[Letter to Customers of Extensity, Inc.]

Dear Extensity Customer,

I am very pleased to announce that today, Extensity has entered into a definitive agreement to be acquired by our strategic partner Geac Computer Corporation Limited, based in Markham, Ontario. This traction, unanimously approved by Extensity's Board of Directors, is designed to enhance opportunities for our employees, customers and shareholders.

Geac provides mission-critical solutions and systems, which include enterprise business applications for financial administration and human resources. The Company has more than 2700 professionals in 56 countries supporting 5,100 enterprise customers worldwide, including approximately 50 percent of the Fortune 100. Last year, Geac had annualized revenue of over CDN \$719M million and is publicly traded on the Toronto Stock Exchange under GAC.

As a primary strategic reason for the acquisition, Geac will offer Extensity's financial ERM software to its global customer base and prospects as the necessary foundation for extending their financial management solutions. In survey recently conducted by Geac, 73% of its customers responded that they would purchase travel and expense management applications from Geac if they had them to offer.

Geac's size, stability and commitment to Extensity product line provide assurance that Extensity customers' Investments are well protected. Customers will continue to receive value from their current Extensity applications and in new applications that they may be considering. For employees and shareholders, this transaction delivers strength of a global company and an immediate new channel for Extensity applications.

I am personally very excited about this acquisition for Extensity: joining a significant establishment global company with a clear mandate for growth, coupled with the ability to have Extensity's technology platform and best of breed applications carried forward as a growth engine for Geac. Geac's acquisition is a strong vote of confidence in our employees, technology and market opportunity.

We are positive about what this transaction means for customers, employees and shareholders. More details can be found in the press release (link provided below) and over the next several weeks, you will learn more about this opportunity. In the meantime, please do not hesitate to call or e-mail me, or your regular account contacts with any questions.

Sincerely,
Bob Spinner
President & CEO
