ITEM 1.01 - Entry into a Material Definitive Agreement.

On October 18, 2006, ImmunoGen, Inc. (Nasdaq: IMGN) announced that on October 17, 2006, sanofi-aventis licensed non-exclusive rights to use ImmunoGen's proprietary resurfacing technology to humanize antibodies. This technology was developed to enable antibodies initially of murine origin to appear to be human to the human immune system. The agreement enables sanofi-aventis to use this technology to humanize antibodies being developed for non-oncology applications and to continue to use it with oncology antibodies after the expiration of the research collaboration between the companies in August 2008. The license provides sanofi-aventis with the non-exclusive right to use ImmunoGen's proprietary humanization technology through August 31, 2011, and can be extended thereafter. Under the terms of the license, ImmunoGen will receive a \$1 million license fee, half of which is due upon contract signing, and in addition, ImmunoGen is entitled to receive milestone payments potentially totaling \$4.5 million plus royalties on sales for each compound humanized under this agreement.
