George R. Marks Named President & General Manager  
of RF Industries' Bioconnect Division

SAN DIEGO, CA, December 28, 2004 . . . RF INDUSTRIES, LTD,  
(NASDAQ:RFIL) today announced that George R. Marks has been named  
President & General Manager of the Company's Bioconnect Division.

"George joined us as a consultant last Spring to organize, direct and  
establish efficient manufacturing processes for Bioconnect. George's team  
building skills, dedication and long hours were instrumental in supporting  
the doubling of Bioconnect's sales in fiscal 2004," said Howard Hill,  
President of RF Industries.

Marks, 53, came out of retirement this year to join RFI's Bioconnect  
operations. From 1989 to his retirement in 2000, he was Vice President and  
General Manager at Culver City, California-based Q-Tech Corporation, a  
leading manufacturer of high-reliability Hybrid Crystal Oscillators, where  
he was responsible for building production and manufacturing processes  
which were instrumental in supporting Q-Tech's sales growth from \$4  
million to over \$17 million. In 1998 he helped develop a Manufacturing  
Training Program at Loyola Marymount University, Los Angeles. From 1985 to  
1989, he was an Operations Manager at Teledyne Microelectronics, Los  
Angeles, and from 1980 to 1985 was Senior Test Manager, Tactical Data  
Command Center, at Litton Data Systems, Los Angeles.

"During the 1970's, Marks served in the United States Marine Corps,  
as Special Security Detail for United States dignitaries overseas. As a  
Marine Security Guard in Saudi Arabia and Morocco, he provided security  
support for Secretary of State Henry Kissinger and Secretary of Defense  
Harold Brown. We are pleased to have an individual of his caliber and  
experience join our management team," said Hill.

About Bioconnect

Bioconnect designs, manufactures and markets specialized FDA approved  
electrical cable assemblies and leads for the medical monitoring device  
market which are used in cardiac, neurological, clinical, EMT and hospital  
settings.

About RF Industries

RF Industries' Connector division designs and distributes radio  
frequency (RF) coaxial connectors and cable assemblies used for Wi-Fi,  
PCS, radio, test instruments, computer networks and antenna devices.  
Connector's Bioconnect Medical cable operation designs, manufactures and  
distributes specialized electrical cabling and interconnect products to  
the medical monitoring market. The Company's Neulink business designs and  
markets wireless digital data transmission products for industrial  
monitoring, wide area networks, GPS tracking and locations systems.
