A Letter to Shareholders

Dear Shareholder

It has been a tumultuous period for investors, marked by almost daily headlines of deepening turmoil in financial markets and a darkening economic outlook. The news took an extraordinarily heavy tone late in the period as the credit crisis boiled over and triggered unprecedented failures and consolidation in the financial sector, stoking fears of a market and economic collapse and prompting a series of new government programs designed to contain and combat the fallout.

The Federal Reserve Board (the Fed) has taken decisive measures to restore liquidity and stabilize the financial system. Key moves included slashing the target federal funds rate 250 basis points (2.50%) between November 2007 and April 2008 and providing massive cash injections and lending programs. In October, as credit conditions further deteriorated, the central bank cut the key interest rate by 50 basis points on two separate occasions on October 8 in coordination with five other global central banks, and again during its regularly scheduled meeting on October 29. This left the key short-term rate at just 1.0%, its lowest level since 2004. While the U.S. economy appeared fairly resilient through the second quarter of 2008, the third quarter saw a contraction of 0.5%, and a more significant decline is expected for the fourth quarter. Moreover, on December 1, the National Bureau of Economic Research confirmed that the U.S. had entered a recession in December 2007.

Against this backdrop, U.S. equity markets experienced intense volatility, with periods of downward pressure punctuated by sharp rebounds. Losses were significant and broad-based, though small-cap stocks fared moderately better than their larger counterparts. Non-U.S. markets decelerated at a considerably faster pace than domestic equities a stark reversal of recent years trends, when international stocks generally outpaced U.S. stocks.

Treasury issues also traded in a volatile fashion, but rallied overall (yields fell and prices correspondingly rose) and outperformed other fixed income assets as investors continued their flight to higher quality and more liquid securities. Tax-exempt issues generally underperformed, as problems among municipal bond insurers and the collapse in the market for auction rate securities afflicted the group throughout the course of the past year. At the same time, the above mentioned economic headwinds and malfunctioning credit markets plagued the high yield sector, with the third quarter of 2008 marking one of the worst periods in history for the asset class.

Facing unprecedented volatility and macro pressures, the major benchmark indexes generally recorded losses for the six- and 12-month reporting periods:

BlackRock Dividend Achievers[™] Trust

Investment Objective

BlackRock Dividend Achievers[™] Trust (BDV) (the Trust) seeks to provide total return through a combination of current income and capital appreciation by investing in common stocks that pay above average dividends and have the potential for capital appreciation.

Performance

For the 12 months ended October 31, 2008, the Trust returned (26.73)% based on market price and (27.56)% based on net asset value (NAV). For the same period, the Mergent Broad Dividend Achievers Index posted a return of (28.85)% on a NAV basis, and the broader market, as measured by the Russell 1000 Index, returned (36.80)%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. One of the key investment objectives of the portfolio is to generate income through positions in stocks with attractive dividend yields. Over the annual period, this detracted on two levels: (1) higher-yielding stocks modestly underperformed, and (2) the drive for yield resulted in a relatively sizable exposure to financials, the weakest-performing sector for the 12 months. On the positive side, our avoidance of the most troubled stocks in the Dividend Achiever universe, namely American International Group (down 97%) and Lehman Brothers Holdings (down 99.9%), helped mitigate losses in the portfolio.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

BlackRock Enhanced Dividend Achievers[™] Trust

Investment Objective

BlackRock Enhanced Dividend Achievers™ Trust (BDJ) (the Trust) seeks to provide current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve these objectives by investing in common stocks that pay above average dividends and have the potential for capital appreciation and by utilizing an option writing strategy to enhance distributions paid to the Trust s shareholders.

Performance

For the 12 months ended October 31, 2008, the Trust returned (25.70)% based on market price and (24.35)% based on NAV. For the same period, the Mergent Broad Dividend Achievers Index posted a return of (28.85)% on a NAV basis, and the broader market, as measured by the Russell 1000 Index, returned (36.80)%. All returns reflect reinvestment of dividends. On the positive side, our avoidance of the most troubled stocks in the Dividend Achiever universe, namely American International Group (down 97%) and Lehman Brothers Holdings (down 99.9%), helped mitigate losses in the portfolio. BlackRock Strategic Dividend Achievers™ Trust

Investment Objective

BlackRock Strategic Dividend AchieversTM Trust (BDT) (the Trust) seeks to provide total return through a combination of current income and capital appreciation by investing primarily in common stocks of small to mid-capitalization companies that pay above average dividends and have potential for capital appreciation.

Performance

For the 12 months ended October 31, 2008, the Trust returned (25.88)% based on market price and (23.93)% based on NAV. For the same period, the Mergent Broad Dividend Achievers Index posted a return of (28.85)% on a NAV basis, and the broader market, as measured by the Russell 1000 Index, returned (36.80)%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. One of the key investment objectives of the portfolio is to generate income through positions in stocks with attractive dividend yields. Over the annual period, exposure to higher-yielding stocks slightly detracted from results as these issues modestly underperformed. However, our pursuit of higher-yielding, small- and mid-cap Dividend Achievers resulted in a concentration in smaller regional banks and an avoidance of the larger, troubled banks and insurance companies, which helped overall returns. Significant exposure to the higher-yielding utilities also aided performance, as utilities were one of the better-performing sectors over the 12 months.

BlackRock EcoSolutions Investment Trust

Investment Objective

BlackRock EcoSolutions Investment Trust (BQR) (the Trust) seeks to provide current income, current gains and long-term capital appreciation.

Performance

For the 12 months ended October 31, 2008, the Trust returned (48.20)% based on market price and (43.99)% based on NAV. For the same period, the closed-end Lipper Sector Equity Funds category posted an average return of (35.59)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The new energy, agriculture and water sectors were negatively impacted by market deleveraging, a flight to cash and lower traditional fuel prices. However, new energy saw positive legislative developments and water utility fundamentals remain intact, although available capital may be expensive in the near term. Despite strong earnings releases and share buyback announcements in the agricultural sector, diminished investor confidence weighed on stocks.

BlackRock Global Energy and Resources Trust

Investment Objective

BlackRock Global Energy and Resources Trust (BGR) (the Trust) seeks to provide total return through a combination of current income and capital appreciation. The Trust attempts to achieve this objective by investing primarily in equity securities of energy and natural resources companies and equity derivatives with exposure to the energy and natural resources industry.

Performance

For the 12 months ended October 31, 2008, the Trust returned (37.14)% based on market price and (38.15)% based on NAV. For the same period, the closed-end Lipper Sector Equity Funds category returned (35.59)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. Allocation decisions within our energy exposure contributed to the Trust s relative underperformance. While all areas of the sector declined, our emphasis on exploration & production, equipment & services, and coal producers proved costly, as these segments lagged the broader market. After a strong run up in energy commodity pricing through June 2008, collapsed pricing in the last few months of the year put significant downward pressure on equity prices in these areas.

BlackRock Global Equity Income Trust

Investment Objective

BlackRock Global Equity Income Trust (BFD) (the Trust) seeks current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve these objectives by investing in a diversified portfolio of domestic and foreign common stocks that pay dividends and writing (selling) stock index call options with respect to a portion of its common stock portfolio.

Performance

For the 12 months ended October 31, 2008, the Trust returned (42.44)% based on market price and (38.56)% based on NAV. For the same period, the MSCI World Index posted a return of (41.85)%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The covered call premium strategy allowed the Trust some protection on the downside, as management was able to take advantage of market volatility. However, during steep sell-offs like those experienced over the past 12 months, the premium only provides a small cushion, as the Trust is still exposed to the broader equity market downturns. At period-end, volatility in the market persists; as such, the Trust is defensively positioned.

BlackRock Global Opportunities Equity Trust

Investment Objective

BlackRock Global Opportunities Equity Trust (BOE) (the Trust) seeks current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve its objectives by investing primarily in equity securities issued by companies located in countries throughout the world and utilizing an option writing strategy to enhance current gains.

Performance

For the 12 months ended October 31, 2008, the Trust returned (38.15)% based on market price and (35.08)% based on NAV. For the same period, the benchmark S&P Global Broad Market Index posted a return of (43.97)%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust s outperformance during the period was primarily attributed to strong stock selection, particularly within the financials, materials and healthcare sectors. Sector allocation also contributed positively, as underweight positions in financials, industrials and information technology, along with an overweight in consumer staples, aided return comparisons.

BlackRock Health Sciences Trust

Investment Objective

BlackRock Health Sciences Trust (BME) (the Trust) seeks to provide total return through a combination of current income and capital appreciation. The Trust seeks to achieve this objective by investing primarily in equity securities of companies engaged in the health sciences and related industries and equity derivatives with exposure to the health sciences industry.

Performance

For the 12 months ended October 31, 2008, the Trust returned (13.47)% based on market price and (15.55)% based on NAV. For the same period, the benchmark Russell 3000 Healthcare Index returned (23.79)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust's comparative performance benefited equally from stock selection and sector allocation. Most notably, selection within the healthcare equipment and biotechnology sub-sectors helped returns. An overweight allocation to healthcare equipment and biotechnology, as well as an underweight within managed healthcare, also had a positive impact on the Trust's relative return for the trailing 12-month period.

BlackRock International Growth and Income Trust

Investment Objective

BlackRock International Growth and Income Trust (BGY) (the Trust) seeks current income and current gains, and secondarily long-term capital appreciation. The Trust seeks to achieve its objectives by investing primarily in equity securities issued by companies of any market capitalization located in countries throughout the world and utilizing an option writing (selling) strategy to enhance current gains.

Performance

For the 12 months ended October 31, 2008, the Trust returned (42.39)% based on market price and (41.76)% based on NAV. For the same period, the S&P Global ex-U.S. Broad Market Index returned (49.18)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust s comparative performance was enhanced primarily by strong stock selection, particularly within the financials and materials sectors. An underweight exposure versus the benchmark in financials and consumer discretionary, along with overweight allocations to the consumer staples and telecommunication services sectors, also benefited the Trust s relative return for the trailing 12-month period.

BlackRock Real Asset Equity Trust

Investment Objective

BlackRock Real Asset Equity Trust (BCF) (the Trust) seeks to provide total return through a combination of current income, current gains and capital appreciation. The Trust attempts to achieve this objective by investing primarily in equity securities of companies engaged in energy, natural resources and basic materials businesses and companies in associated businesses and equity derivatives with exposure to those companies.

Performance

For the 12 months ended October 31, 2008, the Trust returned (51.69)% based on market price and (50.14)% based on NAV. For the same period, the closed-end Lipper Sector Equity Funds category returned (35.59)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust s significant relative underperformance was due primarily to the allocation to commodity-related market segments, such as mining and energy, both of which have lagged the broader market. In particular, base and precious metals producers have come under significant pressure as commodity prices have collapsed in the last several months on waning demand.

BlackRock S&P Quality Rankings Global Equity Managed Trust

Investment Objective

BlackRock S&P Quality Rankings Global Equity Managed Trust (BQY) (the Trust) seeks to provide total return through a combination of current income and capital appreciation investing primarily in equity securities of issuers that pay above average dividends and have the potential for capital appreciation.

Performance

For the 12 months ended October 31, 2008, the Trust returned (38.42)% based on market price and (37.53)% based on NAV. For the same period, the MSCI World Developed Value Index posted a return of (42.47)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. One of the key investment objectives of the portfolio is to generate income through positions in stocks with attractive dividend yields. Over the past six months, this detracted as higher-yielding stocks have modestly underperformed. However, throughout the course of the annual period in particular, during the past six months when the global credit crisis intensified higher-quality stocks significantly outperformed lower-quality issues globally, which was beneficial. Significant exposure to the North American region also aided results, as this was the best-performing area over the last 12 months.

BlackRock World Investment Trust

Investment Objective

BlackRock World Investment Trust (BWC) (the Trust) seeks current income, dividends and gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve these objectives by investing in equity securities or options on equity securities or indices or sectors of equity securities. Equity securities in which the Trust anticipates investing include common stocks, preferred stocks, convertible securities, warrants, depository receipts and equity interests in REITs. The Trust may invest in preferred stocks and convertible securities of any rating. The Trust may invest in debt securities of issuers located anywhere in the world and including securities rated below investment grade.

Performance

For the 12 months ended October 31, 2008, the Trust returned (39.20)% based on market price and (34.34)% based on NAV. For the same period, the benchmark S&P Global Broad Market Index posted a return of (43.97)%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust s comparative performance was enhanced primarily by strong stock selection, particularly within the financials and materials sectors.
