99.1 Press release regarding Flanders 2004 Earnings \$0.37 per Share

PRESS RELEASE

FOR IMMEDIATE RELEASE

•
FLANDERS REPORTS RECORD ANNUAL EARNINGS OF \$.37 PER SHARE

•
EARNINGS UP 26% OVER PRIOR YEAR

•
POSTS RECORD ANNUAL REVENUE IN 2004

St. Petersburg, Florida, February 16, 2005 Flanders Corporation (NASDAQ:FLDR), today announced its results for the year ended December 31, 2004. Earnings from operations were \$9.8 million or \$0.37 per share, up 26.1% from \$7.7 million, or \$0.30 per share for 2003. Revenues for the year were up to \$199.9 million from \$182.8 million for the year 2003.

Steve Clark, President and C.E.O., commented, "We are very excited about our record annual earnings. We are particularly pleased that there was revenue growth amongst all product lines allowing us to report record revenues for the corporation. We continued to benefit from our cost cutting measures and the continued implementation of vertical integration of our raw material supplies. This process has allowed us to have lower operating costs and improved margins. We are optimistic that we will continue to improve our results going forward."

Robert Amerson, Chairman of the Board, commented "Our results are a testament to the success of our integration and product expansion. We are also continuing to see a tremendous amount of interest in our high-end containment products for government and commercial settings. We will diligently work on acquiring contracts in this area, and believe that success in this area could have a major impact on our operations. This is a developing market, and we currently have no reliable data as to the size of this niche. We have a competitive advantage with these customers, given our long experience in what was, historically, a niche specialty manufacturing area. We are also continuing the process to implement Flanders CSD (Flanders Complete Service Division), which continues our plan of using vertical

markets and leveraging our success. The success of this division should continue to allow us to post record results .

Conference Call

The Company has scheduled a conference call for Thursday, February 17, 2005 at 11:00 EST. People wishing to participate in the conference call should dial 877-691-0877 ten minutes prior to the call.

	2004	2003
Net sales	\$	\$
	199,933	182,780

	9,770	7,746

Net Sales: Net sales for 2004 increased by \$17,153 or 9.4%, to \$199,933, from \$182,780 for 2003. The increase in net sales was due to our success in increasing our market share across generally all lines of our business.

Edgar Filing: FLANDERS CORP - Form 8-K

Gross Profit: Gross profit for 2004 increased \$5,017 or 11.6%, to \$48,288 which made up 24.2% of net sales, from \$43,271 for 2003, which made up 23.7% of net sales. The gross profit increase was principally due to a higher sales volume and cost reductions attributable to:

- Reductions in raw material expenses due to in-house production of various raw materials.

- Reductions in direct labor force headcount and better utilization of our automated equipment.

Operating Expenses: Operating expenses for 2004 increased \$1,457, or 4.5%, to \$33,569, from \$32,112 in 2003. The increase in operating expenses was primarily caused by a higher sales volume in 2004. Operating expenses as a percentage of sales decreased in 2004 to 16.8% from 17.6% due primarily to a reduction of bad debt expense from 2003 of approximately \$3.5 million in 2003 to \$2.0 million in 2004.

Nonoperating income (expense): Nonoperating income (expense) decreased approximately \$460 to (\$368) of expense for 2004, compared to \$92 of income in 2003. The decrease was due to a reduction of other income partially offset by a reduction of interest expense of approximately \$300.

Flanders is a leading air filtration products manufacturer. Flanders' products are utilized by many industries, including those associated with commercial and residential heating, ventilation and air conditioning systems, semiconductor manufacturing, ultra-pure materials, biotechnology, pharmaceuticals, synthetics, nuclear power and nuclear materials processing.

This press release contains forward-looking statements that are inherently subject to risk. These forward-looking statements are not intended to be promises or predictions of the future and may be affected by a number of factors that may change the currently anticipated outcome. These factors include market acceptance of Flanders' products, competition in the marketplace for Flanders' products, the success of retailers and distributors through which Flanders sells its products, Flanders' ability to contain costs and maintain production and efficiency with a reduced workforce, a determination by potential Flanders customers that the higher cost of its high-end filtration systems can be justified for general application, Flanders' ability to successfully retrofit existing buildings with effective sophisticated filtering and air handling systems, the ability to increase its high end containment products for commercial and governmental settings, the success of Flanders CSD (Flanders Complete Services Division), the ability to continue implementation of vertical integration of our raw material supplies and the development of increased demand for its high-end products. Many of these factors are not within Flanders' control. These factors, and others, are discussed in Flanders' periodic reports filed with the Securities and Exchange Commission and should be reviewed by the reader of this press release.
