FOR IMMEDIATE USE

# INDEPENDENT BANK CORPORATION REPORTS SECOND QUARTER 2004 RESULTS

**IONIA**, Michigan, July 29, 2004 . . . . Independent Bank Corporation (Nasdaq: IBCP), a Michigan-based bank holding company reported that its second quarter 2004 net income was \$9.0 million or \$0.44 per diluted share. A year earlier, net income totaled \$9.1 million or \$0.45 per diluted share. Return on average equity and return on average assets were 19.89% and 1.43%, respectively in the second quarter of 2004 compared to 24.37% and 1.66%, respectively in 2003.

The Company s net income for the six months ended June 30, 2004 totaled \$17.4 million or \$0.86 per diluted share. Net income for the first six months of 2003 was \$17.9 million or \$0.89 per diluted share.

The slight decline in quarterly net income is primarily a result of declines in net gains on real estate mortgage loan sales and title insurance fees, as well as an increase in non-interest expense (due primarily to a \$2.7 million charge for an estimated liability as described below as well as a \$1.0 million write-off of uncompleted software). Partially offsetting these items were increases in net interest income, service charges on deposits, and real estate mortgage loan servicing income (due primarily to a \$1.6 million recovery of a previously recorded impairment charge on capitalized mortgage loan servicing rights).

During the second quarter of 2004 the Company received an unsolicited anonymous letter regarding certain business practices at Mepco Insurance Premium Financing, Inc. (Mepco), which was acquired in April 2003 and is now a wholly-owned subsidiary of Independent Bank. The Company processed this letter in compliance with its Policy Regarding the Resolution of Reports on the Company s Accounting, Internal Controls and Other Business Practices, Under the direction of the Company s Audit Committee, special legal counsel has been engaged to investigate the matters raised in the anonymous letter. Currently, the investigation is ongoing, and given the volume of information that must be reviewed, it is likely to take several months before final determination can be made of potential liability to third parties. The Company has determined that any amounts relating to the period after the April 2003 acquisition of Mepco by Independent Bank Corporation are not significant. Amounts related to periods prior to the April 2003 acquisition date have not yet been finally determined. Based on the investigation to date, which is in the early phases as to the period prior to the April 2003 acquisition date, the potential liability may be as high as \$5 million, although there can be no assurance that the potential liability will not exceed that amount. The potential liability may, however, be substantially less, depending on the facts determined in the investigation and the application of the law to those facts. As a result of a review of these matters, the Company has recorded a liability of \$2.7 million at June 30, 2004 with a corresponding charge to earnings (included in non-interest expenses) for potential third-party claims. This amount represents the Company s best estimate at the present time. Circumstances related to the ongoing investigation may result in future adjustments to this accrual. The terms of the agreement under which the Company acquired Mepco, obligates the former shareholders of Mepco to indemnify the Company for existing and resulting damages and liabilities from pre-acquisition activities at Mepco. Accordingly, to the extent that the Company actually incurs any damages or liabilities resulting from these pre-acquisition activities, the Company believes that it has reasonable grounds to claim and collect full reimbursement. However, there can be no assurance that Independent Bank Corporation will successfully prevail with respect to any of these potential claims.

Independent Bank Corporation 2nd Quarter 2004 Earnings Release

On May 31, 2004, the Company completed its acquisition of Midwest Guaranty Bancorp, Inc. As a result, the Company issued 997,700 shares of its common stock and paid \$16.6 million in cash to the Midwest shareholders. The second quarter of 2004 includes the results of Midwest s operations subsequent to May 31, 2004. At the time of acquisition, Midwest had total assets of \$238.0 million, total loans of \$205.0 million, total deposits of \$198.9 million and total stockholders equity of \$18.7 million.

The Company s tax equivalent net interest income totaled \$29.1 million during the second quarter of 2004, which represents a \$4.4 million or 17.8% increase from the comparable quarter one year earlier. The adjustments to determine tax equivalent net interest income were \$1.3 million and \$1.2 million for the second quarters of 2004 and 2003, respectively, and were computed using a 35% tax rate. The increase in tax equivalent net interest income primarily reflects a \$292.6 million increase in the balance of average interest-earning assets and to a lesser degree a 15 basis point increase in the Company s tax equivalent net interest income as a percent of average interest-earning assets. The increase in average interest-earning assets is due to the Midwest acquisition as well as growth in commercial loans, real estate mortgage loans, finance receivables and investment securities. The maturity of higher costing time deposits and borrowings, as well as increased levels of lower cost core deposits (including those added as a result of the Midwest Guaranty acquisition), resulted in a 64 basis point decline in the Company s interest expense as a percentage of average interest-earning assets during the second quarter of 2004 compared to the second quarter of 2003. The decline in the cost of funds was largely offset by a 48 basis point decline in the tax equivalent yield on average interest-earning assets to 6.72% in the second quarter of 2004 from 7.20% in the second quarter of 2003. This decline is due to both the amortization and prepayment of higher yielding loans and the addition of new loans and new investment securities at lower interest rates.

Service charges on deposits totaled \$4.3 million in the second quarter of 2004, a \$0.6 million or 15.8% increase from the comparable period in 2003. The increase in deposit related service fees resulted primarily from the continued growth of checking accounts.

Gains on the sale of real estate mortgage loans were \$2.2 million and \$4.3 million in the second quarters of 2004 and 2003, respectively. Real estate mortgage loan sales totaled \$137.9 million in the second quarter of 2004 compared to \$242.5 million in the second quarter of 2003. These declines primarily are a result of a significant drop in mortgage loan refinance activity. During the second quarter of 2004, gains on the sale of real estate mortgage loans were decreased by approximately \$0.1 million, net, as a result of recording changes in the fair value of certain derivative instruments pursuant to Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activity (SFAS #133), compared to a \$0.4 million increase in the second quarter of 2003. Real estate mortgage loans originated totaled \$199.6 million in the second quarter of 2004 compared to \$363.1 million in the comparable quarter of 2003, and loans held for sale were \$36.7 million at June 30, 2004 compared to \$32.6 million at December 31, 2003.

Primarily as a result of the above mentioned decrease in real estate mortgage loan origination activity, title insurance fees declined by 40.6%, to \$0.5 million in the second quarter of 2004 compared to \$0.9 million in the second quarter of 2003.

Independent Bank Corporation 2nd Quarter 2004 Earnings Release

Real estate mortgage loan servicing generated income of \$1.8 million in the second quarter of 2004 compared to an expense of \$1.0 million in the second quarter of 2003. This increase is primarily due to changes in the impairment reserve on and the amortization of capitalized mortgage loan servicing rights. Activity related to capitalized mortgage loan servicing rights is as follows:

	Quarter Ended (in Thousands)							
		5/30/04	(	06/30/03				
Balance at beginning of period Servicing rights capitalized Amortization Decrease (increase) in impairment reserve	\$	8,082 1,110 (645) 1,607	\$	5,341 2,058 (1,264) (570)				
Balance at end of period	\$	10,154	\$	5,565				
Impairment reserve at period end	\$	160	\$	1,830				

The decline in servicing rights capitalized is due to the lower level of real estate mortgage loan sales in the second quarter of 2004 compared to 2003. The amortization of capitalized mortgage loan servicing rights declined in 2004 compared to 2003 due to a lower level of mortgage loan prepayment activity. The impairment reserve on capitalized mortgage loan servicing rights totaled \$0.2 million at June 30, 2004, compared to \$1.8 million and \$0.7 million at March 31, 2004, and December 31, 2003, respectively. The changes in the impairment reserve reflect the valuation of capitalized mortgage loan servicing rights at each quarter end. At June 30, 2004, expected future prepayment rates used in the valuation of this asset declined significantly from earlier in the year as a result of the rise in mortgage loan interest rates. At June 30, 2004, the Company was servicing approximately \$1.2 billion in real estate mortgage loans for others on which servicing rights have been capitalized. This servicing portfolio had a weighted average coupon rate of approximately 5.87% and a weighted average service fee of 26.1 basis points.

Non-interest expense totaled \$26.2 million in the second quarter of 2004, an increase of \$5.6 million compared to the second quarter of 2003. As noted earlier, second quarter non-interest expenses include a \$2.7 million charge related to potential claims at Mepco and a \$1.0 million impairment charge for the write-off of previously capitalized software development costs. This software was being developed by Mepco over the past three years for internal use in connection with its lending activities. With the assistance of a third-party consultant, during the second quarter of 2004 the Company determined that this uncompleted internal use software was not expected to provide substantive service potential due primarily to performance, functionality and application server platform issues. Second quarter 2004 non-interest expenses also included \$0.2 million of one-time data processing conversion costs as well as approximately \$0.5 million of additional operating expenses both related to the Midwest Guaranty acquisition. A majority of the remainder of the increase in non-interest expense is primarily due to increases in compensation and employee benefits. The increase in compensation and employee benefits expense is primarily attributable to merit pay increases that were effective January 1, 2004, staffing level increases associated with the expansion and growth of the organization and increases in performance-based compensation and health care insurance costs.

Independent Bank Corporation 2nd Quarter 2004 Earnings Release

A breakdown of non-performing loans by loan type is as follows:

Loan Type	6/30/2004		12/	31/2003	6/30/2003	
			(Dollars	in Millions)		
Commercial	\$	5.7	\$	3.9	\$	3.6
Commercial guaranteed						
under federal program		1.0		2.3		
Consumer		0.9		0.9		0.7
Mortgage		3.8		3.7		2.6
Finance receivables		1.6		1.9		1.3
Total	\$	13.0	\$	12.7	\$	8.2
Ratio of non-performing loans to total portfolio loans		0.65%		0.76%		0.53%

The overall level of non-performing loans was relatively unchanged during the first six months of 2004. The acquisition of Midwest Guaranty added approximately \$1.0 million of non-performing loans as of June 30, 2004. Other real estate and repossessed assets totaled \$3.5 million at June 30, 2004 compared to \$3.3 million at December 31, 2003. The increase in other real estate and repossessed assets is due primarily to an increase in the level of repossessed assets related to consumer loans. The provision for loan losses was \$0.7 million in the second quarters of both 2004 and 2003. The level of the provision for loan losses reflects the Company s assessment of the allowance for loan losses taking into consideration factors such as loan mix, levels of non-performing and classified loans and net charge-offs. Net charge-offs for the second quarter of 2004 totaled \$0.7 million, or 0.16% (annualized) of average loans, compared to \$0.5 million, or 0.13% (annualized) of average loans, during the second quarter of 2003. At June 30, 2004 the allowance for loan losses totaled \$20.1 million, or 1.01% of portfolio loans compared to \$16.8 million, or 1.01% of portfolio loans at December 31, 2003.

Total assets were \$2.78 billion at June 30, 2004 compared to \$2.36 billion at December 31, 2003. Loans, excluding loans held for sale, increased to \$2.00 billion at June 30, 2004 from \$1.67 billion at December 31, 2003. The increase in loans is primarily due to the acquisition of Midwest Guaranty Bancorp as well as growth in commercial loans, real estate mortgage loans and finance receivables. Deposits totaled \$1.97 billion at June 30, 2004, an increase of \$264.3 million from December 31, 2003. This increase is primarily attributable to the acquisition of Midwest Guaranty Bancorp as well as increases in checking and savings deposits and brokered certificates of deposit. Stockholders equity totaled \$200.2 million at June 30, 2004, or 7.21% of total assets, and represents a net book value per share of \$9.64. During the second quarter of 2004 the Company repurchased 81,600 shares of its common stock at an average price of \$24.53 per share.

#### **About Independent Bank Corporation**

Independent Bank Corporation (Nasdaq: IBCP) is a Michigan-based bank holding company with total assets of \$2.8 billion. Founded as First Security Bank in 1864, Independent Bank Corporation now operates 104 offices across Michigan s Lower Peninsula through four state-chartered bank subsidiaries. These subsidiaries, Independent Bank, Independent Bank East Michigan, Independent Bank South Michigan and Independent Bank West Michigan, provide a full range of financial services, including commercial banking, mortgage lending, investments and title services. Financing for insurance premiums and extended automobile warranties is also available through Mepco Insurance Premium Financing, Inc., a wholly owned subsidiary of Independent Bank. Independent Bank Corporation is committed to providing exceptional personal service and value to its customers, stockholders and the communities it serves. For more information, please visit our website at: <a href="https://www.ibcp.com">www.ibcp.com</a>

Independent Bank Corporation recently announced the July 1, 2004 closing of its acquisition of North Bancorp, Inc. (a \$155 million bank holding company headquartered in Gaylord, Michigan with three banking offices).

Independent Bank Corporation 2nd Quarter 2004 Earnings Release

Any statements in this news release that are not historical facts are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Words such as expect, believe, intend, estimate, project, may and similar expressions are intended to identify forward-looking statements. These forward-looking statements are predicated on management s beliefs and assumptions based on information known to Independent Bank Corporation s management as of the date of this news release and do not purport to speak as of any other date. Forward-looking statements may include descriptions of plans and objectives of Independent Bank Corporation s management for future or past operations, products or services, and forecasts of the Company s revenue, earnings or other measures of economic performance, including statements of profitability, business segments and subsidiaries, and estimates of credit quality trends. Such statements reflect the view of Independent Bank Corporation s management as of this date with respect to future events and are not guarantees of future performance, involve assumptions and are subject to substantial risks and uncertainties, such as the changes in Independent Bank Corporation s plans, objectives, expectations and intentions. Should one or more of these risks materialize or should underlying beliefs or assumptions prove incorrect, the Company s actual results could differ materially from those discussed. Factors that could cause or contribute to such differences are changes in interest rates, changes in the accounting treatment of any particular item, the results of regulatory examinations, changes in industries where the Company has a concentration of loans, changes in the level of fee income, changes in general economic conditions and related credit and market conditions, and the impact of regulatory responses to any of the foregoing. Forward-looking statements speak only as of the date they are made. Independent Bank Corporation does not undertake to update forward-looking statements to reflect facts, circumstances, assumptions or events that occur after the date the forward-looking statements are made. For any forward-looking statements made in this news release or in any documents, Independent Bank Corporation claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.
