The undersigned registrant hereby amends Item 7 of its Amendment No. 1 to Current Report on Form 8-K/A dated December 21, 2001 and filed on January 31, 2002 in its entirety as follows:

Item 7. Financial Statements, Pro Forma Financial Information and Exhibits

The following financial statements, pro forma financial information and exhibits are filed as part of this report.

- (a) Financial statements of Blodgett Holdings, Inc. pursuant to Rule 3-05 of Regulation S-X:

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Shareholders and Board of Directors of The Middleby Corporation:

We have audited the accompanying consolidated balance sheets of Blodgett Holdings, Inc. (a Delaware corporation) as of September 29, 2001 and December 30, 2000, and the related consolidated statements of income, cash flows and stockholder's equity for the nine months ended September 29, 2001 and the years ended December 30, 2000 and January 1, 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Blodgett Holdings, Inc., as of September 29, 2001 and December 30, 2000, and the results of its operations and its cash flows for the nine months ended September 29, 2001 and the years ended December 30, 2000 and January 1, 2000, in conformity with accounting principles generally accepted in the United States.

BLODGETT HOLDINGS, INC.

NOTES TO FINANCIAL STATEMENTS

(1) NATURE OF OPERATIONS

Blodgett (the business) is engaged in the design, manufacture and sale of commercial and institutional foodservice equipment. Its major lines of products consist of convection ovens, conveyor ovens, deck ovens, combi-ovens, fryers and charbroilers under the Blodgett, Pitco Frialator, Magikitch'n and Blodgett Combi brands. The business manufactures and assembles this equipment at several factories in the United States. Through December 21, 2001, Blodgett Holdings, Inc. was a subsidiary of Maytag Corporation.

The business' domestic sales are primarily through independent dealers and distributors and are marketed by the business sales personnel and network of independent manufacturers' representatives. The business' international sales are through a combined network of independent and company-owned distributors. The business maintains an international sales office in the United Kingdom. The business' end-user customers include: (i) fast food or quick-service restaurants, (ii) full-service restaurants, including casual-theme restaurants, (iii) retail outlets, such as convenience stores, supermarkets and department stores and (iv) public and private institutions, such as hotels, resorts, schools, hospitals, long-term care facilities, correctional facilities, stadiums, airports, corporate cafeterias, military facilities and government agencies. Included in these customers are several large multi-national restaurant chains, which account for a significant portion of the business, although no single customer accounts for more than 10% of net sales.

The business purchases raw materials and component parts, the majority of which are standard commodity type materials, from a number of suppliers. Although certain component parts are procured from a sole source, the business can purchase such parts from alternate vendors.

The business has numerous licenses and patents to manufacture, use and sell its products and equipment. Management believes the loss of any one of these licenses or patents would not have a material adverse effect on the financial and operating results of the business.

(2) BASIS OF PRESENTATION

- 7 -

As a result of the business' relationship with Maytag, the financial position and results of operations are not necessarily indicative of what actually would have occurred had the business operated as a stand-alone entity. Additionally, these financial statements are not necessarily indicative of future financial position or results of operations.

The consolidated financial statements include the accounts of the business and its wholly-owned, directly or indirectly, subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

The business' fiscal year ends on the Saturday nearest December 31. Fiscal years 2000 and 1999 ended on December 30, 2000, and January 1, 2000 respectively, and each included 52 weeks. The nine-month period ended September 29, 2001 includes 39 weeks.

(3) DISPOSITION OF ASSET

On December 21, 2001, pursuant to a previously announced disposition, Maytag sold the business to The Middleby Corporation (Middleby). Significant terms of the sale include the disposition of all outstanding shares of capital stock of Blodgett Holdings, Inc., a Delaware Corporation.

(4) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Cash and Cash Equivalents

Highly liquid investments with maturity of three months or less when purchased are considered by the business to be cash equivalents.

(b) Inventory Valuation

Inventories are comprised of material, labor and overhead and are stated at the lower of cost or market. Cost is determined utilizing the last-in, first-out (LIFO) inventory method. Inventories at September 29, 2001 and December 30, 2000 are as follows:

	<u>September 29, 2001</u>	<u>December 30, 2000</u>
	(dollars in thousands)	
Raw materials and parts	\$ 8,547	\$ 8,061

(c) Property, Plant and Equipment

Property, plant and equipment are carried at cost as follows:

	<u>September 29, 2001</u>	<u>December 30, 2000</u>
	(dollars in thousands)	
Land	\$ 586	\$ 586
Building and improvements	8,763	8,635

Edgar Filing: MIDDLEBY CORP - Form 8-K/A

September 29,
2001

December 30, 2000

Depreciation expense is provided for using the straight-line method and amounted to \$2,346 and \$2,737 for the period ending September 29, 2001, and fiscal year ending December 30, 2000. Following is a summary of the estimated useful lives:

Description	Life
Building and improvements	15 to 45 years
Furniture and fixtures	5 to 7 years
Machinery and equipment	3 to 20 years

Expenditures which significantly extend useful lives are capitalized. Maintenance and repairs are charged to expense as incurred. Asset impairments are recorded whenever events or changes in circumstances indicate that the recorded value of an asset is less than the sum of its expected future undiscounted cash flows.

(d) *Long-lived Assets*

The majority of goodwill and other intangibles are amortized on a straight-line basis over forty years.

Long-lived assets are reviewed for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable. For long-lived assets held for use an impairment loss is recognized when the estimated undiscounted cash flows produced by an asset are less than the asset's carrying value.

As of September 29, 2001, Maytag had recorded an estimated loss of \$59,500 on the planned disposition of Blodgett Holdings, Inc. This loss has not been recorded on the business' financial statements as of September 29, 2001. The business analysis, on a held for use basis using undiscounted cash flows, indicates no impairment loss at September 29, 2001.

- 9 -

(e) *Accrued Expenses*

Accrued expenses consist of the following at September 29, 2001 and December 30, 2000, respectively:

	September 29, 2001	December 30, 2000
	(dollars in thousands)	
Accrued payroll and related expenses	\$ 1,864	\$ 1,401
Accrued warranty	6,718	6,280
Accrued sales and promotion expenses	1,894	1,952
Accrued product liability expenses	1,487	1,528
Other accrued expenses	3,401	3,790
	\$15,364	\$14,951

(f) *Income Taxes*

Income taxes are accounted for under Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes. This Statement utilizes an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in an entity's financial statements or tax returns. Deferred income taxes are provided to reflect the differences between the tax bases of assets and liabilities and their

reported amounts in the financial statements.

(g) *Use of Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(h) *Revenues*

Revenue from sales of products is generally recognized upon shipment to customers. Shipping and handling fees charged to customers are included in net sales, and shipping and handling costs incurred by the business are included in cost of sales. Estimated product warranty costs are recorded at the time of sale and periodically adjusted to reflect actual experience.

- 10 -

(5) RELATED PARTY TRANSACTIONS

In each of the periods included in these financial statements, the business was a wholly owned subsidiary of Maytag Corporation. In the accounting for wholly owned subsidiaries, Maytag records the direct incremental costs for those subsidiaries in the division financial statements as an expense of the subsidiary. Costs paid by Maytag but recorded as an expense in the income statement of the business include health care claims, premiums for all insurance policies, executive salaries and incentive compensation, stock option expenses, pension, post-retirement health care, and system related costs for the wide area network. Wherever available, the actual direct costs related to the business were utilized to record the expenses of the business. Where actual costs could not be segregated by subsidiary, Maytag utilized estimates to allocate a reasonable approximation of those direct costs to the business.

(6) INCOME TAXES

For purposes of these financial statements, the business calculated the current and deferred income tax provision as if it filed a separate tax return. Income taxes are ultimately paid by, and are the responsibility of, Maytag. Maytag will retain the obligation for all tax liabilities through the date of sale.

The reconciliation of income tax computed at the U.S. federal statutory tax rate to the business effective income tax rate is as follows:

	<u>September 29, 2001</u>	<u>December 30, 2000</u>
	(dollars in thousands)	
Tax at U.S federal statutory rate	35%	35%
State and local income taxes, net of U.S federal benefits	13%	(13)%
Non-deductible amortization	(111)%	228%
Foreign losses without tax benefit	(30)%	56%
Other	(5)%	16%
	<u> </u>	<u> </u>
Effective rate	(98)%	322%
	<u> </u>	<u> </u>
	<u>September 29, 2001</u>	<u>December 30, 2000</u>
Income tax expense consists of:

	<u>September 29, 2001</u>	<u>December 30, 2000</u>
Net Provision	\$ 872	\$ 1,867

- 11 -

Significant components of the business net deferred income tax asset are as follows (in thousands):

	<u>September 29, 2001</u>	<u>December 30, 2000</u>
Deferred Tax Assets:		
Receivable Reserves	\$ 466	\$ 370
Inventory Reserves	1,150	952
Accrued Compensation and Benefit Related Costs	1,205	624
Accrued Restructuring Reserves	679	1,094
Accrued Warranty Reserves	2,687	2,672
Other Assets	887	611
	<u>7,074</u>	<u>6,323</u>
Deferred Tax Liabilities:		
LIFO Reserves	(901)	(897)
Depreciation	(1,353)	(1,444)
	<u>(2,254)</u>	<u>(2,341)</u>
Net Deferred Tax Assets	<u>\$ 4,820</u>	<u>\$ 3,982</u>

The net deferred income tax asset reflects the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts for income tax purposes. Management believes that it is probable that the net deferred income tax asset will be realized on future tax returns, primarily from the generation of future taxable income.

(7) COMMITMENTS AND CONTINGENCIES

The business leases manufacturing and office facilities and equipment under operating leases, which expire in fiscal 2001 through 2014. Rental expense was \$1,082, \$1,385 and \$1,292 as of September 29, 2001, and 2000 and 1999, respectively. Future minimum rental payments under these leases are as follows (dollars in thousands):

September 30, 2001 through December 29, 2001	\$ 361
2002	1,249
2003	1,138
2004	1,080
2005 and thereafter	7,641
	<u>\$11,469</u>

The business has self-insured retention limits for employee health and medical plans, property liability, workman's compensation, product liability, and general litigation matters. Through its parent, Maytag Corporation, the business has

insured layers of coverage above such self-insured retention limits. Accruals for self insurance losses are made based on the business claims experience and actuarial assumptions. The business has certain liabilities with respect to existing or potential claims, lawsuits, and other proceedings. The business accrues for these liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated.

- 12 -

(8) NON-RECURRING EXPENSES

In the fourth quarter of 2000, the business recorded non-recurring charges of \$2,767 associated with the closure of its manufacturing operation in Quakerstown, Pennsylvania. This operation produced equipment for the MagiKitch product line. The non-recurring charge included \$210 of non-cash impairment charges, \$1,857 of lease costs in excess of sub-lease income and \$545 of severance for approximately 73 terminated employees and a \$155 pension charge for the curtailment of the pension plan for terminated employees.

In the second quarter of 2001, the closure of the Pennsylvania manufacturing facility was completed and production for the MagiKitch product line was moved to existing operations in Bow, New Hampshire. In conjunction with the closure, the reserve declined from \$2,767 to \$1,716 resulting from the settlement of the above mentioned severance and pension obligations, write-off of the disposed fixed assets, and lease payments in excess of sub-lease income.

In addition to the charges against the reserve, Blodgett expensed \$880 for costs related to moving the operations from Pennsylvania to New Hampshire. This charge was reflected within cost of sales in 2001.

A summary of the non-recurring reserve balance activity is as follows (in thousands):

	Non-recurring charges at inception 12/30/2000	Asset Write-off	Cash Payments	Reserve at 09/29/2001
Severance and other employee costs	\$ 700	\$	\$700	\$
Asset write-downs	210	210		
Lease obligations	1,857		141	1,716
Total	\$2,767	\$210	\$841	\$1,716

At this time, management believes the \$1,716 reserve to be adequate to cover the remaining costs identified at September 29, 2001.

- 13 -

(9) EMPLOYEE BENEFIT PLANS

The business provides noncontributory defined benefit pension plans for most employees. Plans covering salaried and management employees generally provide pension benefits that are based on an average of the employee's earnings and credited service. Plans covering hourly employees generally provide benefits of stated amounts for each year of service. The business funding policy for the plans is to contribute amounts sufficient to meet the minimum funding requirement of the Employee Retirement Income Security Act of 1974, plus any additional amounts that the business may determine to be appropriate.

Edgar Filing: MIDDLEBY CORP - Form 8-K/A

The business also provides postretirement health care and life insurance benefits for certain employee groups in the United States. Most of the postretirement plans are contributory and contain certain other cost sharing features such as deductibles and coinsurance. The plans are unfunded. Employees do not vest and these benefits are subject to change. Death benefits for certain retired employees are funded as part of, and paid out of, pension plans.

A summary of the plans benefit obligations, funded status, and net balance sheet position is as follows:

	(dollars in thousands)

Net periodic benefit costs	\$ 655	\$ 873	\$ 146	\$ 189

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	1-Percentage-Point Increase	1-Percentage-Point Decrease
Effect on total of service and interest cost components	\$ 22	\$(20)
Effect on postretirement benefit obligation	\$132	\$(120)

(10) DUE FROM MAYTAG

The business participates in a centralized cash management program administered by Maytag. Cash collected from operations is remitted to Maytag and advances are made by Maytag, as needed, to cover the business operating expenses and capital requirements. Cash activity between the business and Maytag is reflected in changes in the due from Maytag account.

(b) Pro forma financial information required pursuant to Article 11 of Regulation S-X:

UNAUDITED PRO FORMA FINANCIAL INFORMATION

On December 21, 2001, pursuant to a previously announced disposition, The Middleby Corporation (Middleby) purchased substantially all the assets for Blodgett Holdings, Inc. from Maytag Corporation. The unaudited pro forma combined statement of operations for the Middleby Corporation (the company) for the year ended December 30, 2000 has been prepared to give effect to the Blodgett acquisition as if it had occurred on January 2, 2000. The unaudited pro forma combined statement of operations for the nine-month period ended September 29, 2001 has also been prepared to give effect to the Blodgett acquisition as if it had occurred on December 31, 2000. The unaudited pro forma combined balance sheet as of September 29, 2001 has been prepared to give effect to the Blodgett acquisition as if it had occurred on September 29, 2001.

The pro forma adjustments are based upon available information and assumptions that the company believes are reasonable. The effects of the Blodgett acquisition have been presented using the purchase method of accounting and accordingly, the purchase price was allocated to the estimated fair value of the assets acquired and liabilities assumed based upon management's best preliminary estimate of fair value with any excess purchase price being allocated to identifiable intangible assets and goodwill. The preliminary allocation of the purchase price will be subject to further adjustments, including the finalization of the purchase price resulting from post-close adjustments and the allocation of purchase price in accordance with generally accepted accounting principles.

The notes to the unaudited pro forma financial statements provide a more detailed discussion of how such adjustments were derived and presented in the pro forma financial statements. Such financial statements have been compiled from historical financial statements and other information, but do not purport to represent what the company's financial position or results of operations actually would have been had the transactions occurred on the dates indicated, or to project the company's financial performance for any future period. The pro forma statement of income does not reflect any synergies or other operating benefits

that may be realized as the company integrates Blodgett Holdings, Inc. with the company's existing operations.
