PROXY STATEMENT

SOLICITATION OF PROXIES

Solicitation by Board

The accompanying proxy is being solicited by the Board of Directors of Apria Healthcare Group Inc. for use at Apria's 2004 Annual Meeting of Stockholders to be held on April 21, 2004, at 8:00 A.M. local time, at the Hyatt Regency Irvine, 17900 Jamboree Road, Irvine, California 92614, and at any adjournment thereof.

This Proxy Statement and the accompanying proxy are first being mailed to stockholders on or about March 23, 2004.

Expense of Solicitation

The expense of soliciting proxies will be borne by Apria. Proxies will be solicited principally through the use of the mail, but Directors, officers and regular employees may solicit proxies personally or by telephone or special letter without any additional compensation. Apria also will reimburse banks, brokerage houses and other custodians, nominees and fiduciaries for any reasonable expenses in forwarding proxy materials to beneficial owners.

Your Vote is Important

No matter how many shares you owned on the record date, please indicate your voting instructions on the accompanying proxy card and sign, date and return it in the envelope provided, which is addressed for your convenience and needs no postage if mailed in the United States. In order to avoid the additional expense to the company of further solicitation, we ask your cooperation in promptly mailing in your proxy card.

VOTING PROCEDURE AND TABULATION

Stockholders Entitled to Vote

Holders of Apria common stock at the close of business on March 17, 2004, the record date with respect to this solicitation, are entitled to notice of and to vote at the annual meeting. Each stockholder of record is entitled to one vote per share. As of the record date 50,370,038 shares of the company's common stock were outstanding (not including 7,405,856 shares held by Apria). No shares of any other class of stock were outstanding.

Voting on Agenda Items

All shares represented by each properly executed unrevoked proxy received in time for the annual meeting will be voted in the manner specified therein. If you sign your proxy card but do not indicate contrary voting instructions, the shares represented by the proxy will be voted for each of the nominees (See Election of Directors). An executed proxy may be revoked at any time before its exercise by filing with Apria's Secretary a written notice of revocation or a duly executed proxy bearing a later date. The execution of the enclosed proxy will not affect your right to vote in person should you find it convenient to attend the annual meeting and desire to vote in person.

Voting on Other Matters

If any other matters are properly presented at the annual meeting, the persons named on the proxy card will be entitled to vote on those matters for you. As of the date of mailing of this Proxy Statement, Apria was not aware of any other matters to be raised at the annual meeting.

Table of Contents**Tabulation of Votes**

Votes cast by proxy or in person at the annual meeting will be counted by the persons appointed by Apria to act as election inspectors for the meeting.

Abstentions

The election inspectors will treat shares represented by proxies that reflect abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum and for purposes of determining the outcome of any matter submitted to the stockholders for a vote. Therefore, an abstention has the effect of a negative vote because it is disregarded in the calculation of a plurality or majority of votes cast.

Broker Non-Votes

The election inspectors will treat shares referred to as broker non-votes (i.e., shares held by brokers or nominees over which the broker or nominee lacks discretionary power to vote and for which the broker or nominee has not received specific voting instructions from the beneficial owner) as shares that are present and entitled to vote for purposes of determining the presence of a quorum. However, for purposes of determining the outcome of any matter as to which the broker has indicated on the proxy that it does not have discretionary authority to vote, those shares will be treated as not present and not entitled to vote with respect to that matter (even though those shares are considered entitled to vote for quorum purposes and may be entitled to vote on other matters).

SECURITY OWNERSHIP OF PRINCIPAL STOCKHOLDERS AND MANAGEMENT

The following table sets forth information as of March 17, 2004, with respect to the beneficial ownership of Apria's common stock by each person who is known by the company to beneficially own more than 5% of Apria's common stock, each Director of the company, all past and present executive officers listed in the summary compensation table and all current Directors and executive officers as a group. Except as otherwise indicated, beneficial ownership includes both voting and investment power with respect to the shares shown.

INFORMATION REGARDING THE BOARD OF DIRECTORS

Composition of Board

Apria's Board of Directors consists of such number of Directors as may be determined by the Board of Directors from time to time. The Board of Directors currently consists of nine Directors who are subject to reelection on an annual basis. All nine current Directors have been nominated for reelection to a term of one year or until the election and qualification of their successors.

Directors' Fees

All Directors of Apria are reimbursed for their out-of-pocket expenses incurred in connection with attending Board and related committee meetings. The non-employee Directors also receive additional compensation in the form of cash payments, stock option grants and grants of restricted stock. Effective June 30, 2003, the cash compensation for non-employee Directors increased to an annual retainer of \$30,000 and meeting fees of \$1,000 per Board or committee meeting attended at which action was taken. Each non-employee Director who chairs a committee of the Board is to receive an additional \$10,000 annual retainer (for a total retainer of \$40,000).

Accordingly:

From January 1, 2003 through June 30, 2003, under the prior compensation arrangements, each non-employee Director received (i) \$1,000 per Board or committee meeting attended in person (\$2,000 per committee meeting for each Director who was the committee's chairman) and (ii) \$500 per Board or committee meeting attended via telephone; and

From July 1, 2003 through December 31, 2003, each non-employee Director received (i) a retainer of \$15,000 (\$20,000 for each Director who chairs a committee of the Board), (ii) meeting fees of \$1,000 per Board or committee meeting attended at which action was taken, (iii) an annual option grant for 6,000 shares of the company's common stock (10,000 shares for the non-employee Chairman of the Board), and (iv) an annual restricted share grant, subject to vesting, for 3,000 shares (5,000 shares for the non-employee Chairman of the Board).

It is expected that the Board will continue Apria's practice of annual stock option grants and/or restricted share grants to non-employee Directors who are elected or reelected, as the case may be, as Directors at the annual meeting. While it is generally expected that these grants will be comparable to the 2003 stock option grants and restricted share grants to non-employee Directors mentioned above, the grants are discretionary in nature and the Board has not yet established any specific future awards or award grant levels.

Effective in July, 2003, the Board also implemented a deferred compensation plan that allows Directors to defer payment, until they no longer serve on the Board or some other specified date, of all or a portion of the cash compensation that they would have otherwise become entitled to receive.

Committees and Meetings of the Board of Directors

Standing committees of Apria's Board of Directors include a Corporate Governance and Nominating Committee, an Audit Committee, a Compliance Committee and a Compensation Committee. Each committee has adopted a written charter which is posted on Apria's website (www.apria.com). All members of each committee are independent as independence is defined under the New York Stock Exchange Listing Standards. The Board of Directors held eight meetings during the 2003 fiscal year. All Directors attended at least 75% of Board meetings and applicable committee

meetings. The company encourages Directors to attend the Annual Meeting of Stockholders and all Directors were in attendance at Apria's 2003 Annual Meeting.

Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee reviews and reports to the Board on a periodic basis with regard to matters of corporate governance, succession planning, and the nomination and evaluation of Directors. The Committee also reviews and assesses the effectiveness of the Board's Guidelines on Corporate Governance and recommends to the Board proposed revisions thereto. Currently, the Corporate Governance and Nominating Committee consists of Messrs. Anido (Chairman) and Whitworth, Ms. Lose and Ms. Thomas.

As reflected in the Charter of the Corporate Governance and Nominating Committee, factors considered by the Committee in the selection of Director nominees are those it may deem appropriate, consistent with the qualities listed in the Corporate Governance Guidelines, and may include judgment, skill, integrity, diversity, experience with businesses and organizations of a comparable size to Apria, the interplay of the candidate's experience with the experience of other Board members and the extent to which the candidate would be a desirable addition to the Board or any of its committees. The Chairman identifies potential nominees, but the Committee has also used a search firm, and in addition the Board

Table of Contents

gives consideration to individuals identified by stockholders, management and members of the Board.

On June 5, 2003 the Board of Directors approved the Apria Healthcare Group Inc. Policy Regarding Alternative Director Nominations by Stockholders (the Policy). The following summary of the Policy is qualified in its entirety by the full text of the Policy, which appears as Exhibit A to this Proxy Statement. The Policy requires the inclusion in Apria s proxy materials of information concerning candidates for the Board of Directors, in addition to those recommended by the existing Board, and is intended to facilitate the ability of stockholders to choose freely among competing candidates who may be proposed by stockholders who have a significant, long-term interest in Apria s success.

The Policy allows one or more stockholders who own beneficially at least 5% of Apria s common stock as of the record date of the applicable annual meeting, and who have maintained that ownership level for at least two years, to submit nominations for the Board of Directors and to require the inclusion of information concerning their nominees in Apria s proxy materials. A maximum of two stockholder nominations are permitted for each individual Board seat.

Each eligible stockholder or group of stockholders may nominate up to two candidates per election. The stockholder(s) must specify which incumbent Director s seat is being challenged and must also submit a signed statement acknowledging that the nominee(s) will lawfully represent all of Apria s stockholders, that the nominee(s) will comply with all applicable policies and standards of conduct, and that the nominating stockholder(s) will satisfy the 5% beneficial ownership threshold as of the date of the applicable annual meeting as well.

The Corporate Governance and Nominating Committee of the Board of Directors has the power to adopt rules and procedures deemed appropriate to implement and interpret the Policy. The Corporate Governance and Nominating Committee will also consider whether to include any stockholder nominee as one of the company s slate of nominees.

No director nominations by stockholders have been received to date.

The Corporate Governance and Nominating Committee met on six occasions during 2003.

Audit Committee. The Audit Committee Charter describes the Committee s functions and is attached as Exhibit B to this Proxy Statement. The Committee consists of Messrs. Goldsmith (Chairman), Corley, Koppes and Lochner, and Ms. Lose. The Board of Directors has determined that each member serving on the Audit Committee is independent as independence is defined under the New York Stock Exchange Listing Standards and that two of the members qualify as an audit committee financial expert as that term is defined by the Securities and Exchange Commission pursuant to Section 407 of the Sarbanes-Oxley Act of 2002. The Committee met on twelve occasions during 2003. Those meetings included separate sessions with the company s independent auditors, without members of management present, and with the company s internal auditor and general Counsel, also without members of management present.

Compliance Committee. The Compliance Committee exercises oversight responsibility with respect to the company s regulatory compliance programs, monitors certain aspects of those programs and reports to the Board regarding the same. Currently, the Committee consists of Messrs. Koppes (Chairman), Corley and Goldsmith. The Committee met on four occasions during 2003.

Compensation Committee. The Compensation Committee conducts an annual performance review of Apria s senior management and establishes their salaries, bonuses and long term incentive awards. Currently, the Compensation Committee consists of Messrs. Lochner (Chairman), Anido and Whitworth, and Ms. Thomas. The Committee met on six occasions during 2003.

Stockholder Communications to the Board of Directors

Stockholders may send communications to Apria's Board of Directors through Apria's Investor Relations Department by accessing the Information Request page on Apria's website (www.apria.com) or by emailing Investor_Relations@apria.com. Communications may also be sent by mail to Apria's Investor Relations Department or its Corporate Secretary at 26220 Enterprise Court, Lake Forest, California 92630-8405. Any communications should be addressed to the attention of the Board as a whole or to specific Board members.

Stockholders desiring to limit or direct their communications to non-employee Directors only should so indicate in the communication and direct the communication to the Chairman of the Board.

Table of Contents

GOVERNANCE OF THE COMPANY

Our Corporate Governance Guidelines

Apria's Board of Directors has adopted the following Corporate Governance Guidelines:

Board Mission and Responsibilities

Mission Statement. The company's primary objective is to maximize stockholder value over the long term while adhering to the laws of the jurisdictions within which it operates and observing high ethical standards.

Corporate Authority and Responsibility. All corporate authority resides in the Board of Directors as fiduciaries on behalf of the stockholders. The Board delegates authority to management to pursue the company's mission. Management, not the Board, is responsible for managing the company. The Board retains responsibility to recommend candidates to the stockholders for election to the Board of Directors. The Board also retains responsibility, among other things, for selection and evaluation of the Chief Executive Officer, oversight of succession plans, determination of senior management compensation, approval of the annual budget, and review of systems, procedures and controls. The Board also advises management with respect to strategic plans.

Board Operations

Board Agenda. The Chairman of the Board in coordination with the Chief Executive Officer shall set the agenda for each Board meeting, taking into account suggestions from members of the Board.

Strategic Planning. The Board shall hold an annual strategic planning session. The timing and agenda for this meeting are to be suggested by the Chief Executive Officer.

Independent Advice. The Board or any committee may seek legal or other expert advice from a source independent of management. Generally, this would be with the knowledge of the Chief Executive Officer and the Chairman of the Board.

Access to Top Management. Board members are free to contact members of senior management and are encouraged to coordinate their contacts through the Chief Executive Officer. Additionally, regular attendance and participation in Board meetings by senior management is encouraged as appropriate.

Executive Meetings of Independent Directors. An executive meeting of independent Directors shall be held during each Board meeting. The Chairman shall lead these sessions.

Educational Programs. Within two years of first becoming a Director, each Director should attend, at the company's cost, an accredited one or two-day educational program for Directors. Following this initial education, each Director should attend one additional educational program in each five-year period of service on the company's Board.

Board Evaluation. The Corporate Governance and Nominating Committee shall be responsible for evaluating Directors as part of its process for recommending Director nominees to the Board. The Corporate Governance and Nominating Committee shall be responsible for coordinating an annual evaluation by the Directors of the Board's performance and procedures.

Written Guidelines and Policies. The Board shall maintain written corporate governance guidelines and operational policies which will be reviewed annually by the Corporate Governance and Nominating Committee.

Board Structure

Positions of Chairman and Chief Executive Officer. The positions of Chairman and Chief Executive Officer shall be filled by separate persons and the Chairman shall be an Independent Director.

Board Composition. Independent Directors shall constitute a substantial majority of the Board.

Number of Directors. The Board shall assess its size from time to time. It is the Board's philosophy that smaller Boards are most effective.

Table of Contents

Our Corporate Governance Guidelines (continued)

Committees. The standing Board committees shall be the Audit Committee, the Compliance Committee, the Compensation Committee, and the Corporate Governance and Nominating Committee. All standing committees shall be made up of Independent Directors. Each standing committee shall maintain a written charter approved by the Board. Committee actions shall be promptly reported to the Board. A Director may attend any Board committee meeting. The Chairman shall recommend periodic rotation of Committee assignments.

Independent Directors. Independent Director means a Director that meets the definition of independent director as that term is defined by the New York Stock Exchange pursuant to Section 303A(2) of the Proposed New York Stock Exchange Listing Standards, and, in the case of the Audit Committee, a Director that meets the audit committee member independence requirements established by the Securities and Exchange Commission pursuant to Section 301 of the Sarbanes-Oxley Act of 2002.

Directors

Nominees for Election to the Board. The Corporate Governance and Nominating Committee shall recommend nominees to the full Board for annual elections of Directors. The Committee shall welcome input from all Directors and stockholders.

Retirement. Retirement age shall be 72. Directors shall submit their resignation effective at the Annual Meeting immediately preceding their 72nd birthday.

Changes in Professional Responsibility. The Board shall consider whether a change in an individual's professional responsibilities directly or indirectly impacts that person's ability to fulfill Directorship obligations. To facilitate the Board's consideration, the Chief Executive Officer and other employee Directors shall submit a resignation as a matter of course upon retirement, resignation or other significant change in professional roles.

Director Compensation and Stock Ownership. From time to time, the compensation of Directors shall be reviewed by the Compensation Committee, which shall make recommendations to the full Board. The Board's philosophy is that a substantial portion of Director compensation shall be equity-based.

Chief Executive Officer Evaluation. The Compensation Committee shall be responsible for coordinating an annual evaluation of the Chief Executive Officer by the Independent Directors. The Independent Directors will also determine guidance for the Compensation Committee with respect to Chief Executive Officer's compensation. The Chairman of the Compensation Committee shall be the liaison with the Chief Executive Officer.

Management Succession. The Board shall coordinate with the Chief Executive Officer to seek to ensure that a successor for emergencies is designated at all times and that a formalized process governs long-term management development and succession. The Chief Executive Officer shall report to the Board annually about development of senior management personnel and succession plans, which shall be approved by the Board.

Outside Board Memberships. The Chief Executive Officer and other members of senior management shall seek the approval of the Board before accepting outside board memberships, and the Board generally discourages more than one corporate board and one charitable board membership.

Stock Ownership Requirements. Each Independent Director shall adhere to the Stock Ownership Requirements for Directors, as promulgated by the Board.

Table of Contents**Our Stock Ownership Requirements for Directors and Senior Executive Officers**

Apria's Board of Directors believes that the investment community values stock ownership by the company's Directors and senior executive officers and that, by holding an equity position in the company, Directors and senior executive officers demonstrate their commitment to and belief in the long-term profitability of the company. Accordingly, the Board of Directors believes that ownership of company stock by Directors and senior executive officers should be encouraged and has adopted Stock Ownership Requirements that apply to Apria's Directors and officers at the Senior Vice President level and above (including all of the company's named executive officers).

The Stock Ownership Requirements provide that each Director or senior executive officer will acquire and maintain a certain level of ownership of Apria common stock based on the fair market value of that stock from time to time. The target ownership level for Directors who are not senior executive officers is \$150,000. The target ownership level for senior executive officers is based on a multiplier of each officer's base salary. The multipliers for the company's senior executive officers are as follows:

Chief Executive Officer	3.0 x base salary
Chief Operating Officer	2.5 x base salary
Executive Vice Presidents and Chief Financial Officer	2.0 x base salary
Senior Vice Presidents	1.5 x base salary

To the extent that a Director or officer does not already satisfy the applicable ownership target, the Director or officer is expected to meet the target over a five year period. A senior executive officer is expected to meet any greater ownership target, due to a promotion or increase in base salary, within three years of the promotion or increase.

Shares that count for purposes of meeting the Requirements generally include only shares actually or beneficially owned by the Director or officer. Shares underlying any outstanding stock options and unvested shares of restricted stock do not count for purposes of meeting the Requirements.

Directors and senior executive officers are also expected to satisfy certain minimum holding period requirements with respect to stock options and restricted stock awards granted by Apria. In the case of options (including options in the form of restricted stock purchase rights) granted in 2003 and thereafter, the Director or officer is expected to hold for at least one year after the exercise of the option at least one-half of the net number of shares acquired. The net number of shares generally means the total number of shares acquired less any shares sold or otherwise used to pay the exercise price of the option. In the case of restricted stock awards, the Director or officer is expected to hold for at least one year after the vesting of the award at least one-half of the shares that became vested. The holding period applies to only one-half of the net number of shares acquired or vested, as the case may be, because the Director or officer may need to sell the balance of the shares acquired in order to satisfy any tax obligations related to the option exercise or the vesting of the restricted shares.

After the one-year holding period has been satisfied, the Director or officer must continue to hold at least one-half of the portion of the shares that were subject to the holding period if the Director or officer has not satisfied the applicable stock ownership target (or to the extent a sale of the shares would cause the Director or officer to fall short of the target). The ownership targets and holding periods cease to apply following a termination of service or employment with Apria or following certain change in control events. The Stock Ownership Requirements may be modified from time to time by the Board of Directors.

Our Code of Ethical Business Conduct

Apria has adopted a Code of Ethical Business Conduct which applies to all of its employees, officers and Directors, including, but not limited to, the Chief Executive Officer, the Chief Financial Officer, the Chief Operating Officer and other senior financial officers. The current version of the Code may be found on the Internet at www.apria.com.

REPORT OF THE AUDIT COMMITTEE

To: The Board of Directors

The Audit Committee of the Board of Directors of the company reviews the company's financial reporting process on behalf of the Board. Management of the company has the primary responsibility for the financial statements and the reporting process of the company, including the system of internal controls, the presentation of the financial statements and the integrity of the financial statements. Management has represented to the Audit Committee that the company's financial statements have been prepared in accordance with generally accepted accounting principles.

The Audit Committee is responsible for the appointment and oversight of the company's auditors, Deloitte & Touche LLP, and for approving the auditors' compensation. The auditors report directly to the Audit Committee and are responsible for auditing the company's financial statements and expressing an opinion on the conformity of such audited financial statements to generally accepted accounting principles.

Two members of the Audit Committee, I.T. Corley and David L. Goldsmith, qualify as audit committee financial experts within the meaning of that term as defined by the Securities and Exchange Commission pursuant to Section 407 of the Sarbanes-Oxley Act of 2002. All members of the Audit Committee are independent in accordance with the standards for audit committee member independence established by the New York Stock Exchange as well as with the Sarbanes-Oxley standards. However, the members of the Audit Committee are not professionally engaged in, and are not experts in, auditing or accounting.

Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the company's auditors. Accordingly, the Audit Committee's review does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal control and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's activities do not assure that the audit of the company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that the company's auditors are in fact independent.

In this context, the Audit Committee has reviewed and discussed the company's audited financial statements with management and the company's auditors. The Audit Committee has discussed with the company's auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees). In addition, the Audit Committee has received from the company's auditors the written disclosures and the letter such auditors have represented are required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and discussed with them their independence from the company and its management. In this connection, the Audit Committee has considered whether such auditors' provision of non-audit services to the company is compatible with the auditors' independence.

In reliance on the reviews and discussions referred to above, and subject to the limitations set forth above, the Audit Committee has recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the company's Annual Report on Form 10-K for the year ended December 31, 2003, for filing with the Securities and Exchange Commission.

REPORT OF THE COMPENSATION COMMITTEE

To: The Board of Directors

The Compensation Committee oversees Apria's overall compensation program for its senior management. In addition, the Compensation Committee evaluates the performance and specifically establishes the compensation of the Chief Executive Officer. The Compensation Committee is comprised entirely of independent Directors who are not officers or employees of Apria.

Compensation Philosophy and Program for Senior Management

During 2003, Apria's compensation program for executive officers was designed to:

reward each member of senior management for the company's overall growth and financial performance;

attract and retain individuals who are capable of leading the company in achieving its business objectives in an industry characterized by competitiveness, growth and a challenging business environment; and

provide substantial alignment of management's interest with the long-term interest of stockholders by requiring ownership of Apria's stock by executive officers.

The Committee believes a substantial portion of the annual compensation of each member of senior management should relate to, and should be largely contingent upon, the financial success of the company. As discussed below, the program consists of, and is intended to strike a balance among, three elements:

Salaries. Salary for the Chief Executive Officer is based principally on the Committee's evaluation of individual job performance and an assessment of the salaries and total compensation mix paid by other similar companies to executive officers holding equivalent positions. The salaries for all other executive officers are approved by the Compensation Committee pursuant to recommendations made by the Chief Executive Officer on the basis of similar criteria.

Executive Bonuses. Executive bonuses are primarily based on an evaluation of company performance against qualitative and quantitative measures.

Long-term Incentive Compensation. Long-term incentive awards such as stock options (including options in the form of restricted stock purchase rights) are also designed to insure that incentive compensation is linked to the long-term performance of Apria and its common stock.

In 2003, the Committee's overall compensation strategy was adjusted so that between 25% and 40% of total potential executive compensation consists of cash earned and paid on a short term basis, with one-half of the total cash compensation earnable by executive officers consisting of bonuses based on the achievement of financial and operating objectives by the company and of individual performance objectives by the executives. Stock options or restricted stock will also continue to represent a significant portion of executive compensation if managerial efforts result in continued stock price increases. In 2003, 60% to 75% of total potential executive compensation was tied to long-term company performance through both time-vested stock options and time and performance-vested restricted stock purchase rights. Restricted stock purchase rights granted by Apria are effectively stock options with a performance-based vesting component. Subject to accelerated vesting and continued employment, approximately 40% of the restricted stock purchase rights granted in 2003 will vest at year-end 2008, with the remainder vesting at year-end 2009. The respective vesting dates will be accelerated to year-end 2004 and year-end 2005 if certain predetermined financial targets are achieved.

Stock Ownership Requirements

In 2003, the Compensation Committee and the Board of Directors also established new Stock Ownership Requirements for all members of senior management. Under the Requirements, each senior officer must, over a period of five years, acquire and hold shares of Apria common stock with a total value at least equivalent to a target level of ownership. The targets range from one-and-one-half to three times base salary, depending on the officer's position. All stock options (including options in the form of restricted stock purchase rights) granted in 2003 require a one-year holding period for the net shares received upon exercise or purchase (after deduction of shares sold to pay taxes and the exercise or purchase price), even if the officer has achieved the applicable target level of ownership. For officers not yet in compliance with their target, only one-half of

Table of Contents

the net after-tax shares may be sold following the one-year holding period. The remaining option shares, together with at least one-half of all Apria shares presently held by each senior officer, must continue to be held as an investment in the company.

Compensation Survey

During late 2002 and early 2003, the Committee engaged the services of an outside compensation and benefits consulting company in order to conduct a survey and review of the company's salary, stock incentive award and benefits history for executive officers against both general industry and competitor comparison groups. The consultant concluded that the competitor group would provide information regarding the competitive pay structure of the company's direct competitors, while the general industry group would provide information regarding the competitive pay structure for companies employing similar resources. Based on the analysis, the consultant concluded that the levels of executive compensation provided during 2003 were generally competitive with the levels offered by the groups surveyed, though in individual cases, certain individuals were above and certain individuals were below competitive norms.

Factors Affecting the Evaluation of Executive Performance for 2003

Members of senior management were and continue to be evaluated in light of their contributions toward achievement of the financial and operating objectives established by the Chief Executive Officer and the Board. Future compensation for senior management will continue to be based in large part on the company's ability to effectively develop and implement strategies that enable Apria to achieve those objectives and enhance stockholder value.

2003 Total Compensation for the Chief Executive Officer

Lawrence M. Higby. When Mr. Higby became the company's Chief Executive Officer, the Committee designed a compensation plan which was consistent with that provided to the company's other executive officers. Although a significant portion of Mr. Higby's 2003 compensation consisted of a bonus plan payment based largely on company performance, the Committee did not rely entirely on predetermined formulas or a limited set of criteria when it evaluated the performance of the company's Chief Executive Officer. The Committee considered:

management's overall accomplishments;

Mr. Higby's individual accomplishments;

the company's financial performance; and

other criteria discussed below.

The Committee designed a compensation package for Mr. Higby which provided a competitive salary with the potential of significant bonus plan compensation in the event the company performed well under his leadership. For 2003, Mr. Higby's annual salary level as Chief Executive Officer was \$700,000 and his total bonus compensation was \$700,000. This bonus award was the maximum amount payable under the bonus plan. Of the award, 80% was based on the company's achievement of certain financial objectives related to earnings before interest, taxes, depreciation and amortization (EBITDA), earnings per share and net revenue, with twenty percent (20%) paid on recommendation of the Compensation Committee based on the implementation of certain strategic initiatives. All of Mr. Higby's

performance targets and goals concerning the implementation of initiatives were met or exceeded. Mr. Higby's long-term compensation package consisted of options to purchase 250,000 shares of Apria common stock at an exercise price of \$21.40 per share, and restricted stock purchase rights for 214,000 shares at a purchase price of \$6.46 per share. As an executive officer, Mr. Higby is subject to the recently enacted Stock Ownership Requirements with a target ownership level equal to three times his base salary.

Executive Officer Salaries

In setting salaries, the first element of the executive compensation program, the Committee did not use a predetermined formula. Instead, the 2003 salaries of the Chief Executive Officer and the other executive officers were principally based on:

the Committee's evaluation of individual job performance;

an assessment of the company's performance; and

a consideration of salaries paid by similar companies to executive officers holding similar positions.

Lawrence M. Higby. The amount received by Mr. Higby as salary in 2003 is shown in the Salary column of the Summary Compensation Table. The Committee felt the salary was justified due to the fact that the company's performance had continued to improve.

Table of Contents

Other Executive Officers. The 2003 salaries of the other executive officers are shown in the Salary column of the Summary Compensation Table.

Executive Officer Bonuses

Bonuses for all executive officers were awarded under the 2003 Executive Bonus Plan, a plan adopted to provide certain members of senior management with significant bonus compensation (up to the full amount of each officer's 2003 salary) upon the achievement of improved financial and operating performance levels for the 2003 fiscal year and the achievement of key individual performance objectives by the executives.

The target levels of performance as well as the individual objectives established in the 2003 Executive Bonus Plan were achieved, and the resulting 2003 bonus payments to Mr. Higby and the other most highly compensated executive officers of the company are listed in the Bonus column of the Summary Compensation Table. Because publication of sensitive and proprietary quantifiable targets and other specific goals for the company and its executive officers could place the company at a competitive disadvantage, it has not been the company's practice to disclose the specific financial performance target levels set forth in its incentive compensation plans. However, the actual results for each of the quantifiable target factors are publicly available and reflect an increase in 2003 net revenues of approximately 10.3% (\$128,749,000) over the 2002 level. In addition, EBITDA (after adjustments for comparability) increased by approximately 14.0% (\$42,022,000) and similarly adjusted earnings per share increased by approximately 15.6% (\$.29 per share) over 2002 levels.

Executive Officer Long-Term Incentive Compensation

As noted above, the company provided long-term compensation to certain members of senior management under the company's new 2003 Performance Incentive Plan. The performance incentive plan provides the company with the ability to periodically reward key employees, including executive officers, with options to purchase shares of the company's common stock as well as restricted stock purchase rights.

The value of stock options is tied to the future performance of the company's common stock and provides value to the recipient only when the price of the company's common stock increases above the option grant price.

The value of restricted stock purchase rights is also tied to the future performance of the company's common stock and provides increasing value to the recipient when the price of the company's common stock increases.

Mr. Higby and the other executive officers received both stock option grants and restricted stock purchase rights as a part of their 2003 compensation, which grants are shown in the Options Granted column of the Summary Compensation Table.

Tax Treatment of Stock Options and Restricted Stock Purchase Rights

The Compensation Committee has considered the anticipated tax treatment to the company regarding the compensation and benefits paid to the executive officers of the company in light of the enactment of Section 162(m) of the United States Internal Revenue Code. The basic philosophy of the Compensation Committee is to strive to provide the executive officers of the company with a compensation package which will preserve the deductibility of such payments for the company to the greatest extent possible. However, certain types of compensation payments and their deductibility (e.g., the spread on exercise of non-qualified options) depend upon the timing of an executive

officer's vesting or exercise of previously granted rights. Moreover, interpretations of and changes in the tax laws and other factors beyond the Compensation Committee's control may affect the deductibility of certain compensation payments. In addition, in order to attract and retain qualified management personnel, it has sometimes proven necessary to grant certain long-term incentives that may not be deductible under Section 162(m) of the Code.

(1) All of such options were granted under the 2003 Performance Incentive Plan and have a maximum term of 10 years from the respective date of grant. Each option generally vests and becomes exercisable as to one-third of the total number of shares subject to the option on each of the first, second, and third anniversaries of the respective date of grant of the award. Acceleration of the exercisability of the options, and the early termination of the options, may occur under certain circumstances, including a change in control of Apria or the termination of the award recipient's employment.

(2) Constitutes an option granted in the form of a restricted stock purchase right. A restricted stock purchase right is granted at a per share exercise price at a significant discount to the fair market value of a share of Apria common stock at the time of grant of the award. In this respect, a restricted stock purchase right is similar to restricted stock in the incentives that are intended to be conveyed. However, a restricted stock purchase right is similar to an option in that the award recipient must exercise the award (once vested) and pay the applicable exercise price in order to acquire the shares subject to the award. All of such restricted stock purchase rights were granted under the 2003 Performance Incentive Plan and have a maximum term of 10 years from the respective date of grant. Each restricted stock purchase right generally vests and becomes exercisable on December 31, 2008. Vesting will accelerate to December 31, 2004 if certain predetermined financial targets are achieved by that time. Acceleration of the exercisability of the restricted stock purchase rights, and the early termination of the awards, may occur under certain circumstances, including a change in control of Apria or the termination of the award recipient's employment.

(3) Constitutes an option granted in the form of a restricted stock purchase right, substantially on the terms outlined in the preceding footnote, except that the scheduled vesting date is December 31, 2009 subject to acceleration to December 31, 2005 if certain predetermined financial targets are achieved by that time.

Directors, executive officers, and greater than 10% stockholders are required by the Securities and Exchange Commission to furnish the company with copies of the reports they file.

Based solely on its review of the copies of such reports and written representations from certain reporting persons that certain reports were not required to be filed by such persons, the company believes that all of its Directors, executive officers and greater than 10% beneficial owners complied with all filing requirements applicable to them with respect to transactions during the 2003 fiscal year.

Mr. Whitworth, the Chairman of the Board, is a principal of Relational Investors LLC.
