Executive Incentive Plan for Fiscal Year 2014

On May 15, 2013 and May 16, 2013 the Compensation Committee of the Board of Directors of Xilinx, Inc. (the “Company”) approved the Company’s Executive Incentive Plan for fiscal year 2014 (the “2014 Incentive Plan”). The 2014 Incentive Plan is designed to tie executive compensation to the executive’s achievement of individual performance goals and the Company’s achievement of financial objectives. The 2014 Incentive Plan is effective as of March 31, 2013.

The 2014 Incentive Plan provides for a cash bonus calculated as a percentage of the executive officer’s base salary. For fiscal 2014, the bonus target for the Chief Executive Officer (“CEO”) is 140% of his base salary and the bonus targets for all other executive officers range from 65% to 80% of their respective base salaries, depending on their position. Under the 2014 Incentive Plan, the cash bonuses for the CEO and all other executive officers are determined using three different components, each with a different weighting. The three components are: (1) the Company’s revenue growth (the “Growth Component”), weighted at 30%; (2) the Company’s operating profit determined in accordance with U.S. GAAP (the “OP Component”), weighted at 30%; and (3) individual performance goals pertaining to each officer’s position and responsibilities (the “Individual Performance Component”), weighted at 40%. For all executive officers other than the CEO, the OP Component and the Individual Performance Component are paid on a semi-annual basis, and the Growth Component is paid on an annual basis. For the CEO, the OP Component is paid on a semi-annual basis, and the Individual Performance Component and the Growth Component are paid on an annual basis.

Growth Component

The Growth Component is designed to reward year-over-year revenue growth. The Growth Component is subject to a minimum threshold for any payout and a multiplier that increases the target payout depending on Company performance. The Growth Component multiplier is 16% if the minimum threshold is met and 100% if the target is met. If the target revenue growth percentage is met, the multiplier increases by increments of 20% for each percentage increase in revenue growth, and is capped at an annual maximum of 200%.

OP Component

The OP Component is determined by a formula which measures and rewards improvements in the Company’s operating profit. The OP Component is subject to a minimum threshold range for any payout and a multiplier that increases the payout depending on Company performance. For the OP Component, the threshold range of operating profit percentages is subject to a multiplier of 20%, and the multiplier increases by increments of 10% after the top of the threshold range is met. If the target range of operating profit percentage is met, the multiplier is 100%, and thereafter the multiplier increases by increments of 10%, and is capped at a maximum of 200% for each semi-annual measurement period. At the discretion of the Compensation Committee, any extraordinary or one-time charges may be excluded for purposes of calculating the OP Component.

Individual Performance Component

For all executive officers other than the CEO, the Individual Performance Component is based on a maximum of ten individual performance goals per semi-annual performance period. The CEO’s Individual Performance Component is based on a maximum of ten individual performance goals for the annual performance period. For all executive officers, achievement of each goal is measured on a scale of 0% achievement to 150% achievement. The threshold for any payout of the Individual Performance Component is 50% overall achievement and the maximum performance is capped at 150%.

Named Executive Officer Salary Adjustments

Also on May 15, 2013, the Compensation Committee of the Board of Directors of the Company approved the following salary adjustment for fiscal 2014 for the following named executive officer, effective July 1, 2013:

Named Executive Officer	Fiscal 2013 Salary	Fiscal 2014 Salary
Victor Peng	\$ 470,000	\$ 480,000
