 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying consolidated financial statements include the accounts of CSB Bancorp, Inc. and its wholly-owned subsidiaries, The Commercial and Savings Bank and CSB Investment Services, LLC (together referred to as the Company or CSB). All significant intercompany transactions and balances have been eliminated in consolidation. The consolidated financial statements have been prepared without audit. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present fairly the Company's financial position at March 31, 2006, and the results of operations and changes in cash flows for the periods presented have been made. Certain information and footnote disclosures typically included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been omitted. The Annual Report for CSB for the year ended December 31, 2005, contains consolidated financial statements and related footnote disclosures, which should be read in conjunction with the accompanying consolidated financial statements. The results of operations for the period ended March 31, 2006 are not necessarily indicative of the operating results for the full year or any future interim period.

STOCK-BASED COMPENSATION

The Company sponsors a stock-based compensation plans, administered by a committee, under which incentive stock options may be granted periodically to certain employees. Effective January 1, 2006, CSB adopted FASB Statement No. 123 (revised 2004), *Share-Based Payment* (FASB No. 123r), using the modified prospective application method. The modified prospective application method applies to new awards, to any outstanding liability awards, and to awards modified, repurchased, or cancelled after January 1, 2006. For all awards granted prior to January 1, 2006, unrecognized compensation cost, on the date of adoption, will be recognized as an expense in future periods. The results for prior periods have not been restated.

The adoption of FASB No. 123r reduced net income by approximately \$2,525 for the three months ended March 31, 2006. The following table illustrates the effect on net income and earnings per share if CSB had applied the fair value recognition provisions to stock-based employee compensation during the prior period presented. For purposes of this pro forma disclosure, the value of the options is estimated using the Black-Scholes option-pricing model and amortized to expense over the options' vesting period.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued

The pro forma effects are computed using option pricing models, using the following weighted-average assumptions as of grant date.

	2004	2003
Risk-free interest rate	3.34%	2.75%
Expected option life (years)	3.5	6.4
Dividend yield	2.60%	2.50%

As of March 31, 2006, there was approximately \$17,800 of unrecognized compensation cost related to unvested share-based compensation awards granted. That cost is expected to be recognized over the next two years.

Options are granted to certain employees at prices equal to the market value of the stock on the date the options are granted. The 2002 Plan authorizes the issuance of 75,000 shares. The Plan was amended April 27, 2005 to authorize the issuance of 200,000 shares. The time period during which any option is exercisable under the Plan is determined by the committee but shall not continue beyond the expiration of ten years after the date the option is awarded. As of March 31, 2006, there were 11,970 options outstanding under this Plan.

The fair value of each option is amortized into compensation expense on a straight-line basis between the grant date for the option and each vesting date. CSB estimated the fair value of stock options on the date of the grant using the Black-Scholes option pricing model. The model requires the use of numerous assumptions, many of which are highly subjective in nature. There were no options granted in the first quarter of 2006 or 2005.

NOTE 3 RECENT ACCOUNTING PRONOUNCEMENTS

In February 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting (FAS) No. 155, *Accounting for Certain Hybrid Instruments, as an amendment of FASB Statements No. 133 and 140*. FAS No. 155 allows financial instruments that have embedded derivatives to be accounted for as a whole (eliminating the need to bifurcate the derivative from its host) if the holder elects to account for the whole instrument on a fair value basis. This statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

In March 2006, the FASB issued FAS No. 156, *Accounting for Servicing of Financial Assets*. This Statement, which is an amendment to FAS No. 140, will simplify the accounting for servicing assets and liabilities, such as those common with mortgage securitization activities. Specifically, FAS No. 156 addresses the recognition and measurement of separately recognized servicing assets and liabilities and provides an approach to simplify efforts to obtain hedge-like (offset) accounting. FAS No. 156 also clarifies when an obligation to service financial assets should be separately recognized as a servicing asset or a servicing liability, requires that a separately recognized servicing asset or servicing liability be initially measured at fair value, if practicable, and permits an entity with a separately recognized servicing asset or servicing liability to choose either of the amortization or fair value methods for subsequent measurement. The provisions of FAS No. 156 are effective as of the beginning of the first fiscal year that begins after September 15, 2006. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion focuses on the consolidated financial condition of CSB Bancorp, Inc. and its subsidiaries (the Company) at March 31, 2006 as compared to December 31, 2005, and the consolidated results of operations for the quarterly period ending March 31, 2006 compared to the same period in 2005. The purpose of this discussion is to provide the reader with a more thorough understanding of the consolidated financial statements. This discussion should be read in conjunction with the interim consolidated financial statements and related footnotes.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this report that are not historical facts but rather are forward-looking statements that are subject to certain risks and uncertainties. When used herein, the terms anticipates, plans, expects, believes, and similar expressions as they relate to the Company or its management are intended to identify such forward-looking statements. The Company's actual results, performance or achievements may materially differ from those expressed or implied in the forward-looking statements. Risks and uncertainties that could cause or contribute to such material differences include, but are not limited to, general economic conditions, interest rate environment, competitive conditions in the financial services industry, changes in law, governmental policies and regulations, and rapidly changing technology affecting financial services.

The Company does not undertake, and specifically disclaims any obligation, to publicly revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

FINANCIAL CONDITION

Total assets were \$318.8 million at March 31, 2006, compared to \$321.0 million at December 31, 2005, representing a decrease of \$2.2 million or 0.7%. Cash and cash equivalents decreased \$6.3 million, or 38.0%, during the three-month period ending March 31, 2006, due to a \$4.6 million decrease in cash and due from banks and a \$1.7 million decrease in Federal funds sold. Securities decreased \$2.4 million or 2.9% during the quarter principally due to the maturity and pay-down of securities. Net loans increased \$6.1 million, or 2.9%. The increase is a result of seasonal credit draws, growth in home equity line lending and a slowing of prepayments within the mortgage loan portfolio. Total liabilities decreased \$2.0 million or 0.7% during the quarter, as seasonal deposit declines were offset with short-term borrowings.

10.

Table of Contents

CSB BANCORP, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Net loans increased \$6.1 million, or 2.9% during the three-month period ended March 31, 2006. The allowance for loan losses amounted to \$2,471,000, or 1.12% of gross loans at March 31, 2006, compared to \$2,445,000, or 1.14% of gross loans at December 31, 2005. The components of the change in the allowance for loan losses during the three-month period ended March 31, 2006, included a provision of \$32,000 and net loan charge-offs of \$7,000. Loans past due more than 90 days and still accruing interest and loans placed on nonaccrual status aggregated \$670,000, or 0.30% of total loans at March 31, 2006 compared to \$801,000, or 0.37% of total loans at December 31, 2005.

At March 31, 2006, the ratio of net loans to deposits was 88.6%, compared to 83.2% at December 31, 2005. The increase in this ratio is due to loan growth coupled with seasonal deposit shrinkage experienced during the three months ended March 31, 2006.

The Company had net unrealized losses of \$1,350,000 within its investment portfolio at March 31, 2006 as compared against unrealized losses of \$883,000 at December 31, 2005. Management has considered industry analyst reports, sector credit reports and volatility in the bond market in concluding that the unrealized losses as of March 31, 2006 were primarily the result of customary and expected fluctuations in the bond market. As a result, all security impairments as of March 31, 2006 are considered temporary.

The decrease in other borrowings of \$5.2 million resulted from the maturity of existing Federal Home Loan advances, which have been reborrowed from the Federal Home Loan Bank as short-term borrowings.

Total shareholders' equity amounted to \$35.0 million, or 11.0% of total assets, at March 31, 2006, compared to \$35.2 million, or 11.0% of total assets, at December 31, 2005. The decrease in shareholders' equity during the three months ended March 31, 2006 was principally due to dividends declared of \$411,000, an unrealized loss on securities, net of tax, of \$308,000, the repurchase of treasury stock of \$236,000, which was offset by net income of \$774,000.

Through its share repurchase program the Company repurchased 11,094 shares of treasury stock during the quarter ended March 31, 2006. The Company and its subsidiaries met all regulatory capital requirements at March 31, 2006.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

Three months ended March 31, 2006 and 2005

For the quarter ended March 31, 2006, the Company recorded net income of \$774,000 or \$.30 per share, as compared to \$667,000 or \$.25 per share for the quarter ended March 31, 2005. The increase in net income for the quarter of \$107,000 was principally due to a \$366,000 increase in net interest income, offset by decreases in non-interest income of \$170,000, an increase in non-interest expenses of \$71,000 and an increase of \$92,000 in the federal income tax provision.

Interest income for the quarter ended March 31, 2006 of \$4.7 million represents an increase of \$735,000, or 18.5%, compared to the same period in 2005. Interest income on loans increased \$537,000 over the first quarter of 2005, which was primarily due to an increase of 118 basis points in average loan rates partially offset by a \$6.4 million decrease in average gross loan balances. The increase in interest income on securities of \$192,000 was due to increases in average balances of securities of \$8.0 million and increases of 72 basis points in average rates on taxable securities and increases of 50 basis points in average taxable equivalent rates on nontaxable securities over the first quarter of 2005. Interest expense for the quarter ended March 31, 2006 was \$1,414,000, an increase of \$369,000, or 35.3%, from the same period in 2005. The increase in interest expense occurred due to both increases in rate and average volume of interest-bearing liabilities. The average balance of interest-bearing liabilities rose \$2.1 million with an average rate increase of 60 basis points to 2.36% for the quarter ended March 31, 2006 as compared to the quarter ended March 31, 2005. Average interest-bearing deposits increased \$4.6 million over the first quarter of 2005, while average interest bearing liabilities decreased \$2.5 million over the same period.

The provision for loan losses for the quarter ended March 31, 2006 was \$32,000, compared to a \$106,000 provision for the same quarter in 2005. The provision for loan losses is determined based on management's calculation of the allowance for loan losses, which includes provisions for classified loans, as well as for the remainder of the portfolio based on historical data, including past charge-offs, and current economic trends.

Non-interest income for the quarter ended March 31, 2006 of \$611,000 represents a decrease of \$170,000 or 21.8%, compared to the same quarter in 2005. This reduction was primarily due to a decrease in the gain on the sale of securities of \$247,000, a decrease in trust and brokerage income of \$25,000, offset by increases of \$103,000 in fees on deposits. The increases in deposit fees were a result of the consumer and small business customer use of fee-based products, primarily an overdraft privilege program that was implemented during the fourth quarter of 2005.

Non-interest expenses for the quarter ended March 31, 2006 increased \$71,000 or 2.6%, compared to the first quarter of 2005. This increase was due primarily to the increase in salaries and employee benefit expense of \$89,000 resulting from additional expense for executive bonuses and annual employee compensation increases. The Company recognized stock-based compensation expense under FAS 123(R) of \$2,500 for the quarter ended March 31, 2006. Professional and director fees increased \$18,000 primarily due to expenses related to engagement of an outside consultant to perform a management compensation review as well as increases in director fees. Other expense decreased during the first

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY

Liquidity refers to the Company's ability to generate sufficient cash to fund current loan demand, meet deposit withdrawals, pay operating expenses and meet other obligations. The Company's primary sources of liquidity are cash and cash equivalents, which totaled \$10.3 million at March 31, 2006 a decrease of \$6.3 million from \$16.6 million at December 31, 2005. Net income, securities available-for-sale, and loan repayments also serve as sources of liquidity. Cash and cash equivalents and securities maturing within one year represent 5.6% of total assets as of March 31, 2006 compared to 7.7% of total assets at year-end 2005. Other sources of liquidity include, but are not limited to, purchase of federal funds, advances from the FHLB, adjustments of interest rates to attract deposits, and borrowing at the Federal Reserve discount window. Management believes that its sources of liquidity are adequate to meet both short and long-term liquidity needs of the Company.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements (as such term is defined in applicable Securities and Exchange Commission rules) that are reasonably likely to have a current or future material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

CONTRACTUAL OBLIGATIONS

During the first three months of 2006, the Company's contractual obligations have not changed materially from those discussed in the Company's Annual Report of Form 10-K for the year ended December 31, 2005.

ITEM 3 QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the quantitative and qualitative disclosures about market risks as of March 31, 2006 from that presented in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2005. Management performs a quarterly analysis of the Company's interest rate risk. All positions are currently within the Board-approved policy.

The following table presents an analysis of the estimated sensitivity of the Company's annual net interest income to sudden and sustained 100 basis point changes in market interest rates at March 31, 2006 and December 31, 2005:

March 31, 2006

ITEM 4 CONTROLS AND PROCEDURES

With the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that:

- (a) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure;
- (b) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms; and
- (c) the Company's disclosure controls and procedures are effective as of the end of the period covered by this Quarterly Report on Form 10-Q to ensure that material information relating to the Company and its consolidated subsidiary is made known to them, particularly during the period for which our periodic reports, including this Quarterly Report on Form 10-Q, are being prepared.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes during the period covered by this Quarterly Report on Form 10-Q in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Net Cash Provided By (Used In) Operating Activities

Net cash provided by operating activities was \$13.0 million for the six months ended June 30, 2015, as compared to cash used in operating activities of \$24.3 million in the prior year period.

For the six months ended June 30, 2015 and 2014, our cash collections from customers totaled \$148.8 million and \$113.7 million, respectively, representing 178.0% and 130.7% of reported net revenue for the same years.

For the six months ended June 30, 2015 and 2014, cash payments to our employees and vendors and end-users for products, services, chargebacks, and rebates totaled \$140.8 million and \$135.0 million, respectively.

Net Cash Used In Investing Activities

Net cash used in investing activities was \$0.2 million for the six months ended June 30, 2015 for purchases of property, plant and equipment, as compared to \$0.4 million in the prior year period.

Table of Contents

Net Cash Provided by Financing Activities

Net cash provided by financing activities was \$0.8 million for the six months ended June 30, 2015, as compared to \$1.1 million in the prior year period. The cash provided by financing activities during the second quarter of 2015, relates to (i) \$1.0 million of proceeds from the issuance of common stock as a result of the exercise of employee stock options, and (ii) \$0.3 million of proceeds from employee stock purchases under our employee stock purchase plan. These amounts were partially offset by our \$0.5 million purchase and retirement of restricted stock at our employees' election, in order to fund their corresponding minimum employee tax obligations at vesting.

Convertible Senior Notes Due 2018

On December 17, 2013, we entered into an agreement for the sale of \$120 million aggregate principal amount of 2.75% Convertible Senior Notes due December 2018 (the "2018 Convertible Notes"). The 2018 Convertible Notes are convertible into shares of our common stock at a conversion rate of 95 shares per \$1,000 principal amount of the 2018 Convertible Notes, totaling 11.4 million common shares if fully converted. The in-the-money conversion price is equivalent to \$10.53 per common share. The conversion rate and conversion price are subject to adjustment under certain limited circumstances. As of June 30, 2015, we may settle conversions of the 2018 Convertible Notes by paying or delivering, as the case may be, cash, shares of our common stock, or a combination of cash and shares, at our election.

The 2018 Convertible Notes bear interest at a rate of 2.75% per year, payable semiannually in arrears on June 15 and December 15 of each year, beginning on June 15, 2014. The 2018 Convertible Notes will mature and become payable on December 15, 2018, subject to earlier conversion into common stock at the holders' option.

The sale of the 2018 Convertible Notes closed on December 23, 2013 and our net proceeds were \$115.4 million, after deducting banker and professional fees of \$4.6 million. We used a portion of these proceeds to simultaneously enter into "bought call" and "sold warrant" transactions with Royal Bank of Canada (collectively, the "Note Hedge"). We recorded the Note Hedge on a net cost basis of \$13.1 million, as a reduction to "additional paid-in capital" in our accompanying Condensed Consolidated Balance Sheets. Under applicable GAAP, the Note Hedge transaction is not expected to be marked-to-market through earnings or comprehensive income in future reporting periods.

Future Capital Requirements

We believe that the future growth of our business will depend on our ability to successfully develop and acquire new drugs for the treatment of cancer and successfully bring these drugs to market.

The timing and amount of our future capital requirements will depend on many factors, including:

- the need for additional capital to fund future development programs;
- the need for additional capital to fund strategic acquisitions;
- the need for additional capital to fund licensing arrangements;
- our requirement for additional information technology infrastructure and systems; and
- adverse outcomes from potential litigation and the cost to defend such litigation.

We believe that our \$146 million in aggregate cash and equivalents, and marketable securities as of June 30, 2015 will allow us to fund our current and planned operations for at least the next twelve months. However, we may seek additional capital through the sale of debt or equity securities, if necessary, especially in conjunction with opportunistic acquisitions or licensing arrangements. We may be unable to obtain such additional capital when needed, or on terms favorable to us or our current stockholders and convertible senior note holders.

Off-Balance Sheet Arrangements

Table of Contents

We have no off-balance sheet arrangements (except for operating leases) that provide financing, liquidity, market or credit risk support, or involve derivatives. In addition, we have no arrangements that may expose us to liability that are not expressly reflected in the accompanying Condensed Consolidated Financial Statements and/or notes thereto. As of June 30, 2015, we did not have any relationships with unconsolidated entities or financial partnerships, often referred to as “structured finance” or “special purpose entities,” established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As such, we are not subject to any material financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the normal course of business, our operations are exposed to risks associated with fluctuations in interest rates and foreign currency exchange rates.

The primary objective of our investment activities is to preserve principal, while at the same time maximizing yields without significantly increasing risk. We do not utilize hedging contracts or similar instruments. Because of our ability to generally redeem these investments at par at short notice and without penalty, changes in interest rates would have an immaterial effect on the fair value of these investments. If a 10% change in interest rates were to have occurred on June 30, 2015, any decline in the fair value of our investments would not be material in the context of our accompanying Condensed Consolidated Financial Statements. In addition, we are exposed to certain market risks associated with credit ratings of corporations whose corporate bonds we may purchase from time to time. If these companies were to experience a significant detrimental change in their credit ratings, the fair market value of such corporate bonds may significantly decrease. If these companies were to default on these corporate bonds, we may lose part, or all, of our principal. We believe that we effectively manage this market risk by diversifying our investments, and investing in highly rated securities.

We are exposed to foreign currency exchange rate fluctuations relating to payments we make to vendors, suppliers and license partners using foreign currencies. In particular, some of our obligations are incurred in Euros and Yen. We mitigate such risk by maintaining a limited portion of our cash in Euros and Yen.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2015. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. These include controls and procedures that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure.

Based on the evaluation of our disclosure controls and procedures as of June 30, 2015, our chief executive officer and chief financial officer concluded that, as of that date, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the second quarter of 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations of the Effectiveness of Internal Controls

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the internal control system are met. Because of inherent limitations in any control systems, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been

detected. We are continuously seeking to improve the efficiency and effectiveness of our operations and of our internal controls.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved with various legal matters arising in the ordinary course of business. We make provisions for liabilities when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Such provisions are reviewed at least quarterly and adjusted to reflect the impact of any settlement negotiations, judicial and administrative rulings, advice of legal counsel, and other information and events pertaining to a particular case. Litigation is inherently unpredictable. Although the ultimate resolution of these various matters cannot be determined at this time, we do not believe that such matters, individually or in the aggregate, will have a material adverse effect on our condensed consolidated results of operations, cash flows or financial condition.

Certain of the legal proceedings in which we are involved are discussed in Note 13, "Commitments and Contingencies," to our accompanying Condensed Consolidated Financial Statements, and are hereby incorporated by reference.

ITEM 1A. RISK FACTORS

As of the date of this filing, there have been no material changes to the RISK FACTORS included in our Annual Report on Form 10-K for the year ended December 31, 2014, filed with the Securities and Exchange Commission on March 13, 2015.
