Form 10-Q  
November 09, 2018

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

(Mark One)

☐ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number: 000-20540

ASGN Incorporated  
(Exact name of registrant as specified in its charter)

Delaware 05-4023433

(State of Incorporation)  
(I.R.S. Employer Identification No.)

26745  
Malibu  
Hills 91301  
Road,  
Calabasas,  
CA

(Address of principal executive offices)  
(Zip Code)

(818) 878-7900  
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☒ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). ☒ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒ Accelerated filer ☐

Non-accelerated filer ☐ Smaller reporting company ☐

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

☐ Yes ☒ No

At October 31, 2018, the total number of outstanding shares of the Common Stock of ASGN Incorporated (the "Company") (\$0.01 par value) was 52,477,027.

ASGN INCORPORATED AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Financial Statement Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and the rules of the Securities and Exchange Commission (the "SEC"). Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations. The December 31, 2017 condensed consolidated balance sheet was derived from audited financial statements. The financial statements include adjustments consisting of normal recurring items, which, in the opinion of management, are necessary for a fair presentation of the financial position of ASGN Incorporated and its subsidiaries ("ASGN" or the "Company") and its results of operations for the interim dates and periods set forth herein. The results for any of the interim periods are not necessarily indicative of the results to be expected for the full year or any other period. This Quarterly Report on Form 10-Q should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

2. Accounting Standards Update

Recently Adopted Accounting Pronouncements

Effective January 1, 2018, the Company adopted Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606), using the modified retrospective method. This update outlined a comprehensive new revenue recognition model designed to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new standard also required additional quantitative and qualitative disclosures (see Note 3. Revenues).

Accounting Pronouncements Not Yet Adopted

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which is intended to improve financial reporting about leasing transactions. This standard requires a lessee to record the assets and liabilities for the rights and obligations created by lease terms of more than 12 months. As allowed by subsequently issued guidance, the Company expects to adopt the new leases standard on January 1, 2019, instead of the beginning of the earliest period presented.

The Company expects to recognize right-of-use assets and lease liabilities on its balance sheet primarily for its real estate operating leases. The Company does not expect the standard will have a material impact on its results of operations or cash flows. The adoption of the standard will have no impact to the Company's debt covenants compliance under its current credit facility.

In August 2018, the FASB issued ASU No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement, which modifies the disclosure requirements on fair value measurements. The amendments in this update are effective for interim and annual periods for the Company beginning on January 1, 2020, with early adoption permitted. The Company is evaluating the effects that the adoption of this guidance will have on its disclosures.

In August 2018, the FASB issued ASU No. 2018-15, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement

That Is a Service Contract. The amendments in this update align the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). The amendments in this update are effective for interim and annual periods for the Company beginning on January 1, 2020, with early adoption permitted. The amendments in this update may be applied either retrospectively or prospectively. The Company is in the process of evaluating the impact the standard will have on its consolidated financial statements.

In November 2018, the FASB issued ASU No. 2018-18, Collaborative Arrangements (Topic 808): Clarifying the Interaction Between Topic 808 and Topic 606. The amendments in this update provide guidance on how to assess whether certain transactions between collaborative arrangement participants should be accounted for within the revenue recognition standard. The amendments in this update are effective for interim and annual periods for the Company beginning on January 1, 2020, with early adoption permitted. The Company is in the process of evaluating the impact the standard will have on its consolidated financial statements.

In August 2018, the SEC adopted the final rule under SEC Release No. 33-10532, Disclosure Update and Simplification, amending certain disclosure requirements that were redundant, duplicative, overlapping, outdated or superseded. In addition, the amendments expanded the disclosure requirements on the analysis of stockholders' equity for interim financial statements. Under the amendments, an analysis of changes in each caption of stockholders' equity presented in the balance sheet at interim reporting periods must be provided in a note or separate statement. The analysis should present a reconciliation of the beginning balance to the ending balance of each period for which a statement of comprehensive income is presented. The Company plans to include this presentation of interim changes in stockholders' equity in its Quarterly Report on Form 10-Q for the quarter ending March 31, 2019.

### 3. Revenues

#### Adoption of ASC Topic 606, Revenue from Contracts with Customers (ASC 606)

Effective January 1, 2018, the Company adopted ASC 606 using the modified retrospective method, which allows companies to apply the new revenue standard to reporting periods beginning in the year the standard is first implemented, while prior periods continue to be reported in accordance with previous accounting guidance. The adoption of ASC 606 did not have a significant impact on the recognition of revenues; therefore, the Company did not have an opening retained earnings adjustment. Disaggregated revenue disclosures by segment are presented in Note 12. Segment Reporting.

#### Revenue Recognition

Revenues are recognized as control of the promised service is transferred to customers, in an amount that reflects the consideration expected in exchange for the services. For the Apex and Oxford segments, revenues from assignment contracts are recognized over time, based on hours worked by the Company's contract professionals. The performance of the requested service over time is the single performance obligation for assignment revenues. Certain customers may receive discounts (e.g., volume discounts, rebates, prompt-pay discounts) and adjustments to the amounts billed. These discounts, rebates and adjustments are considered variable consideration. Volume discounts are the largest component of variable consideration and are estimated using (i) the most likely amount method prescribed by ASC 606, (ii) contract terms and (iii) estimates of revenue. Revenues are recognized net of variable consideration to the extent it is probable a significant reversal of revenues will not occur in subsequent periods.

Permanent placement revenues are recognized at the point in time when employment candidates begin permanent employment. Finding a qualified candidate that the client hires as a permanent employee is a single performance obligation for the Company's permanent placement contracts. Revenues recognized from permanent placement services are based upon a percentage of the candidates' base salary. The Company records a liability for permanent placement candidates that do not remain with the client through the contingency period, which is typically 90 days or less ("fallouts"). When a fallout occurs, the Company will generally find a replacement candidate at no additional cost to the client. Prior to the adoption of ASC 606, the estimate for permanent placement fallouts was recorded as accounts receivable allowances and effective January 1, 2018 this estimate is considered a contract liability and was \$1.5 million.

On April 2, 2018, the Company acquired ECS Federal, LLC ("ECS"), which delivers advanced solutions in cloud, cybersecurity, artificial intelligence, machine learning, software development, IT modernization and science and engineering and is primarily focused on federal government activities (see Note 4. Acquisitions). ECS customer contracts generally contain a single performance obligation involving a significant integration of various activities that are performed together to deliver a combined service or solution. Performance obligations may involve a series of recurring services, such as network operations and maintenance, operation and program support services, IT outsourcing services and other IT arrangements where the Company is standing ready to provide support, when-and-if needed. Performance obligations are satisfied over time because the customer simultaneously receives and consumes the benefits of the Company's performance as services are provided.

ECS provides services under the following types of contracts:

Time and materials ("T&M") contracts provide for payments based on fixed hourly rates for each direct labor hour expended and reimbursements for allowable material costs and out-of-pocket expenses. To the extent actual direct labor and associated costs vary in relation to the agreed upon billing rates, the generated profit may vary.

Cost-plus-fixed-fee ("CPFF") contracts provide for reimbursement of direct contract costs and allowable and allocable indirect costs, plus a negotiated profit margin or fee. CPFF contracts are usually subject to lower risk and tend to have lower margins.

Firm-fixed-price ("FFP") contracts provide for a fixed price for specified services and solutions. If actual costs vary from planned costs on an FFP contract, the Company generates more or less than the planned amount of profit.

Revenues for T&M contracts are recognized over time, based on hours worked. Revenues for CPFF contracts, under which the Company bills the customer for actual costs incurred plus a negotiated fee, and FFP contracts are recognized over time, generally based on the amount invoiced as those amounts directly correspond with the value received by a customer. From time to time, the Company may have FFP contracts in which revenues are recognized using a cost-to-cost measurement method.

The Company recognizes revenues on a gross basis as it acts as a principal for all of its revenue transactions. The Company has direct contractual relationships with its customers, bears the risks and rewards of its arrangements, has the discretion to select the contract professionals and establish the price for the services to be provided. The Company includes billable expenses (allowable material costs and out-of-pocket reimbursable expenses) in revenues and the associated expenses are included in costs of services.

The Company's contracts have termination for convenience provisions and do not have substantive termination penalties; therefore, the contract duration for accounting purposes may be less than the stated terms. For accounting purposes, the Company's contracts with customers are considered to be of a short-term nature (one year or less). The Company does not disclose the value of remaining performance obligations for short-term contracts.

## Payment Terms

Payment terms vary and the time between invoicing and when payment is due is not significant. There are no financing components to the Company's arrangements.

## Contract Liabilities for Advance Payments

The Company has contract liabilities for payments received in advance of providing services under certain contracts. Contract liabilities for advance payments were \$0.6 million at January 1, 2018 and \$6.8 million at September 30, 2018. The increase in contract liabilities was due to ECS, which had a provisional contract liabilities balance of \$11.6 million as of the acquisition date. Acquisition date balances are subject to change during the measurement period (see Note 4. Acquisitions). Contract liabilities are included in other current liabilities on the condensed consolidated balance sheet. During the three and nine months ended September 30, 2018, the Company recognized revenues of \$8.9 million and \$11.5 million, respectively, relating to amounts that were previously included in contract liabilities.

## Contract Costs

There are no incremental costs to obtain contracts. Contract fulfillment costs include, but are not limited to, direct labor for both employees and subcontractors, allowable materials such as third-party hardware and software that are integrated as part of the overall services and solutions provided to customers and out-of-pocket reimbursable expenses. Contract fulfillment costs are expensed as incurred, except for certain set-up costs for an ECS project, which were capitalized and are being amortized over the expected period of benefit.

## Accounts Receivable Allowances

The Company estimates its credit losses (the inability of customers to make required payments) based on (i) a combination of past experience and current trends, (ii) consideration of the current aging of receivables and (iii) a specific review for potential bad debts. The resulting bad debt expense is included in selling, general and administrative ("SG&A") expenses. The accounts receivable allowance was \$5.1 million at September 30, 2018 and \$9.9 million at December 31, 2017. The allowance at December 31, 2017 included \$3.1 million for estimated permanent placement fallouts and various billing adjustments. Beginning in 2018, with the adoption of ASC 606, the permanent placement fallouts are now included in other current liabilities in the accompanying condensed consolidated balance sheet and billing adjustments are a direct reduction of the gross accounts receivable balance.

## 4. Acquisitions

On April 2, 2018, the Company acquired all of the outstanding equity interests of ECS, headquartered in Fairfax, Virginia for \$775.0 million, resulting in ECS becoming a wholly-owned subsidiary of the Company. Acquisition expenses were approximately \$12.0 million and were expensed as incurred and included in SG&A expenses. ECS delivers advanced solutions in cloud, cybersecurity, artificial intelligence, machine learning, software development, IT modernization and science and engineering and is primarily focused on federal government activities. ECS was purchased to complement and elevate our offerings and strengthen the Company's position as a premier IT and professional services provider by entering the government services space. ECS is reported as a separate segment of the Company.

The results of operations of ECS have been included in the consolidated results of the Company from the date of acquisition. The condensed consolidated statements of operations and comprehensive income for the three and nine months ended September 30, 2018 included ECS revenues of \$164.0 million and \$319.1 million, respectively and operating income of \$4.3 million and \$8.0 million, respectively.

Assets and liabilities of all acquired companies are recorded at their estimated fair values at the dates of acquisition. The fair value assigned to identifiable intangible assets is determined primarily by using a discounted cash flow method (a non-recurring fair value measurement based on Level 3 inputs). Goodwill represents the acquired assembled workforce, potential new customers and future cash flows after the acquisition. Goodwill related to this acquisition totaled \$527.4 million, of which \$507.6 million is estimated to be deductible for income tax purposes.

The purchase accounting for the acquisition of ECS remains incomplete with respect to opening tangible assets, intangible assets, liabilities and taxes, as management continues to gather and evaluate information about circumstances that existed as of the acquisition date. Measurement period adjustments will be recognized prospectively within 12 months from the date of acquisition.

The following table summarizes the consideration paid and the provisional fair value of assets acquired and liabilities assumed (in thousands):

Cash	\$ 12,400
Accounts receivable	97,514
Prepaid expenses and other current assets	8,568
Property and equipment	28,977
Identifiable intangible assets	194,850
Goodwill	527,388
Other non-current assets	1,282
Total assets acquired	870,979
Current liabilities	93,900
Long-term liabilities	4,425
Total liabilities assumed	98,325
Total purchase price <sup>(1)</sup>	\$772,654

<sup>(1)</sup> This amount represents the \$775.0 million in purchase consideration as set forth in the purchase agreement, plus \$12.4 million paid for cash acquired and \$1.0 million paid for working capital delivered in excess of target working capital, less \$15.7 million indebtedness assumed.

The following table summarizes the acquired identifiable intangible assets of ECS (in thousands):

	Useful life	
Contractual customer relationships	13 years	\$ 141,400
Backlog	1 year	26,100
Non-compete agreements	4 to 7 years	10,350
Favorable contracts	5 years	500
Trademarks	indefinite	16,500
Total identifiable intangible assets acquired		\$ 194,850

The weighted-average amortization period for identifiable intangible assets, excluding trademarks, is 10.5 years.

The summary below (in thousands, except for per share data) presents pro forma unaudited consolidated results of operations for the three and nine months ended September 30, 2018 and 2017 as if the acquisition of ECS by the Company and the acquisition of a business by ECS in April 2017, both occurred on January 1, 2017. The pro forma unaudited consolidated results give effect to, among other things: (i) amortization of intangible assets, (ii) stock-based compensation expense and the related dilution for restricted stock units granted to ECS employees, (iii) interest expense on acquisition-related debt and (iv) the exclusion of nonrecurring expenses incurred by ECS prior to its acquisition by the Company for ECS' acquisition-related activities and costs incurred in the sale of ECS to the Company.

The pro forma unaudited consolidated results are not necessarily indicative of the operating results that would have occurred if the acquisition had been consummated as of the date indicated, nor are they necessarily indicative of future operating results.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017

2020	40,287
2021	35,469
2022	24,437
Thereafter	70,255
	\$240,289

## 6. Long-Term Debt

Long-term debt consisted of the following (in thousands):

	September 30, 2018	December 31, 2017
\$200 million revolving credit facility, due March 31, 2023	\$ —	\$ —
Term B loan facility, due June 5, 2022	392,000	588,000
Term B loan facility, due April 2, 2025	787,000	—
	1,179,000	588,000
Unamortized deferred loan costs	(24,846)	(12,787)
	\$ 1,154,154	\$ 575,213

On April 2, 2018, in connection with the acquisition of ECS, the Company amended its credit facility mainly to add an \$822.0 million tranche to the term B loan facility that matures on April 2, 2025. The amendment also provided for the ability to increase the loan facilities by an amount not to exceed the sum of (i) \$300.0 million, (ii) the aggregate principal of voluntary prepayments of the term B loans and permanent reductions of the revolving commitments, and (iii) additional amounts so long as the pro forma consolidated secured leverage ratio is no greater than 3.25 to 1.00. The revolving credit facility was also amended to extend the maturity date to March 31, 2023. The Company incurred \$22.5 million of debt issuance and amendment costs, of which \$15.3 million are presented in the condensed consolidated balance sheet as a reduction of outstanding debt and are being amortized over the term of the credit facility, \$6.2 million were expensed as incurred and were included in interest expense in the nine months ended

September 30, 2018, and the remaining fees were presented in other current assets and other non-current assets and are being amortized over the term of the credit facility.

Borrowings under the term B loans bear interest at LIBOR, plus 2.00 percent. Borrowings under the revolving credit facility bear interest at LIBOR plus 1.25 to 2.25 percent, or the bank's base rate plus 0.25 to 1.25 percent, depending on leverage levels. A commitment fee of 0.20 to 0.35 percent is payable on the undrawn portion of the revolving credit facility.

For the term B loan that matures on June 5, 2022, there are no required minimum payments until its maturity date. For the term B loan that matures on April 2, 2025, the Company is required to make minimum quarterly payments of \$2.1 million; however, as a result of principal payments made through September 30, 2018, the first required minimum quarterly payment of \$2.1 million is not due until September 30, 2022. The Company is also required to make mandatory prepayments on its term loans from excess cash flow and with the proceeds of asset sales, debt issuances and specified other events, subject to specified exceptions. The credit facility includes various restrictive covenants including the maximum ratio of consolidated secured debt to consolidated earnings before interest, taxes, depreciation and amortization ("EBITDA"), which steps down at regular intervals from 4.75 to 1.00 as of September 30, 2018, to 3.75 to 1.00 as of September 30, 2021 and thereafter. The credit facility also contains certain customary limitations including, among other terms and conditions, the Company's ability to incur additional indebtedness, engage in mergers and acquisitions, and declare dividends.

At September 30, 2018, the Company was in compliance with its debt covenants, its ratio of consolidated secured debt to consolidated EBITDA was 2.89 to 1.00, and it had \$195.6 million available borrowing capacity under its revolving credit facility.

## 7. Commitments and Contingencies

The Company has entered into various non-cancelable operating leases, primarily related to its facilities and certain office equipment used in the ordinary course of business. The Company leases two properties owned by related parties. Rent expense for these two properties was \$0.3 million for the three months ended September 30, 2018 and 2017, and \$1.0 million for the nine months ended September 30, 2018 and 2017.

As a result of the acquisition of ECS (see Note 4. Acquisitions), the Company assumed various operating lease commitments for which total future payments are approximately \$27.6 million as of September 30, 2018, with the last payment scheduled to be in February 2027.

The Company carries retention policies for its workers' compensation liability exposures. The workers' compensation loss reserves are based upon an actuarial study conducted by a third-party specialist. Changes in estimates and differences between estimates and the actual payments for claims are recognized in the period that the estimates change or the payments are made. The workers' compensation loss reserves were approximately \$2.2 million and \$2.1 million, at September 30, 2018 and December 31, 2017, net of anticipated insurance and indemnification recoveries of \$14.9 million and \$12.7 million, at September 30, 2018 and December 31, 2017, respectively. We have undrawn stand-by letters of credit outstanding to secure obligations for workers' compensation claims with various insurance carriers. These stand-by letters of credit were \$4.4 million at September 30, 2018 and December 31, 2017.

The Company's deferred compensation plan liability was \$6.5 million at September 30, 2018, and was included in other long-term liabilities. The Company established a rabbi trust to fund the deferred compensation plan (see Note 8. Fair Value Measurements).

## Legal Proceedings

The Company is involved in various legal proceedings, claims and litigation arising in the ordinary course of business. The Company does not believe that the disposition of matters that are pending or asserted will have a material effect on its condensed consolidated financial statements.

## 8. Fair Value Measurements

The carrying values of cash and cash equivalents, accounts receivable, accounts payable and accrued payroll and contractor professional pay approximate their fair value based on their short-term nature. Long-term debt recorded in the Company's condensed consolidated balance sheet at September 30, 2018 was \$1.2 billion, excluding the \$24.8 million of unamortized deferred loan costs (see Note 6. Long-Term Debt). The fair value of the term B loans was \$1.2 billion as of September 30, 2018 and was determined using Level 1 inputs (quoted prices in active markets for identical assets and liabilities) from the fair value hierarchy.

The Company had investments, primarily mutual funds, of \$6.4 million at September 30, 2018, held in a rabbi trust restricted to fund the Company's deferred compensation plan. The fair value of these investments was determined using Level 1 inputs from the fair value hierarchy. These assets are included in other non-current assets.

Certain assets and liabilities, such as goodwill and trademarks, are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (e.g., when there is evidence of impairment). For the nine months ended September 30, 2018 and 2017, no fair value adjustments were required for non-financial assets or liabilities.

## 9. Stockholders' Equity

There were 139,241 and 305,348 shares issued upon the vesting of restricted stock units, exercise of stock options and purchases of stock under the Employee Stock Purchase Plan for the three and nine months ended September 30, 2018, respectively.

The accumulated other comprehensive loss balance at September 30, 2018 and December 31, 2017, and other comprehensive income during the nine months ended September 30, 2018, consists of foreign currency translation adjustments.

## 10. Earnings per Share

The following is a reconciliation of the shares used to compute basic and diluted earnings per share (in thousands):

	Three Months Ended September 30, 2018		Nine Months Ended September 30, 2017	
Weighted average number of common shares outstanding used to compute basic earnings per share	52,362	52,500	52,282	52,660
Dilutive effect of stock-based awards	672	673	708	659
Number of shares used to compute diluted earnings per share	53,034	53,173	52,990	53,319

The number of anti-dilutive share equivalents outstanding during the three and nine months ended September 30, 2018 and 2017 was insignificant.

## 11. Income Taxes

For interim reporting periods, the Company's provision for income taxes is calculated using its annualized estimated effective tax rate for the year. This rate is based on its estimated full-year income and the related income tax expense for each jurisdiction in which the Company operates. Changes in the geographical mix, permanent differences or the estimated level of annual pre-tax income, can affect the effective tax rate. This rate is adjusted for the effects of discrete items occurring in the period.

On December 22, 2017, Staff Accounting Bulletin No. 118 ("SAB 118") was issued to address the application of U.S. GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the Tax Cuts and Jobs Act (the "TCJA"). The guidance also provided for a measurement period of up to one year from the date of enactment to complete the accounting for the U.S. tax law changes. In previous quarters, the Company made provisional estimates of the tax effect of the transitional tax liability on deemed foreign dividends, executive compensation and meals and entertainment. Based on guidelines issued by the IRS during the third quarter of 2018, the Company adjusted its provisional estimates and recorded a tax benefit of \$2.9 million. The measurement period under SAB 118 remains open as there is still anticipated guidance clarifying certain aspects of the TCJA and any subsequent adjustments to these provisional amounts would be recorded in the fourth quarter of 2018.

## 12. Segment Reporting

ASGN is a leading provider of IT and professional services in the technology, creative/digital, engineering and life sciences fields across commercial and government sectors. ASGN operates through its Apex, Oxford and ECS segments. The Apex Segment provides technical, scientific, digital and creative services and solutions to Fortune 1000 and mid-market clients across the United States and Canada. The businesses in this segment include Apex Systems, Apex Life Sciences and Creative Circle. The Oxford Segment provides "hard to find" technical, digital, engineering and life sciences resources and consulting services in select skill and geographic markets. The businesses in this segment include Oxford, CyberCoders and Life Sciences Europe. The ECS Segment delivers advanced solutions in cloud, cybersecurity, artificial intelligence, machine learning, software development, IT modernization and science and engineering and is primarily focused on federal government activities. ECS was acquired on April 2, 2018 (see Note 4. Acquisitions).

The Company's management evaluates the performance of each segment primarily based on revenues, gross profit and operating income. The information in the following tables is derived directly from the segments' internal financial reporting used for corporate management purposes.

The following tables present revenues, gross profit, operating income and amortization by reportable segment (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Apex:				
Revenues	\$589,717	\$517,492	\$1,695,728	\$1,502,462
Gross profit	177,831	155,783	506,146	445,925
Operating income	71,443	59,016	192,610	162,679
Amortization	6,546	7,194	19,638	21,983
Oxford:				
Revenues	\$152,701	\$149,556	\$455,222	\$444,427
Gross profit	62,712	62,532	187,321	183,471
Operating income	15,156	16,088	39,794	39,525
Amortization	1,040	1,054	3,143	3,028
ECS:				
Revenues	\$164,031	\$—	\$319,181	\$—
Gross profit	29,629	—	58,288	—
Operating income	4,314	—	8,012	—
Amortization	10,954	—	21,908	—
Corporate:				
Operating loss <sup>(1)</sup>	\$(16,616)	\$(14,234)	\$(54,745)	\$(38,265)
Consolidated:				
Revenues	\$906,449	\$667,048	\$2,470,131	\$1,946,889
Gross profit	270,172	218,315	751,755	629,396
Operating income	74,297	60,870	185,671	163,939
Amortization	18,540	8,248	44,689	25,011

Corporate expenses primarily consist of consolidated stock-based compensation expense, compensation for (1) corporate employees, acquisition, integration and strategic planning expenses, public company expenses and depreciation expense for corporate assets.

The following table presents our revenues disaggregated by type (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2018	2017	2018	2017
Apex:				
Assignment	\$575,309	\$506,376	\$1,653,835	\$1,468,976

## Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

The information in this discussion contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Such statements are based upon current expectations, as well as management's beliefs and assumptions and involve a high degree of risk and uncertainty. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Statements that include the words "believes," "anticipates," "plans," "expects," "intends," and similar expressions that convey uncertainty of future events or outcomes are forward-looking statements. Forward-looking statements include statements regarding our anticipated financial and operating performance for future periods. Our actual results could differ materially from those discussed or suggested in the forward-looking statements herein. Factors that could cause or contribute to such differences include, but are not limited to, the following: (1) actual demand for our services; (2) our ability to attract, train and retain qualified staffing consultants; (3) our ability to remain competitive in obtaining and retaining clients; (4) the availability of qualified contract professionals; (5) management of our growth; (6) continued performance and integration of our enterprise-wide information systems; (7) our ability to manage our litigation matters; (8) the successful integration of our acquired subsidiaries; (9) maintenance of our ECS Segment contract backlog; and the factors described in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2017 ("2017 10-K") under the section titled "Risk Factors" and those updated Risk Factors in this Quarterly Report on Form 10-Q for the quarter ended September 30, 2018. Other factors also may contribute to the differences between our forward-looking statements and our actual results. In addition, as a result of these and other factors, our past financial performance should not be relied on as an indication of future performance. All forward-looking statements in this document are based on information available to us as of the filing date of this Quarterly Report on Form 10-Q and we assume no obligation to update any forward-looking statements or the reasons why our actual results may differ.

### OVERVIEW

ASGN Incorporated is a leading provider of IT and professional services in the technology, creative/digital, engineering and life sciences fields across commercial and government sectors. ASGN operates through its Apex, Oxford and ECS segments. The Apex Segment provides technical, scientific, digital and creative services and solutions to Fortune 1000 and mid-market clients across the United States and Canada. The businesses in this segment include Apex Systems, Apex Life Sciences and Creative Circle. The Oxford Segment provides "hard to find" technical, digital, engineering and life sciences resources and consulting services in select skill and geographic markets. The businesses in this segment include Oxford, CyberCoders and Life Sciences Europe. The ECS Segment delivers advanced solutions in cloud, cybersecurity, artificial intelligence, machine learning, software development, IT modernization and science and engineering and is primarily focused on federal government activities. ECS was acquired on April 2, 2018 (see Note 4. Acquisitions) in the notes to the condensed consolidated financial statements in Part 1, Item 1.

Pro forma revenues and gross profit by segment are presented in the tables and discussion below to provide a more consistent basis for comparison among periods. Pro forma data were prepared as if the acquisition of ECS occurred at the beginning of 2017. Although the pro forma segment data are considered non-GAAP measures, they were calculated in the same manner as the consolidated pro forma data, which are GAAP measures.

## Results of Operations

CHANGES IN RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED SEPTEMBER 30, 2018  
 COMPARED WITH THE THREE MONTHS ENDED SEPTEMBER 30, 2017  
 (Dollars in millions)

Foreign	4.3 %	5.2 %		4.3 %	4.2 %	
	100.0 %	100.0 %		100.0 %	100.0 %	

Revenues on a reported basis increased \$239.3 million, or 35.9 percent year-over-year, as a result of (i) the contribution of \$164.0 million of revenues from ECS, which was acquired on April 2, 2018 and (ii) year-over-year growth of \$75.3 million of revenues, or 11.3 percent, from our other operating divisions. On a pro forma basis, revenues were up \$86.2 million, or 10.5 percent, year-over-year.

Revenues from the Apex Segment, which accounted for 65.1 percent of consolidated revenues for the third quarter of 2018, were \$589.6 million, up 14.0 percent year-over-year. Assignment revenues, which accounted for 97.6 percent of the segment's revenues for the quarter, grew 13.6 percent year-over-year, primarily related to growth in hours billed and to a lesser extent growth, in average bill rates.

IT services, which accounted for 75.5 percent of the Apex Segment's total revenues, grew 15.1 percent year-over-year with all seven industry verticals reporting growth, four of which (financial services, healthcare, consumer industrial and technology) grew double-digits. Creative/digital services revenues, which accounted for 16.8 percent of the segment's revenues, grew 11.3 percent year-over-year mainly as a result of growth in our corporate business accounts. Our life sciences revenues, which accounted for 7.7 percent of the segment's revenues, were up 8.9 percent year-over-year, primarily related to the \$6.0 million contribution from Stratacuity, which was acquired in August 2017.

Revenues from the Oxford Segment, which accounted for 16.8 percent of consolidated revenues for the third quarter of 2018, were \$152.8 million, up 2.1 percent year-over-year. Growth in permanent placement revenues accounted for approximately 23.6 percent of the segment's year-over-year revenue growth, driven by an increase in recruiter headcount and productivity partially offset by a reduction in the average fee per placement. Assignment revenues were \$130.4 million up 1.9 percent year-over-year. Growth in assignment revenues was primarily from an increase in hours billed mainly related to growth from European operations.

Revenues from the ECS Segment, which accounted for 18.1 percent of consolidated revenues for the third quarter of 2018, were \$164.0 million, up 7.1 percent year-over-year on a pro forma basis. This growth was driven by revenues from recent federal contract awards largely in artificial intelligence and machine learning ("AI/ML") solutions. Federal spending is expected to continue to increase in the near term, particularly in the higher-end AI/ML, cybersecurity and cloud solutions areas in which ECS has extensive expertise.

#### Gross Profit and Gross Margins

Three Months Ended September 30,	Reported				Pro Forma		
	2018	2017	% Change		2018	2017	% Change
Gross profit:							
Apex	\$177.8	\$155.7	14.2 %		\$177.8	\$155.7	14.2 %
Oxford	62.7	62.6	0.3 %		62.7	62.6	0.3 %
ECS	29.6	—	—		29.6	27.9	6.1 %
Consolidated	\$270.1	\$218.3	23.8 %		\$270.1	\$246.2	9.7 %
Gross margin:							
Apex	30.2 %	30.1 %			30.2 %	30.1 %	
Oxford	41.1 %	41.8 %			41.1 %	41.8 %	
ECS	18.1 %	— %			18.1 %	18.2 %	
Consolidated	29.8 %	32.7 %			29.8 %	30.0 %	

Gross profit is comprised of revenues less costs of services, which consist primarily of compensation for our contract professionals, other direct costs and reimbursable out-of-pocket expenses. Gross profit for the third quarter of 2018 was \$270.1 million, up 23.8 percent year-over-year on a reported basis, primarily as a result of the contribution from ECS. Gross margin was 29.8 percent, a compression of 290 basis points year-over-year on a reported basis, primarily due to the inclusion of ECS, which has lower margins than our other segments. On a pro forma basis, our gross margin compressed approximately 20 basis points year-over-year mainly related to a change in business mix.

The Apex Segment accounted for 65.8 percent of consolidated gross profit for the third quarter of 2018. Its gross profit was \$177.8 million, up 14.2 percent year-over-year. Gross margin for the segment was 30.2 percent, an expansion of 10 basis points year-over-year, reflecting stable pricing in our end markets.

The Oxford Segment accounted for 23.2 percent of consolidated gross profit for the third quarter of 2018. Its gross profit was \$62.7 million, up 0.3 percent year-over-year. Gross margin for the segment was 41.1 percent, compared with 41.8 percent in the same period of last year. The compression in gross margin reflected a higher mix of revenues

from its European operations, which have lower gross margins, as well as other changes in business mix.

The ECS Segment accounted for 11.0 percent of consolidated gross profit for the third quarter of 2018. Its gross profit was \$29.6 million, up 6.1 percent year-over-year on a pro forma basis. Gross margin for the segment was 18.1 percent, a compression of 10 basis points year-over-year on a pro forma basis, largely related to an increase in the mix of revenues from cost-plus-fixed-fee contracts, which generally have lower gross margins and an increase in costs of services derived from the purchase of materials, and the use of subcontractors.

#### Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses consist primarily of compensation expense for our field operations and corporate staff, rent, information systems, marketing, telecommunications, public company expenses and other general and administrative expenses. SG&A expenses were \$177.3 million (19.6 percent of revenues), compared with \$149.2 million (22.4 percent of revenues) in the third quarter of last year. The increase in SG&A expenses is primarily due to (i) an increase in compensation expenses commensurate with growth in the business, and (ii) the inclusion of ECS, which had \$14.4 million of SG&A expenses in the quarter. SG&A expenses as a percentage of revenues decreased as ECS has a lower SG&A expenses to revenues ratio when compared with our other segments. SG&A expenses for the third quarter of 2018 included \$1.6 million in acquisition, integration and strategic planning expenses. SG&A expenses in the third quarter of 2017 included \$1.5 million in acquisition, integration and strategic planning expenses.

#### Amortization of Intangible Assets

Amortization of intangible assets for the third quarter of 2018 was \$18.5 million, compared with \$8.2 million in the same period of last year. The increase is related to the intangible assets from the ECS acquisition.

#### Interest Expense

Interest expense for the third quarter of 2018 was \$14.6 million, compared with \$7.1 million in the same period of last year. The increase in interest expense was due to interest on the \$822.0 million term B loan facility used to fund the acquisition of ECS. Interest expense for the quarter was comprised of \$13.2 million of interest on the credit facility and \$1.4 million of amortization of deferred loan costs.

#### Provision for Income Taxes

The provision for income taxes was \$10.5 million for the third quarter of 2018, which reflected the lower federal corporate tax rate related to the recently enacted TCJA, compared with \$18.9 million in the same period of last year. The effective tax rate for the quarter was 17.5 percent, down from 25.5 percent in the second quarter of 2018. The sequential improvement in the rate was mainly attributable to (i) an adjustment to the provisional TCJA estimates based on recently issued IRS guidelines, which resulted in a total benefit of \$2.9 million and (ii) higher excess tax benefits from stock-based compensation and higher employment tax credits.

#### Net Income

Net income was \$49.2 million for the third quarter of 2018, up from \$34.9 million in the same period of last year.

# Results of Operations

## CHANGES IN RESULTS OF OPERATIONS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2018 COMPARED WITH THE NINE MONTHS ENDED SEPTEMBER 30, 2017 (Dollars in millions)

	Reported				Pro Forma		
Nine Months Ended September 30,	2018	2017	% Change		2018	2017	% Change
Revenues by segment:

Revenues on a reported basis increased \$523.2 million, or 26.9 percent year-over-year, as a result of (i) the contribution of \$319.1 million of revenues from ECS, which was acquired on April 2, 2018 and (ii) year-over-year growth of \$204.1 million of revenues, or 10.5 percent from our other operating divisions. On a pro forma basis, revenues were up \$237.3 million, or 10.0 percent, year-over-year.

Revenues from the Apex Segment, which accounted for 68.6 percent of consolidated revenues for the nine months ended September 30, 2018, were \$1.7 billion, up 12.9 percent year-over-year. Assignment revenues, which accounted

for 97.5 percent of the segment's revenues for the nine months ended September 30, 2018, grew 12.6 percent year-over-year, primarily related to growth in hours billed and to a lesser extent growth, in average bill rates.

IT services, which accounted for approximately 75.2 percent of the Apex Segment's total revenues, grew 13.7 percent year-over-year with all seven industry verticals reporting growth, five of which (consumer industrial, aerospace and defense/government, financial services, healthcare and technology) grew double-digits. Creative/digital services revenues, which accounted for 17.1 percent of the segment's revenues, grew 9.9 percent year-over-year mainly as a result of growth in corporate business accounts. Our life sciences revenues, which accounted for 7.7 percent of the segment's revenues, were up 11.7 percent year-over-year, primarily related to the \$17.2 million contribution from Stratacuity, which was acquired in August 2017.

Revenues from the Oxford Segment, which accounted for 18.4 percent of consolidated revenues for the nine months ended September 30, 2018, were \$455.3 million, up 2.4 percent year-over-year. Growth in permanent placement revenues accounted for approximately 42.8 percent of the segment's year-over-year revenue growth, driven by an increase in recruiter headcount and productivity partially offset by a reduction in the average fee per placement. Assignment revenues were \$386.1 million for the nine months ended September 30, 2018, up from \$379.9 million in the same period of last year. Growth in assignment revenues was primarily from an increase in hours billed mainly related to growth from European operations.

Revenues from the ECS Segment, which accounted for 13.0 percent of consolidated revenues for the nine months ended September 30, 2018, were \$319.1 million, on an as reported basis. On a pro forma basis, revenues were up 7.6 percent for the nine months ended September 30, 2018. This growth was largely driven by revenues from recent federal contract awards including services related to delivering next generation enterprise applications, DevOps and AI/ML solutions. Federal spending is expected to increase in the near term, particularly in the higher-end AI/ML, cybersecurity and cloud solutions areas in which ECS has extensive expertise.

#### Gross Profit and Gross Margins

Nine Months Ended September 30,	Reported			Pro Forma		
	2018	2017	% Change	2018	2017	% Change
Gross profit:						
Apex	\$506.1	\$445.9	13.5 %	\$506.1	\$445.9	13.5 %
Oxford	187.3	183.5	2.1 %	187.3	183.5	2.1 %
ECS	58.3	—	—	85.0	84.8	0.1 %
Consolidated	\$751.7	\$629.4	19.4 %	\$778.4	\$714.2	9.0 %
Gross margin:						
Apex	29.8 %	29.7 %		29.8 %	29.7 %	
Oxford	41.1 %	41.3 %		41.1 %	41.3 %	
ECS	18.3 %	— %		18.1 %	19.5 %	
Consolidated	30.4 %	32.3 %		29.7 %	30.0 %	

Gross profit for the nine months ended September 30, 2018 was \$751.7 million, up 19.4 percent year-over-year on a reported basis, primarily as a result of the contribution from ECS. Gross margin was 30.4 percent, a compression of 190 basis points year-over-year on a reported basis, primarily due to the inclusion of ECS, which has lower margins than our other segments. On a pro forma basis, our gross margin compressed approximately 30 basis points year-over-year, mainly related to a change in business mix.

The Apex Segment accounted for 67.3 percent of consolidated gross profit for the nine months ended September 30, 2018. Its gross profit was \$506.1 million, up 13.5 percent year-over-year. Gross margin for the segment was 29.8 percent, an expansion of 10 basis points year-over-year, primarily related to a higher mix of permanent placement revenues.

The Oxford Segment accounted for 24.9 percent of consolidated gross profit for the nine months ended September 30, 2018. Its gross profit was \$187.3 million, up 2.1 percent year-over-year. Gross margin for the segment was 41.1 percent, compared with 41.3 percent in the same period of last year. The compression in gross margin reflected a higher mix of revenues from its European operations, which have lower gross margins, as well as other changes in business mix.

The ECS Segment accounted for 7.8 percent of consolidated gross profit for the nine months ended September 30, 2018. Its gross profit was \$85.0 million, up 0.1 percent year-over-year on a pro forma basis. Gross margin was 18.1 percent, a compression of 140 basis points year-over-year on a pro forma basis, largely related to an increase in the mix of revenues from cost-plus-fixed-fee contracts, which generally have lower gross margins and an increase in costs of services derived from the purchase of materials, and the use of subcontractors.

#### Selling, General and Administrative Expenses

SG&A expenses were \$521.4 million (21.1 percent of revenues) for the nine months ended September 30, 2018, up from \$440.4 million (22.6 percent of revenues) in the same period of last year. The increase in SG&A expenses is primarily due to (i) an increase in compensation expenses commensurate with growth in the business, (ii) the inclusion of ECS, which had \$28.4 million of SG&A expenses from the date of acquisition and (iii) higher acquisition, integration and strategic planning expenses. SG&A expenses as a percentage of revenues decreased as ECS has a lower SG&A expenses to revenues ratio when compared with our other segments. SG&A expenses for the nine months ended September 30, 2018 included \$14.9 million in acquisition, integration and strategic planning expenses compared with \$3.1 million in acquisition, integration and strategic planning expenses in the same period of last year.

#### Amortization of Intangible Assets

Amortization of intangible assets was \$44.7 million for the nine months ended September 30, 2018, compared with \$25.0 million in the same period of last year. The increase is related to the intangible assets from the ECS acquisition.

#### Interest Expense

Interest expense was \$41.7 million for the nine months ended September 30, 2018, compared with \$21.7 million in the same period of last year. The increase in interest expense was due to interest on the \$822.0 million term B loan facility used to fund the acquisition of ECS and debt amendment fees incurred in the nine months ended September 30, 2018. Interest expense for the nine months ended September 30, 2018 was comprised of (i) interest on the credit facility of \$31.8 million, (ii) \$6.2 million of costs related to the amendment to our credit facility in conjunction with the acquisition of ECS and (iii) amortization of deferred loan costs of \$3.7 million.

#### Provision for Income Taxes

The provision for income taxes was \$31.9 million for the nine months ended September 30, 2018, which reflected the lower federal corporate tax rate related to the recently enacted TCJA, compared with \$51.8 million in the same period of last year. The effective tax rate for the nine months ended September 30, 2018 was 22.2 percent and benefited from (i) an adjustment to the provisional TCJA estimates based on recently issued IRS guidelines which resulted in a total benefit of \$2.9 million and (ii) excess tax benefits from stock-based compensation and employment tax credits.

#### Net Income

Net income was \$111.8 million for the nine months ended September 30, 2018, up from \$90.3 million in the same period of last year.

## ECS Segment Contract Backlog

Contract backlog is a useful measure of potential future revenues for our ECS Segment. Contract backlog represents the estimated amount of future revenues to be recognized under awarded contracts including task orders and options. Contract backlog does not include potential value from contract awards, which have been protested by competitors until the protest is resolved in our favor. Contract backlog does not include any estimate of future work expected under indefinite delivery, indefinite quantity (IDIQ) contracts or U.S. General Services Administration (GSA) schedules. ECS segregates contract backlog into funded contract backlog and negotiated unfunded contract backlog, which together make up total contract backlog.

Funded contract backlog for contracts with U.S. government agencies primarily represents contracts for which funding has been formally awarded less revenues previously recognized on these contracts and does not include the unfunded portion of contracts where funding is incrementally awarded or authorized by the U.S. government even though the contract may call for performance over a number of years. Funded contract backlog for contracts with non-government agencies represents the estimated value of contracts, which may cover multiple future years, less revenue previously recognized on these contracts.

Negotiated unfunded contract backlog represents the estimated future revenues to be earned from negotiated contract awards for which funding has not yet been awarded or authorized and from unexercised priced contract options.

Contract backlog estimates are subject to change and may be affected by the execution of new contracts, the extension or early termination of existing contracts, the non-renewal or completion of current contracts, and adjustments to estimates for previously included contracts. Changes in the funded contract backlog are also affected by the funding cycles of the government.

	September 30, 2018	June 30, 2018
Funded Contract Backlog	\$ 365.1	\$278.2
Negotiated Unfunded Contract Backlog	1,163.7	1,137.2
Contract Backlog	\$ 1,528.8	\$ 1,415.4

## ECS Segment Book-to-Bill Ratio

The book-to-bill ratio for the third quarter of 2018 for our ECS segment was 1.7 to 1. The book-to-bill ratio was calculated as the sum of the change in total contract backlog during the quarter plus revenues for the quarter, divided by revenues for the quarter.

## Liquidity and Capital Resources

Our working capital (current assets less current liabilities) at September 30, 2018 was \$355.2 million, and our cash and cash equivalents were \$40.9 million, of which \$24.4 million was held in foreign countries and not available to fund domestic operations unless repatriated. We do not intend to repatriate cash held in foreign countries at this time. Our cash flows from operating activities have been our primary source of liquidity and have been sufficient to fund our working capital and capital expenditure needs. Our working capital requirements are primarily driven by the overall growth in our business and debt service requirements. We believe that our expected operating cash flows and availability under our revolving credit facility will be sufficient to meet our obligations, working capital requirements and capital expenditures for the next 12 months.

Net cash provided by operating activities was \$223.6 million for the nine months ended September 30, 2018, compared with \$138.2 million in the same period of last year. Net cash provided by operating activities before changes in operating assets and liabilities, was \$223.1 million, up from \$169.3 million in the same period of last year. Changes in operating assets and liabilities resulted in cash generation of \$0.4 million for the nine months ended September 30, 2018, compared with the use of cash of \$31.2 million in the same period of last year. This improvement related to, among other things, lower income tax payments, timing of payrolls and lower growth in accounts receivable.

Net cash used in investing activities was \$782.5 million for the nine months ended September 30, 2018, compared with \$43.9 million in the same period of last year. Net cash used in investing activities in 2018 was comprised of a \$760.3 million payment for the acquisition of ECS on April 2, 2018 and \$22.1 million used to purchase property and equipment. Net cash used in investing activities in the same period of last year was primarily comprised of \$25.8 million used for the purchase of Stratacuity and \$18.0 million used to purchase property and equipment.

Net cash provided by financing activities was \$564.0 million for the nine months ended September 30, 2018, compared with net cash used in financing activities of \$94.8 million in the same period of last year. Net cash provided by financing activities in 2018 consisted primarily of \$822.0 million of proceeds from the credit facility, partially offset by \$231.0 million in principal payments of long-term debt and \$22.5 million of debt issuance and amendment costs. Financing activities in 2018 also included \$9.5 million in payments made for liabilities assumed in the ECS acquisition. Net cash used in financing activities in the same period of last year consisted primarily of \$58.9 million used for repurchases of our common stock and \$32.5 million net cash used to pay down long-term debt.

On April 2, 2018, in conjunction with the acquisition of ECS, the Company amended its credit facility to, among other things, add an \$822.0 million term B loan tranche that matures on April 2, 2025. The amended credit facility also provided the ability to increase the loan facilities by an amount not to exceed the sum of (i) \$300.0 million, (ii) the aggregate principal of voluntary prepayments of the term B loans and permanent reductions of the revolving commitments, and (iii) additional amounts so long as the pro forma consolidated secured leverage ratio is no greater than 3.25 to 1.00. The revolving credit facility was also amended to extend the maturity date to March 31, 2023. The Company incurred \$22.5 million of debt issuance and amendment costs, of which \$15.3 million are presented on the condensed consolidated balance sheet as a reduction of outstanding debt and are being amortized over the term of credit facility, \$6.2 million were expensed as incurred and were included in interest expense in the nine months ended September 30, 2018, and the remaining fees were presented in other current assets and other non-current assets and are being amortized over the term of the credit facility.

At September 30, 2018, borrowings under our credit facility totaled \$1.2 billion (see Note 6. Long-Term Debt). For the term B loan that matures on June 5, 2022, there are no required minimum payments until its maturity date. For the term B loan that matures on April 2, 2025, the Company is required to make minimum quarterly payments of \$2.1 million; however, as a result of principal payments made through September 30, 2018, the first required minimum

quarterly payment of \$2.1 million is not due until September 30, 2022. The Company is also required to make mandatory prepayments on its term loans from excess cash flow and with the proceeds of asset sales, debt issuances and specified other events, subject to specified exceptions. The credit facility is secured by substantially all of our assets and includes various restrictive covenants including the maximum ratio of consolidated secured debt to consolidated EBITDA, which steps down at regular intervals from 4.75 to 1.00 as of September 30, 2018, to 3.75 to 1.00 as of September 30, 2021 and thereafter. The credit facility also contains customary limitations including, among other terms and conditions, the Company's ability to incur additional indebtedness, engage in mergers and acquisitions and declare dividends. At September 30, 2018, the Company was in compliance with all of its debt covenants, its ratio of consolidated secured debt to consolidated EBITDA was 2.89 to 1.00 and the Company had \$195.6 million available borrowing capacity under its revolving credit facility.

#### Recent Accounting Pronouncements

Refer to Note 2. Accounting Standards Update in the notes to the condensed consolidated financial statements in Part I, Item 1.

#### Critical Accounting Policies

The Company's accounting policies were revised in connection with the implementation of ASC 606. Refer to Note 2. Accounting Standards Update in Part I, Item 1, of this Quarterly Report on Form 10-Q. There have been no significant changes to our critical accounting policies and estimates during the nine months ended September 30, 2018 compared with those disclosed in Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations of our 2017 10-K.

## Commitments

We have not made any material changes to the significant commitments or contractual obligations that were disclosed in our 2017 10-K, nor have we entered into any new ones.

With the acquisition of ECS, the Company assumed various operating lease commitments, refer to Note 7. Commitments and Contingencies in the condensed consolidated financial statements.

## Item 3 - Quantitative and Qualitative Disclosures about Market Risks

With respect to our quantitative and qualitative disclosures about foreign currency risks and interest rates risks, there have been no material changes to the information included in our 2017 10-K.

**Foreign Currency Fluctuations.** Our exposure to fluctuations in foreign currency exchange rates relates primarily to our foreign subsidiaries. Exchange rates impact the U.S. dollar value of our reported earnings, investments in our foreign subsidiaries and intercompany transactions with our foreign subsidiaries. Fluctuations in currency exchange rates impact the U.S. dollar amount of our stockholders' equity. The assets and liabilities of our non-U.S. subsidiaries are translated into U.S. dollars at the exchange rates in effect at period end. The resulting translation adjustments are recorded in stockholders' equity as a component of accumulated other comprehensive income (loss). Based on the relative size and nature of our foreign operations, we do not believe that a 10 percent change in the value of foreign currencies relative to the U.S. dollar would have a material impact on our financial statements.

**Interest Rate Risk.** Our exposure to interest rate risk is associated with our debt instruments (refer to Note 6. Long-Term Debt in the condensed consolidated financial statements for a further description of our debt instruments). A hypothetical 100 basis point change in interest rates on variable rate debt would have resulted in interest expense fluctuating approximately \$11.8 million based on \$1.2 billion of debt outstanding for any 12-month period. We have not entered into any market risk sensitive instruments for hedging or trading purposes.

## Item 4 - Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Principal Financial and Accounting Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act). Based on this evaluation, our Chief Executive Officer and Principal Financial and Accounting Officer have concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report. The term "disclosure controls and procedures" means controls and other procedures of the Company that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within required time periods. We have established disclosure controls and procedures to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Principal Financial and Accounting Officer, as appropriate, to allow timely decisions regarding required disclosure.

On April 2, 2018, we acquired ECS. SEC guidance permits management to omit an assessment of an acquired business' internal controls over financial reporting from management's assessment of internal controls over financial reporting for a period not to exceed one year from the date of the acquisition. Accordingly, management has not assessed ECS' internal control over financial reporting as of September 30, 2018.

There were no changes in our internal controls over financial reporting that occurred during the three months ended September 30, 2018 that have materially affected, or are reasonably likely to affect, our internal control over financial reporting.

## PART II – OTHER INFORMATION

### Item 1 – Legal Proceedings

We are involved in various legal proceedings, claims and litigation arising in the ordinary course of business. However, based on the facts currently available, we do not believe that the disposition of matters that are pending or asserted will have a material effect on our financial position, results of operations or cash flows.

### Item 1A – Risk Factors

We have provided additional risk factors below that relate to our recently acquired ECS Segment. These should be read in conjunction with the disclosure provided in our 2017 Form 10-K related to our other segments. If any of the following risks actually occur, our business, financial condition or results of operations could be materially adversely affected and the value of our common stock could decline.

#### Risks Factors Related to Our Government Business from our ECS Segment

We derive significant revenues from contracts and task orders awarded through a competitive bidding process. Our revenues and profitability may be adversely impacted if we fail to compete effectively in such processes. Our contracts and task orders with the federal government, which are approximately 95 percent of our ECS Segment, are typically awarded through a competitive bidding process, which creates significant competition and pricing pressure. The competitive bidding process involves substantial costs and a number of risks, including significant cost and managerial time to prepare bids and proposals for contracts that may not be awarded to us, or that may be awarded but for which we do not receive meaningful task orders. We may encounter delays and additional expenses if our competitors protest or challenge contracts awarded to us in competitive bidding and any such protest or challenge could result in the resubmission of bids on modified specifications, or in the termination, reduction or modification of the awarded contract. If we are unable to win particular contracts, we may be prevented from providing to customers services that are purchased under those contracts for a number of years. In addition, upon the expiration of a contract, if the customer requires further services of the type provided by the contract, there is frequently a competitive rebidding process. There can be no assurance that we will win any particular bid, or that we will be able to replace business lost upon expiration or completion of a contract and the termination or non-renewal of any of our significant contracts could cause our actual results to differ materially and adversely from those anticipated.

Our earnings and profitability may vary based on the mix of our contracts and may be adversely affected by our failure to accurately estimate and manage costs, time and resources.

Our ECS Segment generates revenues under various types of contracts: firm-fixed-price, cost-plus-fixed-fee and time and materials. Our earnings and profitability may vary materially depending on changes in the proportionate amount of revenues derived from each type of contract, the costs incurred in their performance and the nature of services or solutions provided. Under firm-fixed-price contracts, we perform specific tasks and services for a fixed price. Compared to cost-plus-fixed-fee, firm-fixed-price contracts generally offer higher margin opportunities, but involve greater financial risk because we bear the impact of cost overruns. When making proposals on firm-fixed-price contracts, we rely heavily on our estimates of costs and timing for completing the associated projects. Failure to accurately estimate costs, resources and technology needed to perform our contracts or to effectively manage and control our costs during the performance of work could result in reduced profits or in losses. Under cost-plus-fixed-fee contracts, we are reimbursed for allowable costs plus a profit margin or fee. These contracts generally have lower profitability and less financial risk. Under time and materials contracts, we are reimbursed for labor at negotiated hourly billing rates and for certain expenses. We assume financial risk on time and materials contracts because we assume the risk of performing those contracts at negotiated hourly rates.

We are required to comply with numerous laws and regulations, some of which are complex and our failure to comply could result in fines or civil or criminal penalties, or suspension or debarment, which could materially and adversely

affect our results of operations.

We must comply with laws and regulations relating to the formation, administration and performance of federal government contracts. These laws and regulations affect how we conduct business with our federal government customers. Such laws and regulations may potentially impose added costs on our business and our failure to comply with them may lead to civil or criminal penalties, termination of our U.S. government contracts and/or suspension or debarment from contracting with U.S. government agencies. All of our U.S. government contracts can be terminated by the U.S. government either for its convenience or if we default by failing to perform under the contract.

Termination for convenience provisions provide only for our recovery of costs incurred or committed settlement expenses and profit on the work completed prior to termination. Termination for default provisions provide for the contractor to be liable for excess costs incurred by the U.S. government in procuring undelivered items from another source and could damage our reputation and impair our ability to compete for future contracts. Failure to comply with regulations and required practices and procedures could harm our reputation or influence the award of new contracts. Audits by U.S. Government agencies could result in unfavorable audit results that could subject us to a variety of penalties and sanctions and could harm our reputation and relationships with our customers and negatively impact results of operations.

Federal government agencies, including the Defense Contract Audit Agency (DCAA) and the Defense Contract Management Agency (DCMA), routinely audit and investigate government contracts and government contractors' administrative processes and systems. These agencies review our performance on contracts, pricing practices, cost structure and compliance with applicable laws, regulations and standards. Any costs found to be improperly allocated to a specific contract will not be reimbursed, while such costs already reimbursed must be refunded. If a government

audit uncovers improper or illegal activities, we may be subject to civil and criminal penalties and administrative sanctions, including termination of contracts, forfeiture of profits, suspension of payments, fines and suspension or debarment from doing business with federal government agencies.

Changes in spending or budgetary priorities, the failure to approve U.S. government budgets on a timely basis or delays in contract awards and other procurement activity may significantly and adversely affect our future financial results.

Our business depends upon continued U.S. government expenditures on intelligence, defense, homeland security, federal health IT and other programs that we support. The U.S. government conducts periodic reviews of U.S. defense strategies and priorities which may shift Department of Defense budgetary priorities, reduce overall spending or delay contract or task order awards for defense-related programs from which we would otherwise expect to derive a significant portion of our future revenues. Any of these changes could impair our ability to obtain new contracts or contract renewals. Any new contracting requirements or procurement methods could be costly or administratively difficult for us to implement. Our revenues, cash flows and operating results could be adversely affected by spending caps or changes in budgetary priorities, as well as by delays in the government budget process, program starts or the award of contracts or task orders under contracts.

We may not realize the full value of our ECS Segment contract backlog, which may result in lower revenues than anticipated.

Contract backlog is a useful measure of potential future revenues for our ECS Segment. Our ECS Segment contract backlog consists of contracts for which funding has been formally awarded (funded backlog), and unfunded backlog, which represents the estimated future revenues to be earned from negotiated contract awards for which funding has not been awarded and from unexercised contract options.

The U.S. Government's ability to not exercise contract options or to modify, curtail or terminate our contracts makes the calculation of our ECS Segment backlog subject to numerous uncertainties. Due to the uncertain nature of our contracts with the U.S. Government, we may never realize revenue from some of the engagements that are included our contract backlog. Our unfunded backlog, in particular, contains amounts that we may never realize as revenue because the maximum contract value specified under a U.S. Government contract or task order awarded to us is not necessarily indicative of the revenue that we will realize under that contract.

#### Item 2 - Unregistered Sales of Securities and Use of Proceeds

None.

#### Item 3 - Defaults Upon Senior Notes

None.

#### Item 4 - Mine Safety Disclosures

Not applicable.

#### Item 5 - Other Information

None.

Item 6 - Exhibits
