Valuation of investments—The Fund calculates its net asset value based on the current market value for its portfolio securities. The Fund normally obtains market values for its securities from independent pricing sources and broker-dealers. Independent pricing sources may use last reported sale prices or if not available the most recent bid price, current market quotations or valuations from computerized “matrix” systems that derive values based on comparable securities. A matrix system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio securities. If a market value is not available from an independent pricing source or a broker-dealer for a particular security, that security is valued at fair value as determined in good faith by or under the direction of the Fund’s Board of Directors (the “Board”). Various factors may be reviewed in order to make a good faith determination of a security’s fair value. The auction rate preferred securities and the structured life settlement notes are valued at cost, unless other observable market events occur. The purchase price, or cost, of these securities is arrived at through an arms length transaction between a willing buyer and seller in the secondary market and is indicative of the value on the secondary market. Current transactions in similar securities in the marketplace are evaluated. Factors for other securities may include, but are not limited to, the type and cost of the security; contractual or legal restrictions on resale of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion or exchange rights on the security; related corporate actions; and changes in overall market conditions. If events occur that materially affect the value of securities between the close of trading in those securities and the close of regular trading on the New York Stock Exchange, the securities may be fair valued. The amortized cost method of valuation, which approximates market value, generally is used to value short-term debt instruments with sixty days or less remaining to maturity, unless the Board or its delegate determines that this does not represent fair value.

The Fund has adopted fair valuation accounting standards that establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various input and valuation techniques used in measuring fair value. Fair value inputs are summarized in the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2—Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3—Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The Fund adopted Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2011-04 (“ASU 2011-04”), Fair Value Measurement: Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS, which, among other things, clarifies existing disclosure requirements provided by ASC 820 regarding the level of disaggregation and the inputs and valuation techniques used to measure fair value.

The significant unobservable inputs used in fair value measurement of the Fund’s investment companies, corporate bonds, promissory notes, and structured finance notes are (1) cost and (2) indicative bids or price ranges from dealers, brokers, or market makers. Significant changes in any of these inputs in isolation may result in a change in higher fair value measurement.

In accordance with procedures established by the Fund’s Board of Directors, the Adviser shall initially value non-publicly-traded securities (for which a current market value is not readily available) at their acquisition cost less related expenses, where identifiable, unless and until the Adviser determines that such value does not represent fair value.

The Adviser sends a memorandum to the Chairman of the Valuation Committee with respect to any non-publicly-traded securities that are valued using a method other than cost detailing the reason, factors considered, and impact on the Fund’s NAV. If the Chairman determines that such fair valuation(s) require the involvement of the Valuation Committee, a special meeting of the Valuation Committee is called as soon as practicable to discuss such fair valuation(s). The Valuation Committee of the Board consists of at least two non-interested Directors, as defined by the Investment Company Act of 1940.

At each regular quarterly Board meeting, the Adviser delivers a written report (the “Quarterly Report”) to the Board regarding any recommendations of fair valuation during the past quarter, including fair valuations which have not changed. The Board reviews the Quarterly Report and discusses the valuation of the fair valued securities.

Edgar Filing: SPECIAL OPPORTUNITIES FUND, INC. - Form N-Q

The Valuation Committee reviews all Quarterly Reports and any other interim reports, and reviews and approves the valuation of all fair valued securities. This review includes a review and discussion of an updated fair valuation summary with appropriate levels of representatives of the Adviser's management.

The following is a summary of the fair valuations according to the inputs used as of March 31, 2015 in valuing the Fund's investments:

	Quoted Prices in Active Markets for Identical Investments (Level 1)*	Significant Other Observable Inputs (Level 2)*	Unobservable Inputs (Level 3)**	Total

\* Transfers between Levels are recognized at the end of the reporting period.

\*\*The Fund measures Level 3 activity as of the beginning and end of each financial reporting period.

Transfers between Level 1 and Level 2 securities as of March 31, 2015 resulted from securities priced previously with an official close price (Level 1 securities) or on days where there is not an official close price the bid price is used (Level 2 securities). Transfers as of March 31, 2015 are summarized in the table below:

Edgar Filing: SPECIAL OPPORTUNITIES FUND, INC. - Form N-Q

Level 3 Reconciliation

Disclosure

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

Category	Balance as of 12/31/2014	Acquisitions	Dispositions	Realized Gain (Loss)	Change in unrealized appreciation (depreciation)
Closed End Funds	\$ 163,146	\$ -	\$ (191,893)	\$ 191,893	\$ (163,146)
Auction Rate Preferred Securities	6,381,563	-	(3,125,000)	139,812	(64,812)
Preferred Stocks	5,806,162	-	-	-	21,291
Convertible Preferred Stocks	-	880,000	-	-	-
Common Stocks	228,146	-	-	-	(3,878)
Liquidation Claims	2,842,434	-	-	-	(38,937)
Promissory Notes	2,000,000	-	(600,000)	-	-
Warrants	69	-	-	-	-
	\$ 17,421,520	\$ 880,000	\$ (3,916,893)	\$ 331,705	\$ (249,482)

The following table presents additional information about valuation methodologies and inputs used for investments that are measured at fair value and categorized within Level 3 as of March 31, 2015:

	Fair Value March 31, 2015	Valuation Methodologies	Unobservable Input(1) Comparability Adjustments/ Broker Indications/ Company Announcements
Auction Rate Preferred Securities	\$ 3,331,563	Market Comparables/Cost	
Preferred Stock	\$ 5,827,453	Cost	Market Assessments/ Financial Assesments
Convertible Preferred	\$ 880,000	Cost	

Stocks			Terms of the Preferred/Financial Assessments/ Company Announcements
Common Stocks	\$ 224,268	Market Transactions Approach	Discount to Market Price for Share Restrictions
Liquidation Claims	\$ 2,803,497	Market Transactions Approach	Broker Bids
Promissory Notes	\$ 1,400,000	Cost	Terms of the Note/ Financial Assessments/ Company Announcements
Warrants	\$ 69	Market Transactions Approach	Discount to Market Price for Share Restrictions

(1) In determining certain of these inputs, management evaluates a variety of factors including economic conditions, interest rates, industry and market developments, market valuations of comparable companies and company specific developments, exit strategies and realization opportunities. Management has determined that market participants would take these factors into account when valuing the investments.

(2) This column represents the directional change in the fair value of the Level 3 investments that would result from a change in the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

The cost basis of investments for federal income tax purposes at March 31, 2015 was as follows\*:

Cost of investments	\$162,913,395
Gross unrealized appreciation on investments	21,266,020
Gross unrealized depreciation on investments	(5,651,607)
Gross unrealized depreciation on short sales	(191,887)
Net unrealized appreciation	\$15,422,526

\*Because tax adjustments are calculated annually, the above table reflects the tax adjustments outstanding at the Fund's previous fiscal year end. For the previous fiscal year's federal income tax information, please refer to the Notes to Financial Statements section in the Fund's most recent semi-annual or annual report.

Item 2. Controls and Procedures.

- (a) The Registrant's President and Chief Financial Officer have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the "1940 Act")) (17 CFR 270.30a-3(c)) are effective as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rule 13a-15(b) or Rule 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(d)).
- (b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) (17 CFR 270.30a-3(d)) that occurred during the Registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3. Exhibits.

Separate certifications for each principal executive officer and principal financial officer of the Registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)). Filed herewith.

---
