United States  
Securities and Exchange Commission  
Washington, D.C. 20549  
FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the  
Securities Exchange Act of 1934  
For The Quarterly Period Ended September 30, 2016  
Commission File Number 1-12254

SAUL CENTERS, INC.  
(Exact name of registrant as specified in its charter)

Maryland 52-1833074  
(State or other jurisdiction of (I.R.S. Employer  
incorporation or organization) Identification No.)  
7501 Wisconsin Avenue, Bethesda, Maryland 20814  
(Address of principal executive office) (Zip Code)  
Registrant's telephone number, including area code (301) 986-6200

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirement for the past 90 days. YES  
 NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).  
YES  NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "accelerated filer," "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer

Non-accelerated filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  
YES  NO

Number of shares of common stock, par value \$0.01 per share outstanding as of October 31, 2016: 21.4 million.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments necessary for the fair presentation of the financial position and results of operations of Saul Centers, Inc. for the interim periods have been included. All such adjustments are of a normal recurring nature. These consolidated financial statements and the accompanying notes should be read in conjunction with the audited consolidated financial statements of Saul Centers, Inc. for the year ended December 31, 2015, which are included in its Annual Report on Form 10-K. The results of operations for interim periods are not necessarily indicative of results to be expected for the year.

Table of Contents

## Notes to Consolidated Financial Statements (Unaudited)

## 1. Organization, Formation and Structure

Saul Centers, Inc. (“Saul Centers”) was incorporated under the Maryland General Corporation Law on June 10, 1993, and operates as a real estate investment trust (a “REIT”) under the Internal Revenue Code of 1986, as amended (the “Code”). The Company is required to annually distribute at least 90% of its REIT taxable income (excluding net capital gains) to its stockholders and meet certain organizational and other requirements. Saul Centers has made and intends to continue to make regular quarterly distributions to its stockholders. Saul Centers, together with its wholly-owned subsidiaries and the limited partnerships of which Saul Centers or one of its subsidiaries is the sole general partner, are referred to collectively as the “Company.” B. Francis Saul II serves as Chairman of the Board of Directors and Chief Executive Officer of Saul Centers.

Saul Centers was formed to continue and expand the shopping center business previously owned and conducted by the B. F. Saul Real Estate Investment Trust, the B. F. Saul Company and certain other affiliated entities, each of which is controlled by B. Francis Saul II and his family members (collectively, the “Saul Organization”). On August 26, 1993, members of the Saul Organization transferred to Saul Holdings Limited Partnership, a newly formed Maryland limited partnership (the “Operating Partnership”), and two newly formed subsidiary limited partnerships (the “Subsidiary Partnerships,” and, collectively with the Operating Partnership, the “Partnerships”), shopping center and mixed-use properties and the management functions related to the transferred properties. Since its formation, the Company has developed and purchased additional properties.

The following table lists the significant properties acquired, in development and disposed since December 31, 2014.

Name of Property	Location	Type	Year of Acquisition/ Development/Disposition
------------------	----------	------	--

## Acquisitions

726 N. Glebe Road	Arlington, VA	Shopping Center	2015
-------------------	---------------	-----------------	------

700 N. Glebe Road	Arlington, VA	Shopping Center	2016
-------------------	---------------	-----------------	------

## Developments

Park Van Ness	Washington, DC	Mixed-Use	2013-2016
---------------	----------------	-----------	-----------

As of September 30, 2016, the Company’s properties (the “Current Portfolio Properties”) consisted of 49 operating shopping center properties (the “Shopping Centers”), seven mixed-use properties, one of which was designated as held for sale, which are comprised of office, retail and multi-family residential uses (the “Mixed-Use Properties”) and three (non-operating) development properties.

## 2. Summary of Significant Accounting Policies

## Nature of Operations

The Company, which conducts all of its activities through its subsidiaries, the Operating Partnership and Subsidiary Partnerships, engages in the ownership, operation, management, leasing, acquisition, renovation, expansion, development and financing of community and neighborhood shopping centers and mixed-use properties, primarily in the Washington, DC/Baltimore metropolitan area.

Because the properties are located primarily in the Washington, DC/Baltimore metropolitan area, the Company is subject to a concentration of credit risk related to these properties. A majority of the Shopping Centers are anchored by one or more major tenants. As of September 30, 2016, 29 of the Shopping Centers were anchored by a grocery store and offer primarily day-to-day necessities and services. The number of grocery-anchored centers excludes the Briggs Chaney Plaza and Broadlands Village shopping centers, where Safeway ceased operations during the quarter ended June 30, 2016, but whose leases remain in full force and effect. Three tenants individually accounted for 2.5% or more of the Company’s total revenue for the nine months ended September 30, 2016. Giant Food, a tenant at nine Shopping Centers, Capital One, a tenant at 20 properties, and Albertson's/Safeway, a tenant at nine Shopping Centers, individually accounted for 4.3%, 2.7%, and 2.6%, respectively, of the Company's total revenue for the nine months ended September 30, 2016.

Principles of Consolidation

The accompanying consolidated financial statements of the Company include the accounts of Saul Centers and its subsidiaries, including the Operating Partnership and Subsidiary Partnerships, which are majority owned by Saul Centers. All significant intercompany balances and transactions have been eliminated in consolidation.

-9-

---

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

The Operating Partnership is a variable interest entity ("VIE") of the Company because the limited partners do not have substantive kick-out or participating rights. The Company is the primary beneficiary of the Operating Partnership because it has the power to direct the activities of the Operating Partnership and the rights to absorb 74.3% of the net income of the Operating Partnership. Because the Operating Partnership was already consolidated into the financial statements of the Company, the identification of it as a VIE has no impact on the consolidated financial statements of the Company.

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments necessary for the fair presentation of the financial position and results of operations of Saul Centers, Inc. for the interim periods have been included. All such adjustments are of a normal recurring nature. These consolidated financial statements and the accompanying notes should be read in conjunction with the audited consolidated financial statements of Saul Centers, Inc. for the year ended December 31, 2015, which are included in its Annual Report on Form 10-K. The results of operations for interim periods are not necessarily indicative of results to be expected for the year.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Accounts Receivable, Accrued Income and Allowance for Doubtful Accounts

Accounts receivable primarily represent amounts currently due from tenants in accordance with the terms of the respective leases. Receivables are reviewed monthly and reserves are established with a charge to current period operations when, in the opinion of management, collection of the receivable is doubtful. Accounts receivable in the accompanying financial statements are shown net of an allowance for doubtful accounts of approximately \$2.0 million and \$1.3 million at September 30, 2016 and December 31, 2015, respectively.

In addition to rents due currently, accounts receivable includes approximately \$42.5 million and \$41.4 million, at September 30, 2016 and December 31, 2015, respectively, net of allowance for doubtful accounts totaling \$0.5 million and \$0.5 million, respectively, representing minimum rental income accrued on a straight-line basis to be paid by tenants over the remaining term of their respective leases.

Assets Held for Sale

The Company considers properties to be assets held for sale when all of the following criteria are met:

- management commits to a plan to sell a property;
- it is unlikely that the disposal plan will be significantly modified or discontinued;
- the property is available for immediate sale in its present condition;
- actions required to complete the sale of the property have been initiated;
- sale of the property is probable and the Company expects the completed sale will occur within one year; and
- the property is actively being marketed for sale at a price that is reasonable given its current market value.

The Company must make a determination as to the point in time that it is probable that a sale will be consummated, which generally occurs when an executed sales contract has no contingencies and the prospective buyer has significant funds at risk to ensure performance. Upon designation as an asset held for sale, the Company records the carrying value of each property at the lower of its carrying value or its estimated fair value, less estimated costs to sell, and ceases depreciation. As of September 30, 2016, the Company has classified as held-for-sale one operating property, comprising 197,127 square feet of gross leasable area. The book value of this property, which is included in Other Assets, was \$3.6 million, net of accumulated depreciation of \$7.0 million, which does not exceed its estimated fair

value, less costs to sell, and liabilities were \$0.3 million. Fair value was determined based on a third party appraisal.

-10-

---

Table of Contents

## Notes to Consolidated Financial Statements (Unaudited)

## Cash and Cash Equivalents

Cash and cash equivalents include short-term investments. Short-term investments include money market accounts and other investments which generally mature within three months, measured from the acquisition date, and/or are readily convertible to cash.

## Construction In Progress

Construction in progress includes land, preconstruction and development costs of active projects. Preconstruction costs include legal, zoning and permitting costs and other project carrying costs incurred prior to the commencement of construction. Development costs include direct construction costs and indirect costs incurred subsequent to the start of construction such as architectural, engineering, construction management and carrying costs consisting of interest, real estate taxes and insurance. Effective August 1, 2016, the Company's Glebe Road asset was taken out of service and transferred to construction in progress. Construction in progress as of September 30, 2016 and December 31, 2015, is composed of the following:

(in thousands)	September 30, 2016	December 31, 2015
Park Van Ness	\$ —	\$ 77,245
Glebe Road	55,858	—
Other	4,915	6,271
Total	\$ 60,773	\$ 83,516

## Deferred Debt Costs

Deferred debt costs consist of fees and costs incurred to obtain long-term financing, construction financing and the revolving line of credit. These fees and costs are being amortized on a straight-line basis over the terms of the respective loans or agreements, which approximates the effective interest method. Deferred debt costs totaled \$7.7 million and \$8.7 million, net of accumulated amortization of \$6.9 million and \$6.2 million, at September 30, 2016 and December 31, 2015, respectively, and are reflected as a reduction of the related debt in the Consolidated Balance Sheets.

## Deferred Income

Deferred income consists of payments received from tenants prior to the time they are earned and recognized by the Company as revenue, including tenant prepayment of rent for future periods, real estate taxes when the taxing jurisdiction has a fiscal year differing from the calendar year, reimbursements specified in the lease agreement and tenant construction work provided by the Company. In addition, deferred income includes the fair value of certain below market leases.

## Deferred Leasing Costs

Deferred leasing costs consist of commissions paid to third-party leasing agents, internal direct costs such as employee compensation and payroll-related fringe benefits directly related to time spent performing leasing-related activities for successful commercial leases, amounts attributed to in-place leases associated with acquired properties and lease inducement costs. Leasing related activities include evaluating the prospective tenant's financial condition, evaluating and recording guarantees, collateral and other security arrangements, negotiating lease terms, preparing lease documents and closing the transaction. Unamortized deferred costs are charged to expense if the applicable lease is terminated prior to expiration of the initial lease term. Deferred leasing costs are amortized over the term of the lease or remaining term of acquired leases. Collectively, deferred leasing costs totaled \$26.3 million and \$26.9 million, net of accumulated amortization of \$29.7 million and \$26.6 million, as of September 30, 2016 and December 31, 2015, respectively. Amortization expense, included in depreciation and amortization of deferred leasing costs in the consolidated statements of operations, totaled \$4.4 million and \$4.2 million for the nine months ended September 30, 2016 and 2015, respectively.

## Derivative Financial Instruments

The Company may, when appropriate, employ derivative instruments, such as interest-rate swaps, to mitigate the risk of interest rate fluctuations. The Company does not enter into derivative or other financial instruments for trading or speculative purposes. Derivative financial instruments are carried at fair value as either assets or liabilities on the consolidated balance sheets. For those derivative instruments that qualify and are designated as hedging instruments, the Company designates the hedging instrument, based upon the exposure being hedged, as a fair value hedge or a cash flow hedge. For those derivative instruments that qualify and are designated as hedging instruments, the effective portion of the gain or loss on the hedge instruments is reported as a component of accumulated other comprehensive income (loss) and recognized in earnings within

-11-

---

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

the same line item associated with the forecasted transaction in the same period or periods during which the hedged transaction affects earnings. Any ineffective portion of the change in fair value of a derivative instrument is immediately recognized in earnings. For derivative instruments that do not qualify, or that qualify and are not designated, as hedging instruments, changes in fair value are immediately recognized in earnings.

Derivative financial instruments expose us to credit risk in the event of non-performance by the counterparties under the terms of the derivative instrument. The Company minimizes its credit risk on these transactions by dealing with major, creditworthy financial institutions as determined by management, and therefore, it believes that the likelihood of realizing losses from counterparty non-performance is remote.

Income Taxes

The Company made an election to be treated, and intends to continue operating so as to qualify, as a REIT under the Code, commencing with its taxable year ended December 31, 1993. A REIT generally will not be subject to federal income taxation, provided that distributions to its stockholders equal or exceed its REIT taxable income and it complies with certain other requirements. Therefore, no provision has been made for federal income taxes in the accompanying consolidated financial statements.

Legal Contingencies

The Company is subject to various legal proceedings and claims that arise in the ordinary course of business, which are generally covered by insurance. While the resolution of these matters cannot be predicted with certainty, the Company believes the final outcome of such matters will not have a material adverse effect on its financial position or results of operations. Upon determination that a loss is probable to occur and can be reasonably estimated, the estimated amount of the loss is recorded in the financial statements. Both the amount of the loss and the point at which its occurrence is considered probable can be difficult to determine.

Postemployment Benefits

From time to time, the Company may enter into an arrangement with an employee at the time of the employee's separation from service whereby the employee will receive certain payments in exchange for certain releases, covenants not to compete, or other promises. If no future services are required in order for the employee to receive the payments, the Company estimates the amount of payments to be made over the life of the arrangement and records that amount as an expense as of the date of the arrangement with a corresponding liability representing the amount to be paid in the future.

Predevelopment Expenses

Predevelopment expenses represent certain costs incurred by the Company in connection with active development and redevelopment projects and include, for example, costs related to the early termination of tenant leases and demolition of existing structures.

Real Estate Investment Properties

The Company purchases real estate investment properties from time to time and records assets acquired and liabilities assumed, including land, buildings, and intangibles related to in-place leases and customer relationships, based on their fair values. The fair value of buildings generally is determined as if the buildings were vacant upon acquisition and subsequently leased at market rental rates and considers the present value of all cash flows expected to be generated by the property including an initial lease up period. From time to time the Company may purchase a property for future development purposes. The Company determines the fair value of above and below market intangibles associated with in-place leases by assessing the net effective rent and remaining term of the lease relative to market terms for similar leases at acquisition taking into consideration the remaining contractual lease period, renewal periods, and the likelihood of the tenant exercising its renewal options. The fair value of below market lease intangibles is recorded as deferred income and accreted as additional revenue over the remaining contractual lease period and any renewal option periods included in the valuation analysis. The fair value of above market lease intangibles is recorded as a deferred asset and amortized as a reduction of revenue over the remaining contractual

lease term. The Company determines the fair value of at-market in-place leases considering the cost of acquiring similar leases, the foregone rents associated with the lease-up period and carrying costs associated with the lease-up period. Intangible assets associated with at-market in-place leases are amortized as additional expense over the remaining contractual lease term. To the extent customer relationship intangibles are present in an acquisition, the fair values of the intangibles are amortized over the lives of the customer relationships. The Company has never recorded a customer relationship intangible asset. Acquisition-

Table of Contents

## Notes to Consolidated Financial Statements (Unaudited)

related transaction costs are generally charged to expense as incurred and reported as acquisition related costs in the consolidated statements of operations.

If there is an event or change in circumstance that indicates a potential impairment in the value of a real estate investment property, the Company prepares an analysis to determine whether the carrying value of the real estate investment property exceeds its estimated fair value. The Company considers both quantitative and qualitative factors including recurring operating losses, significant decreases in occupancy, and significant adverse changes in legal factors and business climate. If impairment indicators are present, the Company compares the projected cash flows of the property over its remaining useful life, on an undiscounted basis, to the carrying value of that property. The Company assesses its undiscounted projected cash flows based upon estimated capitalization rates, historic operating results and market conditions that may affect the property. If the carrying value is greater than the undiscounted projected cash flows, the Company would recognize an impairment loss equivalent to an amount required to adjust the carrying amount to its then estimated fair value. The value of any property is sensitive to the actual results of any of the aforementioned estimated factors, either individually or taken as a whole. Should the actual results differ from management's projections, the valuation could be negatively or positively affected. The Company did not recognize an impairment loss on any of its real estate during the nine months ended September 30, 2016 and 2015.

Interest, real estate taxes, development-related salary costs and other carrying costs are capitalized on projects under development and construction. Upon substantial completion of construction and the placement of the assets into service, rental income, real estate tax expense, property operating expenses (consisting of payroll, repairs and maintenance, utilities, insurance and other property related expenses) and depreciation are included in current operations and capitalization of interest ceases. Property operating expenses are charged to operations as incurred. Interest capitalized totaled \$1.8 million and \$1.4 million for the nine months ended September 30, 2016 and 2015, respectively. Commercial development projects are considered substantially complete and available for occupancy upon completion of tenant improvements, but no later than one year from the cessation of major construction activity. Multi-family residential development projects are considered substantially complete and available for occupancy upon receipt of the certificate of occupancy from the appropriate licensing authority. Substantially completed portions of a project are accounted for as separate projects.

Depreciation is calculated using the straight-line method and estimated useful lives of generally between 35 and 50 years for base buildings, or a shorter period if management determines that the building has a shorter useful life, and up to 20 years for certain other improvements that extend the useful lives. Leasehold improvement expenditures are capitalized when certain criteria are met, including when the Company supervises construction and will own the improvements. Tenant improvements are amortized, over the shorter of the lives of the related leases or the useful life of the improvements, using the straight-line method. Depreciation expense in the Consolidated Statements of Operations totaled \$29.0 million and \$28.2 million for the nine months ended September 30, 2016 and 2015, respectively. Repairs and maintenance expense totaled \$9.2 million and \$9.0 million for the nine months ended September 30, 2016 and 2015, respectively, and is included in property operating expenses in the Consolidated Statements of Operations.

**Revenue Recognition**

Rental and interest income are accrued as earned except when doubt exists as to collectability, in which case the accrual is discontinued. Recognition of rental income commences when control of the space has been given to the tenant. When rental payments due under leases vary from a straight-line basis because of free rent periods or scheduled rent increases, income is recognized on a straight-line basis. Expense recoveries represent a portion of property operating expenses billed to tenants, including common area maintenance, real estate taxes and other recoverable costs, and are recognized in the period in which the expenses are incurred. Rental income based on a tenant's revenue ("percentage rent") is accrued when a tenant reports sales that exceed a breakpoint specified in the lease agreement.

**Stock-based Employee Compensation, Stock Plan and Deferred Compensation Plan for Directors**

The Company uses the fair value method to value and account for employee stock options. The fair value of options granted is determined at the time of each award using the Black-Scholes model, a widely used method for valuing stock-based employee compensation, and the following assumptions: (1) Expected Volatility determined using the most recent trading history of the Company's common stock (month-end closing prices) corresponding to the average expected term of the options; (2) Average Expected Term of the options is based on prior exercise history, scheduled vesting and the expiration date; (3) Expected Dividend Yield determined by management after considering the Company's current and historic dividend yield rates, the Company's yield in relation to other retail REITs and the Company's market yield at the grant date; and (4) a Risk-free Interest Rate based upon the market yields of US Treasury obligations with maturities corresponding to the average expected term of the options at the grant date. The Company amortizes the value of options granted ratably over the vesting period and includes the amounts as compensation in general and administrative expenses.

Table of Contents

## Notes to Consolidated Financial Statements (Unaudited)

The Company has a stock plan, which was originally approved in 2004, amended in 2008 and 2013 and which expires in 2023, for the purpose of attracting and retaining executive officers, directors and other key personnel (the “Stock Plan”). Pursuant to the Stock Plan, the Compensation Committee established a Deferred Compensation Plan for Directors for the benefit of its directors and their beneficiaries, which replaced a previous Deferred Compensation and Stock Plan for Directors. A director may make an annual election to defer all or part of his or her director’s fees and has the option to have the fees paid in cash, in shares of common stock or in a combination of cash and shares of common stock upon separation from the Board. If the director elects to have fees paid in stock, fees earned during a calendar quarter are aggregated and divided by the closing market price of the Company’s common stock on the first trading day of the following quarter to determine the number of shares to be credited to the director. As of September 30, 2016, the director's deferred fee accounts comprise 244,415 shares.

The Compensation Committee has also approved an annual award of shares of the Company’s common stock as additional compensation to each director serving on the Board of Directors as of the record date for the Annual Meeting of Stockholders. The shares are awarded as of each Annual Meeting of Stockholders, and their issuance may not be deferred.

**Noncontrolling Interests**

Saul Centers is the sole general partner of the Operating Partnership, owning a 74.3% common interest as of September 30, 2016. Noncontrolling interests in the Operating Partnership is comprised of limited partnership units owned by the Saul Organization. Noncontrolling interests reflected on the accompanying consolidated balance sheets is increased for earnings allocated to limited partnership interests and distributions reinvested in additional units, and is decreased for limited partner distributions. Noncontrolling interests reflected on the consolidated statements of operations represents earnings allocated to limited partnership interests.

**Per Share Data**

Per share data for net income (basic and diluted) is computed using weighted average shares of common stock. Convertible limited partnership units and employee stock options are the Company’s potentially dilutive securities. For all periods presented, the convertible limited partnership units are non-dilutive. The following table sets forth, for the indicated periods, weighted averages of the number of common shares outstanding, basic and dilutive, the effect of dilutive options and the number of options which are not dilutive because the average price of the Company's common stock was less than the exercise prices. The treasury stock method was used to measure the effect of the dilution.

	As of or for the three months ended September 30,		As of or for the nine months ended September 30,	
(In thousands)	2016	2015	2016	2015
Weighted average common stock outstanding-Basic	21,597	21,158	21,448	21,091
Effect of dilutive options	182	33	96	66
Weighted average common stock outstanding-Diluted	21,779	21,191	21,544	21,157
Non-dilutive options	—	298	172	124
Years non-dilutive options were issued		2007 and 2015	2007, 2015, and 2016	2007 and 2015

**Recently Issued Accounting Standards**

In May 2014, the FASB issued ASU No. 2014-09 and in April 2016, the FASB issued ASU 2016-10, both of which are titled, “Revenue from Contracts with Customers” (collectively “ASU 2014-09”). ASU 2014-09 will replace most existing revenue recognition guidance and will require an entity to recognize the amount of revenue to which it

expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 is effective for annual periods beginning after December 15, 2017, and interim periods within those years. Early adoption is permitted but not before annual periods beginning after December 15, 2016. ASU 2014-09 must be applied retrospectively by either restating prior periods or by recognizing the cumulative effect as of the first date of application. We have not yet selected a transition method and are evaluating the impact that ASU 2014-09 will have on our consolidated financial statements and related disclosures.

In February 2015, the FASB issued ASU No. 2015-02, "Consolidation" ("ASU 2015-02"). ASU 2015-02 modifies existing consolidation guidance for reporting organizations that are required to evaluate whether they should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. ASU 2015-02 is effective for annual periods beginning after December 15, 2015, and interim periods within those years. The adoption of ASU 2015-02

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

effective January 1, 2016, resulted in the Operating Partnership being classified as a variable interest entity. Because the Operating Partnership was already consolidated into the financial statements, adoption had no impact on the Company's consolidated financial statements or disclosures.

In April 2015, the FASB issued ASU No. 2015-03, "Interest - Imputation of Interest" ("ASU 2015-03"). ASU 2015-03 simplifies the presentation of debt issuance costs and will require an entity to deduct transaction costs from the carrying value of the related financial liability and not record those transaction costs as a separate asset. Recognition and measurement guidance for debt issuance costs are not affected by ASU 2015-03. ASU 2015-03 is effective for annual periods beginning after December 15, 2015, and interim periods within those years, and must be applied retrospectively by adjusting the balance sheet of each individual period presented. The Company retrospectively adopted ASU 2015-03 effective January 1, 2016. As a result of the adoption of ASU 2015-03, the Company no longer reports its net deferred debt costs as an asset and instead reports those amounts as reduction of the carrying value of the associated debt.

In February 2016, the FASB issued ASU 2016-02, "Leases" ("ASU 2016-02"). ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. ASU 2016-02 is effective for annual periods beginning after December 15, 2018, interim periods within those years, and requires a modified retrospective transition approach for all leases existing at the date of initial application, with an option to use certain practical expedients for those existing leases. We are evaluating the impact that ASU 2016-02 will have on our consolidated financial statements and related disclosures.

In March 2016, the FASB issued ASU 2016-09, "Compensation-Stock Compensation" ("ASU 2016-09"). ASU 2016-09 simplifies the accounting for several aspects of share-based payments including the income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. ASU 2016-09 is effective for annual periods beginning after December 15, 2016 and interim periods within those years. The transition method varies based on the specific amendment. We are evaluating the impact that ASU 2016-09 will have on our consolidated financial statements and related disclosures.

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments-Credit Losses" ("ASU 2016-13"). ASU 2016-13 replaces the incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of information to support credit loss estimates. ASU 2016-13 is effective for annual periods beginning after December 15, 2019, including interim periods within those years. We are evaluating the impact that

ASU 2016-13 will have on our consolidated financial statements and related disclosures.

Reclassifications

Certain reclassifications have been made to the prior year financial statements to conform to the presentation used for the nine months ended September 30, 2016.

3. Real Estate Acquired and Sold

700 and 726 N. Glebe Road

In September 2015, the Company purchased for \$4.0 million, 726 N. Glebe Road and incurred acquisition costs of \$56,700. In August 2016, the Company purchased for \$7.2 million, including acquisition costs, 700 N. Glebe Road. The properties are contiguous with two other properties owned by the Company and are located in Arlington, Virginia.

Westview Pad

In February 2015, the Company purchased for \$0.9 million, including acquisition costs, a 1.1 acre retail pad site in Frederick, Maryland, which is contiguous with and an expansion of the Company's other Westview asset.

Thruway Pad

In August 2016, the Company purchased for \$3.1 million, a retail pad site with an occupied bank building in

Winston Salem, North Carolina, and incurred acquisition costs of \$57,000. The property is contiguous with and an expansion of the Company's Thruway asset.

**Allocation of Purchase Price of Real Estate Acquired**

The Company allocates the purchase price of real estate investment properties to various components, such as land, buildings and intangibles related to in-place leases and customer relationships, based on their fair values. See Note 2. Summary of Significant Accounting Policies-Real Estate Investment Properties.

-15-

---

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

During 2016, the Company purchased two properties at a cost of \$10.3 million and incurred acquisition costs of \$57,000. Of the total purchase price, \$9.4 million was allocated to land, \$0.9 million was allocated to building, \$0.1 million was allocated to in-place lease and (\$0.1) million was allocated to below market rent.

4. Noncontrolling Interests - Holders of Convertible Limited Partnership Units in the Operating Partnership  
As of September 30, 2016, the Saul Organization holds a 25.7% limited partnership interest in the Operating Partnership represented by approximately 7.4 million convertible limited partnership units. These units are convertible into shares of Saul Centers' common stock, at the option of the unit holder, on a one-for-one basis provided that, in accordance with the Saul Centers, Inc. Articles of Incorporation, the rights may not be exercised at any time that the Saul Organization beneficially owns, directly or indirectly, in the aggregate more than 39.9% of the value of the outstanding common stock and preferred stock of Saul Centers (the "Equity Securities"). As of September 30, 2016, approximately 575,000 units were convertible into shares of Saul Centers common stock.  
The impact of the Saul Organization's approximately 25.7% limited partnership interest in the Operating Partnership is reflected as Noncontrolling Interests in the accompanying consolidated financial statements. Fully converted partnership units and diluted weighted average common stock outstanding for the three months ended September 30, 2016 and 2015, were approximately 29.2 million and 28.5 million, respectively, and for the nine months ended September 30, 2016 and 2015, were approximately 28.9 million and 28.4 million, respectively.

5. Notes Payable, Revolving Credit Facility, Interest and Amortization of Deferred Debt Costs  
The principal amount of the Company's outstanding debt totaled approximately \$875.0 million at September 30, 2016, of which approximately \$837.4 million was fixed-rate debt and approximately \$37.6 million was variable rate debt, including \$23.0 million outstanding on the Company's unsecured revolving credit facility. The carrying value of the properties collateralizing the notes payable totaled approximately \$845.9 million as of September 30, 2016.  
At September 30, 2016, the Company had a \$275.0 million unsecured revolving credit facility, which can be used for working capital, property acquisitions, development projects or letters of credit. The revolving credit facility matures on June 23, 2018, and may be extended by the Company for one additional year subject to the Company's satisfaction of certain conditions. Saul Centers and certain consolidated subsidiaries of the Operating Partnership have guaranteed the payment obligations of the Operating Partnership under the revolving credit facility. Letters of credit may be issued under the revolving credit facility. On September 30, 2016, based on the value of the Company's unencumbered properties, approximately \$251.6 million was available under the line, \$23.0 million was outstanding and approximately \$448,000 was committed for letters of credit. The interest rate under the facility is variable and equals the sum of one-month LIBOR and a margin that is based on the Company's leverage ratio, and which can range from 145 basis points to 200 basis points. As of September 30, 2016, the margin was 145 basis points.  
At September 30, 2016, the Company had a \$71.6 million construction-to-permanent loan, with \$68.3 million outstanding, which is secured by and used to partially finance the construction of Park Van Ness. Saul Centers is a guarantor of the revolving credit facility, of which the Operating Partnership is the borrower. The Operating Partnership is the guarantor of (a) a portion of the Metro Pike Center bank loan (approximately \$7.8 million of the \$14.6 million outstanding at September 30, 2016) and (b) the \$71.6 million Park Van Ness construction-to-permanent loan, which guarantee will be reduced and eventually eliminated subject to the achievement of certain leasing and cash flow levels. The fixed-rate notes payable are all non-recourse.  
At December 31, 2015, the principal amount of the Company's outstanding debt totaled approximately \$875.2 million, of which \$832.4 million was fixed rate debt and \$42.8 million was variable rate debt, including \$28.0 million outstanding on the Company's unsecured revolving credit facility. The carrying value of the properties collateralizing the notes payable totaled \$856.8 million as of December 31, 2015.

Table of Contents

## Notes to Consolidated Financial Statements (Unaudited)

At September 30, 2016, the scheduled maturities of debt, including scheduled principal amortization, for years ending December 31, were as follows:

(In thousands)	Balloon Payments	Scheduled Principal Amortization	Total
October 1 through December 31, 2016	\$—	\$ 6,284	\$6,284
2017	14,442	25,766	40,208
2018	50,748	(a) 25,901	76,649
2019	60,793	24,614	85,407
2020	61,163	21,892	83,055
2021	11,012	21,404	32,416
Thereafter	444,679	106,312	550,991
Principal amount	\$642,837	\$ 232,173	875,010
Unamortized deferred debt costs			7,703
Net			\$867,307

(a) Includes \$23.0 million outstanding under the line of credit.

Interest expense and amortization of deferred debt costs for the three and nine months ended September 30, 2016 and 2015, were as follows:

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Interest incurred	\$11,691	\$11,489	\$35,027	\$34,287
Amortization of deferred debt costs	339	340	1,003	1,094
Capitalized interest	(506 )	(600 )	(1,762 )	(1,393 )
	\$11,524	\$11,229	\$34,268	\$33,988

#### 6. Stockholders' Equity and Noncontrolling Interests

The consolidated statements of operations for the nine months ended September 30, 2016 and 2015, reflect noncontrolling interests of \$8.5 million and \$7.6 million, respectively, representing the Saul Organization's share of net income for each period.

The Company has outstanding 7.2 million depositary shares, each representing 1/100th of a share of 6.875% Series C Cumulative Redeemable Preferred Stock. The depositary shares may be redeemed on or after February 12, 2018 at the Company's option, in whole or in part, at the \$25.00 liquidation preference plus accrued but unpaid dividends. The depositary shares pay an annual dividend of \$1.71875 per share, equivalent to 6.875% of the \$25.00 liquidation preference. The Series C preferred stock has no stated maturity, is not subject to any sinking fund or mandatory redemption and is not convertible into any other securities of the Company except in connection with certain changes of control or delisting events. Investors in the depositary shares generally have no voting rights, but will have limited voting rights if the Company fails to pay dividends for six or more quarters (whether or not declared or consecutive) and in certain other events.

#### 7. Related Party Transactions

The Chairman and Chief Executive Officer, the President, the Executive Vice President-Chief Legal and Administrative Officer and the Senior Vice President-Chief Accounting Officer of the Company are also officers of various members of the Saul Organization and their management time is shared with the Saul Organization. Their annual compensation is fixed by the Compensation Committee of the Board of Directors, with the exception of the

Senior Vice President-Chief Accounting Officer whose share of annual compensation allocated to the Company is determined by the shared services agreement (described below).

The Company participates in a multiemployer 401K plan with entities in the Saul Organization which covers those full-time employees who meet the requirements as specified in the plan. Company contributions, which are included in general and

-17-

---

Table of Contents

## Notes to Consolidated Financial Statements (Unaudited)

administrative expense or property operating expenses in the consolidated statements of operations, at the discretionary amount of up to six percent of the employee's cash compensation, subject to certain limits, were \$255,000 and \$312,400 for the nine months ended September 30, 2016 and 2015, respectively. All amounts contributed by employees and the Company are fully vested.

The Company also participates in a multiemployer nonqualified deferred compensation plan with entities in the Saul Organization which covers those full-time employees who meet the requirements as specified in the plan. According to the plan, which can be modified or discontinued at any time, participating employees defer 2% of their compensation in excess of a specified amount. For the nine months ended September 30, 2016 and 2015, the Company contributed \$129,000 and \$103,300, respectively, which is the sum of accrued earnings and three times the amount deferred by employees and is included in general and administrative expense. All amounts contributed by employees and the Company are fully vested. The cumulative unfunded liability under this plan was \$2.0 million and \$1.8 million, at September 30, 2016 and December 31, 2015, respectively, and is included in accounts payable, accrued expenses and other liabilities in the consolidated balance sheets.

The Company has entered into a shared services agreement (the "Agreement") with the Saul Organization that provides for the sharing of certain personnel and ancillary functions such as computer hardware, software, and support services and certain direct and indirect administrative personnel. The method for determining the cost of the shared services is provided for in the Agreement and is based upon head count, estimates of usage or estimates of time incurred, as applicable. The terms of the Agreement and the payments made thereunder are deemed reasonable by management and are reviewed annually by the Audit Committee of the Board of Directors, which consists entirely of independent directors. Billings by the Saul Organization for the Company's share of these ancillary costs and expenses for the nine months ended September 30, 2016 and 2015, which included rental expense for the Company's headquarters lease, totaled approximately \$5.5 million and \$5.9 million, respectively. The amounts are generally expensed as incurred and are primarily reported as general and administrative expenses in the consolidated financial statements. As of September 30, 2016 and December 31, 2015, accounts payable, accrued expenses and other liabilities included approximately \$682,400 and \$655,000, respectively, representing amounts due to the Saul Organization for the Company's share of these ancillary costs and expenses.

The Company has entered into a shared third-party predevelopment cost agreement with the B. F. Saul Real Estate Investment Trust (the "Trust"), a member of the Saul Organization (the "Predevelopment Agreement"). The Predevelopment Agreement, which expired on December 31, 2015, and was extended to December 31, 2016, relates to the sharing of third-party predevelopment costs incurred in connection with the planning of the future redevelopment of certain adjacent real estate assets in the Twinbrook area of Rockville, Maryland. The costs will be billed by the third-parties on a pro rata basis based on the acreage owned by each entity and neither party is obligated to advance funds to the other.

In August 2016, the Company entered into an agreement to acquire from the Trust, for an initial purchase price of \$8.8 million, land in Loudoun County, Virginia, which is zoned for retail development. The parties have agreed to a closing date in early 2018, at which time the Company will exchange limited partnership units for the land. The Company intends to construct a shopping center and, subsequent to stabilization, may be obligated to issue additional limited partnership units to the Trust.

The Company subleases its corporate headquarters space from a member of the Saul Organization. The lease commenced in March 2002, was extended in 2012 for five years, and provides for base rent increases of 3% per year, with payment of a pro-rata share of operating expenses over a base year amount. The Agreement requires each party to pay an allocation of total rental payments based on a percentage proportionate to the number of employees employed by each party. The Company's rent expense for its headquarters location was \$617,100 and \$684,800 for the nine months ended September 30, 2016 and 2015, respectively, and is included in general and administrative expense. The B. F. Saul Insurance Agency of Maryland, Inc., a subsidiary of the B. F. Saul Company and a member of the Saul Organization, is a general insurance agency that receives commissions and fees in connection with the Company's

insurance program. Such commissions and fees amounted to \$279,100 and \$295,000 for the nine months ended September 30, 2016 and 2015, respectively.

#### 8. Stock Option Plans

The Company has established two stock incentive plans, the 1993 plan and the 2004 plan, as amended, (together, the “Plans”). Under the Plans, options were granted at an exercise price not less than the market value of the common stock on the date of grant and expire ten years from the date of grant. Officer options vest ratably over four years following the grant and are charged to expense using the straight-line method over the vesting period. Director options vest immediately and are charged to expense as of the date of grant.

-18-

---

Table of Contents

## Notes to Consolidated Financial Statements (Unaudited)

The following table summarizes the amount and activity of each grant with outstanding unexercised options, the total value and variables used in the computation and the amount expensed and included in general and administrative expense in the Consolidated Statements of Operations for the nine months ended September 30, 2016.

## Stock options issued

## Notes to Consolidated Financial Statements (Unaudited)

The table below summarizes the option activity for the nine months ended September 30, 2016:

	Number of Shares	Weighted Average Exercise Price per share	Aggregate Intrinsic Value
Outstanding at January 1	860,274	\$ 46.58	\$ 4,237,456
Granted	226,500	57.74	2,006,790
Exercised	(219,956 )	45.99	2,803,319
Expired/Forfeited	(2,500 )	40.35	
Outstanding at September 30	864,318	49.68	14,627,287
Exercisable at September 30	402,193	46.38	8,130,910

The intrinsic value measures the price difference between the options' exercise price and the closing share price quoted by the New York Stock Exchange as of the date of measurement. The intrinsic value for shares exercised during the period was calculated by using the closing share price on the date of exercise. At September 30, 2016, the closing share price of \$66.60 was higher than the exercise price of all outstanding options. The weighted average remaining contractual life of the Company's outstanding and exercisable options is 7.7 years and 6.6 years, respectively.

#### 9. Fair Value of Financial Instruments

The carrying values of cash and cash equivalents, accounts receivable, accounts payable and accrued expenses are reasonable estimates of their fair value. The aggregate fair value of the notes payable with fixed-rate payment terms was determined using Level 3 data in a discounted cash flow approach, which is based upon management's estimate of borrowing rates and loan terms currently available to the Company for fixed-rate financing and, assuming long-term interest rates of approximately 3.60% and 3.75%, would be approximately \$886.8 million and \$892.9 million, respectively, compared to the principal balance of \$837.4 million and \$832.4 million at September 30, 2016 and December 31, 2015, respectively. A change in any of the significant inputs may lead to a change in the Company's fair value measurement of its debt.

The Company carries its interest rate swap at fair value. The Company has determined the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy with the exception of the impact of counter-party risk, which was determined using Level 3 inputs and is not significant. Derivative instruments are classified within Level 2 of the fair value hierarchy because their values are determined using third-party pricing models which contain inputs that are derived from observable market data. Where possible, the values produced by the pricing models are verified by market prices. Valuation models require a variety of inputs, including contractual terms, market prices, yield curves, credit spreads, measure of volatility, and correlations of such inputs. The swap agreement terminates on July 1, 2020. As of September 30, 2016, the fair value of the interest-rate swap was approximately \$3.2 million and is included in "Accounts payable, accrued expenses and other liabilities" in the consolidated balance sheets. The decrease in value from inception of the swap is reflected in "Other Comprehensive Income" in the Consolidated Statements of Comprehensive Income. Amounts recognized in earnings are included in Changes in Fair Value of Derivatives in the Consolidated Statements of Operations.

#### 10. Commitments and Contingencies

Neither the Company nor the current portfolio properties are subject to any material litigation, nor, to management's knowledge, is any material litigation currently threatened against the Company, other than routine litigation and administrative proceedings arising in the ordinary course of business. Management believes that these items, individually or in the aggregate, will not have a material adverse impact on the Company or the current portfolio properties.

Notes to Consolidated Financial Statements (Unaudited)

11. Business Segments

The Company has two reportable business segments: Shopping Centers and Mixed-Use Properties. The accounting policies of the segments are the same as those described in the summary of significant accounting policies (see Note 2). The Company evaluates performance based upon income and cash flows from real estate of the combined properties in each segment. All of our properties within each segment generate similar types of revenues and expenses related to tenant rent, reimbursements and operating expenses. Although services are provided to a range of tenants, the types of services provided to them are similar within each segment. The properties in each portfolio have similar economic characteristics and the nature of the products and services provided to our tenants and the method to distribute such services are consistent throughout the portfolio. Certain reclassifications have been made to prior year information to conform to the 2016 presentation.

12. Subsequent Events

The Company has reviewed operating activities for the period subsequent to September 30, 2016, and prior to the date the financial statements are issued or are available to be issued, and determined the following subsequent event is required to be disclosed.

Burtonsville Town Square

The Company recently entered into an agreement to purchase for \$75 million, plus approximately \$1.3 million of acquisition costs, Burtonsville Town Square located in Burtonsville, Montgomery County, Maryland and has an earnest money deposit of \$5 million at risk. Approximately \$40 million of the purchase price will be funded through a new mortgage loan and the remainder will be funded through the Company's revolving credit facility. The property is anchored by a Giant Food store and a CVS Pharmacy. The Company anticipates closing the acquisition and the loan on or before January 31, 2017.

## Table of Contents

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This section should be read in conjunction with the consolidated financial statements of the Company and the accompanying notes in "Item 1. Financial Statements" of this report and the more detailed information contained in the Company's Form 10-K for the year ended December 31, 2015. Historical results and percentage relationships set forth in Item 1 and this section should not be taken as indicative of future operations of the Company. Capitalized terms used but not otherwise defined in this section have the meanings given to them in Item 1 of this Form 10-Q.

#### Forward-Looking Statements

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements are generally characterized by terms such as "believe," "expect" and "may."

Although the Company believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, the Company's actual results could differ materially from those given in the forward-looking statements as a result of changes in factors which include, among others, the following:

- continuing risks related to the challenging domestic and global credit markets and their effect on discretionary spending;
- risks that the Company's tenants will not pay rent;
- risks related to the Company's reliance on shopping center "anchor" tenants and other significant tenants;
- risks related to the Company's substantial relationships with members of the Saul Organization;
- risks of financing, such as increases in interest rates, restrictions imposed by the Company's debt, the Company's ability to meet existing financial covenants and the Company's ability to consummate planned and additional financings on acceptable terms;
- risks related to the Company's development activities;
- risks that the Company's growth will be limited if the Company cannot obtain additional capital;
- risks that planned and additional acquisitions or redevelopments may not be consummated, or if they are consummated, that they will not perform as expected;
- risks generally incident to the ownership of real property, including adverse changes in economic conditions, changes in the investment climate for real estate, changes in real estate taxes and other operating expenses, adverse changes in governmental rules and fiscal policies, the relative illiquidity of real estate and environmental risks;
- risks related to the Company's status as a REIT for federal income tax purposes, such as the existence of complex regulations relating to the Company's status as a REIT, the effect of future changes in REIT requirements as a result of new legislation and the adverse consequences of the failure to qualify as a REIT; and
- such other risks as described in Part I, Item 1A of the Company's Form 10-K for the year ended December 31, 2015.

#### General

The following discussion is based primarily on the consolidated financial statements of the Company as of and for the three and nine months ended September 30, 2016.

#### Overview

The Company's principal business activity is the ownership, management and development of income-producing properties. The Company's long-term objectives are to increase cash flow from operations and to maximize capital appreciation of its real estate investments.

The Company's primary operating strategy is to focus on its community and neighborhood shopping center business and to operate its properties to achieve both cash flow growth and capital appreciation. Management believes there is potential for long-term growth in cash flow as existing leases for space in the Shopping Centers and Mixed-Use properties expire and are renewed, or newly-available or vacant space is leased. The Company intends to renegotiate leases where possible and seek new tenants for available space in order to optimize the mix of uses to improve foot traffic through the Shopping Centers. As leases expire, management expects to revise rental rates, lease terms and conditions, relocate existing tenants, reconfigure tenant spaces and introduce new tenants with the goals of increasing occupancy, improving overall retail sales, and ultimately increasing cash flow as economic conditions improve. In those circumstances in which leases are not otherwise expiring, or in

Table of Contents

connection with renovations or relocations, management selectively attempts to increase cash flow through a variety of means, including recapturing leases with below market rents and re-leasing at market rates, as well as replacing financially troubled tenants. When possible, management also will seek to include scheduled increases in base rent, as well as percentage rental provisions, in its leases.

The following table sets forth average annualized base rent per square foot and average annualized effective rent per square foot for the Company's Commercial properties (all properties except for the Clarendon Center and Park Van Ness apartments). For purposes of this table, annualized effective rent is annualized base rent minus amortized tenant improvements and amortized leasing commissions.

	Nine months ended September 30,				
	2016	2015	2014	2013	2012
Base rent	\$18.67	\$18.47	\$18.06	\$17.72	\$17.05
Effective rent	\$16.87	\$16.78	\$16.41	\$15.83	\$15.46

The Company's redevelopment and renovation objective is to selectively and opportunistically redevelop and renovate its properties, by replacing leases that have below market rents with strong, traffic-generating anchor stores such as supermarkets and drug stores, as well as other desirable local, regional and national tenants. The Company's strategy remains focused on continuing the operating performance and internal growth of its existing Shopping Centers, while enhancing this growth with selective retail redevelopments and renovations.

The Company recently completed development of Park Van Ness, a 271-unit residential project with approximately 9,000 square feet of street-level retail, below street-level structured parking, and amenities including a community room, landscaped courtyards, a fitness room, a wi-fi lounge/business center, and a rooftop pool and deck. The structure comprises 11 levels, five of which on the east side are below street level. Because of the change in grade from the street eastward to Rock Creek Park, apartments on all 11 levels have park or city views. The street level retail space is 100% leased to a grocery/gourmet food market and an upscale Italian restaurant. As of October 31, 2016, leases have been executed for 185 apartments (68.3%) and 165 apartments were occupied. The total cost of the project, excluding predevelopment expense and land, which the Company has owned, is expected to be approximately \$93.0 million, a portion of which is financed with a \$71.6 million construction-to-permanent loan. Costs incurred through September 30, 2016, total approximately \$90.1 million, of which \$68.3 million has been financed by the loan. In January 2016, the Company terminated a 16,500 square foot lease at 11503 Rockville Pike and received a \$3.0 million lease termination fee which was recognized as revenue in the first quarter. The space was previously occupied by an office supply store that had vacated in mid 2014 and the lease was scheduled to expire in 2019. The termination fee revenue will be partially offset by the loss of approximately \$1.0 million in rental revenue over the remainder of 2016. The Company has executed a lease with a replacement tenant, with occupancy and rent commencement projected to be spring 2017. While the Company continues to plan for a mixed-use development at this site and its neighboring Metro Pike Center, the initial phases of this development are expected to be on the west side of Rockville Pike at Metro Pike Center. The Company has not committed to any timetable for commencement of construction. Albertson's/Safeway, a tenant at nine of the Company's shopping centers, closed two Safeway stores located at the Company's properties during the June quarter. The stores that closed were located in Broadlands Village, Loudoun County, Virginia and Briggs Chaney Plaza, Montgomery County, Maryland. The leases at these locations remain in full force and effect. The Company is in discussions with Albertson's/Safeway and other retailers as it pursues options for the future.

In August 2016, the Company purchased for \$7.2 million, including acquisition costs, 700 N. Glebe Road. Together with the adjacent 726, 730 and 750 N. Glebe Road previously acquired by the Company, the properties comprise 2.8 acres of land. Effective August 1, 2016, the Company's properties at Glebe Road were vacant and removed from service. The Company previously received zoning and site plan approval from Arlington County, Virginia for the development of approximately 490 residential units and 62,000 square feet of retail space. Utilities are being disconnected, plans and specifications are in process, interest, real estate taxes and other costs related to development are being capitalized and the asset was reclassified to construction in progress in the Consolidated Balance Sheets. The timing of demolition of the existing structures and commencement of construction is uncertain and dependent on

the issuance of various governmental approvals and permits.

The Company's tenants were impacted by winter weather during the first quarters of 2016 and 2015, as heavy snowfall in the Mid-Atlantic states during those periods hindered the ability of customers to shop. The cost of removing snow from the

-26-

---

## Table of Contents

Company's properties during the three months ended March 31, 2016 and 2015, was approximately \$2.3 million and \$1.6 million, respectively, approximately 60% of which will be or has been billed to tenants.

During the most recent downturn in the national real estate market, which began in 2008, the effects on the office and retail markets in the metropolitan Washington, D.C. area initially were less severe than in many other areas of the country. Even though economic conditions in the local economies, where the majority of the Company's properties are located, have improved over recent years, issues facing the Federal government relating to spending cuts and budget policies have resulted in continued elevated vacancy rates in many sub-markets, thus pressuring rental rate growth. While overall consumer confidence appears to have improved, retailers continue to be cautious about new store openings. The Company's overall leasing percentage, on a comparative same property basis, which excludes the impact of properties not in operation for the entirety of the comparable periods, was 94.7% at September 30, 2016, compared to 94.8% at September 30, 2015.

The Company maintains a ratio of total debt to total asset value of under 50%, which allows the Company to obtain additional secured borrowings if necessary. As of September 30, 2016, amortizing fixed-rate debt with staggered maturities from 2018 to 2034 represented approximately 95.7% of the Company's notes payable, thus minimizing refinancing risk in any given year. As of September 30, 2016, the Company's variable-rate debt consisted of a \$14.6 million bank term loan secured by Metro Pike Center and \$23.0 million outstanding under the revolving credit facility. As of September 30, 2016, the Company has availability of approximately \$251.6 million under its \$275.0 million unsecured revolving line of credit.

Although it is management's present intention to concentrate future acquisition and development activities on community and neighborhood shopping centers and Mixed-Use Properties in the Washington, DC/Baltimore metropolitan area and the southeastern region of the United States, the Company may, in the future, also acquire other types of real estate in other areas of the country as opportunities present themselves. While the Company may diversify in terms of property locations, size and market, the Company does not set any limit on the amount or percentage of Company assets that may be invested in any one property or any one geographic area.

### Critical Accounting Policies

The Company's financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"), which requires management to make certain estimates and assumptions that affect the reporting of financial position and results of operations. If judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied resulting in a different presentation of the financial statements. The Company has identified the following policies that, due to estimates and assumptions inherent in these policies, involve a relatively high degree of judgment and complexity.

### Real Estate Investments

Real estate investment properties are stated at historic cost less depreciation. Although the Company intends to own its real estate investment properties over a long term, from time to time it will evaluate its market position, market conditions, and other factors and may elect to sell properties that do not conform to the Company's investment profile. Management believes that the Company's real estate assets have generally appreciated in value since their acquisition or development and, accordingly, the aggregate current value exceeds their aggregate net book value and also exceeds the value of the Company's liabilities as reported in the financial statements. Because the financial statements are prepared in conformity with GAAP, they do not report the current value of the Company's real estate investment properties.

The Company purchases real estate investment properties from time to time and records assets acquired and liabilities assumed, including land, buildings, and intangibles related to in-place leases and customer relationships, based on their fair values. The fair value of buildings generally is determined as if the buildings were vacant upon acquisition and subsequently leased at market rental rates and considers the present value of all cash flows expected to be generated by the property including an initial lease up period. The Company determines the fair value of above and below market intangibles associated with in-place leases by assessing the net effective rent and remaining term of the in-place lease relative to market terms for similar leases at acquisition taking into consideration the remaining contractual lease period, renewal periods, and the likelihood of the tenant exercising its renewal options. The fair

value of below market lease intangibles is recorded as deferred income and accreted as additional lease revenue over the remaining contractual lease period and any renewal option periods included in the valuation analysis. The fair value of above market lease intangibles is recorded as a deferred asset and amortized as a reduction of revenue over the remaining contractual lease term. The Company determines the fair value of at-market in-place leases considering the cost of acquiring similar leases, the foregone rents associated with the lease-up period and carrying costs associated with the lease-up period. Intangible assets associated with at-market in-place leases are amortized as additional expense over the remaining contractual lease term. To the extent customer relationship intangibles are present in an acquisition, the fair value of the intangibles are amortized over the life of the customer relationship.

## Table of Contents

If there is an event or change in circumstance that indicates a potential impairment in the value of a real estate investment property, the Company prepares an analysis to determine whether the carrying value of the real estate investment property exceeds its estimated fair value. The Company considers both quantitative and qualitative factors including recurring operating losses, significant decreases in occupancy, and significant adverse changes in legal factors and business climate. If impairment indicators are present, the Company compares the projected cash flows of the property over its remaining useful life, on an undiscounted basis, to the carrying value of that property. The Company assesses its undiscounted projected cash flows based upon estimated capitalization rates, historic operating results and market conditions that may affect the property. If the carrying value is greater than the undiscounted projected cash flows, the Company would recognize an impairment loss equivalent to an amount required to adjust the carrying amount to its then estimated fair value. The fair value of any property is sensitive to the actual results of any of the aforementioned estimated factors, either individually or taken as a whole. Should the actual results differ from management's projections, the valuation could be negatively or positively affected.

When incurred, the Company capitalizes the cost of improvements that extend the useful life of property and equipment. All repair and maintenance expenditures are expensed when incurred. Leasehold improvements expenditures are capitalized when certain criteria are met, including when we supervise construction and will own the improvement. Tenant improvements that we own are depreciated over the life of the respective lease or the estimated useful life of the improvements, whichever is shorter.

Interest, real estate taxes, development-related salary costs and other carrying costs are capitalized on projects under construction. Upon substantial completion of construction and the placement of assets into service, rental income, direct operating expenses, and depreciation associated with such properties are included in current operations and capitalization of interest ceases. Commercial development projects are substantially complete and available for occupancy upon completion of tenant improvements, but no later than one year from the cessation of major construction activity. Residential development projects are considered substantially complete and available for occupancy upon receipt of the certificate of occupancy from the appropriate licensing authority. Substantially completed portions of a project are accounted for as separate projects. Depreciation is calculated using the straight-line method and estimated useful lives generally between 35 and 50 years for base buildings, or a shorter period if management determines that the building has a shorter useful life, and up to 20 years for certain other improvements.

### Deferred Leasing Costs

Certain initial direct costs incurred by the Company in negotiating and consummating successful Commercial leases are capitalized and amortized over the initial base term of the leases. Deferred leasing costs consist of commissions paid to third-party leasing agents as well as internal direct costs such as employee compensation and payroll-related fringe benefits directly related to time spent performing successful leasing-related activities. Such activities include evaluating prospective tenants' financial condition, evaluating and recording guarantees, collateral and other security arrangements, negotiating lease terms, preparing lease documents and closing transactions. In addition, deferred leasing costs include amounts attributed to in-place leases associated with acquired properties.

### Revenue Recognition

Rental and interest income is accrued as earned except when doubt exists as to collectability, in which case the accrual is discontinued. Recognition of rental income commences when control of the space has been given to the tenant.

When rental payments due under leases vary from a straight-line basis because of free rent periods or scheduled rent increases, income is recognized on a straight-line basis. Expense recoveries represent a portion of property operating expenses billed to tenants, including common area maintenance, real estate taxes and other recoverable costs. Expense recoveries are recognized in the period in which the expenses are incurred. Rental income based on a tenant's revenue, known as percentage rent, is recognized when a tenant reports sales that exceed a breakpoint specified in the lease agreement.

### Allowance for Doubtful Accounts - Current and Deferred Receivables

Accounts receivable primarily represent amounts accrued and unpaid from tenants in accordance with the terms of the respective leases, subject to the Company's revenue recognition policy. Receivables are reviewed monthly and reserves are established with a charge to current period operations when, in the opinion of management, collection of the

receivable is doubtful. In addition to rents due currently, accounts receivable include amounts representing minimum rental income accrued on a straight-line basis to be paid by tenants over the remaining term of their respective leases. Reserves are established with a charge to income for tenants whose rent payment history or financial condition casts doubt upon the tenant's ability to perform under its lease obligations.

Table of Contents

## Legal Contingencies

The Company is subject to various legal proceedings and claims that arise in the ordinary course of business, which are generally covered by insurance. While the resolution of these matters cannot be predicted with certainty, the Company believes the final outcome of current matters will not have a material adverse effect on its financial position or the results of operations. Once it has been determined that a loss is probable to occur, the estimated amount of the loss is recorded in the financial statements. Both the amount of the loss and the point at which its occurrence is considered probable can be difficult to determine.

## Results of Operations

Same property revenue and same property operating income are non-GAAP financial measures of performance and improve the comparability of these measures by excluding the results of properties which were not in operation for the entirety of the comparable reporting periods.

We define same property revenue as total revenue minus the sum of interest income and revenue of properties not in operation for the entirety of the comparable reporting periods, and we define same property operating income as net income plus the sum of interest expense and amortization of deferred debt costs, depreciation and amortization, general and administrative expense, loss on the early extinguishment of debt (if any), predevelopment expense and acquisition related costs, minus the sum of interest income, the change in the fair value of derivatives, gains on property dispositions (if any) and the results of properties which were not in operation for the entirety of the comparable periods.

Other REITs may use different methodologies for calculating same property revenue and same property operating income. Accordingly, our same property revenue and same property operating income may not be comparable to those of other REITs.

Same property revenue and same property operating income are used by management to evaluate and compare the operating performance of our properties, and to determine trends in earnings, because these measures are not affected by the cost of our funding, the impact of depreciation and amortization expenses, gains or losses from the acquisition and sale of operating real estate assets, general and administrative expenses or other gains and losses that relate to ownership of our properties. We believe the exclusion of these items from revenue and operating income is useful because the resulting measures capture the actual revenue generated and actual expenses incurred by operating our properties.

Same property revenue and same property operating income are measures of the operating performance of our properties but do not measure our performance as a whole. Such measures are therefore not substitutes for total revenue, net income or operating income as computed in accordance with GAAP.

The tables below provide reconciliations of total revenue and operating income under GAAP to same property revenue and operating income for the indicated periods. The same property results include 49 Shopping Centers and six Mixed-Use properties, one of which is held for sale, for each period.

## Same property revenue

(in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
Total revenue	\$53,233	\$52,376	\$162,869	\$156,175
Less: Interest income	(12 )	(11 )	(36 )	(37 )
Less: Acquisitions, dispositions and development properties	(853 )	(214 )	(1,478 )	(779 )
Total same property revenue	\$52,368	\$52,151	\$161,355	\$155,359
Shopping centers	\$38,737	\$38,689	\$120,427	\$115,787
Mixed-Use properties	13,631	13,462	40,928	39,572
Total same property revenue	\$52,368	\$52,151	\$161,355	\$155,359

The \$0.2 million increase in same property revenue for the 2016 quarter compared to the 2015 quarter was primarily due to (a) a \$0.05 per square foot increase in base rent (\$0.1 million) and (b) an increase in expense recoveries (\$0.4 million) partially offset by (c) lower other income (\$0.2 million) and (d) lower percentage rent (\$0.1 million).

Table of Contents

The \$6.0 million increase in same property revenue for the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015 is due primarily to (a) the net impact of a lease termination at 11503 Rockville Pike (\$2.2 million), (b) a \$0.35 per square foot increase in base rent (\$2.3 million), and (c) an increase in expense recoveries (\$1.3 million).

## Same property operating income

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,

Less: Gains on property dispositions	—	—	—	(11	)
Less: Interest income	(12	) (11	) (36	) (37	)
Property operating income	39,950	39,503	122,620	117,027	
Less: Acquisitions, dispositions & development property	210	186	332	695	
Total same property operating income	\$39,740	\$39,317	\$122,288	\$116,332	
Shopping centers	\$30,425	\$30,422	\$94,009	\$90,087	
Mixed-Use properties	9,315	8,895	28,279	26,245	
Total same property operating income	\$39,740	\$39,317	\$122,288	\$116,332	

Same property operating income increased \$0.4 million for the 2016 quarter compared to the 2015 quarter due primarily to (a) a \$0.05 per square foot increase in base rent (\$0.1 million), (b) a decrease in property operating expenses (\$0.2 million), and (c) an increase in expense recoveries (\$0.4 million) partially offset by (d) lower other income (\$0.2 million), and (e) an increase in real estate taxes (\$0.2 million).

Same property operating income increased \$6.0 million for the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015 due primarily to (a) the net impact of a lease termination at 11503 Rockville Pike (\$2.2 million), (b) a \$0.35 per square foot increase in base rent (\$2.3 million), and (c) an increase in expense recoveries (\$1.3 million).

## Three months ended September 30, 2016 compared to the three months ended September 30, 2015

## Revenue

(Dollars in thousands)	Three months ended September 30,		2015 to 2016 Change		
	2016	2015	Amount	Percent	
Base rent	\$43,151	\$42,431	\$ 720	1.7	%
Expense recoveries	8,561	8,181	380	4.6	%
Percentage rent	57	157	(100	) (63.7	)%
Other	1,464	1,607	(143	) (8.9	)%
Total revenue	\$53,233	\$52,376	\$ 857	1.6	%

Base rent includes \$221,500 and \$582,800 for the three months ended September 30, 2016 and 2015, respectively, to recognize base rent on a straight-line basis. In addition, base rent includes \$428,600 and \$446,000, for the three

months ended September 30, 2016 and 2015, respectively, to recognize income from the amortization of in-place leases acquired in connection with purchased real estate investment properties.

-30-

---

Table of Contents

Total revenue increased 1.6% in the three months ended September 30, 2016 (“2016 Quarter”) compared to the three months ended September 30, 2015 (“2015 Quarter”) primarily due to base rent generated by Park Van Ness (\$0.8 million).

## Operating Expenses

(Dollars in thousands)	Three months ended September 30, 2015 to 2016 Change				
	2016	2015	Amount	Percent	
Property operating expenses	\$6,685	\$6,308	\$ 377	6.0	%
Provision for credit losses	391	621	(230 )	(37.0 )	%
Real estate taxes	6,195	5,933	262	4.4	%
Interest expense and amortization of deferred debt costs	11,524	11,229	295	2.6	%
Depreciation and amortization of deferred leasing costs	11,626	11,131	495	4.4	%
General and administrative	4,033	3,802	231	6.1	%
Acquisition related costs	57	57	—	—	%
Predevelopment expenses	—	57	(57 )	(100.0 )	%
Total operating expenses	\$40,511	\$39,138	\$ 1,373	3.5	%

Total operating expenses increased 3.5% in the 2016 Quarter compared to the 2015 Quarter.

Property Operating Expenses. Property operating expenses increased 6.0% in the 2016 Quarter primarily due to (a) the operation of Park Van Ness (\$0.6 million) partially offset by (b) lower operating expenses throughout the portfolio (\$0.2 million).

Provision for credit losses. The provision for credit losses for the 2016 Quarter represents 0.73% of the Company’s revenue, a decrease from 1.19% for the 2015 Quarter.

Real Estate taxes. Real estate taxes increased 4.4% in the 2016 Quarter primarily due to increased assessed values of several properties.

Interest expense and amortization of deferred debt costs. Interest expense increased 2.6% in the 2016 Quarter primarily due to the cessation of capitalization of interest related to Park Van Ness.

Depreciation and amortization of deferred leasing costs. Depreciation and amortization of deferred leasing costs increased 4.4% in the 2016 Quarter primarily due to (a) Park Van Ness (\$0.7 million) partially offset by (b) lower expense at Germantown (\$0.4 million).

General and administrative expense. General and administrative expense increased 6.1% in the 2016 Quarter primarily due to increased salary and benefit expense (\$0.2 million).

Nine months ended September 30, 2016 compared to the nine months ended September 30, 2015

## Revenue

(Dollars in thousands)	Nine Months Ended September 30, 2015 to 2016 Change				
	2016	2015	Amount	Percent	
Base rent	\$128,338	\$125,786	\$ 2,552	2.0	%
Expense recoveries	26,011	24,710	1,301	5.3	%
Percentage rent	1,016	1,153	(137 )	(11.9 )	%
Other	7,504	4,526	2,978	65.8	%
Total revenue	\$162,869	\$156,175	\$ 6,694	4.3	%

Base rent includes \$1.1 million and \$1.6 million for the nine months ended September 30, 2016 and 2015, respectively, to recognize base rent on a straight-line basis. In addition, base rent includes \$1.3 million and \$1.3 million for the nine months ended September 30, 2016 and 2015, respectively, to recognize income from the amortization of in-place leases acquired in connection with purchased real estate investment properties.

Table of Contents

Total revenue increased 4.3% in the nine months ended September 30, 2016 (“2016 Period”) compared to the nine months ended September 30, 2015 (“2015 Period”).

Base Rent. The \$2.6 million increase in base rent in the 2016 Period compared to 2015 Period is primarily attributable to (a) a \$0.21 per square foot increase in commercial base rent (\$1.3 million), (b) revenue generated by Park Van Ness (\$0.9 million) and (c) a 9,913 square foot increase in commercial leased space (\$0.1 million).

Expense Recoveries. Expense recoveries increased 5.3% in the 2016 Period primarily due to increased snow removal costs and real estate taxes.

Other revenue. Other revenue increased \$3.0 million in the 2016 Period compared to the 2015 Period due to the impact of a lease termination fee at 11503 Rockville Pike (\$3.0 million).

## Operating Expenses

(Dollars in thousands)	Nine Months Ended		2015 to 2016 Change		
	September 30, 2016	September 30, 2015	Amount	Percent	
Property operating expenses	\$20,740	\$20,120	\$620	3.1	%
Provision for credit losses	1,207	1,281	(74)	(5.8)	%
Real estate taxes	18,266	17,710	556	3.1	%
Interest expense and amortization of deferred debt costs	34,268	33,988	280	0.8	%
Depreciation and amortization of deferred leasing costs	33,478	32,382	1,096	3.4	%
General and administrative	12,500	11,712	788	6.7	%
Acquisition related costs	57	78	(21)	(26.9)	%
Predevelopment expenses	—	57	(57)	(100.0)	%
Total operating expenses	\$120,516	\$117,328	\$3,188	2.7	%

Total operating expenses increased 2.7% in the 2016 Period compared to the 2015 Period.

Property Operating Expenses. Property operating expenses increased 3.1% in the 2016 Period primarily due to (a) the operation of Park Van Ness (\$1.0 million) partially offset by (b) lower operating expenses throughout the portfolio (\$0.3 million).

Provision for credit losses. The provision for credit losses for the 2016 Period represents 0.74% of the Company’s revenue, a decrease from 0.82% for the 2015 Period.

Real Estate Taxes. Real estate taxes increased 3.1% in the 2016 Period primarily due to increased assessed values of several properties.

Depreciation and amortization of deferred leasing costs. The increase in depreciation and amortization to \$33.5 million in the 2016 Period from \$32.4 million in the 2015 Period was due primarily to Park Van Ness, which was placed in service during the 2016 Period.

General and administrative expense. The 6.7% increase in general and administrative expense was primarily due to (a) increased salary and benefit expense (\$0.5 million) and (b) increased stock option expense (\$0.1 million).

Table of Contents

## Liquidity and Capital Resources

Cash and cash equivalents totaled \$9.8 million and \$8.9 million at September 30, 2016 and 2015, respectively. The Company's cash flow is affected by its operating, investing and financing activities, as described below.

	Nine Months Ended September 30,	
	2016	2015
(Dollars in thousands)		
Net cash provided by operating activities	\$70,351	\$64,726
Net cash used in investing activities	(44,685 )	(49,881 )
Net cash used in financing activities	(25,833 )	(18,051 )
Decrease in cash and cash equivalents	\$(167 )	\$(3,206 )

## Operating Activities

Net cash provided by operating activities represents cash received primarily from rental income, plus other income, less property operating expenses, leasing costs, normal recurring general and administrative expenses and interest payments on debt outstanding.

## Investing Activities

Net cash used in investing activities includes property acquisitions, developments, redevelopments, tenant improvements and other property capital expenditures. The \$5.2 million decrease in cash used in investing activities is primarily due to lower development expenditures (\$8.7 million) partially offset by higher acquisition expenditures (\$5.4 million).

## Financing Activities

Net cash used in financing activities for the nine months ended September 30, 2016 primarily reflects:

- repayment of notes payable totaling \$18.4 million;
  - revolving credit facility principal payments of \$37.0 million;
  - distributions to common stockholders totaling \$29.3 million;
  - distributions to holders of convertible limited partnership units in the Operating Partnership totaling \$10.1 million;
  - and
  - distributions to preferred stockholders totaling \$9.3 million;
- which was partially offset by:
- advances from the revolving credit facility totaling \$32.0 million;
  - proceeds of \$5.1 million from the issuance of limited partnership units in the Operating Partnership pursuant to our Dividend Reinvestment and Stock Purchase Plan ("DRIP");
  - proceeds of \$17.9 million from the issuance of common stock pursuant to our DRIP, directors' Deferred Compensation Plan and the exercise of stock options; and
  - advances of \$23.1 million from the Park Van Ness construction loan.

Net cash used in financing activities for the nine months ended September 30, 2015 primarily reflects:

- revolving credit facility principal payments of \$28.0 million;
  - repayment of notes payable totaling \$47.0 million;
  - distributions to common stockholders totaling \$26.5 million;
  - distributions to holders of convertible limited partnership units in the Operating Partnership totaling \$9.1 million; and
  - distributions to preferred stockholders totaling \$9.3 million;
- which was partially offset by:
- proceeds of \$46.0 million received from notes payable;
  - advances from the revolving credit facility totaling \$15.0 million;
  - proceeds of \$4.1 million from the issuance of limited partnership units in the Operating Partnership pursuant to our DRIP;
  - proceeds of \$11.1 million from the issuance of common stock pursuant to our DRIP, directors' Deferred Compensation Plan and the exercise of stock options; and

advances of \$26.0 million from the Park Van Ness construction loan.

-33-

---

Table of Contents

## Liquidity Requirements

Short-term liquidity requirements consist primarily of normal recurring operating expenses and capital expenditures, debt service requirements (including debt service relating to additional and replacement debt), distributions to common and preferred stockholders, distributions to unit holders and amounts required for expansion and renovation of the Current Portfolio Properties and selective acquisition and development of additional properties. In order to qualify as a REIT for federal income tax purposes, the Company must distribute to its stockholders at least 90% of its "real estate investment trust taxable income," as defined in the Code. The Company expects to meet these short-term liquidity requirements (other than amounts required for additional property acquisitions and developments) through cash provided from operations, available cash and its existing line of credit.

Long-term liquidity requirements consist primarily of obligations under our long-term debt and dividends paid to our preferred shareholders. The Company anticipates that long-term liquidity requirements will also include amounts required for property acquisitions and developments. The Company is developing Park Van Ness, a primarily residential project with street-level retail. As of September 30, 2016, the estimated cost to complete the project is approximately \$2.9 million, which will be funded by the remaining availability under the construction-to-permanent loan. The Company may also redevelop certain of the Current Portfolio Properties and may develop additional freestanding outparcels or expansions within certain of the Shopping Centers.

Acquisition and development of properties are undertaken only after careful analysis and review, and management's determination that such properties are expected to provide long-term earnings and cash flow growth. During the coming year, developments, expansions or acquisitions (if any) are expected to be funded with available cash, bank borrowings from the Company's credit line, construction and permanent financing, proceeds from the operation of the Company's dividend reinvestment plan or other external debt or equity capital resources available to the Company.

Any future borrowings may be at the Saul Centers, Operating Partnership or Subsidiary Partnership level, and securities offerings may include (subject to certain limitations) the issuance of additional limited partnership interests in the Operating Partnership which can be converted into shares of Saul Centers common stock. The availability and terms of any such financing will depend upon market and other conditions.

As of September 30, 2016, the scheduled maturities of debt, including scheduled principal amortization, for years ending December 31, were as follows:

(In thousands)	Balloon Payments	Scheduled Principal Amortization	Total
October 1 through December 31, 2016	\$—	\$ 6,284	\$6,284
2017	14,442	25,766	40,208
2018	50,748	(a) 25,901	76,649
2019	60,793	24,614	85,407
2020	61,163	21,892	83,055
2021	11,012	21,404	32,416
Thereafter	444,679	106,312	550,991
Principal amount	\$642,837	\$ 232,173	875,010
Unamortized deferred debt expense			7,703
Net			\$867,307

(a) Includes \$23.0 million outstanding under the line of credit.

Management believes that the Company's capital resources, which at September 30, 2016 included cash balances of approximately \$9.8 million and borrowing availability of approximately \$251.6 million on its unsecured revolving credit facility, will be sufficient to meet its liquidity needs for the foreseeable future.

## Dividend Reinvestments

In December 1995, the Company established a DRIP to allow its common stockholders and holders of limited partnership interests an opportunity to buy additional shares of common stock by reinvesting all or a portion of their dividends or distributions. The DRIP provides for investing in newly issued shares of common stock at a 3% discount

from market price without payment of any brokerage commissions, service charges or other expenses. All expenses of the DRIP are paid by the Company. The Company issued 136,623 and 148,215 shares under the DRIP at a weighted average discounted price of \$54.58

-34-

---

Table of Contents

and \$52.06 per share, during the nine months ended September 30, 2016 and 2015, respectively. The Company issued 93,867 and 78,101 limited partnership units under the DRIP at a weighted average price of \$54.80 and \$51.99 per unit during the nine months ended September 30, 2016 and 2015, respectively. The Company also credited 5,998 and 5,682 shares to directors pursuant to the reinvestment of dividends specified by the Directors' Deferred Compensation Plan at a weighted average discounted price of \$54.82 and \$52.13 per share, during the nine months ended September 30, 2016 and 2015, respectively.

#### Capital Strategy and Financing Activity

As a general policy, the Company intends to maintain a ratio of its total debt to total asset value of 50% or less and to actively manage the Company's leverage and debt expense on an ongoing basis in order to maintain prudent coverage of fixed charges. Asset value is the aggregate fair market value of the Current Portfolio Properties and any subsequently acquired properties as reasonably determined by management by reference to the properties' aggregate cash flow. Given the Company's current debt level, it is management's belief that the ratio of the Company's debt to total asset value was below 50% as of September 30, 2016.

The organizational documents of the Company do not limit the absolute amount or percentage of indebtedness that it may incur. The Board of Directors may, from time to time, reevaluate the Company's debt/capitalization strategy in light of current economic conditions, relative costs of capital, market values of the Company's property portfolio, opportunities for acquisition, development or expansion, and such other factors as the Board of Directors then deems relevant. The Board of Directors may modify the Company's debt/capitalization policy based on such a reevaluation without shareholder approval and consequently, may increase or decrease the Company's debt to total asset ratio above or below 50% or may waive the policy for certain periods of time. The Company selectively continues to refinance or renegotiate the terms of its outstanding debt in order to achieve longer maturities, and obtain generally more favorable loan terms, whenever management determines the financing environment is favorable.

The Company maintains an unsecured revolving credit facility which was amended and restated in June 2014. The facility provides working capital and funds for acquisitions, certain developments, redevelopments and letters of credit, expires on June 23, 2018, and provides for an additional one-year extension at the Company's option, subject to the Company's satisfaction of certain conditions. As of September 30, 2016, \$23.0 million was outstanding, approximately \$251.6 million was available under the line and approximately \$448,000 was committed for letters of credit. The interest rate under the facility is variable and equals the sum of one-month LIBOR and a margin that is based on the Company's leverage ratio, and which can range from 145 basis points to 200 basis points. Based on the leverage ratio as of September 30, 2016, the margin was 145 basis points.

The facility requires the Company and its subsidiaries to maintain compliance with certain financial covenants. The material covenants require the Company, on a consolidated basis, to:

- maintain tangible net worth, as defined in the loan agreement, of at least \$542.1 million plus 80% of the Company's net equity proceeds received after March 2014;
- limit the amount of debt as a percentage of gross asset value, as defined in the loan agreement, to less than 60% (leverage ratio);
- limit the amount of debt so that interest coverage will exceed 2.0x on a trailing four-quarter basis (interest expense coverage); and
- limit the amount of debt so that interest, scheduled principal amortization and preferred dividend coverage exceeds 1.3x on a trailing four-quarter basis (fixed charge coverage).

As of September 30, 2016, the Company was in compliance with all such covenants.

At September 30, 2016, the Company had a \$71.6 million construction-to-permanent loan, with \$68.3 million outstanding, which is secured by and used to partially finance the construction of Park Van Ness.

Saul Centers is a guarantor of the revolving credit facility, of which the Operating Partnership is the borrower. The Operating Partnership is the guarantor of (a) a portion of the Metro Pike Center bank loan (approximately \$7.8 million of the \$14.6 million outstanding at September 30, 2016) and (b) the \$71.6 million Park Van Ness construction-to-permanent loan, which guarantee will be reduced and eventually eliminated subject to the achievement of certain leasing and cash flow levels. The fixed-rate notes payable are non-recourse.

Table of Contents

## Preferred Stock

The Company has outstanding 7.2 million depositary shares, each representing 1/100th of a share of 6.875% Series C Cumulative Redeemable Preferred Stock. The depositary shares may be redeemed at the Company's option, in whole or in part, at the \$25.00 liquidation preference plus accrued but unpaid dividends on or after February 12, 2018. The depositary shares pay an annual dividend of \$1.71875 per share, equivalent to 6.875% of the \$25.00 liquidation preference. The Series C preferred stock has no stated maturity, is not subject to any sinking fund or mandatory redemption and is not convertible into any other securities of the Company except in connection with certain changes of control or delisting events. Investors in the depositary shares generally have no voting rights, but will have limited voting rights if the Company fails to pay dividends for six or more quarters (whether or not declared or consecutive) and in certain other events.

## Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that are reasonably likely to have a current or future material effect on the Company's financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources.

## Funds From Operations

Funds From Operations (FFO)<sup>1</sup> available to common stockholders and noncontrolling interests for the nine months ended September 30, 2016, totaled \$66.5 million, an increase of 7.4% compared to the nine months ended September 30, 2015.

The following table presents a reconciliation from net income to FFO available to common stockholders and noncontrolling interests for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(In thousands, except per share amounts)	2016	2015	2016	2015
Net income	\$12,723	\$13,232	\$42,344	\$38,846
Subtract:				
Gain on sale of property	—	—	—	(11 )
Add:				
Real estate depreciation and amortization	11,626	11,131	33,478	32,382
FFO	24,349	24,363	75,822	71,217
Subtract:				
Preferred stock dividends	(3,093 )	(3,093 )	(9,281 )	(9,281 )
FFO available to common stockholders and noncontrolling interests	\$21,256	\$21,270	\$66,541	\$61,936
Weighted average shares:				
Diluted weighted average common stock	21,779	21,191	21,544	21,157
Convertible limited partnership units	7,391	7,266	7,360	7,239
Average shares and units used to compute FFO per share	29,170	28,457	28,904	28,396
FFO per share available to common stockholders and noncontrolling interests	\$0.73	\$0.75	\$2.30	\$2.18

<sup>1</sup> The National Association of Real Estate Investment Trusts (NAREIT) developed FFO as a relative non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO is defined by NAREIT as net income, computed in accordance with GAAP, plus real estate depreciation and amortization, and excluding extraordinary items, impairment charges on depreciable real estate assets and gains or losses from property dispositions. FFO does not represent cash generated from operating activities in accordance with GAAP and is not necessarily indicative of cash available to fund cash needs, which is disclosed in the Company's Consolidated Statements of Cash Flows for the applicable periods. There are no material legal or functional restrictions on the use of FFO. FFO should not be considered as an alternative to net income, its most directly comparable GAAP measure, as an indicator of the Company's operating performance, or as an alternative to cash flows as a measure of liquidity. Management considers FFO a meaningful supplemental measure of operating performance because it primarily excludes the

assumption that the value of the real estate assets diminishes predictably over time (i.e. depreciation), which is contrary to what the Company believes occurs with its assets, and because industry analysts have accepted it as a performance measure. FFO may not be comparable to similarly titled measures employed by other REITs.

Table of Contents

Acquisitions and Redevelopments

During the remainder of the year, the Company will complete final construction activities related to the development of Park Van Ness, continue its redevelopment activities at Glebe Road, may redevelop certain of the Current Portfolio Properties and may develop additional freestanding outparcels or expansions within certain of the Shopping Centers. Acquisition and development of properties are undertaken only after careful analysis and review, and management's determination that such properties are expected to provide long-term earnings and cash flow growth. During the balance of the year, any developments, expansions or acquisitions are expected to be funded with bank borrowings from the Company's credit line, construction financing, proceeds from the operation of the Company's dividend reinvestment plan or other external capital resources available to the Company.

The Company has been selectively involved in acquisition, development, redevelopment and renovation activities. It continues to evaluate the acquisition of land parcels for retail and mixed-use development and acquisitions of operating properties for opportunities to enhance operating income and cash flow growth. The Company also continues to analyze redevelopment, renovation and expansion opportunities within the portfolio. The following describes the acquisition, development, redevelopment and renovation activities of the Company in 2015 and the nine months ended September 30, 2016.

Park Van Ness

The Company recently completed development of Park Van Ness, a 271-unit residential project with approximately 9,000 square feet of street-level retail, below street-level structured parking, and amenities including a community room, landscaped courtyards, a fitness room, a wi-fi lounge/business center, and a rooftop pool and deck. The structure comprises 11 levels, five of which on the east side are below street level. Because of the change in grade from the street eastward to Rock Creek Park, apartments on all 11 levels have park or city views. The street level retail space is 100% leased to a grocery/gourmet food market and an upscale Italian restaurant. As of October 31, 2016, leases have been executed for 185 apartments (68.3%) and 165 apartments were occupied. The total cost of the project, excluding predevelopment expense and land (which the Company has owned), is expected to be approximately \$93.0 million, a portion of which is financed with a \$71.6 million construction-to-permanent loan. Costs incurred through September 30, 2016, total approximately \$90.1 million, of which \$68.3 million has been financed by the loan.

700 N. Glebe Road

In August 2016, the Company purchased for \$7.2 million, including acquisition costs, 700 N. Glebe Road. Together with the adjacent 726, 730 and 750 N. Glebe Road previously acquired by the Company, the properties comprise 2.8 acres of land. Effective August 1, 2016, the Company's properties at Glebe Road were vacant and removed from service. The Company previously received zoning and site plan approval from Arlington County, Virginia for the development of approximately 490 residential units and 62,000 square feet of retail space. Utilities are being disconnected, plans and specifications are in process, interest, real estate taxes and other costs related to development are being capitalized and the asset was reclassified to construction in progress in the Consolidated Balance Sheets. The timing of demolition of the existing structures and commencement of construction is uncertain and dependent on the issuance of various governmental approvals and permits.

Germantown Center

In 2014, the Company entered into a contingent ground lease with CVS and, as of June 30, 2015, all of the lease contingencies had been satisfied and lease payments commenced in November 2015. CVS has demolished two of the four existing buildings that previously comprised the center and has constructed a 13,500 square foot pharmacy building. CVS expects to commence operations in November 2016. The Company incurred approximately \$57,000 of predevelopment costs in the third quarter of 2015 and does not expect to incur further predevelopment costs related to the project.

Westview Pad

In February 2015, the Company purchased for \$0.9 million, including acquisition costs, a 1.1 acre retail pad site in Frederick, Maryland, which is contiguous with and an expansion of the Company's other Westview asset.

Thruway Pad

Edgar Filing: SAUL CENTERS INC - Form 10-Q

In August 2016, the Company purchased for \$3.1 million, a retail pad site with an occupied 4,200 square foot bank building in Winston Salem, North Carolina, and incurred acquisition costs of \$57,000. The property is contiguous with and an expansion of the Company's Thruway Shopping Center.

Ashbrook Marketplace

In August 2016, the Company entered into an agreement to acquire from B. F. Saul Real Estate Investment Trust (the "Trust"), for an initial purchase price of \$8.8 million, approximately 14.3 acres of land located at the intersection of Ashburn Village Boulevard and Russell Branch Parkway in Loudoun County, Virginia. The land is zoned for up to 115,000 square feet

-37-

---

Table of Contents

of retail development. In order to allow the Company time to pre-lease and complete project plans and specifications, the parties have agreed to a closing date in early 2018, at which time the Company will exchange limited partnership units for the land. The number of limited partnership units to be exchanged will be based on the initial purchase price and the average share value (as defined in the agreement) of the Company's common stock at the time of the exchange. The Company intends to construct a shopping center and, upon stabilization, may be obligated to issue additional limited partnership units to the Trust.

**Burtonsville Town Square**

The Company recently entered into an agreement to purchase for \$75 million, plus approximately \$1.3 million of acquisition costs, Burtonsville Town Square located in Burtonsville, Montgomery County, Maryland and has an earnest money deposit of \$5 million at risk. Approximately \$40 million of the purchase price will be funded through a new mortgage loan and the remainder will be funded through the Company's revolving credit facility. The property comprises approximately 121,000 square feet of retail space which is 100% leased and is anchored by a Giant Food store and a CVS Pharmacy. The Company anticipates closing the acquisition and the loan on or before January 31, 2017.

**Portfolio Leasing Status**

The following chart sets forth certain information regarding Commercial leases at our properties.

	Total Properties		Total Square Footage		Percent Leased		
	Shopping Centers	Mixed-Use	Shopping Centers	Mixed-Use	Shopping Centers	Mixed-Use	%
September 30, 2016	49	7	7,882,032	1,273,335	95.7%	88.7	%
September 30, 2015	50	6	7,905,264	1,264,488	95.4%	91.1	%

As of September 30, 2016, 94.7% of the Commercial portfolio was leased, compared to 94.8% at September 30, 2015. On a same property basis, 94.7% of the Commercial portfolio was leased, compared to 94.8% at September 30, 2015. As of September 30, 2016, the Clarendon Center apartments were 96.7% leased compared to 97.1% at September 30, 2015. As of September 30, 2016, the Park Van Ness apartments were 61.3% leased.

The following table shows selected data for leases executed in the indicated periods. The information is based on executed leases without adjustment for the timing of occupancy, tenant defaults, or landlord concessions. The base rent for an expiring lease is the annualized contractual base rent, on a cash basis, as of the expiration date of the lease. The base rent for a new or renewed lease is the annualized contractual base rent, on a cash basis, as of the expected rent commencement date. Because tenants that execute leases may not ultimately take possession of their space or pay all of their contractual rent, the changes presented in the table provide information only about trends in market rental rates. The actual changes in rental income received by the Company may be different.

**Average Base Rent per Square Foot**

Three months ended	Square Feet	Number of Leases	New/Renewed Leases	Expiring Leases
September 30,				
2016	529,313	79	\$ 15.19	\$ 14.20
2015	379,634	87	20.05	19.56

Table of Contents

Additional information about the 2016 leasing activity is set forth below. The below information includes leases for space which had not been previously leased during the period of the Company's ownership, either a result of acquisition or development.

	New Leases	Renewed Leases
Number of leases	19	60
Square feet	80,083	449,230
Per square foot average annualized:		
Base rent	\$23.13	\$13.77
Tenant improvements	(0.77 )	(0.01 )
Leasing costs	(0.26 )	(0.06 )
Rent concessions	(0.27 )	—
Effective rents	\$21.83	\$13.70

During the three months ended September 30, 2016, the Company entered into 158 new or renewed apartment leases. The average monthly rent per square foot for the 86 leases for units which were previously occupied increased to \$3.64 from \$3.61. During the three months ended September 30, 2015, the Company entered into 64 new or renewed apartment leases. The average monthly rent per square foot for these leases increased to \$3.57 from \$3.51.

As of December 31, 2015, 1,035,195 square feet of Commercial space was subject to leases scheduled to expire in 2016. Of those leases, as of September 30, 2016, leases representing 273,694 square feet of Commercial space have not yet renewed and are scheduled to expire over the next three months. Below is information about existing and estimated market base rents per square foot for that space.

Expiring Leases:	Total
Square feet	273,694
Average base rent per square foot	\$18.25
Estimated market base rent per square foot	\$17.91

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to certain financial market risks, the most predominant being fluctuations in interest rates. Interest rate fluctuations are monitored by management as an integral part of the Company's overall risk management program, which recognizes the unpredictability of financial markets and seeks to reduce the potentially adverse effect on the Company's results of operations.

The Company may, where appropriate, employ derivative instruments, such as interest rate swaps, to mitigate the risk of interest rate fluctuations. The Company does not enter into derivatives or other financial instruments for trading or speculative purposes. On June 29, 2010, the Company entered into an interest rate swap agreement with a \$45.6 million notional amount to manage the interest rate risk associated with \$45.6 million of variable-rate debt. The swap agreement was effective July 1, 2010, terminates on July 1, 2020 and effectively fixes the interest rate on the debt at 5.83%. The fair value of the swap at September 30, 2016 was approximately \$3.2 million and is reflected in accounts payable, accrued expenses and other liabilities in the consolidated balance sheet.

The Company is exposed to interest rate fluctuations which will affect the amount of interest expense of its variable rate debt and the fair value of its fixed rate debt. As of September 30, 2016, the Company had variable rate indebtedness totaling \$37.6 million. If the interest rates on the Company's variable rate debt instruments outstanding at September 30, 2016 had been one percentage point higher, our annual interest expense relating to these debt instruments would have increased by \$375,700 based on those balances. As of September 30, 2016, the Company had fixed-rate indebtedness totaling \$837.4 million with a weighted average interest rate of 5.51%. If interest rates on the Company's fixed-rate debt instruments at September 30, 2016 had been one percentage point higher, the fair value of those debt instruments on that date would have been approximately \$39.6 million less than the carrying value.

Table of Contents

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in the Company's reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chairman and Chief Executive Officer, its Senior Vice President-Chief Financial Officer, Secretary and Treasurer, and its Senior Vice President-Chief Accounting Officer as appropriate, to allow timely decisions regarding required disclosure based closely on the definition of "disclosure controls and procedures" in Rule 13a-15(e) promulgated under the Exchange Act. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including its Chairman and Chief Executive Officer, its Senior Vice President-Chief Financial Officer, Secretary and Treasurer, and its Senior Vice President-Chief Accounting Officer of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of September 30, 2016. Based on the foregoing, the Company's Chairman and Chief Executive Officer, its Senior Vice President-Chief Financial Officer, Secretary and Treasurer and its Senior Vice President-Chief Accounting Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level as of September 30, 2016.

During the quarter ended September 30, 2016, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.
