Franklin Templeton Investments

GAIN FROM OUR PERSPECTIVE

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups--Franklin, Templeton and Mutual Series.

SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with research offices in over 25 countries, they offer investors the broadest global reach in the industry.

MUTUAL SERIES. Founded in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among undervalued stocks, arbitrage situations and distressed companies.

TRUE DIVERSIFICATION

Because our management groups work independently and adhere to distinctly different investment approaches, Franklin, Templeton and Mutual Series funds typically have a low overlap of securities. That's why our funds can be used to build truly diversified portfolios covering every major asset class.

RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable account services that have helped us become one of the most trusted names in financial services.

Important Notice to Shareholders

REPURCHASE PROGRAM

In December 2004, the Board of Directors of the Fund authorized management to re-implement the Fund's open-market share repurchase program, which was originally implemented in October 1997. The Fund's Board of Directors had discontinued the open-market share repurchase program in May 2002, in connection with the Fund's previously conducted tender offers. Under the program, the Fund may purchase, from time to time, shares of the Fund's common stock in open-market transactions, at the discretion of the Fund's investment manager.

Templeton Dragon Fund, Inc.

YOUR FUND'S GOAL AND MAIN INVESTMENTS: Templeton Dragon Fund seeks long-term capital appreciation by investing at least 45% of its total assets in equity securities of "China companies," as defined in the Fund's prospectus.

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

Dear Shareholder:

This annual report for Templeton Dragon Fund covers the year ended December 31, 2004.

PERFORMANCE OVERVIEW

For the year ended December 31, 2004, Templeton Dragon Fund posted cumulative total returns of +0.36% in market price terms and +16.22% in net asset value terms, as the Fund's market price declined more than the Fund's net asset value. You can find the Fund's long-term performance data in the Performance Summary on page 7.

ECONOMIC AND MARKET OVERVIEW

Recognizing China's growing importance in the global economy, Asian, Latin American and European nations signed numerous trade agreements with China during the year. The 10-member Association of Southeast Asian Nations (ASEAN) and China also signed an accord to create the world's largest free-trade area by 2010. Some analysts expect China's 2004 foreign direct investment inflows to surpass US\$60 billion, exceeding 2003's US\$53.5 billion. 1 November's consumer price index (CPI) rose a healthier 2.8%, compared with about 4%-5% in the preceding few months, easing pressure on the central bank for another interest rate hike after the 27 basis points increase in October.² Some forecasts for 2005 gross domestic product (GDP) growth are for a gradual slowdown from the 9.3% expected in 2004. ³

Taiwan's third quarter 2004 GDP grew 5.3% compared with 7.9% in the second quarter mainly due to slower export growth. Some analysts expect GDP growth to slow in 2005 as external trade, a large contributor to the island's GDP, continued to weaken. Unemployment continued on a downward trend with December's jobless rate dropping to 4.09%, its lowest in three and a half years.⁴ In December legislative elections, the opposition KMT-led Pan-Blue alliance won a majority, taking 114 seats out of 225, while President Chen Shui-Bian stepped down as the Democratic Progressive Party chairman to take responsibility for his party's loss. President Chen also proposed holding a referendum on a new constitution in 2006, raising tensions with China during the period.

In what some view as a controversial move, Hong Kong's Housing Authority indefinitely delayed the listing of the Link Real Estate and Investment Trust, which if completed, would have been Hong Kong's largest initial public offering in 2004. The decision came after the courts declined to reduce the 28-day appeal period to a public housing tenant who lost a last-minute judicial review against the privatization of the assets. Hong Kong continued to release strong economic data with third quarter GDP growing 7.2% compared with the same period a year earlier due to improving trade and tourism. The government expected 7.5% GDP growth for 2004.⁵

Greater China markets, with the exception of Hong Kong, underperformed regional markets mainly due to concerns over a hard landing in China's economy and continuing tension between Taiwan and China. A shift in investor focus from technology to commodity stocks in 2004 also led to further pressure on Taiwan's stock market, where a majority of the listed companies are technology-related. Although the Taiwanese market did end the period up 9.83% in U.S. dollar terms, most of that gain resulted from a weakening U.S. dollar.⁶ Hong Kong's market benefited from a strong recovery in tourism, economic growth and a revival in the property sector.

INVESTMENT STRATEGY

Our investment strategy employs a fundamental, value-oriented, long-term approach. In selecting companies for investment, we will consider overall growth prospects, competitive positions in export markets, technologies,

research and development, productivity, labor costs, raw material costs and sources, profit margins, returns on investment, capital resources, government regulation, management and other factors in comparison to other companies around the world which we believe are comparable.

Our approach to selecting investments emphasizes fundamental company-by-company analysis (rather than broader analyses of specific industries or sectors of the

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

economy), to construct an "action list" from which we make our buy decisions. Although we will consider historical value measures, the primary factor in selecting securities for investment by the Fund will be the company's current price relative to its long-term earnings potential.

MANAGER'S DISCUSSION

For the 12 months ended December 31, 2004, the Morgan Stanley Capital International (MSCI) China Index posted 1.89% total return. 7

In terms of performance, the Fund's overweighted positions, relative to the MSCI China Index, in Dairy Farm International Holdings, Hang Lung Group and Cheung Kong Infrastructure Holdings contributed to Fund returns. An underweighted position in China Life Insurance also boosted performance. However, the Fund's underweighted position in China Mobile and no position in CNOOC negatively impacted relative performance. The Fund did not hold CNOOC because, in our view, we found better value in other companies within the same sector. We increased the Fund's China Mobile (Hong Kong) holdings during the period.

By industry, the Fund's overweighted positions in real estate and food and staples retailing, as well as an underweighted position in auto components and no exposure to automobiles, contributed to the Fund's returns relative to the MSCI China Index. Conversely, the Fund's underweighted position in the telecommunication services sector and lack of energy holdings detracted from Fund performance.⁸ We had no energy sector exposure as the sector performed well in 2004, resulting in what we considered expensive valuations. Thus, consistent with our strategy, the Fund continued to invest in other stocks, which we believed traded at more attractive valuations.

4 | Annual Report

In general, if the value of the U.S. dollar goes up compared with a foreign currency, an investment traded in that foreign currency will go down in value because it will be worth fewer U.S. dollars. This can have a negative effect on Fund performance. Conversely, when the U.S. dollar weakens in relation to a foreign currency, an investment traded in that foreign currency will increase in value, which can contribute to Fund performance. For the 12 months ended December 31, 2004, the U.S. dollar declined in value relative to most non-U.S. currencies. At the end of the period, the Fund's portfolio was invested predominantly in securities with non-U.S. currency exposure, which resulted in a positive effect on Fund performance. However, one cannot expect the same result in future periods.

During the year, we reduced the Fund's exposure to China H shares (Hong Kong-listed Chinese companies) as valuations increased after their strong performance. In particular, we sold oil and gas and transportation infrastructure holdings as high commodity prices and robust infrastructure in China boosted stock prices. Major sales included PetroChina, Jiangsu Expressway, Sinopec Beijing Yanhua Petrochemical and China Petroleum & Chemical. As a result, the Fund's exposure to China H shares fell to 10.6% of total net assets on December 31, 2004, from 29.5% on December 31, 2003. The Fund also realized gains on Red Chip share China Merchants Holdings, a conglomerate specializing in infrastructure.

As we continued our search for value stocks in the greater China region, we undertook significant purchases in Taiwan, increasing the Fund's exposure to 25.4% of total net assets at year-end from 19.7% a year earlier. Additions included Taiwan Semiconductor Manufacturing, a leading global integrated circuit producer; Mega Financial Holdings, one of Taiwan's largest financial holding companies; and Acer, a dominant player in the global personal computer market. Elsewhere in the region, we invested in HSBC Holdings, one of the world's largest banking and financial services organizations; and China Mobile (Hong Kong), a dominant wireless telecommunications operator with over 170 million subscribers in China. These purchases enlarged the Fund's exposure to the commercial banks, semiconductors and semiconductor equipment, and wireless telecommunication services sectors.

NOTES TO FINANCIAL STATEMENTS

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Templeton Dragon Fund, Inc. (the Fund), is registered under the Investment Company Act of 1940 as a closed-end, non-diversified investment company. The Fund seeks long-term capital appreciation by investing at least 45% of its total assets in the equity securities of "China companies," as defined in the Fund's prospectus.

On May 29, 2002, the Fund's shareholders approved an Agreement and Plan of Reorganization (the "Plan") that provides for the reorganization of the Fund from a Maryland corporation to a Delaware statutory trust. The completion of the reorganization is pending guidance from the National Tax Agency in Japan relating to the tax treatment of the Plan under Japanese laws with respect to the Fund's Japanese shareholders. If and when the reorganization is completed, the Delaware statutory trust will be the successor to the Fund.

The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System, are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value.

Foreign securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the foreign security is determined. If no sale is reported at that time, the foreign security will be valued within the range of the most recent quoted bid and ask prices.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Some methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Directors.

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Directors.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. FOREIGN CURRENCY CONTRACTS

When the Fund purchases or sells foreign securities it may enter into foreign exchange contracts to minimize foreign exchange risk from the trade date to the settlement date of the transactions. A foreign exchange contract is an agreement between two parties to exchange different currencies at an agreed upon exchange rate on a specified date. Realized and unrealized gains and losses on these contracts are included in the Statement of Operations.

The risks of these contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the possible inability of the counterparties to fulfill their obligations under the contracts.

D. INCOME TAXES

No provision has been made for U.S. income taxes because the Fund's policy is to qualify as a regulated investment company under Sub Chapter M of the Internal Revenue Code and to distribute substantially all of its taxable income. Fund distributions to shareholders are determined on an income tax basis and may differ from net investment income and realized gains for financial reporting purposes.

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

F. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

G. GUARANTEES AND INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and directors are indemnified by the Fund against certain liability arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

2. CAPITAL STOCK

In December 2004, the Board of Directors of the Fund authorized management to re-implement the Fund's open-market share repurchase program. Originally implemented in October 1997, the Fund's Board of Directors had discontinued the open-market share repurchase program in May 2002, in connection with the Fund's previously conducted tender offers. Under the program, the Fund may purchase, from time to time, shares of the Fund's common stock in open-market transactions, at the discretion of the Fund's investment manager.

At December 31, 2004, there were 100 million shares authorized (\$.01 par value).

5. INCOME TAXES

At December 31, 2004, the Fund had deferred capital losses occurring subsequent to October 31, 2004, of \$2,401,388. For tax purposes, such losses will be reflected in the year ending December 31, 2005.

7. INVESTMENTS IN FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Franklin Advisers Inc. (an affiliate of the Fund's investment manager). Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management fees paid by the Sweep Money Fund.

8. RECENT LITIGATION

Pursuant to a settlement agreement which was announced on March 20, 2003, between the Fund and Harvard College, a former shareholder of the Fund, Harvard Management Company, Inc. ("Harvard Management"), which is an investment advisor to Harvard College, and Steven Alperin, an officer of Harvard Management (referred to collectively as "Harvard"), the Fund agreed to take, and the Board approved, the following actions, among other actions, which have already been carried out.

- o IN-KIND TENDER OFFERS--The Fund has applied to the SEC for an exemptive order allowing the Fund to make occasional, non-periodic tender offers, each for up to 20% of the Fund's outstanding shares at a price equal to 95% of net asset value per share as of the date the offer expires, to be paid entirely in kind through a pro rata distribution of marketable portfolio securities and available cash. Subject to certain conditions, the settlement required the Fund to commence such an in-kind tender offer for 20% of the Fund's shares within three months after obtaining the SEC exemption. The Fund has also been required under the settlement to conduct, on substantially identical terms, up to two additional in-kind tender offers under certain circumstances. There is no assurance that the SEC will issue the exemptive order, nor is it possible to predict the date when an exemptive order might be granted.
- o ADDITIONAL CASH TENDER OFFERS--If the SEC did not issue the exemptive order for in-kind tender offers by March 26, 2004, the settlement provided that the Fund could, but was not obligated to, conduct an additional cash tender offer, and possibly later follow-on cash tender offers, each for 15% of the Fund's outstanding shares at a price of 92.5% of net asset value per share as of the date the offer expires. Under certain circumstances, if the Fund did not conduct these tender offers, Harvard would be relieved of its obligation to refrain from making shareholder proposals and taking other actions with respect to the Fund. The exemptive application was not received by March 26, 2004 and the Fund did not conduct any tender offers in 2004.

The settlement agreement provides that the Fund will not be obligated to commence in-kind tender offers or additional cash tender offers under certain circumstances or conditions. These relate to, among other things, the number of shares tendered by shareholders into preceding tender offers as well as the beneficial ownership percentages of the Fund's shareholders.

STANDSTILL. As part of the settlement, Harvard agreed not to submit any proposals for consideration by shareholders of the Fund, or any other closed-end fund or similar investment vehicle managed by TAML or its affiliates, or for consideration by shareholders of Franklin Resources, nor to encourage others to do so, for a period of four years. Harvard also has agreed not at any time to acquire additional shares of the Fund or any other closed-end fund or similar investment vehicle managed by TAML or its affiliates.

9. REGULATORY MATTERS

INVESTIGATIONS

As part of various investigations by a number of federal, state, and foreign regulators and governmental entities, including the Securities and Exchange Commission ("SEC"), the California Attorney General's Office ("CAGO"), and the National Association of Securities Dealers, Inc. ("NASD"), relating to certain practices in the mutual fund industry, including late trading, market timing and marketing support payments to securities dealers who sell fund shares, Franklin Resources, Inc. and certain of its subsidiaries (as used in this section, together, the "Company"), as well as certain current or former executives and employees of the Company, received subpoenas and/or requests for documents, information and/or testimony. The Company and its current employees provided documents and information in response to those requests and subpoenas.

SETTLEMENTS

Beginning in August 2004, the Company entered into settlements with certain regulators investigating the mutual fund industry practices noted above. The Company believes that settlement of each of the matters described in this section is in the best interest of the Company and shareholders of the Franklin, Templeton, and Mutual Series mutual funds (the "funds").

On August 2, 2004, Franklin Resources, Inc. announced that its subsidiary, Franklin Advisers, Inc., reached an agreement with the SEC that resolved the issues resulting from the SEC investigation into market timing activity. In connection with that agreement, the SEC issued an "Order Instituting Administrative and Cease-and-Desist Proceedings Pursuant to Sections 203(e) and 203(k) of the Investment Advisers Act of 1940 and Sections 9(b) and 9(f) of the Investment Company Act of 1940, Making Findings and Imposing Remedial Sanctions and a Cease-and-Desist Order" (the "Order"). The SEC's Order concerned the activities of a limited number of third parties that ended in 2000 and those that were the subject of the first Massachusetts administrative complaint described below.

SETTLEMENTS (CONTINUED)

Under the terms of the SEC's Order, pursuant to which Franklin Advisers, Inc. neither admitted nor denied any of the findings contained therein, Franklin Advisers, Inc. agreed to pay \$50 million, of which \$20 million is a civil penalty, to be distributed to shareholders of certain funds in accordance with a plan to be developed by an independent distribution consultant. At this time, it is unclear which funds or which shareholders of any particular fund will receive distributions. The Order also required Franklin Advisers, Inc. to, among other things, enhance and periodically review compliance policies and procedures.

On September 20, 2004, Franklin Resources, Inc. announced that two of its subsidiaries, Franklin Advisers, Inc. and Franklin Templeton Alternative Strategies, Inc. ("FTAS"), reached an agreement with the Securities Division of the Office of the Secretary of the Commonwealth of Massachusetts (the "State of Massachusetts") related to its administrative complaint filed on February 4, 2004, concerning one instance of market timing that was also a subject of the August 2, 2004 settlement that Franklin Advisers, Inc. reached with the SEC, as described above.

Under the terms of the settlement consent order issued by the State of Massachusetts, Franklin Advisers, Inc. and FTAS consented to the entry of a cease-and-desist order and agreed to pay a \$5 million administrative fine to the State of Massachusetts (the "Massachusetts Consent Order"). The Massachusetts Consent Order included two different sections: "Statements of Fact" and "Violations of Massachusetts Securities Laws." Franklin Advisers, Inc. and FTAS admitted the facts in the Statements of Fact.

On October 25, 2004, the State of Massachusetts filed a second administrative complaint, alleging that Franklin Resources, Inc.'s Form 8-K filing (in which it described the Massachusetts Consent Order and stated that "Franklin did not admit or deny engaging in any wrongdoing") failed to state that Franklin Advisers, Inc. and FTAS admitted the Statements of Fact portion of the Massachusetts Consent Order (the "Second Complaint"). Franklin Resources, Inc. reached a second agreement with the State of Massachusetts on November 19, 2004, resolving the Second Complaint. As a result of the November 19, 2004 settlement, Franklin Resources, Inc. filed a new Form 8-K. The terms of the Massachusetts Consent Order did not change and there was no monetary fine associated with this second settlement.

On November 17, 2004, Franklin Resources, Inc. announced that Franklin/Templeton Distributors, Inc. ("FTDI") reached an agreement with the CAGO, resolving the issues resulting from the CAGO's investigation concerning sales and marketing support payments. Under the terms of the settlement, FTDI neither admitted nor denied the allegations in the CAGO's complaint and agreed to pay \$2 million to the State of California as a civil penalty, \$14 million to the funds, to be allocated by an independent distribution consultant to be paid for by FTDI, and \$2 million to the CAGO for its investigative costs.

SETTLEMENTS (CONTINUED)

On December 13, 2004, Franklin Resources, Inc. announced that its subsidiaries FTDI and Franklin Advisers, Inc. reached an agreement with the SEC, resolving the issues resulting from the SEC's investigation concerning marketing support payments to securities dealers who sell fund shares. In connection with that agreement, the SEC issued an "Order Instituting Administrative and Cease-and-Desist Proceedings, Making Findings, and Imposing Remedial Sanctions Pursuant to Sections 203(e) and 203(k) of the Investment Advisers Act of 1940, Sections 9(b) and 9(f) of the Investment Company Act of 1940, and Section 15(b) of the Securities Exchange Act of 1934" (the "Second Order").

Under the terms of the Second Order, in which FTDI and Franklin Advisers, Inc. neither admitted nor denied the findings contained therein, they agreed to pay the funds a penalty of \$20 million and disgorgement of \$1 (one dollar). FTDI and Franklin Advisers, Inc. also agreed to implement certain measures and undertakings relating to marketing support payments to broker-dealers for the promotion or sale of fund shares, including making additional disclosures in the funds' Prospectuses and Statements of Additional Information. The Second Order further requires the appointment of an independent distribution consultant, at the Company's expense, who shall develop a plan for the distribution of the penalty and disgorgement to the funds.

OTHER LEGAL PROCEEDINGS

The Company and other funds, and certain current and former officers, employees, and directors have been named in multiple lawsuits in different federal courts in Nevada, California, Illinois, New York and Florida, alleging violations of various federal securities laws and seeking, among other relief, monetary damages, restitution, removal of fund trustees, directors, advisers, administrators, and distributors, rescission of management contracts and 12b-1 Plans, and/or attorneys' fees and costs. Specifically, the lawsuits claim breach of duty with respect to alleged arrangements to permit market timing and/or late trading activity, or breach of duty with respect to the valuation of the portfolio securities of certain Templeton funds managed by Franklin Resources, Inc. subsidiaries, resulting in alleged market timing activity. The majority of these lawsuits duplicate, in whole or in part, the allegations asserted in the February 4, 2004 Massachusetts administrative complaint and the findings in the SEC's August 2, 2004 Order, as described above. The lawsuits are styled as class actions, or derivative actions on behalf of either the named funds or Franklin Resources, Inc.

In addition, the Company, as well as certain current and former officers, employees, and directors, have been named in multiple lawsuits alleging violations of various securities laws and pendent state law claims relating to the disclosure of directed brokerage payments and/or payment of allegedly excessive advisory, commission, and distribution fees, and seeking, among other relief, monetary damages, restitution, rescission of advisory contracts, including recovery of all fees paid pursuant to those contracts, an accounting of all monies paid to the named advisers, declaratory relief, injunctive relief, and/or attorneys' fees and costs. These lawsuits are styled as class actions or derivative actions brought on behalf of certain funds.

OTHER LEGAL PROCEEDINGS (CONTINUED)

The Company and fund management strongly believes that the claims made in each of the lawsuits identified above are without merit and intends to vigorously defend against them. The Company cannot predict with certainty, however, the eventual outcome of the remaining governmental investigations or private lawsuits, nor whether they will have a material negative impact on the Company. Public trust and confidence are critical to the Company's business and any material loss of investor and/or client confidence could result in a significant decline in assets under management by the Company, which would have an adverse effect on the Company's future financial results. If the Company finds that it bears responsibility for any unlawful or inappropriate conduct that caused losses to the Fund, it is committed to making the Fund or its shareholders whole, as appropriate. The Company is committed to taking all appropriate actions to protect the interests of its funds' shareholders.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan") with the following features:

If shares of the Fund are held in the shareholder's name, the shareholder will automatically be a participant in the Plan (other than shareholders holding their shares through Japan Securities Clearing Corporation, who will not be

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

enrolled in the Plan unless certain conditions are met and they elect to participate), unless he elects to withdraw. If the shares are registered in the name of a broker-dealer or other nominee (i.e., in "street name"), the broker-dealer or nominee will elect to participate in the Plan on the shareholder's behalf unless the shareholder instructs them otherwise, or unless the reinvestment service is not provided by the broker-dealer or nominee.

Participants should contact Mellon Investor Services LLC, P.O. Box 3338, South Hackensack, NJ 07606-1938, to receive the Plan brochure.

To receive dividends or distributions in cash, the shareholder must notify Mellon Bank, N.A. (the "Plan Administrator") at the address above or the institution in whose name the shares are held. The Plan Agent must receive written notice within 10 business days before the record date for the distribution.

Whenever the Fund declares dividends in either cash or common stock of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in stock at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional payments to the Plan Administrator, in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments shall be made by check or money order payable to "Mellon Bank, N.A." and sent to Mellon Investor Services, P.O. Box 382009, Pittsburgh, PA 15250-8009, Attn: Templeton Dragon Fund, Inc. The Plan Administrator shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of the Fund's shares in the open market.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax which may be payable on dividends or distributions.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (CONTINUED)

The participant may withdraw from the Plan without penalty at any time by written notice to the Plan Administrator sent to Mellon Investor Services LLC, P.O. Upon withdrawal, the participant will receive, without charge, stock certificates issued in the participant's name for all full shares held by the Plan Administrator; or, if the participant wishes, the Plan Administrator will sell the participant's shares and send the proceeds, less a service charge and less trading fees. Effective April 23, 2004, the fees for the sale of shares through the Plan are \$15.00 per transaction plus a \$0.12 per share trading fee. All other terms and conditions of the Plan remain

TAX DESIGNATION (UNAUDITED)

Under Section 852(b)(3)(C) of the Internal Revenue Code (Code), the Fund hereby designates \$15,546,596 as a capital gain dividend for the fiscal year ended December 31, 2004.

Under Section 854(b)(2) of the Code, the Fund hereby designates up to a maximum of \$3,173,745 as qualified dividends for purposes of the maximum rate under Section 1(h)(11) of the Code for the fiscal year ended December 31, 2004. In January 2005, shareholders will receive Form 1099-DIV which will include their share of qualified dividends distributed during the calendar year 2004. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their individual income tax returns.

At December 31, 2004, more than 50% of the Templeton Dragon Fund, Inc.'s total assets were invested in securities of foreign issuers. In most instances, foreign taxes were withheld from dividends paid to the Fund on these investments. As shown in the table below, the Fund hereby designates to shareholders the foreign source income and foreign taxes paid, pursuant to Section 853 of the Code. This designation will allow shareholders of record on December 31, 2004, to treat their proportionate share of foreign taxes paid by the Fund as having been paid directly by them. The shareholder shall consider these amounts as foreign taxes paid in the tax year in which they receive the Fund distribution.

The following table provides a detailed analysis, by country, of foreign tax paid, foreign source income, foreign qualified dividends, and adjusted foreign source income as designated by the Fund, to Class A shareholders of record. As a service to individual shareholders filing Form 1116, "Adjusted Foreign Source Income per Share" in column 4 below reports foreign source income with the required adjustments to foreign source qualified dividends. This information is provided to simplify your reporting of foreign source income for line 1 of Form 1116.

Foreign Tax Paid per Share (Column 1) is the amount per share available to you, as a tax credit or deduction (assuming you held your shares in the Fund for a minimum of 16 days during the 30-day period beginning 15 days before the ex-dividend date of the Fund's distribution to which the foreign taxes relate).

Foreign Source Income per Share (Column 2) is the amount per share of income dividends paid to you that is attributable to foreign securities held by the Fund, plus any foreign taxes withheld on these dividends. The amounts reported include foreign source qualified dividends without adjustment for the lower U.S. tax rates. Generally, this is the foreign source income to be reported by certain trusts and corporate shareholders.

Templeton Dragon Fund, Inc.

TAX DESIGNATION (UNAUDITED) (CONTINUED)

Foreign Qualified Dividends per Share (Column 3) is the amount per share of foreign source qualified dividends the Fund paid to you, plus any foreign taxes withheld on these dividends. These amounts represent the portion of the Foreign Source Income reported to you in column 2 that were derived from qualified foreign securities held by the Fund. If you are an individual shareholder who does not meet the qualified dividend holding period requirements, you may find this information helpful to calculate the foreign source income adjustment needed to complete line 1 of Form 1116.

Adjusted Foreign Source Income per Share (Column 4) is the adjusted amount per share of foreign source income the Fund paid to you. These amounts reflect the Foreign Source Income reported in column 2 adjusted for the tax rate differential on foreign source qualified dividends that may be required for certain individual shareholders pursuant to Internal Revenue Code 904(b)(2)(B). If you are an individual shareholder who meets the qualified dividend holding period requirements, generally, these Adjusted Foreign Source Income amounts may be reported directly on line 1 of Form 1116 without additional adjustment.

In January 2005, shareholders will receive Form 1099-DIV which will include their share of taxes paid and foreign source income distributed during the calendar year 2004. The Foreign Source Income reported on Form 1099-DIV has been reduced to take into account the tax rate differential on foreign source qualified dividend income pursuant to Internal Revenue Code 904(b)(2)(B). Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their 2004 individual income tax returns.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The board of directors of the Fund has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's manager

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

Templeton Asset Management Ltd in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the manager.

The manager has delegated its administrative duties with respect to the voting of proxies to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the manager's instructions and/or policies.

To assist it in analyzing proxies, the manager subscribes to Institutional Shareholder Services (ISS), an unaffiliated third party corporate governance research service that provides in-depth analyses of shareholder meeting agendas, vote recommendations, recordkeeping and vote disclosure services. In addition, the manager subscribes to Glass Lewis & Co., LLC (Glass Lewis), an unaffiliated third party analytical research firm, to receive analyses and vote recommendations on the shareholder meetings of publicly held U.S. companies. Although ISS' and/or Glass Lewis' analyses are thoroughly reviewed and considered in making a final voting decision, the manager does not consider recommendations from ISS, Glass Lewis or any other third party to be determinative of the manager's ultimate decision. The manager votes proxies solely in the interests of the Fund and its shareholders. As a matter of policy, the officers, directors/trustees and employees of the Fund, the manager and the Proxy Group will not be influenced by outside sources whose interests conflict with the interests of the Fund and its shareholders. All conflicts are resolved in the interests of the manager's clients. In situations where the manager perceives a material conflict of interest, the manager may: disclose the conflict to the Fund's board of directors; defer to the voting recommendation of the Fund's board of directors, ISS, Glass Lewis or those of another independent third party provider of proxy services; or take such other action in good faith (in consultation with counsel) which would protect the interests of the Fund and its shareholders.

The recommendation of management on any issue is a factor which the manager considers in determining how proxies should be voted, but is not determinative of the manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

MANAGER'S PROXY VOTING POLICIES AND PRINCIPLES The manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may arise and the manager cannot anticipate all future situations. In all cases, each proxy will be considered based on the relevant facts and circumstances.

BOARD OF DIRECTORS. The manager supports an independent board of directors, and prefers that key committees such as audit, nominating, and compensation committees be comprised of independent directors. The manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The manager may withhold votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the manager will review this issue as well as proposals to restore or provide for cumulative voting on a case-by-case basis, taking into consideration factors such as the company's corporate governance guidelines or provisions and performance.

RATIFICATION OF AUDITORS OF PORTFOLIO COMPANIES. In light of several high profile accounting scandals, the manager will closely scrutinize the role and performance of auditors. On a case-by-case basis, the manager will examine

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

proposals relating to non-audit relationships and non-audit fees. The manager will also consider, on a case-by-case basis, proposals to rotate auditors, and will vote against the ratification of auditors when there is clear and compelling evidence of accounting irregularities or negligence.

MANAGEMENT & DIRECTOR COMPENSATION. A company's equity-based compensation plan should be in alignment with its shareholders' long-term interests. The manager evaluates plans on a case-by-case basis by considering several factors to determine whether the plan is fair and reasonable, including the ISS quantitative model utilized to assess such plans and/or the Glass Lewis evaluation of the plans. The manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment "evergreen" feature. The manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the manager will generally oppose "golden parachutes" that are considered to be excessive. The manager will normally support proposals that require a percentage of directors' compensation to be in the form of common stock, as it aligns their interests with those of shareholders. The manager will review on a case-by-case basis any shareholder proposals to adopt policies on expensing stock option plans.

ANTI-TAKEOVER MECHANISMS AND RELATED ISSUES. The manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. On occasion, the manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The manager generally supports proposals that require shareholder rights' plans ("poison pills") to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. The manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The manager generally opposes any supermajority voting requirements as well as the payment of "greenmail." The manager generally supports "fair price" provisions and confidential voting.

CHANGES TO CAPITAL STRUCTURE. The manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase and proposals seeking preemptive rights. The manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable.

MERGERS AND CORPORATE RESTRUCTURING. Mergers and acquisitions will be subject to careful review by the research analyst to determine whether each will be beneficial to shareholders. The manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring and reincorporation proposals are also subject to a thorough examination on a case-by-case basis.

SOCIAL AND CORPORATE POLICY ISSUES. The manager will generally give management discretion with regard to social, environmental and ethical issues, although the manager may vote in favor of those that are believed to have significant economic benefits or implications for the Fund and its shareholders.

GLOBAL CORPORATE GOVERNANCE. Many of the tenets discussed above are applied to proxy voting decisions for international companies. However, the manager must be

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

more flexible in these instances and must be mindful of the varied market practices of each region.

The manager will attempt to process every proxy it receives for all domestic and foreign proxies. However, there may be situations in which the manager cannot process proxies, for example, where a meeting notice was received too late, or sell orders preclude the ability to vote. The manager may abstain from voting under certain circumstances or vote against items such as "Other Business" when the manager is not given adequate information from the company.
