TABLE OF CONTENTS

PART 1 - FINANCIAL INFORMATION

Item 1 - Financial Statements.

Home Federal Bancorp, Inc. (the "Company") was formed to serve as the stock holding company for Home Federal Savings and Loan Association of Nampa (the "Association") pursuant to the Association's mutual holding company reorganization. In connection with the mutual holding company reorganization, the Association converted to a federally chartered stock savings bank and changed its name to Home Federal Bank (the "Bank"). On December 6, 2004, the Company's minority stock offering closed and 6,083,500 shares were sold at \$10.00 per share, with an additional 146,004 shares issued to the Home Federal Foundation, Inc. (the "Foundation"). For further discussion of the Company's formation and operations, see the Company's Annual Report on Form 10-K for the year ended September 30, 2004. Based upon the foregoing, the Unaudited Interim Consolidated Financial Statements filed as a part of this quarterly report for periods prior to December 6, 2004, are those of the Bank as a federal mutual savings and loan association and its wholly-owned subsidiary, Idaho Home Service Corporation, as follows:

	Page
Consolidated Balance Sheets as of March 31, 2005 and September 30, 2004	1
Consolidated Statements of Income for the Three and Six Months ended March 31, 2005 and 2004	2

HOME FEDERAL BANCORP, INC. AND SUBSIDIARY
SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1 - Basis of Presentation

The consolidated financial statements presented in this quarterly report include

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

the accounts of the Company and its wholly-owned subsidiary, Home Federal Bank. The financial statements of the Company have been prepared in conformity with accounting principles generally accepted in the United States of America for interim financial information and are unaudited. All significant intercompany transactions and balances have been eliminated. In the opinion of the Company's management, all adjustments consisting of normal recurring accruals necessary for a fair presentation of the financial condition and results of operations for the interim periods included herein have been made. The consolidated statement of financial condition as of September 30, 2004 has been derived from the audited consolidated statement of financial condition of the Bank as a federal mutual savings and loan association as of that date.

Certain information and note disclosures normally included in the Company's annual consolidated financial statements have been condensed or omitted. Therefore, these consolidated financial statements and notes thereto should be read in conjunction with the Company's September 30, 2004 audited financial statements and notes included in the Form 10-K filed with the Securities and Exchange Commission on December 29, 2004.

Note 2 - Summary of Significant Accounting Policies

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the consolidated financial statements. Changes in these estimates and assumptions are considered reasonably possible and may have a material impact on the consolidated financial statements, and thus actual results could differ from the amounts reported and disclosed herein. The Company considers the allowance for loan losses, mortgage servicing rights, and deferred income taxes to be critical accounting estimates.

The accounting estimate related to the allowance for loan losses is a critical accounting estimate because it is highly susceptible to change from period to period requiring management to make assumptions about future losses on loans. The impact of a sudden large loss could deplete the allowance and potentially require increased provisions to replenish the allowance, which would negatively affect earnings.

The most critical accounting policy associated with mortgage servicing is the methodology used to determine the fair value of capitalized mortgage servicing rights, which requires the development of a number of estimates, the most critical of which is the mortgage loan prepayment speeds assumption. The Company performs a quarterly review of mortgage servicing rights for potential declines in value. This review may include an independent appraisal by an outside party of the fair value of the mortgage servicing rights.

Deferred income taxes are computed using the asset and liability approach as prescribed in the Statement of Financial Accounting Standards ("SFAS") No. 109, Accounting for Income Taxes. Under this method, a deferred tax asset or liability is determined based on the currently enacted tax rates applicable to the period in which the differences between the financial statement carrying amounts and tax basis of the existing assets and liabilities are expected to be reported in the Company's income tax returns.

At March 31, 2005, there were no material changes in the Company's significant accounting policies or critical accounting estimates from those disclosed in the Company's Form 10-K for the fiscal year ended September 30, 2004.

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

Note 3 - Mutual Holding Company Reorganization

On May 18, 2004, the Board of Directors of the Association unanimously adopted a Plan of Reorganization and Stock Issuance. At the special meeting of members of the Association held on September 20, 2004, members approved the plan of reorganization and stock issuance and the contribution to the Foundation by more than the required majority of the total votes entitled to be cast at the special meeting.

Pursuant to the Plan of Reorganization and Stock Issuance, the Association: (i) converted to a federal stock savings bank (Stock Savings Bank) as the successor to the Association in its current mutual form; (ii) organized a Stock Holding Company as a federally-chartered corporation that owns 100% of the common stock of the Stock Savings Bank; and (iii) organized a Mutual Holding Company as a federally-chartered mutual holding company that owns at least 51% of the common stock of the Stock Holding Company for as long as the Mutual Holding Company remains in existence. The Stock Savings Bank succeeded to the business and operations of the Association in its mutual form, and the Stock Holding Company sold 40.0% of its common stock in a public stock offering that was completed on December 6, 2004.

All depositors who had membership or liquidation rights with respect to the Association as of December 6, 2004 (the effective date of the reorganization) continue to have such rights solely with respect to the Mutual Holding Company for as long as they continue to hold deposit accounts with the Bank. In addition, all persons who become depositors of the Bank subsequent to the reorganization have membership and liquidation rights with respect to the Mutual Holding Company. Borrower members of the Association at the time of the reorganization have the same membership rights in the Mutual Holding Company that they had in the Association immediately prior to the reorganization for as long as their existing borrowings remain outstanding.

On December 6, 2004, the Bank completed the mutual holding company reorganization and minority stock offering. The Company sold 6,083,500 shares of its common stock, \$0.01 par value, at a price of \$10.00 per share. As part of the reorganization and minority stock offering, the Company also established and capitalized the Foundation with a \$1.8 million one-time contribution, which consisted of 146,004 shares of its common stock and \$365,010 in cash. In addition, the Company issued 8,979,246 additional shares, or 59.04% of its outstanding shares, to Home Federal MHC, a federally-chartered mutual holding company.

Note 4 - Employee Stock Ownership Plan

In connection with the minority stock offering, the Company established an ESOP for the benefit of its employees. The Company issued 498,360 shares of common stock to the ESOP in exchange for a ten-year note of approximately \$5.0 million, which has been recorded as "Unearned shares issued to employee stock ownership plan" within stockholders' equity. As shares are released from collateral, the Company will report compensation expense equal to the current market price of the shares. Dividends on allocated ESOP shares reduce retained earnings; dividends on unearned ESOP shares reduce accrued interest on the ESOP loan.

Note 5 - Earnings Per Share

Earnings per share ("EPS") is computed using the basic and diluted weighted average number of common shares outstanding during the period. Basic EPS is computed by dividing the Company's net income or loss by the weighted average number of common shares outstanding for the period. Diluted EPS is computed by dividing net income or loss by diluted weighted average shares outstanding, which include common stock equivalent shares outstanding using the treasury

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

stock method, unless such shares are anti-dilutive. There were no outstanding securities or contracts that could be exercised or converted into common stock as of March 31, 2005. Therefore, basic and diluted earnings per share are the same. ESOP shares are not considered outstanding for earnings per share purposes until they are committed to be released.

7

The following table presents the computation of basic and diluted earnings per share for the periods indicated (in thousands, except share data):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2005	2004	2005	2004
Net income	\$1,674	\$915	\$1,748	\$1,953
Weighted average shares outstanding	14,720,524	nm(1)	14,718,364	nm(1)
Basic and diluted earnings per share	\$0.11	nm(1)	\$0.12	nm(1)

(1) Shares outstanding and earnings per share information are not meaningful. The Company did not complete its minority stock offering until December 6, 2004.

Note 6 - Recent Developments and Significant Events

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123 (Revised 2004), Share-Based Payment. This Statement replaces SFAS No. 123, Accounting for Stock Based Compensation, and supersedes Accounting Principles Bulletin ("APB") Opinion No. 25, Accounting for Stock Issued to Employees. SFAS No. 123(R) requires that the compensation cost relating to share-based payment transactions (for example, stock options granted to employees of the Company) be recognized in the Company's financial statements. That cost will be measured based on the fair value of the equity or liability instruments used. SFAS No. 123(R) covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. On April 21, 2005 the SEC issued a ruling extending the mandatory compliance date for SFAS 123(R). Under the ruling public entities (other than those filing as small business issuers) will be required to apply SFAS No. 123(R) as of the first interim or annual reporting period beginning after December 15, 2005. The Company plans to adopt the provisions of SFAS No. 123(R) effective January 1, 2006, and is in the process of evaluating the impact on its consolidated financial position or consolidated results of operations.

In December 2004, the FASB issued SFAS No. 153, Exchanges of Nonmonetary Assets - An Amendment of APB Opinion No. 29. Guidance under APB Opinion No. 29, Accounting for Nonmonetary Transactions, is based on the principal that exchanges of nonmonetary assets should be measured based on the fair value of the assets exchanged. SFAS No. 153 amends Opinion No. 29 to eliminate the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exemption for exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange is considered to have commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. The adoption of SFAS No. 153, effective July 1, 2005, is not expected to have any impact on the Company's current financial condition or results of operations.

In December 2003, the American Institute of Certified Public Accountants issued Statement of Position ("SOP") 03-3, Accounting for Certain Loans or Debt

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

Securities Acquired in a Transfer. The SOP addresses accounting for differences between contractual cash flows and cash flows expected to be collected from an investor's initial investment in loans or debt securities acquired in a transfer if those differences are attributable, at least in part, to credit quality. The SOP does not apply to loans originated by the Company. Provisions of the SOP limit the yield that may be accreted to the excess of the investor's estimate at acquisition of expected cash flows to be collected over the investor's initial investment in the loan. Additionally, the SOP prohibits the recognition of this excess as an adjustment of yield, loss accrual or valuation allowance. Subsequent increases in cash flows expected to be collected are generally to be recognized prospectively through adjustment of the loan's yield over its remaining life. Decreases in cash flows expected to be collected should be recognized as impairment. The SOP prohibits "carrying over" or creation of valuation allowance in the initial accounting of all loans acquired in a transfer. The SOP was effective for loans acquired starting January 1 and is not expected to have any impact on the Company's current financial condition or results of operations.

8

Note 7 - Mortgage-Backed Securities

Mortgage-backed securities available for sale consisted of the following (in thousands):

March 31, 2005				
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Agency mortgage-backed securities	\$19,383	\$-	\$(263)	\$19,120
September 30, 2004				
Agency mortgage-backed securities	\$ 874	\$-	\$ (3)	\$ 871

The contractual maturities of mortgage-backed securities available for sale are shown below. Expected maturities may differ from contractual maturities because borrowers have the right to prepay obligations without prepayment penalties (in thousands).

March 31, 2005		
	Amortized Cost	Fair Value
Due after five years through ten years	\$ 798	\$ 779
Due after ten years	18,585	18,341
Total	\$ 19,383	\$ 19,120

The Company realized no gains or losses on sales of mortgage-backed securities available for sale for the three months ended March 31, 2005 and 2004.

Mortgage-backed securities held to maturity consisted of the following (in thousands):

March 31, 2005			
	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Amortized Cost			

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

Agency mortgage-backed securities	\$151,307	\$446	\$ (2,557)	\$149,196
Non-agency mortgage-backed securities	3,723	-	(107)	3,616
Total	\$155,030	\$446	\$ (2,664)	\$152,812

September 30, 2004

Agency mortgage-backed securities	\$96,595	\$1,215	\$ (284)	\$ 97,526
-----------------------------------	----------	---------	----------	-----------

The contractual maturities of mortgage-backed securities held to maturity are shown below. Expected maturities may differ from contractual maturities because borrowers have the right to prepay obligations without prepayment penalties (in thousands).

	March 31, 2005	
	Amortized Cost	Fair Value
Due within one year	\$ 2	\$ 2
Due after one year through five years	2,452	2,536
Due after five years through ten years	8,071	7,839
Due after ten years	144,505	142,435
Total	\$155,030	\$152,812

9

The fair value of temporarily impaired securities, the amount of unrealized losses and the length of time these unrealized losses existed as of March 31, 2005 are as follows (in thousands):

	Less than 12 months		12 months or longer		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Mortgage-backed securities, available for sale	\$18,122	\$ (263)	\$ -	\$ -	\$18,122	\$ (263)
Mortgage-backed securities, held to maturity	126,870	(2,664)	-	-	126,870	(2,664)
Total	\$144,992	\$ (2,927)	\$ -	\$ -	\$144,992	\$ (2,927)

Management has evaluated these securities and has determined that the decline in the value is temporary and not related to any company or industry specific event. The Company has the ability and intent to hold the securities for a reasonable period of time for a forecasted recovery of the fair value in the event of a more favorable interest rate environment.

Note 8 -Loans Receivable

Loans receivable are summarized as follows (dollars in thousands):

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This report contains forward-looking statements, which can be identified by the use of words such as "believes", "expects", "anticipates", "estimates" or similar expressions. Forward-looking statements include, but are not limited to:

- * statements of our goals, intentions and expectations;
- * statements regarding our business plans, prospects, growth and operating strategies;
- * statements regarding the quality of our loan and investment portfolios; and
- * estimates of our risks and future costs and benefits.

These forward-looking statements are subject to significant risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements due to, among others, the following factors:

- * general economic conditions, either nationally or in our market area, that are worse than expected;

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

- * changes in the interest rate environment that reduce our interest margins or reduce the fair value of financial instruments;
- * increased competitive pressures among financial services companies;
- * changes in consumer spending, borrowing and savings habits;
- * legislative or regulatory changes that adversely affect our business;
- * adverse changes in the securities markets; and
- * changes in accounting policies and practices, as may be adopted by the bank regulatory agencies, the Public Company Accounting Oversight Board or the FASB.

These factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on such statements. The Company undertakes no obligation to publish revised forward-looking statements to reflect the occurrence of unanticipated events or circumstances after the date hereof.

Overview

The Company was organized as a federally-chartered stock corporation at the direction of the Association in connection with its mutual holding company reorganization. The reorganization was completed on December 6, 2004. In connection with the reorganization, the Association converted to a federally-chartered stock savings bank and changed its corporate title to "Home Federal Bank". In the reorganization, the Company sold 40.00% of its outstanding shares of common stock (6,083,500 shares) to the public and issued 59.04% of its outstanding shares of common stock (8,979,246 shares) to Home Federal MHC, the mutual holding company parent of the Company. In connection with the reorganization, the Company also established and capitalized the Foundation with a \$1.8 million one-time contribution, which consisted of 146,004 shares of its common stock and \$365,010 in cash. The Company's common stock is traded on the NASDAQ Stock Market under the symbol "HOME."

The Bank was founded in 1920 as a building and loan association and reorganized as a federal mutual savings and loan association in 1936. The Bank is a community-oriented financial institution dedicated to serving the financial service needs of consumers and businesses within our market area. The Bank's primary business is attracting deposits from the general public and using these funds to originate loans. We emphasize the origination of loans secured by first mortgages on owner-occupied, residential real estate, residential development and construction, and commercial real estate. To a lesser extent, we originate other types of real estate loans, commercial business loans and consumer loans.

The Bank serves the Treasure Valley region of southwestern Idaho, which includes Ada, Canyon, Elmore and Gem Counties, through our 15 full-service banking offices and two loan centers. Nearly 40% of the state's population lives and works in the four counties served by Home Federal Bank. Ada County has the largest population and includes the city of Boise, the state capitol. Home Federal Bank maintains its largest branch presence in Ada County with eight locations, followed by Canyon County with five offices, including the Company's corporate headquarters in Nampa. The two remaining branches are located in Elmore and Gem Counties.

The local economy is primarily urban with the city of Boise being the most populous of the markets that we serve, followed by Nampa, the state's second largest city. The regional economy is well diversified with government,

11

healthcare, manufacturing, high technology, call centers and construction

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

providing sources of employment. In addition, agriculture and related industries continue to be key components of the economy in southwestern Idaho. Generally, sources of employment are concentrated in Ada and Canyon Counties and include the headquarters of Micron Technology, Albertsons, Washington Group International, J.R. Simplot Company and Boise Cascade, LLC. Other major employers include Hewlett-Packard, two regional medical centers and Idaho state government agencies. The city of Boise is also home to Boise State University, the state's largest and fastest growing university.

Critical Accounting Policies

Allowance for Loan Losses. Management believes that the accounting estimate related to the allowance for loan losses is a critical accounting estimate because it is highly susceptible to change from period to period requiring management to make assumptions about future losses on loans; and the impact of a sudden large loss could deplete the allowance and potentially require increased provisions to replenish it, which would negatively affect earnings.

Our methodology for analyzing the allowance for loan losses consists of three components: formula, specific and general allowances. The formula allowance is determined by applying an estimated loss percentage to various groups of loans based on historical measures such as the amount and type of classified loans, past due ratios and loss experience, which could affect the collectibility of the respective loan types. The specific allowance component is created when management believes that the collectibility of a specific large loan has been impaired and a loss is probable. The general allowance element relates to assets with no well-defined deficiency of weakness and takes into consideration loss that is inherent within the portfolio but has not been realized.

Mortgage Servicing Rights. Mortgage servicing rights represent the present value of the future loan servicing fees from the right to service loans for others. The most critical accounting policy associated with mortgage servicing is the methodology used to determine the fair value of capitalized mortgage servicing rights, which requires the development of a number of estimates, the most critical of which is the mortgage loan prepayment speeds assumption. The Company performs a quarterly review of mortgage servicing rights for potential declines in value. This review may include an independent appraisal by an outside party of the fair value of the mortgage servicing rights.

Deferred Income Taxes. Deferred income taxes are reported for temporary differences between items of income or expense reported in the financial statements and those reported for income tax purposes. Deferred taxes are computed using the asset and liability approach as prescribed in SFAS No. 109, Accounting for Income Taxes. Under this method, a deferred tax asset or liability is determined based on the currently enacted tax rates applicable to the period in which the differences between the financial statement carrying amounts and tax basis of existing assets and liabilities are expected to be reported in the Company's income tax returns. The deferred tax provision for the year is equal to the net change in the net deferred tax asset from the beginning to the end of the year, less amounts applicable to the change in value related to investments available for sale. The effect on deferred taxes of a change in tax rates is recognized as income in the period that includes the enactment date. The primary differences between financial statement income and taxable income result from depreciation expense, mortgage servicing rights, loan loss reserves and dividends received from the Federal Home Loan Bank of Seattle ("FHLB"). Deferred income taxes do not include a liability for pre-1988 bad debt deductions allowed to thrift institutions which may be recaptured if the institution fails to qualify as a thrift for income tax purposes in the future.

Comparison of Financial Condition at March 31, 2005 and September 30, 2004
General. Total assets decreased \$100.5 million or 13.5% to \$643.4 million at March 31, 2005 compared to \$743.9 million at September 30, 2004. Assets at

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

September 30, 2004 included \$220.8 million that was received from subscribers in the Company's minority stock offering. These subscription funds were subsequently refunded to subscribers in the quarter ended December 31, 2004 as a result of a change in the appraisal of the Company, which increased the valuation range of the offering. Following the refund to subscribers, the Company conducted a resolicitation and received \$153.1 million from subscribers. The Company's minority stock offering, however, was oversubscribed and as a result, \$97.2 million of the \$153.1 million of subscription funds received by the Company were returned to investors.

12

Assets. For the six months ended March 31, 2005 total assets decreased \$100.5 million. The increases and decreases were primarily concentrated in the following asset categories:

	Balance at March 31, 2005	Increase / (Decrease) from September 30, 2004	Percentage Increase / (Decrease)

(dollars in thousands)			
Cash and amounts due from depository institutions	\$ 11,875	\$ (203,788)	(94.5)%
Mortgage-backed securities, available for sale, at fair value	19,120	18,249	2,095.2
Mortgage-backed securities, held to maturity	155,030	58,435	60.5
Loans receivable, net of allowance for loan losses	419,146	26,512	6.8
Loans held for sale	1,566	(2,011)	(56.2)

Cash and amounts due from depository institutions decreased \$203.8 million as a result of the completion of the Company's minority stock offering. Assets at September 30, 2004 included \$220.8 million that was received from subscribers in the Company's minority stock offering. These subscription funds were subsequently refunded to subscribers in the quarter ended December 31, 2004 as described above.

The Company invested the net proceeds from the offering and additional borrowings in mortgage-backed securities to leverage the balance sheet and achieve the desired level of interest-earning assets. For the six months ended March 31, 2005, mortgage-backed securities increased \$76.7 million, or 78.7%, to \$174.2 million from \$97.5 million at September 30, 2004. The increase in mortgage-backed securities consisted of intermediate-term securities, including hybrid adjustable and fixed rate securities with terms of 20 years or less.

Loans receivable, net, increased \$26.5 million to \$419.1 million at March 31, 2005, from \$392.6 million at September 30, 2004. Single-family residential loans and commercial real estate loans increased \$12.7 million and \$11.7 million, respectively, during the six months ended March 31, 2005. Over 90% of the Company's loan portfolio is secured by real estate, either as primary or secondary collateral, located in its primary market areas.

Loans held for sale decreased \$2.0 million to \$1.6 million at March 31, 2005, from \$3.6 million at September 30, 2004. The Company originates fixed-rate residential loans, the majority of which are sold in the secondary market. Selling fixed-rate mortgage loans allows the Company to reduce interest rate risk associated with long term, fixed-rate products and provides funds to make new loans and diversify the loan portfolio. The Company retains the servicing

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

rights on most loans sold in the secondary market, thereby maintaining the customer relationship and generating ongoing noninterest income.

Deposits. Deposits increased \$30.1 million during the six months ended March 31, 2005. The following table details the changes in deposit accounts.

	Balance at March 31, 2005	Increase from September 30, 2004	Percentage Increase / (Decrease)
----- (dollars in thousands)			
Savings deposits	\$ 25,917	\$ 464	1.8%
Demand deposits	166,639	13,230	8.6
Certificates of deposit	180,594	16,369	10.0

Total deposit accounts	\$ 373,150	\$ 30,063	8.8%
=====			

Noninterest-bearing demand deposits increased \$4.7 million to \$34.3 million at March 31, 2005, from \$29.6 million at September 30, 2004. Interest-bearing deposits grew \$8.5 million to \$132.3 million at March 31, 2005, from \$123.8 million at September 30, 2004. Certificates of deposit increased \$16.4 million with the majority of the increase in 12 to 23 month terms.

13

Borrowings. Advances from the FHLB increased \$31.9 million or 26.0%, to \$154.7 million during the six months ended March 31, 2005. The Company uses advances from the FHLB as an alternative funding source to deposits in order to manage funding costs, reduce interest rate risk, and to leverage the balance sheet. The net effect was to fund increases in total interest-earning assets, thereby incrementally increasing net interest income.

Equity. Total stockholders' equity increased \$56.8 million, or 125.9%, to \$101.9 million at March 31, 2005 from \$45.1 million at September 30, 2004. The increase was primarily as a result of the \$53.6 million net proceeds from the stock offering and \$1.5 million for the 146,004 shares of common stock issued to the Foundation.

Comparison of Operating Results for the Three Months ended March 31, 2005 and March 31, 2004

General. Net income for the three months ended March 31, 2005 was \$1.7 million, or \$0.11 per basic share, compared to net income of \$915,000 for the three months ended March 31, 2004. On December 6, 2004, the Bank completed its mutual holding company reorganization, at which time the Company was organized. As a result, comparisons to prior periods refer to the results of the Bank as a federal mutual savings and loan association, and per share data is not applicable.

During the current quarter, the Company sold a former branch for a pre-tax gain of \$386,000. Excluding the sale of the branch, the Company had net income of \$1.4 million, or \$0.10 per share for the three months ended March 31, 2005, compared to \$915,000 for the same period a year ago. The following table reconciles the Company's actual net income to pro forma net income, exclusive of the sale of the branch and as adjusted for federal and state taxes:

Three Months Ended
March 31,

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

	----- 2005 -----	----- 2004 -----
(in thousands, except per share data)		
Pro forma disclosure		
Net income, as reported	\$ 1,674	\$ 915
Sale of branch	(386)	-
Federal and state income tax effect	151	-
	-----	-----
Pro forma net income	\$ 1,439	\$ 915
	=====	=====
Earnings per share		
Basic as reported	\$ 0.11	nm (1)
Pro forma basic	\$ 0.10	nm (1)

(1) Earnings per share information is not meaningful. The Company did not complete its minority stock offering until December 6, 2004.

Net Interest Income. Net interest income increased \$1.2 million, or 27.9%, to \$5.5 million for the three months ended March 31, 2005, from \$4.3 million for the three months ended March 31, 2004. Average total interest-earning assets increased \$151.7 million primarily as a result of the purchase of mortgage-backed securities with the net proceeds of the minority stock offering and additional purchases throughout the past 12 months to achieve a desired level of interest-earning assets. The additional mortgage-backed securities contributed to a 36 basis point decline in the Company's average asset yields for the three months ended March 31, 2005. During that same period our average cost of funds increased 5 basis points, resulting in a 41 basis point decrease in our net interest spread.

Interest and Dividend Income. Total interest and dividend income for the three months ended March 31, 2005 increased \$1.7 million, or 25.4%, to \$8.4 million, from \$6.7 million for the three months ended March 31, 2004. The increase was the result of the \$151.7 million increase in the average balance of interest-earning assets. The increase in the average balance of interest-earning assets was partially offset by lower interest rates on mortgage-backed securities purchased, prepayment of higher rate loans and mortgage-backed securities in the portfolio, and the decision by the FHLB to significantly reduce the dividend paid on FHLB stock for the near future. We do not expect the impact of the reduction in FHLB dividend income to have a significant effect on our results of operations or financial condition.

14

The following table compares detailed average earning asset balances, associated yields, and resulting changes in interest and dividend income for the three months ended March 31, 2005 and 2004:

Three Months Ended March 31,				
----- 2005 -----		----- 2004 -----		
Average Balance	Yield	Average Balance	Yield	Increase / (Decrease) in Interest and Dividend Income from 2004
-----	-----	-----	-----	-----

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

(dollars in thousands)					
Loans receivable, net	\$413,365	6.09%	\$383,821	6.18%	\$ 369
Loans held for sale	1,471	5.41	2,721	5.66	(19)
Investment securities, available for sale, including interest-bearing deposits in other banks	2,982	2.28	8,135	1.77	(19)
Mortgage-backed securities	173,396	4.72	46,302	5.34	1,427
FHLB stock	8,044	1.49	6,616	3.99	(36)
	-----	-----	-----	-----	-----
Total interest-earning assets	\$599,258	5.61%	\$447,595	5.97%	\$1,722
	=====	=====	=====	=====	=====

Interest Expense. Interest expense increased \$560,000, or 23.3%, to \$2.9 million for the three months ended March 31, 2005 from \$2.4 million for the three months ended March 31, 2004. The average balance of total interest-bearing liabilities was \$487.5 million, an increase of \$85.8 million, for the three months ended March 31, 2005 compared to \$401.7 million for the three months ended March 31, 2004. The increase was primarily a result of additional advances from the FHLB to leverage the balance sheet and achieve the desired level of interest-earning assets. The average cost of funds for total interest-bearing liabilities was 2.39%, an increase of 5 basis points for the three months ended March 31, 2005 compared to 2.34% for the three months ended March 31, 2004.

The following table details average balances, cost of funds and the change in interest expense for the three months ended March 31, 2005 and 2004:

	Three Months Ended March 31,				
	2005		2004		Increase / (Decrease) in Interest Expense from 2004
	Average Balance	Cost	Average Balance	Cost	

	(dollars in thousands)

	\$487,466	2.39%	\$401,697	2.34%	\$ 560
	=====	=====	=====	=====	=====

Provision for Loan Losses. The Company's Asset Liability Committee (the "Committee") assesses the adequacy of the allowance for loan losses on a quarterly basis. The Committee also analyzes several different factors, including delinquency, charge-off rates, and the changing risk profile of the loan portfolio, as well as local economic conditions including unemployment rates, bankruptcies and vacancy rates of business and residential properties. The Committee's methodology for analyzing the allowance for loan losses consists of three components: formula, specific and general allowances. The formula allowance is determined by applying an estimated loss percentage to various groups of loans. The loss percentages are based on various historical measures such as the amount and type of classified loans, past due ratios and loss experience, which could affect the collectibility of the respective loan types.

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

The specific allowance component is determined when management believes that the collectibility of a

15

specific large loan has been impaired and a loss is probable. The general allowance component is established to ensure the adequacy of the allowance for loan losses in situations where the Committee believes there are risk factors associated with the collectibility of the portfolio that may not be adequately addressed in the formula or specific allowance components.

The provision for loan losses decreased \$64,000 to \$236,000 for the three months ended March 31, 2005 from \$300,000 for the three months ended March 31, 2004. The following table details selected activity associated with the allowance for loan losses for the three months ended March 31, 2005 and 2004:

	At or For the Three Months Ended March 31,	
	2005	2004
	(dollars in thousands)	
Provision for loan losses	\$236	\$ 300
Net charge-offs	84	14
Allowance for loan losses	2,827	2,411
Allowance for loan losses as a percentage of total loans receivable and loans held for sale at the end of the period	0.67%	0.62%
Allowance for loan losses as a percentage of non- performing loans at the end of the period	1,197.88%	425.97%
Nonperforming loans	236	566
Nonaccrual and 90 days or more past due loans as a percentage of loans receiv- able	0.06%	0.14%
Total loans, net	419,146	383,950

The Company increased its provision for loan losses for the prior fiscal year in connection with the unseasoned nature of its loan portfolio that resulted from a record volume of refinanced mortgage loans. In management's judgment, the increase in the amount of refinanced mortgage loans resulted in an increase in the level of unseasoned loans within the loan portfolio thereby increasing the inherent risk of loss to the Company. In addition, management revised the estimated loss ratios of several loan categories to more accurately reflect the Company's loss history. Industry or peer loss rates were used if the Company did not have a meaningful history of losses. Management considers the allowance for loan losses at March 31, 2005 to be adequate to cover probable losses inherent in the loan portfolio based on the assessment of the above-mentioned factors affecting the loan portfolio.

Noninterest Income. Noninterest income increased \$627,000 to \$2.6 million for the three months ended March 31, 2005 from \$2.0 million for the three months ended March 31, 2004. For the quarter ended March 31, 2005 other noninterest income included a \$386,000 pre-tax gain on the sale of a former branch. The slowdown in mortgage refinance activity also affected the gains on the sale of

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

single-family residential loans.

Mortgage servicing rights is an accounting estimate of the present value of the future servicing fees from the right to service mortgage loans for others. This estimate is affected by prepayment speeds of the underlying mortgages and interest rates. In general, during periods of falling interest rates, mortgage loans prepay faster and the value of the mortgage-servicing asset declines. The Company performs a quarterly review of mortgage servicing rights for potential declines in value. For the quarter ended March 31, 2005, amortization of the asset exceeded the servicing rights capitalized as loan sales have declined as compared to prior quarters. For the quarter ended March 31, 2004, the Company determined the value of the mortgage servicing right had declined \$230,000. The mortgage servicing right was 1.17% of mortgage loans serviced for others at March 31, 2005, compared to 1.19% at March 31, 2004.

16

The following table provides a detailed analysis of the changes in components of noninterest income:

	Three Months Ended March 31, 2005	Increase / (Decrease) from March 31, 2004	Percentage Increase / (Decrease)
----- (dollars in thousands)			
Service fees and charges	\$1,952	\$182	10.3%
Gain on sale of loans	72	(53)	(42.4)
Increase in cash surrender value of bank owned life insurance	87	(37)	(29.8)
Loan servicing fees	168	2	1.2
Mortgage servicing rights, net	(58)	125	68.3
Other	420	408	3,400.0

Total noninterest income	\$2,641	\$627	31.1%

Noninterest Expense. Noninterest expense increased \$571,000, or 12.4%, to \$5.2 million for the three months ended March 31, 2005 compared to \$4.6 million for the three months ended March 31, 2004.

The following table provides a detailed analysis of the changes in components of noninterest expense:

	Three Months Ended March 31, 2005	Increase / (Decrease) from March 31, 2004	Percentage Increase / (Decrease)

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

(dollars in thousands)

Compensation and benefits	\$3,096	\$404	15.0%
Occupancy and equipment	682	8	1.2
Data processing	376	19	5.3
Advertising	310	6	2.0
Other	729	134	22.5

Total noninterest expense	\$5,193	\$571	12.4%

Compensation expense increased as a result of the establishment of the ESOP, annual merit pay increases, and an increase in the number of employees. As of March 31, 2005, the Company employed 240 full-time equivalent employees, compared to 224 at March 31, 2004. Other expenses increased as a result of professional expenses related to being a publicly held company. The efficiency ratio (excluding the \$386,000 gain on the sale of the former branch), which is defined as the percentage of noninterest expense to net interest income plus noninterest income, decreased to 67.01% for the three months ended March 31, 2005 compared to 72.83% for the three months ended March 31, 2004. By definition, a lower efficiency ratio is an indication that the Company is efficiently utilizing resources to generate net interest income and other fee income.

Income Tax Expense. Income tax expense increased \$523,000 to \$1.0 million for the three months ended March 31, 2005 from \$509,000 for the same period a year ago. Income before income taxes was \$2.7 million for the three months ended March 31, 2005 compared to \$1.4 million for the three months ended March 31, 2004. The Company's combined federal and state effective income tax rate for the current quarter was 38.1% compared to 35.7% for the same quarter of the prior fiscal year. The increase in the effective tax rate was as a result of decrease in the noninterest income related to the cash surrender value of the bank owned life insurance which is not subject to income taxes and an increase in nondeductible compensation expense related to the ESOP.

Comparison of Operating Results for the Six Months ended March 31, 2005 and March 31, 2004

General. Net income for the six months ended March 31, 2005 was \$1.7 million, or \$0.12 per basic share, compared to net income of \$2.0 million for the six months ended March 31, 2004. On December 6, 2004, the Bank completed its mutual holding company reorganization, at which time the Company was organized. As a result, comparisons to prior periods refer to the results of the Bank as a federal mutual savings and loan association, and per share data is not applicable. The per share data for the six months ended March 31, 2005 is being reported on shares

17

outstanding from December 6, 2004 through March 31, 2005, since the Bank

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

completed its reorganization on December 6, 2004.

As part of the reorganization and minority stock offering, the Company formed and capitalized the Foundation with a one-time contribution of \$1.8 million, which consisted of 146,004 shares of its common stock and \$365,010 in cash. The Foundation was formed for the purpose of supporting charitable organizations and activities that enhance the quality of life for residents within the Company's market area. In addition, during the second quarter ended March 31, 2005, the Company sold a former branch for a pre-tax gain of \$386,000. The contribution to the Foundation, net of the gain on sale of the branch, was the primary factor in the net income decrease from the same period a year ago.

Excluding the contribution to the Foundation and the sale of the branch, the Company had net income of \$2.6 million, or \$0.18 per share for the six months ended March 31, 2005, compared to \$2.0 million for the same six-month period a year ago. The following table reconciles the Company's actual net income to pro forma net income, exclusive of the contribution to the Foundation and sale of the branch and as adjusted for federal and state taxes:

	Six Months Ended March 31,	
	2005	2004
	(in thousands, except per share data)	
Pro forma disclosure		
Net income, as reported	\$1,748	\$1,953
Contribution to Foundation	1,825	-
Sale of branch	(386)	-
Federal and state income tax effect	(561)	-
Pro forma net income	\$2,626	\$1,953
Earnings per share		
Basic as reported	\$0.12	nm (1)
Pro forma basic	\$0.18	nm (1)

(1) Earnings per share information is not meaningful. The Company did not complete its minority stock offering until December 6, 2004.

Net Interest Income. Net interest income increased \$2.0 million, or 23.5%, to \$10.5 million for the six months ended March 31, 2005, from \$8.5 million for the six months ended March 31, 2004. Average total interest-earning assets increased \$146.9 million primarily as a result of the purchase of mortgage-backed securities with the net proceeds of the minority stock offering and additional purchases throughout the past 12 months to achieve a desired level of interest-earning assets. Also included is cash that was received from subscribers in the minority stock offering and invested in lower-yielding overnight funds. The additional mortgage-backed securities and cash contributed to a 54 basis point decline in the Company's average asset yields during the six months ended March 31, 2005. During that same period our average cost of funds declined 12 basis points, resulting in a 42 basis point decrease in our net interest spread.

Interest and Dividend Income. Total interest and dividend income for the six months ended March 31, 2005 increased \$2.9 million, or 22.0%, to \$16.1 million, from \$13.2 million for the six months ended March 31, 2004. The increase was the result of the \$146.9 million increase in the average balance of interest-earning assets. The increase in average balance of interest-earning

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

assets was partially offset by lower interest rates on mortgage-backed securities purchased, prepayment of higher rate loans and mortgage-backed securities in the portfolio, and the decision by the FHLB to significantly reduce the dividend paid on FHLB stock for the near future. We do not expect the impact of the reduction in FHLB dividend income to have a significant effect on our results of operations or financial condition.

18

The following table compares detailed average earning asset balances, associated yields, and resulting changes in interest and dividend income for the six months ended March 31, 2005 and 2004:

	Six Months Ended March 31,				
	2005		2004		Increase / (Decrease) in Interest and Dividend Income from 2004
	Average Balance	Yield	Average Balance	Yield	
	(dollars in thousands)				
Loans receivable, net	\$406,417	6.07%	\$381,614	6.21%	\$ 472
Loans held for sale	1,953	5.58	2,927	5.63	(28)
Investment securities, available for sale, including interest- bearing deposits in other banks	26,717	1.95	7,070	1.95	191
Mortgage-backed securit- ies	140,938	4.84	38,674	5.48	2,348
FHLB stock	7,735	0.78	6,575	4.50	(118)
Total interest-earning assets	\$583,760	5.51%	\$436,860	6.05%	\$2,865

Interest Expense. Interest expense increased \$917,000, or 19.5%, to \$5.6 million for the six months ended March 31, 2005 from \$4.7 million for the six months ended March 31, 2004. The average balance of total interest-bearing liabilities was \$491.4 million, an increase of \$100.7 million, for the six months ended March 31, 2005 compared to \$390.7 million for the six months ended March 31, 2004. The increase was primarily a result of cash received from stock subscription requests prior to the completion of the minority stock offering and additional advances from the FHLB to leverage the balance sheet and to achieve the desired level of interest-earning assets. The average cost of funds for total interest-bearing liabilities was 2.28%, a decrease of 12 basis points for the six months ended March 31, 2005 compared to 2.40% for the six months ended March 31, 2004.

The following table details average balances, cost of funds and the change in interest expense for the six months ended March 31, 2005 and 2004:

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

Six Months Ended March 31,					
2005			2004		
	Average Balance	Cost	Average Balance	Cost	Increase / (Decrease) in Interest Expense from 2004
(dollars in thousands)					
Savings deposits	\$ 25,446	0.20%	\$23,910	0.29%	\$ (10)
Interest-bearing demand deposits	113,861	0.26	78,286	0.24	56
Money market deposits	39,158	1.01	32,090	0.61	100
Certificates of deposit	172,067	2.93	147,759	2.92	361
FHLB advances	140,827	3.85	108,637	4.23	410
Total interest-bearing liabilities	\$491,359	2.28%	\$390,682	2.40%	\$917

Provision for Loan Losses. The Company's Asset Liability Committee assesses the adequacy of the allowance for loan losses on a quarterly basis. The Committee analyzes several different factors, including delinquency, charge-off rates, and the changing risk profile of the loan portfolio, as well as local economic conditions including unemployment rates, bankruptcies and vacancy rates of business and residential properties. The Committee's methodology for analyzing the allowance for loan losses consists of three components: formula, specific and general allowances. The formula allowance is determined by applying an estimated loss percentage to various groups of loans. The loss percentages are based on various historical measures such as the amount and type of classified loans, past due ratios and loss experience, which could affect the collectibility of the respective loan types. The specific

19

allowance component is determined when management believes that the collectibility of a specific large loan has been impaired and a loss is probable. The general allowance component is established to ensure the adequacy of the allowance for loan losses in situations where the Committee believes there are risk factors associated with the collectibility of the portfolio that may not be adequately addressed in the formula or specific allowance components.

The provision for loan losses decreased \$305,000 to \$295,000 for the six months ended March 31, 2005 from \$600,000 for the six months ended March 31, 2004. The following table details selected activity associated with the allowance for loan losses for the six months ended March 31, 2005 and 2004:

At or For the Six Months Ended March 31,	
2005	2004

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

(dollars in thousands)		
Provision for loan losses	\$295	\$600
Net charge-offs	105	42
Allowance for loan losses	2,827	2,411
Allowance for loan losses as a percentage of total loans receivable and loans held for sale at the end of the period	0.67%	0.62%
Allowance for loan losses as a percentage of nonperforming loans at the end of the period	1,197.88%	425.97%
Nonperforming loans	236	566
Nonaccrual and 90 days or more past due loans as a percentage of loans receiv- able	0.06%	0.14%
Total loans, net	419,146	383,950

The Company increased its provision for loan losses for the prior fiscal year in connection with the unseasoned nature of its loan portfolio that resulted from a record volume of refinanced mortgage loans. In management's judgment, the increase in the amount of refinanced mortgage loans resulted in an increase in the level of unseasoned loans within the loan portfolio thereby increasing the inherent risk of loss to the Company. In addition, management revised the estimated loss ratios of several loan categories to more accurately reflect the Company's loss history. Industry or peer loss rates were used if the Company did not have a meaningful history of losses. Management considers the allowance for loan losses at March 31, 2005 to be adequate to cover probable losses inherent in the loan portfolio based on the assessment of the above-mentioned factors affecting the loan portfolio.

Noninterest Income. Noninterest income increased \$517,000 to \$4.9 million for the six months ended March 31, 2005 from \$4.3 million for the six months ended March 31, 2004. Noninterest income for the six months ended March 31, 2005 included a \$386,000 pre-tax gain on the sale of a branch. The slowdown in mortgage refinance activity also affected the gains on the sale of single-family residential loans.

Mortgage servicing rights is an accounting estimate of the present value of the future servicing fees from the right to service mortgage loans for others. This estimate is affected by prepayment speeds of the underlying mortgages and interest rates. In general, during periods of falling interest rates, mortgage loans prepay faster and the value of the mortgage-servicing asset declines. The Company performs a quarterly review of mortgage servicing rights for potential declines in value. For the six months ended March 31, 2005, amortization of the asset exceeded the servicing rights capitalized as loan sales have declined as compared to the six months ended March 31, 2004. In addition, the Company determined the value of the mortgage servicing right had declined \$100,000 and \$230,000 for the six months ended March 31, 2005 and 2004. The mortgage servicing right was 1.17% of mortgage loans serviced for others at March 31, 2005, compared to 1.19% at March 31, 2004.

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

The following table provides a detailed analysis of the changes in components of noninterest income:

	Six Months Ended March 31, 2005	Increase / (Decrease) from March 31, 2004	Percentage Increase / (Decrease)

(dollars in thousands)			
Service fees and charges	\$3,911	\$436	12.5%
Gain on sale of loans	140	(204)	(59.3)
Increase in cash surrender value of bank owned life insurance	162	(87)	(34.9)
Loan servicing fees	340	8	2.4
Mortgage servicing rights, net	(154)	(40)	35.1
Other	459	404	734.6

Total noninterest income	\$4,858	\$517	11.9%

Noninterest Expense. Noninterest expense increased \$3.0 million, or 32.9%, to \$12.2 million for the six months ended March 31, 2005 from \$9.2 million for the six months ended March 31, 2004. Excluding the \$1.8 million one-time contribution to the Foundation, noninterest expense increased \$1.2 million, or 13.0%.

The following table provides a detailed analysis of the changes in components of noninterest expense:

	Six Months Ended March 31, 2005	Increase / (Decrease) from March 31, 2004	Percentage Increase / (Decrease)

(dollars in thousands)			
Compensation and benefits	\$ 6,149	\$ 809	15.1%
Occupancy and equipment	1,401	26	1.9
Data processing	819	95	13.1
Advertising	650	135	26.2
Contribution to Foundation	1,825	1,825	100.0
Other	1,406	142	11.2

Total noninterest expense	\$12,250	\$3,032	32.9%

Compensation expense increased due to the establishment of the ESOP, annual merit pay increases, and an increase in the number of employees. As of March 31, 2005, the Company employed 240 full-time equivalent employees, compared to

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

224 at March 31, 2004. Advertising expense increased as a result of additional marketing campaigns in the current fiscal year. Other expenses increased primarily as a result of professional expenses related to being a publicly held company. The efficiency ratio (excluding the charitable contribution to the Foundation and the gain on the sale of the branch), which is defined as the percentage of noninterest expense to net interest income plus noninterest income, decreased to 69.71% for the six months ended March 31, 2005 compared to 71.59% for the six months ended March 31, 2004. By definition, a lower efficiency ratio is an indication that the Company is efficiently utilizing resources to generate net interest income and other fee income.

Income Tax Expense. Income tax expense decreased \$57,000 to \$1.0 million for the six months ended March 31, 2005 from \$1.1 million for the same period a year ago. Income before income taxes was \$2.8 million for the six months ended March 31, 2005 compared to \$3.1 million for the six months ended March 31, 2004. The Company's combined federal and state effective income tax rate for the second quarter was 37.5% compared to 36.1% for the same quarter of the prior fiscal year. The increase in the effective tax rate was as a result of a decrease in noninterest income related to the cash surrender value of the bank owned life insurance which is not subject to income taxes and an increase in nondeductible compensation expense related to the ESOP.

21

Liquidity, Commitments and Capital Resources

Liquidity. The Company actively analyzes and manages the Bank's liquidity with the objectives of maintaining an adequate level of liquidity and to ensure the availability of sufficient cash flows to support loan growth, fund deposit withdrawals, fund operations and satisfy other financial commitments. See "Consolidated Statements of Cash Flows" contained in the Financial Statements included in this document.

The primary sources of funds are customer deposits, loan repayments, loan sales, maturing investment securities, and advances from the FHLB. These sources of funds, together with retained earnings and equity, are used to make loans, acquire investment securities and other assets, and fund continuing operations. While maturities and the scheduled amortization of loans are a predictable source of funds, deposit flows and mortgage prepayments are greatly influenced by the level of interest rates, economic conditions and competition. Management believes that our current liquidity position and our forecasted operating results are sufficient to fund all of our existing commitments.

At March 31, 2005, the Company maintained a line of credit with the FHLB equal to 40% of total assets to the extent the Company provides qualifying collateral and holds sufficient FHLB stock. At March 31, 2005, the Company was in compliance with the collateral requirements and \$49.3 million of the line of credit was available. In addition, the Company holds readily saleable loans and mortgage-backed securities available for sale for liquidity purposes.

At March 31, 2005, certificates of deposits amounted to \$180.6 million, or 48.4% of total deposits, including \$78.7 million which are scheduled to mature by March 31, 2006. Historically, we have been able to retain a significant amount of our deposits as they mature. Management believes the Company has adequate resources to fund all loan commitments through deposits, advances from the FHLB, loan repayments, maturing investment securities, and the sale of mortgage loans in the secondary markets.

Contractual Obligations. On March 31, 2005, the Company selected Open Solutions Inc. for the conversion of the Company's core data processing systems to Open

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

Solutions technology platform for financial institutions. The Company's contract with its current vendor expires November 30, 2005. The contract with Open Solutions Inc. is for a term of 60 months with options to renew for additional successive twenty-four month terms. The Company expects the conversion to be completed in November 2005. The majority of the costs related to the conversion, including software license fees, hardware and conversion costs, will be capitalized and amortized using the straight-line method over their estimated useful life.

Off-Balance Sheet Arrangements. The Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments generally include commitments to originate mortgage, commercial and consumer loans, and involve to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheet. Our maximum exposure to credit loss in the event of nonperformance by the borrower is represented by the contractual amount of those instruments. Since some commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company uses the same credit policies in making commitments as it does for on-balance sheet instruments. Collateral is not required to support commitments.

Undisbursed balances of loans closed include funds not disbursed but committed for construction projects. Unused lines of credit include funds not disbursed, but committed to, home equity, commercial and consumer lines of credit. Commercial letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party.

22

The following is a summary of commitments and contingent liabilities with off-balance sheet risks as of March 31, 2005:

	Contract or Notional Amount ----- (in thousands)
Commitments to originate loans:	
Fixed rate	\$12,167
Adjustable rate	6,542
Undisbursed balance of loans closed	19,130
Unused lines of credit	23,815
Commercial letters of credit	69

Total	\$61,723 -----

Capital. Consistent with our objective to operate a sound and profitable financial institution, the Company has maintained and will continue to focus on maintaining a "well capitalized" rating from regulatory authorities. In addition, the Company is subject to certain capital requirements set by our regulatory agencies. At March 31, 2005, the Company exceeded all regulatory capital requirements. Total equity of the Company was \$101.9 million at March 31, 2005, or 15.8% of total assets on that date.

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

The Bank's regulatory capital ratios at March 31, 2005 were as follows: Tier 1 capital of 12.40%; Tier 1 risk-based capital of 20.51%; and total risk-based capital of 21.26%. The regulatory capital requirements to be considered well capitalized are 5%, 6%, and 10%, respectively.

Item 3 - Quantitative and Qualitative Disclosures about Market Risk

Our Board of Directors has established an asset and liability management policy to guide management in maximizing net interest spread by managing the differences in terms between interest-earning assets and interest-bearing liabilities while maintaining acceptable levels of liquidity, capital adequacy, interest rate sensitivity, credit risk and profitability. The Asset Liability Management Committee, consisting of certain members of senior management, communicate, coordinate and manage our asset/liability positions consistent with our business plan and Board-approved policies, as well as to price savings and lending products, and to develop new products.

One of our primary financial objectives is to generate ongoing profitability. The Company's profitability depends primarily on its net interest income, which is the difference between the income it receives on its loan and investment portfolio and its cost of funds, which consists of interest paid on deposits and borrowings. The rates we earn on assets and pay on liabilities generally are established contractually for a period of time. Market interest rates change over time. Our loans generally have longer maturities than our deposits. Accordingly, our results of operations, like those of other financial institutions, are affected by changes in interest rates and the interest rate sensitivity of our assets and liabilities. We measure our interest rate sensitivity on a monthly basis using an internal model.

Management employs various strategies to manage our interest rate sensitivity including: (1) selling long-term fixed-rate mortgage loans in the secondary market to Fannie Mae, Freddie Mac and the FHLB; (2) borrowing intermediate to long-term funds at fixed rates from the FHLB; (3) originating consumer loans at shorter maturities or at variable rates; (4) originating adjustable rate mortgage loans; (5) appropriately modifying loan and deposit pricing to capitalize on the then current market opportunities; and (6) increasing lower cost core deposits, such as savings and checking accounts. At March 31, 2005, the Company had no off-balance sheet derivative financial instruments, and the Bank did not maintain a trading account for any class of financial instruments or engage in hedging activities or purchase high risk derivative instruments. Furthermore, the Company is not subject to foreign currency exchange rate risk or commodity price risk.

There has not been any material change in the market risk disclosures contained in the Company's Annual Report on Form 10-K for the year ended September 30, 2004.

23

Item 4 - Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

An evaluation of the Company's disclosure controls and procedures (as defined in

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

Section 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Act")) was carried out under the supervision and with the participation of the Company's Chief Executive Officer, Chief Financial Officer, and other members of the Company's management team as of the end of the period covered by this quarterly report. The Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures as currently in effect are effective in ensuring that the information required to be disclosed by the Company in the reports it files or submits under the Act is (i) accumulated and communicated to the Company's management (including the Chief Executive Officer and Chief Financial Officer) in a timely manner, and (ii) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms.

(b) Changes in Internal Controls.

In the quarter ended March 31, 2005, the Company did not make any changes in, nor take any corrective actions regarding its internal controls or other factors, that could materially affect these controls. The Company intends to continually review and evaluate the design and effectiveness of its disclosure controls and procedures and to improve its controls and procedures over time and to correct any deficiencies that it may discover in the future. The goal is to ensure that senior management has timely access to all material financial and non-financial information concerning the Company's business. While the Company believes the present design of its disclosure controls and procedures is effective to achieve its goal, future events affecting its business may cause the Company to modify its disclosure controls and procedures.

24

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, the Company is engaged in legal proceedings in the ordinary course of business, none of which are currently considered to have a material impact on the Company's financial position or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On August 12, 2004, the Company's Registration Statement on Form S-1 (File No. 333-113731) was declared effective. On December 6, 2004, the Bank completed the mutual holding company reorganization and minority stock offering. The Company issued 6,083,500 shares of its common stock, \$0.01 par value, that were sold at a price of \$10.00 per share in the subscription offering. As part of the reorganization and minority stock offering, the Company formed and capitalized the Foundation with a one-time contribution of \$1.8 million, which consisted of 146,004 shares of its common stock and \$365,010 in cash. In addition, the Company issued 8,979,246 additional shares to Home Federal MHC, a federally-chartered mutual holding company.

The Company incurred approximately \$2.2 million in expenses as of December 31,

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

2004 in connection with the issuance and distribution of the securities registered. Keefe, Bruyette & Woods, Inc. acted as Investment Advisor to the Company and assisted in the sale of the Company's common stock on a "best efforts" basis. A success fee of \$698,000 was paid to Keefe, Bruyette and Woods, Inc. while the remaining \$1.5 million represented other expenses of the offering. No payments were made directly or indirectly to any directors or officers of the Company or their associates, persons owning ten percent or more of any class of equity securities of the Company, or to affiliates of the Company.

In connection with the minority stock offering, the Company received \$53.6 million in net proceeds after deducting expenses of \$2.2 million and net of unfunded ESOP proceeds of \$5.0 million. The Company invested \$29.3 million of the net proceeds into the Bank in exchange for 100% of the Bank's capital stock. The remaining \$24.3 million in net proceeds was retained by the Company as working capital.

Stock Repurchases. The Company did not repurchase any shares of its outstanding Common Stock during the three months ended March 31, 2005. In addition, the Company has no publicly announced plans to repurchase its common stock.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Submission of Matters to a Vote of Security Holders

Not applicable.

Item 5. Other Information

Not applicable.

25

Senior Vice President and
Chief Financial Officer
(Principal Financial and Accounting
Officer)

EXHIBIT 31.1

Certification of Chief Executive Officer Pursuant to
Section 302 of the Sarbanes-Oxley Act of 2002

I, Daniel L. Stevens, President and Chief Executive Officer of Home Federal Bancorp, Inc., certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Home Federal Bancorp, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and we have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fiscal fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent

Edgar Filing: HOME FEDERAL BANCORP INC - Form 10-Q

functions):

- (a) All significant deficiencies and material weakness in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial data information; and
- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting
