(c) Exhibits. The following exhibit is furnished in accordance with the provisions of Item 601 of Regulation S-K:

99.1: Allergan, Inc. press release dated July 23, 2003

**ITEM 9. REGULATION FD DISCLOSURE (FURNISHED UNDER ITEM 12)**

Allergan, Inc. ( Allergan ) is furnishing the information in this section under Item 9. Regulation FD Disclosure and Item 12. Results of Operations and Financial Condition of this Current Report in accordance with SEC Release No. 33-8216.

On July 23, 2003, Allergan issued a press release announcing its operating results for the second quarter ended June 27, 2003. A copy of the press release is furnished as Exhibit 99.1 to this report and is hereby incorporated to this Item 9 by reference.

In its press release the Company included historical non-GAAP financial measures with respect to the three and six month periods ended June 27, 2003 and the corresponding periods for 2002, as defined in Regulation G promulgated by the Securities and Exchange Commission. Allergan believes that its presentation of historical non-GAAP financial measures provides useful supplementary information to investors. The presentation of historical non-GAAP financial measures is not meant to be considered in isolation from or as a substitute for results prepared in accordance with accounting principles generally accepted in the United States.

In the press release, Allergan reported the non-GAAP financial measure adjusted diluted earnings. Allergan uses adjusted diluted earnings to enhance the investor's overall understanding of the financial performance and prospects for the future of Allergan's core business activities. Specifically, Allergan believes that a report of adjusted diluted earnings provides consistency in its financial reporting and facilitates the comparison of results of core business operations between its current, past and future periods. Adjusted diluted earnings is one of the primary indicators management uses for planning and forecasting in future periods. Allergan also uses adjusted diluted earnings for evaluating management performance for compensation purposes.

In the press release, Allergan also reported sales performance using the non-GAAP financial measure of constant currency sales. Constant currency sales represent current period reported sales adjusted for the translation effect of changes in average foreign exchange rates between the current period and the corresponding period in the prior year. Allergan calculates the currency effect by comparing adjusted current period reported amounts, calculated using the monthly average foreign exchange rates for the corresponding period in the prior year, to the actual current period reported amounts. Management refers to growth rates at constant currency so that sales results can be viewed without the impact of changing foreign currency exchange rates, thereby facilitating period-to-period comparisons of Allergan's sales. Generally, when the dollar either strengthens or weakens against other currencies, the growth at constant currency rates will be higher or lower, respectively, than growth reported at actual exchange rates.

Allergan is also holding a webcast and investor conference beginning at 8:00 a.m. Pacific Time on July 23, 2003, to disclose its financial results for the second quarter ended June 27, 2003. The webcast can be accessed live through the Allergan website, [www.allergan.com](http://www.allergan.com). Replays of the webcast will also be available from July 23, 2003 at 11:00 a.m. Pacific Time until July 25, 2003 at 5:00 p.m. Pacific Time, and can be accessed through [www.allergan.com](http://www.allergan.com) or by calling 1-800-925-4387 for domestic locations, or 1-402-220-4177 for international locations. A passcode will not be required.
