UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

☐ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended November 3, 2018
or

○ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 1-8897

BIG LOTS, INC.

(Exact name of registrant as specified in its charter)

Ohio

(State or other jurisdiction of incorporation or organization)

06-1119097

(I.R.S. Employer Identification No.)

4900 E. Dublin-Granville Road, Columbus, Ohio

(Address of principal executive offices)

(614) 278-6800

(Registrant's telephone number, including area code)

43081

(Zip Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes☐ No☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes☐ No☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act

Edgar Filing: BIG LOTS INC - Form 10-Q

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of the registrant's common shares, \$0.01 par value, outstanding as of December 7, 2018, was 40,048,581.

BIG LOTS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Unaudited)

NOTE 1 – BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

All references in this report to “we,” “us,” or “our” are to Big Lots, Inc. and its subsidiaries. We are a community retailer operating in the United States (“U.S.”). At November 3, 2018, we operated 1,415 stores in 47 states. We make available, free of charge, through the “Investor Relations” section of our website (www.biglots.com) under the “SEC Filings” caption, our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934, as amended (“Exchange Act”), as soon as reasonably practicable after we file such material with, or furnish it to, the Securities and Exchange Commission (“SEC”). The contents of our websites are not part of this report.

The accompanying consolidated financial statements and these notes have been prepared in accordance with the rules and regulations of the SEC for interim financial information. The consolidated financial statements reflect all normal recurring adjustments which management believes are necessary to present fairly our financial condition, results of operations, and cash flows for all periods presented. The consolidated financial statements, however, do not include all information necessary for a complete presentation of financial condition, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States of America (“GAAP”). Interim results may not necessarily be indicative of results that may be expected for, or actually result during, any other interim period or for the year as a whole. We have historically experienced, and expect to continue to experience, seasonal fluctuations, with a larger percentage of our net sales and operating profit realized in our fourth fiscal quarter. The accompanying consolidated financial statements and these notes should be read in conjunction with the audited consolidated financial statements and notes included in our Annual Report on Form 10-K for the fiscal year ended February 3, 2018 (“2017 Form 10-K”).

Fiscal Periods

Our fiscal year ends on the Saturday nearest to January 31, which results in fiscal years consisting of 52 or 53 weeks. Unless otherwise stated, references to years in this report relate to fiscal years rather than calendar years. Fiscal year 2018 (“2018”) is comprised of the 52 weeks that began on February 4, 2018 and will end on February 2, 2019. Fiscal year 2017 (“2017”) was comprised of the 53 weeks that began on January 29, 2017 and ended on February 3, 2018. The fiscal quarters ended November 3, 2018 (“third quarter of 2018”) and October 28, 2017 (“third quarter of 2017”) were both comprised of 13 weeks. The year-to-date periods ended November 3, 2018 (“year-to-date 2018”) and October 28, 2017 (“year-to-date 2017”) were both comprised of 39 weeks.

Selling and Administrative Expenses

Selling and administrative expenses include store expenses (such as payroll and occupancy costs) and costs related to warehousing, distribution, outbound transportation to our stores, advertising, purchasing, insurance, non-income taxes, accepting credit/debit cards, and overhead. Our selling and administrative expense rates may not be comparable to those of other retailers that include warehousing, distribution, and outbound transportation costs in cost of sales. Warehousing, distribution, and outbound transportation costs included in selling and administrative expenses were \$45.5 million and \$39.4 million for the third quarter of 2018 and the third quarter of 2017, respectively, and \$131.1 million and \$115.6 million for the year-to-date 2018 and the year-to-date 2017, respectively.

Advertising Expense

Advertising costs, which are expensed as incurred, consist primarily of television and print advertising, digital or internet marketing and advertising, and in-store point-of-purchase presentations. Advertising expenses are included in selling and administrative expenses. Advertising expenses were \$16.4 million and \$15.3 million for the third quarter of 2018 and the third quarter of 2017, respectively, and \$54.7 million and \$51.1 million for the year-to-date 2018 and

the year-to-date 2017, respectively.

Derivative Instruments

We use derivative instruments to mitigate the risk of market fluctuations in the price of diesel fuel that we expect to consume to support our outbound transportation of inventory to our stores. We do not enter into derivative instruments for speculative purposes. Our derivative instruments may consist of collar or swap contracts. Our current derivative instruments do not meet the requirements for cash flow hedge accounting. Instead, our derivative instruments are marked-to-market to determine their fair value and any gains or losses are recognized currently in other income (expense) on our consolidated statements of operations and comprehensive income.

6

Table of Contents

Supplemental Cash Flow Disclosures

The following table provides supplemental cash flow information for the year-to-date 2018 and the year-to-date 2017:

(In thousands)	Thirty-Nine Weeks Ended	
	November 28, 2018	October 28, 2017
Supplemental disclosure of cash flow information:		
Cash paid for interest, including capital leases	\$6,494	\$ 3,835
Cash paid for income taxes, excluding impact of refunds	59,600	99,037
Gross proceeds from borrowings under bank credit facility	1,376,400	1,246,300
Gross repayments of borrowings under bank credit facility	1,088,200	980,800
Non-cash activity:		
Assets acquired under capital leases	785	90
Accrued property and equipment	\$37,440	\$ 15,224

Reclassifications

Merchandise Categories

We periodically assess, and make minor adjustments to, our product hierarchy, which can impact the roll-up of our merchandise categories. Our financial reporting process utilizes the most current product hierarchy in reporting net sales by merchandise category for all periods presented. Therefore, there may be minor reclassifications of net sales by merchandise category compared to previously reported amounts.

Recent Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-02, Leases (Topic 842). The update requires a lessee to recognize, on the balance sheet, a liability to make lease payments and a right-of-use asset representing a right to use the underlying asset for the lease term. The ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018, with early adoption permitted. The ASU allows for either the modified or full retrospective method of adoption. However, the FASB issued ASU No. 2018-11, Leases (Topic 842), Targeted Improvements, which allows entities to apply the transition provisions of the new standard at its adoption date instead of at the earliest comparative period presented in the consolidated financial statements. ASU 2018-11 will allow entities to continue to apply the legacy guidance in Topic 840, Leases, including its disclosure requirements, in the comparative periods presented in the year the new leases standard is adopted. Entities that elect this option would still adopt the new leases standard using a modified retrospective transition method, but would recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption rather than in the earliest period presented. We have elected to use the modified retrospective transition method as allowed by ASU 2018-11. We will not early adopt this standard. We are still evaluating the impact that this standard will have on our consolidated financial statements, as we complete the implementation of a new lease system. Currently we anticipate the impact on our balance sheet will be material.

Recently Adopted Accounting Standards

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). This update provided a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. Additionally, this guidance expanded related disclosure requirements. During the first quarter of 2018, we adopted the new standard on the retrospective method. The adoption had no impact on the timing of the recognition of our revenue or costs. The adoption did result in an immaterial adjustment to the amount of gross revenue and costs that we had previously reported, as certain of our vendor relationships had different principal versus agent treatment under the new standard. Additionally, we considered the disclosure requirements of the standard and determined that no additional disclosures were necessary.

Table of Contents

NOTE 2 – BANK CREDIT FACILITY

On July 22, 2011, we entered into a \$700 million five-year unsecured credit facility, which was amended on May 30, 2013 and May 28, 2015 (as amended, the “2011 Credit Agreement”).

On August 31, 2018, we amended and restated the 2011 Credit Agreement. The amended and restated credit agreement (the “2018 Credit Agreement”) provides for a \$700 million five-year unsecured credit facility. The 2011 Credit Agreement was scheduled to expire on May 30, 2020. The 2018 Credit Agreement expires on August 31, 2023. In connection with our entry into the 2018 Credit Agreement, we paid bank fees and other expenses in the aggregate amount of \$1.5 million, which are being amortized over the term of the agreement.

Borrowings under the 2018 Credit Agreement are available for general corporate purposes, working capital, and to repay certain of our indebtedness. The 2018 Credit Agreement includes a \$30 million swing loan sublimit, a \$75 million letter of credit sublimit, a \$75 million sublimit for loans to foreign borrowers, and a \$200 million optional currency sublimit. The interest rates, pricing and fees under the 2018 Credit Agreement fluctuate based on our debt rating. The 2018 Credit Agreement allows us to select our interest rate for each borrowing from multiple interest rate options. The interest rate options are generally derived from the prime rate or LIBOR. We may prepay revolving loans made under the 2018 Credit Agreement. The 2018 Credit Agreement contains financial and other covenants, including, but not limited to, limitations on indebtedness, liens and investments, as well as the maintenance of two financial ratios - a leverage ratio and a fixed charge coverage ratio. A violation of any of the covenants could result in a default under the 2018 Credit Agreement that would permit the lenders to restrict our ability to further access the 2018 Credit Agreement for loans and letters of credit and require the immediate repayment of any outstanding loans under the 2018 Credit Agreement. At November 3, 2018, we had \$488.0 million of borrowings outstanding under the 2018 Credit Agreement and \$8.6 million was committed to outstanding letters of credit, leaving \$203.4 million available under the 2018 Credit Agreement.

NOTE 3 – FAIR VALUE MEASUREMENTS

In connection with our nonqualified deferred compensation plan, we had mutual fund investments of \$32.4 million and \$33.0 million at November 3, 2018 and February 3, 2018, respectively, which were recorded in other assets. These investments were classified as trading securities and were recorded at their fair value. The fair values of mutual fund investments were Level 1 valuations under the fair value hierarchy because each fund’s quoted market value per share was available in an active market.

The fair values of our long-term obligations are estimated based on the quoted market prices for the same or similar issues and the current interest rates offered for similar instruments. These fair value measurements are classified as Level 2 within the fair value hierarchy. Given the variable rate features and relatively short maturity of the instruments underlying our long-term obligations, the carrying value of these instruments approximates the fair value.

The carrying value of accounts receivable, accounts payable, and accrued expenses approximates fair value because of the relatively short maturity of these items.

NOTE 4 – SHAREHOLDERS’ EQUITY

Earnings per Share

There were no adjustments required to be made to the weighted-average common shares outstanding for purposes of computing basic and diluted earnings per share and there were no securities outstanding at November 3, 2018 or October 28, 2017 which were excluded from the computation of earnings per share other than antidilutive stock options, restricted stock awards, restricted stock units, and performance share units. For the third quarter of 2018,

there were 0.1 million stock options outstanding that were antidilutive and excluded from the computation of diluted earnings. For the third quarter of 2017, the year-to-date 2018, and the year-to-date 2017, the stock options outstanding that were antidilutive and excluded from the computation of diluted earnings per share were immaterial. Antidilutive stock options generally consist of outstanding stock options with an exercise price per share that is greater than the weighted-average market price per share for our common shares for each period. Antidilutive stock options, restricted stock units, and performance share units are excluded from the calculation because they decrease the number of diluted shares outstanding under the treasury stock method. The restricted stock awards, restricted stock units, and performance share units that were antidilutive, as determined under the treasury stock method, were immaterial for all periods presented.

Share Repurchase Programs

On March 7, 2018, our Board of Directors authorized a share repurchase program providing for the repurchase of up to \$100 million of our common shares (“2018 Repurchase Program”). The 2018 Repurchase Program was exhausted during the second quarter of 2018.

On June 5, 2018, we utilized the entire authorization under our 2018 Repurchase Program to execute a \$100.0 million accelerated share repurchase transaction (“ASR Transaction”), which reduced our common shares outstanding by 2.4 million during the second quarter of 2018.

Dividends

The Company declared and paid cash dividends per common share during the periods presented as follows:

	Dividends Per Share	Amount Declared (In thousands)	Amount Paid (In thousands)
2018:			
First quarter	\$ 0.30	\$ 12,744	\$ 14,386
Second quarter	0.30	12,474	12,141
Third quarter	0.30	12,321	12,065
Total	\$ 0.90	\$ 37,539	\$ 38,592

The amount of dividends declared may vary from the amount of dividends paid in a period based on certain instruments with restrictions on payment, including restricted stock units and performance share units. The payment of future dividends will be at the discretion of our Board of Directors and will depend on our financial condition, results of operations, capital requirements, compliance with applicable laws and agreements and any other factors deemed relevant by our Board of Directors.

NOTE 5 – SHARE-BASED PLANS

We have issued nonqualified stock options, restricted stock awards, restricted stock units, and performance share units under our shareholder-approved equity compensation plans. Our restricted stock awards and restricted stock units, as described below and/or in note 7 to the consolidated financial statements in our 2017 Form 10-K, are expensed and reported as non-vested shares. We recognized share-based compensation expense of \$4.5 million and \$6.6 million in the third quarter of 2018 and the third quarter of 2017, respectively, and \$21.7 million and \$21.1 million for the year-to-date 2018 and the year-to-date 2017, respectively.

Non-vested Restricted Stock

The following table summarizes the non-vested restricted stock awards and restricted stock units activity for the year-to-date 2018:

	Number of Shares	Weighted Average Grant-Date Fair Value Per Share
Outstanding non-vested restricted stock at February 3, 2018	589,843	\$ 44.77
Granted	212,456	47.36
Vested	(365,667)	42.19
Forfeited	(26,597)	43.51
Outstanding non-vested restricted stock at May 5, 2018	410,035	\$ 47.92
Granted	36,243	40.75

Edgar Filing: BIG LOTS INC - Form 10-Q

Vested	(22,343)	48.52
Forfeited	(10,139)	43.03
Outstanding non-vested restricted stock at August 4, 2018	413,796	\$ 47.38
Granted	104,091	43.08
Vested	(25,003)	43.16
Forfeited	(11,121)	48.15
Outstanding non-vested restricted stock at November 3, 2018	481,763	\$ 46.54

9

Table of Contents

The non-vested restricted stock units granted in the year-to-date 2018 generally vest, and are expensed, on a ratable basis over three years from the grant date of the award, if it is probable that certain threshold financial performance objectives will be achieved and the grantee remains employed by us through the vesting dates.

The non-vested restricted stock awards granted in 2013 met the applicable threshold financial performance objective and vested in the first quarter of 2018.

Non-vested Stock Units to Non-Employee Directors

In the second quarter of 2018, 17,915 common shares underlying the restricted stock units granted in 2017 to the non-employee members of our Board of Directors vested on the trading day immediately preceding our 2018 Annual Meeting of Shareholders. These units were part of the annual compensation to the non-employee members of the Board of Directors. Additionally, in the second quarter of 2018, the chairman of our Board of Directors received an annual restricted stock unit grant having a grant date fair value of approximately \$200,000. The remaining non-employees elected to our Board of Directors at our 2018 Annual Meeting of Shareholders and the new non-employee directors appointed by the Board of Directors during the second quarter of 2018 each received an annual restricted stock unit grant having a grant date fair value of approximately \$135,000. The 2018 restricted stock units will vest on the earlier of (1) the trading day immediately preceding our 2019 Annual Meeting of Shareholders, or (2) the non-employee director's death or disability. However, the restricted stock units will not vest if the non-employee director ceases to serve on our Board of Directors before either vesting event occurs.

Performance Share Units

In the year-to-date 2018, we issued performance share units ("PSUs") to certain members of management, which vest if certain financial performance objectives are achieved over a three-year performance period and the grantee remains employed by us during that period. The financial performance objectives for each fiscal year within the three-year performance period are approved by the Compensation Committee of our Board of Directors during the first quarter of the respective fiscal year.

As a result of the process used to establish the financial performance objectives, we will only meet the requirements of establishing a grant date for the PSUs when we communicate the financial performance objectives for the third fiscal year of the award to the award recipients, which will then trigger the service inception date, the fair value of the awards, and the associated expense recognition period. If we meet the applicable threshold financial performance objectives over the three-year performance period and the grantee remains employed by us through the end of the performance period, the PSUs will vest on the first trading day after we file our Annual Report on Form 10-K for the last fiscal year in the performance period.

We have begun or expect to begin recognizing expense related to PSUs as follows:

Issue Year	Outstanding PSUs at November 3, 2018	Actual Grant Date	Expected Valuation (Grant) Date	Actual or Expected Expense Period
2016	282,083	March 2018		Fiscal 2018
2017	222,323		March 2019	Fiscal 2019
2018	237,422		March 2020	Fiscal 2020
Total	741,828			

The number of shares to be distributed upon vesting of the PSUs depends on our average performance attained during the three-year performance period as compared to the targets defined by the Compensation Committee, and may result in the distribution of an amount of shares that is greater or less than the number of PSUs granted, as defined in the

award agreement. At November 3, 2018, we estimate the attainment of an average performance that is slightly lower than the targets established for the PSUs issued in 2016. We recognized \$2.1 million and \$3.6 million in the third quarter of 2018 and the third quarter of 2017, respectively, and \$13.3 million and \$11.7 million in the year-to-date 2018 and the year-to-date 2017, respectively, of share-based compensation expense related to PSUs.

Table of Contents

The following table summarizes the activity related to PSUs for the year-to-date 2018:

	Number of Units	Weighted Average Grant-Date Fair Value Per Share
Outstanding PSUs at February 3, 2018	249,324	\$ 51.49
Granted	337,421	55.67
Vested	(247,130)	51.49
Forfeited	(44,146)	43.94
Outstanding PSUs at May 5, 2018	295,469	\$ 55.64
Granted	—	—
Vested	(2,194)	51.49
Forfeited	(2,512)	55.67
Outstanding PSUs at August 4, 2018	290,763	\$ 55.67
Granted	—	—
Vested	—	—
Forfeited	(8,680)	55.67
Outstanding PSUs at November 3, 2018	282,083	\$ 55.67

Stock Options

The following table summarizes stock option activity for the year-to-date 2018:

	Number of Options	Weighted Average Exercise Price Per Share	Weighted Average Remaining Term (years)	Contractual	Aggregate Intrinsic Value (000's)
Outstanding stock options at February 3, 2018	280,626	\$ 39.04			
Exercised	(625)	31.76			
Forfeited	—	—			
Outstanding stock options at May 5, 2018	280,001	\$ 39.06	1.5		\$ 930
Exercised	—	—			
Forfeited	—	—			
Outstanding stock options at August 4, 2018	280,001	\$ 39.06	1.2		\$ 1,795
Exercised	(42,500)	43.28			
Forfeited	—	—			
Outstanding stock options at November 3, 2018	237,501	\$ 38.30	1.0		\$ 1,136
Vested or expected to vest at November 3, 2018	237,501	\$ 38.30	1.0		\$ 1,136
Exercisable at November 3, 2018	237,501	\$ 38.30	1.0		\$ 1,136

The stock options granted in prior years vested in equal amounts on the first four anniversaries of the grant date and have a contractual term of seven years.

Table of Contents

The following activity occurred under our share-based plans during the respective periods shown:

(In thousands)	Third Quarter		Year-to-Date	
	2018	2017	2018	2017
Total intrinsic value of stock options exercised	\$220	\$875	\$228	\$2,952
Total fair value of restricted stock vested	1,042	1,114	19,230	8,943
Total fair value of performance shares vested	—	—	12,792	1,026

The total unearned compensation cost related to all share-based awards outstanding, excluding PSUs issued in 2017 and 2018, at November 3, 2018 was approximately \$19.1 million. This compensation cost is expected to be recognized through October 2020 based on existing vesting terms with the weighted-average remaining expense recognition period being approximately 1.7 years from November 3, 2018.

NOTE 6 – INCOME TAXES

In 2017, and in accordance with Staff Accounting Bulletin No. 118, we recorded the provisional tax impacts of the Tax Cut and Jobs Creation Act (“TCJA”) on then existing current and deferred tax amounts. During the third quarter of 2018, we made approximately \$0.6 million in adjustments to previously recorded provisional amounts related to the TCJA. During the fourth quarter of 2018, we will complete our accounting for the TCJA.

We have estimated the reasonably possible expected net change in unrecognized tax benefits through November 3, 2019, based on (1) expected cash and noncash settlements or payments of uncertain tax positions, and (2) lapses of the applicable statutes of limitations for unrecognized tax benefits. The estimated net decrease in unrecognized tax benefits for the next 12 months is approximately \$3.0 million. Actual results may differ materially from this estimate.

NOTE 7 – CONTINGENCIES

Shareholder and Derivative Matters

On May 21, May 22 and July 2, 2012, three shareholder derivative lawsuits were filed in the U.S. District Court for the Southern District of Ohio against us and certain of our current and former outside directors and executive officers. The lawsuits were consolidated, and, on August 13, 2012, plaintiffs filed a consolidated complaint captioned In re Big Lots, Inc. Shareholder Litigation, No. 2:12-cv-00445 (S.D. Ohio) (the “Consolidated Derivative Action”). The consolidated complaint asserted claims under Ohio law for breach of fiduciary duty, unjust enrichment, misappropriation of trade secrets and corporate waste and sought declaratory relief and disgorgement to us of proceeds from any wrongful sales of our common shares, plus attorneys’ fees and expenses. On October 18, 2013, a different shareholder filed an additional derivative lawsuit captioned Brosz v. Fishman et al., No. 1:13-cv-00753 (S.D. Ohio) (the “Brosz Action”) in the U.S. District Court for the Southern District of Ohio against us and each of the current and former outside directors and executive officers originally named in the 2012 shareholder derivative lawsuit. On December 29, 2016, the Court ordered that the Brosz Action be consolidated with the Consolidated Derivative Action. On December 14, 2017, the parties entered into a Stipulation and Agreement of Settlement and plaintiffs filed an Unopposed Motion for Preliminary Approval of Derivative Settlement with the Court. On August 28, 2018, the Court issued an Order granting final approval of the Settlement.

On July 9, 2012, a putative securities class action lawsuit captioned Willis, et al. v. Big Lots, Inc., et al., 2:12-cv-00604 (S.D. Ohio) was filed in the U.S. District Court for the Southern District of Ohio on behalf of persons who acquired our common shares between February 2, 2012 and April 23, 2012. Effective May 16, 2018, the parties executed a Stipulation of Settlement. On November 9, 2018, the Court issued an Order granting final approval of the Settlement. In connection with the settlement of the Willis class action and the Consolidated Derivative Action, during the first quarter of 2018, we recorded a net charge of \$3.5 million related to the expected cost of the settlements for the

funds in excess of our insurance coverage. During the second quarter of 2018, the settlement associated with the Willis class action was paid into escrow pending the final approval by the Court.

Table of Contents

Other Matters

We are involved in other legal actions and claims arising in the ordinary course of business. We currently believe that each such action and claim will be resolved without a material effect on our financial condition, results of operations, or liquidity. However, litigation involves an element of uncertainty. Future developments could cause these actions or claims to have a material effect on our financial condition, results of operations, and liquidity.

NOTE 8 – BUSINESS SEGMENT DATA

We use the following seven merchandise categories, which match our internal management and reporting of merchandise net sales: Food, Consumables, Soft Home, Hard Home, Furniture, Seasonal, and Electronics, Toys, & Accessories. The Food category includes our beverage & grocery, candy & snacks, and specialty foods departments. The Consumables category includes our health, beauty and cosmetics, plastics, paper, chemical, and pet departments. The Soft Home category includes the home décor, frames, fashion bedding, utility bedding, bath, window, decorative textile, home organization and area rugs departments. The Hard Home category includes our small appliances, table top, food preparation, stationery, greeting cards, and home maintenance departments. The Furniture category includes our upholstery, mattress, ready-to-assemble, and case goods departments. The Seasonal category includes our lawn & garden, summer, Christmas, and other holiday departments. The Electronics, Toys, & Accessories category includes the electronics, jewelry, hosiery, and toys departments.

We periodically assess, and potentially enact minor adjustments to, our product hierarchy, which can impact the roll-up of our merchandise categories. Our financial reporting process utilizes the most current product hierarchy in reporting net sales by merchandise category for all periods presented. Therefore, there may be minor reclassifications of net sales by merchandise category compared to previously reported amounts.

The following table presents net sales data by merchandise category:

(In thousands)	Third Quarter		Year-to-Date	
	2018	2017	2018	2017
Furniture	\$314,085	\$277,905	\$942,856	\$900,278
Soft Home	202,693	188,342	584,016	552,856
Consumables	194,480	198,236	573,215	586,735
Food	185,641	192,462	549,576	568,567
Hard Home	92,275	97,676	271,916	285,835
Seasonal	90,824	83,666	508,397	500,009
Electronics, Toys, & Accessories	69,404	70,897	209,578	229,471
Net sales	\$1,149,402	\$1,109,184	\$3,639,554	\$3,623,751

Table of Contents

NOTE 9 – DERIVATIVE INSTRUMENTS

We may enter into derivative instruments designed to mitigate certain risks, including collar contracts to mitigate our risk associated with market fluctuations in diesel fuel prices. These contracts are used strictly to limit our risk exposure and not as speculative transactions. Our derivative instruments associated with diesel fuel do not meet the requirements for cash flow hedge accounting. Therefore, our derivative instruments associated with diesel fuel will be marked-to-market to determine their fair value and the associated gains and losses will be recognized currently in other income (expense) on our consolidated statements of operations and comprehensive income.

Our outstanding derivative instrument contracts were comprised of the following:

(In thousands)	November 3, 2018	February 3, 2018
Diesel fuel collars (in gallons)	5,700	3,600

The fair value of our outstanding derivative instrument contracts was as follows:

(In thousands)	Derivative Instrument	Balance Sheet Location	Assets (Liabilities)	
			November 3, 2018	February 3, 2018
	Diesel fuel collars	Other current assets	\$1,080	\$ 312
		Other assets	452	262
		Accrued operating expenses	(240)	(77)
		Other liabilities	(442)	(107)
	Total derivative instruments		\$850	\$ 390

The effect of derivative instruments on the consolidated statements of operations and comprehensive income was as follows:

(In thousands)	Derivative Instrument	Statements of Operations Location	Amount of Gain (Loss)			
			Third Quarter		Year-to-Date	
			2018	2017	2018	2017
	Diesel fuel collars					
	Realized	Other income (expense)	\$154	\$(180)	\$279	\$(678)
	Unrealized	Other income (expense)	(102)	611	460	961
	Total derivative instruments		\$52	\$431	\$739	\$283

The fair values of our derivative instruments are determined using observable inputs from commonly quoted markets. These fair value measurements are classified as Level 2 within the fair value hierarchy.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS FOR PURPOSES OF THE SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

The Private Securities Litigation Reform Act of 1995 (the "Act") provides a safe harbor for forward-looking statements to encourage companies to provide prospective information, so long as those statements are identified as forward-looking and are accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those discussed in the statements. We wish to take advantage of the "safe harbor" provisions of the Act.

Certain statements in this report are forward-looking statements within the meaning of the Act, and such statements are intended to qualify for the protection of the safe harbor provided by the Act. The words "anticipate," "estimate," "expect," "objective," "goal," "project," "intend," "plan," "believe," "will," "should," "may," "target," "forecast," "guidance," expressions generally identify forward-looking statements. Similarly, descriptions of our objectives, strategies, plans, goals or targets are also forward-looking statements. Forward-looking statements relate to the expectations of management as to future occurrences and trends, including statements expressing optimism or pessimism about future operating results or events and projected sales, earnings, capital expenditures and business strategy. Forward-looking statements are based upon a number of assumptions concerning future conditions that may ultimately prove to be inaccurate. Forward-looking statements are and will be based upon management's then-current views and assumptions regarding future events and operating performance, and are applicable only as of the dates of such statements. Although we believe the expectations expressed in forward-looking statements are based on reasonable assumptions within the bounds of our knowledge, forward-looking statements, by their nature, involve risks, uncertainties and other factors, any one or a combination of which could materially affect our business, financial condition, results of operations or liquidity.

Forward-looking statements that we make herein and in other reports and releases are not guarantees of future performance and actual results may differ materially from those discussed in such forward-looking statements as a result of various factors, including, but not limited to, the current economic and credit conditions, the cost of goods, our inability to successfully execute strategic initiatives, competitive pressures, economic pressures on our customers and us, the availability of brand name closeout merchandise, trade restrictions, freight costs, the risks discussed in the Risk Factors section of our most recent Annual Report on Form 10-K, and other factors discussed from time to time in our other filings with the SEC, including Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. This report should be read in conjunction with such filings, and you should consider all of these risks, uncertainties and other factors carefully in evaluating forward-looking statements.

Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date they are made. We undertake no obligation to publicly update forward-looking statements whether as a result of new information, future events or otherwise. Readers are advised, however, to consult any further disclosures we make on related subjects in our public announcements and SEC filings.

Table of Contents

OVERVIEW

The discussion and analysis presented below should be read in conjunction with the accompanying consolidated financial statements and related notes. Each term defined in the notes has the same meaning in this item and the balance of this report.

The following are the results from the third quarter of 2018 that we believe are key indicators of our operating performance when compared to our operating performance from the third quarter of 2017:

Net sales increased \$40.2 million, or 3.6%.

Comparable store sales for stores open at least fifteen months, including e-commerce, increased \$36.5 million, or 3.4%.

Gross margin dollars increased \$15.6 million, and gross margin rate decreased 10 basis points to 39.9% from 40.0% of sales.

Selling and administrative expenses increased \$28.5 million. As a percentage of net sales, selling and administrative expenses increased 120 basis points to 38.0% of net sales.

Operating loss rate was 0.8% in the third quarter of 2018 as compared to an operating profit rate of 0.5% in the third quarter of 2017.

Diluted earnings per share decreased to a loss of \$(0.16) per share from an earnings of \$0.10 per share in the third quarter of 2017.

Inventory increased by 3.4%, or \$35.7 million, to \$1,073.9 million from the third quarter of 2017.

We declared and paid a quarterly cash dividend in the amount of \$0.30 per common share in the third quarter of 2018 compared to a quarterly cash dividend of \$0.25 per common share paid in the third quarter of 2017.

See the discussion and analysis below for additional details regarding our operating results.

STORES

The following table presents stores opened and closed during the year-to-date 2018 and the year-to-date 2017:

	2018	2017
Stores open at the beginning of the fiscal year	1,416	1,432
Stores opened during the period	20	19
Stores closed during the period	(21)	(25)
Stores open at the end of the period	1,415	1,426

We now expect to close 14 net stores during 2018, based on opening approximately 32 stores and closing approximately 46 stores during 2018.

Table of Contents

RESULTS OF OPERATIONS

The following table compares components of our consolidated statements of operations and comprehensive income as a percentage of net sales at the end of each period:

	Third Quarter		2017		Year-to-Date		2017	
	2018	%	2017	%	2018	%	2017	%
Net sales	100.0	%	100.0	%	100.0	%	100.0	%
Cost of sales (exclusive of depreciation expense shown separately below)	60.1		60.0		59.8		59.7	
Gross margin	39.9		40.0		40.2		40.3	
Selling and administrative expenses	38.0		36.8		35.8		34.2	
Depreciation expense	2.8		2.7		2.5		2.4	
Operating (loss) profit	(0.8)	0.5		1.9		3.7	
Interest expense	(0.3)	(0.2)	(0.2)	(0.1)
Other income (expense)	0.0		0.0		0.0		0.0	
(Loss) income before income taxes	(1.1)	0.4		1.7		3.6	
Income tax (benefit) expense	(0.5)	(0.0)	0.4		1.2	
Net (loss) income and comprehensive (loss) income	(0.6)%	0.4	%	1.3	%	2.3	%

THIRD QUARTER OF 2018 COMPARED TO THIRD QUARTER OF 2017

Net Sales

Net sales by merchandise category (in dollars and as a percentage of total net sales) in the third quarter of 2018 and the third quarter of 2017, and the change in net sales (in dollars and percentage) and the change in comparable store sales for stores open at least fifteen months plus the results of our e-commerce net sales (“comp” or “comps”) (in percentage) from the third quarter of 2018 compared to the third quarter of 2017 were as follows:

Third Quarter (\$ in thousands)	2018		2017		Change		Comps
Furniture	\$314,085	27.4 %	\$277,905	25.0 %	\$36,180	13.0 %	12.5 %
Soft Home	202,693	17.6	188,342	17.0	14,351	7.6	7.5
Consumables	194,480	16.9	198,236	17.9	(3,756)	(1.9)	(1.0)
Food	185,641	16.2	192,462	17.4	(6,821)	(3.5)	(4.4)
Hard Home	92,275	8.0	97,676	8.8	(5,401)	(5.5)	(4.4)
Seasonal	90,824	7.9	83,666	7.5	7,158	8.6	7.9
Electronics, Toys, & Accessories	69,404	6.0	70,897	6.4	(1,493)	(2.1)	(4.1)
Net sales	\$1,149,402	100.0 %	\$1,109,184	100.0 %	\$40,218	3.6 %	3.4 %

We periodically assess, and make minor adjustments to, our product hierarchy, which can impact the roll-up of our merchandise categories. Our financial reporting process utilizes the most current product hierarchy in reporting net sales by merchandise category for all periods presented. Therefore, there may be minor reclassifications of net sales by merchandise category compared to previously reported amounts.

Net sales increased \$40.2 million, or 3.6%, to \$1,149.4 million in the third quarter of 2018, compared to \$1,109.2 million in the third quarter of 2017. The increase in net sales was driven by a 3.4% increase in our comps, which increased net sales by \$36.5 million. Additionally, there was a shift in calendar weeks in our fiscal year from 2017 to 2018, as 2017 was a 53-week fiscal year, which positively impacted sales in the third quarter of 2018 by approximately \$3.4 million.

Table of Contents

Our Furniture, Seasonal, and Soft Home merchandise categories generated positive comps:

The Furniture category experienced increased net sales and comps during the third quarter of 2018, which continued to be driven by improved trends (e.g., sequential quarter growth rates) with new styles and/or colors in all departments. The sales performance was appreciably impacted by the continued success of our third-party Easy Leasing lease-to-own program and our third party, private label credit card offering.

Our Seasonal category had increases in comps and net sales primarily due to strength in our summer, lawn & garden, and harvest departments. The strength in these departments was a result of a favorable response to our fall decor assortment and greater inventory depth (i.e., available for sale), particularly in our summer and lawn & garden departments, entering the third quarter of 2018 as compared to the third quarter of 2017.

The positive comps and net sales in Soft Home were primarily driven by increased selling space and continued improvement in product assortment, quality, and perceived value by our customers, specifically in our home decor, decorative textile, flooring, and bath departments. Additionally, the growth in our Furniture category positively influences Soft Home as Jennifer is interested in updating her decor to complement her new furniture.

The positive comps in our Furniture, Seasonal, and Soft Home merchandise categories were partially offset by negative comps and net sales in our Consumables, Food, Hard Home, and Electronics, Toys, & Accessories categories:

Our Food and Consumables categories had lower comps and net sales as the discount, grocery, and online marketplace continue to be highly price competitive.

There were decreases in net sales and comps in Hard Home and Electronics, Toys, & Accessories due to intentionally narrowed product assortments, reduced linear footage allocation, and reduced inventory purchases.

Gross Margin

Gross margin dollars increased by \$15.6 million, or 3.5%, to \$459.2 million for the third quarter of 2018, compared to \$443.6 million for the third quarter of 2017. The increase in gross margin dollars was primarily due to higher sales.

Gross margin as a percentage of net sales decreased 10 basis points to 39.9% in the third quarter of 2018, compared to 40.0% in the third quarter of 2017. The slight gross margin rate decrease was attributed to a higher overall markdown rate, partially offset by a higher initial mark-up and a lower shrink rate in the third quarter of 2018 as compared to the third quarter of 2017.

Selling and Administrative Expenses

Selling and administrative expenses were \$436.8 million for the third quarter of 2018, compared to \$408.3 million for the third quarter of 2017. The increase of \$28.5 million in selling and administrative expenses was primarily driven by increases in store-related payroll of \$7.9 million, distribution and outbound transportation costs of \$6.1 million, store-related occupancy costs of \$4.0 million, accrued bonus expense of \$2.8 million, \$1.7 million in corporate wages, corporate headquarters occupancy expense of \$1.6 million, and \$1.3 million in non-payroll costs associated with our store of the future remodel project, partially offset by a decrease in utilities of \$2.5 million. The increase in store-related payroll was due to investment in our store associate wage rates along with the addition of payroll costs associated with our store of the future project activity. The increase in distribution and outbound transportation costs was driven by higher carrier rates, a rise in fuel prices, and our investment in our distribution center associate wage rates. The increase in store-related occupancy costs was driven by normal renewals, growth in the average store size for our new stores, and pre-opening rents associated with leases that we purchased from a bankrupt retailer. The increase in accrued bonus expense was related to our quarterly store bonus program driven by above plan performance on comparable store sales. Corporate wage growth was driven by three items - annual merit increase, a sign-on bonus for our newly hired chief executive officer, and severance costs. Our corporate headquarters occupancy cost increase was due to the lease for our new headquarters, when in the prior year we owned our facility. Associated with our store of the future project, we incurred costs related to supplies, in-store displays, and travel to support the completion of each location, which are not included in the capitalized construction costs. The decrease in utilities was primarily driven by our investment in LED lighting at our stores.

As a percentage of net sales, selling and administrative expenses increased 120 basis points to 38.0% for the third quarter of 2018 compared to 36.8% for the third quarter of 2017.

Depreciation Expense

Depreciation expense increased \$2.4 million to \$31.9 million in the third quarter of 2018, compared to \$29.5 million for the third quarter of 2017. The increase was primarily driven by our store of the future project and our investment in furniture, fixtures, and equipment for our new headquarters. Depreciation expense as a percentage of sales was 2.8% for the third quarter of 2018 compared to 2.7% for the third quarter of 2017.

Table of Contents

Interest Expense

Interest expense was \$3.1 million in the third quarter of 2018, compared to \$2.1 million in the third quarter of 2017. The increase in interest expense was driven by increases in both our average interest rate and our average borrowings on our revolving debt, each of which contributed approximately half of the increase, in the third quarter of 2018 compared to the third quarter of 2017. We had total average borrowings (including capital leases) of \$393.2 million in the third quarter of 2018 compared to \$306.8 million in the third quarter of 2017. The increase in total average borrowings (including capital leases) was primarily due to an increase of \$89.4 million to our average revolving debt balance under the 2011 Credit Agreement, which was primarily the result of a higher beginning debt balance in 2018 as compared to 2017.

Other Income (Expense)

Other income (expense) was \$0.1 million in the third quarter of 2018, compared to \$0.4 million in the third quarter of 2017.

Income Taxes

The effective income tax benefit rate for the third quarter of 2018 and the third quarter of 2017 was 48.1% and 5.8%, respectively. The increase in the effective income tax benefit rate was principally attributable to (1) the tax effect of comparing the occurrence of a loss before income taxes in the third quarter of 2018 to income before income taxes in the third quarter of 2017; (2) an increase in favorable state tax settlements; and (3) a favorable adjustment to the provisional amounts that we recorded for the TCJA. The increase in the effective income tax benefit rate was partially offset by a reduction in the U.S. federal statutory tax rate due to the TCJA (which comparatively decreased the tax benefit of the third quarter 2018 due to the loss before income taxes).

YEAR-TO-DATE 2018 COMPARED TO YEAR-TO-DATE 2017

Net Sales

Net sales by merchandise category (in dollars and as a percentage of total net sales) in the year-to-date 2018 and the year-to-date 2017, and the change in net sales (in dollars and percentage) and the change in comps (in percentage) from the year-to-date 2018 compared to the year-to-date 2017 were as follows:

Year-to-Date

(\$ in thousands)	2018		2017		Change		Comps	
Furniture	\$942,856	25.9 %	\$900,278	24.8 %	\$42,578	4.7 %	4.3 %	
Soft Home	584,016	16.0	552,856	15.3	31,160	5.6	5.5	
Consumables	573,215	15.7	586,735	16.2	(13,520)	(2.3)	(1.6)	
Food	549,576	15.1	568,567	15.7	(18,991)	(3.3)	(3.0)	
Seasonal	508,397	14.0	500,009	13.8	8,388	1.7	1.4	
Hard Home	271,916	7.5	285,835	7.9	(13,919)	(4.9)	(4.6)	
Electronics, Toys, & Accessories	209,578	5.8	229,471	6.3	(19,893)	(8.7)	(8.8)	
Net sales	\$3,639,554	100.0 %	\$3,623,751	100.0 %	\$15,803	0.4 %	0.5 %	

Net sales increased \$15.8 million, or 0.4%, to \$3,639.6 million in the year-to-date 2018, compared to \$3,623.8 million in the year-to-date 2017. The increase in net sales was principally due to a 0.5% increase in comps, which increased net sales by \$16.8 million and the shift in calendar weeks in our fiscal year from 2017 to 2018, as 2017 was a 53-week fiscal year, which positively impacted sales in the year-to-date 2018 by \$18.8 million. These increases were partially offset by a net decrease of 11 stores since the end of the third quarter of 2017, which decreased net sales by \$19.8 million.

Our Soft Home, Furniture, and Seasonal merchandise categories generated positive comps:

-

The Soft Home category experienced increases in net sales and comps due to continued improvement in product assortment, quality, and perceived value by our customers, most notably the flooring, bath, and home decor departments, and increased selling space.

The increases in net sales and comps in Furniture were primarily due to strong performance in our case goods offering, along with an accelerating trend change in our upholstery and mattress departments during the second and third quarters, driven by new styles and colors. The accelerating trend change was enhanced by the continued success of our third party Easy Leasing lease-to-own program and our third party, private label credit card offering.

The positive comps and increased net sales in our Seasonal category were a result of positive results in fall fashion assortments, specifically in the harvest and Halloween departments, and in lawn & garden.

Table of Contents

The positive comps in our Soft Home, Furniture, and Seasonal merchandise categories were partially offset by negative comps and net sales in our Consumables, Food, Hard Home, and Electronics, Toys, & Accessories categories:

Our Consumables and Food categories experienced decreases in comps and net sales, as they continue to be highly price competitive in the discount, grocery, and online marketplace.

The lower comps and net sales in the Hard Home and Electronics, Toys, & Accessories categories were a result of an intentionally narrowed merchandise assortment and reduced space allocation, specifically in the electronics and former infant accessories departments.

For the fourth quarter of 2018, we expect comparable store sales to be in the range of flat to an increase of 2%. Additionally, total net sales for the fourth quarter of 2018 will be lower than the fourth quarter of 2017 due to the fiscal calendar shift which resulted in the fourth quarter of 2018 having only 13 weeks, while the fourth quarter of 2017 was a 14-week period.

Gross Margin

Gross margin dollars increased \$2.2 million, or 0.1%, to \$1,462.6 million for the year-to-date 2018, compared to \$1,460.4 million for the year-to-date 2017. The increase in gross margin dollars was principally due to an increase in net sales, partially offset by a slightly lower gross margin rate. Gross margin as a percentage of net sales decreased 10 basis points to 40.2% in the year-to-date 2018, compared to 40.3% in the year-to-date 2017. The gross margin rate decrease was the result of a higher markdown rate partially offset by a slightly higher initial mark-up and favorable shrink results compared to the year-to-date 2017.

For the fourth quarter of 2018, we anticipate our gross margin rate will be lower than the fourth quarter of 2017, based on our expectation of an increase in projected markdowns for our Seasonal and weather sensitive merchandise based on lower than expected net sales in that area during the month of November and uncertainty surrounding the impact of tariffs on our initial markup in relation to mix of merchandise sales in the fourth quarter.

Selling and Administrative Expenses

Selling and administrative expenses were \$1,301.5 million for the year-to-date 2018, compared to \$1,239.4 million for the year-to-date 2017. The increase of \$62.1 million, or 5.0%, was primarily driven by costs associated with the retirement of our former chief executive officer, costs associated with the settlement of our shareholder litigation, and increases in distribution and outbound transportation costs of \$15.5 million, store-related payroll of \$12.8 million, store-related occupancy of \$7.8 million, \$3.9 million in non-payroll costs associated with our store of the future project, advertising of \$3.6 million, and corporate headquarters occupancy expense of \$3.1 million, partially offset by decreases in accrued bonus of \$5.9 million and utilities expense of \$3.0 million. Our former chief executive officer retired during the first quarter of 2018, entitling him to certain separation benefits that resulted in \$7.0 million in costs. Additionally, we incurred \$3.5 million in charges related to a settlement of shareholder and derivative litigation matters that were initially filed in 2012. The distribution and outbound transportation cost increase was a result of higher carrier rates, a rise in fuel prices, and investment in our distribution center associate wage rates in the year-to-date 2018 compared to the year-to-date 2017. The increase in store-related payroll was mostly due to growth in the average wage rate along with additional payroll costs associated with our store of the future remodel activity in certain markets, partially offset by a net decrease of 11 stores since the end of the third quarter of 2017. Our store occupancy cost increased due to normal renewals, growth in the average store size for our new stores, and pre-opening rents associated with leases that we purchased from a bankrupt retailer. Associated with our store of the future project, we incurred costs related to supplies, in-store displays, and travel to support the completion of each location, which are not included in the capitalized construction costs. The increase in our advertising expense was due to increased spend in television promotions and production costs, along with the shift in timing of certain events in 2018 as compared to 2017. Our corporate headquarters occupancy cost increase was due to the lease for our new headquarters, when in the prior year we owned our facility. The decrease in accrued bonus expense was driven by lower

performance in the year-to-date 2018 relative to our annual operating plan as compared to our year-to-date 2017 performance relative to our annual operating plan. The decrease in utilities was primarily driven by our investment in LED lighting at our stores.

As a percentage of net sales, selling and administrative expenses increased 160 basis points to 35.8% for the year-to-date 2018 compared to 34.2% for the year-to-date 2017.

During the fourth quarter of 2018, we anticipate that our selling and administrative expenses as a percentage of net sales will be higher in comparison to the fourth quarter of 2017, principally due to continued cost pressures on our outbound distribution and transportation costs and continued investment in store payroll in the form of a higher average wage rate.

Table of Contents

Depreciation Expense

Depreciation expense increased \$3.4 million to \$90.9 million in the year-to-date 2018, compared to \$87.5 million for the year-to-date 2017. The increase continued to be driven by our store of the future project, as well as our investment in furniture, fixtures, and equipment for our new corporate headquarters. Depreciation expense as a percentage of sales increased by 10 basis points compared to the year-to-date 2017.

We expect that our depreciation expense for the fourth quarter of 2018 will be higher in comparison to the fourth quarter of 2017, principally due to our investment in our store of the future project.

Interest Expense

Interest expense was \$7.1 million in the year-to-date 2018, compared to \$4.7 million in the year-to-date 2017. The increase in interest expense was driven by increases in both our average interest rate and our average borrowings on our revolving debt in the year-to-date 2018 compared to the year-to-date 2017. The increase in average interest rate had a greater impact than the increase in our average borrowings. The increase in our average interest rate was driven by the increase in LIBOR as our 2011 Credit Agreement and 2018 Credit Agreement are both variable based on LIBOR. We had total average borrowings (including capital leases) of \$300.0 million in the year-to-date 2018 compared to total average borrowings of \$231.5 million in the year-to-date 2017. The increase in total average borrowings (including capital leases) was driven by an increase of \$72.0 million to our average revolving debt balance in 2018 as compared to 2017.

We expect that our interest expense for the fourth quarter of 2018 will be higher in comparison to the fourth quarter of 2017, due to increases both in our average borrowing rates and in our average borrowings since the end of the third quarter of 2017.

Other Income (Expense)

Other income (expense) was \$0.7 million in the year-to-date 2018, compared to \$0.3 million in the year-to-date 2017. The increased income was driven by realized gains on the settlement of our expiring diesel fuel contracts as fuel prices rose during the contractual periods, partially offset by the lower unrealized gains on our active diesel fuel contracts as projected diesel fuel price escalation tempered during the third quarter of 2018.

Income Taxes

The effective income tax rate for the year-to-date 2018 and the year-to-date 2017 was 23.3% and 34.2%, respectively. The net decrease in the effective income tax rate was primarily attributable to the impact of the enactment of the TCJA, which lowered our U.S. Federal statutory tax rate and an increase in favorable state tax settlements. This decrease was partially offset by (1) the adverse impact of the adjustment to our fourth quarter 2017 income tax deduction accrual estimate of the guaranteed payout of non-vested restricted stock units and PSUs due to a lower share price at vesting in the first quarter of 2018, (2) a shift from generating net excess tax benefits associated with settlement of share-based payment awards (non-vested restricted stock units and PSUs) in the first quarter of 2017 to generating net excess tax deficiencies associated with settlement of those share-based payment awards in the first quarter of 2018, and (3) an increase in nondeductible expenses due to the TCJA.

Capital Resources and Liquidity

On August 31, 2018, we entered into an amendment and restatement of the 2011 Credit Agreement that provides for a \$700 million five-year unsecured credit facility (“2018 Credit Agreement”) and replaces the 2011 Credit Agreement. The 2018 Credit Agreement expires on August 31, 2023. Borrowings under the 2018 Credit Agreement are available for general corporate purposes, working capital, and to repay certain of our indebtedness. The 2018 Credit Agreement includes a \$30 million swing loan sublimit, a \$75 million letter of credit sublimit, a \$75 million sublimit for loans to foreign borrowers, and a \$200 million optional currency sublimit. The interest rates, pricing and fees under the 2018 Credit Agreement fluctuate based on our debt rating. The 2018 Credit Agreement allows us to select our interest rate

for each borrowing from multiple interest rate options. The interest rate options are generally derived from the prime rate or LIBOR. We may prepay revolving loans made under the 2018 Credit Agreement. The 2018 Credit Agreement contains financial and other covenants, including, but not limited to, limitations on indebtedness, liens and investments, as well as the maintenance of two financial ratios - a leverage ratio and a fixed charge coverage ratio. A violation of any of the covenants could result in a default under the 2018 Credit Agreement that would permit the lenders to restrict our ability to further access the 2018 Credit Agreement for loans and letters of credit and require the immediate repayment of any outstanding loans under the 2018 Credit Agreement. At November 3, 2018, we were in compliance with the covenants of the 2018 Credit Agreement.

Table of Contents

The primary source of our liquidity is cash flows from operations and, as necessary, borrowings under the 2018 Credit Agreement. Our net income and, consequently, our cash provided by operations are impacted by net sales volume, seasonal sales patterns, and operating profit margins. Our net sales are typically highest during the nine-week Christmas selling season in our fourth fiscal quarter. Generally, our working capital requirements peak late in our third fiscal quarter or early in our fourth fiscal quarter. We have typically funded those requirements with borrowings under our credit facility. At November 3, 2018, we had \$488.0 million in outstanding borrowings under the 2018 Credit Agreement and the borrowings available under the 2018 Credit Agreement were \$203.4 million, after taking into account the reduction in availability resulting from outstanding letters of credit totaling \$8.6 million.

In March 2018, our Board of Directors authorized us to repurchase up to \$100.0 million of our outstanding common shares. During the second quarter of 2018, we exhausted the 2018 Repurchase Plan by executing an accelerated share repurchase transaction for the entire \$100.0 million, which resulted in the purchase of approximately 2.4 million common shares at an average price of \$42.11 per share.

In the year-to-date 2018, we have declared and paid three quarterly cash dividends, each of which was \$0.30 per common share for a total paid amount of approximately \$38.6 million.

In December 2018, our Board of Directors declared a quarterly cash dividend of \$0.30 per common share payable on December 28, 2018 to shareholders of record as of the close of business on December 14, 2018.

The following table compares the primary components of our cash flows from the year-to-date 2018 to the year-to-date 2017:

(In thousands)	2018	2017	Change
Net cash provided by operating activities	\$40,420	\$29,072	\$11,348
Net cash used in investing activities	(281,033)	(93,293)	(187,740)
Net cash provided by financing activities	\$251,375	\$71,069	\$180,306

Cash provided by operating activities increased by \$11.3 million to \$40.4 million in the year-to-date 2018 compared to \$29.1 million in the year-to-date 2017. The primary driver of the increase was reduced cash outflows for accounts payable. In the first quarter of 2017, we began partnering with our vendor community, through changes in certain payment terms, that increased our cash outflows for accounts payable. Those partnering activities were anniversaried in the first quarter of 2018. Therefore, the impact of the partnering activities was lessened in the year-to-date 2018. Cash provided by operating activities was favorably impacted by reduced payments of accrued bonuses in the first quarter of 2018 as compared to the first quarter of 2017. Additionally, cash paid for taxes in the year-to-date 2018 was lower than the year-to-date 2017 due to the impact of lower Federal income tax rates as a result of the TCJA and lower taxable income. Partially offsetting the increase in cash provided by operating activities was a decrease in net income of \$36.2 million and the change in inventory position that was partially driven by the change of our fiscal quarter end date as fiscal 2017 was a fifty-three week year, which provided for one additional week of holiday inventory receipts in our distribution centers.

Cash used in investing activities increased by \$187.7 million to \$281.0 million in the year-to-date 2018 compared to \$93.3 million in the year-to-date 2017. The increase was primarily due to an increase in assets acquired under synthetic lease of \$116.0 million and an increase of \$70.3 million in capital expenditures. The increase in assets acquired under synthetic lease was due to our new distribution center in Apple Valley, California, on which we began construction in the fourth quarter of 2017. The increase in capital expenditures was driven by investments in our store of the future project and equipment for our new corporate headquarters and California distribution center.

Cash provided by financing activities increased by \$180.3 million to \$251.4 million in the year-to-date 2018 compared to \$71.1 million in the year-to-date 2017. The primary drivers of this change were an increase in proceeds

from the synthetic lease for our California distribution center of \$116.0 million and a reduction of \$50.0 million in cash used to repurchase common shares under our Board-approved share repurchase programs in the year-to-date 2018 compared to the year-to-date 2017.

On a consolidated basis, we now expect cash provided by operating activities less capital expenditures to be in the range of \$10 million to \$20 million for 2018.

Table of Contents**CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

The preparation of financial statements in conformity with GAAP requires management to make estimates, judgments, and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period, as well as the related disclosure of contingent assets and liabilities at the date of the financial statements. On an ongoing basis, management evaluates its estimates, judgments, and assumptions, and bases its estimates, judgments, and assumptions on historical experience, current trends, and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. See note 1 to our consolidated financial statements included in our 2017 Form 10-K for additional information about our accounting policies.

The estimates, judgments, and assumptions that have a higher degree of inherent uncertainty and require the most significant judgments are outlined in Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our 2017 Form 10-K. Had we used estimates, judgments, and assumptions different from any of those discussed in our 2017 Form 10-K, our financial condition, results of operations, and liquidity for the current period could have been materially different from those presented.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to market risk from exposure to changes in interest rates on investments that we make from time to time and on borrowings under the 2018 Credit Agreement. We had borrowings of \$488.0 million under the 2018 Credit Agreement at November 3, 2018. An increase of 1% in our variable interest rate on our expected future borrowings could affect our financial condition, results of operations, or liquidity through higher interest expense by approximately \$3.0 million.

We are subject to market risk from exposure to changes in our derivative instruments, associated with diesel fuel. At November 3, 2018, we had outstanding derivative instruments, in the form of collars, covering 5.7 million gallons of diesel fuel. The below table provides further detail related to our current derivative instruments, associated with diesel fuel.

Calendar Year of Maturity	Diesel Fuel Derivatives		Fair Value
	Puts	Calls	Asset (Liability)
	(Gallons, in thousands)		(In thousands)
2018	900	900	\$ 245
2019	3,600	3,600	713
2020	1,200	1,200	(108)
Total	5,700	5,700	\$ 850

Additionally, at November 3, 2018, a 10% difference in the forward curve for diesel fuel prices would affect unrealized gains (losses) in other income (expense) by approximately \$1.8 million.

Item 4. Controls and Procedures**Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, our principal executive officer and principal financial officer have each concluded that such disclosure controls and procedures were effective

as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as that term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Part II. Other Information

Item 1. Legal Proceedings

No response is required under Item 103 of Regulation S-K.

Item 1A. Risk Factors

Except as set forth below, there have been no material changes to the risk factors appearing in our Annual Report on Form 10-K for the year ended February 3, 2018.

We rely on manufacturers located in foreign countries, including China, for significant amounts of merchandise. Additionally, a significant amount of our domestically-purchased merchandise is manufactured abroad. Our business may be materially adversely affected by risks associated with international trade, including the impact of tariffs recently imposed by the U.S. with respect to certain consumer goods imported from China.

Global sourcing of many of the products we sell is an important factor in driving higher operating profit. During 2017, we purchased approximately 23% of our products directly from overseas vendors, including 19% from vendors located in China. Additionally, a significant amount of our domestically-purchased merchandise is manufactured abroad. Our ability to identify qualified vendors and to access products in a timely and efficient manner is a significant challenge, especially with respect to goods sourced outside of the U.S. Global sourcing and foreign trade involve numerous risks and uncertainties beyond our control, including increased shipping costs, increased import duties, more restrictive quotas, loss of most favored nation trading status, currency and exchange rate fluctuations, work stoppages, transportation delays, economic uncertainties such as inflation, foreign government regulations, political unrest, natural disasters, war, terrorism, trade restrictions and tariffs (including retaliation by the U.S. against foreign practices or by foreign countries against U.S. practices), the financial stability of vendors, or merchandise quality issues. U.S. policy on trade restrictions is ever-changing and may result in new laws, regulations or treaties that increase the costs of importing goods and/or limit the scope of available foreign vendors. These and other issues affecting our international vendors could materially adversely affect our business and financial performance.

On March 22, 2018, President Trump, pursuant to Section 301 of the Trade Act of 1974, directed the U.S. Trade Representative (“USTR”) to impose tariffs on \$50 billion worth of imports from China. On June 15, 2018, the USTR announced its intention to impose an incremental tariff of 25% on \$50 billion worth of imports from China comprised of (1) 818 product lines valued at \$34 billion (“List 1”) and (2) 284 additional product lines valued at \$16 billion (“List 2”). The List 1 tariffs went into effect on July 6, 2018 and the List 2 tariffs went into effect on August 23, 2018, (with respect to 279 of the 284 originally targeted product lines). On July 10, 2018, the USTR announced its intention to impose an incremental tariff of 10% on another \$200 billion worth of imports from China comprised of 6,031 additional product lines (“List 3”) following the completion of a public notice and comment period. On August 1, 2018, President Trump instructed the USTR to consider increasing the tariff on the List 3 products from 10% to 25%. On September 17, 2018, the USTR released the final List 3 covering 5,745 full or partial lines of the 6,031 originally targeted product lines and announced that the List 3 tariffs will be implemented in two phases. On September 24, 2018, a 10% incremental tariff went into effect with respect to the List 3 products. The List 3 tariff was scheduled to increase to 25% on January 1, 2019. However, on December 1, 2018, the White House announced that the implementation of the List 3 tariff increase will be delayed until March 1, 2019, to allow Chinese and U.S. leaders to begin negotiations on various policy issues. The List 3 tariffs could increase to 25% on March 1, 2019 or sooner depending on the progress of negotiations.

Certain of our products and components of our products that are imported from China are currently included in the product lines subject to the effective and proposed tariffs. As a result, we are evaluating the potential impact of the effective and proposed tariffs on our supply chain, costs, sales and profitability and are considering strategies to mitigate such impact, including reviewing sourcing options, filing requests for exclusion from the tariffs with the USTR for certain product lines and working with our vendors and merchants. Given the uncertainty regarding the scope and duration of the effective and proposed tariffs, as well as the potential for additional trade actions by the U.S. or other countries, the impact on our operations and results is uncertain and could be significant, and we can provide no assurance that any strategies we implement to mitigate the impact of such tariffs or other trade actions will be successful. To the extent that our supply chain, costs, sales or profitability are negatively affected by the tariffs or other trade actions, our business, financial condition and results of operations may be materially adversely affected.
