Chairman's
LETTER TO SHAREHOLDERS

I am very pleased to report that over the fiscal year ended July 31, 2004, your Fund continued to provide you with attractive monthly income through a diversified portfolio of quality preferred securities, convertible securities and high yield debt.

In addition to regular monthly income, we believe that your Fund also may provide an opportunity to reduce the overall risk of your entire investment portfolio. This is because the value of your Fund's holdings may move differently than the prices of the other investments, like common stocks, bonds or mutual funds that you may

IN ADDITION TO REGULAR MONTHLY INCOME, WE BELIEVE THAT YOUR FUND ALSO MAY PROVIDE AN OPPORTUNITY TO REDUCE THE OVERALL RISK OF YOUR ENTIRE INVESTMENT PORTFOLIO.

own. Through adequate diversification, some parts of your portfolio may be going up when others are going down. This potential counterbalancing may reduce your overall risk over time. Your financial advisor can explain the advantages of portfolio diversification in more detail. I urge you to contact him or her soon for more information on this important investment strategy.

I also urge you to consider receiving future Fund reports and other Fund information by e-mail and the Internet. Not only will you be able to receive the information faster, but this also may help lower your Fund's expenses. Sign up is quick and easy - see the inside front cover of this report for step-by-step instructions.

For more than 100 years, Nuveen has specialized in offering quality investments such as your Fund to those seeking to accumulate and preserve wealth. Our commitment to careful research, constant surveillance and judicious trading by seasoned portfolio managers has never been stronger. Our mission continues to be to assist you and your financial advisor by offering the investment solutions and services that can help you secure your long-term financial goals. We thank you for choosing us as a partner as you work toward that objective.

Nuveen Preferred and Convertible Income Funds (JPC, JQC)

Portfolio Managers'
PERSPECTIVE

The Funds are managed by Nuveen Institutional Advisory Corp. (NIAC), and subadvised by a team of specialists from Spectrum Asset Management, Inc., Froleys, Revy Investment Co., Inc., and NIAC. Mark Lieb, Bernie Sussman and Phil Jacoby lead the team at Spectrum, an affiliate of Principal CapitalSM, which manages the preferred securities portions of the Funds' portfolios. Andrea Revy O'Connell and Michael Revy lead the team at Froleys, Revy, one of the oldest firms specializing in convertible securities, which manages that portion of both Fund's portfolios. Gunther Stein and Lenny Mason lead the team at NIAC, which manages the high yield securities and other debt instruments in both Funds. Here these managers talk about general economic conditions, Fund performance and their management strategy for the fiscal year ended July 31, 2004.

WHAT WERE THE CONDITIONS IN THE FIXED-INCOME MARKETS GENERALLY, AND THE PREFERRED SECURITIES, CONVERTIBLE SECURITIES AND HIGH YIELD MARKETS IN PARTICULAR, DURING THE FISCAL YEAR ENDED JULY 31, 2004?

While the 10-year U. S. Treasury note yield of 4.45% at the end of the period was virtually unchanged from 12 months earlier, the fiscal year was marked by quite a bit of volatility. Prices in the U. S. Treasury market peaked on March 16, 2004, with the 10-year note yielding 3.68% as a faltering economy, slow employment growth, Federal Reserve and concerns over terrorism combined to keep interest rates near record lows. In early April, an unexpectedly strong employment report brought the bond market rally to an abrupt end. As concerns focused on the possibility that the Federal Reserve might start to raise short-term interest rates, interest rates spiked upward along the entire yield curve and the 10 year U. S. Treasury note reached a high yield of 4.87% on June 14, 2004.

The preferred securities market, as measured by the Merrill Lynch Preferred Stock Hybrid Securities Index, provided a total return of 6.34% for the 12 months ending July 31, 2004, compared with a 4.84% over the same period for the Lehman Aggregate Bond Index (a general measure of the overall bond market). New issuance in the preferred securities market totaled \$36.5 billion over the 12-month period, but the overall growth of the market was constrained by a strong pace of redemptions as issuers called the higher-coupon preferred securities they had issued during the 1990's. As of July 31, 2004, the hybrid preferred securities market had outstanding issues totaling approximately \$225 billion.

The convertible securities market exhibited two very different patterns over the course of the Funds' fiscal years. During the first half of the period, from August 2003 through mid-January 2004, convertible securities generally produced very positive performance.

Coupled with a positive move in the equity market, the yield spreads between lower-rated and higher-rated fixed-income securities tightened over this period by as much as 25% as lower-rated securities tended to outperform more highly-rated instruments. The combination of tighter credit quality spreads and higher equity values helped to increase the value of the conversion feature of many convertible securities. From July 31, 2003, to January 31, 2004, the Merrill Lynch All U.S. Convertible Index rose 14.5%.

The second six months of the fiscal year had a distinctly different flavor for convertible securities. The equity markets declined as a result of slowing profit growth and credit quality spreads widened as economic uncertainty increased. These and other factors led to a decline of -2.12% from January 31, 2004, to July 31, 2004, in the Merrill Lynch All U.S. Convertible Index. Overall in the convertible securities market, the first six months of the Funds' years outweighed the negative second half and left the full fiscal year returns for the Merrill Lynch Index at 12.13%

The high yield market recorded robust returns during the twelve months ended July 31, 2004. Strong performance was driven by improving credit fundamentals, positive macroeconomic news and decreasing default rates. The CSFB High Yield Index posted a return of 14.09% over the last year. All of the industries that comprise the index registered positive returns. Lower-rated bonds posted a twelve-month return of 21.94%, significantly outperforming the middle and upper rating tiers due to the healthier economic environment and investors' increased tolerance for risk. As the credit markets improved over the last year, default rates have dropped accordingly. New issue volume has tempered slightly in response to moderate outflows from the high yield market during the first half of 2004. New issuances dropped 5% to \$126.9 million during the last year. Despite high petroleum prices, inflation concerns, and the threat of global terrorism, the high yield market has been resilient and economic reports continue to indicate a slow but steady recovery.

DURING THIS PERIOD WHAT WERE YOUR PRIMARY MANAGEMENT STRATEGIES AND FOCUSES?

Over this fiscal year, the focus of our preferred securities investing activities was on finding and owning high quality issues that offered what we judged to be good current yields and yields-to-call. The average credit quality of the preferred securities within each of the

5

Funds was maintained at an A3/BBB+/A- level from Moody's, S&P and Fitch, respectively. Given a large number of redemptions in the preferred securities market over this period, much of our trading activity was targeted toward replacing the income of issues that were called out of the portfolios. In addition, we believed that higher coupon preferred securities with call dates in 2006 and 2007 were relatively more attractive than the lower, current coupon issues available during most of the year. These higher coupon securities also helped to keep the duration, or interest rate sensitivity, of the portfolios lower than if we had been more focused on newer issues.

Diversification among issuers and sectors within the preferred securities market also was an important part of our strategy. Each of the Funds now contains over 100 distinct preferred securities issuers. The weightings between \$25 par preferred stock and preferred capital securities were altered slightly over the course of the period, depending on where we felt we could find the best relative value.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

Looking at the convertible securities allocations, we continued to focus on owning issues that we believed would provide attractive income and offer the potential for capital appreciation. Generally, we looked for securities with greater equity-tracking sensitivity when we had strong views on the attractiveness of either a sector or a specific company. As of July 31, 2004, about 10% of both Funds' convertible securities allocations were hedged in an effort to reduce overall risk and increase cash flow.

For the high yield portions of both Funds' portfolios, we continued to employ a value-oriented investment management strategy, focusing on relatively higher-quality credits with strong fundamental business models, diversified revenue streams, and relatively low earnings volatility. We invested across a variety of industry sectors and rating tiers, and continued to evaluate the high yield holdings on an ongoing basis, eliminating positions with what we thought were escalating credit issues, limited upside potential, or significant downside risk.

HOW DID THE FUNDS PERFORM OVER THIS PERIOD?

Each of the Funds performed well during the fiscal year ended July 31, 2004. Their performance, as well as the performance of several widely followed market indexes, is shown in the nearby chart.

For the 12 months ended July 31, 2004, the Funds outperformed both the Merrill Lynch Hybrid Preferred and the Merrill Lynch Convertible indexes and underperformed the CFSB High Yield Index. We believe this is to be expected, given the blended nature of the Funds' portfolios. While none of these indexes provides a comprehensive match for the Funds' overall asset allocation and investment strategy, we think they may provide some insight into the performance over the 12-month period of the different assets classes in which the Funds invest.

In our preferred securities holdings, the \$1000 par capital preferred securities held by each Fund were among their best performers during the 12-month reporting period. These issues are not part of the Merrill Lynch preferred stock index.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

These \$1000 par securities benefited from the general tightening of spreads in the corporate market over the reporting period and from the strong demand for yield from insurance companies and other institutional investors. The call protection afforded by these securities also helped their performance during the months when rates were falling. One of the best performers was Centaur Funding. Centaur, a part of Vodafone, was a subordinated issue that we considered to be very undervalued relative to the issuer's senior debt.

- 1 The Merrill Lynch Preferred Stock Hybrid Securities Index is an unmanaged index of investment-grade, exchange-traded preferred stocks with outstanding market values of at least \$30 million and at least one year to maturity.
- 2 The Merrill Lynch All U.S. Convertibles Index consists of approximately 575 securities with par value greater than \$50 million that were issued by U.S. companies or non-U.S. based issuers that have a significant business presence in the U.S.
- 3 The CSFB High Yield Index includes approximately \$375 billion of \$US-denominated high yield debt with a minimum of \$75 million in par value and at least one rating below investment-grade.

7

Within the \$25 par market of listed preferred securities, one strategy that worked well during this period was trading to take advantage of what we thought were mispricings of the securities' embedded call options. In many cases we were able to sell issues trading at a premium where the yield-to-call was very low, and then were able to replace these securities with other, higher coupon issues with higher current yields and more attractive yields-to-call at the time of investment.

At the same time, Verizon did not perform as well as we had hoped it would. The Verizon issue was originally a series of \$1000 par securities that were repackaged into exchange-listed \$25 par preferreds that were bought during the first quarter of 2004, just before rates rose significantly. Several other issues in both Funds that happened to be bought in February and early March when interest rates were at their lows for the period also turned out to be relatively weak performers over this reporting period.

Looking at the Funds' convertible securities, the biggest drivers for convertible returns remained the growth prospects of the issuer's underlying business and the valuation of the issuer's equity. Both Funds had positive contributions from larger capitalization issuers like Tyco International, as well as from much smaller issuers like Lions Gate Entertainment Corp. In both companies, continued internal growth and opportunistic acquisitions further improved favorable revenue trends.

On the other side, the performance of both Funds was impacted negatively by some specific securities of issuers whose financial situations weakened over the course of the period. One example was Delta Airlines (held in JPC). As oil prices rose over May, June and July and negotiations with the unions became increasingly difficult, Delta's costs far outstripped their revenues. A significant debt load and limited pricing power in a competitive industry left the company near the brink of filing for Chapter 11 status as of July 31, 2004.

In the high yield portions of the portfolios, strong performance in the manufacturing, transportation and services sectors positively impacted the performance of both Funds. Other sectors within the high yield market showed

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

even better performance, but the Funds did not hold significant positions in these areas. For example, industries with many lower credit-quality companies, such as the metals/minerals, chemicals and utilities

8

sectors, were among the top performing high yield sectors over the 12 month period. JPC and JQC had minimal exposure to these volatile industries and negligible exposure to distressed and CCC-rated debt generally.

WHAT ABOUT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining near historically low levels during this reporting period, the leveraged structures of these Funds continued to support their dividend-paying capabilities. The extent of this benefit is tied in part to the short-term rates the Funds pay their FundPreferred(R) shareholders. During periods of low short-term rates, the Funds generally pay relatively lower dividends to their FundPreferred shareholders, which can leave more earnings to support common share dividends.

As a result, despite losing some of their higher-coupon securities to calls, JPC and JQC made no changes in their monthly dividends over the course of the fiscal year.

Both of these Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of July 31, 2004, both JPC and JQC positive UNII balances.

As of July 31, 2004, both Funds were trading at greater discounts to their net asset values than their average discounts over the course of the entire 12-month reporting period.

Notes to FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The Funds covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen Preferred and Convertible Income Fund (JPC) and Nuveen Preferred and Convertible Income Fund 2 (JQC). The Funds are registered under the Investment Company Act of 1940, as amended, as diversified, closed-end management investment companies.

Prior to the commencement of operations of the Funds, each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 per Fund by Nuveen Institutional Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., and the recording of the organization expenses (\$11,500 per Fund) and their reimbursement by Nuveen Investments, LLC, also a wholly owned subsidiary of Nuveen Investments, Inc.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

Each Fund seeks to provide high current income by investing primarily in a portfolio of preferred securities, convertible securities and, to a lesser degree, high yield securities. Each Fund may also invest in other debt instruments and common stocks acquired upon conversion of a convertible security.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Securities Valuation

Exchange-listed securities are generally valued at the last sales price on the securities exchange on which such securities are primarily traded. Securities traded on a securities exchange for which there are no transactions on a given day or securities not listed on a securities exchange are valued at the mean of the closing bid and asked prices. Securities traded on Nasdaq are valued at the Nasdaq Official Closing Price. The prices of fixed-income securities are generally provided by an independent pricing service approved by the Funds' Board of Trustees and based on the mean between the bid and asked prices. When price quotes are not readily available for fixed-income securities, the pricing service establishes fair market value using a wide range of market data including yields or prices of securities of comparable quality, type of issue, coupon, maturity and rating, indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Trustees of the Funds, or its designee, may establish a fair value for the security. Short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At July 31, 2004, there were no such outstanding purchase commitments in either of the Funds.

Investment Income

Dividend income on securities purchased and dividend expense on securities sold short are recorded on the ex-dividend date. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis (see Dividends and Distributions to Common Shareholders for REIT income recognition policy).

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute all income and capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

Dividends and Distributions to Common Shareholders

Dividends to Common shareholders are declared monthly. With respect to the REIT securities held in the Funds' Portfolio of Investments, each Fund passes through to its shareholders, each month, substantially all REIT distributions it receives, together with other operating income less operating expenses. REIT distributions received by the Funds are generally comprised of investment income, long-term and short-term capital gains, and a return of REIT capital. The actual character of amounts received during the period is not known until after the fiscal year-end. For the twelve months ended December 31, 2003, the character of distributions to the Funds from the REITs was as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PREFERRED AND CONVERTIBLE INCOME 2 (JQC)
Ordinary income	84.04%	77.85%
Long-term and short-term capital gains	.20	.17
Return of REIT capital	15.76	21.98

Each Fund applies a percentage estimate for the breakdown of income type, to its receipts from the REITs and treats as income in the Statement of Operations only the amount of ordinary income so calculated. Each Fund adjusts that estimated breakdown of income type (and consequently its net investment income) as necessary in the following calendar year when the REITs inform their shareholders of the actual breakdown of income type.

Each Fund treats each distribution to its shareholders from the portfolio REITs as being entirely from net investment income. The Funds will recharacterize those distributions as being from ordinary income, long-term and short-term capital gains, and return of capital, if necessary, in the subsequent calendar year, based upon the income type breakdown information conveyed at that time by the REITs whose securities are held in each Fund's portfolio. Consequently, the financial statements may reflect an over-distribution of net investment income that is at least partly attributable to the fact that, as of the date of the financial statements, some of the amounts received by the Funds from the portfolio REITs, but none of the dividends paid by the Fund to shareholders from the portfolio REITs were treated as something other than ordinary income.

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

FundPreferred Shares

The Funds have issued and outstanding \$25,000 stated value FundPreferred shares as a means of effecting financial leverage. Each Fund's FundPreferred shares are issued in more than one Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of shares outstanding, by Series and in total, for each Fund is as follows:

PREFERRED AND CONVERTIBLE	PREFERRED AND CONVERTIBLE

Notes to
FINANCIAL STATEMENTS (continued)

Interest Rate Swap Transactions

The Funds may invest in certain derivative financial instruments. The Funds' use of interest rate swap transactions is intended to mitigate the negative impact that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swap transactions involve each Fund's agreement with the counterparty to pay a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment that is intended to approximate each Fund's variable rate payment obligation on Fund Preferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the interest rate swap contract. Interest rate swaps do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that each Fund is to receive. Interest rate swap positions are valued daily. Although there are economic advantages of entering into interest rate swap transactions, there are also additional risks. The Funds help manage the credit risks associated with interest rate swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser continually monitor the financial stability of the swap counterparties.

Due to recent clarification provided by the SEC to regulated investment companies, effective with the current reporting period, the Funds changed the way they present net interest expense on interest rate swap transactions in the financial statements. In the July 31, 2004, financial statements net interest expense amounts paid are included in "Net realized gain (loss) from interest rate swap transactions". Net interest expense amounts accrued, but not yet paid, at July 31, 2004, are included in "Change in net unrealized appreciation (depreciation) of interest rate swap transactions". Previously, net interest expense was presented in "Expenses" and reported as "Net interest expense on interest rate swap transactions". This reclassification does not alter the tax treatment of interest rate payments on swap transactions which is to include such payments as an operating expense for tax purposes.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

At July 31, 2004, Preferred and Convertible Income (JPC) had open interest rate swap agreements as follows:

NOTIONAL AMOUNT	FIXED RATE	FLOATING RATE*	TERMINATION DATE	UN APPR (DEPR)
\$71,000,000	1.4300%	1.4263%	1/22/05	\$

At July 31, 2004, Preferred and Convertible Income 2 (JQC) had open interest rate swap agreements as follows:

NOTIONAL AMOUNT	FIXED RATE	FLOATING RATE*	TERMINATION DATE	UN APPR (DEPR)
\$97,000,000	1.3605%	1.4331%	1/23/05	\$

97,000,000	3.3595	1.4331	1/23/09	2

*Based on LIBOR (London Interbank Offered Rate)

Short Sales

The Funds are authorized to make short sales of securities if the Funds own at least an equal amount of such securities or securities convertible into securities of the same issuer. To secure its obligation to deliver securities sold short, the Funds have instructed the custodian to segregate assets in an equivalent amount of the securities sold short or securities convertible into or exchangeable for such securities. The Fund is obligated to pay to the party to which the securities were sold short, dividends declared on the stock by the issuer and records such amounts as expense in the statement of operations. Short sales are valued daily and the corresponding unrealized gains or losses are included in "Change in net unrealized appreciation (depreciation) of investments."

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

Repurchase Agreements

In connection with transactions in repurchase agreements, it is each Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Organization and Offering Costs

Nuveen Investments, LLC has agreed to reimburse all organization expenses (approximately \$11,500 per Fund) and pay all Common share offering costs (other than the sales load) that exceed \$.03 per Common share. Preferred and Convertible Income's (JPC) and Preferred and Convertible Income 2's (JQC) share of Common share offering costs (\$1,745,630 and \$1,762,420, respectively) were recorded as reductions of the proceeds from the sale of Common shares.

Costs incurred by Preferred and Convertible Income (JPC) and Preferred and Convertible Income 2 (JQC) in connection with their offering of FundPreferred shares (\$14,589,842 and \$19,723,013, respectively) were recorded as reductions to paid-in surplus.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis based on the information currently available to the Funds. Differences between amounts for financial statement and federal income tax purposes are primarily due to the recognition of income on certain securities, which are treated as debt securities for income tax purposes and equity securities for financial statement purposes, and timing differences in recognizing certain gains and losses on security transactions.

At July 31, 2004, the cost of investments were as follows:

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

* Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

The tax character of distributions paid during the fiscal years ended July 31, 2004 and July 31, 2003, was designated for purposes of the dividends paid deduction as follows:

Distributions from net ordinary income *	\$21,811,614	
Distributions from net long-term capital gains	--	

* Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

Calculation of certain of the amounts presented above (namely, undistributed net ordinary income for tax purposes) involves the application of complex aspects of the Internal Revenue Code to certain securities held by the Funds. In calculating the amount of taxable income derived from these securities, management made assumptions as to the correct tax treatment of certain of those securities and made estimates about the tax characteristics of income received from those securities, based on information currently available to the Funds. The use of these assumptions and estimates will not affect the qualification of the Funds as regulated investment companies under Subchapter M of the Internal Revenue Code, nor is it expected that these assumptions and estimates will be used in computing taxable income for purposes of preparing the federal and state income and excise tax returns.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under the Funds' investment management agreements with the Adviser, each Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon each Fund's average daily managed assets. "Managed Assets" means the average daily net assets of each Fund including assets attributable to leverage as follows:

AVERAGE DAILY MANAGED ASSETS	MANAGEMENT FEE RATE
For the first \$500 million	.9000%
For the next \$500 million	.8750
For the next \$500 million	.8500
For the next \$500 million	.8250
For Managed Assets over \$2 billion	.8000

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into Sub-Advisory Agreements with Spectrum Asset Management, Inc. ("Spectrum"), and Frole, Revy Investment Co., Inc. (Frole, Revy). Spectrum manages the portion of the Fund's investment portfolio allocated to preferred securities while Frole, Revy manages the portion of the investment portfolio allocated to convertible securities. Spectrum and Frole, Revy are compensated for their services to the Funds from the management fee paid to the Adviser. Spectrum also receives compensation on certain portfolio transactions for providing brokerage services to the Funds. The Adviser is responsible for the overall strategy and asset allocation decisions as well as managing the portion of the investment portfolio allocated to other debt securities.

The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

As approved by the Board of Trustees, a complex-wide management fee structure has been adopted by all funds sponsored by the Adviser and its affiliates effective August 1, 2004. This structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser and its affiliates, and a specific fund-level component, based only on the amount of assets managed within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser and its affiliates. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As a consequence of this new management fee structure, the funds' effective management fees were reduced by approximately .004% starting August 1, 2004.

The complex-level fee schedule for all funds in the Nuveen fund complex is as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion (2)	.1400

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets (which includes assets attributable to leverage used in the Nuveen fund complex) of all funds sponsored by the Adviser or by its affiliates.

- (2) With respect to the complex-wide Managed Assets over \$91 billion, the funds (via their Board of Directors/Trustees) and the Adviser intend that the parties will meet, prior to the time when complex-wide Managed Assets reach that level, to consider and negotiate the fee rate or rates that will apply to such assets. The parties agree that, in the unlikely event that complex-wide Managed Assets reach \$91 billion prior to the parties reaching an agreement as to the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as the parties agree to a different rate or rates.

54

For each of the Funds, the fund-level fee, which is additive to the complex-level fee, is based upon the average daily Managed Assets of each Fund as follows:

AVERAGE DAILY MANAGED ASSETS	FUND-LEVEL FEE RATE
For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For Managed Assets over \$2 billion	.6000

For the first eight years of Preferred and Convertible Income's (JPC) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

Reinvest Automatically
EASILY AND CONVENIENTLY

SIDEBAR TEXT: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

NET ASSET VALUE (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

UNAUDITED INFORMATION

The Nuveen Preferred and Convertible Income Fund and Nuveen Preferred and Convertible Income Fund 2 designates 8% and 8% respectively, of dividends declared from net investment income as dividends qualifying for the 70% dividends received deduction for corporations and 8% and 8% respectively, as qualified dividend income for individuals under the Jobs and Growth Tax Relief Reconciliation Act of 2003.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The registrant has posted such code of ethics on its website at www.nuveen.com/etf.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's board of directors determined that the registrant had at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert was William E. Bennett, who was "independent" for purposes of Item 3 of Form N-CSR.

Although Mr. Bennett served as the audit committee financial expert during the reporting period, he unexpectedly resigned from the Board effective April 30, 2004. Since that time, the Audit Committee determined that Jack B. Evans, the Chairman of the Audit Committee, qualifies as an audit committee financial expert and recommended to the full Board that he be designated as such. On July 26, 2004, the full Board voted to so designate Mr. Evans. Accordingly for this reporting period, the registrant did not have a designated "audit committee financial expert" from April 30, 2004 to July 26, 2004. Mr. Evans, who is independent for purposes of Item 3 of Form N-CSR, served as the registrant's audit committee financial expert from July 26, 2004 to the end of the reporting period on July 31, 2004.

Mr. Bennett was formerly Executive Vice President and Chief Credit Officer of First Chicago Corporation and its principal subsidiary, The First National Bank of Chicago. As part of his role as Chief Credit Officer, Mr. Bennett set policy as to accrual of assets/loans; designated performing/non-performing assets; set

the level of reserves against the credit portfolio; and determined the carrying value of credit related assets and exposure. Among other things, Mr. Bennett was also responsible for the oversight of the internal analysis function including setting ground rules for the review and preparation of financial analysis and financial statements for use in making credit and risk decisions for clients. Mr. Bennett has significant experience reviewing, analyzing and evaluating financial statements of domestic and international companies in a variety of industries with complex accounting issues.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

NUVEEN PREFERRED AND CONVERTIBLE INCOME FUND 2

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

The above "Tax Fees" were billed for professional services for tax advice, tax compliance and tax planning.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Institutional Advisory Corp. ("NIAC" or the "Adviser"), and any entity controlling, controlled by or under common control with NIAC ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The table also shows the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP independence.

Audit Committee Pre-Approval Policies and Procedures. Generally, the audit committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the audit committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the audit committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the audit committee at the next audit committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable at this time.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, the Adviser would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c)(2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c)(2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable at this time.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

In the event of a vacancy on the Board, the nominating and governance committee receives suggestions from various sources, including shareholders, as to suitable candidates. Suggestions should be sent in writing to Lorna Ferguson, Vice President for Board Relations, Nuveen Investments, 333 West Wacker Drive, Chicago, IL 60606. The nominating and governance committee sets appropriate standards and requirements for nominations for new directors and reserves the right to interview all candidates and to make the final selection of any new directors.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because posted on registrant's website at www.nuveen.com/etf.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND 2 - Form N-CSR/A

(a) (2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(a) (3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
