The Company will furnish copies to banks, brokerage houses, fiduciaries and custodians holding in their names shares of Common Stock beneficially owned by others to forward to the beneficial owners. The Company may reimburse persons representing beneficial owners of Common Stock for their costs of forwarding solicitation materials to the beneficial owners. STOCKHOLDER PROPOSALS

The deadline for submitting a stockholder proposal for inclusion in the Company's proxy statement and form of proxy for the Company's 2002 annual meeting of stockholders provided under Rule 14a-8 of the Securities and Exchange Commission is November 15, 2001. A stockholder proposal or nomination for director for consideration at the 2002 annual meeting but not included in the proxy statement and proxy must be received by the Secretary of the Company no earlier than January 25, 2002 and no later than February 24, 2002.

PROPOSAL 1 ELECTION OF DIRECTORS

The Company's Restated Certificate of Incorporation and Bylaws provide that the Board of Directors be divided into three (3) classes, each class consisting, as nearly as possible, of one-third of the total number of directors, with each class having a three-year term. Vacancies on the Board may be filled only by persons elected by a majority of the remaining directors. A director elected by the Board to fill a vacancy (including a vacancy created by an increase in the Board of Directors) will serve for the remainder of the full term of the class of directors in which the vacancy occurred and until the director's successor is elected and qualified.

The Board of Directors is presently composed of six (6) members and there is one (1) vacancy. There are two Class 3 Directors, Harry B. Fair and James M. Ross, whose terms of office expire in 2001. Mr. Fair will not be pursuing re-election. The Board has nominated James M. Ross and Edward H. Sproat. Mr. Sproat is not currently a member of the Board. If elected at the Annual Meeting, each of the nominees would serve until the 2004 annual meeting and until his successor is elected and has qualified, or until such director's earlier death, resignation or removal.

Directors are elected by a plurality of the votes present in person or represented by proxy and entitled to vote at the meeting. Shares represented by executed proxies will be voted, if authority to do so is not withheld, for the election of the two (2) nominees named below. In the event that any nominee should be unavailable for election as a result of an unexpected occurrence, such shares will be voted for the election of such substitute nominee as management may propose. Each person nominated for election has agreed to serve if elected, and management has no reason to believe that any nominee will be unable to serve.

Set forth below is biographical information for each person nominated and each person whose term of office as a director will continue after the Annual Meeting.

As of March 1, 2001, the Directors of the Company are as follows:

PROPOSAL 2

APPROVAL OF AMENDMENT TO AMENDED AND RESTATED STOCK OPTION PLAN

The Company's Amended and Restated Stock Option Plan (the "Stock Option Plan") was adopted by the Board of Directors on January 19, 1996 and was amended on December 16, 1997, February 23, 1999 and March 2, 2000. These amendments were approved by the shareholders on January 28, 1998, April 30, 1999 and April 27, 2000, respectively. There are currently 5,850,000 shares of Common Stock authorized for issuance under the Stock Option Plan. As of March 1, 2001 options (net of canceled or expired options) covering an aggregate of 3,788,317 shares of Common Stock had been granted under the Stock Option Plan. Only 874,367 shares of Common Stock (plus any shares that might in the future be returned to the Option Plan as a result of cancellations or expiration of options) remain available for future grant under the Stock Option Plan. The per share price for the Company's common stock on March 1, 2001 was \$2.56.

On January 23, 2001, the Board of Directors amended the Stock Option Plan, subject to stockholder approval, to increase the number of shares of Common Stock authorized for issuance under the Stock Option Plan from a total of 5,850,000 shares to a total of 6,850,000 shares. The Board adopted this amendment in order to ensure that the Company can continue to grant stock options at levels determined appropriate by the Board as one method for attracting and retaining qualified employees.

Stockholders are requested in this Proposal 2 to approve the Stock Option Plan, as amended. The affirmative vote of the holders of a majority of the shares present in person or represented by proxy and entitled to vote at the meeting will be required to approve the amended Stock Option Plan.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE IN FAVOR OF PROPOSAL 2.

DESCRIPTION OF STOCK OPTION PLAN

The Stock Option Plan provides for the grant of incentive stock options under the Internal Revenue Code of 1986, as amended (the "Code"), to employees and nonstatutory stock options, stock appreciation rights, restricted stock purchase awards and stock bonuses to employees, directors and consultants. The Board of Directors or a committee appointed by the Board of Directors administers the Stock Option Plan and determines recipients and types of awards to be granted, including the exercise price, exercisability and number of shares subject to the award.

Edgar Filing: EVOLVING SYSTEMS INC - Form DEF 14A

The terms of stock options granted under the Stock Option Plan generally may not exceed 10 years. The Board of Directors determines the exercise price of options granted under the Stock Option Plan. However, the exercise price of an incentive stock option cannot be less than 100% of the fair market value of the Common Stock on the date of the option grant, and the exercise price of a nonstatutory stock option cannot be less than 85% of the fair market value of the Common Stock on the date of the option grant. Options granted under the Stock Option Plan vest at the rate specified in the option agreement. The optionee may not transfer a stock option other than by will or the laws of descent or distribution or, in certain limited instances, pursuant to a domestic relations order. An optionee whose service to the Company or its affiliates ceases for any reason (other than by death or disability) generally may exercise an option for three (3) months thereafter (unless the option terminates or expires sooner by its terms). An optionee generally may exercise an option for up to 12 months and 18 months after the optionee's service to the Company and its affiliates ceases due to disability or death, respectively.

The Board of Directors may not grant an incentive stock option to any person who, at the time of the grant, owns (or is deemed to own) stock possessing more than 10% of the total combined voting power of the Company or any affiliate of the Company, unless the option exercise price is at least 110% of the fair market value of the Common Stock on the date of grant, and the option term is five (5) years or less. The aggregate fair market value, determined at the time of grant, of the shares of Common Stock with respect to which incentive stock options are exercisable for the first time by an optionee during any calendar year (under all such plans of the Company and its affiliates) may not exceed \$100,000. However, no person may

5

be granted options under the Stock Option Plan exercisable for more than 1,260,000 shares of Common Stock during any calendar year ("Section 162(m) Limitation"). Options may be immediately exercisable, at the discretion of the Company, whether vested or not, subject to repurchase by the Company of any unvested shares.

Shares subject to stock awards that have expired or otherwise terminated without having been exercised in full become available again for the grant of awards under the Stock Option Plan. Shares with respect to which stock appreciation rights have been exercised are not available for the grant of new awards or stock options.

The Board of Directors has the specific authority to reprice outstanding options and the general authority to reprice stock appreciation rights and to offer optionees and holders of stock appreciation rights the opportunity to replace outstanding options and stock appreciation rights with new options or stock appreciation rights for the same or a different number of shares.

The Board of Directors may grant restricted stock purchase awards under the Stock Option Plan pursuant to a repurchase option in favor of the Company in accordance with a vesting schedule and at a price determined by the Board of Directors. Restricted stock purchases must be at a price equal to at least 85% of the stock's fair market value on the award date, but stock bonuses may be awarded in consideration of past services without a purchase payment.

The holder of a restricted stock purchase award must pay the purchase price of the stock either in cash or, at the discretion of the Board, by delivery of other Common Stock of the Company, pursuant to a deferred payment arrangement or in any other form of legal consideration acceptable to the Board.

A participant may not transfer his or her rights under a stock bonus or

Edgar Filing: EVOLVING SYSTEMS INC - Form DEF 14A

restricted stock purchase agreement other than by will, the laws of descent and distribution or a domestic relations order while the stock awarded pursuant to such an agreement remains subject to the agreement. Stock appreciation rights granted under the Stock Option Plan may be tandem rights, concurrent rights or independent rights.

Transactions not involving receipt of consideration by the Company, such as a merger, consolidation, reorganization, stock dividend, or stock split, may change the class and number of shares of Common Stock subject to the Stock Option Plan and outstanding awards. In that event, the Stock Option Plan will be appropriately adjusted as to the class and the maximum number of shares of Common Stock subject to the Stock Option Plan and the Section 162(m) Limitation. Outstanding awards also will be adjusted as to the class, number of shares and price per share of Common Stock subject to such awards.

Upon certain changes in control of the Company, the successor corporation may assume outstanding stock awards or substitute equivalent stock awards. If the successor corporation refuses to do so, such stock awards will become fully vested and exercisable for a period of 15 days after notice from the Company but the option will terminate if not exercised during that period. In addition, restricted shares acquired upon exercise of options will be released from the Company's repurchase option.

The Board of Directors may amend the Stock Option Plan at any time or from time to time. However, no amendment will be effective unless approved by the stockholders of the Company within 12 months before or after its adoption by the Board of Directors if such modification requires stockholder approval in order to comply with Rule 16b-3 of the Securities Exchange Act of 1934, as amended (the "Exchange Act") or to satisfy the requirements of Section 422 of the Code or any securities exchange listing requirements. The Board may submit any other amendment to the Stock Option Plan for stockholder approval, including, but not limited to, amendments intended to satisfy the requirements of Section 162(m) of the Code regarding the exclusion of performance-based compensation from the limitation on the deductibility of compensation paid to certain employees.

6

The Board of Directors may suspend or terminate the Stock Option Plan without stockholder approval or ratification at any time or from time to time. Unless sooner terminated, the Stock Option Plan will terminate on December 15, 2007.

FEDERAL INCOME TAX INFORMATION

INCENTIVE STOCK OPTIONS. Incentive stock options under the Stock Option Plan are intended to be eligible for the favorable federal income tax treatment accorded "incentive stock options" under the Code.

There generally are no federal income tax consequences to the participant or the Company by reason of the grant or exercise of an incentive stock option. However, the exercise of an incentive stock option may increase the participant's alternative minimum tax liability, if any.

If a participant holds stock acquired through exercise of an incentive stock option for at least two (2) years from the date on which the option is granted and at least one (1) year from the date on which the shares are transferred to the participant upon exercise of the option, any gain or loss on a disposition of such stock will be a long-term capital gain or loss.

Generally, if the participant disposes of the stock before the expiration of either of these holding periods (a "disqualifying disposition"), then at the time of disposition the participant will realize taxable ordinary income equal

Edgar Filing: EVOLVING SYSTEMS INC - Form DEF 14A

to the lesser of (i) the excess of the stock's fair market value on the date of exercise over the exercise price, or (ii) the participant's actual gain, if any, on the disposition. The participant's additional gain or any loss upon the disqualifying disposition will be a capital gain or loss, which will be long-term or short-term depending on whether the stock was held for more than one year.

To the extent the participant recognizes ordinary income by reason of a disqualifying disposition, the Company will generally be entitled (subject to the requirement of reasonableness, the provisions of Section 162(m) of the Code and the satisfaction of a tax reporting obligation) to a corresponding business expense deduction in the tax year in which the disqualifying disposition occurs.

NONSTATUTORY STOCK OPTIONS, RESTRICTED STOCK PURCHASE AWARDS AND STOCK BONUSES. Nonstatutory stock options, restricted stock purchase awards and stock bonuses granted under the Stock Option Plan generally have the following federal income tax consequences:

There are no tax consequences to the participant or the Company by reason of the grant. Upon acquisition of the stock, the participant normally will recognize taxable ordinary income equal to the excess, if any, of the stock's fair market value on the acquisition date over the purchase price. However, to the extent the stock is subject to certain types of vesting restrictions, the taxable event will be delayed until the vesting restrictions lapse unless the participant elects to be taxed on receipt of the stock. With respect to employees, the Company is generally required to withhold from regular wages or supplemental wage payments an amount based on the ordinary income recognized. Subject to the requirement of reasonableness, the provisions of Section 162(m) of the Code and the satisfaction of a tax reporting obligation, the Company will generally be entitled to a business expense deduction equal to the taxable ordinary income realized by the participant.

Upon disposition of the stock, the participant will recognize a capital gain or loss equal to the difference between the selling price and the sum of the amount paid for such stock plus any amount recognized as ordinary income upon acquisition (or vesting) of the stock. Such gain or loss will be long-term or short-term depending on whether the stock was held for more than one year. Slightly different rules may apply to participants who acquire stock subject to certain repurchase options or who are subject to Section 16(b) of the Exchange Act.

STOCK APPRECIATION RIGHTS. No taxable income is realized upon the receipt of a stock appreciation right, but upon exercise of the stock appreciation right the fair market value of the shares (or cash in lieu of shares) received must be treated as compensation taxable as ordinary income to the participant in the

7

year of such exercise. Generally, with respect to employees, the Company is required to withhold from the payment made on exercise of the stock appreciation right or from regular wages or supplemental wage payments an amount based on the ordinary income recognized. Subject to the requirement of reasonableness, Section 162(m) of the Code and the satisfaction of a reporting obligation, the Company will be entitled to a business expense deduction equal to the taxable ordinary income recognized by the participant.

POTENTIAL LIMITATION ON COMPANY DEDUCTIONS. Section 162(m) of the Code denies a deduction to any publicly-held corporation for compensation paid to certain "covered employees" in a taxable year to the extent that compensation to such covered employee exceeds \$1 million. It is possible that compensation attributable to awards, when combined with all other types of compensation received by a covered employee from the Company, may cause this limitation to be

Edgar Filing: EVOLVING SYSTEMS INC - Form DEF 14A

exceeded in any particular year.

Certain kinds of compensation, including qualified "performance-based compensation," are disregarded for purposes of the deduction limitation. In accordance with Treasury regulations issued under Section 162(m), compensation attributable to stock options and stock appreciation rights will qualify as performance-based compensation if the award is granted by a compensation committee comprised solely of "outside directors" and the plan contains a per-employee limitation on the number of shares for which such awards may be granted during a specified period, the per-employee limitation is approved by the stockholders, and (i) either the exercise price of the award is no less than the fair market value of the stock on the date of grant, or (ii) the award is granted (or exercisable) only upon the achievement (as certified in writing by the compensation committee) prior to vesting or exercisability of an objective performance goal established in writing by the compensation committee while the outcome is substantially uncertain, and the award is approved by stockholders.

Restricted stock and stock bonuses qualify as performance-based compensation under the Treasury regulations only if (i) the award is granted by a compensation committee comprised solely of "outside directors," (ii) the award is granted (or exercisable) only upon the achievement of an objective performance goal established in writing by the compensation committee while the outcome is substantially uncertain, (iii) the compensation committee certifies in writing prior to the granting (or exercisability) of the award that the performance goal has been satisfied and (iv) prior to the granting (or exercisability) of the award, stockholders have approved the material terms of the award (including the class of employees eligible for such award, the business criteria on which the performance goal is based, and the maximum amount--or formula used to calculate the amount--payable upon attainment of the performance goal).

PROPOSAL 3

APPROVAL OF AMENDMENT TO EMPLOYEE STOCK PURCHASE PLAN

The Company's Employee Stock Purchase Plan (the "Purchase Plan") was adopted by the Board of Directors on December 16, 1997 and amended on February 23, 1999 and March 2, 2000, as approved by the stockholders on January 28, 1998, April 30, 1999 and April 27, 2000, respectively. There are currently 450,000 shares of Common Stock authorized for issuance under the Purchase Plan. During the fiscal year ended December 31, 2000, shares of Common Stock were purchased in the amounts and at the weighted average prices per share under the Purchase Plan as follows: all employees (excluding executive officers) as a group: 148,309 shares (\$2.78 per share). Current executive officers during the fiscal year ended December 31, 2000 purchased 5,526 shares (\$3.89 per share). As of March 1, 2001, purchase rights (net of canceled or expired purchase rights) covering an aggregate of 314,355 shares of Common Stock had been granted under the Purchase Plan. Only 135,645 shares of Common Stock (plus any shares that might in the future be returned to the Purchase Plan as a result of cancellations or expiration of purchase rights) remained available for future grant under the Purchase Plan.

On January 23, 2001, the Board of Directors amended the Purchase Plan, subject to stockholder approval, to increase the number of shares of Common Stock authorized for issuance thereunder from a

8

total of 450,000 shares to a total of 600,000 shares. The Board adopted this amendment in order to ensure that the Company can continue to grant purchase rights at levels determined appropriate by the Board. On March 1, 2001, the per share price for the Company's common stock was \$2.56.

Edgar Filing: EVOLVING SYSTEMS INC - Form DEF 14A

Stockholders are requested in this Proposal 3 to approve the Purchase Plan, as amended. The affirmative vote of the holders of a majority of the shares present in person or represented by proxy and entitled to vote at the meeting will be required to approve the amended Purchase Plan.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE IN FAVOR OF PROPOSAL 3.

DESCRIPTION OF PURCHASE PLAN

The Purchase Plan is intended to qualify as an employee stock purchase plan within the meaning of Section 423 of the Code. Under the Purchase Plan, the Board of Directors may authorize participation by eligible employees, including officers, in periodic offerings following the adoption of the Purchase Plan. The Board of Directors currently plans that the offering period for any offering will be six months.

The Board of Directors, through its Compensation Committee, administers the Purchase Plan and has the final power to construe and interpret both the Purchase Plan and the rights granted under it. The Board of Directors has the power, subject to the provisions of the Purchase Plan, to determine when and how rights to purchase Common Stock of the Company will be granted, the provisions of each offering of such rights (which need not be identical), and whether employees of any parent or subsidiary of the Company will be eligible to participate in the Purchase Plan.

Generally, any person who is customarily employed at least 20 hours per week and five (5) months per calendar year by the Company (or by any parent or subsidiary of the Company designated by the Board) on the first day of an offering is eligible to participate in that offering. However, no employee is eligible to participate in the Purchase Plan if, immediately after the grant of purchase rights, the employee would own, directly or indirectly, stock possessing 5% or more of the total combined voting power or value of all classes of stock of the Company or of any parent or subsidiary of the Company (including any stock which such employee may purchase under all outstanding rights and options). In addition, no employee may accrue the right to purchase more than \$25,000 worth of Common Stock (determined at the fair market value of the shares at the time such rights are granted) under all employee stock purchase plans of the Company and its affiliates in any calendar year. Rights granted under the Purchase Plan are not transferable and may be exercised only by the person to whom such rights are granted.

Employees are eligible to participate in the first offering commencing after the date they are employed by the Company or an affiliate of the Company. Employees who participate in an offering may have up to 15% of their earnings withheld pursuant to the Purchase Plan and applied at the end of each offering period to the purchase of shares of Common Stock. The price of Common Stock purchased under the Purchase Plan will be equal to 85% of the lower of the fair market value of the Common Stock on the commencement date of each offering period or the purchase date. Employees may end their participation in the offering at any time prior to the end of the offering period (except as otherwise provided by the Board of Directors for that offering), and participation ends automatically upon termination of employment with the Company.

If the aggregate number of shares to be purchased upon exercise of rights granted in the offering would exceed the maximum aggregate number of shares of Common Stock available, the Board would make a pro rata allocation of available shares in a uniform and equitable manner. Unless the employee's participation is discontinued, his or her right to purchase shares is exercised automatically at the end of the offering at the applicable price.

In the event of a change of control in the Company, the Company and the

Edgar Filing: EVOLVING SYSTEMS INC - Form DEF 14A

Board of Directors have discretion to provide that each right to purchase Common Stock will be assumed or an equivalent right substituted by the successor corporation. Alternatively, the Board of Directors may shorten the offering

9

period and provide for all sums collected by payroll deductions to be applied to purchase stock immediately prior to the change in control. The Purchase Plan will terminate at the direction of the Board of Directors.

The Board may amend the Purchase Plan at any time. Any amendment of the Purchase Plan must be approved by the stockholders within 12 months of its adoption by the Board if the amendment would (i) increase the number of shares of Common Stock reserved for issuance under the Purchase Plan, (ii) modify the requirements relating to eligibility for participation in the Purchase Plan, or (iii) modify any other provision of the Purchase Plan in a manner that would materially increase the benefits accruing to participants under the Purchase Plan if such approval is required in order to comply with the requirements of Rule 16b-3 under the Exchange Act or any other applicable rule or regulation. Rights granted before amendment or termination of the Purchase Plan will not be altered or impaired by any amendment or termination of the Purchase Plan without consent of the employee to whom such rights were granted.

FEDERAL INCOME TAX INFORMATION

Rights granted under the Purchase Plan are intended to qualify for favorable federal income tax treatment associated with rights granted under an employee stock purchase plan which qualifies under provisions of Section 423 of the Code.

A participant will be taxed on amounts withheld for the purchase of shares of Common Stock as if such amounts were actually received. Other than this, no income will be taxable to a participant until disposition of the acquired shares, or until the participant's death while holding the acquired shares, and the method of taxation will depend upon the holding period of the acquired shares.

If the stock is disposed of at least two (2) years after the beginning of the offering period and at least one (1) year after the stock is transferred to the participant, or if the participant dies while holding stock acquired under the Purchase Plan, then the lesser of (i) the excess of the fair market value of the stock at the time of such disposition or death over the exercise price or (ii) the excess of the fair market value of the stock as of the beginning of the offering period over the exercise price (determined as of the beginning of the offering period) will be treated as ordinary income. Any further gain or any loss will be taxed as a long-term capital gain or loss. The Company is not entitled to a corresponding deduction for the amount treated as ordinary income.

If the stock is sold or disposed of before the expiration of either of the holding periods described above, then the excess of the fair market value of the stock on the exercise date over the exercise price will be treated as ordinary income at the time of such disposition. The Company is entitled to a deduction to the extent amounts are taxed as ordinary income to a participant (subject to the requirement of reasonableness, Section 162(m) with respect to certain officers, and the satisfaction of tax reporting obligations). The balance of any gain will be treated as capital gain. Even if the stock is later disposed of for less than its fair market value on the exercise date, the same amount of ordinary income is attributed to the participant. A capital loss is recognized equal to the difference between the sales price and the fair market value of the stock on such exercise date. Any capital gain or loss will be short-term or long-term, depending on how long the stock has been held.

RATIFICATION OF SELECTION OF INDEPENDENT ACCOUNTANTS

The Board of Directors has selected PricewaterhouseCoopers LLP as the Company's independent accountants for the fiscal year ending December 31, 2001, and has further directed that management submit the selection of independent accountants for ratification by the stockholders at the Annual Meeting. PricewaterhouseCoopers LLP has audited the Company's financial statements since 1997. Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting, will

10

have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Stockholder ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent accountants is not required by the Company's Bylaws or otherwise. However, the Board is submitting the selection of PricewaterhouseCoopers LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee and the Board will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee and the Board in their discretion may direct the appointment of different independent auditors at any time during the year if they determine that such a change would be in the best interests of the Company and its stockholders.

The affirmative vote of the holders of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting will be required to ratify the selection of PricewaterhouseCoopers LLP.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE IN FAVOR OF PROPOSAL 4.

COMPENSATION AGREEMENTS

Each of the Company's Named Executive Officers, as well as the other Executive Officers (the "Executives") have entered into Compensation Agreements with the Company. Each agreement generally provides that in the event the Company terminates the employment of the Executive, other than for cause, death or disability, the Executive will be paid severance pay. The amount of the severance pay varies from three (3) months of base salary to up to nine (9) months of base salary and incentive compensation, depending upon the Executive's position with the Company and whether or not the Executive's employment was terminated following a change in the CEO position. In exchange for severance, the Executive will be required to execute a full release of the Company and agree not to compete with the Company nor to solicit Company employees for the period of time during which severance is paid. The Compensation Agreements do not change the "at-will" nature of the Executive's employment with the Company. Both the Company and the Executive may terminate the Executive's employment at any time.

MANAGEMENT CHANGE IN CONTROL AGREEMENTS

Each of the Company's Executives has entered into a Management Change in Control Agreement with the Company. Each agreement generally provides that upon a Qualified Termination (as defined below), the Company shall pay to the Executive all amounts earned or accrued through the applicable termination date, including, without limitation, the Executive's base salary, a prorated portion of any earned incentive compensation, compensation for unused paid time off, reimbursement for reasonable and necessary expenses incurred by the Executive on behalf of the Company during the period ending on the applicable termination date. The Company also is obligated to provide certain insurance benefits during the Executive's applicable severance period. Moreover, the Company has agreed to pay the Executive an amount equal to 100% of his or her annual base salary, plus 100% of the Executive's annual incentive target. In addition, immediately upon the occurrence of a Change of Control (as defined below) or a Qualified Termination, 50% or 100%, respectively, of the Executive's unvested stock options shall vest. The Company also has agreed to reimburse the Executive for any excise taxes payable as a result of Executive's receipt of these payments. A Qualified Termination will occur upon any of the following: (i) termination of the Executive's employment by the Company, without cause, as a result of the influence

of a person or entity seeking to cause a Change in Control; (ii) termination of the Executive's employment by the Company for any reason, other than for cause, disability or death, within 12 months following a Change in Control;

Edgar Filing: EVOLVING SYSTEMS INC - Form DEF 14A

(iii) resignation by the Executive following a change in a material condition of the Executive's employment in anticipation of a Change in Control or within 12 months following a Change in Control. A Change in Control will occur upon (i) the sale, transfer or other disposition of all or substantially all of the Company's assets; (ii) a merger or consolidation in which the Company is not the surviving corporation; (iii) a reverse merger in which the Company is the surviving corporation but the shares of the Company's Common Stock are converted into other property; or (iv) the acquisition by any person, entity or group within the meaning of Securities Exchange Act of 1934 of the beneficial ownership of securities of the Company representing at least 50% of the combined voting power entitled to vote in the election of directors.

REPORT OF THE AUDIT COMMITTEE

THE AUDIT COMMITTEE

As of March 1, 2001, the Audit Committee of the Board of Directors (the "Audit Committee") was composed of two (2) directors appointed by the Board of Directors. Committee members, Mr. Loarie and Mr. Dixon, satisfy the independence and financial management expertise requirements of the Audit Committee Policy of the NASDAQ Stock Market, Inc. (the "NASDAQ"). As is required by NASDAQ, on or before June 14, 2001, the Committee membership will be increased to not less than three (3) members of the Board. On May 25, 2000, the Board of Directors adopted a new charter for the Audit Committee (the "Charter"). A copy of the Charter is included with this proxy statement.

The Audit Committee's primary responsibilities are to:

- (1) monitor the integrity of the Company's financial reporting process and the Company's systems of internal accounting and financial controls regarding finance, accounting and legal compliance;
- (2) monitor the independence and performance of the Company's external auditors; and
- (3) provide an avenue of communication among the independent auditors, management, and the Board of Directors.

REVIEW OF FISCAL YEAR 2000 FINANCIAL STATEMENTS

In connection with its review of the Company's Fiscal Year 2000 Financial Statements, the Audit Committee has:

- (1) reviewed and discussed the audited financial statements with management;
- (2) discussed with PricewaterhouseCoopers LLP, the Company's independent accountants, the matters required to be disclosed by SAS 61 and SAS 90; and
- (3) received from PricewaterhouseCoopers LLP the written disclosures and letter required by Independence Standards Board Standard No. 1 ("ISB 1") and discussed with PricewaterhouseCoopers LLP their independence.

Based upon the review and discussions described above, the Audit Committee recommended to the Board of Directors that the audited financial statements for fiscal year ended December 31, 2000 be included in the Company's 2000 Annual Report on Form 10-K.

The following table sets forth information regarding fees billed by PricewaterhouseCoopers LLP for services rendered to the Company for fiscal year

Edgar Filing: EVOLVING SYSTEMS INC - Form DEF 14A

ended December 31, 2000.

TYPES OF FEES -----	AMOUNT BILLED -----
Audit Fees.....	\$143,500
Financial Information Systems Design and Implementation Fees.....	None
All Other Fees.....	\$ 85,000

AUDIT FEES are the aggregate fees billed during calendar year 2000 by PricewaterhouseCoopers LLP for the audit of the Company's annual financial statements for fiscal year 2000 and for reviews of the Company's financial statements included in its Forms 10-Q for fiscal year ended December 31, 2000. Of the amounts billed during calendar year 2000, \$113,000 relate to the 1999 audit. Fees for the calendar year 2000 audit and the reviews of Form 10-Q are \$150,000, of which an aggregate amount of \$30,500 had been billed through December 31, 2000. All hours incurred on the audit engagements were incurred by full-time, regular employees of PricewaterhouseCoopers LLP.

FINANCIAL INFORMATION SYSTEMS DESIGN AND IMPLEMENTATION FEES are the aggregate fees billed for any financial information systems design and implementation services rendered by PricewaterhouseCoopers LLP for fiscal year ended December 31, 2000.

OTHER FEES are the aggregate fees billed for all other services rendered by PricewaterhouseCoopers LLP for fiscal year ended December 31, 2000. Included in this category are fees billed for tax planning and compliance, the audit of the Company's 1999 401(k) Plan financial statements, and consulting services. Fees incurred for these services for calendar year 2000 were \$250,000, of which \$85,000 had been billed as of December 31, 2000.

The Audit Committee has considered the nature of all non-audit services and, based upon discussions with PricewaterhouseCoopers LLP and review of the ISB 1 letter from PricewaterhouseCoopers LLP, the Committee believes that such services are compatible with the auditor's independence.

REPORT OF THE COMPENSATION COMMITTEE(1)

THE COMPENSATION COMMITTEE

The Compensation Committee of the Board of Directors (the "Compensation Committee") is composed of at least two (2) directors appointed by the Board of Directors. The Compensation Committee is responsible for providing guidance and periodic monitoring for all corporate compensation, benefit, perquisite, and employee equity programs. The Compensation Committee has full power and authority to carry out the following responsibilities: (1) establish the compensation levels for officers and employees of the Company and the types of compensation to be paid to the officers and employees of the Company, (2) grant stock options (3) review the performance of the Chief Executive Officer of the Company, and (4) perform such other functions as may be necessary or convenient in the efficient discharge of its responsibilities.

(1) Notwithstanding anything to the contrary set forth in any of the Company's filings under the Securities Act of 1933, as amended (the "Securities Act")

Edgar Filing: EVOLVING SYSTEMS INC - Form DEF 14A

or the Exchange Act that might incorporate future filings by reference, including this Proxy Statement, in whole or in part, the following Report of the Compensation Committee and the Performance Measurement Comparison shall not be incorporated by reference into any such filings, and shall not be deemed soliciting material under the Securities Act or the Exchange Act.

20

BASE SALARY

The Committee annually reviews each Executive's base salary and incentive compensation. When reviewing compensation, the Committee considers individual and corporate performance, levels of responsibility, prior experience, breadth of knowledge and competitive pay practices. The Committee also takes into account the operating, strategic, and financial goals that are considered to be critical to the Company's fundamental long-term goal of building stockholder value. For fiscal 2000, these goals were: revenue growth and profitability; continued marketing and development of the Company's LNP products and related services; expansion of the Company's telecommunications' expertise, including wireless data solutions; expansion of the Company's customer base and recruitment and retention of key technical and sales staff. At the same time as the Committee considers the compensation of Executives, it also sets the performance goals to be met in setting the amount of bonuses to be paid to Company employees in the upcoming fiscal year. The amount of each employee's bonus is determined by comparing the degree to which the Company has met its revenue and income goals for the fiscal year as set forth above. In 2000, base salary for Mr. Hallenbeck was 12.5% higher than his base salary for the previous fiscal year prior to November 1999. For other executive officers, base salaries were increased by 0% to 15.6% for fiscal 2000 compared to fiscal 1999. The increases were due to Company and individual performance, and the need to remain within the range of competitive salaries for comparable companies.

BONUSES

The Company paid bonuses to its Chief Executive Officer and eight (8) other executive officers in 2000, in amounts ranging from \$128,684 to \$24,770. Such bonuses were based on the extent to which the corporate goals described above were achieved, and represented from approximately 57% to 16.5% of such officer's base salary.

STOCK-BASED INCENTIVE COMPENSATION

The Company adopted the Amended and Restated Stock Option Plan (the "Plan") in order to provide equity based performance incentives to its employees. The Plan authorizes the Company to award incentive stock options and nonqualified stock options to purchase Common Stock to officers and other employees of the Company. The purpose of the Plan is to attract, retain and motivate officers and employees. Stock options may be exercised at a purchase price as determined by the Board of Directors, provided that the exercise price per share under the Plan is not less than 100% of the fair market value on the date of grant for incentive stock options and not less than 85% of the fair market value on the date of grant for nonqualified stock options. Incentive stock options granted to beneficial owners of 10% or more of the Company's outstanding shares may be granted at an exercise price per share of not less than 110% of fair market value. The grants are designed to align the interests of the optionees with those of the stockholders and provide each individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business, even though certain executive officers are already significant stockholders of the Company (see "Security Ownership of Certain Beneficial Owners and Management"). Moreover, the long-term vesting schedule encourages a long-term commitment to the Company by its executive officers and other optionees. The size of the option grant to each optionee is set at a level

Edgar Filing: EVOLVING SYSTEMS INC - Form DEF 14A

that the Compensation Committee deems appropriate in order to create a meaningful opportunity for stock ownership based upon the individual's current position with the Company, but also takes into account the individual's potential for future responsibility and promotion over the option vesting period, and the individual's performance in recent periods. The Compensation Committee periodically reviews the number of shares owned by, or subject to options held by, each executive officer, and additional awards are considered based upon past performance of the executive officer.

21

CORPORATE PERFORMANCE AND CHIEF EXECUTIVE OFFICER COMPENSATION

For the fiscal year ended December 31, 2000, George A. Hallenbeck, Chief Executive Officer of the Company received total cash payments of \$225,000 in salary and \$128,684 in incentive performance bonus. The base salary of Mr. Hallenbeck was set in November of 1999 and was not increased for the 2000 fiscal year. Mr. Hallenbeck's annual base salary of \$225,000 is based largely on competitive salaries, which the Compensation Committee believes are generally greater than Mr. Hallenbeck's salary. The percentage of incentive compensation, 100% of base salary, reflects the Compensation Committee's desire to closely equate the Chief Executive's incentive compensation with achievement of certain revenue and operating income targets. In fiscal 2000, Mr. Hallenbeck received a stock option grant for 101,250 shares of the Company's Common Stock.

LIMITATION ON DEDUCTION OF COMPENSATION PAID TO CERTAIN EXECUTIVE OFFICERS

Section 162(m) of the Internal Revenue Code (the "Code") limits the Company to a deduction for federal income tax purposes of no more than \$1 million of compensation paid to certain Named Executive Officers in a taxable year. Compensation above \$1 million may be deducted if it is "performance-based compensation" within the meaning of the Code. The statute containing this law and the applicable proposed Treasury regulations offer a number of transitional exceptions to this deduction limit for pre-existing compensation plans, arrangements and binding contracts. As a result, the Compensation Committee believes that at the present time it is quite unlikely that the compensation paid to any Named Executive Officer in a taxable year which is subject to the deduction limit will exceed \$1 million. Therefore, the Compensation Committee has not yet established a policy for determining which forms of incentive compensation awarded to its Named Executive Officers shall be designed to qualify as "performance-based compensation." The Compensation Committee intends to continue to evaluate the effects of the statute and any final Treasury regulations and to comply with Section 162(m) of the Code in the future to the extent consistent with the best interest of the Company.

CONCLUSION

The Compensation Committee believes that the compensation programs of the Company and the administration of those programs well serve the interest of the Company's stockholders. These programs allow the Company to attract, retain and motivate exceptional management and technical talent and to compensate executives and other employees in a manner that reflects their contributions to both the short and long-term performance of the Company. The Company intends to continue to emphasize programs that it believes will positively affect stockholder value.
