REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Members and Stockholders of  
COSCO Capital Management LLC and Affiliates

We have audited the accompanying combined balance sheets of COSCO Capital Management LLC and Affiliates (the "Company") as of December 31, 2007 and 2006, and the related combined statements of income, members'/stockholders' equity and cash flows for the years then ended. These combined financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these combined financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards as established by the Auditing Standards Board (United States) and in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of COSCO Capital Management LLC and Affiliates as of December 31, 2007 and 2006, and the combined results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

## NOTES TO COMBINED FINANCIAL STATEMENTS

### NOTE 1 - Nature of Business and Basis of Presentation

COSCO Capital Management LLC (["COSCO Management"]) and its affiliates (Private Energy Securities, Inc. (["PESI"]), COSCO Capital Texas LP (["COSCO Texas"]), and COSCO Canada Ltd. (["COSCO Canada"])) provide corporate finance and investment banking services, including the arrangement of private placement financings of equity and debt securities issued by independent energy companies.

COSCO Management was organized on June 30, 1997 as a New York limited liability company. PESI was organized on March 4, 2003 as a Connecticut corporation. On January 1, 2004, PESI made an election to convert to a Subchapter S corporation. PESI is registered as a broker-dealer in securities with the Securities and Exchange Commission (["SEC"]) and is a member of the Financial Industry Regulatory Authority, Inc. (["FINRA"]). COSCO Texas was organized on December 30, 2003 as a Texas limited partnership. COSCO Canada was organized on November 19, 2002 as a Canadian limited company.

The accompanying combined financial statements include the accounts of COSCO Management and its affiliates and together are collectively referred to hereinafter as the ["Company."] All material intercompany accounts and transactions have been eliminated in combination.

### NOTE 2 - Summary of Significant Accounting Principles

#### Revenue Recognition

Transaction fees arising from investment banking services are recognized as revenue at the time the transaction is consummated.

Consulting and management fees arising from financial advisory services are recognized as revenue ratably over the terms of the related contracts.

Forum fees are recognized as revenue when the related forum is conducted.

#### Property and Equipment

Property and equipment are recorded at cost. Furniture and computer equipment and software are depreciated on the straight-line basis over the economic useful lives of the related assets, which range from three to seven years. Leasehold improvements are amortized on the straight-line basis over the lesser of their economic useful lives or the expected term of the related lease. When property and equipment is sold or otherwise disposed of, the cost and related accumulated depreciation and amortization are eliminated from the accounts and any resulting gain or loss is reflected in income.

## NOTES TO COMBINED FINANCIAL STATEMENTS

### NOTE 2 - Summary of Significant Accounting Principles, continued

#### Income Taxes

The Company is not a taxpaying entity for U.S. federal income tax purposes. Company income or losses are reflected in the owners' individual income tax returns in accordance with their ownership percentages and any related federal income tax liability is paid by the respective owner. Accordingly, no provision or liability for federal income taxes has been recorded in the accompanying combined financial statements. The income taxes provision within these combined financial statements represents the Texas gross margin tax and New York and Connecticut state and city unincorporated business taxes. COSCO Canada is subject to certain Canadian income tax laws.

The Company recognizes deferred tax assets or liabilities for the future tax consequences of events that have been recognized in its combined financial statements or tax returns. The accompanying combined financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. The Company prepares its tax returns on a cash basis. Accordingly, the Company records deferred tax assets or liabilities for the increase or decrease in future years' tax liabilities related to the temporary differences which arise by utilizing these two accounting methods.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

#### Fair Value of Financial Instruments

The carrying amount of cash, accounts receivable, and accounts payable approximate their fair values because of the short-term nature of these financial instruments.

#### Foreign Currency Translation

Assets and liabilities related to the Company's foreign operations are translated at year-end exchange rates while the related revenues and expenses are translated at average exchange rates prevailing during the year. Translation adjustments are recorded as a separate component of members'/stockholders' equity.

# COSCO CAPITAL MANAGEMENT LLC AND AFFILIATES

## NOTES TO COMBINED FINANCIAL STATEMENTS

NOTE 2 - Summary of Significant Accounting Principles, continued

### **Comprehensive Income (Loss)**

The Company reports comprehensive income (loss) and its components in its combined financial statements. Comprehensive income (loss) consists of net income and foreign currency translation adjustments affecting members' / stockholders' equity that under accounting principles generally accepted in the United States of America are excluded from net income.

NOTE 3 - Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" (SFAS No. 157). This statement defines fair value, establishes a framework for measuring fair value, and expands disclosure of fair value measurements. SFAS No. 157 applies under other accounting pronouncements that require or permit fair value measurements and, accordingly, does not require any new fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of adopting SFAS No. 157 on its combined financial statements.

In June 2006, the FASB issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - An Interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes". This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. In February 2008, the FASB deferred the effective date of FIN 48 for nonpublic entities that have not yet issued to third parties a full set of annual financial statements that incorporate the recognition, measurement, and disclosure requirements of FIN 48. The Company is currently evaluating the impact of adopting FIN 48 on its combined financial statements.
