standards Board ("Independence Standards Board Standard No. 1"), and have discussed with KPMG their independence. Independence Standards Board Standard No. 1 requires auditors annually to disclose in writing all relationships that in the auditor's professional opinion may be reasonably thought to bear on independence, confirm their perceived independence and engage in a discussion of independence.

We have considered whether the non-audit services provided by KPMG, as set forth in the section of our Proxy Statement entitled "Independent Auditor's Fees and Other Matters," are compatible with maintaining KPMG's independence.

Based on the reviews and discussions referred to above, we recommend to the Board of Directors that the audited, consolidated financial statements referred to above be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002.

Independent Auditor's Fees and Other Matters

Audit Fees

Fees for professional services rendered by KPMG in connection with the audit of our financial statements for the most recent fiscal year and the reviews of the financial statements included in each of our Quarterly Reports on Form 10-Q during the fiscal year ended December 31, 2002 aggregated \$99,200.

Financial Information Systems Design and Implementation Fees

During the year ended December 31, 2002 KPMG did not provide services that related to financial information systems design and implementation.

Audit Related Fees

Fees for audit related services consisting principally of the audit of our employee benefit plan and certain accounting consultation aggregated \$23,000 for the year ended December 31, 2002.

Edgar Filing: CYTOGEN CORP - Form DEF 14A

Tax Fees

Fees for professional services relating to tax compliance and consultation aggregated \$11,500 for the year ended December 31, 2002.

Directors' Compensation

Each of our non-employee directors receives an annual retainer of \$12,000, plus \$1,500 for each board meeting attended (\$500 if participation is by telephone). Any non-employee director who also chairs a board committee receives an additional annual fee of \$2,000. Non-employee directors receive \$500 for each committee meeting attended, but receive no additional retainer for committee membership. Members of the Nominating Committee do not receive any

6

compensation for serving on that committee. The Chairman of the Board (who is not an employee of the Company) currently receives, based upon significant time spent on Company business, an additional annual retainer of \$50,000. The additional retainer contemplates four days per month substantially given to Company business by the Chairman. An amount of \$1,500 per day is paid to the Chairman for additional days in which the significant part of the day is devoted to Company matters. During 2002, the Chairman received \$50,000 under this arrangement.

Pursuant to our 1999 Non-Employee Director Plan (the "Director Plan"), each non-employee director receives an initial grant of options on the date of appointment equal to a pro-rata portion of 2,000 shares of our common stock, based upon the number of months remaining from the date of election until the one year anniversary of the preceding annual meeting. In addition, on the day following each annual meeting of the stockholders, each individual who is elected as a non-employee director shall automatically be granted options to purchase 1,000 shares of our common stock. The Chairman of the Board, unless the Compensation Committee determines otherwise, receives an additional grant of 1,500 options to purchase shares of our common stock on the date of each annual meeting. Options granted under the Director Plan are exercisable at a price equal to the average of the high and low sale prices of the common stock as reported on the Nasdaq National Market on the date of grant and vest in full (i.e., first become exercisable) at the first anniversary of the option grant date. Each director's outstanding options granted under the Director Plan also become immediately exercisable in full: (i) upon the occurrence of a change of control of the Company; (ii) upon death or disability; or (iii) upon resignation or retirement after age 55.

In addition, at the 2001 Annual Meeting of Stockholders, our stockholders adopted a proposal to amend the Director Plan to provide that non-employee directors shall receive, at the sole discretion of and after formal action by our Board of Directors, such number of shares of common stock that is equal to each such director's cash compensation (including, but not limited to, annual service fees, fees payable for board and committee meetings attended and fees for committees chaired), (the "Cash Component"), divided by the fair market value of our common stock as of the date of issuance of such shares, (the "Compensation Shares"), which date shall be no earlier than the date on which the applicable Cash Component compensation becomes due and payable by us. Compensation Shares shall not be issued for services not yet rendered by such directors to the Company. Such amendments to the Director Plan further provide that in the event the board elects to issue Compensation Shares, such eligible directors shall receive Compensation Shares until, absent additional board action, at least such time as: (i) such director owns two thousand (2,000)

Edgar Filing: CYTOGEN CORP - Form DEF 14A

shares of our common stock, excluding options or other rights to acquire shares of our common stock, whether exercisable or unexercisable; or (ii) if fewer than 2,000 shares are so owned, such smaller number of shares has a fair market value of in excess of one hundred thousand dollars (\$100,000), excluding the value, if any, of options to purchase common stock, whether exercisable or unexercisable, or other rights to acquire our common stock. Upon achieving either of such milestones (i) or (ii) above, each such director may, at his or her option, elect to cease receiving his or her Cash Component to which he or she is entitled in shares of our common stock under the Director Plan; provided, however, that such director must make such election by providing notice of such election to us in a timely manner. In October 2001, our Board of Directors took appropriate actions to implement the payment of director compensation in Compensation Shares. As of the date hereof, all of our current non-employee directors have satisfied either of the milestones as set forth above, and have elected to receive their director compensation in cash.

Each option provided for in the Director Plan shall be granted automatically and without further action by us, our Board of Directors or our stockholders. Promptly after the date of grant of each option provided for in the Director Plan, we shall cause an option agreement to be executed and delivered to the holder of the option. No other options may be granted at any time under the Director Plan.

Report of the Compensation Committee of the Board of Directors

Policy

The Compensation Committee of the Board of Directors is responsible for oversight of our executive compensation program. The Compensation Committee is composed entirely of independent, non-employee directors. The Compensation Committee makes recommendations to the full Board of Directors on compensation policy and as to specific compensation actions, except where independent action by the Compensation Committee is appropriate.

Our compensation program, both for our executive officers as well as for all employees, is based on the philosophy that the interests of the employees should be closely aligned with those of our stockholders. Our 2002 executive compensation program was based on the following principles:

- compensation opportunities should attract the best talent to us, motivate individuals to perform at their highest levels, reward outstanding achievement, and retain the leadership and skills necessary for building long-term stockholder value;
- a portion of total compensation should be at risk of performance; and
- individual executives should be encouraged to manage from the perspective of owners of the Company.

Our 2002 compensation program reflected the Compensation Committee's

Edgar Filing: CYTOGEN CORP - Form DEF 14A

assessment as to appropriate treatment on an individual basis for the Chief Executive Officers during 2002 (Mr. Becker and Dr. Reiser) and the other Named Executives compared to the prior year levels. We target our overall compensation program at the median level of the biotechnology industry. In addition, compensation for the Named Executives (and other executives), including our CEOs, took into account individual responsibility and performance as assessed by the Compensation Committee.

The compensation program includes a combination of competitive base salary and benefits, annual cash and stock bonus opportunities and stock option awards. The 2002 executive compensation program and a specific discussion as to the compensation of the CEOs are set out below.

Annual Compensation for 2002

Generally, annual compensation of executive officers under the executive compensation program for 2002 consisted of salary and bonus components.

Base Salary

In December 2001, the Compensation Committee determined for recommendation to the full Board of Directors, base salaries and certain annual incentive opportunities for 2002 for our executives, including the CEOs and the other Named Executives. The Compensation Committee generally determines stock awards for certain executive officers under the Company's equity incentive plans.

Bonus

A portion of 2002 executive officer annual compensation opportunity was based on corporate performance. The Compensation Committee believes that incentive compensation should be linked to corporate financial results and corporate goals. Bonus opportunity levels for 2002 performance were set in advance of the year at a percentage of base salary, with the total amount of the bonus opportunity dependent on the extent to which corporate objectives were achieved and the amount of cash available as determined by the Compensation Committee. At year-end, the Compensation Committee determined the extent to which our financial and corporate objectives had been achieved and applied the appropriate bonus percentage to the respective base salary of each of the Named Executives. No bonuses were paid to any of the Named Executives for the fiscal year 2002.

17

Long Term Compensation - Stock Options

The Compensation Committee believes that stock options are an appropriate means to link our employees' interests with those of our stockholders. Stock option awards are designed primarily to provide strong incentives for superior longer-term performance and continued retention. Because the Compensation Committee believes that corporate performance is one of the principal factors influencing the market value of our common stock, the granting of stock options to our executive officers encourages them to work to achieve consistent improvements in corporate performance. Options only have value to the recipient when the price of our common stock exceeds the exercise price, which is not less than the fair market value of our common stock at the date of grant.

Option grants are set taking into account the comparison of practices at peer groups, an individual's level of responsibility and furtherance of

Edgar Filing: CYTOGEN CORP - Form DEF 14A

corporate objectives, and the amount and terms of past stock option awards. The Compensation Committee also took into account in its review of option grants the fact that we have no other long term incentive program, and believes that options are important to retain executives and promote steps to build long term value.

The Compensation Committee reviews from time to time with the entire Board of Directors the need and advisability of increasing shares available under any compensation plan and will consider with the Board the need for the adoption of a new stock plan to replace the 1995 Plan in future years. Any such change or recommendation would be presented to stockholders for review and approval at a subsequent meeting of our stockholders.

Compensation of Michael D. Becker

Mr. Becker's salary was set on the recommendation of the Compensation Committee and was believed to be an appropriate level of base compensation in view of compensation levels paid by the industry, in view of Mr. Becker's experience, and considering our continuing accomplishments under his leadership during the year. Prior to his promotion to President and Chief Executive Officer in December 2002, Mr. Becker's salary was \$180,000. Upon his promotion, the Compensation Committee has approved an increase of \$70,000 to \$250,000. Also in connection with such promotion, Mr. Becker was granted options to purchase 200,000 shares of our common stock under our 1995 Plan, 50,000 of which remain subject to availability under the 1995 Plan option pool or stockholder approval of the increase in such option pool as set forth in this Proxy Statement under the heading "Proposed Amendment to the 1995 Stock Option Plan." The exercise price per share of such options is \$3.54, the fair market value of our common stock on the date of grant. 50,000 of such options vested immediately upon grant, and the remaining 150,000 options will vest in three equal tranches of 50,000, based upon Mr. Becker's achievement of certain performance based milestones established by the Board of Directors.

Compensation of H. Joseph Reiser

Dr. Reiser's salary for 2002 was set on the recommendation of the Compensation Committee and was believed to be an appropriate level of base compensation in view of compensation levels paid by the industry, in view of Dr. Reiser's experience, and considering our continuing accomplishments under his leadership during the year. During 2002, Dr. Reiser's salary was \$325,000. Dr. Reiser resigned, for personal reasons, from his position as our President and Chief Executive Officer on December 17, 2002.

Federal Income Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction to public companies for certain compensation in excess of \$1 million paid to a company's Chief Executive Officer and the four other most highly compensated executive officers. Certain compensation, including qualified performance-based compensation, will not be subject to the deduction limit if certain requirements are met. The Compensation Committee reviews the potential effect of Section 162(m) periodically and generally seeks to structure the long-term incentive compensation granted to its executive officers through option issuances under the Company's equity incentive plans in a manner that is intended to avoid disallowance of deductions under Section 162(m). Nevertheless, there can be no assurance that compensation attributable to awards granted under the Company's equity incentive plans will be treated as qualified performance-based compensation under Section 162(m). In addition, the

Edgar Filing: CYTOGEN CORP - Form DEF 14A

Compensation Committee reserves the right to use its judgment to authorize compensation payments that may be subject to the limit when the Compensation Committee believes such payments are appropriate and in the best interests of the company and its stockholders, after taking into consideration changing business conditions and the performance of its employees.

The Compensation Committee believes that performance should be rewarded, that the financial interests of the executive officers should be aligned with the stockholders, and that compensation should be competitive. We have structured the compensation we pay to meet these criteria.

The foregoing report on compensation is provided by the following outside directors, who constituted the Compensation Committee as of December 31, 2002.

Equity Compensation Plans Not Approved by Security Holders

The following describes the material features of our equity compensation plans that have not been approved by our security holders, as set forth in the above table.

In August 1998, we issued options to purchase 205,000 shares of our common stock outside of any of our equity compensation plans to H. Joseph Reiser, our President and Chief Executive Officer from August 1998 to December 2002. In July 2000, we also issued options to purchase 30,000 shares of our common stock outside of any of our equity compensation plans to Lawrence R. Hoffman, our Vice President and Chief Financial Officer from July 2000 until December 2002. As of December 31, 2002, an aggregate of 40,000 of all such options were canceled and as of the date hereof, all of such options have either been exercised or cancelled.

Additionally we have issued options to purchase 1,000 shares of our common stock issued outside any of our equity compensation plans to Kevin G. Lokay, upon his appointment to our Board of Directors in January 2001. Such options have an exercise price of \$61.26 per share, expire on January 17, 2011 and vested in full on January 17, 2002. Such options are subject to the same equitable adjustment as are our outstanding shares of common stock and are not afforded anti-dilution protection.

We also issued warrants to purchase 32,363 shares of our common stock to various persons and entities in consideration for services rendered by such persons or entities. Such warrants have a weighted average exercise price of \$28.56 per share and expire from time to time through November 2004. All such warrants are immediately exercisable.

PROPOSED AMENDMENT TO THE 1995 STOCK OPTION PLAN

The 1995 Stock Option Plan

General

On March 28, 1995, the Board of Directors approved and, on May 23, 1995, our stockholders adopted, the 1995 Stock Option Plan, the "1995 Plan". The 1995 Plan currently provides for the grant of options to purchase a maximum of 450,263 shares of our common stock to eligible employees and consultants.

The following is a summary description of the 1995 Plan as it currently exists, and is qualified in its entirety by the full text of the 1995 Plan. The full text of the 1995 Plan may be obtained by our stockholders upon request to the office of our Corporate Secretary.

A Committee, designated by our Board of Directors, the "Committee", is authorized to, among other things, interpret and administer the 1995 Plan, to select employees or eligible consultants to whom options will be granted, to determine the time when options will be granted and the terms and provisions of the options (which may differ from one another), and to adopt and make changes in the rules and regulations for carrying out the 1995 Plan. The Committee shall be composed of not less than two outside directors who are also non-employee directors and who are not eligible to participate in the 1995 Plan.

Our Board of Directors may amend the 1995 Plan, except that stockholder approval is required to: (i) increase the maximum number of shares of common stock that may be issued on exercise of options granted under the 1995 Plan, with certain exceptions; (ii) change the categories of persons eligible to receive options; (iii) increase the limit on the number of shares that may be

Edgar Filing: CYTOGEN CORP - Form DEF 14A

granted per optionee; or (iv) modify the provisions of Section 7(a)(i) or 7(a)(ii).

22

Furthermore, our Stockholders and Board of Directors have approved, and we have implemented, certain amendments to the 1995 Plan which restrict our ability, without the approval of a majority of our stockholders, to: (i) grant options or stock appreciation rights with an exercise price that is less than the fair market value of the underlying common stock; or (ii) effectively amend or replace certain outstanding equity-based awards in a manner that would result in lower exercise prices, accelerated vesting schedules or the issuance of restricted stock. Such amendments became effective as of June 2002.

Options may be granted under the 1995 Plan only to persons who at the date of grant either: (i) are employees or eligible consultants; or (ii) have agreed to become employees or eligible consultants, and, in either case, are determined by the Committee to be of substantial importance to us or any of our subsidiaries. As of March 31, 2003, all of our 50 employees were eligible to participate in the 1995 Plan. Options granted to persons who are not yet employees or eligible consultants at the date of grant may not be exercised until the optionee has become an employee or eligible consultant, and shall expire if the optionee fails to commence service as an employee or eligible consultant within six months (or such other period as the Committee may determine) after the date of grant.

The mere grant of an option does not require any consideration from the optionee. The Committee may, in its discretion, provide that payment of the exercise price of an option may be made in cash or check. Options will be exercisable over a period to be designated by the Committee, but not prior to six months or more than ten years (or five years for certain incentive stock options) after the date of grant. Except as otherwise determined by the Committee, options granted under the 1995 Plan will be exercisable only while the optionee is employed by us and within three months after termination of employment generally or within 12 months after termination of employment by reason of death or disability.

No eligible employee may be granted options to purchase more than 200,000 shares in any one calendar year. Under the 1995 Plan, eligible optionees may be granted either ISOs or NQSOs. ISOs are intended to be "incentive stock options" under Section 422 of the Code and NQSOs are those options which do not qualify under Section 422 of the Code. Under the Code, the exercise price of an ISO must be at least equal to 100% of the fair market value of the shares of common stock on the date of grant. The aggregate fair market value (determined at the time an option is granted) of the common stock with respect to which ISOs are first exercisable by an optionee during any calendar year may not exceed \$100,000.

Options granted under the 1995 Plan are not transferable other than by will or by operation of the laws of descent and distribution, and are exercisable to the extent vested at any time prior to the scheduled expiration date of the option. In the event of the death of an optionee, the option may be exercisable by his or her estate. If an option expires or is cancelled or surrendered without being exercised in full, the number of shares as to which the option is not exercised will once again become shares as to which new options may be granted. The 1995 Plan became effective as of March 28, 1995, and will remain in effect for ten years thereafter (March 28, 2005), or until sooner terminated by our Board of Directors.

Unless otherwise determined by our Board of Directors, our issuance of shares of stock of any class, or securities convertible into shares of stock of

Edgar Filing: CYTOGEN CORP - Form DEF 14A

any class, for cash or property, or for labor or services either upon direct sale or upon the exercise of rights or warrants to subscribe therefor, or on conversion of shares or obligations of the Company convertible into such shares or other securities, shall not affect, and no adjustment by reason thereof shall be made with respect to, the number, class or price of shares of common stock then subject to outstanding options.

If as a result of: (i) our reorganization or liquidation; or (ii) reclassification of our capital stock, or (iii) our consolidation or merger with or into another corporation, or sale of all or substantially all the assets of ours (such reorganization or liquidation or reclassification of our capital stock, or a merger, consolidation or sale of the type described in this paragraph being a "Corporate Transaction") while an option is outstanding, the holders of the common stock become entitled to receive, with respect to their common stock, securities or assets other than, or in addition to, their common stock, upon exercise of that option, the holder will receive what the holder would have owned if the holder had exercised the option immediately before the Corporate Transaction which occurred while the option was outstanding and had not disposed of anything the holder would have received as a result of that and all subsequent Corporate Transactions.

23

Federal Income Tax Treatment of the 1995 Plan

The following generally summarizes the United States federal income tax consequences that generally will arise with respect to awards granted under the 1995 Plan. This summary is based on the tax laws in effect as of the date of this Proxy Statement. Changes to these laws could alter the tax consequences described below.

Incentive Stock Options ("ISOs"). A participant will not have income upon the grant of an ISO. Also, except as described below, a participant will not have income upon exercise of an ISO if the participant has been employed by the Company or its corporate parent or majority-owned corporate subsidiary at all times beginning with the option grant date and ending three months before the date the participant exercises the option. If the participant has not been so employed during that time, then the participant will be taxed as described below under "Nonqualified Stock Options." The exercise of an ISO may subject the participant to the alternative minimum tax.

A participant will have income upon the sale of the stock acquired under an ISO at a profit (if sales proceeds exceed the exercise price). The type of income will depend on when the participant sells the stock. If a participant sells the stock more than two years after the option was granted and more than one year after the option was exercised, then all of the profit will be long-term capital gain. If a participant sells the stock prior to satisfying these waiting periods, then the participant will have engaged in a disqualifying disposition and a portion of the profit will be ordinary income and a portion may be capital gain. This capital gain will be long-term if the participant has held the stock for more than one year and otherwise will be short-term. If a participant sells the stock at a loss (sales proceeds are less than the exercise price), then the loss will be a capital loss. This capital loss will be long-term if the participant held the stock for more than one year and otherwise will be short-term.

Nonqualified Stock Options ("NQSOs"). A participant will not have income upon the grant of a NQSO. A participant will have compensation income upon the exercise of a NQSO equal to the value of the stock on the day the participant exercised the option less the exercise price. Upon sale of the

Edgar Filing: CYTOGEN CORP - Form DEF 14A

stock, the participant will have capital gain or loss equal to the difference between the sales proceeds and the value of the stock on the day the option was exercised. This capital gain or loss will be long-term if the participant has held the stock for more than one year and otherwise will be short-term.

Tax Consequences to the Company. There will be no tax consequences to the Company except that the Company will be entitled to a deduction when a participant has compensation income. Any such deduction will be subject to the limitations of Section 162(m) of the Code.

The exercise price per share of such options is \$3.54, the fair market value of our common stock on the date of grant. 50,000 of such options vested immediately upon grant, and the remaining 150,000 options will vest in three equal tranches of 50,000, based upon Mr. Becker's achievement of certain performance based milestones established by the Board of Directors. Proposed Amendment

Stockholders are being asked to consider and vote upon a proposed amendment to the 1995 Plan to increase the number of shares of common stock available for issuance under the 1995 Plan from 450,263 to 650,263 shares and to reserve an additional 200,000 shares of our common stock for issuance in connection with such increase.

The Board of Directors believes that such amendment provides an important inducement to recruit and retain the best available personnel. The Board of Directors believes that providing employees with an opportunity to invest in the Company rewards them appropriately for their efforts on behalf of the Company.

The Board of Directors recommends a vote FOR the approval of the Amendment to the 1995 Plan.

INFORMATION CONCERNING INDEPENDENT AUDITORS

Edgar Filing: CYTOGEN CORP - Form DEF 14A

On May 20, 2002, our Board of Directors, upon recommendation of the Audit and Finance Committee informed our independent public accountants, Arthur Andersen LLP ("Andersen"), that they would be dismissed as our independent public accountants, and engaged KPMG LLP ("KPMG") to serve as our independent auditors for the fiscal year ending December 31, 2002. The appointment of KPMG was effective immediately upon the dismissal of Andersen.

Andersen's prior audit report on our financial statements for each of the two most recent fiscal years in the period ended December 31, 2001 contained no adverse opinion or disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope, or accounting principles. During our two most recent fiscal years ended December 31, 2001, and the subsequent interim period through May 20, 2002, no disagreements between us and Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to Andersen's satisfaction, would have caused Andersen to make reference to the subject matter of the disagreement in connection with its reports; and during such period there were no reportable events of the kind listed in Item 304(a)(1)(v) of Securities and Exchange Commission Regulation S-K ("Regulation S-K"). We have filed a letter from Andersen addressed to the Securities and Exchange Commission (the "SEC") stating their agreement with the above statements.

During our two most recent fiscal years ended December 31, 2001, and through May 20, 2002, we did not consult with KPMG regarding any of the matters or events set forth in Item 304(a)(2)(i) or (ii) of Regulation S-K.

On May 20, 2002, the Board, as the Sponsor of the Cytogen Retirement Savings Plan (the "Retirement Plan"), also dismissed Andersen as the Retirement Plan's independent public accountants, and KPMG was appointed independent auditor of the Retirement Plan for the year ended December 31, 2001.

The decision to change auditors was not the result of any disagreement with Andersen with respect to any reporting or disclosure requirement applicable to the Retirement Plan. The reports of Andersen on the Retirement Plan's financial statements for the fiscal years ended December 31, 2000 and 1999 did

27

not contain an adverse opinion or a disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope, or accounting principles. During the fiscal years ended December 31, 2000 and 1999 and the interim period from January 1, 2001 through May 24, 2002, there were no disagreements with Andersen, in connection with the Retirement Plan, on any matter of accounting principles or practices, financial statement disclosure or auditing scope and procedure which, if not resolved to the satisfaction of Andersen, would have caused Andersen to make reference to the matter in their report. During such fiscal years and interim period there were no "reportable events", as that term is defined in paragraph (a)(1)(v) of Item 304 of Regulation S-K, in connection with the Retirement Plan.

The Retirement Plan provided Andersen with a copy of the foregoing disclosures. We have filed a letter from Andersen addressed to the SEC stating their agreement with the above statements applicable to the Retirement Plan.

During the fiscal years ended December 31, 2000 and 1999 and the interim period through May 24, 2002, we did not consult KPMG with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Retirement Plan's financial statements, or on any other matters or

Edgar Filing: CYTOGEN CORP - Form DEF 14A

reportable events listed in Item 304(a)(2)(i) and (ii) of Regulation S-K.

AVAILABILITY OF INDEPENDENT AUDITORS

The Company has selected KPMG LLP as its independent auditors for the year ended December 31, 2003. KPMG also served as independent auditors for 2002. One or more representatives of KPMG is expected to attend the Annual Meeting and have an opportunity to make a statement and respond to appropriate questions from stockholders.

consultants to exert maximum efforts to promote the success of the Company and its Subsidiaries.

(b) The effective date of this Plan is March 28, 1995. This Plan will become effective on that date, subject to approval of the Plan not later than September 30, 1995 by a majority of the votes cast at a duly held stockholders meeting at which a quorum representing a majority of all outstanding voting stock is, either in person or by proxy, present and voting on the Plan. Nothing in this Plan shall affect the rights or obligations of holders of options granted under any other Company stock option plan.

All determinations as to the date and extent of disability of an Employee or Eligible Consultant will be made by the Committee.

3. Administration.

(a) This Plan shall be administered by a Committee, which shall be composed of not less than two Outside Directors who are also Non-Employee Directors. The Committee may, from time to time, adopt or rescind rules and

regulations for carrying out the provisions and purposes of this Plan. Subject to the express provisions of this Plan, the Committee shall have sole authority, in its absolute discretion, to determine which Employees and Eligible Consultants shall receive Options, the time when Options shall be granted, the terms and provisions of the Options (which may differ from one another) and to do everything necessary or appropriate to administer this Plan, including, without limitation, interpreting the provisions of this Plan and the Options. All determinations made by the Committee with respect to this Plan and the Options shall be final, binding and conclusive.

(b) No member of the Committee shall be liable for any act or omission of the Committee or any other member of the Committee, or for any act or omission on his own part, in connection with the administration of this Plan, unless it resulted from the member's own willful misconduct.

4. Persons Eligible to Receive Options.

(a) Options may be granted under this Plan only to persons who at the Date of Grant either (i) are Employees or Eligible Consultants of the Company or any of its Subsidiaries or (ii) have agreed to become Employees or Eligible Consultants of the Company or any of its Subsidiaries, and, in either case, are determined by the Committee to be of substantial importance to the Company or any of its Subsidiaries.

(b) Options granted to persons who are not yet Employees or Eligible Consultants at the Date of Grant may not be exercised until the optionee has become an Employee or Eligible Consultant, and shall expire if the optionee fails to commence service as an Employee or Eligible Consultant within six months (or such other period as the Committee may determine) after the Date of Grant.

(c) Incentive Stock Options may be granted only to persons who are Employees at the Date of Grant, and only on such terms as are provided in paragraphs 6, 7 and 8 hereof.

(d) No Employee or Eligible Consultant to whom Options may be granted under this Plan may be granted Options to purchase more than 200,000 shares in any one calendar year.

5. Stock Subject to the Plan.

(a) Subject to any adjustment as provided in paragraph 9, the maximum number of shares of Common Stock as to which Options may be granted under this Plan is 450,263 shares reduced by the number of outstanding options granted under the Cytogen Corporation 1989 Employee Stock Option Plan (the "1989 Plan") that are exercised after the effective date of this Plan. If any Option expires or is cancelled or surrendered without being exercised in full, the number of shares as to which the Option is not exercised will once again become shares as to which new Options may be granted. The Common Stock which is issued on exercise of Options may be authorized but unissued shares or shares which have been issued and reacquired by the Company.

(b) For administrative purposes only, the Committee shall establish an account indicating the number of shares of Common Stock as to which Options may then be granted under this Plan (the "Current Account"), and the Committee may issue Options only with respect to the shares of Common Stock available for grant as set forth in the Current Account. The Current Account

Edgar Filing: CYTOGEN CORP - Form DEF 14A

shall contain the number of shares available for grant calculated as follows: (a) 450,263, minus (b) the number of shares of Common Stock subject to options granted under the 1989 Plan that are exercised after the effective date of this Plan, minus (c) the number of shares of Common Stock subject to outstanding options granted under the 1989 Plan and this Plan, plus (d) the number of shares of Common Stock subject to outstanding options granted under the 1989 Plan and/or this Plan that expire, are cancelled or surrendered without being exercised in full.

6. Grants of Options.

(a) Subject to paragraph 4(d), the Committee will have complete discretion to determine when, and to which Employees or Eligible Consultants, Options are to be granted, the number of shares of Common Stock to which Options granted to each Employee or Eligible Consultant, will relate, whether and to what extent Options granted to an Employee or Eligible Consultant, will be Incentive Stock Options or Non-Qualified Options and, subject to the provisions

A-3

of paragraphs 7 and 8, the Exercise Price and the term of each Option. The Committee may, in its discretion at the time of granting the Option, provide that the Exercise Price may be paid in cash, by the surrender of Common Stock, by a promissory note bearing an interest rate not less than the market rate of interest at such time, or by other means; subject, however, to any requirements of applicable law which may limit the type or amount of such non-cash consideration. If payment by promissory note is permitted: (i) the optionee shall be required to make a cash payment upon exercise of the Option of not less than 20% of the Exercise Price; (ii) the note shall provide for full recourse against the maker; and (iii) the note shall be payable in full prior to its stated maturity upon the optionee's Termination of Service for any reason other than death or Total Disability.

(b) Any Options which are not designated as Incentive Stock Options when they are granted will be Non-Qualified Options.

(c) Promptly after the Date of Grant of each Option, the Company shall cause an Option Agreement to be executed and delivered to the holder of the Option. The Option Agreement shall clearly state whether the Option granted is or is not an Incentive Stock Option. Separate Option Agreements shall be used for Incentive Stock Options and Non-Qualified Stock Options.

(d) Except as otherwise determined by the Committee, and subject to the requirements of applicable law, the entire Exercise Price received by the Company upon the exercise of an option shall constitute stated capital to the extent of the aggregate par value of the Common Stock issued upon exercise of the Option.

(e) Any Option granted under this Plan prior to the date the Plan is approved by the Company's stockholders shall not be exercisable unless and until the Plan is so approved.

7. Option Provisions.

(a) Exercise Price. No consideration shall be payable by any optionee for the grant of an Option. Subject to the provisions of paragraph 7(a)(i) and paragraph 8, the Exercise Price of each Option will be as determined by the Committee.

(i) The Committee shall not grant any Option (or stock

Edgar Filing: CYTOGEN CORP - Form DEF 14A

appreciation right, if otherwise permissible) with an exercise price that is less than 100% of the Fair Market Value of the underlying stock on the date of grant or reduce the exercise price of any Option (or stock appreciation right, if otherwise permissible) granted or to be granted under the Plan; and

(ii) The Committee shall not: (1) cancel and re-grant Options at a lower exercise price (including entering into any "6 month and 1 day" cancellation and re-grant scheme), whether or not the cancelled Options are put back into the available pool for grant; (2) replace underwater Options with restricted stock in an exchange, buy-back or other scheme; or (3) replace any Options with new Options having a lower exercise price or accelerated vesting schedule in an exchange, buy-back or other scheme.

(b) Term. The term of each Option will be as determined by the Committee, but in no event will the term of an Option be longer than ten years from the Date of Grant, or five years in the case of an Incentive Stock Option granted to a Ten Percent Shareholder. Options may not be exercised before six months after the Date of Grant. Options will cease to be exercisable prior to the expiration of their term under certain circumstances as provided in paragraphs 7(f), (g), and (h). Subject to the foregoing, and to any vesting or other conditions imposed at the time it is granted, an Option may be exercised in whole or in part at any time, or from time to time, during its term.

(c) Manner of Exercise. To exercise an Option, the person exercising the Option must deliver to the Company, at its principal office:

(i) a notice of exercise, which states the extent to which the Option is being exercised;

A-4

(ii) a certified or bank cashier's check in an amount, or Common Stock with a Fair Market Value, equal to the Exercise Price of the Option times the number of shares as to which it is being exercised, or consideration in such other form as may be permitted under the terms on which the Option is granted; and

(iii) a certified or bank cashier's check equal to any withholding taxes the Company is required to pay because of the exercise of the Option.

The Committee may permit an Employee, as an alternative to making the payment described in clause (iii), to authorize the Company to withhold a sum equal to the withholding taxes the Company is required to pay from the Employee's salary and bonus payments over a period of not more than six months (or such longer period as the Company may approve). The date on which the Company receives all the items specified in this subsection will be the date on which the Option is exercised to the extent described in the notice of election.

(d) Delivery of Stock Certificates. As promptly as practicable after an Option is exercised, the Company will deliver to the person who exercises the Option certificates, registered in that person's name, representing the number of shares of Common Stock which were purchased by the exercise of the Option. Each certificate may bear a legend to indicate, if applicable, that (i) the Common Stock represented by the certificate was issued in a transaction which was not registered under the Securities Act of 1933, as amended, and may only be sold or transferred in a transaction which is registered under that Act or is exempt from the registration requirements of

Edgar Filing: CYTOGEN CORP - Form DEF 14A

that Act, and (ii) the Common Stock represented by the certificate is subject to the obligation of the holder to pay any unpaid balance of the Exercise Price (whether pursuant to a promissory note or otherwise), and/or that the Common Stock is pledged to secure such an obligation.

(e) Nontransferability of Options. During the lifetime of the person to whom an Option is issued, the Option may be exercised only by that person or his or her guardian or legal representative. An Option may not be assigned, pledged or hypothecated in any way, will not be subject to execution, and will not be transferable otherwise than by will or the laws of descent and distribution. The Company will not recognize any attempt to assign, transfer, pledge, hypothecate or otherwise dispose of an Option contrary to the provisions of this Plan, or any levy of any attachment or similar process upon any Option, and, except as expressly stated in this Plan, the Company will not be required to, and will not, issue Common Stock on exercise of an Option to anyone who claims to have acquired that Option from the person to whom it was granted.

(f) Termination of Service of Holder of Option Other Than Because of Total Disability or Death. If there is a Termination of Service of a person to whom an Option has been granted, other than by reason of the person's death or Total Disability, each Option held by the person may be exercised (if otherwise exercisable) until the earlier of (i) the end of the three-month period immediately following the date of the Termination of Service, (ii) the expiration of the term specified in the Option, or (iii) such earlier time as may be determined by the Committee at the time of granting the Option.

(g) Total Disability of Holder of Option. If there is a Termination of Service of a person to whom an Option has been granted by reason of his or her Total Disability, each Option held by the person may be exercised (if otherwise exercisable) until the earlier of (i) the end of the one-year period immediately following the date of the Termination of Service, (ii) the expiration of the term specified in the Option, or (iii) such earlier time as may be determined by the Committee at the time of granting the Option.

(h) Death of Holder of Option. If there is a Termination of Service of a person to whom an Option has been granted by reason of his or her death, or a former Employee or Eligible Consultant dies following the date of his or her Termination of Service but at a time when an Option still would be exercisable by that person but for the death of the person, each Option held by the person at the time of his or her death may be exercised by the person or persons to whom the Option passed by will or by the laws of descent and distribution (but by no other persons) until the earlier of (i) the end of the one-year period immediately following the date of death (or such other period as may be determined by the Committee at the time of granting the Option), (ii) the expiration of the term specified in the Option, or (iii) if the death occurs after the Termination of Service, the end of the period in which the Option could be exercised under paragraph 7(f) or (g).

8. Special Provisions Relating to Incentive Stock Options.

No Incentive Stock Option may be granted after March 27, 2005. The Exercise Price of an Incentive Stock Option will be not less than 100% of the Fair Market Value of the Common Stock on the Date of Grant of the Option. An Incentive Stock Option may not be granted to a person who, at the time the Option is granted, is a Ten Percent Shareholder, unless (i) the Exercise Price of the Option is at least 110% of the Fair Market Value of the Common Stock on the Date of Grant and (ii) the Option by its terms is not exercisable after the expiration of five years from the Date of Grant. To the extent that the aggregate Fair Market Value (determined at the time an Incentive Stock Option is

Edgar Filing: CYTOGEN CORP - Form DEF 14A

granted) of the Common Stock with respect to which Incentive Stock Options are first exercisable by an Employee during any calendar year (under this Plan and any other incentive stock option plans of the Company) exceeds \$100,000, such Options shall be treated as Non-Qualified Options.

9. Recapitalization.

(a) The existence of outstanding Options shall not affect in any way the right or power of the Company or its stockholders to make or authorize any or all adjustments, recapitalizations, reorganizations or other changes in the Company's capital structure or its business, or any merger or consolidation of the Company, or any issue of bonds, debentures, preferred or prior preference stock ahead of or affecting the Common Stock or the rights thereof, or the dissolution or liquidation of the Company, or any sale or transfer of all or any part of its assets or business or any other corporate act or proceeding, whether of a similar character or otherwise. Unless otherwise determined by the Board, the issue by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, for cash or property, or for labor or services either upon direct sale or upon the exercise of rights or warrants to subscribe therefor, or on conversion of shares or obligations of the Company convertible into such shares or other securities, shall not affect, and no adjustment by reason thereof shall be made with respect to, the number, class or price of shares of Common Stock then subject to outstanding Options.

(b) If as a result of any (i) reorganization or liquidation of the Company or (ii) reclassification of the Company's capital stock, or (iii) consolidation or merger of the Company with or into another corporation, or sale of all or substantially all the assets of the Company (a reorganization or liquidation of the Company or reclassification of the Company's capital stock, or a merger, consolidation or sale of the type described in this subsection being a "Corporate Transaction") while an Option is outstanding, the holders of the Common Stock become entitled to receive with respect to their Common Stock, securities or assets other than, or in addition to, their Common Stock, upon exercise of that Option the holder will receive what the holder would have owned if the holder had exercised the Option immediately before the Corporate Transaction which occurred while the Option was outstanding and had not disposed of anything the holder would have received as a result of that and all subsequent Corporate Transactions.

10. Rights of Option Holder.

(a) The holder of an Option will not have any rights as a stockholder by reason of holding that Option. Upon exercise of an Option, the holder will be deemed to acquire the rights of a stockholder when, but not before, the issuance of Common Stock as a result of the exercise is recorded in the stock records of the Company.

(b) Nothing in this Plan or in the grant of an Option will confer upon any Employee the right to continue in the employment of the Company or will interfere with or restrict in any way the rights of the Company to discharge any Employee at any time for any reason whatsoever, with or without cause, nor will it impose any obligation on the Employee to remain in the employ of the Company.

11. Laws and Regulations.

The obligation of the Company to sell and deliver shares of Common Stock on exercise of Options will be subject to the condition that legal counsel for the Company be satisfied that the sale and delivery will not violate the Securities Act of 1933, as amended, or any other applicable laws, rules or regulations.

12. Withholding of Taxes.

(a) In addition to the requirement in paragraph 7(c) that in order to exercise an Option a person must make a payment to the Company or authorize withholding in order to enable the Company to pay any withholding taxes due as a result of the exercise, if a person who exercised an Incentive Stock Option disposes of shares of Common Stock acquired through exercise of that Incentive Stock Option either (i) within two years after the Date of Grant of the Incentive Stock Option or (ii) within one year after the issuance of the shares on exercise of the Incentive Stock Option, the person will notify the Company promptly of the occurrence of the event and, if the event was a disposition of Common Stock acquired on exercise of an Incentive Stock Option, the amount realized upon the disposition.

(b) If, whether because of a disposition of Common Stock acquired on exercise of an Incentive Stock Option, or otherwise, the Company is required to pay withholding taxes to any Federal, state or other taxing authority and the Employee fails to provide the Company with the funds with which to pay that withholding tax, the Company may withhold up to 50% of each payment of salary or bonus to the Employee (which will be in addition to any other required or permitted withholding), until the Company has been reimbursed for the entire withholding tax it was required to pay.

(c) The obligations contained in this paragraph 12 shall bind each optionee, and each optionee, by accepting and/or exercising an Option, shall be deemed to agree to observe and comply with them.

13. Reservation of Shares.

The Company will at all times keep reserved for issuance on exercise of Options a number of authorized but unissued or reacquired shares of Common Stock equal to the maximum number of shares the Company may be required to issue on exercise of outstanding Options (assuming no subsequent adjustments under paragraph 9).

14. Amendment of the Plan.

The Board of Directors may at any time and from time to time modify or amend this Plan in any respect effective at any date the Board of Directors determines; provided, that without the approval of the stockholders of the Company the Board of Directors may not, (i) except as provided in paragraph 9, increase the maximum number of shares of Common Stock which may be issued on exercise of Options granted under this Plan; (ii) change the categories of persons eligible to receive Options; (iii) increase the per-optionee limit specified in paragraph 4(d); or (iv) modify the provisions of paragraphs 7(a)(i) or 7(a)(ii). No modification or amendment of this Plan will, without the consent of the holder of an outstanding Option, adversely affect the holder's rights under that Option.

15. Interpretation

The Committee shall have the power to interpret the Plan and to make and amend rules for putting it into effect and administering it. It is intended that the Incentive Stock Options granted under the Plan shall constitute incentive stock options within the meaning of section 422 of the Code, that the Non-Qualified Options shall constitute property subject to federal income tax pursuant to the provisions of section 83 of the Code and that the Plan shall qualify for the exemption available under Rule 16b-3 (or any similar rule) of the Securities and Exchange Commission. It is also intended that all

Edgar Filing: CYTOGEN CORP - Form DEF 14A

compensation income recognized by optionees as the result of the exercise of Options or the disposition of Common Stock acquired on exercise of Options shall be considered performance-based compensation excludable from such optionee's "applicable employee remuneration" pursuant to section 162(m)(4)(C) of the Code. The provisions of the Plan shall be interpreted and applied insofar as possible to carry out such intent.

16. Termination of the Plan.

This Plan shall terminate on March 27, 2005 unless sooner terminated. The Board of Directors may suspend or terminate this Plan at any time or from time to time, but no such action may adversely affect the rights of a person holding an outstanding Option.
