FRESH AMERICA CORP. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Description of Business and Summary of Significant Accounting Policies

BASIS OF PRESENTATION AND CONSOLIDATION

Fresh America Corp. ("Fresh America", the "Company", "we", "us" or "our") provides procurement, processing, repacking, warehousing and distribution services of fresh produce and other refrigerated products for a wide variety of customers in the retail, food service and food distribution businesses. The Company was founded in 1989 and distributes throughout the United States and Canada through 8 distribution facilities and 1 processing facility.

The Company's fiscal year is a 52-week period ending on the last Friday in December. The quarters ended September 28, 2001 and September 29, 2000 each consisted of 13 weeks. The consolidated financial statements include the accounts of Fresh America Corp. and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

UNAUDITED INTERIM FINANCIAL INFORMATION

The consolidated balance sheet as of September 28, 2001, the consolidated statements of operations and the consolidated statements of cash flows for the periods ended September 28, 2001 and September 29, 2000 and related notes have been prepared by the Company and are unaudited. In the opinion of the Company, the interim financial information includes all normal recurring adjustments necessary for a fair statement of the results of the interim periods.

Certain information, definitions and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted from the interim financial information. The interim financial information should be read in conjunction with the Company's audited consolidated financial statements included in the Annual Report on Form 10-K for the fiscal year ended December 29, 2000. The results for the periods ended September 28, 2001 and September 29, 2000 may not be indicative of operating results for the full year.

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

Prior year balances include certain reclassifications to conform to the current year presentation.

EARNINGS PER SHARE

Basic earnings (loss) per share ("EPS") is calculated by dividing net earnings (loss) applicable to common shareholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. See Note 4 - " Earnings (Loss) Per Share" for the calculation of EPS.

NEW ACCOUNTING STANDARDS

The Company has assessed the reporting and disclosure requirements of Statement of Financial Accounting Standard ("SFAS") No. 133, "Accounting For Derivative Instruments and Hedging Activities". This statement, as amended, establishes accounting and reporting standards for derivative instruments and hedging activities and will require the Company to recognize all derivatives on its balance sheet at fair value. If the derivative is a hedge, depending on the nature of the hedge, changes in the fair value of the derivatives will either be offset against the change in fair value of the hedged item through earnings, or recognized in other comprehensive income until the hedged item is recognized in earnings. The provisions of SFAS No. 133 were adopted in the first quarter of fiscal 2001, and since the Company is not party to any derivative contracts, adoption of this statement did not have any effect on the Company's results of operations or financial position.

5

FRESH AMERICA CORP. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

SEGMENT AND RELATED INFORMATION

The Company provides disclosure required by SFAS No. 131, "Disclosures About Segments of an Enterprise and Related Information," which establishes standards for the way public business enterprises report information about products and services. Since each business unit is similarly engaged in procurement, processing and distribution services, the business units have been aggregated into one reportable segment for reporting purposes.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2. Debt and Liquidity

Restructuring. Throughout its operational restructuring during the past two years, the Company has pursued various financing opportunities in an effort to restructuring its debt. In September 2001, the Company completed a financial restructuring whereby North Texas Opportunity Fund LP, ("NTOF") and its affiliates purchased 50,000 shares of the Company's 8% Series D cumulative redeemable preferred stock and warrants exercisable for 84,100,980 shares of the Company's common stock for cash proceeds of \$5 million. In connection with the NTOF investment in the Company, John Hancock Life Insurance Company, John

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

Hancock Variable Life Insurance Company, Investors Partner Life Insurance Company, Signature 1A (Cayman) Ltd. and Signature 3 Limited (collectively, the "Subordinated Lender") exchanged \$20 million of subordinated debt, warrants to purchase 576,134 shares of common stock, 50,000 shares of Series C cumulative redeemable preferred stock and all accrued interest and dividends for 27,000 shares of the Company's 8% Series D cumulative redeemable preferred stock and warrants exercisable for 45,414,529 shares of the Company's common stock. The restructuring resulted in an extraordinary gain of \$23.8 million in the third quarter of 2001. The proceeds from the Series D cumulative redeemable preferred stock and warrants issued have been recorded in the amounts of \$1.5 million and \$4.9 million, respectively, based on their respective fair values less issuance costs incurred of \$1.3 million.

Bank Debt. In conjunction with this restructuring, Bank of America, N.A. (the "Senior Lender") agreed to a payment schedule which will reduce the Company's indebtedness to the Senior Lender from \$5.3 million, which was owed at the time of closing of the NTOF transaction, to \$3.8 million by year-end 2001. The outstanding balance at September 28, 2001 was \$4.8 million. The indebtedness, previously a revolving credit facility, was converted to a term note with a maturity of the remaining balance in January 2002. The Company is working to refinance the term debt prior to its maturity. The Company has signed a letter of intent that is subject to customary representations and warranties and is currently working through due diligence with a potential lender. There can be no assurance that the Company will be able to replace its Senior Lender as anticipated or extend its term note beyond January 2002, if that becomes necessary.

Subordinated Debt. Prior to the restructuring in September 2001, the Company had \$20 million of subordinated debt owing to the Subordinated Lender. Additionally in April 2000, the Company issued to the Subordinated Lender \$5 million (50,000 shares) of the Company's Series C cumulative redeemable preferred stock. The Company was not in compliance with certain covenants under the terms of its loan agreements with the Subordinated Lender at June 29, 2001. The Series C preferred stock, the subordinated debt owing to the Subordinated Lender and the accrued but unpaid interest and dividends thereon, and 576,134 warrants were then exchanged for a new issue of the Company's Series D preferred stock and warrants as part of the restructuring discussed above.

6

FRESH AMERICA CORP. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Acquisition Indebtedness. In July 2000, the Company entered into an agreement amending the stock purchase agreement related to the Company's November 1998 acquisition of Perricone Citrus Company. As part of the amended agreement, unsecured promissory notes owed by the Company totaling \$3.5 million and the accrued and unpaid interest therein were restructured, whereby the Company agreed to the following: payments totaling \$100,000 upon execution of the amended agreement; lump-sum payments of \$350,000 and \$150,000 on January 1, 2002 and July 1, 2002, respectively; and 24 monthly installment payments of \$37,500 totaling \$900,000. The balance outstanding at September 28, 2001 was \$837,500. The installment and lump-sum payments accrue interest at 10% per annum. However, all accrued interest will be forgiven if scheduled principal payments are made timely. Additionally, the Company issued the noteholders 300,000 warrants to purchase common shares of the Company at an exercise price of \$2.50 per share. The warrants are exercisable for a seven-year period. The issuance of these securities was exempt from registration under the Securities Act under Regulation D. The restructuring of the promissory notes and related accrued interest resulted in an extraordinary gain to the Company of \$1.9 million in the

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

third quarter of 2000.

In connection with the Company's acquisition of Jos. Notarianni & Co. ("Notarianni") in August 1998, a portion of the purchase price is contingent upon Notarianni's earnings subsequent to its acquisition. The contingent payment for Notarianni will be equal to 1.4 times Notarianni's average annual pretax earnings over a three-year period from October 3, 1998 to October 3, 2001. Any contingent payment is payable in cash or common stock at the Company's sole discretion. The Company is in the process of finalizing the calculation related to this transaction and determining the method of payment. The contingent consideration is estimated to be approximately \$1.0 million and, accordingly, the Company has recorded additional goodwill and a current liability of this amount at September 28, 2001.

The Company's acquisition of Hereford Haven Inc. d/b/a Martin Bros. ("Martin Bros.") in January 1998 also included a contingent payment component in the purchase price. The Martin Bros. contingent payment is equal to 4 times the average annual pretax earnings for the three-year period from January 3, 1998 to January 3, 2001. The total contingent payment was \$5.0 million at December 29, 2000. The payment was due March 31, 2001 and was payable in either cash, common stock or a combination of cash and common stock to the extent of 75% at the Company's option and 25% at the selling shareholder's option. In satisfaction of 75% of this contingent payment, in April 2001 the Company issued 3,166,694 shares of its common stock to Larry Martin, the former owner of Martin Bros. The issuance of these securities to Mr. Martin was exempt from registration under the Securities Act under Regulation D. At the time of issuance, the shares represented a 38% ownership interest in the Company. These shares were valued at \$1.17 per share, the market value of the Company's common stock at the time of the transaction. The remaining \$1.2 million of contingent consideration remained a financial obligation of the Company and was restructured as part of the financial restructuring discussed above. It is payable in cash subject to the approval of the Company's Senior Lender. This payment has been extended and is now due and payable in January 2002.

Equipment Financing. The Company is party to a master lease agreement with SunTrust Bank that has been used to provide equipment financing for several of the Company's operating units. With respect to certain financial covenants under the lease the Company has received waivers for noncompliance through January 2, 2002. The Company is currently renegotiating the financial covenants of this agreement and anticipates this agreement will be revised prior to the expiration of the waiver in January 2002. The lease agreement provides that future lease payments can be accelerated in the event of default. There can be no assurance that the Company will be in compliance with such covenants subsequent to the waiver period or will be successful in renegotiating the covenants.

7

FRESH AMERICA CORP. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Management believes that the combination of the effects of the financial restructuring completed in September 2001, the anticipated refinancing of the indebtedness to the Senior Lender on a long-term basis, cash generated from ongoing operating activities, and the realization of recent reductions in selling, general and administrative expenses will enable the Company to meet its obligations as they come due in the foreseeable future. However, there can be no assurance the Company will be able to replace its Senior Lender as anticipated or extend the term note beyond January 2002, if that becomes necessary.

Note 3. Comprehensive Income (Loss)

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

The following table reconciles the Company's net income (loss) to its comprehensive income (loss) (in thousands):

	Quarter Ended		Nine
	September 28, 2001	September 29, 2000	Septemb 28, 200

	\$.38	\$ (.16)	\$.4

8

FRESH AMERICA CORP. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Options and warrants to purchase 711,290 shares of common stock were outstanding for the quarter ended September 28, 2001 and 711,290 shares of common stock for the nine-month period ended September 28, 2001 were not included in the computation of diluted EPS because to do so would have been anti-dilutive.

Options and warrants to purchase 1,496,000 shares of common stock for the quarter ended September 29, 2000 and 1,358,000 shares of common stock for the nine-month period ended September 29, 2000 were not included in the computation of diluted EPS because their inclusion would have been anti-dilutive.

Note 5. Income Taxes

The income tax benefit for the nine-month period ended September 28, 2001 principally relates to the losses of Ontario Tree Fruits (OTF), the Company's Canadian subsidiary which can be carried back to recover Canadian taxes paid in prior years. The Canadian tax benefit of \$921,000 has been provided at an effective rate of 44.5%, reflecting combined provincial and federal Canadian income taxes. There is no Federal income tax expense on the extraordinary gain arising from the September 2001 restructuring because the Company has sufficient current fiscal year and prior year net operating losses to offset the gain.

Additionally, a US state tax provision of approximately \$205,000 was recorded for the first nine months of 2001.

Income tax expense in the nine-month period ended September 28, 2000 consisted of state income taxes partially offset by a Canadian income tax benefit attributable to a fiscal 2000 third quarter loss of the Company's Canadian subsidiaries.

Based on the Company's assessment of its ability to carry back net operating losses, scheduled reversals of taxable and deductible temporary differences and future taxable income, a valuation allowance has been provided at September 28, 2001 and September 29, 2000 to eliminate the Company's U.S. net deferred tax assets.

9

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

The following table presents the components of the consolidated statements of operations as a percentage of net sales for the periods indicated:

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

	Quarter Ended		Nine
	September 28, 2001	September 29, 2000	Septemb 28, 200
Net sales	100.0%	100.0%	100.0%
Cost of sales	88.3	89.8	88.8
Gross profit	11.7	10.2	11.2
Selling, general and administrative expenses	13.3	9.2	13.8
Disposition costs and impairment of long-lived assets	0.3	-	-

Loss before extraordinary items	(6.7)	(1.8)	(5.4)
Extraordinary gain on extinguishments of debts	45.2	1.4	11.3
Net income (loss)	38.5	(0.4)	5.9
Preferred dividends and accretion	0.8	0.2	0.4
Net income (loss) applicable to common shareholders	37.7%	(0.6%)	5.5%

Comparison of Quarter Ended September 28, 2001 to Quarter Ended September 29, 2000

Net sales. Net sales decreased \$85.9 million, or 62.0%, to \$52.5 million in the third quarter of 2001 from \$138.5 million in the third quarter of 2000. Approximately \$53.0 million of this decrease in revenues is attributable to the loss of the Sam's contract in October 2000. In addition, divestitures of certain operations resulted in decreased sales for the third quarter of 2001 as compared to the same period of 2000. These divestitures included Ontario Tree Fruits ("OTF"), which was sold in March 2001, resulting in a decrease of \$7.6 million and King's Onion House ("King's"), which was sold in April 2001, resulting in a decrease of \$11.1 million. In addition, in May 2001 a decision was reached, via arbitration, to rescind the original purchase agreement of one of the Company's locations, Thompson's Produce. This resulted in a decrease in sales of \$4.0 million compared to the corresponding period in 2000. The aggregate effect of these discontinued operations accounted for \$22.7 million of the total net decrease in sales. The Company also experienced a decrease in sales of approximately \$9.0 million at its Los Angeles facility during the third quarter of 2001. This decrease primarily related to a decline in the vegetable and chili categories of approximately \$5.3 million which was magnified by the loss of four key sales persons in these categories during the third quarter of 2001 and a decrease of approximately \$3.1 million in fruit and yam sales resulting from decreased business and the loss of three key sales persons in the first quarter of 2001. The Company is in the process of replacing these sales persons and re-establishing customer relationships for each product line that was interrupted

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

at this location.

Cost of Sales. Cost of sales decreased \$78.0 million, or 62.7% to \$46.4 million in the third quarter of 2001 from \$124.4 million in the third quarter of 2000. As a percentage of net sales, cost of sales

10

decreased to 88.3% from 89.8%, which in turn increased the Company's gross profit percentage to 11.7% from 10.2%. The Company's gross profit percentage increase was primarily attributable to one location's significant improvement in margins related to an initiative to eliminate or minimize lower margin customers and business. To a lesser extent, the improved margin was a result of the loss of Sam's business, which was typically sold at lower margins in comparison to other business.

Selling, general and administrative expenses. Selling, general and administrative expenses ("SG&A") decreased by \$5.7 million, or 44.9% to \$7.0 million in the third quarter of 2001 from \$12.7 million in the third quarter of 2000. Approximately \$1.3 million of the decrease relates to the four distribution centers where the Company significantly reduced overhead and operating expenses when the Sam's agreement ended. In addition, divestitures discussed above resulted in decreases of \$830,000 at OTF, \$1.2 million at King's, and \$952,000 at Thompson's Produce. The remaining net decrease of \$1.4 million was attributable to Company-wide cost reduction initiatives that began to take effect during the second quarter of 2001 and continued in the third quarter.

Disposition costs and impairment of long-lived assets. The Company recorded impairment charges of approximately \$152,000 to reduce the carrying value of property and equipment related to a non-performing operation to estimated fair value.

Settlement of lawsuits. A charge of approximately \$205,000 was recorded due to a working capital adjustment related to the legal arbitration of the Company's previously owned facility, Thompson's Produce.

Bad debt expense. Bad debt expense decreased by approximately \$1.0 million to a credit of \$496,000 in the third quarter of 2001 from expense of \$537,000 in the third quarter of 2000. The decrease is primarily attributable to a reduction of the allowance for doubtful accounts of \$538,000 in the third quarter of 2001 combined with an additional reserve taken in the third quarter of 2000 of \$358,000 for an uncollectable note receivable. The additional reserves recorded in 2000 were primarily related to uncollectable receivables at closed locations and these reserves were not necessary in 2001 due to a significant improvement in the collection of accounts receivable in 2001 as compared to the prior year.

Operating income. As a result of the foregoing factors, operating income decreased \$800,000 to a loss of \$1.5 million in the third quarter of 2001 as compared to \$700,000 in the third quarter of 2000.

Income tax expense. Income tax expense for the third quarter of 2001 and 2000 relates principally to state income taxes, partially offset in fiscal 2000 by a Canadian income tax benefit attributable to a loss of the Company's Canadian subsidiaries. There is no federal income tax expense on the extraordinary gain arising from the September 2001 restructuring because the Company has sufficient current fiscal year and prior year net operating losses to offset the gain. No U.S. federal income tax benefit was provided in fiscal 2000 because the Company could not carryback U.S. losses to recover any prior year federal income taxes.

Extraordinary gain on extinguishments of debt. The Company completed financial

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

restructurings in the third quarters of both 2001 and 2000 which resulted in extraordinary gains. See Note 2 to the unaudited consolidated financial statements for discussion of the restructurings.

Preferred dividends and accretion. The increase in preferred stock dividends and accretion in the third quarter of 2001 compared to the prior year period is principally due to the fair value of the Series D cumulative redeemable preferred stock issued pursuant to the financial restructuring on September 5, 2001 being substantially less than the face amount, and issuance costs which further reduced the initially recorded value. As a result, the accretion of the carrying value exceeds the accretion recorded on the previously outstanding Series C cumulative redeemable preferred stock.

11

Net income (loss) applicable to common shareholders. As a result of the foregoing factors, the Company reported net income of \$19.8 million in the third quarter of 2001 compared to a net loss of \$0.9 million in the third quarter of 2000, an increase of \$20.7 million.

Comparison of Nine Months Ended September 28, 2001 to Nine Months Ended September 29, 2000

Net sales. Net sales decreased \$235.0 million, or 52.8%, to \$209.7 million in the first nine months of 2001 from \$444.7 million in the first nine months of 2000. Approximately \$160.8 million of this decrease in revenues is attributable to the termination of the Sam's agreement in October 2000. In addition, divestitures of certain operations resulted in decreased sales during the first nine months of 2001 as compared to the same period of 2000. These divestitures included OTF, which was sold in March 2001, resulting in a decrease of \$34.1 million; King's, which was sold in April 2001, resulting in a decrease of \$20.2 million; and other small divestitures resulting in a decrease of \$3.1 million, in the aggregate. In addition, in May 2001, a decision was reached, via arbitration, to rescind the original purchase agreement of one of the Company's locations, Thompson's Produce. This resulted in a decrease in sales of \$7.0 million compared to the corresponding period of 2001. The Company also experienced a decrease in sales of approximately \$18.0 million at its Los Angeles facility. This decrease related to a decline in the vegetable and chili categories of approximately \$7.5 million which was magnified by the loss of four key sales persons in these categories during the third quarter of 2001; a decrease of approximately \$8.3 million in fruit and yam sales resulting from decreased business and the loss of three key sales persons in the first quarter of 2001; and a \$2.7 million decrease related to a poor strawberry crop caused by unfavorable weather conditions. The Company is in process of replacing the sales persons and re-establishing customer relationships for each product line that was interrupted at this location. The Company's decreases in sales mentioned above aggregating \$243.2 million were partially offset by increased sales throughout the Company, primarily related to incremental business from national and regional sales programs.

Cost of Sales. Cost of sales decreased \$210.8 million, or 53.1% to \$186.2 million in the first nine months of 2001 from \$397.0 million in the first nine months of 2000. As a percentage of net sales, cost of sales decreased to 88.8% in 2001 from 89.3% in the comparable period of 2000 resulting in a gross profit margin of 11.2% in 2001 as compared to 10.7% in 2000. The Company's gross profit increase was primarily attributable to one location's significant improvement in margins related to an initiative to eliminate or minimize lower margin customers and business. To a lesser extent, the improved margin was a result of the loss of Sam's business, which was typically sold at lower margins in comparison to other business.

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

Selling, general and administrative expenses. SG&A expenses decreased by \$11.7 million, or 28.7% to \$28.9 million in the first nine months of 2001 from \$40.5 million in the first nine months of 2000. Approximately \$3.3 million of the decrease relates to the four distribution centers where the Company significantly reduced overhead and operating expenses when the Sam's agreement ended in October 2000. In addition, approximately \$5.4 million of the decrease relates to the divestitures of OTF, King's, and Thompson's Produce as discussed above. The remaining \$2.9 million decrease resulted from reduction of headcount and Company-wide cost reduction initiatives that began to take effect during the second quarter of 2001 and continued in the third quarter.

Disposition costs and impairment of long-lived assets. During the third quarter of 2001, the Company recorded impairment charges of approximately \$152,000 to reduce the carrying value of property and equipment related to non-performing operations to estimated fair value.

Settlement of lawsuits. A charge of approximately \$205,000 was recorded in the third quarter of 2001 due to a working capital adjustment settlement related to the legal arbitration of the Company's previously owned facility, Thompson's Produce.

12

Bad debt expense. Bad debt expense decreased by \$1.9 million to a credit of \$84,000 in the first nine months of 2001 from expense of \$1.8 million in the first nine months of 2000. The decrease is primarily attributable to additional reserves recorded in 2000 for uncollectable receivables associated with closed operations and the reduction in recorded reserves in 2001 due to significant improvements in the collection of accounts receivable in 2001 as compared to the previous year.

Operating income (loss). As a result of the foregoing factors, operating income (loss) decreased \$8.2 million to operating loss of \$8.1 million in the first nine months of 2001 from operating income of \$900,000 in the first nine months of 2000.

Income tax expense (benefit). The income tax benefit for the first nine months of 2001 consists of a Canadian income tax benefit of \$921,000 related to the loss incurred by the Company's Canadian subsidiaries which can be carried back to recover prior year income taxes paid, and U.S. state income tax expense of approximately \$205,000. There is no federal income tax expense on the extraordinary gain arising from the September 2001 restructuring because the Company has sufficient current fiscal year and prior year net operating losses to offset the gain. Income tax expense in the first nine months of 2000 consisted principally of state income taxes partially offset by a Canadian income tax benefit attributable to a loss of the Company's Canadian subsidiaries. No U.S. federal income tax benefit was provided in fiscal 2000 because the Company could not carryback U.S. losses to recover any prior year federal income taxes.

Gain on extinguishments of debts. The Company completed financial restructurings in the third quarters of both 2001 and 2000 which resulted in extraordinary gains. See Note 2 to the unaudited consolidated financial statements for discussion of the restructurings.

Preferred dividends and accretion. The increase in the preferred stock dividends and accretion in the first nine months of 2001 compared to the prior year period is principally due to (i) the fair market value of the Series D cumulative redeemable preferred stock issued pursuant to the financial restructuring on September 5, 2001 being substantially less than the face amount, and issuance

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

costs which further reduced the initially recorded value of this series of preferred stock and (ii) the Series C cumulative redeemable preferred stock being issued for less than the full reporting period in fiscal 2000.

Net income (loss) applicable to common shareholders. As a result of the foregoing factors, the Company incurred net income of \$11.6 million in the first nine months of 2001 as compared to a loss of \$2.1 million in the first nine months of 2000, an increase of \$13.7 million.

Liquidity and Capital Resources

Cash used in operating activities was \$601,000 for the first nine months of 2001 compared to cash provided by operating activities of \$16.8 million for the first nine months of 2000. This decrease of \$17.4 million is primarily attributable to the termination of the Sam's contract and the resulting loss of operating income subsequent to October 2000. In addition, there was less cash provided from accounts receivable, accounts payable, inventories and accrued expenses during the current period compared to the prior year period. The decreases in these balances are due to the termination of the Sam's contract in October 2000 and divestiture of non-performing operations. Cash provided by investing activities was \$4.2 million in the first nine months of 2001 as compared to cash used in investing activities of \$374,000 in the first nine months of 2000. The increase of \$4.6 million primarily relates to proceeds of \$2.5 million from the King's sale in April 2001, proceeds of \$2.2 million from the sales of Cutten Road and OTF, and a reduction in capital expenditures in 2001 as compared to the same period of 2000. Cash used in financing activities was \$4.4 million in the first nine months of 2001 compared to \$13.2 million in the first nine months of 2000. This decrease is primarily due to the reduction of net repayments on the Canadian revolving line of credit which was fully retired in March, 2001.

13

At September 28, 2001 the Company had working capital of \$902,000 compared to \$2.6 million at December 29, 2000. The decrease in working capital is primarily due to the substantial decreases in accounts receivable and inventory, partially offset by reductions in short-term debt and accounts payable all resulting from the reduced scope of business operations after the termination of the Sam's contract in October 2000 and divestiture of non-performing operations.

Financial Restructuring

Throughout its operational restructuring during the past two years, the Company has pursued various financing opportunities in an effort to restructure its debt. In September 2001, the Company completed a financial restructuring whereby North Texas Opportunity Fund LP, ("NTOF") and its affiliates purchased 50,000 shares of the Company's 8% Series D cumulative redeemable preferred stock and warrants exercisable for 84,100,980 shares of the Company's common stock for cash proceeds of \$5 million. In connection with the NTOF investment in the Company, John Hancock Life Insurance Company, John Hancock Variable Life Insurance Company, Investors Partner Life Insurance Company, Signature 1A (Cayman) Ltd. and Signature 3 Limited (collectively, the "Subordinated Lender") exchanged \$20 million of subordinated debt, warrants to purchase 576,134 shares of common stock, 50,000 shares of Series C cumulative redeemable preferred stock and all accrued interest and dividends for 27,000 shares of the Company's 8% Series D cumulative redeemable preferred stock and warrants exercisable for 45,414,529 shares of the Company's common stock. The restructuring resulted in an extraordinary gain of \$23.8 million in the third quarter of 2001. The proceeds from the Series D cumulative redeemable preferred stock and warrants issued have been recorded in the amounts of \$1.5 million and \$4.9 million, respectively, based on their respective fair values less issuance costs incurred of \$1.3 million.

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

Bank Debt. In conjunction with this restructuring, Bank of America, N.A. (the "Senior Lender") agreed to a payment schedule which will reduce the Company's indebtedness to the Senior Lender from \$5.3 million, which was owed at the time of closing of the NTOF transaction, to \$3.8 million by year-end 2001. The outstanding balance at September 28, 2001 was \$4.8 million. The indebtedness, previously a revolving credit facility, was converted to a term note with a maturity of the remaining balance in January 2002. The Company is working to refinance the term debt prior to its maturity. The Company has signed a letter of intent that is subject to customary representations and warranties and is currently working through due diligence with a potential lender. There can be no assurance that the Company will be able to replace its Senior Lender as anticipated or extend its term note beyond January 2002, if that becomes necessary.

Prior to its sale in March 2001, OTF had a demand agreement with Royal Bank of Canada to provide revolving credit facilities, which were collateralized by substantially all assets of OTF. The Canadian Revolver had an outstanding balance of CDN \$5.6 million (U.S. \$3.8 million) as of December 29, 2000. This outstanding balance was fully retired in March 2001 in conjunction with the sale of OTF's operating assets.

Subordinated Debt. Prior to the restructuring in September 2001, the Company had \$20 million of subordinated debt owing to the Subordinated Lender. Additionally in April 2000, the Company issued to the Subordinated Lender \$5 million (50,000 shares) of the Company's Series C cumulative redeemable preferred stock. The Company was not in compliance with certain covenants under the terms of its loan agreements with the Subordinated Lender at June 29, 2001. The Series C preferred stock, the subordinated debt owing to the Subordinated Lender and the accrued but unpaid interest and dividends thereon, and 576,134 warrants were then exchanged for a new issue of the Company's Series D preferred stock and warrants as part of the restructuring discussed above.

14

Acquisition Indebtedness. In July 2000, the Company entered into an agreement amending the stock purchase agreement related to the Company's November 1998 acquisition of Perricone Citrus Company. As part of the amended agreement, unsecured promissory notes owed by the Company totaling \$3.5 million and the accrued and unpaid interest therein were restructured, whereby the Company agreed to the following: payments totaling \$100,000 upon execution of the amended agreement; lump-sum payments of \$350,000 and \$150,000 on January 1, 2002 and July 1, 2002, respectively; and 24 monthly installment payments of \$37,500 totaling \$900,000. The balance outstanding at September 28, 2001 was \$837,500. The installment and lump-sum payments accrue interest at 10% per annum. However, all accrued interest will be forgiven if scheduled principal payments are made timely. Additionally, the Company issued the noteholders 300,000 warrants to purchase common shares of the Company at an exercise price of \$2.50 per share. The warrants are exercisable for a seven-year period. The issuance of these securities was exempt from registration under the Securities Act under Regulation D. The restructuring of the promissory notes and related accrued interest resulted in an extraordinary gain to the Company of \$1.9 million in the third quarter of 2000.

In connection with the Company's acquisition of Jos. Notarianni & Co. ("Notarianni") in August 1998, a portion of the purchase price is contingent upon Notarianni's earnings subsequent to its acquisition. The contingent payment for Notarianni will be equal to 1.4 times Notarianni's average annual pretax earnings over a three-year period from October 3, 1998 to October 3, 2001. Any contingent payment is payable in cash or common stock at the Company's

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

sole discretion. The Company is in the process of finalizing the calculation related to this transaction and determining the method of payment. At September 28, 2001, the contingent consideration is estimated to be approximately \$1.0 million and, accordingly, the Company has recorded additional goodwill and a current liability of this amount at September 28, 2001.

The Company's acquisition of Hereford Haven Inc. d/b/a Martin Bros. ("Martin Bros.") in January 1998 also included a contingent payment component in the purchase price. The Martin Bros. contingent payment is equal to 4 times the average annual pretax earnings for the three-year period from January 3, 1998 to January 3, 2001. The total contingent payment was \$5.0 million at December 29, 2000. The payment was due March 31, 2001 and was payable in either cash, common stock or a combination of cash and common stock to the extent of 75% at the Company's option and 25% at the selling shareholder's option. In satisfaction of 75% of this contingent payment, in April 2001 the Company issued 3,166,694 shares of its common stock to Larry Martin, the former owner of Martin Bros. and currently a director of the Company. The issuance of these securities to Mr. Martin was exempt from registration under the Securities Act under Regulation D. At the time of issuance, the shares represented a 38% ownership interest in the Company. These shares were valued at \$1.17 per share, the market value of the Company's common stock at the time of the transaction. The remaining \$1.2 million of contingent consideration remained a financial obligation of the Company and was restructured as part of the financial restructuring discussed above. It is payable in cash subject to the approval of the Company's Senior Lender. This payment has been extended and is now due and payable in January 2002.

Equipment Financing. The Company is party to a master lease agreement with SunTrust Bank that has been used to provide equipment financing for several of the Company's operating units. With respect to certain financial covenants under the lease the Company has received waivers for noncompliance through January 2, 2002. The Company is currently renegotiating the financial covenants of this agreement and anticipates this agreement will be revised prior to the expiration of the waiver in January 2002. The lease agreement provides that future lease payments can be accelerated in the event of default. There can be no assurance that the Company will be in compliance with such covenants subsequent to the waiver period or will be successful in renegotiating the covenants.

Management believes that the combination of the effects of the financial restructuring completed in September 2001, the anticipated refinancing of the indebtedness to the Senior Lender on a long-term basis, cash generated from ongoing operating activities, and the realization of recent reductions in selling, general and administrative expenses will enable the Company to meet its obligations as they come due in

15

the foreseeable future. However, there can be no assurance the Company will be able to replace its Senior Lender as anticipated or extend the term note beyond January 2002, if that becomes necessary.

Recent Accounting Pronouncements

In July 2001, the Financial Accounting Standards Board (FASB) issued Statements of Financial Accounting Standards No. 141, Business Combinations, and No. 142, Goodwill and Other Intangible Assets. Statement 141 requires that all business combinations initiated after June 30, 2001 be accounted for under the purchase method of accounting and Statement 142 requires that goodwill no longer be amortized to earnings, but instead be reviewed for impairment. The provisions of Statement 142 will be effective for fiscal years beginning after December 15, 2001. Also, the FASB has recently issued Statement No. 143, Accounting for Asset

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

Retirement Obligations, and Statement No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. Statement 143 establishes requirements for the accounting for removal-type costs associated with asset retirements and Statement 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets. Statement 143 is effective for fiscal years beginning after June 15, 2002, with earlier application encouraged, and Statement 144 is effective for fiscal years beginning after December 15, 2001 and interim periods within those fiscal years. The Company is currently assessing the impact of these standards on its consolidated financial statements.

Quarterly Results and Seasonality

The Company's business is somewhat seasonal, with its greatest quarterly sales volume historically occurring in the fourth quarter. With the change in the current mix of business resulting from the Company's divestitures of certain specialty food service operations, the termination of the Sam's agreement in October 2000 and the increasing effect of global sourcing, seasonal fluctuations may diminish in future years. A substantial portion of the Company's produce sales consists of staple items such as apples, oranges, grapefruit, potatoes and onions, which are strongest during the fall, winter and spring. The supply and quality of these items decline during the summer, although lower sales of these items are partially replaced by more seasonal products such as peaches, plums, nectarines, strawberries and melons. Sales of refrigerated, prepackaged products, such as vegetable trays, are strongest during the fourth quarter holiday season. In any given quarter, an adverse development such as the unavailability of high quality produce or harsh weather conditions could have a disproportionate impact on the Company's results of operations for the full year.

Inflation

Although the Company cannot determine the precise effects of inflation, management does not believe inflation has had a material effect on the Company's sales or results of operations. However, independent of normal inflationary pressures, the Company's produce products are subject to fluctuating prices which result from factors discussed above in "Quarterly Results and Seasonality".

Forward-Looking Statements

Certain information in this Quarterly Report on Form 10-Q may contain "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact are "forward-looking statements" for purposes of these provisions, including any projections of earnings, revenues or other financial items, any statements of the plans and objectives of management for future operations or financing, any statements concerning proposed new products or services, any statements regarding future economic conditions or performance, and any statement of assumptions underlying any of the foregoing. Although the Company believes that the expectations reflected in its forward-looking statements are reasonable, it can give no assurance that such expectations or any of its forward-looking statements will prove to be correct, and actual results could differ materially from those projected or assumed in the Company's forward-looking statements.

Statements regarding the Company's future financial condition and results, as well as any other forward-looking statements, are subject to inherent risks and uncertainties, including, without limitation, adverse weather conditions, a

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

decrease in sales in the fresh produce industry due to the threat of bio-terrorism, continued loss of key sales personnel, general economic and market conditions, the availability and cost of borrowed funds and limitations arising from the Company's indebtedness, the ability to refinance its existing bank debt and raise additional capital, government regulation, and seasonality. Additional information concerning these and other risk factors is contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 29, 2000, a copy of which may be obtained from the Company upon request.

17

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Foreign Exchange Risk. The Company's Canadian operations are subject to foreign currency risk. However, we have not experienced any material foreign currency transaction gains or losses during the last three fiscal years. Foreign currency translation adjustments are recorded in our consolidated shareholders' equity as accumulated comprehensive income. We manage foreign currency risk by maintaining portfolios of currency denominated in the currency, which is required to make payments. As of March 2001, the Company no longer conducts business in Canada.

Interest Rate Risk. Our senior debt accrues interest at a market rate at the time of borrowing plus an applicable margin on certain borrowings. The interest rate is based on the lending bank's prime rate plus 3%. The impact on the Company's results of operations of a one-percentage point interest rate change on the outstanding balance of the variable rate debt as of September 28, 2001 would be immaterial.

Commodity Pricing Risk. For reasons discussed previously, prices of high quality produce can be extremely volatile. In order to reduce the impact of these factors, we generally set our prices based on current delivered cost.

Part II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company has been party to ordinary routine litigation incidental to various aspects of its operations. Management is not currently aware of any litigation that is expected to have a material adverse impact on the Company's consolidated financial condition or the results of operations.

Item 2. Changes in Securities and Use of Proceeds

- a. Not applicable.
- b. As stated in Part I, Item 2 under "Financial Restructuring" above, the Company issued Series D cumulative redeemable preferred stock ("Series D Preferred Stock") and warrants in connection with the restructuring. The following summarizes the rights associated with the Series D Preferred Stock and warrants.

Board of Director Representation

Pursuant to the restructuring, the board of directors now consists of five members. The holders of Series D Preferred Stock are entitled to elect four members of the board of directors. NTOF has the right to designate three members of the board of directors, and the Subordinated Lender has the right to designate one member of the board of directors. The Subordinated Lender has advised the Company and NTOF that they do not currently intend to exercise their right to designate a director. As a result, NTOF holds the right to designate

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

the fourth member of the board of directors.

Special Voting Rights

Pursuant to the terms of the restructuring, the Company must obtain the consent of the holders of Series D Preferred Stock prior to taking certain actions in the operation of the Company's business. Prior to taking the following actions, the Company must obtain the consent of 100% of the holders of Series D Preferred Stock:

18

- o amending the Company's organizational documents in a manner that is adverse to the holders of the Series D Preferred Stock;
- o declaring any dividends with respect to any of the Company's capital stock (except as required pursuant to the terms of the Series D Preferred Stock);
- o entering into any transaction (other than an arms-length transaction) with any of the Company's affiliates;
- o increasing the compensation of any of the Company's executive officers by more than 5% during any fiscal year;
- o adopting any new employee benefit plan; or
- o granting any equity-based compensation to any key employee of the Company or any subsidiary.

The prior written consent of at least 66 2/3% of the holders of the Series D Preferred Stock is required for the following actions:

- o selling or issuing any additional shares of the Company's capital stock or any of the capital stock of any of the Company's subsidiaries (except in connection with the exercise of existing warrants or pursuant to its employee stock option plan); or
- o reclassifying any shares of the Company's capital stock into any other capital stock.

The prior written consent of at least a majority of the holders of Series D Preferred Stock is required before:

- o selling or leasing any of the Company's assets other than in the ordinary course of business;
- o effecting any merger, consolidation or other corporate reorganization involving the Company;
- o entering into any new line of business or acquiring any substantial business operation or assets (through a stock or asset purchase or otherwise);
- o entering into any contract or agreement pursuant to which the Company must pay more than \$250,000 per year;
- o terminating any of the Company's key employees;
- o acquiring any debt or equity interest in any other person or entity;
- o incurring any indebtedness in excess of \$8 million;
- o acquiring more than \$500,000 of property or assets from any person or entity during any 12 month period; or
- o making any capital expenditure greater than \$250,000 individually or \$1,000,000 in the aggregate.

Put Option Granted to Holders of Series D Preferred Stock

Pursuant to the restructuring, each holder of Series D Preferred Stock has the right to sell its Series D Preferred Stock to the Company at a price per share equal to \$100 plus any and all accrued and unpaid dividends and interest with respect to such share at any time after August 14, 2004 or earlier upon the occurrence of certain triggering events (the "Put Option"). Among the events

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

triggering the acceleration of these put rights are the following:

- o any material breach by the Company of the provisions of the agreements related to the restructuring (other than the Company's failure to pay dividends with respect to the Series D Preferred Stock);
- o any merger, consolidation or share exchange involving the Company in which the Company is not the surviving or resulting entity or as a result of which the Company's beneficial owners prior to such a transaction will, immediately after the transaction, own less than a majority of the Company's capital stock;
- o a sale of substantially all of the Company's assets or operations;
- o any substantial change in the type of business the Company conducts;
- o any change in control of the Company; and
- o the consummation of any underwritten public offering or any private equity financing, in either case as a result of which the Company receives at least \$20,000,000 in cash proceeds.

19

If, during the time period which a holder of Series D Preferred Stock has the right to put its shares of Series D Preferred Stock to the Company as described above, the Company receives any bona fide third-party proposal relating to the sale of all or substantially all of the Company's assets, a merger, consolidation or share exchange involving the Company that would result in a change in the beneficial ownership of the Company's capital stock or a change in control of the Company, and if the Company accepts the proposal within the time periods mandated by the Shareholders Agreement, then the Company must use good faith and commercially reasonable efforts to consummate the transactions described in the proposal. If, however, the Company does not accept the proposal within the time periods mandated by the Shareholders Agreement among the Company and the holders of Series D Preferred Stock, then each holder of Series D Preferred Stock will also have the right to cause the Company to purchase all of the capital stock of the Company that the holder owns for an amount of cash equal to the consideration that would have been paid to the holder had the Company accepted the proposal.

Description of Common Stock Warrants

In general, the warrants issuable to NTOF and its affiliates (the "NTOF Warrants") and the warrants issuable to the Subordinated Lender (the "Hancock Warrants") are exercisable at any time prior to August 14, 2011. The exercise price of these warrants is \$.0001 per share, and the warrants are subject to anti-dilution provisions that adjust the number of shares of Common Stock into which such warrants are exercisable if the Company effects any recapitalization, stock dividend, stock split, reorganization, merger or similar transaction or if the Company undertakes certain issuances of Common Stock for less than market value. Assuming that the shareholders approve the amendments to the Company's Articles of Incorporation discussed below, the number of shares of Common Stock for which the NTOF Warrants are exercisable represents approximately 50% of the fully diluted Common Stock, while the number of shares of Common Stock for which the Hancock Warrants are exercisable represents approximately 27% of the fully diluted Common Stock.

Necessity of Shareholder Approval to Effect Exercise of the Warrants

Although the NTOF Warrants and the Hancock Warrants are by their terms immediately exercisable, the Company presently does not have a sufficient number of authorized shares of Common Stock to issue upon exercise of the warrants. Therefore, before the NTOF Warrants and Hancock Warrants may be exercised, the

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

Company must amend its Articles of Incorporation to increase the number of authorized shares of Common Stock from 10 million to 250 million and to decrease the stated par value of the Common Stock from \$.01 to \$.0001 per share (the "Charter Amendment").

The board of directors has approved the Charter Amendment, but before the Charter Amendment can be effective, the holders of 66 2/3% of the issued and outstanding Common Stock of the Company must vote in favor of it. As of September 24, 2001, NTOF has received written agreements from the holders of approximately 47% of the issued and outstanding Common Stock to vote in favor of the Charter Amendment. The Company intends to hold the annual shareholders meeting later this year to seek shareholder approval of the Charter Amendment.

Effect of the Failure to Receive Shareholder Approval

If the Company does not receive the requisite shareholder approval of the Charter Amendment, then the agreements related to the restructuring provide that many of the rights and preferences associated with the Series D Preferred Stock will change. The primary changes in the rights and preferences of the Series D Preferred Stock that will occur if shareholder approval of the Charter Amendment is not obtained are as follows:

Special Voting Rights. The holders of Series D Preferred Stock will be entitled to vote as a separate class on all matters on which the holders of the Common Stock are entitled to vote, with each share of Series D

20

Preferred Stock being entitled to one vote per share. In addition, the holders of the Series D Preferred Stock will be entitled to vote together with the holders of Common Stock on all matters on which the holders of Common Stock are entitled to vote, but with each share of Series D Preferred Stock being entitled to 250 votes per share. As a result, on any matters voted on by holders of the Common Stock, NTOF and the Subordinated Lender will have 12,500,000 votes and 6,750,000 votes, respectively, which, in the aggregate, would represent approximately 68% of the voting power of the Company's outstanding capital stock on a fully diluted basis.

Put Option. Upon the Company's failure to obtain shareholder approval of the Charter Amendment, the put price to be paid to the holders of the Series D Preferred Stock pursuant to the Put Option would be tripled.

Dividends. The annual cumulative dividend rate on each share of Series D Preferred Stock will increase to \$18 per share.

Liquidation Preference. In the event of a dissolution of the Company or upon the occurrence of certain other liquidation events and upon the payment in full of all liquidation payments owed to the holders of the Series D Preferred Stock as described above, the holders of Series D Preferred Stock will be entitled to receive an amount equal to 90% of the fair market value of the Company's remaining assets and other funds, and the holders of the Common Stock will be entitled to receive an amount equal to 10% of the fair market value of the Company's remaining assets and other funds.

c. On September 5, 2001, the Company completed a financial restructuring. In connection with the restructuring, NTOF and its affiliates purchased for cash 50,000 shares of Series D Preferred Stock and warrants exercisable for 84,100,980 shares of Common Stock. The purchase price for the Series D Preferred

Edgar Filing: FRESH AMERICA CORP - Form 10-Q

Stock and warrants purchased by NTOF was \$5 million. In addition, as part of the restructuring, the Subordinated Lender exchanged \$20 million in aggregate principal amount of subordinated notes, warrants to purchase 576,134 shares of Common Stock, 50,000 shares of Series C Cumulative Redeemable Preferred Stock and all accrued interest and dividends related to each of the foregoing for 27,000 shares of Series D Preferred Stock and warrants exercisable into 45,414,529 shares of Common Stock. In general, the warrants issued to NTOF and the Subordinated Lender are exercisable at any time prior to August 14, 2011. The exercise price of these warrants is \$.0001 per share, and the warrants are subject to anti-dilution provisions that adjust the number of shares of our Common Stock into which such warrants are exercisable if the Company effects any recapitalization, stock dividend, stock split, reorganization, merger or similar transaction or if the Company undertakes certain issuances of Common Stock for less than market value. Although the warrants issued to NTOF and the Subordinated Lender are by their terms immediately exercisable, the Company presently does not have a sufficient number of authorized shares of Common Stock to issue upon exercise of the warrants. Therefore, before the warrants may be exercised by NTOF and the Subordinated Lender, the Company must amend its Articles of Incorporation to increase the number of authorized shares of Common Stock from 10 million to 250 million and to decrease the stated par value of Common Stock from \$.01 to \$.0001 per share. The sale of Series D Preferred Stock and warrants exercisable into Common Stock to both NTOF and the Subordinated Lender was made as a private offering of the Company's securities and, thus, was exempt from registration pursuant to the provisions of Section 4(2) of the Securities Act of 1933, as amended.
